Chair Srinivasan closed public comment.

3) Recommend the Silicon Valley Clean Energy Board of Directors Authorize the Chief Executive Officer to Approve or Execute Agreements with Firms Providing Services to Initiate Silicon Valley Clean Energy to Execute its Fourth Prepay (Action)

Amrit Singh, Chief Financial Officer (CFO) and Director of Administrative Services, introduced the item and Mike Berwanger of PFM Financial Advisors LLC, SVCE's municipal advisor. CFO Singh provided a presentation with a request for the committee to recommend the Board of Directors authorize the CEO to approve or execute agreements for a total cost of \$1,300,000 with firms providing services to enable SVCE to execute its fourth prepay. The list of firms identified in addition to the cost for each (with an approximate 10 percent contingency) follows:

1. PFM Financial Advisors LLC & PFM Swap Advisors - \$275,000
2. Chapman & Cutler (Disclosure/Issuer's Counsel) - \$175,000
3. Ballard Spahr (Bond and Tax Counsel) - \$250,000
4. Moody's Investor Service Inc. (Credit Rating) - \$321,500

CFO Singh noted that with the exception of Moody's Investor Service Inc., all payments would be contingent on the execution of the prepay transaction and the agreements could be executed through the California Community Choice Financing Authority (CCCFA).

In addition to the request to approve or execute the agreements listed above, staff requested the committee recommend the Board of Directors approve Morgan Stanley as the Prepay Supplier with the following proposed fee structure:

- Bond underwriting fee of \$5.50/bond plus underwriter expenses of \$0.50/bond
- Energy Service Revenue of \$1.10 per MWh
- If floating rate debt is issued, up to 12 basis points charge on interest rate swap

CFO Singh noted the costs from Morgan Stanley would be paid from the bond proceeds.

Main areas of discussion in the presentation included an overview of the prepay goal and structure, a recap on leveraging the existing prepay structure, fees for consultants and counsel, fiscal impact, and committee and Board authorization on transaction parameters.

CFO Singh and Mr. Berwanger responded to committee member questions regarding SVCE's credit rating, time of issuance and Bond market volatility, the financial advisor and energy prepay supplier request for proposals (RFP) process, SVCE's load percentage usage, the timeline of bond release to market, and lowering risk factors.

Chair Srinivasan opened public comment.

No speakers.

Chair Srinivasan closed public comment.

MOTION: Vice Chair Showalter moved and Alternate Director Mohan seconded the motion to recommend the Silicon Valley Clean Energy Board of Directors Authorize the Chief Executive Officer to approve or execute contracts for services for SVCE's fourth prepay transaction and also recommend that the Board approve engagement with Morgan Stanley as the Prepay Supplier.

The motion carried with Director Scozzola absent.

4) Results of Stress Test Analyses (Discussion)

CFO Singh and Scott Wrigglesworth, Director of Risk Management and Analytics, presented the findings of the stress test analyses that staff will use to develop the next fiscal year budget. The presentation included information on the following:

- Review of enterprise risk management (ERM) framework;
- Review of key financial risk drivers;
- An overview of SVCE's planning and budgeting process;
- 5-year financial base case forecast update;
- Stress test construction; and
- Comparison of the updated base case and stress test scenario

Staff reviewed initial recommendations for no major changes for developing the budget for approval in September and adjusting the budget in December when there is more certainty on next year's rates. Staff noted work would be done to assess potential financial levers and areas of focus.

Staff responded to committee member questions regarding potential future black swan events, uncertainties in energy markets, the power charge indifference adjustment (PCIA) and PG&E generation rates, and current reserve levels.

Chair Srinivasan opened public comment.

No speakers.

Chair Srinivasan closed public comment.

5) FY 2025-2026 Budget Framework (Discussion)

Alternate Director Mohan left the meeting during Item 5 at 11:59 a.m.

CFO Singh presented the budget framework, which included information on revenue modeling and 2026 revenue projections, reserve targets, customer discount rate programs, set aside for reserves, update on power supply expenses, and other potential cost drivers.

Staff noted next steps included further analyzing PG&E's forecast of 2026 generation and PCIA rates, and a draft budget would be presented to the Finance and Administration Committee in August.

Staff responded to committee member questions regarding revenue projections based on available forecasts, and SVCE's clean portfolio position.

Committee members provided supportive comments regarding SVCE hiring goals, usage of reserves, and stress testing efforts.

Chair Srinivasan opened public comment.

No speakers.

Chair Srinivasan closed public comment.

Committee/Staff Remarks

CFO Singh acknowledged SVCE staff for their contributions to the content and materials for the meeting.

Adjournment

Chair Srinivasan adjourned the meeting at 12:14 p.m.

Staff Report – Item 2

Item 2: Recommend the SVCE Board of Directors Adopt Resolution Authorizing the Chief Executive Officer to Execute the Power Supply Contract with the California Community Choice Financing Authority and Related Supporting Agreements

From: Monica Padilla, CEO

Prepared by: Amrit Singh, CFO and Director of Administrative Services
Zakary Liske, Deputy Director of Power Resources

Date: 8/4/2025

RECOMMENDATION

Staff requests the Finance and Administration Committee recommend that the Board of Directors ("Board" or "BOD") adopt a resolution authorizing the Chief Executive Officer (CEO) to execute the Power Supply Contract with the California Community Choice Financing Authority (CCCFA) and execute or approve¹ the related supporting agreements to enable SVCE to enter an approximately 30-year energy prepayment transaction. These contracts and agreements are in substantially negotiated form, and staff requests that the Board authorize the CEO to make any minor clarifying modifications necessary that do not change the intent or economics of the transaction.

The Board's authorization will be subject to the following parameters.

1. The Bonds, issued by CCCFA, will not be guaranteed obligations of SVCE but will be limited obligations of CCCFA payable solely from the revenues and other amounts pledged under the Indenture as the Trust Estate, including amounts owed by SVCE under the Power Supply Contract.
2. The aggregate principal amount of the Bonds shall not exceed \$1,250,000,000.
3. The energy savings to SVCE under the Power Supply Contract for the initial Bond Reset Period, including the Annual Refund (as defined in the Power Supply Contract), shall be at least 8 percent.²
4. The energy Service Revenue fee in the transaction shall not exceed \$1.10 per MWh.
5. The commodity swap counterparty fee in the transaction shall not exceed \$0.50 per MWh.
6. If any floating rate bonds are issued, Morgan Stanley shall charge no more than six basis points on the interest rate swap spread to mid-market.

Staff also requests the Finance and Administration Committee recommend the Board authorize the CEO to enter into agreements with credit rating agencies, generally, to provide a credit rating for the bonds.

BACKGROUND

At its meeting on June 11, 2025, the Board approved the Finance and Administration Committee's recommendation to authorize staff's request to pursue a fourth prepay transaction. At that meeting, SVCE staff provided an overview of SVCE's prior prepay transactions along with the new proposed transaction at its June 11th, 2025 Board meeting. The staff report is available [here](#) and the presentation is available [here](#).

¹ The CCCFA will be a counterparty to many of these agreements.

² The 8 percent saving is relative to a fixed price for energy deliveries under the power supply contract that will be established at the time of the pricing of the bonds using available energy market prices and other information that will be reviewed and approved by SVCE's financial advisor, PFM Financial Advisors LLC.

ANALYSIS & DISCUSSION

The initial term of the bonds is expected to be about 5-10 years, and SVCE will not execute the transaction unless, at a minimum, we can achieve an energy savings discount of at least 8 percent during the initial bond period. The actual discount will depend on the spread between taxable and tax-exempt rates. At the end of the initial term, the bonds will be refinanced, and the terms of the discount will be set per the attached Repricing Agreement. Closer to the time of the pricing of the Bonds, the Repricing Agreement will specify a minimum energy savings threshold for the future reset periods, which is currently anticipated to be about four percent. As the transaction moves forward, the remaining shorter tenor of the deal will place downward pressure on future discounts.

The risks to SVCE are minimal as the debt will not be recourse to SVCE. If for any reason the structure falls apart, the energy contract(s) assigned to the Prepay will revert to SVCE, and the loss to SVCE will be the staff time spent on the project and the future savings expected to be generated by the prepayment transaction. The initial consultant and attorney fees are all contingent upon the execution of the transaction and will be financed from the bond proceeds. These fees, excluding underwriting fees, are estimated to be about \$1.1 million (see Attachment 15).

The transaction is expected to cover about 12 percent of our load. Combined with the first three Prepays, on average, the total load coverage is expected to be around 51 percent.

When the Board approves the Prepay transaction, the transaction will include a commodity swap agreement with a Swap counterparty. SVCE expects the swap counterparty fee not to exceed \$0.50 MWh.

In June 2025, the Board authorized the CEO to pay for a credit rating from Moody's Investor Service Inc. While Moody's has rated SVCE's prior transactions, it is possible other rating agencies are able to rate the bonds for a fee not to exceed the prior authorization, \$321,500.

SUMMARY OF THE TRANSACTION DOCUMENTS

These are the agreements that SVCE will sign once the Board authorized parameters are met:

Power Supply Contract – The agreement is between SVCE and CCCFA, and it provides for the sale of clean energy from CCCFA to SVCE for the term of the prepayment (Attachment 2).

Assigned PPA Payments Custodial Agreement – This agreement is by and among SVCE, CCCFA, Morgan Stanley, MSCG and the Custodian Bank on handling cashflows among the parties and making the required payments to the energy/PPA supplier (Attachment 3).

Forms of Limited Assignment Agreement – These agreements, by and among (i) SVCE, the counterparty to the power purchase agreement described therein, and MSCG or (ii) SVCE, the counterparty to the power purchase agreement described therein, CCCFA and the Prepaid Supplier (Attachment 4).

Letter Agreement Regarding PPA Assignments – The agreement is by and among SVCE, CCCFA, and MSCG and the Prepaid Supplier, and it details the terms of assigning PPAs that SVCE has with a current or future energy supplier (Attachment 5).

Project Administration Agreement – This agreement is between SVCE and CCCFA. The agreement sets the terms for SVCE to act on behalf of the issuer such as scheduling for the energy (Attachment 6).

Memorandum of Understanding between SVCE, Morgan Stanley and CCCFA indemnifying CCCFA against certain ratings fees should the transaction not close (Attachment 7).

The following are the major agreements of the prepayment transaction that CCCFA will execute:

Agenda Item: 2**Agenda Date: 8/4/2025**

Trust Indenture – This agreement is between CCCFA and the Trustee and sets forth the terms of bond issuance, rights of bondholders, and security of the cashflows of CCCFA to ensure principal and interest payments to the bondholders (Attachment 8).

Prepaid Agreement – This agreement is between CCCFA and Morgan Stanley, and it details the terms of prepayment by CCCFA to Morgan Stanley and the flow of energy from Morgan Stanley to CCCFA. The terms of this agreement largely mirror those of the Power Supply Contract between SVCE and CCCFA (Attachment 9).

Re-pricing agreement – This agreement is between CCCFA and Morgan Stanley and sets the terms for remarketing and repricing of bonds at future bond repricing periods and the terms for calculation of future energy price discounts that will be offered to SVCE (Attachment 10).

Also attached is the Preliminary Official Statement (POS) that will be used to market the bonds and provides information on the energy prepayment transaction, including the key terms of the transaction. The Appendix A of this document includes background information on SVCE, including the formation of SVCE, service area, customers, sources of clean energy, and other information to inform bondholders on the financial and operational strength of the organization (Attachment 11).

STRATEGIC PLAN

Entering a Prepayment transaction will further Goals #4, #5, and #6 of the SVCE Strategic Plan:

Goal #4: Acquire power supply resources in a cost-effective manner to meet legislative and regulatory obligations, Board directives and customer specific products.

Goal #5: Manage and optimize power supply resources to meet affordability, GHG reduction, and reliability objectives.

Goal #6: Maintain a healthy financial position; avoid failures in management of market risk, credit risk, liquidity risk, operational risk, and enterprise risk.

FISCAL IMPACT

The proposed prepayment transaction could save SVCE about \$4 to \$6 million per year during the initial term of the bonds. The actual savings will depend on the spread between taxable and tax-exempt rates. Actual savings will not be known until the deal closes.

SILICON VALLEY CLEAN ENERGY AUTHORITY

RESOLUTION 2025-[]

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE SILICON VALLEY CLEAN ENERGY AUTHORITY AUTHORIZING THE EXECUTION AND DELIVERY OF A POWER SUPPLY CONTRACT AND CERTAIN OTHER DOCUMENTS IN CONNECTION WITH THE ISSUANCE OF THE CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY CLEAN ENERGY PROJECT REVENUE BONDS; AND CERTAIN OTHER ACTIONS IN CONNECTION THEREWITH

WHEREAS, The Silicon Valley Clean Energy Authority (“SVCE”) was formed as a community choice aggregation agency (“CCA”) on March 31, 2016, under the Joint Exercise of Power Act, California Government Code sections 6500 *et seq.* (the “Act”), among the City of Campbell, City of Cupertino, City of Gilroy, City of Los Altos, Town of Los Altos Hills, Town of Los Gatos, City of Monte Sereno, City of Morgan Hill, City of Mountain View, County of Santa Clara (Unincorporated Area), City of Saratoga and City of Sunnyvale, to study, promote, develop, conduct, operate, and manage energy-related climate change programs in all of the member jurisdictions. The city of Milpitas, located in Santa Clara County, was added as a member of SVCE and a party to the Joint Powers Agreement (as defined below) in June 2018;

WHEREAS, California Community Choice Financing Authority (the “Issuer”) is a joint powers authority established and organized under the Act, with the power and authority to enter into contracts and issue bonds to assist CCAs in financing the acquisition of supplies of clean energy;

WHEREAS, the Issuer is authorized by its Joint Powers Agreement to acquire supplies of clean energy by any means and to issue revenue bonds to finance the cost of acquisition of such supplies, and is vested with all powers necessary to accomplish the purposes for which it was created;

WHEREAS, SVCE has determined that it is desirable to acquire a long-term supply of clean energy from the Issuer;

WHEREAS, SVCE is requesting that the Issuer agree to purchase certain quantities of clean energy from a Delaware limited liability company (the “Prepaid Supplier”), the sole member of which is Morgan Stanley Capital Group Inc., a Delaware corporation (“MSCG”), on a prepaid basis (the “Project”) and to sell such clean energy to SVCE, as described herein;

WHEREAS, SVCE is requesting that the Issuer finance the costs of the Project with the proceeds of its Clean Energy Project Revenue Bonds, with such series designation(s) as is determined by CCCFA (the “Bonds”);

WHEREAS, SVCE has determined to authorize the officers of SVCE to take all necessary action to accomplish the purchase of clean energy from the Issuer and to assist the Issuer in the issuance, sale and delivery of the Bonds; and

WHEREAS, there have been made available to the Board of Directors of SVCE for approval forms of the following agreements to which SVCE is a party (collectively, the “SVCE Documents”):

1. Power Supply Contract between SVCE and the Issuer;
2. Custodial Agreement by and among SVCE, CCCFA Morgan Stanley Capital Group Inc., a Delaware corporation (“MSCG”), the Prepaid Supplier, and the custodian to be named therein;
3. Forms of Limited Assignment Agreements, by and among (i) SVCE, the counterparty to the power purchase agreement described therein, and MSCG or (ii) SVCE, the counterparty to the power purchase agreement described therein, CCCFA and the Prepaid Supplier;
4. Letter Agreement among SVCE, the Prepaid Supplier and MSCG regarding matters relating to Assignment Agreements; and
5. Prepaid Energy Project Administration Agreement, by and between SVCE and the Issuer; and
6. Memorandum of Understanding between SVCE and the Issuer indemnifying Issuer against certain ratings fees.

WHEREAS, there have also been made available to the Board of Directors of SVCE forms of the following additional documents relating to the Project:

1. Trust Indenture (the “Indenture”) between the Issuer and the trustee to be named therein, providing for, among other things, the issuance of and security for the Bonds;
2. Prepaid Energy Sales Agreement (the “Prepaid Agreement”) between the Issuer and the Prepaid Supplier, providing for the delivery of the prepaid energy supply to the Issuer;
3. Re-pricing Agreement (the “Re-pricing Agreement”) between the Issuer and the Prepaid Supplier providing for the remarketing or refunding of the Bonds from time to time and the establishment of the Monthly Discount available to SVCE under the Power Supply Agreement from time to time during the term of the transaction; and
4. Preliminary Official Statement (the “Preliminary Official Statement”), to be used in connection with the offering and sale of the Bonds, including the information relating to SVCE included in Appendix A thereto (the

Indenture, the Prepaid Agreement, the Re-pricing Agreement and the Preliminary Official Statement, together with the SVCE Documents, the “Project Documents”);

NOW THEREFORE, BE IT RESOLVED by the SVCE Board of Directors, as follows:

Section 1. The proposed forms of the SVCE Documents, as made available to the Board of Directors for this meeting, are hereby approved. The form of Limited Assignment Agreement may be used, in substantially the same form, for the initial assignments of SVCE power purchase agreements, and in a similar form for additional power purchase agreements as needed to maintain the transactions approved hereby, with such changes as may be necessary to conform to the requirements of such power purchase agreement or as may be necessary to effect such assignment, and any such Limited Assignment Agreements shall be included in the SVCE Documents hereby approved. Subject to the parameters set forth in Section 4 of this Resolution, any of the Chief Executive Officer, Chief Operations Officer, Chair of the Board, the Director of Finance (each an “Authorized Officer”) is hereby authorized and directed, for and on behalf of SVCE, to execute and deliver the SVCE Documents in substantially said form, with such changes and insertions therein as the Authorized Officer executing the same may approve, such approval to be conclusively evidenced by the execution and delivery thereof.

Section 2. The proposed form of the Preliminary Official Statement, as made available to the Board of Directors for this meeting, is hereby approved. Any Authorized Officer is hereby authorized and directed, for and on behalf of SVCE, to execute and deliver a certificate as to the information regarding SVCE contained therein and in the final version of the Official Statement, with such changes and insertions therein as the Authorized Officer approving the same may deem necessary or appropriate. Subject to approval by the Issuer, SVCE hereby authorizes the distribution of the Preliminary Official Statement to persons who may be interested in the purchase of the Bonds, and the delivery of the Official Statement in final form to the purchasers of the Bonds, in each case with such changes as may be approved as aforesaid.

Section 3. Each Authorized Officer is hereby authorized and directed, for and in the name and on behalf of SVCE, to execute and deliver any and all documents, including, without limitation, any tax certificate relating to its expected use of the energy to be purchased by it from the Project, any continuing disclosure certificate or similar agreement required for the offering or sale of the Bonds, and any and all closing certificates to be executed in connection with the issuance of the Bonds and to take any and all actions which may be necessary or advisable, in the discretion of such Authorized Officers, to effectuate the actions which SVCE has approved in this Resolution, for the issuance, sale and delivery of the Bonds, and to consummate by SVCE the transactions contemplated by the SVCE Documents approved hereby and the other Project Documents presented to the Board herewith, including any subsequent amendments, waivers or consents entered into or given under or in accordance with such documents.

Section 4. The amount of the prepayment to be made under the Prepaid Agreement shall be established using the monthly quantities of energy to be delivered over an approximately 30-year term and a fixed price determined as of the time of pricing using available market prices and other information and reviewed and approved by SVCE's financial advisor (the "Fixed Price"), discounted to present value at an agreed discount rate determined at the time of pricing. The prepaid energy will be delivered by the Issuer to SVCE under the Power Supply Contract at a floating day-ahead index price less a monthly discount stated in dollars per MWh (the "Monthly Discount"). Considering the foregoing, the approvals provided for herein shall be subject to the following parameters:

(a) the Bonds will not be obligations of SVCE, but will be limited obligations of the Issuer payable solely from the revenues and other amounts pledged therefor under the Indenture, including amounts payable by SVCE under the Power Supply Contract;

(b) the aggregate principal amount of the Bonds shall not exceed \$1,250,000,000;

(c) for the initial Reset Period (as defined in the Power Supply Contract), the annual cost savings relative to the Fixed Price with respect to the energy to be delivered to SVCE under the Power Supply Contract for each annual period during the initial Reset Period, taking into account the Monthly Discount and the Annual Refund (as defined in the Power Supply Contract) for each such annual period, shall be at least eight percent (8%);

(d) The energy service revenue fee in the transaction shall not exceed \$1.10 per MWh;

(e) The commodity swap counterparty fee in the transaction shall not exceed \$0.50 per MWh; and

(f) If any floating rate bonds are issued, Morgan Stanley shall charge no more than six basis points on the interest rate swap spread to mid-market.

Section 5. Execution and delivery of the SVCE Documents by an Authorized Officer or Officers shall be conclusive evidence that the parameters set forth in Section 4 have been met, and all actions heretofore taken by the Authorized Officers with respect to the issuance of the Bonds are hereby ratified, confirmed and approved.

Section 6. If the conditions set forth in Section 4 have been met, an Authorized Officer may direct the payment to professionals that provided services to SVCE in connection with the Project. These professional services include legal counsel, bond counsel, tax counsel, Municipal Financial Advisor, Swap Advisor, and any other consultant needed to complete the transactions contemplated herein for SVCE. Payment to these professionals will be made from the proceeds of the sale of the Bonds and pursuant to the terms of the applicable agreement executed with SVCE.

Section 7. If the conditions set forth in Section 4 have been met, an Authorized Officer may direct the payment to additional vendors and/or parties to the SVCE Documents or other Project Documents to complete the issuance of the Bonds. These vendors, if any, will be paid pursuant to an agreement for services rendered in completing the issuance of the Bonds and from the proceeds of the sale of the Bonds.

Section 8. This Resolution shall take effect immediately.

ADOPTED AND APPROVED at a regular meeting of the SVCE Board of Directors on this 13th day of August, 2025.

POWER SUPPLY CONTRACT

This Power Supply Contract (hereinafter, this “Agreement”) is made and entered into as of [____], 2025 (the “Execution Date”), by and between California Community Choice Financing Authority, a joint powers authority and a public entity of the State of California established pursuant to the provisions of the Joint Exercise of Powers Act (Article 1, Chapter 5, Division 7, Title 1, Section 6500 *et seq.* of the California Government Code, as amended) (“Issuer”) and Silicon Valley Clean Energy Authority, a joint powers authority and a community choice aggregator organized under the Laws of the State of California (“Purchaser”).

W I T N E S S E T H:

WHEREAS, Issuer has planned and developed a project to acquire long-term Energy supplies from Energy Prepay IX, LLC (“Prepay LLC”) pursuant to a Prepaid Energy Sales Agreement (as amended, restated, supplemented or otherwise modified from time to time, the “Prepaid Agreement”) to meet a portion of the Energy supply requirements of Purchaser through an energy prepayment project (the “Clean Energy Project”); and

WHEREAS, Issuer will finance the prepayment under the Prepaid Agreement, and the other costs of, the Clean Energy Project by issuing the Bonds; and

WHEREAS, Purchaser is a joint powers authority organized pursuant to the provisions of Title 1, Division 7, Chapter 5, Article 1 (Section 6500 *et seq.*) of the California Government Code and a community choice aggregator pursuant to the provisions of Section 366.2 of the California Public Utilities Code with authority to sell electricity to retail electric consumers within its service area; and

WHEREAS, Purchaser is agreeable to purchasing a portion of its Energy requirements from Issuer under the terms and conditions set forth in this Agreement and Issuer is agreeable to selling to Purchaser such supplies of Energy under the terms and conditions set forth in this Agreement; and

WHEREAS, concurrently with the execution of this Agreement, Purchaser has assigned to Prepay LLC certain Assigned Rights and Obligations, including the right to receive Assigned Product, which Assigned Product will be delivered to Issuer under the Prepaid Agreement and then resold by Issuer hereunder; and

WHEREAS, as a condition precedent to the effectiveness of the Parties’ obligations under this Agreement, Issuer shall have entered into the Prepaid Agreement and shall have issued the Bonds.

NOW, THEREFORE, in consideration of the premises and mutual covenants set forth in this Agreement and for other good and valuable consideration, the receipt and sufficiency

of which are hereby acknowledged, Issuer and Purchaser (the “Parties” hereto; each is a “Party”) agree as follows:

ARTICLE I DEFINITIONS

Section 1.1 Defined Terms. The following terms, when used in this Agreement and identified by the capitalization of the first letter thereof, have the respective meanings set forth below, unless the context otherwise requires:

“Affiliate” means, with respect to either Party, any entity which is a direct or indirect parent or subsidiary of such Party or which directly or indirectly (i) owns or controls such Party, (ii) is owned or controlled by such Party, or (iii) is under common ownership or control with such Party. For purposes of this definition, “control” of an entity means the power, directly or indirectly, either to (a) vote 50% or more of the securities having ordinary voting power for the election of directors or Persons performing similar functions or (b) direct or cause the direction of the management and policies, whether by contract or otherwise.

“Agreement” has the meaning specified in the preamble and shall include exhibits, recitals and attachments referenced herein and attached hereto and all amendments, supplements and modifications hereto and thereto.

“Annual Quantity” means, with respect to each Contract Year of the Delivery Period, the quantity (in MWh) of Assigned Product for such Contract Year as set forth on Exhibit A-3; provided that the Annual Quantity for any Contract Year shall be reduced by the aggregate amount of any quantities of Base Energy required to be remarketed under this Agreement for any given Contract Year.

“Annual Refund” means the annual refund, if any, provided to Purchaser and calculated pursuant to the procedures specified in Section 3.2(c).

“Applicable Rating Agencies” means, at any given time, each Rating Agency then rating the Bonds.

“Assigned Delivery Point” has the meaning specified in the applicable Assignment Agreement.

“Assigned Energy” has the meaning specified in the applicable Assignment Agreement; provided that any Assigned Energy shall be EPS Compliant Energy as set forth in the Assignment Letter Agreement.

“Assigned Paygo Quantity” means any Assigned Products delivered under this Agreement in excess of the Annual Quantity for any Contract Year.

“Assigned PPA” has the meaning specified in the Participant Custodial Agreement.

“Assigned PPA Index Adder” means the amount (in \$/MWh) specified in Exhibit A-2 for each Month of the Delivery Period.

“Assigned Product” means, as applicable, PCC1 Product, Long-Term PCC1 Product, PCC2 Product, Assigned Energy, Assigned RECs and any other product included in an Assignment Agreement.

“Assigned RECs” means any RECs to be delivered to MSCG or Prepay LLC pursuant to any Assigned Rights and Obligations.

“Assigned Rights and Obligations” means a portion of Purchaser’s rights and obligations under a power purchase agreement assigned pursuant to an Assignment Agreement.

“Assignment Agreement” means the Initial Assignment Agreement and any subsequent assignment agreement entered into consistent with the Assignment Letter Agreement.

“Assignment Letter Agreement” means that certain Letter Agreement, dated as of [the date hereof], by and among MSCG, Prepay LLC, Issuer and Purchaser.

“Assignment Period” has the meaning specified in the applicable Assignment Agreement.

“Available Discount” means, for each Reset Period, the amount, expressed in cents per MWh (rounded down to the nearest one-half cent), determined by the Calculation Agent pursuant to the Re-Pricing Agreement for such Reset Period. The Available Discount shall equal the sum of the Monthly Discount and any anticipated Annual Refunds for the applicable Reset Period.

“Balancing Authority” has the meaning specified in the CAISO Tariff.

“Base Energy” means Firm (LD) Energy.

“Billing Date” has the meaning specified in Section 14.1(b).

“Billing Statement” has the meaning specified in Section 14.1(b).

“Bond Closing Date” means the first date on which the Bonds are issued pursuant to the Bond Indenture.

“Bond Indenture” means (i) the Trust Indenture to be entered into prior to the commencement of the Delivery Period between Issuer and the Trustee, as supplemented and amended from time to time in accordance with its terms, and (ii) any trust indenture entered into in connection with the commencement of any Interest Rate Period after the initial Interest Rate Period between Issuer and the Trustee containing substantially the same terms as the indenture described in clause (i) and which is intended to replace the indenture described in clause (i) as of the commencement of such Interest Rate Period.

“Bonds” means the bonds issued pursuant to the Bond Indenture.

“Business Day” means any day other than (i) a Saturday or Sunday, (ii) a Federal Reserve Bank Holiday, (iii) any other day on which commercial banks in either New York,

New York or the State of California are authorized or required by Law to close, or (iv) any other day excluded pursuant to the Bond Indenture.

“CAISO” means California Independent System Operator or its successor.

“CAISO Tariff” means CAISO’s FERC-approved tariff, as modified, amended or supplemented from time to time.

“Calculation Agent” has the meaning specified in the Re-Pricing Agreement.

“California Long-Term Contracting Requirements” means the long-term contracting requirement set forth in the Clean Energy and Pollution Reduction Act of 2015 (SB 350), California Public Utilities Code section 399.13(b), and CPUC Decision 17-06-026 and CPUC Decision 18-05-026, as may be modified by subsequent decision of the California Public Utilities Commission or by other Law.

“CCA Revenues” means all charges received for, and all other income and receipts derived by Purchaser from, the operation of its CCA System, including income derived from the sale of electric energy by its CCA System.

“CCA System” means Purchaser’s community choice aggregation program that provides electric energy supply service to retail customers located within its service area.

“Claiming Party” has the meaning specified in Section 11.1.

“Claims” means all claims or actions, threatened or filed, that directly or indirectly relate to the indemnities provided herein, and the resulting losses, damages, expenses, attorneys’ fees, experts’ fees, and court costs, whether incurred by settlement or otherwise, and whether such claims or actions are threatened or filed prior to or after the termination of this Agreement.

“Clean Energy Project” has the meaning specified in the recitals.

“Code” means the Internal Revenue Code of 1986, as amended.

“Commercially Reasonable” or “Commercially Reasonable Efforts” means, with respect to any purchase or sale or other action required to be made, attempted or taken by a Party under this Agreement, such efforts as a reasonably prudent Person would undertake for the protection of its own interest under the conditions affecting such purchase or sale or other action, including without limitation, the amount of notice of the need to take such action, the duration and type of the purchase or sale or other action, the competitive environment in which such purchase or sale or other action occurs, and the risk to the Party required to take such action.

“Contract Price” means (i) with respect to Monthly Projected Quantities, (A) the Day-Ahead Average Price, minus (B) the Monthly Discount; and (ii) with respect to Monthly Excess Quantities and Assigned Paygo Quantities, the Day-Ahead Average Price. For the avoidance of doubt, the Contract Price for Assigned Energy is inclusive of any amounts due in respect of other Assigned Products.

“Contract Quantity” means (i) with respect to Assigned Energy, the Annual Quantity of Assigned Energy for each Contract Year of the Delivery Period; and (ii) with respect to Base Energy, the Hourly Quantity of Base Energy set forth in Exhibit A-1 for any Month, as such Exhibits A-1 and A-2 shall be updated from time to time in accordance with Section 6.2.

“Contract Year” means each period of 12 Months from [] until [] during the Delivery Period.

“Day-Ahead Average Price” means, for any Assigned Energy in any EPS Energy Period, the result of (i) (x) the sum of the Day-Ahead Market Prices for each Pricing Interval in a Month divided by (y) the number of Pricing Intervals in such Month plus (ii) the Assigned PPA Index Adder for the relevant Month. As used in this definition, “Pricing Interval” means each unit of time for which CAISO establishes a separate price.

“Day-Ahead Market Price” means The Day Ahead Market or Locational Marginal Price for the Energy Delivery Point for each applicable hour as published by CAISO, or as such price may be corrected or revised from time to time by such independent system operator or other entity in accordance with its rules.

“Default Rate” means, as of any date of determination, the lesser of (a) the sum of (i) the rate of interest per annum quoted in The Wall Street Journal (Eastern Edition) under the “Money Rates” section as the “Prime Rate” for such date of determination, plus (ii) one percent per annum, or (b) if a lower maximum rate is imposed by applicable Law, such maximum lawful rate.

“Delivery Hours” means each Hour commencing at 00:00 (PPT) on the first day of the Delivery Period, and each Hour thereafter during the Delivery Period.

“Delivery Period” means the period beginning on [], 20[] and ending on [], 20[]; provided that the Delivery Period shall end immediately upon the effective termination date of the Prepaid Agreement or early termination of this Agreement pursuant to Article XVII hereof.

“Delivery Point” means (i) the applicable Assigned Delivery Point(s) for Assigned Energy and (ii) the applicable Energy Delivery Point for Base Energy (as set forth in Exhibits A-1 and A-2).

“Energy” means three-phase, 60-cycle alternating current electric energy, expressed in MWhs.

“Energy Delivery Point” has the meaning specified in Exhibit A-1.

“EPS” means California’s Emissions Performance Standards, as set forth in Sections 8340 and 8341 of the California Public Utilities Code, as implemented and amended from time to time, and any successor Law.

“EPS Compliant Energy” means Energy that Purchaser can contract for and purchase in compliance with EPS requirements that are applicable to Purchaser.

“EPS Energy Period” means the Initial EPS Energy Period and any subsequent Assignment Period established by a future assignment of a power purchase agreement consistent with the Assignment Letter Agreement.

“Execution Date” has the meaning specified in the preamble.

“Federal Tax Certificate” means the executed Federal Tax Certificate delivered by Purchaser in the form attached as Exhibit D.

“FERC” means the Federal Energy Regulatory Commission and any successor thereto.

“Firm (LD)” means, with respect to the obligation to deliver Energy, that either Party shall be relieved of its obligations to sell and deliver or purchase and receive without liability only to the extent that, and for the period during which, such performance is prevented by Force Majeure.

“Force Majeure” means an event or circumstance which prevents one Party from performing its obligations under this Agreement, which event or circumstance was not anticipated as of the Execution Date, which is not within the reasonable control of, or the result of the negligence of, the Claiming Party, and which, by the exercise of due diligence, the Claiming Party is unable to overcome or avoid or cause to be avoided. Force Majeure shall not be based on (i) the loss of Purchaser’s markets; (ii) Purchaser’s inability economically to use or resell the Energy purchased hereunder; (iii) the loss or failure of Issuer’s supply except if such loss or failure results from curtailment by a Transmission Provider; or (iv) Issuer’s ability to sell the Energy at a higher price. Neither Party may raise a claim of Force Majeure based in whole or in part on curtailment by a Transmission Provider unless (a) such Party has contracted for firm transmission with such Transmission Provider for the Energy to be delivered to or received at the Delivery Point and (b) such curtailment is due to “force majeure” or “uncontrollable force” or a similar term as defined under the Transmission Provider’s tariff; *provided*, however, that existence of the foregoing factors shall not be sufficient to conclusively or presumptively prove the existence of Force Majeure absent a showing of other facts and circumstances which in the aggregate with such factors establish that Force Majeure as defined in the first sentence hereof has occurred. Notwithstanding the foregoing or anything to the contrary herein, (I) any invocation of Force Majeure by Prepay LLC under the Prepaid Agreement shall constitute Force Majeure in respect of Issuer hereunder; (II) to the extent that (x) a PPA Supplier fails to deliver any Assigned Energy and claims force majeure with respect to such failure to deliver or (y) a PPA Supplier otherwise is unable to deliver any portion of the Annual Quantity due to an event that would be considered Force Majeure under this Agreement if it affected Issuer directly, then such event shall be deemed to constitute Force Majeure in respect of Issuer hereunder; and (III) to the extent that an Assignment Agreement is terminated early, such termination shall constitute Force Majeure with respect to Issuer until the earlier of (A) the commencement of an “Assignment Period” under a replacement Assignment Agreement, (B) the commencement of the delivery of EPS Compliant Energy procured by MSCG

consistent with the Assignment Letter Agreement or (C) the end of the second Month following the Month in which such early termination occurs.

“Government Agency” means the United States of America, any state thereof, any municipality, or any local jurisdiction, or any political subdivision of any of the foregoing, including, but not limited to, courts, administrative bodies, departments, commissions, boards, bureaus, agencies, or instrumentalities.

“Hour” means each 60-minute period commencing at 00:00 PPT during the Delivery Period. The term “Hourly” shall be construed accordingly.

“Hourly Quantity” means, with respect to each Delivery Hour during the Delivery Period, the quantity (in MWh) of Base Energy set forth on Exhibit A-1 for the Month in which such Delivery Hour occurs (as such Exhibit A-1 may be updated from time to time in accordance with Section 6.2).

“Initial Assignment Agreement” means that certain Limited Assignment Agreement dated as of [____], 20[____], by and among Purchaser, MSCG and the Initial PPA Supplier, as from time to time amended, restated, supplemented or otherwise modified.

“Initial EPS Energy Period” means the “Assignment Period” as defined in the Initial Assignment Agreement.

“Initial PPA Supplier” means [____].

“Initial Reset Period” means the period beginning on [____], 20[____] and ending on [____], 20[____].

“Interest Rate Period” has the meaning specified in the Bond Indenture.

“Issuer” has the meaning specified in the preamble.

“Issuer Default” has the meaning specified in Section 17.1.

“Law” means any statute, law, rule or regulation or any judicial or administrative interpretation thereof having the effect of the foregoing enacted, promulgated, or issued by a Government Agency whether in effect as of the Execution Date or at any time in the future.

“Long-Term PCC1 Product” means bundled renewable energy and RECs meeting the requirements of Portfolio Content Category 1, and the California Long-Term Contracting Requirements, to be delivered to MSCG, Prepay LLC or any successors thereto pursuant to any Assigned Rights and Obligations.

“Minimum Discount” means no less than \$[____] per MWh for each Reset Period after the Initial Reset Period. Such amount is inclusive of any projected Annual Refund.

“Month” means, during the Delivery Period, a calendar month. The term “Monthly” shall be construed accordingly.

“Monthly Discount” means (i) for the Initial Reset Period, an amount (when taken together with any Annual Refund) that is not less than the Minimum Discount and is specified in Exhibit F, which Exhibit F shall be provided by Issuer to Purchaser on the Bond Closing Date, and (ii) for each subsequent Reset Period, a portion of the Available Discount for such Reset Period determined by the Calculation Agent pursuant to the Re-Pricing Agreement and set forth in an updated Exhibit F provided by Issuer after such determination.

“Monthly Excess Quantity” means, for any Month, the amount, if any, by which the total quantity (in MWh) of Assigned Product delivered under an Assigned PPA in such Month exceeds the Monthly Projected Quantity for such Assigned PPA for such Month.

“Monthly Projected Quantity” means, with respect to each Assigned PPA and each Month of the Assignment Period for each Assigned PPA, the quantity (in MWh) of Assigned Product for such Month as set forth on Exhibit A-2 for such Assigned PPA (as such Exhibit A-2 may be updated from time to time in accordance with Section 6.2).

“MSCG” means Morgan Stanley Capital Group Inc., a Delaware corporation.

“MWh” means megawatt-hour.

“Non-Priority Energy” means Energy that is not Priority Energy.

“Participant Custodial Agreement” means that certain [Second Consolidated, Amended and Restated Custodial Agreement], dated as of [____], 2025, by and among Purchaser, Issuer, Morgan Stanley Energy Structuring, L.L.C., MSCG and the Participant Custodian, as from time to time amended, restated, supplemented or otherwise modified.

“Participant Custodian” means The Bank of New York Mellon Trust Company, N.A., a national banking association or any successor thereto.

“Party” has the meaning specified in the recitals.

“PCC1 Product” means bundled renewable energy and RECs meeting the requirements of Portfolio Content Category 1 to be delivered to MSCG, Prepay LLC or any successors thereto pursuant to any Assigned Rights and Obligations.

“PCC2 Product” means bundled renewable energy and RECs meeting the requirements of Portfolio Content Category 2 to be delivered to MSCG, Prepay LLC or any successors thereto pursuant to any Assigned Rights and Obligations.

“Person” means any individual, limited liability company, corporation, partnership, joint venture, trust, unincorporated organization or Government Agency.

“Portfolio Content Category 1” means any Renewable Energy Credit associated with the generation of electricity from an “Eligible Renewable Energy Resource” consisting of the portfolio content set forth in California Public Utilities Code Section 399.16(b)(1), as may be amended from time to time or as further defined or supplemented by Law.

“Portfolio Content Category 2” means any Renewable Energy Credit associated with the generation of electricity from an Eligible Renewable Energy Resource consisting of the portfolio content set forth in California Public Utilities Code Section 399.16(b)(2), as may be amended from time to time or as further defined or supplemented by Law.

“Potential Remarketing Event” has the meaning specified in Section 3.4(b).

“PPA Supplier” means the Initial PPA Supplier and any subsequent supplier who enters into an Assignment Agreement consistent with the terms of the Assignment Letter Agreement.

“PPT” means Pacific Prevailing Time.

“Prepaid Agreement” has the meaning specified in the recitals.

“Prepay LLC” has the meaning specified in the recitals.

“Priority Energy” means the Contract Quantity to be purchased by Purchaser under this Agreement, together with Energy that Purchaser is obligated to take under a long-term agreement, which Energy either (i) has been purchased by Purchaser or a joint action agency in a prepayment transaction using the proceeds of bonds, notes, or other obligations, the interest on which is excluded from gross income for federal income tax purposes, or (ii) is generated using capacity that was constructed using the proceeds of bonds, notes, or other obligations, the interest on which is excluded from gross income for federal income tax purposes (provided that, with respect to clause (ii), Priority Energy shall not include Energy that is generated using capacity that was wholly or partially financed through the monetization of renewable tax credits, whether such monetization is accomplished through a tax equity investment or otherwise, or that is generated from federally owned and operated hydroelectric facilities, including through the United States Army Corps of Engineers and the United States Bureau of Reclamation, and marketed by the Bonneville Power Administration or the Western Area Power Administration).

“Project Participant” has the meaning specified in the Bond Indenture.

“Purchaser” has the meaning specified in the preamble.

“Purchaser Default” has the meaning specified in Section 17.2.

“Purchaser’s Statement” has the meaning specified in Section 14.1(a).

“Qualifying Use Requirements” means, with respect to any Energy delivered under this Agreement, such Energy is used (i) for a “qualifying use” as defined in U.S. Treas. Reg. § 1.148-1(e)(2)(iii), (ii) in a manner that will not result in any “private business use” within the meaning of Section 141 of the Code, and (iii) in a manner that is consistent with the Federal Tax Certificate attached as Exhibit D.

“Rating Agency” has the meaning specified in the Bond Indenture.

“Re-Pricing Agreement” means the Re-Pricing Agreement, dated as of the Bond Closing Date, by and between Issuer and Prepay LLC.

“Remarketing Termination Deadline” means, for any Reset Period, the last date and time by which the Purchaser may provide a Remarketing Termination Notice, which shall be 4:00 p.m. PPT on the 10th day of the Month (or, if such day is not a Business Day, the next succeeding Business Day) prior to the first delivery Month of a Reset Period with respect to which a Potential Remarketing Event has occurred.

“Remarketing Termination Notice” has the meaning specified in Section 3.4(b).

“Renewable Energy Credit” or “REC” has the meaning specified for “Renewable Energy Credit” in California Public Utilities Code Section 399.12(h), as may be amended from time to time or as further defined or supplemented by Law.

“Reset Period” means each “Reset Period” under the Re-Pricing Agreement.

“Reset Period Notice” has the meaning specified in Section 3.4(a).

“RPS” means the renewable energy program and policies established by California State Senate Bills 1038 (2002), 1078 (2002), 107 (2008), X-1 2 (2011), 350 (2015), and 100 (2018) as codified in, inter alia, California Public Utilities Code Sections 399.11 through 399.31 and California Public Resources Code Sections 25740 through 25751, as such provisions are amended or supplemented from time to time.

“Schedule”, “Scheduled” or “Scheduling” means the actions of Issuer, Purchaser and/or their designated representatives, including each Party’s Transmission Providers, if applicable, of notifying, requesting and confirming to each other the quantity of Energy to be delivered during any given portion of the Delivery Period at a specified Delivery Point.

“Transmission Provider(s)” means any entity or entities transmitting or transporting Energy on behalf of Issuer or Purchaser to or from the Delivery Point.

“Trustee” means The Bank of New York Mellon Trust Company, N.A., a national banking association, and its successors as Trustee under the Bond Indenture.

“Voided Remarketing Termination Notice” has the meaning specified in Section 3.4(b).

“WREGIS” means the Western Renewable Energy Generation Information System or its successor.

Section 1.2 Definitions; Interpretation. References to “Articles,” “Sections,” “Schedules” and “Exhibits” shall be to Articles, Sections, Schedules and Exhibits, as the case may be, of this Agreement unless otherwise specifically provided. Section headings in this Agreement are included herein for convenience of reference only and shall not constitute a part of this Agreement for any other purpose or be given any substantive effect. Any of the terms defined herein may, unless the context otherwise requires, be used in the singular or the plural,

depending on the reference. The use herein of the word “include” or “including”, when following any general statement, term or matter, shall not be construed to limit such statement, term or matter to the specific items or matters set forth immediately following such word or to similar items or matters, whether or not nonlimiting language (such as “without limitation” or “but not limited to” or words of similar import) is used with reference thereto, but rather shall be deemed to refer to all other items or matters that fall within the scope of such general statement, term or matter. Any reference herein to any agreement or document includes all amendments, supplements or restatements to and of such agreement or document as may occur from time to time, and any reference to a party to any such agreement includes all successors and assigns of such party thereunder permitted by the terms hereof and thereof.

ARTICLE II

EXECUTION DATE AND DELIVERY PERIOD; NATURE OF CLEAN ENERGY PROJECT

Section 2.1 Execution Date; Delivery Period. Unless this Agreement is terminated pursuant to Article XVII, delivery of Energy under this Agreement shall commence and continue for the Delivery Period.

Section 2.2 Termination Due to Failure to Issue Bonds. Each Party shall have a right to terminate this Agreement with the effect that this Agreement shall be of no further force or effect and the Parties shall have no rights or obligations hereunder if the Bonds are not issued on or before the Prepayment Outside Date (as defined in the Prepaid Agreement).

Section 2.3 Nature of Clean Energy Project. Purchaser acknowledges and agrees that Issuer will meet its obligations to provide Energy to Purchaser under this Agreement exclusively through its purchase of long-term supplies of Energy from Prepay LLC pursuant to the Clean Energy Project and that Issuer is financing its purchase of such long-term supplies through the issuance of the Bonds.

Section 2.4 Pledge of this Agreement. Purchaser acknowledges and agrees that Issuer will pledge its right, title, and interest under this Agreement and the revenues to be received under this Agreement to secure Issuer’s obligations under the Bond Indenture.

ARTICLE III

SALE AND PURCHASE

Section 3.1 Sale and Purchase of Energy. Issuer agrees to sell and deliver or cause to be delivered to Purchaser, and Purchaser agrees to purchase and take or cause to be taken from Issuer, in each case, on a Firm (LD) basis, the Contract Quantity of Energy pursuant to the terms and conditions set forth in this Agreement. The Parties acknowledge and agree that Issuer’s delivery obligation for (i) Assigned Products will be measured on an annual basis and (ii) Base Energy will be measured on an Hourly basis, as reflected in the definition of Contract Quantity and further set forth in the terms of this Agreement.

Section 3.2 Payments.

(a) For each MWh of Assigned Product delivered to Purchaser, Purchaser shall pay Issuer the applicable Contract Price, provided that (x) Issuer shall owe a payment to Purchaser to the extent that the Contract Price for Energy delivered is negative and (y) Purchaser's payment of the Retained Payment Amount (as defined in the Participant Custodial Agreement) to the Participant Custodian consistent with the terms of the Participant Custodial Agreement shall satisfy Purchaser's obligations hereunder with respect to Monthly Excess Quantities and Assigned Paygo Quantities, as applicable.

(b) [RESERVED]

(c) During the term of this Agreement, promptly following completion of the annual audit of Issuer's financial statements at the end of each fiscal year (currently the twelve-month period ending December 31), Issuer shall compare its revenues (as determined in accordance with the Bond Indenture) and expenses under the Clean Energy Project for that fiscal year. If this annual comparison demonstrates that such revenues exceeded such expenses during the applicable fiscal year and there are amounts on deposit in the fund established by the Bond Indenture available for such purpose, then Issuer shall make refunds to Purchaser in the amount available after making allowances for any necessary and appropriate reserves and contingencies (including but not limited to amounts deemed reasonably necessary by Issuer to fund any working capital reserve and to reserve or account for unfunded liabilities, including future sinking fund or other principal amortization of the Bonds). As of the Execution Date, the projected Annual Refund for the Initial Reset Period is \$[_____] per MWh.

Section 3.3 No Obligation to Take Base Energy. Notwithstanding anything to the contrary in this Agreement, Purchaser shall not be required to purchase and receive any Base Energy hereunder, and Issuer shall cause Prepay LLC to remarket any portion of the Contract Quantity that is Base Energy pursuant to the provisions of Exhibit C to the Prepaid Agreement.

Section 3.4 Reset Period Remarketing.

(a) Reset Period Notice. For each Reset Period, Issuer shall provide to Purchaser, at least ten (10) days prior to the Remarketing Termination Deadline, formal written notice (a "Reset Period Notice") setting forth (i) the duration of such Reset Period, (ii) the Estimated Available Discount (as defined in the Re-Pricing Agreement) for such Reset Period, and (iii) the applicable Remarketing Termination Deadline. Issuer may thereafter update such notice at any time prior to the Remarketing Termination Deadline and may extend the Remarketing Termination Deadline only to the extent consented to in writing by Prepay LLC.

(b) Remarketing Termination. If the Reset Period Notice (or any update thereto) indicates that the Available Discount in such notice is not at least equal to the Minimum Discount for that Reset Period, then: (i) a "Potential Remarketing Termination Event" shall be deemed to exist, and (ii) Purchaser may, not later than the Remarketing Termination Deadline, issue a written notice in the form attached hereto as Exhibit C (a "Remarketing Termination Notice") to Issuer, Prepay LLC and the Trustee electing for this Agreement and the Assignment Agreements to be terminated; *provided*, however, if the Issuer and Prepay LLC are able to achieve an actual Available Discount, as finally determined under the Re-Pricing Agreement, that is equal to or greater than the Minimum Discount, then Purchaser's Remarketing Termination Notice shall

be void (any such notice, a “Voided Remarketing Termination Notice”), and this Agreement and the Assignment Agreements shall remain in full force and effect for such Reset Period. For the avoidance of doubt, in the event that Purchaser issues a Remarketing Termination Notice (other than a Voided Remarketing Termination Notice), any rights and obligations assigned to Prepay LLC or MSCG, as applicable, under the Initial Assignment Agreement or a subsequent Assignment Agreement including, without limitation, the right to receive Assigned Energy, shall revert to Purchaser as of the end of the Initial Reset Period or the then-current Reset Period, as applicable.

(c) Final Determination of Available Discount. The Parties acknowledge and agree that the final Available Discount for any Reset Period following the Initial Reset Period will be determined on the applicable Re-Pricing Date (as defined in the Re-Pricing Agreement), and that such Available Discount may differ from the estimate or estimates of such Available Discount provided to Purchaser prior to the applicable Remarketing Termination Deadline. Accordingly, the Parties agree that:

(i) the Available Discount for any Reset Period will not be less than the Minimum Discount applicable to such Reset Period, unless Issuer has provided notice of a Potential Remarketing Event to Purchaser in accordance with Section 3.4(b); and

(ii) if Purchaser receives notice of a Potential Remarketing Event and has not provided a Remarketing Termination Notice prior to the applicable Remarketing Termination Deadline, Purchaser shall be deemed to have elected to continue to purchase and receive its Contract Quantity at a Contract Price that reflects the Monthly Discount portion of the Available Discount as finally determined on the applicable Re-Pricing Date, plus Purchaser’s right to its share of Annual Refunds, if any, and all delivery and purchase obligations under this Agreement shall continue in full force and effect for the applicable Reset Period.

(d) Reduction of Contract Quantity. The Parties recognize and agree that the Contract Quantity may be reduced in a Reset Period pursuant to the re-pricing methodology described in the Re-Pricing Agreement if necessary to achieve a successful remarketing of the Bonds. The Parties agree further that if, pursuant to the Re-Pricing Agreement, Issuer and the Calculation Agent determine in connection with the establishment of any new Reset Period that: (i) such Reset Period will be the final Reset Period and (ii) such Reset Period will end prior to the end of the original Delivery Period, then (A) Issuer will notify Purchaser, (B) the Delivery Period will be deemed to be modified so that it ends at the end of such Reset Period, and (C) the Contract Quantity for the last Month in such Reset Period may be reduced as provided in the Re-Pricing Agreement.

ARTICLE IV

FAILURE TO DELIVER OR TAKE ENERGY

Notwithstanding anything herein to the contrary, neither Purchaser nor Issuer shall have any liability or other obligation to one another for any failure to Schedule, take, or deliver Assigned Product.

ARTICLE V TRANSMISSION AND DELIVERY; COMMUNICATIONS

Section 5.1 Delivery of Energy. All Assigned Energy delivered under this Agreement shall be Scheduled at the applicable Assigned Delivery Point and in accordance with the terms of the applicable Assignment Agreement. All other Assigned Product shall be delivered consistent with the terms of the applicable Assignment Agreement. Except as set forth in the two foregoing sentences, Purchaser and Issuer shall have no liability or obligations under this Article V with respect to Assigned Product.

Section 5.2 Scheduling. Scheduling of Assigned Energy shall be in accordance with the applicable Assignment Agreement.

Section 5.3 Title and Risk of Loss. Title to the Energy delivered under this Agreement and risk of loss shall pass from Issuer to Purchaser at the Assigned Delivery Point. The transfer of title and risk of loss for all Assigned Product other than Assigned Energy shall be in accordance with the applicable Assignment Agreement; provided that all Assignment Agreements shall provide for the transfer of Renewable Energy Credits in accordance with WREGIS.

Section 5.4 PCC1 Product, Long-Term PCC1 Product, and PCC2 Product. To the extent that any Assigned Product is PCC1 Product, Long-Term PCC1 Product, or PCC2 Product the following provisions apply:

(a) Eligibility. Seller, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Clean Energy Project qualifies and is certified by the CEC as an Eligible Renewable Energy Resource as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Clean Energy Project's output delivered to Buyer qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. **[STC 6, Non-Modifiable. (Source: D.07-11-025, Attachment A.) D.08-04-009]**. As used above, "Seller" means "Issuer", Buyer means "Purchaser", and any other capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(b) Transfer of Renewable Energy Credits. Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the Renewable Energy Credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially

reasonable efforts to comply with such change in law. **[STC REC-1, Non-modifiable. D.11-01-025]**. As used above, “Seller” means “Issuer”, Buyer means “Purchaser”, and any other capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(c) Tracking of RECs in WREGIS. Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract. **[STC REC-2, Non-modifiable. D.11-01-025]**. As used above, “Seller” means “Issuer”, Buyer means “Purchaser”, and any other capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(d) Governing Law. This Agreement and the rights and duties of the Parties hereunder shall be governed by and construed, enforced and performed in accordance with the laws of the state of California, without regard to principles of conflicts of law. To the extent enforceable at such time, each Party waives its respective right to any jury trial with respect to any litigation arising under or in connection with this Agreement. **[STC 17, Non-Modifiable. (Source: D.07-11-025, Attachment A) D.08-04-009]**

(e) Issuer Representations and Warranties.

Issuer represents and warrants:

- (i) Issuer has the right to sell the Assigned Product from the Applicable Project;
- (ii) Issuer has not sold the Assigned Product or any REC or other attributes of the Assigned Product to be transferred to Purchaser to any other person or entity;
- (iii) the Energy component of the Assigned Product produced by the Applicable Project for PCC2 Product and purchased by Issuer for resale to Purchaser hereunder is not being sold by Issuer back to the Applicable Project or PPA Supplier;
- (iv) Assigned Energy and Assigned RECs to be purchased and sold pursuant to this Agreement are not committed to another party;
- (v) the Assigned Product is free and clear of all liens or other encumbrances;
- (vi) Issuer will deliver to Purchaser all Assigned Energy and associated RECs generated by the Applicable Project for PCC1 Product in compliance with the requirements set forth in California Public Utilities Code 399.16(b)(1) and the California RPS compliance requirements for Portfolio Content Category 2 as set forth in CPUC Decision 11-12-052, if applicable;
- (vii) Issuer will deliver to Purchaser all Assigned Energy and associated RECs generated by the Applicable Project for PCC2 Product in compliance with the requirements set forth in California Public Utilities Code 399.16(b)(2) and the California RPS compliance

requirements for Portfolio Content Category 2 as set forth in CPUC Decision 11-12-052, if applicable;

- (viii) Issuer will deliver to Purchaser all Assigned Energy and associated RECs generated by the Applicable Project for Long-Term PCC1 Product in compliance with the California Long-Term Contracting Requirements, if applicable;
- (ix) the Assigned Product supplied to Purchaser under this Agreement that is Long-Term PCC1 Product will be sourced solely from Applicable Projects that have an Assignment Period of ten (10) years or more in length, or otherwise in compliance with the California Long Term Contracting Requirements; and
- (x) Issuer will cooperate and work with Purchaser, the CEC, and/or the CPUC to provide any documentation required by the CPUC or CEC to support the Product's classification as Portfolio Content Category 1 or Portfolio Content Category 2, as applicable, as set forth in California Public Utilities Code Section 399.16(b)(1) or 399.16(b)(2), as applicable, and compliance with the California Long-Term Contracting Requirements, if applicable.

Issuer further represents and warrants to Purchaser that, to the extent that the PCC1 Product sold by Issuer is a resale of part or all of a contract between Issuer and one or more third parties, Issuer represents, warrants and covenants that the resale complies with the following conditions in (i) through (iv) below during the Assignment Period and throughout the generation period:

- (i) the original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(1);
- (ii) this Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;
- (iii) the electricity transferred by this Agreement is transferred to Purchaser in real time; and
- (iv) if the Applicable Project has an agreement to dynamically transfer electricity to a California balancing authority, the transactions implemented under this Agreement are not contrary to any condition imposed by a balancing authority participating in the dynamic transfer arrangement.

Issuer further represents and warrants to Purchaser that, to the extent that the PCC2 Product sold by Issuer is a resale of part or all of a contract between Issuer and one or more third parties, Issuer represents, warrants and covenants that the resale complies with the following conditions in (i) through (v) below during the Assignment Period and throughout the generation period:

- (i) the original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(2);
- (ii) this Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;
- (iii) this Agreement transfers the original arrangement for substitute electricity (e.g., source and quantity);
- (iv) this Agreement retains the scheduling of the substitute electricity into a California balancing authority as set out in the original firming and shaping transaction; and
- (v) this Agreement continues to provide incremental electricity scheduled into a California balancing authority.

(f) Subsequent Changes in Law. In the event that the qualifications or requirements of the RPS program, PCC1 Product, PCC2 Product or the California Long-Term Contracting Requirements change, Issuer shall take commercially reasonable actions to meet the amended qualifications or requirements of the RPS Law, PCC1 Product, PCC2 Product or the California Long-Term Contracting Requirements but will not be required to incur any unreimbursed costs to comply with the RPS Law, PCC1, PCC2 or the California Long-Term Contracting Requirements, collectively.

(g) Limitations. Notwithstanding anything to the contrary in this Agreement, the Parties acknowledge and agree as follows:

- (i) Issuer has relied exclusively upon the representations and warranties of each respective seller set forth in the Assignment Agreements in making the representations and warranties set forth in this **Error! Reference source not found.** and has not performed any independent investigation with respect thereto;
- (ii) Prepay LLC has agreed under the Prepaid Agreement to terminate or cause MSCG to terminate the applicable Assignment Period in the event that any representation or warranty in this **Error! Reference source not found.** proves to be incorrect in any respect; and
- (iii) Purchaser agrees that its sole recourse for any breach of the provisions of this **Error! Reference source not found.** shall be the termination of the applicable Assignment Period and Purchaser shall have no other recourse against Issuer or remedies under this Agreement.

Section 5.5 Deliveries within CAISO or Another Balancing Authority. The Parties acknowledge that Energy delivered by Issuer at a Delivery Point within CAISO or another Balancing Authority will be delivered in accordance with the CAISO Tariff and rules of the Balancing Authority as applicable. Scheduling such Energy in accordance with the requirements

of the applicable Energy into the applicable Balancing Authority shall constitute delivery of such Energy to Purchaser hereunder.

Section 5.6 Assigned Products. Notwithstanding anything to the contrary herein, the Parties shall have no liability under this Article V with respect to any Assigned Products.

ARTICLE VI PARTIAL ASSIGNMENTS OF PPAS

Section 6.1 Future PPA Assignments. In connection with the expiration or termination of an EPS Energy Period, each of the Parties agrees to satisfy its obligations under the Assignment Letter Agreement, including but not limited to (a) Purchaser's obligation to exercise Commercially Reasonable Efforts to assign a portion of Purchaser's rights and obligations under a power purchase agreement under which Project Participant is purchasing EPS Compliant Energy to MSCG or Prepay LLC pursuant to an Assignment Agreement and (b) the Parties' obligations to cooperate in good faith with MSCG and Prepay LLC with respect to any proposed assignments.

Section 6.2 Updates to Exhibits A-1 and A-2.

(a) To the extent that an EPS Energy Period terminates or expires and Assigned Energy is not available for delivery immediately following (i) the end of the period for which Force Majeure is deemed to occur in the event of an early termination of an EPS Energy Period or (ii) the expiration of an EPS Energy Period, the Parties shall update (A) Exhibit A-1 to reflect an increase in the Hourly Quantities of Base Energy and (B) Exhibit A-2 to reflect a decrease in the Monthly Projected Quantities associated with the relevant Assigned PPA, in each case, in an amount equal to the Assigned Energy associated with the EPS Energy Period that terminated or expired. For the avoidance of doubt, any updates to Exhibits A-1 and A-2 due to an early termination of an EPS Energy Period shall be effective as of the earlier of (1) the commencement of an Assignment Period under a replacement Assignment Agreement or (2) the start of the third Month following the Month in which such early termination occurs.

(b) In connection with the execution of any subsequent Assignment Agreement, the Parties shall update Exhibits A-1 and A-2 to reflect any changes in the Hourly Quantities of Base Energy and Monthly Projected Quantities of Assigned Energy and any other changes in connection therewith.

ARTICLE VII USE OF ENERGY

Section 7.1 Tax Exempt Status of the Bonds. Purchaser acknowledges that the Bonds will be issued with the intention that the interest thereon will be exempt from federal taxes under Section 103 of the Code. Accordingly, Purchaser agrees that it will (a) provide such information with respect to its CCA System as may be requested by Issuer in order to establish the tax-exempt status of the Bonds, and (b) act in accordance with such written instructions as Issuer may provide from time to time in order to maintain the tax-exempt status of the Bonds. Purchaser further agrees that it will not at any time take any action, or fail to take any action, that would adversely affect the tax-exempt status of the Bonds.

Section 7.2 Priority Energy. Subject to Section 7.5(a), Purchaser agrees to take the Contract Quantities to be delivered under this Agreement (a) in priority over and in preference to all Non-Priority Energy; and (b) on at least a pari passu and non-discriminatory basis with other Priority Energy.

Section 7.3 Remarketing Sales.

(a) Remarketing of Assigned Product. If notwithstanding Purchaser's compliance with Section 7.2, a quantity of Assigned Product less than the Annual Quantity is delivered hereunder in any Contract Year for any reason other than Force Majeure, then MSCG shall be deemed to remarket such undelivered quantity of Assigned Product consistent with Section 5(a) of Exhibit C to the Prepaid Agreement. For the avoidance of doubt, Purchaser will not have any payment obligation with respect to Assigned Energy that is remarketed pursuant to the foregoing sentence.

(b) Remarketing of Base Energy. Consistent with Section 3.3, to the extent any portion of the Contract Quantity is Base Energy, Issuer shall cause Prepay LLC to remarket or purchase such Energy for the account of Prepay LLC under the remarketing provisions of the Prepaid Agreement, and Issuer shall credit against the amount owed by Purchaser for such Contract Quantities the amounts received from Prepay LLC for such remarketing services, less all directly incurred costs or expenses, including but not limited to remarketing administrative charges paid to Prepay LLC under the Prepaid Agreement, but in no event shall the amount of such credit be more than the Contract Price. For the avoidance of doubt, Purchaser will not have any payment obligation with respect to Base Energy that is remarketed pursuant to the foregoing sentence.

(c) Prepay LLC Remarketing Fees. Purchaser shall not in any case have an obligation to make a payment to Issuer with respect to any Remarketing Fee (as defined in the Prepaid Agreement) charged by Prepay LLC under the Prepaid Agreement.

Section 7.4 Qualifying Use. Subject to Section 7.5, Purchaser agrees that, without limiting Purchaser's other obligations under this Article VII, it will use all of the Energy purchased under this Agreement in compliance with the Qualifying Use Requirements. Purchaser agrees that it will provide such additional information, records and certificates as Issuer may reasonably request to confirm Purchaser's compliance with this Section 7.4.

Section 7.5 Remediation. To the extent that (a) all or a portion of the Contract Quantity is remarketed under Section 7.3(a) or Section 7.3(b) and (b) Purchaser is not otherwise in default under this Agreement, then:

(a) Prepay LLC shall be obligated under the remarketing provisions of the Prepaid Agreement to purchase the remarketed Energy for its own account at the applicable price specified in Exhibit C to the Prepaid Agreement (the proceeds of any such purchases, "Disqualified Remarketing Proceeds"), which Disqualified Remarketing Proceeds are for the benefit of Purchaser in that such proceeds reduce its payment obligations hereunder;

(b) Purchaser shall (i) exercise Commercially Reasonable Efforts to use an amount equivalent to such Disqualified Remarketing Proceeds to purchase Non-Priority Energy and use such Non-Priority Energy in compliance with the Qualifying Use Requirements in order

to remediate such Disqualified Remarketing Proceeds and (ii) apply its purchases of Non-Priority Energy to remediate Disqualified Remarketing Proceeds under this Agreement prior to remediating such proceeds under any other contract that provides for the purchase of Priority Energy;

(c) in order to track compliance with Purchaser's obligations under Section 7.5(b) above, Purchaser shall deliver a Remediation Certificate in the form of Exhibit H hereto to Issuer and Prepay LLC by the tenth (10th) day of the Month subsequent to any relevant Non-Priority Energy purchases (which may include purchases of Energy from CAISO to the extent such Energy is used in compliance with the Qualifying Use Requirements);

(d) for Disqualified Remarketing Proceeds remediated under this Section 7.5, Issuer shall pay Purchaser any portion of Monthly Discount associated with such Disqualified Remarketing Proceeds and available for distribution under the Bond Indenture on the last Business Day of the Month following the Month in which Purchaser provides a certificate under clause (c) evidencing such remediation; and

(e) to the extent any Disqualified Remarketing Proceeds are not remediated within twelve (12) Months of the date on which such proceeds were received by Issuer, then Prepay LLC shall be obligated under the Prepaid Agreement to exercise Commercially Reasonable Efforts to remediate such Disqualified Remarketing Proceeds under the Prepaid Agreement and Purchaser's ability to remediate such remarketing proceeds shall be subject to Prepay LLC's successful remediation of such proceeds through sales to other purchaser(s);

provided that, for the avoidance of doubt, to the extent Special Tax Counsel (as defined in the Bond Indenture) determines at any time that Purchaser has failed to exercise Commercially Reasonable Efforts to obtain EPS Compliant Energy for delivery hereunder consistent with the Assignment Letter Agreement, then Purchaser shall not be entitled to remediate any Disqualified Remarketing Proceeds related to the resulting remarketing of Base Energy by Prepay LLC.

ARTICLE VIII

REPRESENTATIONS AND WARRANTIES; ADDITIONAL COVENANTS

Section 8.1 Representations and Warranties of the Parties. As a material inducement to entering into this Agreement, each Party, with respect to itself, hereby represents and warrants to the other Party as of the Execution Date as follows:

(a) for Issuer as the representing Party, Issuer is a joint powers authority organized pursuant to the provisions of Title 1, Division 7, Chapter 5, Article 1 (Section 6500 *et seq.*) of the California Government Code;

(b) for Purchaser as the representing Party, Purchaser is a joint powers authority organized pursuant to the provisions of Title 1, Division 7, Chapter 5, Article 1 (Section 6500 *et seq.*) of the California Government Code and a community choice aggregator pursuant to the provisions of Section 366.2 of the California Public Utilities Code, duly organized and validly existing under the Laws of the State of California;

(c) it has all requisite power and authority to conduct its business, to own its properties and to execute, deliver and perform its obligations under this Agreement;

(d) there is no litigation, action, suit, proceeding or investigation pending or, to the best of such Party's knowledge, threatened, before or by any Government Agency, which could reasonably be expected to materially and adversely affect the performance by such Party of its obligations under this Agreement or that questions the validity, binding effect or enforceability hereof, any action taken or to be taken by such Party pursuant hereto, or any of the transactions contemplated hereby;

(e) the execution, delivery and performance of this Agreement by such Party has been duly authorized by all necessary action on the part of such Party and does not require any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party;

(f) this Agreement has been duly executed and delivered on behalf of such Party by an appropriate officer or authorized Person of such Party and constitutes the legal, valid and binding obligation of such Party, enforceable against it in accordance with its terms, as such enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium and similar Laws affecting creditors' rights generally and by general principles of equity;

(g) the execution, delivery and performance of this Agreement by such Party shall not violate any provision of any Law, decree or other legal or regulatory determination applicable to it;

(h) the execution, delivery and performance by such Party of this Agreement, and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its financial obligations under this Agreement, shall not result in any violation of any term of any material contract or agreement applicable to it, or any of its charter or bylaws or of any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, Law or ordinance applicable to it or any of its properties or to any obligations incurred by it or by which it or any of its properties or obligations are bound or affected, or of any determination or award of any arbitrator applicable to it, and shall not conflict with, or cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets, except with respect to Issuer, the lien of the Bond Indenture;

(i) to the best of the knowledge and belief of such Party, no consent, approval, order or authorization of, or registration, declaration or filing with, or giving of notice to, obtaining of any license or permit from, or taking of any other action with respect to, any Government Agency is required in connection with the valid authorization, execution, delivery and performance by such Party of this Agreement or the consummation of any of the transactions contemplated hereby other than those that have been obtained; and

(j) it enters this Agreement as a bona-fide, arm's-length transaction involving the mutual exchange of consideration and, once executed by both Parties, considers this Agreement a legally enforceable contract.

Section 8.2 Warranty of Title. Issuer warrants that it will have the right to convey and will transfer good and merchantable title to all Energy sold under this Agreement and delivered by it to Purchaser, free and clear of all liens, encumbrances, and claims.

Section 8.3 Disclaimer of Warranties. EXCEPT FOR THE WARRANTIES EXPRESSLY MADE BY ISSUER IN THIS ARTICLE VIII, ISSUER HEREBY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Section 8.4 Continuing Disclosure. Purchaser agrees to provide to Issuer: (a) such financial and operating information as may be requested by Issuer including its most recent audited financial statements for use in Issuer's offering documents for the Bonds; and (b) annual updates to such information and statements to enable Issuer to comply with its continuing disclosure undertakings under Rule 15(c)2-12 of the United States Securities and Exchange Commission. Failure by Purchaser to comply with its agreement to provide such annual updates shall not be a default under this Agreement, but any such failure shall entitle Issuer or an owner of the Bonds to take such actions and to initiate such proceedings as may be necessary and appropriate to cause Purchaser to comply with such agreement, including without limitation the remedies of mandamus and specific performance.

ARTICLE IX TAXES

Issuer shall (i) be responsible for all ad valorem, excise and other taxes assessed with respect to Energy delivered pursuant to this Agreement upstream of the Delivery Point, and (ii) indemnify Purchaser and its Affiliates for any such taxes paid by Purchaser or its Affiliates. Purchaser shall (i) be responsible for all such taxes assessed at or downstream of the Delivery Point, and (ii) indemnify Issuer and its Affiliates for any such taxes paid by Issuer or its Affiliates.

ARTICLE X DISPUTE RESOLUTION

Section 10.1 Arbitration. Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope of this agreement to arbitrate, shall be determined by final, non-appealable binding arbitration in San Francisco, California before three arbitrators. The arbitration shall be administered by Judicial Arbitration and Mediation Services, Inc. ("JAMS") pursuant to its Comprehensive Arbitration Rules and Procedures. Within 15 days after the commencement of arbitration, each of the Parties shall select one person to act as arbitrator, and the two so-selected arbitrators shall select a third arbitrator (the "chairperson") within 30 days of the commencement of the arbitration. If either Party is unable or fails to select one person to act as arbitrator, such arbitrator shall be appointed by JAMS. If the Party-selected arbitrators are unable or fail to agree upon a chairperson, the chairperson shall be appointed by JAMS. The chairperson shall be a person who has experience in renewable energy-related transactions, and none of the arbitrators shall have been previously employed by either Party or have any direct pecuniary interest in either Party or the subject matter of the arbitration, unless such conflict is expressly acknowledged and waived in writing by each of the Parties. The Parties shall maintain

the confidential nature of the arbitration proceeding and any award, including any hearing(s), except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by law or judicial decision. Any arbitration proceedings, decision or award rendered hereunder and the validity, effect and interpretation of this arbitration provision shall be governed by the Federal Arbitration Act. The arbitrator(s) shall have no authority to award consequential, treble, exemplary, or punitive damages of any type or kind regardless of whether such damages may be available under any law or right, with the Parties hereby affirmatively waiving their rights, if any, to recover or claim such damages. In any arbitration arising out of or related to this Agreement, the arbitrators shall award to the prevailing Party, if any, the costs and attorneys' fees reasonably incurred in seeking to enforce the application of this Section 10.1 and by the prevailing party in connection with the arbitration. Notwithstanding the foregoing provisions of this Section 10.1, any costs incurred by a Party in seeking judicial enforcement of any written decision of the arbitrators shall be chargeable to and borne exclusively by the Party against whom such court order is obtained. The award shall be final and binding on the Parties and judgment upon any award may be entered in any court of competent jurisdiction.

Section 10.2 Judicial Reference.

(a) Judicial Reference. Without limiting the provisions in Section 10.1, if Section 10.1 is ineffective or unenforceable, any dispute between the Parties arising out of or in connection with this Agreement or its performance, breach, or termination (including the existence, validity and interpretation of this Agreement and the applicability of any statute of limitation period) (each, a "Dispute") shall be resolved by a reference proceeding in California in accordance with the provisions of Sections 638 et seq. of the California Code of Civil Procedure ("CCP"), or their successor sections (a "Reference Proceeding"), which shall constitute the exclusive remedy for the resolution of any Dispute. As a condition precedent to initiating a Reference Proceeding with respect to any Dispute, the Parties shall comply with the provisions of Section 10.2(b).

(b) Notice of Dispute. Prior to initiating the Reference Proceeding, a Party (the "Disputing Party") shall provide the other Party (the "Responding Party") with a written notice of each issue in dispute, a proposed means for resolving each such issue, and support for such position (the "Notice of Dispute"). Within ten (10) days after receiving the Notice of Dispute, the Responding Party shall provide the Disputing Party with a written notice of each additional issue (if any) with respect to the dispute raised by the Notice of Dispute, a proposed means for resolving every issue in dispute, and support for such position (the "Dispute Response"). Thereafter, the Parties shall meet to discuss the matter and attempt in good faith to reach a negotiated resolution of the dispute. If the Parties do not resolve the dispute by mutual agreement within 60 days after receipt of the Dispute Response, then either Party may provide to the other Party written notice of intent for judicial reference (the "Impasse Notice") in accordance with the further provisions of this Section 10.2.

(c) Applicability; Selection of Referees.

(i) The Party that provides the Impasse Notice shall nominate one (1) referee at the same time it provides the Impasse Notice. The other Party shall nominate one referee within 10 days of receiving the Impasse Notice. The two (2) referees (the “Party-Appointed Referees”) shall appoint a third referee (the “Third Referee”, together with the Party-Appointed Referees, the “Referees”). The Party-Appointed Referees shall be competent and experienced in matters involving the electric energy business in the United States, with at least 10 years of electric industry experience as a practicing attorney. The Third Referee shall be an active or retired California state or federal judge. Each of the Party-Appointed Referees and the Third Referee shall be impartial and independent of either Party and of the other referees and not employed by any of the Parties in any prior matter.

(ii) If the Party-Appointed Referees are unable to agree on the Third Referee within 45 days from delivery of the Impasse Notice, then the Third Referee shall be appointed pursuant to CCP Section 640(b) in an action filed in the Superior Court of California, County of San Francisco (the “Court”), and with due regard given to the selection criteria above. A request for appointment of a referee may be heard on an ex parte or expedited basis, and the Parties agree that irreparable harm would result if ex parte relief is not granted. Pursuant to CCP Section 170.6, each Party shall have one (1) peremptory challenge to the referee selected by the Court.

(d) Discovery; Proceedings.

(i) The Parties agree that time is of the essence in conducting the Reference Proceeding. Accordingly, the referees shall be requested, subject to change in the time periods specified herein for good cause shown, to (i) set the matter for a status and trial-setting conference within 20 days after the date of selection of the Third Referee, (ii) if practicable, try all issues of law or fact within 180 days after the date of the conference, and (iii) report a statement of decision within 20 days after the matter has been submitted for decision.

(ii) Discovery and other pre-hearing procedures shall be conducted as agreed to by the Parties, or if they cannot agree, as determined by the Third Referee after discussion with the Parties regarding the need for discovery and other pre-hearing procedures.

(iii) Any matter before the Referees shall be governed by the substantive law of California, its Code of Civil Procedure, Rules of Court, and Evidence Code, except as otherwise specifically agreed by the Parties and approved by the Referees. Except as expressly set forth herein, the Third Referee shall determine the manner in which the Reference Proceeding is conducted, including the time and place of hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of the Reference Proceeding. The Reference Proceeding, including the trial, shall be conducted at a neutral location selected by the Parties, or if not agreed by the Parties, by the Third Referee, in San Francisco, California.

(iv) All proceedings and hearings conducted before the referees, except for trial, shall be conducted without a court reporter, except that when any Party so requests, a court reporter will be used at any hearing conducted before the referees, and the referees will be provided a courtesy copy of the transcript. The Party making such a request shall have the obligation to arrange for and pay the court reporter.

(e) Decision. The referees shall render a written statement of decision setting forth findings of fact and conclusions of law. The decision shall be entered as a judgment in the court in accordance with the provisions of CCP Sections 644 and 645. The decision shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the Court. The Parties intend this general reference agreement to be specifically enforceable in accordance with the CCP.

(f) Expenses. Each Party shall bear the compensation and expenses of its respective Party-Appointed Referee, own counsel, witnesses, consultants and employees. All other expenses of judicial reference shall be split equally between the Parties.

ARTICLE XI FORCE MAJEURE

Section 11.1 Applicability of Force Majeure. To the extent either Party is prevented by Force Majeure from carrying out, in whole or part, its obligations under this Agreement and such Party (the “Claiming Party”) gives notice and details of the Force Majeure to the other Party as soon as practicable, then the Claiming Party shall be excused from the performance of its obligations with respect to this Agreement (other than the obligation to make payments then due or becoming due with respect to performance prior to the Force Majeure). The Claiming Party shall mitigate the Force Majeure with all reasonable dispatch. For the duration of the Claiming Party’s non-performance (and only for such period), the non-Claiming Party shall not be required to perform or resume performance of its obligations to the Claiming Party corresponding to the obligations of the Claiming Party excused by Force Majeure.

Section 11.2 Settlement of Labor Disputes. Notwithstanding anything to the contrary herein, the Parties agree that the settlement of strikes, lockouts or other industrial disturbances shall be within the sole discretion of the Party experiencing such disturbance, and the failure of a Party to settle such strikes, lockouts or other industrial disturbances shall not prevent the existence of Force Majeure or of reasonable dispatch to remedy the same.

ARTICLE XII GOVERNMENTAL RULES AND REGULATIONS

Section 12.1 Compliance with Laws. This Agreement shall be subject to all present and future Laws of any Government Agency having jurisdiction over this Agreement or the transactions to be undertaken hereunder, and neither Party has knowingly undertaken or will knowingly undertake or knowingly cause to be undertaken any activity that would conflict with such Laws; *provided*, however, that nothing herein shall be construed to restrict or limit either Party’s right to object to or contest any such Law, or its application to this Agreement or the

transactions undertaken hereunder, and neither acquiescence therein or compliance therewith for any period of time shall be construed as a waiver of such right.

Section 12.2 Contests. Excluding all matters involving a contractual dispute between the Parties, no Party shall contest, cause to be contested or in any way actively support the contest of the equity, fairness, reasonableness or lawfulness of any terms or conditions set forth or established pursuant to this Agreement, as those terms or conditions may be at issue before any Government Agency in any proceeding, if the successful result of such contest would be to preclude or excuse the performance by either Party of this Agreement or any provision hereunder.

Section 12.3 Defense of Agreement. Excluding all matters involving a contractual dispute between the Parties, each Party shall hereafter defend and support this Agreement before any Government Agency in any proceeding, if the substance, validity or enforceability of all or any part of this Agreement is hereafter directly challenged or if any proposed changes in regulatory practices or procedures would have the effect of making this Agreement invalid or unenforceable or would otherwise materially affect the rights or obligations of the Parties under this Agreement.

ARTICLE XIII ASSIGNMENT

The terms and provisions of this Agreement shall extend to and be binding upon the Parties and their respective successors, assigns, and legal representatives; *provided*, however, that, subject to Section 18.14, neither Party may assign this Agreement or its rights and interests, in whole or in part, under this Agreement without the prior written consent of the other Party. Prior to assigning this Agreement, Purchaser shall deliver to Issuer (i) written confirmation from each of the Applicable Rating Agencies, *provided* that such agency has rated and continues to rate the Bonds, that the assignment will not result in a reduction, qualification, or withdrawal of the then-current ratings assigned by the Applicable Rating Agencies to the Bonds; or (ii) written confirmation from each of the Applicable Rating Agencies, that the assignee has an outstanding long-term senior, unsecured, unenhanced debt rating equivalent to or higher than the ratings assigned by the Applicable Rating Agencies to the Bonds. Whenever an assignment or a transfer of a Party's interest in this Agreement is requested to be made with the written consent of the other Party, the assigning or transferring Party's assignee or transferee shall expressly agree to assume, in writing, the duties and obligations under this Agreement of the assigning or transferring Party. Upon the agreement of a Party to any such assignment or transfer, the assigning or transferring Party shall furnish or cause to be furnished to the other Party a true and correct copy of such assignment or transfer and assumption of duties and obligations.

ARTICLE XIV PAYMENTS

Section 14.1 Monthly Statements.

(a) No later than the fifth (5th) day of each Month during the Delivery Period (excluding the first (1st) Month of the Delivery Period) and the first (1st) Month following the end of the Delivery Period, Purchaser shall deliver to Issuer a statement (a "Purchaser's Statement")

listing any amounts due to Purchaser in connection with this Agreement with respect to the prior Month(s).

(b) No later than the tenth (10th) day of each Month during the Delivery Period (excluding the first (1st) Month of the Delivery Period) and the first (1st) Month following the end of the Delivery Period (the “Billing Date”), Issuer shall deliver a statement (a “Billing Statement”) to Purchaser indicating (i) the total amount due to Issuer for Energy delivered in the prior Month, (ii) any other amounts due to Issuer or Purchaser in connection with this Agreement with respect to the prior Month(s), and (iii) the net amount due to Issuer or Purchaser; provided that invoicing for Monthly Excess Quantities and Assigned Paygo Quantities shall occur under the Participant Custodial Agreement. Additionally, if a Participant Monthly Statement (as defined in the Participant Custodial Agreement) for an Assigned PPA has not been delivered by the tenth (10th) day of the Month following deliveries, Issuer shall provisionally prepare or cause to be prepared a Billing Statement for this Agreement that assumes all of the Monthly Projected Quantities were delivered under the applicable Assigned PPA for such Month, and any subsequent resettlements required with respect thereto shall occur under the Participant Custodial Agreement.

(c) Upon request by either Party, the other Party shall deliver such supporting documentation of the foregoing as such requesting Party may reasonably request.

Section 14.2 Payment.

(a) If the Billing Statement indicates an amount due from Purchaser, then Purchaser shall remit such amount to the Trustee for the benefit of the Issuer by wire transfer (pursuant to the Trustee’s instructions for amounts due under this Agreement, provided that amounts due from Purchaser with respect to Monthly Excess Quantities and Assigned Paygo Quantities, as applicable, shall be paid pursuant to the terms of the Participant Custodial Agreement), in immediately available funds, on or before the twentieth (20th) day of the Month following the most recent Month to which such Billing Statement relates, or if such day is not a Business Day, the preceding Business Day. If the Billing Statement indicates an amount due from Issuer, then Issuer shall remit such amount to Purchaser by wire transfer (pursuant to Purchaser’s instructions), in immediately available funds, on or before the twenty-eighth (28th) day of the Month following the most recent Month to which such Billing Statement relates, or if such day is not a Business Day, the following Business Day.

(b) If Purchaser fails to issue a Purchaser’s Statement with respect to any Month, Issuer shall not be required to estimate any amounts due to Purchaser for such Month, provided that Purchaser may include any such amount on subsequent Purchaser’s Statements issued within the next sixty (60) days. The sixty (60) day deadline in this subsection (b) replaces the two (2) year deadline in Section 14.5(b) with respect to any claim by any non-delivering Party of inaccuracy in any estimated invoice issued or payment made pursuant to this subsection (b).

Section 14.3 Payment of Disputed Amounts; Correction of Index Price.

(a) If Purchaser disputes any amounts included in the Issuer’s Billing Statement, Purchaser shall (except in the case of manifest error) nonetheless pay any amount required by the Billing Statement in accordance with Section 14.2 without regard to any right of

set-off, counterclaim, recoupment or other defenses to payment that Purchaser may have; *provided*, however, that Purchaser shall have the right, after payment, to dispute any amounts included in a Billing Statement or otherwise used to calculate payments due under this Agreement pursuant to Section 14.5. If Issuer disputes any amounts included in the Purchaser's Statement, Issuer may withhold payment to the extent of the disputed amount; *provided*, however, that interest shall be due at the Default Rate for any withheld amount later found to have been properly due.

(b) If a value published for any rate or index used or to be used in this Agreement is subsequently corrected and the correction is published or announced by the Person responsible for that publication or announcement within thirty (30) days after the original publication or announcement, either Party may notify the other Party of (i) that correction and (ii) the amount (if any) that is payable as a result of that correction. If, not later than thirty (30) days after publication or announcement of that correction, a Party gives notice that an amount is so payable, the Party that originally either received or retained such amount shall, not later than three (3) Business Days after the effectiveness of that notice, pay, subject to any other applicable provisions of this Agreement, to the other Party that amount, together with interest on that amount at the Default Rate for the period from and including the day on which a payment originally was (or was not) made to but excluding the day of payment of the refund or payment resulting from that correction.

Section 14.4 Late Payment. If Purchaser fails to remit the full amount payable within one (1) Business Day of when due, interest on the unpaid portion shall accrue from the date due until the date of payment at the Default Rate.

Section 14.5 Audit; Adjustments.

(a) A Party shall have the right, at its own expense, upon reasonable notice to the other Party and at reasonable times, to examine and audit and to obtain copies of the relevant portion of the books, records, and telephone recordings of the other Party to the extent reasonably necessary, but only to such extent, to verify the accuracy of any statement, charge, payment, or computation made under this Agreement. This right to examine, audit, and obtain copies shall not be available with respect to proprietary information not directly relevant to transactions under this Agreement.

(b) Each Purchaser's Statement and each Billing Statement shall be conclusively presumed final and accurate and all associated claims for under- or overpayments shall be deemed waived unless such Purchaser's Statement or Billing Statement is objected to in writing, with adequate explanation and/or documentation, within two (2) years after the applicable Month of Energy delivery.

(c) All retroactive adjustments shall be paid in full by the Party owing payment within thirty (30) days of notice and substantiation of such inaccuracy. If the Parties are unable to agree upon any retroactive adjustments requested by either Party within the time period specified in Section 14.5(b), then either Party may pursue any remedies available with respect to such adjustments at law or in equity. Retroactive adjustments for payments made based on an incorrect Billing Statement shall bear interest at the Default Rate from the date such payment was made.

Section 14.6 Netting; No Set-Off. The Parties shall net all amounts due and owing, including any past due amounts (which, for the avoidance of doubt, shall include any accrued interest), arising under this Agreement such that the Party owing the greater amount shall make a single payment of the net amount to the other Party in accordance with this Article XIV. Notwithstanding the foregoing, payment for all amounts set forth in a Billing Statement provided to Purchaser shall be made without set-off or counterclaim of any kind.

Section 14.7 Source of Purchaser's Payments. Purchaser covenants and agrees to make payments due hereunder from CCA Revenues, and only from such CCA Revenues, as an operating expense of its CCA System; *provided*, however, that Purchaser may apply any legally available monies to the payment of amounts due hereunder.

Section 14.8 Rate Covenant. Purchaser hereby covenants and agrees that it will establish, fix, prescribe, maintain, and collect rates, fees, and charges from the customers of its CCA System so as to provide CCA Revenues sufficient to enable Purchaser to pay any other amounts legally payable from CCA Revenues, and to maintain any required reserves for Purchaser's CCA System. Purchaser further covenants and agrees that it shall not furnish or supply Energy services free of charge to any Person, except any such service free of charge that Purchaser is supplying on the date hereof as has been specifically identified by Purchaser to Issuer in writing, and it shall promptly enforce the payment of any and all accounts owing to Purchaser for the sale of Energy to its customers. Notwithstanding anything herein to the contrary, Purchaser shall not be obligated to make any payments hereunder except from CCA Revenues.

Section 14.9 Pledge of CCA Revenues. Purchaser shall not grant any lien on or security interest in, or otherwise pledge or encumber, the CCA Revenues if the terms or effect of such lien, pledge or other encumbrance results in such lien, pledge or other encumbrance having priority over the obligations of Purchaser to pay the Contract Price, which obligations constitute operating expenses of Purchaser.

Section 14.10 Financial Responsibility. In the event the Issuer receives notice from Prepay LLC pursuant to [Section 2.12] of the [Receivables Purchase Provisions (as defined in the Bond Indenture)] that it requires adequate assurance of performance from the Issuer, Issuer shall provide notice thereof to Purchaser and Purchaser shall (a) notify the Issuer of its agreement to provide such adequate assurance within forty-eight (48) Hours but at least one (1) Business Day of Purchaser's receipt of such notice and (b) provide such adequate assurance to Issuer within seventy-two (72) Hours but at least two (2) Business Days of Purchaser's receipt of such notice. Adequate assurance shall mean sufficient security in the form and for a term reasonably specified by Prepay LLC pursuant to Section 2.12 of the Receivables Purchase Provisions, including but not limited to a standby irrevocable letter of credit, a prepayment, a deposit to an escrow account, or a performance bond or guaranty by a creditworthy entity. In the event Issuer is entitled to demand adequate assurance of performance under this Section 14.10, Issuer may demand at a minimum a prepayment by Purchaser of an amount equal to (i) the amount owed by Purchaser with respect to all Energy delivered by Issuer to Purchaser as of the date of the demand for adequate assurance of performance, plus (ii) the amount, as determined and adjusted from time to time by Issuer (with the input of Prepay LLC pursuant to the Receivables Purchase Provisions (as defined in the Bond Indenture)) in a Commercially Reasonable manner, expected to be owed by Purchaser with respect to the Energy to be delivered by Issuer to Purchaser during the

remainder of the then-current Month and the following Month. The Parties agree that in the event Purchaser fails to provide such adequate assurance as demanded, Issuer shall have the right to suspend its performance under this Agreement, including the making of deliveries of Energy to Purchaser, immediately upon written notice and shall not be obligated to restore such performance until the later of (A) the first day of the Month after such demand has been satisfied, and (B) the completion of the term of deliveries to any replacement sales customer to which Prepay LLC has remarketed the Energy on behalf of Issuer.

ARTICLE XV [RESERVED]

ARTICLE XVI NOTICES

Any notice, demand, or request required or authorized by this Agreement to be given by one Party to the other Party (or to a third party) shall be in writing and shall either be sent by electronic means, courier, or personally delivered (including overnight delivery service) to each of the notice recipients and addresses specified in Exhibit B for the receiving Party. Any such notice, demand, or request shall be deemed to be given (i) on the date it is delivered by electronic means or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon ten (10) days' prior written notice to the other Party, to change its list of notice recipients and addresses in Exhibit B. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods. Notwithstanding the foregoing, a Party may at any time notify the other Party that any notice, demand, statement or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during the specified period of time shall be ineffective.

ARTICLE XVII DEFAULT; REMEDIES; TERMINATION

Section 17.1 Issuer Default. Each of the following events shall constitute an "Issuer Default" under this Agreement:

- (a) any representation or warranty made by Issuer in this Agreement proves to have been incorrect in any material respect when made; or
- (b) Issuer fails to perform, observe or comply with any covenant, agreement or term contained in this Agreement, and such failure continues for more than thirty (30) days following the earlier of (i) receipt by Issuer of notice thereof or (ii) an officer of Issuer obtaining actual knowledge of such default.

Section 17.2 Purchaser Default. Each of the following events shall constitute a "Purchaser Default" under this Agreement:

(a) Purchaser fails to pay when due any amounts owed to Issuer pursuant to this Agreement and such failure continues for one (1) Business Day following the earlier of (i) receipt by Purchaser of notice thereof or (ii) an officer of Purchaser becoming aware of such default;

(b) Purchaser (i) is dissolved (other than pursuant to a consolidation, amalgamation or merger); (ii) becomes insolvent or is unable to pay its debts or fails or admits in writing its inability generally to pay its debts as they become due; (iii) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (iv) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency Law or other similar Law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (B) is not dismissed, discharged, stayed or restrained, in each case within thirty (30) days of the institution or presentation thereof; (v) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (vi) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all of its assets; (vii) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its of assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within thirty (30) days thereafter; (viii) causes or is subject to any event with respect to it which, under the applicable Laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (i) through (vii); or (ix) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts;

(c) any representation or warranty made by Purchaser in this Agreement proves to have been incorrect in any material respect when made; or

(d) Purchaser fails to perform, observe or comply with any covenant, agreement or term contained in this Agreement, and such failure continues for more than fifteen (15) days following the earlier of (i) receipt by Purchaser of notice thereof or (ii) an officer of Purchaser becoming aware of such default.

Section 17.3 Automatic Non-Default Termination Event. Purchaser's issuance of a valid Remarketing Termination Notice (other than a Voided Remarketing Termination Notice) in accordance with Section 3.4(b) shall constitute an "Automatic Non-Default Termination Event" under this Agreement.

Section 17.4 Remedies Upon Default.

(a) Termination.

- (i) If an Automatic Non-Default Termination Event occurs, then (A) the Delivery Period shall end as of the end of then-current Reset Period (i.e., as of the end of the Reset Period preceding the Reset

Period for which Purchaser issues a valid Remarketing Termination Notice other than a Voided Remarketing Termination Notice), (B) this Agreement shall terminate upon payment by the Parties' of any outstanding amounts due under this Agreement and (C) Purchaser shall exercise its right to terminate any Assignment Agreements in effect.

- (ii) If at any time an Issuer Default or a Purchaser Default has occurred and is continuing, then the non-defaulting Party may do any or all of the following (i) by notice to the defaulting Party specifying the relevant Issuer Default or Purchaser Default, as applicable, terminate this Agreement effective as of a day not earlier than the day such notice is deemed given under Article XVI and/or (ii) declare all amounts due to the non-defaulting Party under this Agreement or any part thereof immediately due and payable, and the same shall thereupon become immediately due and payable, without notice, demand, presentment, notice of dishonor, notice of intent to demand, protest or other formalities of any kind, all of which are hereby expressly waived by the defaulting Party; *provided*, however, this Agreement shall automatically terminate and all amounts due to the non-defaulting Party hereunder shall immediately become due and payable as of the time immediately preceding the institution of the relevant proceeding or the presentation of the relevant petition that upon the occurrence of a Purchaser Default specified in Section 17.2(b)(iv) or, to the extent analogous thereto, Section 17.2(b)(viii). In addition, during the existence of an Issuer Default or a Purchaser Default, as applicable, the non-defaulting Party may exercise all other rights and remedies available to it at Law or in equity, including without limitation mandamus, injunction and action for specific performance, to enforce any covenant, agreement or term of this Agreement.

(b) Additional Remedies. In addition to the remedies set forth in Section 17.4(a) (and without limiting any other provisions of this Agreement), during the existence of any Purchaser Default, Issuer may suspend its performance hereunder and discontinue the supply of all or any portion of the Energy otherwise to be delivered to Purchaser by it under this Agreement. If Issuer exercises its right to suspend performance under this Section 17.4(b), Purchaser shall remain fully liable for payment of all amounts in default and shall not be relieved of any of its payment obligations under this Agreement. Deliveries of Energy may only be reinstated, at a time to be determined by Issuer, upon (i) payment in full by Purchaser of all amounts then due and payable under this Agreement and (ii) payment in advance by Purchaser at the beginning of each Month of amounts estimated by Issuer to be due to Issuer for the future delivery of Energy under this Agreement for such Month. Issuer may continue to require payment in advance from Purchaser after the reinstatement of Issuer's supply services under this Agreement for such period of time as Issuer in its sole discretion may determine is appropriate. In addition, and without limiting any other provisions of or remedies available under this Agreement, if Purchaser fails to accept from Issuer any Energy tendered for delivery under this Agreement, Issuer shall have the

right to sell such Energy to third parties on any terms that Issuer, in its sole discretion, determines are appropriate.

(c) Effect of Early Termination. As of the effectiveness of any termination date in accordance with clause (i) of Section 17.4(a), (i) the Delivery Period shall end, (ii) the obligation of Issuer to make any further deliveries of Energy to Purchaser under this Agreement shall terminate, and (iii) the obligation of Purchaser to receive deliveries of Energy from Issuer under this Agreement will terminate. Neither this Agreement nor the Delivery Period may be terminated for any reason except as specified in this Article XVII. Without prejudice to any payment obligation in respect of periods prior to termination, no payments will be due from either Party in respect of periods occurring after the effective termination date of this Agreement.

Section 17.5 Termination of Prepaid Agreement. Purchaser acknowledges and agrees that (i) in the event an Energy Delivery Termination Event occurs under and as defined in the Prepaid Agreement for any reason prior to the end of the Delivery Period, this Agreement shall terminate on the Energy Delivery Termination Date (which date shall be the last date upon which deliveries are required under the Prepaid Agreement, subject to all winding up arrangements) and (ii) Issuer's obligation to deliver Energy under this Agreement shall terminate upon the termination of deliveries of Energy to Issuer under the Prepaid Agreement. Issuer shall provide notice to Purchaser of any early termination date of the Prepaid Agreement. The Parties recognize and agree that, in the event that the Prepaid Agreement terminates because of a Failed Remarketing (as defined in the Bond Indenture) of the Bonds that occurs in the first Month of a Reset Period, Issuer shall deliver Energy under this Agreement for the remainder of such first Month, and, notwithstanding anything in this Agreement to the contrary, no Monthly Discount or Annual Refunds shall be associated with such deliveries and the Contract Price shall be adjusted accordingly.

Section 17.6 Limitation on Damages. THE PARTIES CONFIRM THAT THE EXPRESS REMEDIES AND MEASURES OF DAMAGES PROVIDED IN THIS AGREEMENT SATISFY THE ESSENTIAL PURPOSES HEREOF. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS HEREIN PROVIDED, SUCH EXPRESS REMEDY OR MEASURE OF DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY, THE OBLIGOR'S LIABILITY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION, AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED. NEITHER PARTY SHALL BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, PUNITIVE, EXEMPLARY, OR INDIRECT DAMAGES, LOST PROFITS OR OTHER BUSINESS INTERRUPTION DAMAGES, BY STATUTE, IN TORT OR CONTRACT, UNDER ANY INDEMNITY PROVISION, OR OTHERWISE. IT IS THE INTENT OF THE PARTIES THAT THE LIMITATIONS HEREIN IMPOSED ON REMEDIES AND THE MEASURE OF DAMAGES BE WITHOUT REGARD TO THE CAUSE OR CAUSES RELATED THERETO, INCLUDING WITHOUT LIMITATION THE NEGLIGENCE OF EITHER PARTY, WHETHER SUCH NEGLIGENCE BE SOLE, JOINT OR CONCURRENT, OR ACTIVE OR PASSIVE. TO THE EXTENT ANY DAMAGES REQUIRED TO BE PAID UNDER THIS AGREEMENT ARE LIQUIDATED, THE PARTIES ACKNOWLEDGE THAT THE DAMAGES ARE DIFFICULT OR IMPOSSIBLE TO DETERMINE, OTHERWISE OBTAINING AN ADEQUATE REMEDY IS INCONVENIENT, AND THE LIQUIDATED DAMAGES CONSTITUTE A

REASONABLE APPROXIMATION OF THE HARM OR LOSS. IN DETERMINING THE APPROPRIATE MEASURE OF DAMAGES THAT WOULD MAKE THE PARTIES WHOLE, THE PARTIES HAVE THOROUGHLY CONSIDERED, INTER ALIA, THE UNCERTAINTY OF FLUCTUATIONS IN COMMODITY PRICES, THE ABILITY AND INTENTION OF THE PARTIES TO HEDGE SUCH FLUCTUATIONS, THE BARGAINED-FOR ALLOCATION OF RISK, THE KNOWLEDGE, SOPHISTICATION AND EQUAL BARGAINING POWER OF THE PARTIES, THE ARMS-LENGTH NATURE OF THE NEGOTIATIONS, THE SPECIAL CIRCUMSTANCES OF THIS TRANSACTION, THE ACCOUNTING AND TAX TREATMENT OF THE TRANSACTION BY THE PARTIES, AND THE ENTERING INTO OF OTHER TRANSACTIONS IN RELIANCE ON THE ENFORCEABILITY OF THE LIQUIDATED DAMAGES PROVISIONS CONTAINED HEREIN.

ARTICLE XVIII MISCELLANEOUS

Section 18.1 Indemnification Procedure. With respect to each indemnification included in this Agreement, the indemnity is given to the fullest extent permitted by applicable Law and the following provisions shall be applicable. The indemnified Party shall promptly notify the indemnifying Party in writing of any Claim and the indemnifying Party shall have the right to assume its investigation and defense, including employment of counsel, and shall be obligated to pay related court costs, attorneys' fees and experts' fees and to post any appeals bonds; *provided*, however, that the indemnified Party shall have the right to employ at its expense separate counsel and participate in the defense of any Claim. The indemnifying Party shall not be liable for any settlement of a Claim without its express written consent thereto. In order to prevent double recovery, the indemnified Party shall reimburse the indemnifying Party for payments or costs incurred in respect of an indemnity with the proceeds of any judgment, insurance, bond, surety or other recovery made by the indemnified Party with respect to a covered event.

Section 18.2 Deliveries. Contemporaneously with this Agreement (unless otherwise specified): Each Party shall deliver to the other Party evidence reasonably satisfactory to it of (i) such Party's authority to execute, deliver and perform its obligations under this Agreement and (ii) the appropriate individuals who are authorized to sign this Agreement on behalf of such Party;

(a) as of the Bond Closing Date, Purchaser shall deliver to Issuer a fully executed Federal Tax Certificate in the form attached hereto as Exhibit D;

(b) on the Bond Closing Date, Purchaser shall deliver to Issuer an opinion of counsel to Purchaser in the form attached hereto as Exhibit E;

(c) on the Bond Closing Date, Purchaser shall deliver to Issuer a Closing Certificate in substantially the form set forth hereto as Exhibit G.

Section 18.3 Entirety; Amendments. This Agreement, including the exhibits and attachments hereto, constitutes the entire agreement between the Parties and supersedes all prior discussions and agreements between the Parties with respect to the subject matter hereof. There are no prior or contemporaneous agreements or representations affecting the same subject matter

other than those expressed herein. Except for any matters that, in accordance with the express provisions of this Agreement, may be resolved by oral agreement between the Parties, no amendment, modification, supplement or change hereto shall be enforceable unless reduced to writing and executed by both Parties.

Section 18.4 Governing Law. THIS AGREEMENT AND THE RIGHTS AND DUTIES OF THE PARTIES UNDER THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED, ENFORCED AND PERFORMED IN ACCORDANCE WITH THE LAWS OF THE STATE OF CALIFORNIA, WITHOUT REGARD TO ANY CONFLICTS OF LAW PRINCIPLE THAT WOULD DIRECT THE APPLICATION OF ANOTHER JURISDICTION'S LAW.

Section 18.5 Non-Waiver. No waiver of any breach of any of the terms of this Agreement shall be effective unless such waiver is in writing and signed by the Party against whom such waiver is claimed. No waiver of any breach shall be deemed a waiver of any other subsequent breach.

Section 18.6 Severability. If any provision of this Agreement, or the application thereof, shall for any reason be invalid or unenforceable, then to the extent of such invalidity or unenforceability, the remainder of this Agreement and the application of such provision to other Persons or circumstances shall not be affected thereby, but rather shall be enforced to the maximum extent permissible under applicable Law, so long as the economic and legal substance of the transactions contemplated hereby is not affected in any materially adverse manner as to either Party.

Section 18.7 Exhibits. Any and all Exhibits referenced in this Agreement are hereby incorporated herein by reference and shall be deemed to be an integral part hereof.

Section 18.8 Winding Up Arrangements. All indemnity and confidentiality obligations, audit rights, and other provisions specifically providing for survival shall survive the expiration or termination of this Agreement. The expiration or termination of this Agreement shall not relieve either Party of (a) any unfulfilled obligation or undischarged liability of such Party on the date of such termination or (b) the consequences of any breach or default of any warranty or covenant contained in this Agreement. All obligations and liabilities described in the preceding sentence of this Section 18.8, and applicable provisions of this Agreement creating or relating to such obligations and liabilities, shall survive such expiration or termination.

Section 18.9 Relationships of Parties. The Parties shall not be deemed to be in a relationship of partners or joint venturers by virtue of this Agreement, nor shall either Party be an agent, representative, trustee or fiduciary of the other. Neither Party shall have any authority to bind the other to any agreement. This Agreement is intended to secure and provide for the services of each Party as an independent contractor.

Section 18.10 Immunity. Each Party represents and covenants to and agrees with the other Party that it is not entitled to and shall not assert the defense of sovereign immunity or governmental immunity with respect to its obligations or any Claims under this Agreement, and

each hereby waives any such defense of sovereign or governmental immunity to the full extent permitted by Law.

Section 18.11 Rates and Indices. If the source of any publication used to determine the index or other price used in the Contract Price should cease to publish the relevant prices or should cease to be published entirely, an alternative index or other price will be used based on the determinations made by Issuer and Prepay LLC under Section 18.11 of the Prepaid Agreement. Issuer shall provide Purchaser the opportunity to provide its recommendations and other input to Issuer for Issuer's use in the process for selecting such alternative index or other price under Section 18.11 of the Prepaid Agreement.

Section 18.12 Limitation of Liability. Notwithstanding anything to the contrary herein, all obligations of Issuer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Issuer, payable solely from the Trust Estate (as such term is defined in the Bond Indenture) as and to the extent provided in the Bond Indenture, including with respect to Operating Expenses (as such term is defined in the Bond Indenture). Issuer shall not be required to advance any moneys derived from any source other than the Revenues (as such term is defined in the Bond Indenture) and other assets pledged under the Bond Indenture for any of the purposes in this Agreement mentioned. Neither the faith and credit of Issuer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Bond Indenture) are received for the payment thereof and may be applied therefor pursuant to the terms of the Bond Indenture.

Section 18.13 Counterparts. This Agreement may be executed and acknowledged in multiple counterparts and by the Parties in separate counterparts, each of which shall be an original and all of which shall be and constitute one and the same instrument.

Section 18.14 Third Party Beneficiaries; Rights of Trustee. Purchaser acknowledges and agrees that (a) Issuer will pledge and assign its rights, title and interest in this Agreement and the amounts payable by Purchaser under this Agreement to secure Issuer's obligations under the Bond Indenture, (b) the Trustee shall be a third-party beneficiary of this Agreement with the right to enforce Purchaser's obligations under this Agreement, (c) the Trustee or any receiver appointed under the Bond Indenture shall have the right to perform all obligations of Issuer under this Agreement, and (d) in the event of any Purchaser Defaults under Section 17.2(a), (i) Prepay LLC may, to the extent provided for in, and in accordance with, the Receivables Purchase Provisions (as defined in the Bond Indenture), take assignment from Issuer of receivables owed by Purchaser to Issuer under this Agreement, and Prepay LLC or any third party who takes transfer of such receivables shall thereafter have all rights of collection with respect to such receivables, and (ii) if such receivables are not so assigned, the Commodity Swap Counterparty (as defined in the Bond Indenture) shall have the right to pursue collection of such receivables to the extent of any non-payment by Issuer to the Commodity Swap Counterparty that was caused by Purchaser's payment default. Pursuant to the terms of the Bond Indenture, Issuer has irrevocably appointed the Trustee as its agent to issue notices and as directed under the Bond Indenture, to take any

other actions that Issuer is required or permitted to take under this Agreement. Purchaser may rely on notices or other actions taken by Issuer or the Trustee and Purchaser has the right to exclusively rely on any notices delivered by the Trustee, regardless of any conflicting notices that it may receive from Issuer.

Section 18.15 Waiver of Defenses. Purchaser waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available to Purchaser with regard to Purchaser's obligations pursuant to the terms of this Agreement.

IN WITNESS WHEREOF, the Parties have caused this Power Supply Contract to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.

FORM OF FEDERAL TAX CERTIFICATE

This Federal Tax Certificate is executed in connection with the Power Supply Contract dated as of [____], 2025 (the “Supply Contract”), by and between California Community Choice Financing Authority (“Issuer”) and Silicon Valley Clean Energy Authority (“Purchaser”). Capitalized terms used and not otherwise defined herein shall have the meanings given to them in the Supply Contract or in the Bond Indenture.

WHEREAS Purchaser acknowledges that Issuer is issuing the Bonds to fund the prepayment price under the Prepaid Agreement; and

WHEREAS the Bonds are intended to qualify for tax exemption under Section 103 of the Internal Revenue Code of 1986, as amended; and

WHEREAS Purchaser’s use of Energy acquired pursuant to the Supply Contract and certain funds and accounts of Purchaser will affect the Bonds’ qualification for such tax exemption.

NOW, THEREFORE, PURCHASER HEREBY CERTIFIES AS FOLLOWS:

1. Purchaser is a community choice aggregator organized as a joint powers authority under the laws of the State of California. As a community choice aggregator, the Purchaser is a load-serving entity providing electricity to customers within the boundaries of cities and/or counties that have elected to participate in Purchaser’s community choice aggregation program. For purposes of this Certificate, the term “service area” of the Purchaser means the boundaries of the cities and/or counties that have elected to participate in the Purchaser’s community choice aggregation program, as well as any other area recognized as the service area of the Purchaser under state or federal law.
2. Purchaser will resell all of the Energy acquired pursuant to the Supply Contract to its retail Energy customers within its service area, with retail sales in all cases being made pursuant to regularly established and generally applicable tariffs or under authorized requirements contracts.
3. From [____, ____] to [____, 2025] the annual average amount of Energy purchased (other than for resale) by customers of Purchaser who are located within the service area of Purchaser is [_____] MWh. Over the term of the Supply Contract, the Purchaser expects the annual average amount of Energy purchased (other than for resale) by customers of the Purchaser who are located within the service area of the Purchaser to be at least [_____] MWh. The maximum annual amount of Energy in any year being acquired pursuant to the Supply Contract is [_____] MWh. The annual average amount of Energy which Purchaser otherwise has a right to acquire as of the Bond Closing Date (including rights to capacity to generate electricity, whether owned, leased or otherwise contracted for) is [_____] MWh. The sum of (a) the maximum amount of Energy in any year being acquired pursuant to the Supply Contract, and (b) the amount of Energy that Purchaser otherwise has a right to acquire (including rights to capacity to generate electricity, whether owned, leased or otherwise contracted for) in the year described in the foregoing clause

(a), is [] MWh. Accordingly, the amount of Energy to be acquired under the Supply Contract by Purchaser, supplemented by the amount of Energy otherwise available to Purchaser as of the Bond Closing Date, during any year does not exceed []% of the expected annual average amount of Energy to be purchased (other than for resale) by customers of Purchaser who are located within the service area of Purchaser.

3. In the event of the expiration or termination of an EPS Energy Period, Purchaser agrees to comply with its obligations under the Assignment Letter Agreement, including but not limited to its obligations to (a) exercise Commercially Reasonable Efforts to assign a portion of Purchaser's rights and obligations under a power purchase agreement under which Purchaser is purchasing EPS Compliant Energy to MSCG or Prepay LLC pursuant to an Assignment Agreement and (b) cooperate in good faith with Issuer, MSCG and Prepay LLC with respect to any proposed assignments.

4. Purchaser expects to pay for Energy acquired pursuant to the Supply Contract solely from funds derived from its operations as a community choice aggregator. Purchaser expects to use current CCA Revenues of its CCA System to pay for current Energy acquisitions. Neither the Purchaser nor any person who is a related party to the Purchaser will hold any funds or accounts in which monies are set aside and invested and which are reasonably expected to be used to pay for Energy more than one year after such monies are set aside. No portion of the proceeds of the Bonds will be used directly or indirectly to replace funds of Purchaser or any persons who are related Persons to Purchaser that are or were intended to be used for the purpose for which the Bonds were issued.

Re: California Community Choice Financing Authority Clean Energy Project Revenue
Bonds, Series [2025[X]]

Ladies and Gentlemen:

I am general counsel to Silicon Valley Clean Energy (“SVCE”). This opinion is being provided in connection with the issuance by the California Community Choice Financing Authority (the “Issuer”) of its Clean Energy Project Revenue Bonds, Series 2025[X]. This opinion is rendered in connection with the Bond Purchase Contract, dated [_____] , 2025 (the “Bond Purchase Contract”), by and between Morgan Stanley & Co. LLC, as underwriter, and the Issuer. Capitalized terms used herein shall have the meanings given to them in the Bond Purchase Contract.

In rendering this opinion, I have examined or reviewed copies of such records and other documents as I have deemed necessary and relevant for purposes of this opinion. In my examination, I have assumed the genuineness of all signatures, the authenticity of all documents submitted to me as originals, and the conformity of all original documents submitted to me as copies. In basing the opinion set forth in this letter on “my knowledge”, the words “my knowledge” signify that no facts have come to my attention that would give me actual knowledge or actual notice that such opinion is not accurate. Except as otherwise stated in this opinion, I have undertaken no investigation or verification of such matters.

The opinion or conclusions herein may be affected by actions taken or omitted or events occurring after the date hereof. I have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to my attention after the date hereof. Accordingly, this opinion is not intended to, and may not, be relied upon in connection with any such actions, events or matters. In reviewing the documents and matters referred to above, I have assumed the due and legal execution and delivery thereof by, and the validity against, any parties other than SVCE. I have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in such documents. I have further assumed compliance with all covenants and agreements contained in such documents.

Based upon and subject to the foregoing and in reliance thereon, as of the date hereof, to my knowledge, after due inquiry, there is no legislation, action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, government agency, public board or body, pending or, to my knowledge, threatened against SVCE, affecting the existence of SVCE or the titles of its officers to their respective offices, or affecting or seeking to prohibit, restrain or enjoin the execution and delivery of the Power Supply Contract, or contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement, or contesting the powers of SVCE or any authority for the execution and delivery of the Power Supply Contract, nor, to my knowledge, is there any basis therefor, wherein an unfavorable decision, ruling or finding would materially adversely affect the validity or enforceability of the Power Supply Contract.

I express no opinion as to any matter other than as expressly set forth above, and I express no opinion on the laws of any jurisdiction other than the State of California and the United States of America. I disclaim any obligation to update this letter.

Very truly yours,

To the Addressees on
Schedule I attached hereto

We have acted as counsel to Silicon Valley Clean Energy Authority (the “Project Participant”) in connection with the issuance by the California Community Choice Financing Authority (the “Issuer”) of its Clean Energy Project Revenue Bonds, Series 2025[X] (the “Bonds”). This opinion is rendered pursuant to the Bond Purchase Contract, dated [_____] , 2025 (the “Bond Purchase Contract”), by and between Morgan Stanley & Co. LLC, as underwriter (the “Underwriter”) and the Issuer.

In rendering this opinion, we have examined executed copies of the following documents in the form approved by the Board of Directors of the Project Participant pursuant to Project Participant Resolution (collectively, the “Project Participant Documents”):

- (a) Resolution No. 2025-[_____] adopted by the Board of Directors of the Project Participant on [_____] (the “Project Participant Resolution”);
- (b) Power Supply Contract between the Project Participant and the Issuer;
- (c) Consolidated, Amended and Restated Custodial Agreement by and among the Project Participant, Morgan Stanley Energy Structuring, L.L.C. (the “Energy Supplier”), Morgan Stanley Capital Group Inc. (“MSCG”) and The Bank of New York Mellon Trust Company, N.A., as custodian;
- (d) Limited Assignment Agreement by and among the Project Participant, the Energy Supplier and MSCG, as seller under the power purchase agreement to which such assignment relates;
- (e) Letter Agreement by and among the Project Participant, the Issuer, the Energy Supplier and MSCG regarding matters relating to Limited Assignment Agreements; and
- (f) Project Administration Agreement relating to the Project, by and between the Project Participant and the Issuer;

We have also reviewed copies of such records and other documents as we have deemed necessary and relevant for purposes of this opinion. In our examination, we have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as originals, and the conformity of all original documents submitted to us as copies.

As to factual matters, we have relied solely upon our review of the foregoing, the representations and warranties of the Project Participant contained in the Project Participant Documents, the Preliminary Official Statement, the Official Statement, the joint powers agreement of the Project Participant, and various certificates and other documents furnished to us by authorized officers of the Project Participant. In basing the opinions set forth in this letter on “our knowledge”, the words “our knowledge” signify that, in the course of our representation, no facts have come to our attention that would give us actual knowledge or actual notice that any such opinions or other matters are not accurate. Except as otherwise stated in this opinion, we have undertaken no investigation or verification of such matters.

We are of the opinion that:

1. The Project Participant is a joint powers authority created and existing under the laws of the State of California (the “State”), specifically the Joint Exercise of Powers Act, constituting

Chapter 5 of Division 7 of Title 1 (commencing with Section 6500) of the California Government Code, as amended and supplemented from time to time (the “Act”), and has full legal right, power and authority under the Act to (a) enter into, execute and deliver the Project Participant Documents, and (b) carry out and consummate the transactions contemplated by the Project Participant Documents.

2. By all necessary official action, the Project Participant has duly authorized all necessary action to be taken by it for (a) the adoption of the Project Participant Resolution, (b) the approval, execution and delivery of, and the performance by the Project Participant of the obligations on its part, contained in the Project Participant Documents, and (c) the consummation by it of all other transactions contemplated by the Preliminary Official Statement, the Official Statement and the Project Participant Documents.

3. The Project Participant Resolution was duly and validly adopted by the Project Participant in compliance with all applicable procedural requirements of the Project Participant and in compliance with the Act, and the Project Participant Resolution is in full force and effect and has not been amended.

4. The Project Participant Documents have been duly authorized, executed and delivered by the Project Participant, and constitute legal, valid and binding obligations of the Project Participant enforceable against the Project Participant in accordance with their respective terms, except to the extent limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws and equitable principles of general application relating to or affecting the enforcement of creditors’ rights.

5. All authorizations, approvals, licenses, permits, consents and orders of any governmental authority, legislative body, board, agency or commission having jurisdiction of the matter which are required for the due authorization of, which would constitute a condition precedent to, or the absence of which would materially adversely affect the due performance by the Project Participant of its obligations under the Project Participant Documents have been obtained.

6. The execution and delivery of the Project Participant Documents and compliance by the Project Participant with the provisions thereof, under the circumstances contemplated therein, will not conflict with or constitute on the part of the Project Participant a material breach of or a default under any agreement or instrument to which the Project Participant is a party, or violate any existing law, administrative regulation, court order, or consent decree to which the Project Participant is subject.

7. To our knowledge, the statements contained in the Preliminary Official Statement as of its date and in the Official statement under the captions “INTRODUCTION – THE PROJECT PARTICIPANT,” “COMMUNITY CHOICE AGGREGATORS,” in the second paragraph under the caption “LITIGATION,” and in Appendix A – “THE PROJECT PARTICIPANT – Silicon Valley Clean Energy” are true and correct in all material respects.

Notwithstanding anything to the contrary contained above, the foregoing opinion is expressly made subject to the following exceptions, qualifications, and assumptions:

- (i) We express no opinion with respect to the validity or enforceability of any provisions of the Project Participant Documents or any other documents that may be read to require the Project Participant to indemnify any party.
- (ii) We express no opinion with respect to regulatory compliance by the Project Participant under any applicable law, including the California Public Utilities Code, as amended or supplemented from time to time, as determined by any governmental authority, including

the California Public Utilities Commission, regarding the purchase of Energy by the Project Participant under the Power Supply Contract.

- (iii) We express no opinion as to the enforceability of provisions waiving, directly or indirectly, expressly or impliedly, defenses to obligations or rights granted by law, where such waivers are prohibited by law or are against public policy.
- (iv) Our opinion as to enforceability is limited by standards of good faith, fair dealing, materiality, and reasonableness that may be applied by a court to the exercise of certain rights and remedies; limitations based on statutes or on public policy limiting a person's right to waive the benefit of statutory provisions or of a common law right; and limitations releasing a party from or indemnifying a party against liability for its own wrongful or negligent act when such release or indemnification is contrary to public policy.
- (v) Our opinion is limited to the matters stated herein and no opinion may be inferred or implied beyond the matters expressly stated herein. The opinions expressed in this letter are given solely for your use and benefit in connection with the transactions referred to herein and no other person may use or rely on this opinion letter, nor may it be used or relied upon in any other transaction which is not related to transactions referred to herein, without our prior express written consent. This opinion is provided to you as a legal opinion only and not as a warranty or guarantee with respect to the matter described herein or in the documents referred to herein.
- (vi) The scope of this opinion is limited to those issues and parties specifically considered herein and no further or more expansive opinion is implied or should be inferred from any opinion expressed herein. On such basis, any variation or difference in the facts upon which this opinion is based might affect our conclusions in an adverse manner and make them inaccurate.

This opinion is rendered solely for the use and benefit of the parties listed on Schedule I hereto and may not be relied upon other than in connection with the transactions contemplated by the Project Participant Documents, or by any other person or entity for any purpose whatsoever, nor may this opinion be quoted in whole or in part or otherwise referred to in any document or delivered to any other person or entity, without the prior written consent of the undersigned.

Respectfully submitted,

FORM OF CLOSING CERTIFICATE

CLOSING CERTIFICATE OF PURCHASER

_____, 2025

Re: California Community Choice Financing Authority
Clean Energy Project Revenue Bonds, Series 2025[X]

The undersigned _____ of Silicon Valley Clean Energy Authority (the "*Purchaser*"), hereby certifies as follows in connection with the Power Supply Contract dated as of _____, 2025 (the "*Agreement*") between the Purchaser and California Community Choice Financing Authority ("*Issuer*") and the issuance and sale by Issuer of the above-referenced bonds (the "*Bonds*") (capitalized terms used and not defined herein shall have the meanings given to them in the Agreement):

1. Purchaser is a community choice aggregator, duly created and validly existing as a joint powers authority, and is in good standing, under the laws of the State of California (the "*State*"), and has the corporate power and authority to enter into and perform its obligations under the Agreement.

2. By all necessary official action on its part, the Purchaser has duly authorized and approved the execution and delivery of, and the performance by the Purchaser of the obligations on its part contained in the Agreement, and such authorization and approval has not been amended, supplemented, rescinded or modified in any respect since the date thereof.

3. The Agreement constitutes the legal, valid and binding obligation of the Purchaser.

4. The authorization, execution and delivery of the Agreement and compliance with the provisions on the Purchaser's part contained therein (a) will not conflict with or constitute a breach of or default under (i) any instrument relating to the organization, existence or operation of Purchaser, (ii) any ruling, regulation, ordinance, judgment, order or decree to which Purchaser (or any of its officers in their respective capacities as such) is subject or (iii) any provision of the laws of the State relating to Purchaser and its affairs, and (b) will not result in, or require the creation or imposition of, any lien on any of the properties or revenues of Purchaser pursuant to any of the foregoing.

5. The Purchaser is not in breach of or default under any applicable constitutional provision, law or administrative regulation of the State or the United States or any applicable judgment or decree or any loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Purchaser is a party or to which the Purchaser or any of its property or

assets are subject, and no event has occurred and is continuing which constitutes or with the passage of time or the giving of notice, or both, would constitute a default or event of default by the Purchaser under any of the foregoing.

6. Payments to be made by the Purchaser under the Agreement shall constitute operating expenses of the Purchaser's CCA System (as defined in the Agreement) payable solely from the revenues and other available funds of Purchaser's CCA System as a cost of purchased electricity. The application of the revenues and other available funds of the Purchaser's CCA System to make such payments is not subject to any prior lien, encumbrance or other restriction.

7. No litigation, proceeding or tax challenge is pending or, to its knowledge, threatened, against the Purchaser in any court or administrative body which would (a) contest the right of the officials of the Purchaser to hold and exercise their respective positions, (b) contest the due organization and valid existence of the Purchaser, (c) contest the validity, due authorization and execution of the Agreement or (d) attempt to limit, enjoin or otherwise restrict or prevent the Purchaser from executing, delivering and performing the Agreement, nor to the knowledge of the Purchaser is there any basis therefor.

8. All authorizations, approvals, licenses, permits, consents and orders of any governmental authority, legislative body, board, agency or commission having jurisdiction of the matter which are required for the due authorization of, which would constitute a condition precedent to, or the absence of which would materially adversely affect the due performance by the Purchaser of its obligations under the Agreement have been duly obtained.

9. The representations and warranties of the Purchaser contained in the Agreement were true, complete and correct on and as of the date thereof and are true, complete and correct on and as of the date hereof.

10. The statements and information with respect to the Purchaser contained in the Official Statement dated _____, 2025 with respect to the Bonds, including Appendix B thereto (the "*Official Statement*"), fairly and accurately describe and summarize the financial and operating position of the Purchaser for the periods shown therein, and such statements and information did not as of the date of the Official Statement and do not as of the date hereof contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make such statements and information, in the light of the circumstances under which they were made, not misleading.

11. No event affecting the Purchaser has occurred since the date of the Official Statement which should be disclosed therein in order to make the statements and information with respect to the Purchaser contained therein, in light of the circumstances under which they were made, not misleading in any material respect.

12. The Board of Directors of Purchaser is composed of [____] members] who are elected pursuant to the terms of the Act and the Joint Powers Agreement, dated [____], 20[____] as amended from time to time (the "Joint Powers Agreement"). The names of the current members of the Board of Directors are [[____], [____], [____] and [____]].

13. On [____], 20[____], Purchaser held a meeting at which, among other matters, approval was granted for Purchaser to complete a prepaid energy transaction with Issuer and Energy Prepay IX, LLC. Reference is made to the minutes of said meeting, including the resolution attached thereto, for further detail regarding approval of the prepaid energy transaction (the “Authorizing Resolution”).

SECOND CONSOLIDATED, AMENDED AND RESTATED CUSTODIAL AGREEMENT

This Second Consolidated, Amended and Restated Custodial Agreement (this “Agreement”) is made and entered into as of [____], 2025, by and among California Community Choice Financing Authority, a joint powers authority and a public entity of the State of California established pursuant to the provisions of the Joint Exercise of Powers Act (Article 1, Chapter 5, Division 7, Title 1, Section 6500 et seq. of the California Government Code, as amended) (defined below) (“Issuer”), Silicon Valley Clean Energy Authority, a joint powers authority and a community choice aggregator organized under the laws of the State of California (“Participant”), Morgan Stanley Capital Group Inc., a Delaware corporation (“MSCG”), Morgan Stanley Energy Structuring, L.L.C., a Delaware limited liability company (“MSES”), and The Bank of New York Mellon Trust Company, N.A., a national banking association, (the “Custodian” and together with Issuer, Participant, MSES and MSCG, the “Parties”, and each individually, a “Party”).

RECITALS:

WHEREAS, in connection with the issuance of one or more series of bonds by Issuer, MSCG (or MSES with respect to power purchase agreements with MSCG as seller), Issuer and Participant will enter into a series of Assignment Agreements (the “Assignment Agreements”, which definition shall include any new Assignment Agreement identified by MSCG’s delivery of an updated Exhibit A consistent with Section 3(c)) with the sellers under certain power purchase agreements (each, individually, a “PPA Seller” and collectively the “PPA Sellers”, which definitions shall include any new PPA Seller identified by MSCG’s delivery of an updated Exhibit A consistent with Section 3(c)), pursuant to which Participant will partially assign its rights and obligations under its Power Supply Agreements (“Assigned PPAs”) to MSCG or a Prepay Seller (as defined below, as applicable, for redelivery under the Prepay Contract Chains;

WHEREAS, the Parties previously entered into that certain Consolidated, Amended and Restated Custodial Agreement, dated as of July 1, 2024 (the “Existing Custodial Agreement”) for the administration of payments to be received by the sellers under the Assigned PPAs (each, individually, a “PPA Seller” and collectively the “PPA Sellers”, and which definitions shall include any new PPA Seller identified by MSCG’s delivery of an updated Exhibit A consistent with Section 3(c) of this Agreement) for each of the Prepay Contract Chains identified in Exhibit B as updated from time to time in accordance with Section 3(c) of this Agreement; and

WHEREAS, the Parties propose to amend and restate the Existing Custodial Agreement on the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto agree as follows:

Section 1. Defined Terms.

(a) Any capitalized term used herein and not otherwise defined herein (including in the recitals) shall have the meaning assigned to such term in the Power Supply

Agreements. The following additional terms, when used in this Agreement (including the preamble or recitals to this Agreement) and identified by the capitalization of the first letter thereof, have the respective meanings set forth below, unless the context otherwise requires:

“Annual Quantity” has, with respect to any Prepay Contract Chain, the meaning specified in the relevant Prepay Contract Chain.

“Assigned Product Price” has, with respect to any Assigned PPA, the meaning specified in Exhibit A, as may be updated from time to time consistent with the terms hereof.

“Assignment Period” has, with respect to any Assigned PPA, the meaning specified in Exhibit A, as may be updated from time to time consistent with the terms hereof.

“Custodial Agreement Payment Date” means, with respect to any Assigned PPA, the last Business Day preceding the PPA Monthly Statement Payment Date.

“Delivered Product Payment Amount” means, in respect of each PPA Monthly Statement, an amount equal to the lesser of (a) (i) the Monthly Projected Quantity under the relevant Assigned PPA for such Month with respect to an Undivided Assigned PPA or (ii) the sum of the Monthly Projected Quantities for the relevant Assigned PPA with respect to a Divided Assigned PPA, as applicable, multiplied by the Assigned Product Price for such Assigned PPA, and (b) the actual quantity of Assigned Product reflected in such PPA Monthly Statement multiplied by the Assigned Product Price then in effect under the relevant Assigned PPA, minus in all cases the face amount of any Receivables (as defined in the relevant Prepaid Agreement(s)) that is delivered by PPA Assignee to the Custodian in respect of such Assigned PPA pursuant to Section 4(e). Notwithstanding the foregoing or anything to the contrary herein, there shall be no Delivered Product Payment Amount with respect to any Assigned PAYGO Quantities or Monthly Excess Quantities.

“Divided Assigned PPA” means an Assigned PPA that has been allocated to more than one Prepay Contract Chain pursuant to Section 3(d).

“Energy Management Agreements” mean each of the Energy Management Agreements by and between a Prepay Seller and MSCG as set forth in Exhibit B to this Agreement, which Exhibit B may be updated from time to time in accordance with Section 3(c).

“Issuer Negative Pricing Payment Amount” means the positive difference, if any, for any Month between (a) amounts due from Issuer to Participant under Section 3.2(a) of a Power Supply Agreement with respect to negatively priced Energy and (b) amounts due from Participant to Issuer under Section 3.2(a) of a Power Supply Agreement with respect to positively priced Energy.

“Monthly Gross Amount” means, in respect of each PPA Monthly Statement, an amount equal to the total net amount due to the applicable PPA Seller in respect of such PPA Monthly Statement and shall consist of the following components: (a) the Delivered Product Payment Amount and (b) the Retained Payment Amount (if such amount is a positive number for such Month).

“Monthly Projected Quantity” has, with respect to each Assigned PPA and each Prepay Contract Chain, the meaning specified in the Power Supply Agreement for such Prepay Contract Chain.

“Participant Monthly Statement” has the meaning set forth in Section 3(a).

“Power Supply Agreements” means each of the Power Supply Contracts by and between Participant and Issuer as set forth in Exhibit B to this Agreement, which Exhibit B may be updated from time to time in accordance with Section 3(c).

“PPA Assignee” means MSCG or, to the extent that MSCG is a PPA Seller under the applicable Assigned PPA, a Prepay Seller, in each case, in its capacity as the limited assignee under the applicable Assignment Agreement.

“PPA Assignee Resettlement Amount” means, in respect of any PPA Monthly Statement that (a) is delivered after the delivery of the Billing Statement under the relevant Power Supply Agreement(s) for such Month and (b) reflects that a quantity of Assigned Product less than the total Monthly Projected Quantity was delivered in such Month under the relevant Assigned PPA, an amount equal to the product of (i) the total Monthly Projected Quantity for such Month minus the quantity of Assigned Products actually delivered under the Assigned PPA in such Month, multiplied by (ii) the Day-Ahead Market Price during the Initial EPS Energy Period and the Day-Ahead Average Price during any EPS Energy Period subsequent to the Initial EPS Energy Period. Notwithstanding the foregoing or anything to the contrary herein, there shall be no PPA Assignee Resettlement Amount or any other obligations of PPA Assignee with respect to any Assigned PAYGO Quantities or Monthly Excess Quantities.

“PPA Monthly Statement” means, for each Assigned PPA, the monthly consolidated invoice delivered to PPA Assignee and Participant consistent with the terms of the applicable Assignment Agreement.

“PPA Monthly Statement Payment Date” means the last Business Day on which payment with respect to a PPA Monthly Statement may be made before any incremental interest arises thereon or any default or breach arises under the Assigned PPA.

“Prepaid Agreements” mean each of the Prepaid Energy Sales Agreements by and between a Prepay Seller and Issuer as set forth in Exhibit B to this Agreement, which Exhibit B may be updated from time to time in accordance with Section 3(c).

“Prepay Contract Chain” means, with respect to each bond issuance by Issuer detailed in Exhibit B, the Energy Management Agreement, Prepaid Agreement and Power Supply Agreement relating thereto.

“Prepay Seller” means the “Seller” as defined in a Prepaid Agreement and specified in Exhibit B hereto for the relevant Prepay Contract Chain.

“Provisional Payment” has the meaning specified in the Prepaid Agreements.

“Responsible Officer” means any vice president, assistant secretary or any other officer or other Person within the corporate office of the Custodian having direct responsibility for the administration of this Agreement or to whom any matter is referred because of his or her knowledge of and familiarity with the particular situation, who is authorized to act for the Custodian in matters relating to, and binding upon, the Custodian and who has direct responsibility for the administration of this Agreement.

“Retained Payment Amount” means, in respect of each PPA Monthly Statement, an amount equal to (a) all amounts owed to the applicable PPA Seller for such Month, less (b) the sum of the Delivered Product Payment Amount and the PPA Assignee Resettlement Amount, if any; provided that, to the extent the Retained Payment Amount is negative in any Month, then the absolute value of such amount shall represent an amount to be paid by the Custodian to Participant pursuant to Section 4(c)(ii) hereof; provided furthermore that all amounts due with respect to any Assigned PAYGO Quantities and Monthly Excess Quantities for the relevant Prepay Contract Chain(s) shall be Participant’s sole responsibility as a portion of the Retained Payment Amount.

“Undivided Assigned PPA” means any Assigned PPA other than a Divided Assigned PPA.

(b) Except where expressly provided otherwise, any reference herein to any agreement or document includes all amendments, supplements or restatements to and of such agreement or document as may occur from time to time in accordance with its terms and the terms hereof, and any reference to a party to any such agreement includes all successors and assigns of such party thereunder permitted by the terms hereof and thereof.

Section 2. Appointment of Custodian. Participant, MSES and MSCG hereby appoint The Bank of New York Mellon Trust Company, N.A. as Custodian under this Agreement, with such rights and obligations as are specifically set forth herein. The Custodian hereby accepts such appointment under the terms and conditions set forth herein.

Section 3. Payment Instructions to Custodian; Assigned PPA Exhibits.

(a) Participant Monthly Statements. No later than seven days following Participant’s receipt of a PPA Monthly Statement from a PPA Seller, Participant shall deliver a statement to the other Parties hereto listing the following: the Delivered Product Payment Amount, the Retained Payment Amount, the Monthly Gross Amount, the PPA Monthly Statement Payment Date, the Custodial Agreement Payment Date, the PPA Assignee Resettlement Amount, if any, the Monthly Excess Quantities, if any (including the allocation of Monthly Excess Quantities for a Divided Assigned PPA), the Assigned Paygo Quantities, if any (including the allocation of Assigned Paygo Quantities for any Divided Assigned PPA), reflected in such PPA Monthly Statement and any Issuer Negative Pricing Payment Amount for such Month under the relevant Power Supply Agreement(s) (such notice from the Participant, the “Participant Monthly Statement”), as determined, in each case, based on the relevant PPA Monthly Statement for such Month. The Parties agree to exercise commercially reasonable efforts to implement a test billing period for a period of at least two Months prior to the effectiveness of any Assignment Agreement after the Initial Assignment Agreement.

(b) Verification. PPA Assignee shall notify Participant and each other Party promptly following Participant's delivery of a Participant Monthly Statement if PPA Assignee believes any information included on such PPA Monthly Statement is incorrect. Following receipt and verification of the information included in any such notice from PPA Assignee, Participant shall, to the extent appropriate and in consultation with PPA Assignee, issue a corrected PPA Monthly Statement to all Parties.

(c) Assigned PPA and Prepay Contract Chain Details.

(i) Exhibit A to this Agreement sets forth certain information regarding the Assigned PPAs as of the date hereof, including the Assignment Periods, Assigned Product Prices, the relevant Prepay Contract Chain for each Assigned PPA (including any percentage allocation of any such Assigned PPA to more than one Prepay Contract Chain), the PPA Sellers thereunder and the payment instructions for payments to the PPA Sellers. MSCG shall deliver an updated Exhibit A to each of the other Parties hereto to reflect any changes to the information set forth therein, including due to the expiration, extension or termination of an Assignment Period, the commencement of a new Assignment Period or a reallocation of Assigned Products under an Assigned PPA pursuant to Section 3(d).

(ii) Exhibit B to this Agreement sets forth certain information regarding the Prepay Contract Chains in effect as of the date hereof. MSCG shall deliver an updated Exhibit A to each of the other Parties hereto to reflect any changes to the information set forth therein, including due to the execution of a new Prepay Contract Chain in connection with a bond issuance by Issuer.

(d) Assigned PPA Allocations. MSCG and Participant may mutually agree in writing to establish multiple Monthly Projected Quantities for a single Assigned PPA with the effect that the Assigned Products delivered thereunder during the Assignment Period are allocated on a percentage basis (as specified in the written agreement of MSCG and Participant) to more than one Prepay Contract Chain, which percentage allocations (x) shall be subject to the requirements of tax counsel, howsoever defined in the Bond Indenture for the relevant Prepay Contract Chain, and (y) in all cases shall provide for an aggregate percentage allocation equal to 100% of the maximum Monthly Projected Quantities permitted by tax counsel for such Assigned PPA for an assignment to a single Prepay Contract Chain. In such case, the quantity of Assigned Products actually delivered under any such Assigned PPA shall be allocated to the applicable Prepay Contract Chain consistent with the percentage allocation specified in MSCG and Participant's written agreement regarding the allocation of the Assigned Product under such Assigned PPA. Furthermore, MSCG and Participant may modify the allocation of the Assigned Products for an Assigned PPA by written agreement from time to time but not more than twice per calendar year, which modifications (i) must take effect on the first day of a Month specified in such written agreement of MSCG and Participant and may not in case have retroactive effect and (ii) may include without limitation (A) an allocation of an Assigned PPA to multiple Prepay Contract Chains for an Assigned PPA previously allocated to one Prepay Contract Chain and (B) an allocation of an Assigned PPA to a single Prepay Contract Chain for an Assigned PPA previously allocated to one Prepay Contract Chain. The Parties acknowledge and agree that, notwithstanding anything to the contrary in the Prepay Contract Chains, the terms thereof

relating to the Monthly Projected Quantities, Monthly Excess Quantities and Assigned Paygo Quantities shall be construed in accordance with this Section 3(d) to the extent that an Assigned PPA is allocated to more than one Prepay Contract Chain.

(e) Execution of New Prepay Contract Chains. MSCG and Participant shall promptly notify the Custodian in writing upon the subsequent execution of new Prepay Contract Chains for which Assigned PPA payments will be administered under this Agreement.

Section 4. Assigned PPA Payments Account.

(a) Custodial Account. With respect to payments required to be made by PPA Assignee and Participant to the PPA Sellers under the Assigned PPAs, there is hereby established with the Custodian at its office located at 333 S. Hope Street, Suite 2525, Los Angeles, California 90071, the custodial account detailed below (the “Assigned PPA Payments Account”) and all payments made by PPA Assignee and Participant hereunder shall be wired to such Assigned PPA Payments Account:

THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A.
ABA: 021000018
Account No.: 1074978400
FBO: CCCFA SVCE ASSIGNED PPA PAYMENT AC
ATTN: Jane Thang (213) 553-4343

(b) PPA Assignee and Participant Monthly Payments.

(i) PPA Assignee shall make payment of the Delivered Product Payment Amount and any PPA Assignee Resettlement Amount into the Assigned PPA Payments Account on the Custodial Agreement Payment Date for each Month of any Assignment Period; provided that, to the extent that (i) the Delivered Product Payment Amount and any PPA Assignee Resettlement Amount are due and (ii) PPA Assignee pays some portion of such amounts but less than the total amount due, PPA Assignee’s partial payment shall be applied first to the Delivered Product Payment Amount.

(ii) For each Month of any Assignment Period for which the Retained Payment Amount is a positive number, Participant shall make payment of such amount into the Assigned PPA Payments Account on the Custodial Agreement Payment Date. For each Month of any Assignment Period for which the Retained Payment Amount is a negative number, Participant shall have no payment obligation for such Month with respect to the Retained Payment Amount and the Custodian will pay the absolute value of such amount to Participant consistent with Section 4(c)(ii).

(iii) For each Month, if any, of an Assignment Period for which there is an Issuer Negative Pricing Payment Amount under the relevant Power Supply Agreement(s), Participant shall make payment of such amount(s) into the Assigned PPA Payments Account on the Custodial Agreement Payment Date; provided that, notwithstanding the foregoing, Participant shall have no payment obligation hereunder with respect to an Issuer Negative Pricing Payment Amount to the extent that PPA

Assignee receives such amount from the PPA Seller pursuant to the terms of the applicable Assignment Agreement.

(c) Transfers by Custodian.

(i) For any Month in an Assignment Period for which the Retained Payment Amount is equal to or greater than zero (0), the Custodian shall withdraw the amounts on deposit in the Assigned PPA Payments Account to make payment of the Monthly Gross Amount on the PPA Monthly Statement Payment Date by a single wire transfer to the applicable PPA Seller of the amounts received from each of PPA Assignee and Participant.

(ii) For any Month in an Assignment Period for which the Retained Payment Amount is a negative number, the Custodian shall withdraw amounts on deposit in the Assigned PPA Payments Account (A) first to make payment of the Monthly Gross Amount to the applicable PPA Seller in respect of each PPA Monthly Statement on the relevant PPA Monthly Statement Payment Date pursuant to the payment instructions set forth on Exhibit A; and (B) immediately thereafter to make payment of the absolute value of such Retained Payment Amount to Participant pursuant to the payment instructions set forth on Exhibit B. If the amounts on deposit in the Assigned PPA Payments Account are insufficient to pay the entirety of either such amounts, the Custodian shall apply the amounts available in the order specified in the preceding sentence.

(iii) For any Month in an Assignment Period for which an Issuer Negative Pricing Payment Amount is due from Participant with respect to the relevant Power Supply Agreement(s), the Custodian shall, after application of amounts on deposit in the Assigned PPA Payments Account pursuant to clause (i) or (ii) above, as applicable, withdraw amounts on deposit in the Assigned PPA Payments Account to make payment of Issuer Negative Pricing Payment Amount(s) to PPA Assignee.

(d) Amounts deposited in the Assigned PPA Payments Account shall be held in trust for the benefit of Participant until applied as set forth in Section 4(c) and Section 14, as applicable, and there is hereby granted to Participant a lien on and security interest in the Assigned PPA Payments Account pending such application. Except for any amounts due and payable to Participant pursuant to Section 4(c)(ii), the Custodian shall not be required to comply with any orders, demands, or other instructions from Participant with respect to the Assigned PPA Payments Account, including, without limitation, items presented for payment, or any order or instruction directing the disposition of funds or other assets held in or credited to the Assigned PPA Payments Account, and Participant agrees that, except as set forth in Section 4(c)(ii), prior to the termination of this Agreement in accordance with the terms hereof, it shall have no right to direct the disposition of funds or other assets held in or credited to the Assigned PPA Payments Account, or to withdraw or otherwise obtain funds or other assets held in or credited to the Assigned PPA Payments Account, whether by order or instruction to the Custodian or otherwise.

(e) With respect to each PPA Monthly Statement, to the extent PPA Assignee has purchased Receivables (as defined in the Prepaid Agreements) for amounts owed by Participant for the Month to which such PPA Monthly Statement relates, PPA Assignee may, at its option,

(i) notify the Custodian that it intends to transfer all or any portion of such Receivables to the PPA Seller, and (ii) reduce the Delivered Product Payment Amount by the face amount of such Receivables to be transferred. To the extent PPA Assignee has notified the Custodian of its intent to transfer any such Receivables, PPA Assignee shall cause such Receivables to be transferred to the PPA Seller not later than the relevant PPA Monthly Statement Payment Date.

Section 5. Provisional Payments Account.

(a) Custodial Account. With respect to Provisional Payments required to be made by a Prepay Seller to Issuer under a Prepaid Agreement, as reflected in the Billing Statement (as defined in the Prepaid Agreements) which shall be delivered by each Prepay Seller to each of the parties hereto consistent with Section 14.1(b) of the Prepaid Agreements, there is hereby established with the Custodian at its office located at 333 S. Hope Street, Suite 2525, Los Angeles, California 90071, the custodial account listed below (the “Provisional Payments Account”) and all Provisional Payments made by a Prepay Seller hereunder shall be wired to such Provisional Payments Account:

THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A.
ABA# 021000018
ACCOUNT NUMBER: 7598448400
ACCOUNT NAME: CCCFA SVCE PROVISIONAL PAYMENT AC
ATTN: Jane Thang (213) 553-4343

(b) Prepay Seller Monthly Payments. For each Month of the Delivery Period under a Prepaid Agreement, the relevant Prepay Seller shall make payment of the Provisional Payment, if any, due under such Prepaid Agreement for such Month into the Provisional Payments Account on or before the payment due date set forth in such Prepaid Agreement for each Month of the Delivery Period. The Parties acknowledge and agree that any Provisional Payment due shall be reflected in the Billing Statement (as defined in the Prepaid Agreements) delivered by the relevant Prepay Seller under Section 14.1(b) of the relevant Prepaid Agreement, which each Prepay Seller has agreed to deliver to each of the Parties hereunder.

(c) Transfers by Custodian; Segregation and Application of Discount Dollars.

(i) Upon receipt of any Provisional Payment under Section 5(b), the Custodian shall promptly (x) withdraw the portion of such Provisional Payment that represents the Net Participant Price (as defined in the relevant Prepaid Agreement) that would otherwise be payable by Participant to Issuer with respect thereto under the relevant Power Supply Agreement, as reflected in the Billing Statement delivered by the relevant Prepay Seller pursuant to Section 14.1(b) of the relevant Prepaid Agreement, and (y) transfer such amount to Issuer’s Revenue Fund under and as defined in the relevant Bond Indenture.

(ii) The portion of any Provisional Payment in excess of the Net Participant Price (such portion, the “Discount Dollars”) shall be segregated by the Custodian and applied as set forth below:

(A) the Custodian shall create separate subaccounts for each Prepay Contract Chain and deposit the Discount Dollars associated with a particular Prepay Contract Chain in the relevant subaccount;

(B) to the extent that (i) there is a positive balance of Discount Dollars being held by the Custodian in the subaccount relating to a Prepay Contract Chain and (ii) any Participant Monthly Statement reflects that Monthly Excess Quantities were delivered under an Assigned PPA relating to such Prepay Contract Chain for any given Month, the Custodian shall withdraw an amount equal to the Monthly Discount under the relevant Power Supply Agreement(s) per MWh of Monthly Excess Quantities on the relevant PPA Monthly Statement Payment Date and transfer such amount(s) to Participant pursuant to the payment instructions set forth for payments to Participant on Exhibit A; and

(C) The relevant Prepay Seller shall notify the Custodian and each of the other Parties hereto if less than the Annual Quantity under a Prepay Contract Chain is delivered for any Contract Year, and, promptly following receipt of any such notice, the Custodian shall transfer any related Discount Dollars to the Trustee for deposit in the Energy Remarketing Reserve Fund under and as defined in the relevant Bond Indenture(s).

Section 6. Custodian. The Custodian shall have (a) no liability under any agreement other than this Agreement and (b) no duty to inquire as to the provisions of any agreement other than this Agreement and the Assigned PPAs. The Custodian may rely upon and shall not be liable for acting or refraining from acting upon any written notice, document, instruction or request furnished to it hereunder in accordance with the terms hereof and believed by it to be genuine and to have been signed or presented by the proper Party or Parties. The Custodian shall be under no duty to inquire into or investigate the validity, accuracy or content of any such document, notice, instruction or request. The Custodian shall have no duty to solicit or compel any payments which may be due to it, or to take any action to compel PPA Assignee or Participant to make the deposits required under Section 4. The Custodian shall not be liable for any action taken or omitted by it in good faith except to the extent that a court of competent jurisdiction determines that the Custodian's gross negligence or willful misconduct was the primary cause of any loss to any other Party hereto. In connection with the execution of any of its powers or the performance of any of its duties hereunder, the Custodian may consult with counsel, accountants and other skilled persons selected and retained by it. The Custodian shall not be liable for anything done, suffered or omitted in good faith by it in accordance with the advice or opinion of any such counsel, accountants or other skilled persons, provided the Custodian exercised due care and good faith in the selection of such person. The permissive rights of the Custodian to take actions enumerated under this Agreement shall not be construed as duties. In the event that the Custodian shall be uncertain as to its duties or rights hereunder or shall receive instructions, claims or demands from any Party hereto which, in its opinion, conflict with any of the provisions of this Agreement, it shall be entitled to refrain from taking any action and its sole obligation shall be to keep safely all property held in escrow until it shall be directed otherwise in writing by all of the other Parties hereto or by a final order or judgment of a court of competent jurisdiction. The Custodian may interplead all of the assets held hereunder into a court of competent jurisdiction or may seek a declaratory judgment with respect to certain

circumstances, and thereafter be fully relieved from any and all liability or obligation with respect to such interpleaded assets or any action or non-action based on such declaratory judgment. Anything in this Agreement to the contrary notwithstanding, in no event shall the Custodian be liable for special, indirect, incidental, consequential or punitive damages, losses or penalties of any kind whatsoever (including but not limited to lost profits), regardless of the form of action. The Custodian may engage and act through agents and attorneys and shall not be liable for the misconduct or negligence of any such agent or attorney appointed with due care. Nothing herein shall obligate or be construed to obligate the Custodian to advance its own funds, or to expend or risk its own funds. The Custodian shall not be liable for any action taken by it in good faith in accordance with instruction received in accordance with this Agreement, or for the application of funds by other actions or omissions of other persons. The Custodian shall be responsible only for funds actually received by it for deposit into the Assigned PPA Payments Account, and the Custodian shall not be obliged to advance or risk its own funds to make any payments required hereunder. The Custodian shall have only those duties expressly set forth in this Agreement and no implied duties shall be read into this Agreement against the Custodian. The Parties hereto acknowledge and agree that the Custodian is not a fiduciary by virtue of accepting and carrying out its obligations under this Agreement and has not accepted any fiduciary duties, responsibilities or liabilities with respect to its services hereunder. The Custodian shall not be responsible for the perfection of any security interest granted hereunder.

Section 7. Succession. The Custodian may resign and be discharged from its duties or obligations hereunder by giving not less than 30 days' advance notice in writing of such resignation to the other Parties hereto specifying a date when such resignation shall take effect; and such resignation shall take effect upon the day specified in such notice unless a successor shall not have been appointed by the other Parties hereto on such date, in which event such resignation shall not take effect until a successor is appointed. The other Parties hereto shall use their commercially reasonable efforts to make such appointment in a timely fashion, provided that any custodian appointed in succession to the Custodian shall be a bank or trust company organized under the laws of any state or a national banking association and shall have capital stock, surplus and undivided earnings aggregating at least \$50,000,000 and shall be a bank with trust powers or trust company willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Agreement. Any corporation or association into which the Custodian may be merged or converted or with which it may be consolidated, or any corporation or association to which all or substantially all of the Custodian's corporate trust line of business may be transferred, shall be the Custodian under this Agreement without further act. Notwithstanding the foregoing, if no appointment of a successor Custodian shall be made pursuant to the foregoing provisions of this Section 7 within 30 days after the Custodian has given written notice to the other Parties of its resignation as provided in this Section 7, the Custodian may, in its sole discretion, apply to any court of competent jurisdiction to appoint a successor Custodian. Said court may thereupon, after such notice, if any, as such court may deem proper, appoint a successor Custodian.

Section 8. Fees. MSES agrees to (a) pay the Custodian reasonable compensation for the services to be rendered hereunder, which compensation shall be \$1,500 for each year that this Agreement is in effect and (b) reimburse the Custodian for its reasonable attorneys' fees incurred in connection with the execution of this Agreement. The parties hereto acknowledge that this

provision shall survive the resignation or removal of the Custodian or the termination of this Agreement.

Section 9. Reimbursement. Issuer, MSCG, MSES and Participant agree, jointly and severally (subject to the second proviso of this Section 9), to reimburse the Custodian and its directors, officers, agents and employees for any and all loss, liability or expense (including the fees and expenses of in-house or outside counsel and experts and their staffs and all expense of document location, duplication and shipment) arising out of or in connection with (a) its acting as the Custodian under this Agreement, except to the extent that such loss, liability or expense is finally adjudicated to have been caused primarily by the gross negligence or willful misconduct of the Custodian or such director, officer, agent or employee seeking reimbursement, or (b) its following any instructions or other directions from MSCG, MSES or Participant, except to the extent that its following any such instruction or direction is expressly forbidden by the terms hereof; provided, however, that any amounts due under this Section 9 shall not duplicate any other amounts due under this Agreement, including without limitation amounts due under Section 15 hereof; provided further, however, that, notwithstanding the joint and several nature of the obligations under this Section 9, any amounts due under clause (b) of this sentence resulting from instructions or directions that are not expressly provided for in this Agreement and are given to the Custodian by only one Party shall be the sole obligation of such Party. The Parties hereto acknowledge that this provision shall survive the resignation or removal of the Custodian or the termination of this Agreement.

Section 10. Taxpayer Identification Numbers; Tax Matters. MSCG, MSES and Participant represent that their correct taxpayer identification numbers assigned by the Internal Revenue Service or any other taxing authority is set forth on the signature page hereof. Any tax returns or reports required to be prepared and filed in connection with the Assigned PPA Payments Account will be prepared and filed by Participant, and the Custodian shall have no responsibility for the preparation and/or filing of any tax return with respect to any income earned on the Assigned PPA Payments Account. In addition, any tax or other payments required to be made pursuant to such tax return or filing shall be paid by Participant. The Custodian shall have no responsibility for making such payment unless directed to do so in writing by the appropriate authorized Party and fully indemnified to the Custodian's satisfaction.

Section 11. Notices.

(a) Any notice, demand, statement or request required or authorized by this Agreement to be given by one Party to another Party shall be in writing and shall either be sent by email transmission or other Electronic Means (defined below), courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses specified in Exhibit B for the receiving Party. Any such notice, demand, or request shall be deemed to be given (i) when delivered by email transmission, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service); provided that, if a Party delivers a notice, demand or request by any means other than email transmission or other Electronic Means (defined below), such notice shall not be effective unless and until the Party also delivers a copy thereof to the other Parties' email address specified in Exhibit B. Each Party shall have the right, upon 10 days' prior written notice to the other Parties, to change its list of notice recipients and addresses in Exhibit B. The Parties may mutually agree in writing at any

time to deliver notices, demands or requests through alternate or additional methods, such as electronic mail. Notwithstanding the foregoing, any Party may at any time notify the others that any notice, demand, statement or request to it must be provided by email transmissions for a specified period of time or until further notice, and any communications delivered by means other than email transmission during the specified period of time shall be ineffective. In the event that the Custodian, in its sole discretion, shall determine that an emergency exists, the Custodian may use such other means of communication as the Custodian deems appropriate.

(b) Exhibit A shall include each PPA Seller's notice and payment information as set forth in the Assigned PPAs, and MSCG and Participant promptly shall cause such information to be updated to the extent there are any changes to such information under the Assigned PPAs.

(c) The Custodian shall have the right to accept and act upon instructions or directions given pursuant to this Custodial Agreement, or any other document reasonably relating to the matters described herein, delivered using Electronic Means (defined below); provided, however, that each party giving directions to the Custodian hereunder shall provide to a Responsible Officer of the Custodian an incumbency certificate, substantially in the form attached hereto as Exhibit C, listing persons with the authority to provide such instructions or directions (each an "Authorized Officer") and containing specimen signatures of such Authorized Officers, which incumbency certificate shall be amended, with written notice to a Responsible Officer of the Custodian, whenever a person is to be added or deleted from the listing. If a party elects to give the Custodian directions or instructions using Electronic Means (defined below) and the Custodian in its discretion elects to act upon such directions, the Custodian's understanding of such directions shall be deemed controlling. The parties understand and agree that the Custodian cannot determine the identity of the actual sender of such directions and that the Custodian shall conclusively presume that directions that purport to have been sent by an Authorized Officer listed on the incumbency certificate provided by a party to a Responsible Officer of the Custodian have been sent by such Authorized Officer. The party giving such instructions shall be solely responsible for ensuring that only Authorized Officers transmit such directions to the Custodian and that all Authorized Officers treat applicable user and authorization codes, passwords and/or authentication keys issued by the Custodian as confidential and with extreme care. The Custodian shall not be liable for any losses, costs or expenses arising directly or indirectly from the Custodian's reliance upon and compliance with such directions notwithstanding that such directions conflict or are inconsistent with a subsequent written direction. The party giving such directions agrees: (i) to assume all risks arising out of the use of Electronic Means (defined below) to submit directions to the Custodian, including without limitation the risk of the Custodian acting on unauthorized directions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting directions to the Custodian and that there may be more secure methods of transmitting directions; (iii) that the security procedures (if any) to be followed in connection with its transmission of directions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and (iv) to notify the Custodian immediately upon learning of any compromise or unauthorized use of the security procedures.

(d) As used herein, "Electronic Means" shall mean the following communications methods: e-mail, secure electronic transmission containing applicable authorization codes,

passwords and/or authentication keys issued by the Custodian, or another method or system specified by the Custodian as available for use in connection with its services hereunder.

Section 12. Miscellaneous.

(a) The provisions of this Agreement may be waived, altered, amended or supplemented, in whole or in part, only by a writing signed by all of the Parties hereto.

(b) Neither this Agreement nor any right or interest hereunder may be assigned in whole or in part by any Party, except as provided in Section 7, without the prior written consent of the other Parties.

(c) THIS AGREEMENT AND THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY AND CONSTRUED, ENFORCED, AND PERFORMED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT REGARD TO ANY CONFLICTS OF LAW PRINCIPLE THAT WOULD DIRECT THE APPLICATION OF THE LAWS ANOTHER JURISDICTION; PROVIDED, HOWEVER, THAT THE AUTHORITY OF PARTICIPANT TO ENTER INTO AND PERFORM ITS OBLIGATIONS UNDER THIS AGREEMENT SHALL BE DETERMINED IN ACCORDANCE WITH THE LAWS OF THE STATE OF CALIFORNIA.

(d) EACH PARTY HERETO IRREVOCABLY WAIVES ANY OBJECTION ON THE GROUNDS OF VENUE, FORUM NON-CONVENIENS OR ANY SIMILAR GROUNDS AND IRREVOCABLY CONSENTS TO SERVICE OF PROCESS BY MAIL OR IN ANY OTHER MANNER PERMITTED BY APPLICABLE LAW AND CONSENTS TO THE EXCLUSIVE JURISDICTION OF (A) THE COURTS OF THE STATE OF NEW YORK LOCATED IN THE BOROUGH OF MANHATTAN, (B) THE FEDERAL COURTS OF THE UNITED STATES OF AMERICA FOR THE SOUTHERN DISTRICT OF NEW YORK OR (C) THE FEDERAL COURTS OF THE UNITED STATES OF AMERICA IN ANY OTHER STATE WHERE AN OFFICE OF THE CUSTODIAN IS LOCATED. THE PARTIES FURTHER HEREBY WAIVE ANY RIGHT TO A TRIAL BY JURY WITH RESPECT TO ANY LAWSUIT OR JUDICIAL PROCEEDING ARISING OR RELATING TO THIS AGREEMENT.

(e) No Party to this Agreement shall be liable to any other Party hereto for losses due to, or if it is unable to perform its obligations under the terms of this Agreement because of, acts of God, fire, war, terrorism, floods, strikes, electrical outages, equipment or transmission failure, or other causes reasonably beyond its control; provided that a Party affected by any such event shall exercise commercially reasonable efforts to resume performance as quickly as possible.

(f) This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. All signatures of the Parties to this Agreement may be transmitted by digital pdf transmission, and such pdf will, for all purposes, be deemed to be the original signature of such Party whose signature it reproduces, and will be binding upon such Party. All signatures of the parties to this Agreement may be transmitted by digital pdf transmission under the terms set forth in this Section 12(f). The parties agree that the electronic signature of a party to this Agreement,

including all acknowledgements, authorizations, directions, waivers and consents thereto (or any amendment or supplement thereto) shall be as valid as an original signature of such party and shall be effective to bind such party to this Agreement. The parties agree that any electronically signed document (including this Agreement) shall be deemed (i) to be “written” or “in writing,” (ii) to have been signed, and (iii) to constitute a record established and maintained in the ordinary course of business and an original written record when printed from electronic files. For purposes hereof, “electronic signature” means a manually signed original signature that is then transmitted by electronic means; “transmitted by electronic means” means sent via the Internet as a pdf (portable document format) or other replicating image attached to an e mail message; and, “electronically signed document” means a document transmitted by electronic means and containing, or to which there is affixed, an electronic signature. Paper copies or “printouts”, if introduced as evidence in any judicial, arbitral, mediation or administrative proceeding, will be admissible as between the parties to the same extent and under the same conditions as other original business records created and maintained in documentary form. Neither party shall contest the admissibility of true and accurate copies of electronically signed documents on the basis of the best evidence rule or as not satisfying the business records exception to the hearsay rule.

(g) The Custodian shall not be under any obligation to invest or pay interest on amounts held in the Assigned PPA Payments Account from time to time.

(h) Issuer shall have only such duties under this Agreement as are expressly set forth herein as duties on its part to be performed, and no implied duties shall be read into this Agreement against Issuer.

(i) Nothing in this Agreement is intended to create any liabilities between Issuer, MSES, MSCG and Participant. This Agreement is intended solely to allocate payments that are actually made by MSES, MSCG and Participant in respect of amounts owed for physically settled Energy under the Assigned PPAs and the Prepay Contract Chains.

(j) As a material inducement to entering into this Agreement, Issuer, with respect to itself, hereby represents and warrants to the other Parties as of the date hereof that the amendments set forth herein do not in any manner materially impair or materially adversely affect the collection of Revenues or the rights or security of Bondholders or the Interest Rate Swap Counterparty under the Bond Indentures (as such terms are defined under the Bond Indentures).

Section 13. Compliance with Court Orders. In the event that any amount held by the Custodian hereunder shall be attached, garnished or levied upon by any court order, or the delivery thereof shall be stayed or enjoined by an order of a court, or any order, judgment or decree shall be made or entered by any court affecting the property deposited under this Agreement, the Custodian is hereby expressly authorized, in its sole discretion, to obey and comply with all writs, orders or decrees so entered or issued, which it is advised by legal counsel of its own choosing are binding upon it, whether with or without jurisdiction, and in the event that the Custodian obeys or complies with any such writ, order or decree it shall not be liable to any of the Parties hereto or to any other person, firm or corporation, by reason of such

compliance notwithstanding that such writ, order or decree may be subsequently reversed, modified, annulled, set aside or vacated.

Section 14. Term; Winding Up. This Agreement will expire concurrently with the receipt of written notice from Participant, with a copy to the other Parties, that the Power Supply Agreement has terminated in accordance with its terms. Following the Custodian's payment of any Monthly Gross Amount due in respect of the final Month of power deliveries prior to such a termination, any remaining balance in the Assigned PPA Payments Account shall be paid to Participant.

Section 15. Indemnification. Issuer, MSCG, MSES and Participant, jointly and severally, agree to protect, indemnify, defend and hold harmless, the Custodian, and its affiliates, and each person who controls the Custodian (and each of their respective directors, officers, agents and employees) from and against all claims, damages, losses, liabilities, actions, suits, costs, judgments and expenses (including, without limitation, court costs and reasonable attorneys' fees) arising from its acting as Custodian hereunder (including, for the avoidance of doubt, any costs, expenses and reasonable attorneys' fees incurred in enforcing any payment obligation of an indemnifying Party), except for any claim, damage, loss, liability, action, suit, cost, judgment or expense resulting from the gross negligence or willful misconduct of the Custodian; provided, however, that any amounts due under this Section 15 shall not duplicate any other amounts due under this Agreement, including without limitation amounts due under Section 9 hereof. The obligations of this Section 15 shall survive any resignation or removal of the Custodian and the termination of this Agreement. In addition, notwithstanding anything herein to the contrary, the Custodian shall have all of the rights (including the indemnification rights), benefits, privileges and immunities under this Agreement as are granted the Trustee under the Bond Indenture, all of which are incorporated, mutatis mutandis, into this Agreement.

Section 16. Patriot Act. Issuer, MSCG, MSES and Participant acknowledge that the Custodian is subject to federal laws, including the Customer Identification Program ("CIP") requirements under the USA PATRIOT Act and its implementing regulations, pursuant to which the Custodian must obtain, verify and record information that allows the Custodian to identify MSCG, MSES and Participant. Accordingly, prior to opening the Assigned PPA Payments Account described in Section 4 of this Agreement, the Custodian will ask Issuer, MSCG, MSES and Participant to provide certain information including but not limited to name, physical address, tax identification number and other information that will help the Custodian identify and verify Issuer, MSCG, MSES and Participant's identities, such as organizational documents, certificate of good standing, license to do business, or other pertinent identifying information. Issuer, MSCG, MSES and Participant agree that the Custodian cannot open any account hereunder unless and until the Custodian verifies Issuer, MSCG, MSES and Participant's identities in accordance with its CIP.

Section 17. Limitation of Liability. Notwithstanding anything to the contrary herein, all obligations of Issuer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Issuer, payable solely from the Trust Estates (as such term is defined in the Bond Indentures) as and to the extent provided in the Bond Indentures, including with respect to Operating Expenses (as such term is defined in the Bond Indentures). The Issuer shall not be required to advance any moneys derived

from any source other than the Revenues (as such term is defined in the Bond Indentures) and other assets pledged under the Bond Indentures for any of the purposes in this Agreement mentioned. Neither the faith and credit of Issuer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. The Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Bond Indentures) are received for the payment thereof and may be applied therefor pursuant to the terms of the Bond Indentures.

LIMITED ASSIGNMENT AGREEMENT

(Project Name)

This Limited Assignment Agreement (this “**Agreement**”) is entered into as of [____], 2025 (the “**Assignment Agreement Effective Date**”) by and among [____], a [____] (“**PPA Seller**”), Silicon Valley Clean Energy Authority, a California joint powers authority (“**PPA Buyer**”), and Morgan Stanley Capital Group Inc., a Delaware corporation (“**MSCG**”).

RECITALS

WHEREAS, PPA Buyer and PPA Seller are parties to that certain PPA identified on Appendix 1 hereto;

WHEREAS, in connection with one or more prepaid Energy transactions entered into between the Issuer, and a Prepay Seller, and with effect from and including the Assignment Period Start Date, PPA Buyer wishes to transfer by limited assignment to MSCG, and MSCG wishes to accept the transfer by limited assignment of, the Assigned Rights and Obligations with respect to any and all Assignment Appendices during the Assignment Period;

WHEREAS, pursuant to this Agreement, during the Assignment Period, MSCG will receive the Assigned Products specified in any and all Assignment Appendices in effect from time to time and MSCG will deliver such Assigned Products to Prepay Seller(s), which will deliver such Assigned Products to Issuer for ultimate delivery to PPA Buyer; and

WHEREAS, pursuant to this Agreement, during the Assignment Period, MSCG will assume responsibility for the Delivered Product Payment Obligation with respect to any and all Assignment Appendices then in effect.

THEREFORE, in consideration of the premises above and the mutual covenants and agreements herein set forth, PPA Seller, PPA Buyer and MSCG (the “**Parties**” hereto and each individually a “**Party**”) agree as follows:

AGREEMENT

1. Definitions.

Unless the context otherwise specifies or requires, or defined below, capitalized terms used but not defined in this Agreement have the meanings set forth in the PPA. The following terms, when used in this Agreement and identified by the capitalization of the first letter thereof, have the respective meanings set forth below, unless the context otherwise requires:

“**Agreement**” has the meaning specified in the first paragraph above.

“**Assigned Products**” means [the Product] under and as defined in the PPA.

“Assigned Rights and Obligations” means (i) the right of PPA Buyer under the PPA to receive the Assigned Products in each Month as specified in any and all Assignment Appendices then in effect during the Assignment Period, and (ii) the Delivered Product Payment Obligation, which rights and obligations are transferred and conveyed to MSCG hereunder, but which shall not relieve PPA Buyer of its obligations under the PPA in any respects.

“Assignment Agreement Effective Date” has the meaning set forth in the first paragraph above.

“Assignment Appendix” means each Assignment Appendix in the form attached hereto as Appendix 2 and delivered by MSCG hereunder pursuant to Section 11(f).

“Assignment Appendix End Date” has, with respect to each Assignment Appendix, the meaning specified therein.

“Assignment Appendix Period” means, with respect to each Assignment Appendix, the period from the Assignment Appendix Start Date to the Assignment Appendix End Date; provided that no Assignment Appendix Period may commence prior to the Assignment Period Start Date and no Assignment Appendix Period may extend beyond the Assignment Period End Date.

“Assignment Appendix Start Date” has, with respect to each Assignment Appendix, the meaning specified therein.

“Assignment Early Termination Date” has the meaning specified in Section 5(b).

“Assignment Period” has the meaning specified in Section 5(a).

“Assignment Period End Date” means 11:59:59 p.m. pacific prevailing time on [____], 20[____].

“Assignment Period Start Date” means [____] 1, 20[____].

“Business Day” has the meaning specified in the Prepaid Agreement.

“Claims” means all claims or actions, threatened or filed, and the resulting losses, damages, expenses, attorneys’ fees, experts’ fees, and court costs, whether incurred by settlement or otherwise, and whether such claims or actions are threatened or filed prior to or after the termination of this Agreement, in each case arising under, in respect of or related in any way to the PPA or any transaction thereunder, except for the Delivered Product Payment Obligation.

“Custodian” has, with respect to each Assignment Appendix, the meaning specified therein.

“Custody Agreement” has, with respect to each Assignment Appendix, the meaning specified therein.

“Day-Ahead Average Price” has the meaning specified in Appendix 1.

“Delivered Product Payment Obligation” has the meaning specified in Section 3(a).

“Delivery Point” has the meaning specified in Appendix 1.

“Energy” means three-phase, 60-cycle alternating current electric energy, expressed in megawatt hours (“MWh”).

“Government Agency” means the United States of America, any state thereof, any municipality, or any local jurisdiction, or any political subdivision of any of the foregoing, including, but not limited to, courts, administrative bodies, departments, commissions, boards, bureaus, agencies, or instrumentalities.

“Issuer” has, with respect to each Assignment Appendix, the meaning specified therein.

“Month” means a calendar month.

“MSCG” has the meaning specified in the first paragraph of this Agreement.

“Person” means any individual, corporation, partnership, joint venture, trust, unincorporated organization, or Government Agency.

“PPA Buyer” has the meaning specified in the first paragraph of this Agreement.

“PPA Seller” has the meaning specified in the first paragraph of this Agreement.

“Prepaid Agreement” has, with respect to each Assignment Appendix, the meaning specified therein.

“Prepay Power Supply Contract” has, with respect to each Assignment Appendix, the meaning specified therein.

“Prepay Seller” has, with respect to each Assignment Appendix, the meaning specified therein.

“Receivables” has the meaning given to such term in Section 3(f).

“Retained Rights and Obligations” has the meaning specified in Section 3.

2. Transfer and Undertakings.

- (a) PPA Buyer hereby assigns, transfers and conveys to MSCG all right, title and interest in and to the rights of PPA Buyer under the PPA to receive delivery of the Assigned Products specified in any and all Assignment Appendices then in effect during the Assignment Period. In connection with this assignment, PPA Buyer hereby delegates to MSCG the Assigned Rights and Obligations during the Assignment Period.
- (b) PPA Seller hereby consents to PPA Buyer’s assignment, transfer and conveyance of all right, title and interest in and to the Assigned Products specified in any and

all Assignment Appendices then in effect and, subject to Section 3(a), the delegation of the Assigned Rights and Obligations to MSCG and the exercise and performance by MSCG of the Assigned Rights and Obligations during the Assignment Period.

- (c) MSCG hereby accepts such assignment, transfer and conveyance of PPA Buyer's right, title and interest in and to the Assigned Products specified in any and all Assignment Appendices then in effect during the Assignment Period, PPA Buyer's delegation of the Assigned Rights and Obligations during the Assignment Period and agrees to perform any such Assigned Rights and Obligations due from it during the Assignment Period to the extent expressly set forth in this Agreement.

3. Limited Assignment.

The Parties acknowledge and agree that (i) the Assigned Rights and Obligations include only a portion of PPA Buyer's and PPA Seller's rights and obligations arising under the PPA, and that all rights and obligations arising under the PPA that are not expressly included in the Assigned Rights and Obligations shall be "**Retained Rights and Obligations**", and (ii) the Retained Rights and Obligations include all rights and obligations of PPA Buyer and PPA Seller arising during the Assignment Period except the rights and obligations expressly included in the Assigned Rights and Obligations. In this regard:

(a) **Limited to Delivered Product Payment Obligation.** MSCG's sole payment obligation hereunder will be to pay the Floating Price Payments into the Custodial Account as such terms are defined in and described on Appendix 1 (the "**Delivered Product Payment Obligation**"), which Delivered Product Payment Obligation shall credit against and reduce the amounts otherwise due from PPA Buyer to PPA Seller under the PPA for each Month of the Assignment Period. MSCG and PPA Buyer each agree to instruct the Custodian in accordance with Section 3(c) hereof to pay PPA Seller for the Assigned Products delivered during each Month of the Assignment Period specified in any and all Assignment Appendices then in effect on each applicable payment date under the "Payment" section of the PPA. PPA Buyer shall remain responsible for any payment obligations under the PPA during the Assignment Period specified in any and all Assignment Appendices then in effect, including in the event that either (i) MSCG does not make the payments into the Custodial Account or (ii) the Custodian does not make the payments to the PPA Seller from the Custodial Account as described above.

(b) **Retained Rights and Obligations.** Any Claims (other than the Delivered Product Payment Obligation or a failure to perform the same) arising or existing in connection with or related to the PPA, whether related to performance by PPA Seller, PPA Buyer or MSCG, and whether arising before, during or after the Assignment Period, in each case excluding the Delivered Product Payment Obligation, will be included in the Retained Rights and Obligations and any such Claims will be resolved exclusively between PPA Seller and PPA Buyer in accordance with the PPA. For the avoidance of doubt, the Parties acknowledge and agree that any invoice adjustments or reconciliations occurring after the initial settlement of amounts due under a monthly invoice shall be resolved solely between PPA Seller and PPA Buyer pursuant to the terms of the PPA.

(c) **Invoicing.** During the Assignment Period specified in any and all Assignment Appendices then in effect, PPA Seller shall continue to provide PPA Buyer a monthly invoice of amounts owing under the PPA, which invoice shall show the total amount due to PPA Seller under the PPA for such Month (the “**Monthly Gross Amount**”). Promptly following PPA Buyer’s receipt of each monthly invoice from PPA Seller during the Assignment Period specified in any and all Assignment Appendices then in effect and, in any event, no later than five (5) Business Days thereafter, PPA Buyer shall deliver (i) a copy of such monthly invoice and the related supporting data to MSCG and (ii) a statement to each of MSCG and the Custodian indicating (A) the Monthly Gross Amount; (B) the Delivered Product Payment Obligation; and (C) the “**Retained Payment Obligation**”, which shall be an amount equal to the Monthly Gross Amount minus the Delivered Product Payment Obligation. PPA Buyer and MSCG covenant and agree to instruct the Custodian to pay the Monthly Gross Amount to PPA Seller on or before the applicable payment date in the PPA; provided that (x) the liability of MSCG hereunder to PPA Seller is limited as described on Appendix 1 [and (y) the Monthly Gross Amount payable to PPA Seller shall be reduced to the extent that PPA Buyer disputes any of the invoiced amounts pursuant to Section [] of the PPA]¹. PPA Buyer and MSCG may agree in a separate writing as to the allocation of the Monthly Gross Amount between PPA Buyer and MSCG of amounts paid by the Custodian to PPA Seller hereunder. At all times, PPA Buyer remains liable to PPA Seller for all amounts due and owing under the PPA.

(d) **Scheduling.** All scheduling of Energy included in the Assigned Products and other communications related to the PPA shall take place between PPA Buyer and PPA Seller pursuant to the terms of the PPA; provided that during any Assignment Period specified in any and all Assignment Appendices then in effect (i) PPA Buyer will provide copies of all billing statements and generation reports provided by PPA Seller to PPA Buyer in accordance with the PPA delivered during the Assignment Period specified in any and all Assignment Appendices then in effect to MSCG and Issuer promptly upon PPA Buyer’s receipt; (ii) title to Assigned Products specified in any and all Assignment Appendices then in effect will pass to MSCG upon delivery by PPA Seller at the Delivery Point in accordance with the PPA; (iii) immediately thereafter, title to such Assigned Products will pass to one or more Prepay Sellers (as set forth in the applicable Assignment Appendix), Issuer (as set forth in the applicable Assignment Appendix) and then to PPA Buyer upon delivery by MSCG at the same point where title is passed to MSCG pursuant to clause (ii) above; and (iv) PPA Buyer will be deemed to be acting as MSCG’s agent with regard to scheduling Assigned Products.

(e) **Amendments.** PPA Buyer will provide written notice (including copies thereof) of any proposed or actual amendment, waiver, supplement, modification, or other changes to the PPA to MSCG relating to the Assigned Rights and Obligations, and the Parties hereby acknowledge and agree that an amendment, waiver, supplement, modification or other change will not have any effect on MSCG’s rights or obligations under this Agreement until and unless MSCG receives written notice thereof.

(f) **Setoff of Receivables.** Pursuant to the applicable Prepaid Agreement(s), Prepay Seller(s) has agreed to purchase the rights to payment of the net amounts owed by PPA Buyer

¹ NTD: For inclusion to the extent the PPA includes a provision allowing SVCE to withhold payment for disputed amounts.

under the applicable Prepay Power Supply Contract (“**Receivables**”) in the case of non-payment by PPA Buyer. To the extent any such Receivables relate to Assigned Products purchased by MSCG pursuant to the Assigned Rights and Obligations, the applicable Prepay Seller may sell such Receivables to MSCG and MSCG may transfer such Receivables (excluding any penalties, late payment fees, late payment interest or other fees, costs or interest included in such Receivables) to PPA Seller and apply the face amount of such Receivables (excluding any penalties, late payment fees, late payment interest or other fees, costs or interest included in such Receivables) as a reduction to any Delivered Product Payment Obligation; provided, however, that (1) at no time shall PPA Seller be required to pay MSCG for any amounts by which such Receivables exceed any Delivered Product Payment Obligation then due and owed to PPA Seller and (2) at all times, PPA Buyer remains liable to PPA Seller for all amounts due and owing under the PPA. To effect such transfer, MSCG shall deliver to PPA Seller a notice of intent to transfer Receivables not later than the payment due date for the Delivered Product Payment Obligation and shall deliver to PPA Seller a bill of sale signed by MSCG not later than five Business Days thereafter.

4. Forward Contract.

The Parties acknowledge and agree that this Agreement is intended to constitute a “forward contract” and that the Parties are intended to constitute “forward contract merchants” within the meaning of the United States Bankruptcy Code.

5. Assignment Period; Assignment Early Termination.

(a) **Assignment Period.** The “**Assignment Period**” under an Assignment Appendix shall begin on the Assignment Appendix Start Date and extend until the Assignment Appendix End Date or as otherwise terminated early pursuant to Section 5(b); provided that in no event shall the Assignment Period extend beyond an Assignment Early Termination Date with respect to such Assignment Appendix; provided further that the Assignment Period under an Assignment Appendix will automatically terminate upon the expiration or early termination of either the Delivery Period (as defined in the PPA) or the PPA.

(b) **Early Termination.** An “**Assignment Early Termination Date**” will occur under the following circumstances and as of the dates and for the applicable Assignment Appendices specified below:

- (1) the assignment of a Prepay Power Supply Contract by PPA Buyer or Issuer pursuant to Article XIII thereof shall result in an Assignment Early Termination Date for the Assignment Period under the relevant Assignment Appendix, which Assignment Early Termination Date for the applicable Assignment Period(s) shall occur immediately as of the time of such assignment;
- (2) the suspension, expiration, or termination of performance of the PPA by either PPA Buyer or PPA Seller for any reason other than the occurrence of an Uncontrollable Force, Force Majeure, or Force Majeure Event (as applicable) under and as defined in the PPA shall result in an Assignment

Early Termination Date for all Assignment Appendices then in effect, which Assignment Early Termination Date shall occur immediately as of the time of PPA Seller's last performance under the PPA following such suspension, expiration, or termination;

- (3) the election of MSCG in its sole discretion to declare an Assignment Early Termination Date as a result of (a) any event or circumstance that would give either PPA Buyer or PPA Seller the right to terminate or suspend performance under the PPA (regardless of whether PPA Buyer or PPA Seller exercises such right) or (b) the execution of an amendment, waiver, supplement, modification or other change to the PPA that affects the Assigned Rights and Obligations or MSCG's rights or obligations under this Agreement (provided that MSCG shall not have a right to terminate under this Section 5(b)(3) to the extent that MSCG (i) receives prior notice of such change and (ii) provides its written consent thereto), which Assignment Early Termination Date shall occur under all Assignment Appendices then in effect upon the date set forth in a written notice of such election delivered by MSCG to PPA Buyer and PPA Seller;
- (4) termination or suspension of deliveries for any reason other than a Force Majeure under and as defined in the applicable Prepaid Agreement or the applicable Prepay Power Supply Contract shall result in an Assignment Early Termination Date for the Assignment Period under the relevant Assignment Appendix, which Assignment Early Termination Date for the applicable Assignment Period(s) shall occur immediately as of the time of the last deliveries under the relevant contract following such suspension or termination;
- (5) the election of PPA Seller in its sole discretion to declare an Assignment Early Termination Date if MSCG fails to pay when due any amounts owed to PPA Seller in respect of any Delivered Product Payment Obligation and such failure continues for five Business Days following receipt by MSCG of written notice thereof, which Assignment Early Termination Date shall occur under all Assignment Appendices then in effect upon the date set forth in a written notice of such election delivered by PPA Seller to MSCG and PPA Buyer; or
- (6) the election of PPA Seller in its sole discretion to declare an Assignment Early Termination Date if either (a) an involuntary case or other proceeding is commenced against MSCG seeking liquidation, reorganization or other relief with respect to it or its debts under any applicable Federal or State bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or similar law now or hereafter in effect or seeking the appointment of a custodian, receiver, liquidator, assignee, trustee, sequestrator or similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed, or an order or decree approving or ordering any of the foregoing is entered and continued

unstayed and in effect, in any such event, for a period of 60 days, or (b) MSCG commences a voluntary case or proceeding under any applicable Federal or State bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or other similar law or any other case or proceeding to be adjudicated as bankrupt or insolvent, or MSCG consents to the entry of a decree or order for relief in an involuntary case or proceeding under any applicable Federal or State bankruptcy, insolvency, reorganization or other similar law or to the commencement of any bankruptcy or insolvency case or proceeding against it, files a petition or answer or consent seeking reorganization or relief under any applicable Federal or State law, or consents to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, sequestrator or similar official of MSCG or any substantial part of its property, or makes an assignment for the benefit of creditors, or admits in writing its inability to pay its debts generally as they become due, which Assignment Early Termination Date shall occur under all Assignment Appendices then in effect immediately on the date of PPA Seller's delivery of notice of its election to MSCG and PPA Buyer.

(c) **Reversion of Assigned Rights and Obligations.** The Parties acknowledge and agree that upon the occurrence of an Assignment Early Termination Date the Assigned Rights and Obligations under each applicable Assignment Appendix will revert from MSCG to PPA Buyer. Any Assigned Rights and Obligations under an Assignment Appendix that would become due for payment or performance on or after such Assignment Early Termination Date with respect to such Assignment Appendix shall immediately and automatically revert from MSCG to PPA Buyer; provided that (i) MSCG shall remain responsible for the Delivered Product Payment Obligation with respect to any Assigned Products delivered to MSCG prior to the Assignment Early Termination Date, and (ii) any legal restrictions on the effectiveness of such reversion (whether arising under bankruptcy law or otherwise) shall not affect the occurrence of the Assignment Early Termination Date.

6. Representations and Warranties.

(a) **Copy of the PPA.** As of the Assignment Agreement Effective Date, PPA Seller and PPA Buyer represent and warrant to MSCG that a true, complete, and correct copy of the PPA is attached hereto as Appendix 4.

(b) **No Default.** As of the Assignment Agreement Effective Date, PPA Seller and PPA Buyer represent and warrant to MSCG that no event or circumstance exists (or would exist with the passage of time or the giving of notice) that would give either of them the right to terminate the PPA or suspend performance thereunder.

(c) **Other.** As of the Assignment Agreement Effective Date, each of PPA Buyer and PPA Seller represents and warrants to each other and to MSCG that:

- (1) it has made no prior transfer (whether by way of security or otherwise) of any interest in the Assigned Rights and Obligations; and

- (2) all obligations of PPA Buyer and PPA Seller under the PPA required to be performed on or before the Assignment Period Start Date have been fulfilled.

(d) **Representations.** Each Party represents to each of the other Parties as of the Assignment Agreement Effective Date:

- (1) **Status.** It is duly organized and validly existing under the laws of the jurisdiction of its organization or incorporation and, if relevant under such laws, in good standing;
- (2) **Powers.** It has the power to execute this Agreement and any other documentation relating to this Agreement to which it is a party, to deliver this Agreement and any other documentation relating to this Agreement that it is required by this Agreement to deliver and to perform its obligations under this Agreement and has taken all necessary action to authorize such execution, delivery and performance;
- (3) **No Violation or Conflict.** Such execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its obligations under this Agreement, will not result in any violation of, or conflict with: (i) any term of any material contract or agreement applicable to it; (ii) any of its charter, bylaws, or other constitutional documents; (iii) any determination or award of any arbitrator applicable to it; or (iv) any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, law, ordinance, rule or regulation of any Government Agency presently in effect, applicable to it or any of its assets or properties or to any obligations incurred by it or by which it or any of its assets or properties or obligations are bound or affected, and shall not cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets;
- (4) **Consents.** All consents, approvals, orders or authorizations of, registrations, declarations, filings or giving of notice to, obtaining of any licenses or permits from, or taking of any other action with respect to, any Person or Government Agency that are required to have been obtained by such Party with respect to this Agreement and the transactions contemplated hereby, including the due authorization of such Party and its governing body and any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party, have been obtained and are in full force and effect and all conditions of any such consents have been complied with;
- (5) **Obligations Binding.** Its obligations under this Agreement constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms (subject to applicable bankruptcy, reorganization,

insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or at law));

- (6) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to enter into this Agreement and as to whether this Agreement is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the other Parties as investment advice or as a recommendation to enter into this Agreement, it being understood that information and explanations related to the terms and conditions of this Agreement shall not be considered investment advice or a recommendation to enter into this Agreement. It is entering into this Agreement as a bona-fide, arm's-length transaction involving the mutual exchange of consideration and, once executed by all Parties, considers this Agreement a legally enforceable contract. No communication (written or oral) received from any of the other Parties shall be deemed to be an assurance or guarantee as to the expected results of this Agreement;
- (7) **Assessment and Understanding.** It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of this Agreement. It is also capable of assuming, and assumes, the risks of this Agreement; and
- (8) **Status of Parties.** None of the other Parties is acting as a fiduciary for or an adviser to it in respect of this Agreement.

7. Counterparts.

This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by email), each of which will be deemed an original.

8. Costs and Expenses.

The Parties will each pay their own costs and expenses (including legal fees) incurred in connection with this Agreement and as a result of the negotiation, preparation, and execution of this Agreement.

9. Amendments.

No amendment, modification, or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by electronic transmission) and executed by each of the Parties.

10. Notices.

Any notice, demand, statement or request required or authorized by this Agreement to be given by one Party to another shall be in writing, except as otherwise expressly provided herein. It shall be sent by email transmission, courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses for each of the other Parties designated in Appendix 3 hereto. Any such notice, demand, or request shall be deemed to be given (i) when sent by email transmission, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon written 10 days' prior written notice to the other Parties, to change its address at any time, and to designate that copies of all such notices be directed to another Person at another address. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods. Notwithstanding the foregoing, a Party may at any time notify the other Parties that any notice, demand, statement or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during such time shall be ineffective.

11. Miscellaneous.

(a) **Governing Law.** This Agreement and the rights and duties of the Parties under this Agreement will be governed by and construed, enforced and performed in accordance with the laws of the State of New York, without reference to any conflicts of laws provisions that would direct the application of another jurisdiction's laws; *provided*, however, that the authority of PPA Buyer to enter into and perform its obligations under this Agreement shall be determined in accordance with the laws of the State of California.

(b) **Arbitration.** Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope of this Agreement to arbitrate, shall be determined by final, non-appealable binding arbitration in San Francisco, California before three (3) arbitrators. The arbitration shall be administered by Judicial Arbitration and Mediation Services, Inc. ("JAMS") pursuant to its Comprehensive Arbitration Rules and Procedures. Within fifteen (15) days after the commencement of arbitration, each of MSCG and PPA Buyer shall select one person to act as arbitrator, and the two so-selected arbitrators shall select a third arbitrator (the "**chairperson**") within thirty (30) days of the commencement of the arbitration. If either MSCG or PPA Buyer is unable or fails to select one person to act as arbitrator, such arbitrator shall be appointed by JAMS. If the MSCG and PPA Buyer-selected arbitrators are unable or fail to agree upon a chairperson, the chairperson shall be appointed by JAMS. The chairperson shall be a person who has experience in renewable energy-related transactions, and none of the arbitrators shall have been previously employed by any Party or have any direct pecuniary interest in any Party or the subject matter of the arbitration, unless such conflict is expressly acknowledged and waived in writing by all of the Parties. The Parties shall maintain the confidential nature of the arbitration proceeding and any award, including any hearing(s), except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by law or judicial decision. Any arbitration proceedings, decision or award rendered hereunder and the validity, effect and interpretation of this arbitration provision shall be governed

by the Federal Arbitration Act. The arbitrator(s) shall have no authority to award consequential, treble, exemplary, or punitive damages of any type or kind regardless of whether such damages may be available under any law or right, with the Parties hereby affirmatively waiving their rights, if any, to recover or claim such damages. The responsibility for compensation and expenses of the three arbitrators and all other expenses charged by JAMS shall be equally split in one-third (1/3) shares by each of MSCG, PPA Buyer, and PPA Seller. In any arbitration arising out of or related to this Agreement, the arbitrators shall award to the prevailing Party or Parties, if any, the costs and attorney's fees reasonably incurred in seeking to enforce the application of this Section 11(b) and by the prevailing party in connection with the arbitration. Notwithstanding the foregoing provisions of this Section 11(b), any costs incurred by a Party in seeking judicial enforcement of any written decision of the arbitrators shall be chargeable to and borne exclusively by the Party against whom such court order is obtained. The award shall be final and binding on the Parties and judgment upon any award may be entered in any court of competent jurisdiction.

(c) **Judicial Reference.** Without limiting the provisions in Section 11(b), if Section 11(b) is deemed ineffective or unenforceable in any respect, any dispute between the Parties arising out of or in connection with this Agreement or its performance, breach, or termination (including the existence, validity and interpretation of this Agreement and the applicability of any statute of limitation period) (each, a **"Dispute"**) shall be resolved by a reference proceeding in California in accordance with the provisions of Sections 638 *et seq.* of the California Code of Civil Procedure (**"CCP"**), or their successor sections (a **"Reference Proceeding"**), which shall constitute the exclusive remedy for the resolution of any Dispute. As a condition precedent to initiating a Reference Proceeding with respect to any Dispute, the Parties shall comply with the provisions of Section 11(c)(1).

(1) Notice of Dispute. Prior to initiating the Reference Proceeding, a Party (the **"Disputing Party"**) shall provide the other Parties (the **"Responding Parties"**) with a written notice of each issue in dispute, a proposed means for resolving each such issue, and support for such position (the **"Notice of Dispute"**). Within 10 days after receiving the Notice of Dispute, the Responding Parties shall provide the Disputing Party with a written notice of each additional issue (if any) with respect to the dispute raised by the Notice of Dispute, a proposed means for resolving every issue in dispute, and support for such position (the **"Dispute Response"**). Thereafter, the Parties shall meet to discuss the matter and attempt in good faith to reach a negotiated resolution of the dispute. If the Parties do not resolve the dispute by unanimous agreement within fifteen (15) days after receipt of the Dispute Response, (the **"Negotiation Period"**), then any Party may provide to the other Parties written notice of intent for judicial reference (the **"Impasse Notice"**) in accordance with the further provisions of this Section 11.

(2) Applicability; Selection of Referees. Within 10 days of the delivery of an Impasse Notice, each of MSCG and PPA Buyer shall nominate one (1) referee. The two (2) referees (the **"Party-Appointed Referees"**) shall appoint a third referee (the **"Third Referee"**), together with the Party-Appointed Referees, the **"Referees"**). The Party-Appointed Referees shall be competent and experienced in matters involving the electric energy business in the United States, with at least ten (10) years of electric industry experience as a practicing attorney. The Third Referee shall be an active or retired

California state or federal judge. Each of the Party-Appointed Referees and the Third Referee shall be impartial and independent of each of the Parties and of the other referees and not employed by any of the Parties in any prior matter.

(3) Inability to Agree upon Third Referee. If the Party-Appointed Referees are unable to agree on the Third Referee within 45 days from delivery of the Impasse Notice, then the Third Referee shall be appointed pursuant to CCP Section 640(b) in an action filed in the Superior Court of California, County of San Francisco (the “**Court**”), and with due regard given to the selection criteria above. A request for appointment of a referee may be heard on an ex parte or expedited basis, and the Parties agree that irreparable harm would result if ex parte relief is not granted. Pursuant to CCP Section 170.6, each of PPA Buyer and MSCG shall have one (1) peremptory challenge to the referee selected by the Court.

(4) Discovery; Proceedings.

(A) The Parties agree that time is of the essence in conducting the Reference Proceeding. Accordingly, the Referees shall be requested, subject to change in the time periods specified herein for good cause shown, to (i) set the matter for a status and trial-setting conference within 20 days after the date of selection of the Third Referee, (ii) if practicable, try all issues of law or fact within 180 days after the date of the conference, and (iii) report a statement of decision within 20 days after the matter has been submitted for decision.

(B) Discovery and other pre-hearing procedures shall be conducted as agreed to by the Parties, or if they cannot agree, as determined by the Third Referee after discussion with the Parties regarding the need for discovery and other pre-hearing procedures.

(C) Except as expressly set forth herein, the Third Referee shall determine the manner in which the Reference Proceeding is conducted, including the time and place of hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of the Reference Proceeding. The Reference Proceeding, including the trial, shall be conducted at a neutral location selected by the Parties, or if not agreed by the Parties, by the Third Referee, in San Francisco, California.

(D) All proceedings and hearings conducted before the Referees, except for trial, shall be conducted without a court reporter, except that when any Party so requests, a court reporter will be used at any hearing conducted before the Referees, and the Referees will be provided a courtesy copy of the transcript. The Party making such a request shall have the obligation to arrange for and pay the court reporter.

(5) Decision. The Referees shall render a written statement of decision setting forth findings of fact and conclusions of law. The decision shall be entered as a judgment in the court in accordance with the provisions of CCP Sections 644 and 645. The decision

shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the Court. The Parties intend this general reference agreement to be specifically enforceable in accordance with the CCP.

(d) **Expenses.** Each of MSCG, PPA Seller and PPA Buyer shall bear the compensation and expenses of its respective own counsel, witnesses, consultants and employees. The responsibility for compensation and expenses of the Referees and all other expenses of judicial reference shall be equally split in one-third (1/3) shares by each of MSCG, PPA Buyer, and PPA Seller.

(e) **U.S. Resolution Stay Protocol.** The Parties hereby confirm that they are adherents to the ISDA 2018 U.S. Resolution Stay Protocol (“**ISDA U.S. Stay Protocol**”), the terms of the ISDA U.S. Stay Protocol are incorporated into and form a part of this Agreement, and this Agreement shall be deemed a Protocol Covered Agreement for purposes thereof. For purposes of incorporating the ISDA U.S. Stay Protocol, MSCG shall be deemed to be a Regulated Entity, and PPA Buyer and PPA Seller each shall be deemed to be an Adhering Party. In the event of any inconsistencies between this Agreement and the ISDA U.S. Stay Protocol, the ISDA U.S. Stay Protocol will prevail.

(f) **Assignment Appendix Prepaid Transaction Details.** From time to time, MSCG may deliver one or more completed Assignment Appendices to the other Parties hereto completing the terms that are currently bracketed therein, and each such Assignment Appendix shall be binding upon each of the Parties hereto; provided that the aggregate sum of the Assigned Products under all Assignment Appendices then in effect will not exceed the Contract Quantity under and as defined in the PPA. As set forth in Appendix 1 hereto, MSCG’s payment obligations are limited to any Assigned Products delivered pursuant to the Assignment Appendices then in effect. Each Assignment Appendix will set forth certain details relating to the commodity prepayment transaction pursuant to which all or a portion of the Assigned Products shall be delivered; provided that MSCG may, by written notice to PPA Seller and PPA Buyer, at any time and without the consent of PPA Seller or PPA Buyer, (i) rescind any Assignment Appendix or (ii) update or amend any Assignment Appendix to change any or all of the terms specified therein, including: an increase or decrease of the volume of Assigned Products to be delivered into the applicable commodity prepayment transaction (including without limitation a change thereto to reflect that all MWh of Assigned Products delivered in accordance with the PPA by PPA Seller shall be delivered into one commodity prepayment transaction, subject only the aggregate quantity limit specified above); a change in the relevant commodity prepayment transaction (i.e., the “Prepaid Agreement”) pursuant to which the Assigned Products shall be delivered; a change in the identity of the Prepay Seller; or a change to the Assignment Appendix Start Date and / or the Assignment Appendix End Date. For the avoidance of doubt, (I) more than one Assignment Appendix may be in effect at any time, and (II) at any given time, less than one hundred percent (100%) of the Contract Quantity under and as defined in the PPA may be assigned pursuant to the Assignment Appendices then in effect.

IN WITNESS WHEREOF, the Parties have executed this Agreement effective as of the date first set forth above.

“PPA” that certain [____], together with any and all exhibits, schedules or supplements thereto or incorporated therein by reference, by and between PPA Buyer and PPA Seller, as may be amended from time to time.

“**Delivery Point**” has the definition set forth in the PPA.

Floating Price Payments. MSCG has separately agreed with PPA Buyer and Custodian pursuant to the Custody Agreement to pay the “Day-Ahead Average Price” as defined below into the custodial account specified in the Custody Agreement (the “**Custodial Account**”) for the portion of the Assigned Products delivered to the Delivery Point during each Month of the Assignment Period pursuant to all Assignment Appendices then in effect (the “**Floating Price Payments**”). MSCG agrees to pay the Floating Price Payments into the Custodial Account, and MSCG’s payment obligations under this Agreement are limited to making such payments into the Custodial Account, for application as provided in the Custody Agreement, which also provides for payment by (i) PPA Buyer of any other amounts due under the PPA for each Month of the Assignment Period and (ii) the Custodian of the net amount due to PPA Seller for each Month of the Assignment Period from the amounts received from MSCG and PPA Buyer, as applicable. MSCG’s Floating Price Payments shall credit against and reduce the amounts otherwise due from PPA Buyer to PPA Seller under the PPA for each Month of the Assignment Period for all Assignment Appendices then in effect; provided that PPA Seller and PPA Buyer acknowledge and agree that the making of Floating Price Payments into the Custodial Account by MSCG shall not entitle (A) MSCG to any payments from PPA Seller or (B) PPA Seller to payments in excess of the net amount that would otherwise be due from PPA Buyer to PPA Seller pursuant to the terms of the PPA. At all times, PPA Buyer remains liable to PPA Seller for all amounts due and owing under the PPA. For the avoidance of doubt, MSCG’s obligations hereunder are limited to only the Assignment Appendices then in effect.

“**Day-Ahead Average Price**” means the result of (i) (x) the sum of the Day-Ahead Market Prices for each Pricing Interval in a Month divided by (y) the number of Pricing Intervals in such Month plus (ii) the Index Adder (as set forth in the table immediately below) for the relevant Month. As used in this definition, “**Pricing Interval**” means the unit of time for which CAISO (or other entity that publishes such prices) establishes a separate price; and “**Day-Ahead Market Price**” means the Day Ahead Market or Locational Marginal Price for [NP15 EZ GEN HUB] for each applicable hour as published by CAISO, or as such price may be corrected or revised from time to time by CAISO in accordance with its rules. For the avoidance of doubt, the Day-Ahead Average Price can be a negative number.

2. Transfer and Undertakings.

(a) PPA Buyer hereby assigns, transfers and conveys to Prepay LLC all right, title and interest in and to the rights of PPA Buyer under the PPA to receive delivery of the Assigned Product during the Assignment Period. In connection with this assignment, PPA Buyer hereby delegates to Prepay LLC the Assigned Rights and Obligations during the Assignment Period.

(b) PPA Seller hereby consents and agrees to PPA Buyer’s assignment, transfer and conveyance of all right, title and interest in and to the Assigned Product and Assigned Rights and Obligations to Prepay LLC and the exercise and performance by Prepay LLC of the Assigned Rights and Obligations during the Assignment Period.

(c) Prepay LLC hereby accepts such assignment, transfer and conveyance of the Assigned Rights and Obligations during the Assignment Period and agrees to perform any such Assigned Rights and Obligations due from it during the Assignment Period to the extent expressly set forth in this Agreement.

3. Limited Assignment.

The Parties acknowledge and agree that (i) the Assigned Rights and Obligations include only a portion of PPA Buyer’s rights and obligations under the PPA, and that all rights and obligations arising under the PPA that are not expressly included in the Assigned Rights and Obligations shall be “**Retained Rights and Obligations**”, and (ii) the Retained Rights and Obligations include all

rights and obligations of PPA Buyer arising during the Assignment Period except the rights and obligations expressly included in the Assigned Rights and Obligations. In this regard:

(a) **Limited to Delivered Product Payment Obligation; Invoicing.** Prepay LLC's sole payment obligation hereunder will be to pay the Floating Price Payments into the Custodial Account as such terms are defined in and described on Appendix 1 (the "**Delivered Product Payment Obligation**"). Prepay LLC and PPA Buyer each agree to instruct the Custodian to pay PPA Seller for the Assigned Products delivered during each Month of the Assignment Period on each applicable payment date under the PPA. PPA Buyer shall remain responsible for any payment obligations under the PPA during the Assignment Period, including in the event that either (i) Prepay LLC does not make the payments into the Custodial Account as described above or (ii) the Custodian does not make the payments to the PPA Seller from the Custodial Account as described above.

(b) **Retained Rights and Obligations.** Any Claims (other than the Delivered Product Payment Obligation or a failure to perform the same) arising or existing in connection with or related to the PPA, whether related to performance by PPA Seller, PPA Buyer or Prepay LLC, and whether arising before, during or after the Assignment Period, in each case excluding the Delivered Product Payment Obligation, will be included in the Retained Rights and Obligations and any such Claims will be resolved exclusively between PPA Seller and PPA Buyer in accordance with the PPA.

(c) **Scheduling.** All scheduling of Energy associated with Assigned Product and other communications related to the PPA shall take place between PPA Buyer and PPA Seller pursuant to the terms of the PPA; provided that (i) title to Assigned Product will pass to Prepay LLC upon delivery by PPA Seller at the Assigned Delivery Point in accordance with the PPA; (ii) immediately thereafter, title to such Assigned Product will pass to Prepay LLC, Issuer and then to PPA Buyer upon delivery by Prepay LLC at the same point where title is passed to Prepay LLC pursuant to clause (i) above; (iii) PPA Buyer will be deemed to be acting as Prepay LLC's agent with regard to scheduling Assigned Products; provided, however, that PPA Buyer shall be entitled to retain for its own account all CAISO revenues associated with delivery of the Assigned Product to CAISO, including where PPA Buyer is acting as Scheduling Coordinator for the Facility (as defined in the PPA) and through scheduling of ISTs; and (iv) (A) PPA Buyer and PPA Seller will provide copies to Prepay LLC of (I) any notice of Force Majeure delivered under the PPA and (II) any notice of a default or of a breach or other event that, if not cured within an applicable grace period, could result in a default; (B) PPA Seller will provide copies to Prepay LLC of annual forecasts and monthly forecasts and generation reports delivered under the PPA; and (C) PPA Buyer and PPA Seller, as applicable, will provide copies to Prepay LLC of any other information reasonably requested by Prepay LLC relating to Assigned Product.

(d) **Amendments.** PPA Buyer and PPA Seller will provide written notice (including copies thereof) of any amendment, waiver, supplement, modification, or other changes to the PPA to Prepay LLC relating to the Assigned Rights and Obligations, and the Parties hereby acknowledge and agree that an amendment, waiver, supplement, modification or other change will not have any effect on Prepay LLC's rights or obligations under this Agreement until and unless Prepay LLC receives written notice thereof.

(e) **Setoff of Receivables.** Pursuant to the Prepaid Agreement, Prepay LLC has agreed to purchase the rights to payment of the net amounts owed by PPA Buyer under the Prepay Power Supply Contract (“**Receivables**”) in the case of non-payment by PPA Buyer. To the extent any such Receivables relate to Assigned Product purchased by Prepay LLC pursuant to the Assigned Rights and Obligations, Prepay LLC may transfer such Receivables (excluding any penalties, late payment fees, late payment interest or other fees, costs or interest included in such Receivables) to PPA Seller and apply the face amount of such Receivables (excluding any penalties, late payment fees, late payment interest or other fees, costs or interest included in such Receivables) as a reduction to any Delivered Product Payment Obligations; provided, however, that at no time shall PPA Seller be required to pay Prepay LLC for any amounts by which such Receivables exceed any Delivered Product Payment Obligations then due and owed to PPA Seller.

(f) **Joinder to Intercreditor Agreement.** In connection with the execution of this Agreement and as a condition precedent to the effectiveness hereof, Issuer shall execute a joinder to that certain Intercreditor and Collateral Agency Agreement, dated as of December 15, 2016, by and among River City Bank, as Collateral Agent, the PPA Providers from time to time party thereto and Silicon Valley Clean Energy Authority (the “**Intercreditor and Collateral Agency Agreement**”), which will provide Issuer with certain rights as a PPA Provider and Secured Creditor under the Intercreditor and Collateral Agency Agreement, the Security Agreement (as defined in the Intercreditor and Collateral Agency Agreement), and the Control Agreement (as defined in the Intercreditor and Collateral Agency Agreement) (collectively, the “**Security Documents**”) for the portion of the payments under the Prepay Power Supply Contract with respect to the Assigned Products. The Prepay Power Supply Contract shall have the same meaning as “Power Purchase Agreement” under the Intercreditor and Collateral Agency Agreement. PPA Buyer agrees that it shall make payments with respect to the Assigned Products to Issuer under the Prepay Power Supply Contract on the 20th or preceding business day of the month following deliveries consistent with the terms thereof, and such payments will not be made through the Lockbox Account (as defined in the Security Agreement) but will be made from PPA Buyer’s available funds not pledged as Collateral (as defined in the Security Agreement); provided that, in the event PPA Buyer fails to make any such payment when due under Prepay Power Supply Contract with respect to the Assigned Products, upon written request of Issuer, PPA Buyer shall cause such payment due to Issuer to be included as Regular Charges (as defined in the Security Agreement) on the first Distribution Date Certificate (as defined in the Security Agreement) to be issued at least ten (10) or more Business Days thereafter. If PPA Buyer fails to do so, Issuer may dispute such Distribution Date Certificate and otherwise pursue its rights to payment thereon pursuant to the terms of the Intercreditor and Collateral Agency Agreement. To the extent Issuer receives any amounts under the Security Documents or Intercreditor and Collateral Agency Agreement in respect of any Receivables purchased by Prepay LLC, Issuer shall (i) hold such amounts in trust for the benefit of Prepay LLC, (ii) promptly notify Prepay LLC thereof and (iii) promptly remit such amounts directly to an account specified by Prepay LLC. Issuer’s rights as a Secured Creditor and PPA Provider under the Security Documents (x) are limited to amounts owed in connection with the Assigned Products, (y) shall terminate automatically following the end of the Assignment Period, subject to payment of any amounts then owing to Issuer pursuant to the Prepay Power Supply Contract in connection with the Assigned Products, and (z) upon written request from PPA Buyer, provided that PPA Buyer has no further obligations to Issuer, under the Prepay Power Supply Contract, Issuer shall provide a written termination statement as described under Section 7.12(d) of the Security Agreement consenting to termination of Issuer’s rights as a

Secured Creditor under the Security Documents, including with respect to the Collateral, and Issuer agrees that such written termination statement shall not be unreasonably withheld, delayed or conditioned.

4. Forward Contract.

The Parties acknowledge and agree that this Agreement constitutes a “forward contract” and that the Parties shall constitute “forward contract merchants” within the meaning of the United States Bankruptcy Code.

5. Assignment Period; Assignment Early Termination.

(a) **Assignment Period.** The “Assignment Period” shall begin on the Assignment Period Start Date and extend until the Assignment Period End Date; provided that in no event shall the Assignment Period extend past an Assignment Early Termination Date.

(b) **Early Termination.** An “Assignment Early Termination Date” will occur under the following circumstances and as of the dates specified below:

i. the assignment of the Prepay Power Supply Contract by PPA Buyer or Issuer pursuant to Article XIII thereof, which Assignment Early Termination Date shall occur immediately as of the time of such assignment;

ii. the suspension, expiration, or termination of performance of the PPA by either PPA Buyer or PPA Seller for any reason other than the occurrence of a Force Majeure under and as defined in the PPA, which Assignment Early Termination Date shall occur immediately as of the time of PPA Seller’s last performance under the PPA following such suspension, expiration, or termination;

iii. the election of Prepay LLC in its sole discretion to declare an Assignment Early Termination Date as a result of (a) any event or circumstance that would give either PPA Buyer or PPA Seller the right to terminate or suspend performance under the PPA (regardless of whether PPA Buyer or PPA Seller exercises such right) or (b) the execution of an amendment, waiver, supplement, modification or other change to the PPA that adversely affects the Assigned Rights and Obligations or Prepay LLC’s rights or obligations under this Agreement (provided that Prepay LLC shall not have a right to terminate under this clause (b) to the extent that Prepay LLC (i) receives prior notice of such change and (ii) provides its written consent thereto), which Assignment Early Termination Date shall occur upon the date set forth in a written notice of such election delivered by Prepay LLC to PPA Buyer and PPA Seller;

iv. termination or suspension of deliveries for any reason other than a Force Majeure under and as defined in the Prepaid Agreement or Prepay Power Supply Contract, which Assignment Early Termination Date shall occur immediately as of the time of the last deliveries under the relevant contract following such suspension or termination;

v. the election of PPA Seller or PPA Buyer in its sole discretion to declare an Assignment Early Termination Date if Prepay LLC fails to pay when due any amounts

owed to PPA Seller in respect of any Delivered Product Payment Obligation and such failure continues for five Business Days following receipt by Prepay LLC of written notice thereof, which Assignment Early Termination Date shall occur upon the date set forth in a written notice of such election delivered by PPA Seller or PPA Buyer, as applicable, to Prepay LLC, and with a copy to PPA Buyer or PPA Seller, as applicable;

vi. the election of PPA Seller or PPA Buyer in its sole discretion to declare an Assignment Early Termination Date if either (a) an involuntary case or other proceeding is commenced against Prepay LLC seeking liquidation, reorganization or other relief with respect to it or its debts under any applicable Federal or State bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or similar law now or hereafter in effect or seeking the appointment of a custodian, receiver, liquidator, assignee, trustee, sequestrator or similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed, or an order or decree approving or ordering any of the foregoing is entered and continued unstayed and in effect, in any such event, for a period of 60 days, or (b) Prepay LLC commences a voluntary case or proceeding under any applicable Federal or State bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or other similar law or any other case or proceeding to be adjudicated as bankrupt or insolvent, or Prepay LLC consents to the entry of a decree or order for relief in an involuntary case or proceeding under any applicable Federal or State bankruptcy, insolvency, reorganization or other similar law or to the commencement of any bankruptcy or insolvency case or proceeding against it, files a petition or answer or consent seeking reorganization or relief under any applicable Federal or State law, or consents to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, sequestrator or similar official of Prepay LLC or any substantial part of its property, or makes an assignment for the benefit of creditors, or admits in writing its inability to pay its debts generally as they become due, which Assignment Early Termination Date shall occur upon the earliest date set forth in a written notice of such election delivered by PPA Seller or PPA Buyer, as applicable, to Prepay LLC, and with a copy to PPA Buyer or PPA Seller, as applicable;

vii. either Prepay LLC or PPA Buyer may designate an Assignment Early Termination Date with written notice to the other Parties to the extent that Prepay LLC and PPA Buyer have mutually agreed upon a replacement Assignment Agreement (as defined in the Prepay Power Supply Contract) that will replace the Assigned Rights and Obligations hereunder immediately following the termination hereof, which Assignment Early Termination Date shall occur effective as of the end of the Month preceding the commencement of the "Assignment Period" under the replacement Assignment Agreement as specified in the notice from Prepay LLC or PPA Buyer to the other Parties; and

viii. PPA Buyer may deliver written notice of termination to the other Parties if any change, event or effect occurs, including but not limited a change in applicable laws or regulations, any issues with the PPA Seller or the PPA, a dispute under the PPA or other similar circumstance, that individually or collectively have or are reasonably expected by PPA Buyer to have a material adverse effect upon (A) the PPA Buyer, (B) its rights and obligations under this Agreement, the Prepay Power Supply Contract, or the PPA, or (C) the benefit the PPA Buyer is receiving by assigning the Assigned Rights and Obligations,

with such Assignment Early Termination Date to be the date set forth in a written notice delivered by PPA Buyer to the other Parties; provided that (x) PPA Buyer will provide notice to the other Parties as soon as is reasonably possible that PPA Buyer anticipates exercising this termination right, and (y) PPA Buyer shall exercise commercially reasonable efforts to propose and agree with Prepay LLC upon a replacement Assignment Agreement prior to exercising this termination right.

(c) **Reversion of Assigned Rights and Obligations.** The parties acknowledge and agree that upon the occurrence of an Assignment Early Termination Date the Assigned Rights and Obligations will revert from Prepay LLC to PPA Buyer. Any Assigned Rights and Obligations that would become due for payment or performance on or after such Assignment Early Termination Date shall immediately and automatically revert from Prepay LLC to PPA Buyer, provided that (i) Prepay LLC shall remain responsible for the Delivered Product Payment Obligation with respect to any Assigned Product delivered to Prepay LLC prior to the Assignment Early Termination Date, and (ii) any legal restrictions on the effectiveness of such reversion (whether arising under bankruptcy law or otherwise) shall not affect the occurrence of the Assignment Early Termination Date.

6. Representations and Warranties.

(a) **Copy of PPA.** PPA Seller and PPA Buyer represent and warrant to Prepay LLC that a true, complete, and correct copy of the PPA is attached hereto as Appendix 3.

(b) **No Default.** PPA Seller and PPA Buyer represent and warrant to Prepay LLC that no event or circumstance exists (or would exist with the passage of time or the giving of notice) that would give either of them the right to terminate the PPA or suspend performance thereunder.

(c) **Other.** Each of PPA Buyer and PPA Seller represents and warrants to each other and to Prepay LLC that:

i. it has made no prior transfer (whether by way of security or otherwise) of any interest in the Assigned Rights and Obligations; and

ii. all obligations of PPA Buyer and PPA Seller under the PPA required to be performed on or before the Assignment Period Start Date have been fulfilled.

(d) **Representations.** Each Party represents to each of the other Parties:

i. **Status.** It is duly organized and validly existing under the laws of the jurisdiction of its organization or incorporation and, if relevant under such laws, in good standing.

ii. **Powers.** It has the power to execute this Agreement and any other documentation relating to this Agreement to which it is a party, to deliver this Agreement and any other documentation relating to this Agreement that it is required by this Agreement to deliver and to perform its obligations under this Agreement and has taken all necessary action to authorize such execution, delivery and performance.

iii. **No Violation or Conflict.** Such execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its obligations under this Agreement, will not result in any violation of, or conflict with: (i) any term of any material contract or agreement applicable to it; (ii) any of its charter, bylaws, or other constitutional documents; (iii) any determination or award of any arbitrator applicable to it; or (iv) any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, law, ordinance, rule or regulation of any Government Agency, applicable to it or any of its assets or properties or to any obligations incurred by it or by which it or any of its assets or properties or obligations are bound or affected, and shall not cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets.

iv. **Consents.** All consents, approvals, orders or authorizations of, registrations, declarations, filings or giving of notice to, obtaining of any licenses or permits from, or taking of any other action with respect to, any Person or Government Agency that are required to have been obtained by such Party with respect to this Agreement and the transactions contemplated hereby, including the due authorization of such Party and its governing body and any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party, have been obtained and are in full force and effect and all conditions of any such consents have been complied with.

v. **Obligations Binding.** Its obligations under this Agreement constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms (subject to applicable bankruptcy, reorganization, insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or at law)).

vi. **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to enter into this Agreement and as to whether this Agreement is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the other Parties as investment advice or as a recommendation to enter into this Agreement; it being understood that information and explanations related to the terms and conditions of this Agreement shall not be considered investment advice or a recommendation to enter into this Agreement. It is entering into this Agreement as a bona-fide, arm's-length transaction involving the mutual exchange of consideration and, once executed by all Parties, considers this Agreement a legally enforceable contract. No communication (written or oral) received from any of the other Parties shall be deemed to be an assurance or guarantee as to the expected results of this Agreement.

vii. **Assessment and Understanding.** It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of this Agreement. It is also capable of assuming, and assumes, the risks of this Agreement.

viii. **Status of Parties.** None of the other Parties is acting as a fiduciary for or an adviser to it in respect of this Agreement.

7. Counterparts.

This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by electronic transmission), each of which will be deemed an original.

8. Costs and Expenses.

The Parties will each pay their own costs and expenses (including legal fees) incurred in connection with this Agreement and as a result of the negotiation, preparation, and execution of this Agreement.

9. Amendments.

No amendment, modification, or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by an electronic transmission) and executed by each of the Parties or confirmed by emails or electronic messages on an electronic messaging system.

10. Notices.

Any notice, demand, statement or request required or authorized by this Agreement to be given by one Party to another shall be in writing, except as otherwise expressly provided herein. It shall be sent by email transmission, courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses for each of the other Parties designated in Appendix 2 hereto. Any such notice, demand, or request shall be deemed to be given (i) when sent by email transmission, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon 10 days' prior written notice to the other Parties, to change its address at any time, and to designate that copies of all such notices be directed to another person at another address. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods. Notwithstanding the foregoing, any Party may at any time notify the other Parties that any notice, demand, statement or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during such time shall be ineffective.

11. Miscellaneous.

(a) **Governing Law.** This Agreement and the rights and duties of the Parties under this Agreement will be governed by and construed, enforced and performed in accordance with the laws of the state of New York, without reference to any conflicts of laws provisions that would direct the application of another jurisdiction's laws; *provided*, however, that the authority of PPA Buyer to enter into and perform its obligations under this agreement shall be determined in accordance with the laws of the state of California.

(b) **U.S. Resolution Stay.** The Parties hereby confirm that they are adherents to the ISDA 2018 U.S. Resolution Stay Protocol (“**ISDA U.S. Stay Protocol**”), the terms of the ISDA U.S. Stay Protocol are incorporated into and form a part of this Agreement, and this Agreement shall be deemed a Protocol Covered Agreement for purposes thereof. For purposes of incorporating the ISDA U.S. Stay Protocol, Prepay LLC and PPA Seller shall each be deemed to be a Regulated Entity, and PPA Buyer shall be deemed to be an Adhering Party. In the event of any inconsistencies between this Agreement and the ISDA U.S. Stay Protocol, the ISDA U.S. Stay Protocol will prevail.

(c) **Reserved.**

(d) **Arbitration.** Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope of this agreement to arbitrate, shall be determined by final, non-appealable binding arbitration in San Francisco, California before three (3) arbitrators. The arbitration shall be administered by Judicial Arbitration and Mediation Services, Inc. (“**JAMS**”) pursuant to its Comprehensive Arbitration Rules and Procedures. Within fifteen (15) days after the commencement of arbitration, each of PPA Seller and PPA Buyer shall select one person to act as arbitrator, and the two so-selected arbitrators shall select a third arbitrator (the “**chairperson**”) within thirty (30) days of the commencement of the arbitration. If either PPA Seller or PPA Buyer is unable or fails to select one person to act as arbitrator, such arbitrator shall be appointed by JAMS. If the PPA Seller and PPA Buyer-selected arbitrators are unable or fail to agree upon a chairperson, the chairperson shall be appointed by JAMS. The chairperson shall be a person who has experience in renewable energy-related transactions, and none of the arbitrators shall have been previously employed by any Party or have any direct pecuniary interest in any Party or the subject matter of the arbitration, unless such conflict is expressly acknowledged and waived in writing by all of the Parties. The Parties shall maintain the confidential nature of the arbitration proceeding and any award, including any hearing(s), except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by law or judicial decision. Any arbitration proceedings, decision or award rendered hereunder and the validity, effect and interpretation of this arbitration provision shall be governed by the Federal Arbitration Act. The arbitrator(s) shall have no authority to award consequential, treble, exemplary, or punitive damages of any type or kind regardless of whether such damages may be available under any law or right, with the Parties hereby affirmatively waiving their rights, if any, to recover or claim such damages. In any arbitration arising out of or related to this Agreement, the arbitrators shall award to the prevailing Party or Parties, if any, the costs and attorney’s fees reasonably incurred in seeking to enforce the application of this Section 11(d) and by the prevailing party in connection with the arbitration. Notwithstanding the foregoing provisions of this Section 11(d), any costs incurred by a Party in seeking judicial enforcement of any written decision of the arbitrators shall be chargeable to and borne exclusively by the Party against whom such court order is obtained. The award shall be final and binding on the Parties and judgment upon any award may be entered in any court of competent jurisdiction.

(e) **Judicial Reference.** Without limiting the provisions in Section 11(d), if Section 11(d) is deemed ineffective or unenforceable in any respect, any dispute between the Parties arising

out of or in connection with this Agreement or its performance, breach, or termination (including the existence, validity and interpretation of this Agreement and the applicability of any statute of limitation period) (each, a “**Dispute**”) shall be resolved by a reference proceeding in California in accordance with the provisions of Sections 638 et seq. of the California Code of Civil Procedure (“**CCP**”), or their successor sections (a “**Reference Proceeding**”), which shall constitute the exclusive remedy for the resolution of any Dispute. As a condition precedent to initiating a Reference Proceeding with respect to any Dispute, the Parties shall comply with the provisions of Section 11(e)i).

i. Notice of Dispute. Prior to initiating the Reference Proceeding, a Party (the “**Disputing Party**”) shall provide the other Parties (the “**Responding Parties**”) with a written notice of each issue in dispute, a proposed means for resolving each such issue, and support for such position (the “**Notice of Dispute**”). Within 10 days after receiving the Notice of Dispute, the Responding Parties shall provide the Disputing Party with a written Notice of each additional issue (if any) with respect to the dispute raised by the Notice of Dispute, a proposed means for resolving every issue in dispute, and support for such position (the “**Dispute Response**”). Thereafter, the Parties shall meet to discuss the matter and attempt in good faith to reach a negotiated resolution of the dispute. If the Parties do not resolve the dispute by unanimous agreement within sixty 60 days after receipt of the Dispute Response, (the “**Negotiation Period**”), then any Party may provide to the other Parties written notice of intent for judicial reference (the “**Impasse Notice**”) in accordance with the further provisions of this Section 11.

ii. Applicability; Selection of Referees.

(A) Within 10 days of the delivery of an Impasse Notice, each of PPA Seller and PPA Buyer shall nominate one (1) referee. The two (2) referees (the “**Party-Appointed Referees**”) shall appoint a third referee (the “**Third Referee**”, together with the Party-Appointed Referees, the “**Referees**”). The Party-Appointed Referees shall be competent and experienced in matters involving the electric energy business in the United States, with at least ten (10) years of electric industry experience as a practicing attorney. The Third Referee shall be an active or retired California state or federal judge. Each of the Party-Appointed Referees and the Third Referee shall be impartial and independent of each of the Parties and of the other referees and not employed by any of the Parties in any prior matter.

(B) If the Party-Appointed Referees are unable to agree on the Third Referee within 45 days from delivery of the Impasse Notice, then the Third Referee shall be appointed pursuant to CCP Section 640(b) in an action filed in the Superior Court of California, County of San Francisco (the “**Court**”), and with due regard given to the selection criteria above. A request for appointment of a referee may be heard on an ex parte or expedited basis, and the Parties agree that irreparable harm would result if ex parte relief is not granted. Pursuant to CCP Section 170.6, each of PPA Buyer and PPA Seller shall have one (1) peremptory challenge to the referee selected by the Court.

iii. Discovery; Proceedings.

(A) The Parties agree that time is of the essence in conducting the Reference Proceeding. Accordingly, the referees shall be requested, subject to change in the time periods specified herein for good cause shown, to (i) set the matter for a status and trial-setting conference within 20 days after the date of selection of the Third Referee, (ii) if practicable, try all issues of law or fact within 180 days after the date of the conference, and (iii) report a statement of decision within 20 days after the matter has been submitted for decision.

(B) Discovery and other pre-hearing procedures shall be conducted as agreed to by the Parties, or if they cannot agree, as determined by the Third Referee after discussion with the Parties regarding the need for discovery and other pre-hearing procedures.

(C) Except as expressly set forth herein, the Third Referee shall determine the manner in which the Reference Proceeding is conducted, including the time and place of hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of the Reference Proceeding. The Reference Proceeding, including the trial, shall be conducted at a neutral location selected by the Parties, or if not agreed by the Parties, by the Third Referee, in San Francisco, California.

(D) All proceedings and hearings conducted before the referees, except for trial, shall be conducted without a court reporter, except that when any Party so requests, a court reporter will be used at any hearing conducted before the referees, and the referees will be provided a courtesy copy of the transcript. The Party making such a request shall have the obligation to arrange for and pay the court reporter.

iv. Decision. The referees shall render a written statement of decision setting forth findings of fact and conclusions of law. The decision shall be entered as a judgment in the court in accordance with the provisions of CCP Sections 644 and 645. The decision shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the Court. The Parties intend this general reference agreement to be specifically enforceable in accordance with the CCP.

v. Expenses. Each of PPA Seller and PPA Buyer shall bear the compensation and expenses of its respective Party-Appointed Referee, own counsel, witnesses, consultants and employees. All other expenses of judicial reference shall be split equally between PPA Seller and PPA Buyer.

(f) **Limitation of Liability.** Notwithstanding anything to the contrary herein, all obligations of Issuer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Issuer, payable solely from the Trust Estate (as such term is defined in the Bond Indenture) as and to the extent provided in the Bond Indenture, including with respect to Operating Expenses (as such term is defined in the

Bond Indenture). Issuer shall not be required to advance any moneys derived from any source other than the Revenues (as such term is defined in the Bond Indenture) and other assets pledged under the Bond Indenture for any of the purposes in this Agreement mentioned. Neither the faith and credit of Issuer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Bond Indenture) are received for the payment thereof and may be applied therefor pursuant to the terms of the Bond Indenture.

IN WITNESS WHEREOF, the Parties have executed this Agreement effective as of the date first set forth above.

Re: PPA Assignments for Delivery under Prepay Energy Agreements

Ladies and Gentlemen:

This Letter Agreement (this “Letter Agreement”) confirms our mutual agreement with respect to the matters set forth below and relates to (i) that certain Power Supply Contract (the “Power Supply Contract”), dated as of the date hereof, by and between California Community Choice Financing Authority (“Issuer”) and Silicon Valley Clean Energy Authority (“Project Participant”), (ii) that certain Prepaid Energy Sales Agreement (the “Prepaid Agreement”), dated as of the date hereof, by and between Energy Prepay [____], LLC, a Delaware limited liability company (“Prepay LLC”) and Issuer, and (iii) that certain Energy Management Agreement, dated as of the date hereof, by and between Morgan Stanley Capital Group Inc. (“MSCG”) and Prepay LLC (together with the Power Supply Contract and the Prepaid Agreement, the “Prepay Energy Agreements”). Any capitalized term used in this Letter Agreement and not otherwise defined herein shall have the meaning assigned to such term in the Power Supply Contract. In consideration of each party’s execution of the respective Prepay Energy Agreements, as well as the premises above and the mutual covenants and agreements set forth herein, Issuer, Project Participant, Prepay LLC and MSCG (collectively, the “Parties”) agree as follows:

1. PPA Assignments for Delivery under Prepay Energy Agreements.

(a) Initial Assignment. Concurrently with the execution of the Prepay Energy Agreements, Project Participant has assigned and Prepay LLC has agreed to assume a portion of Project Participant’s rights and obligations under the Initial Assigned PPA.

(b) Replacement Assignments. Commencing (i) six months prior to the expiration of any EPS Energy Period or the resumption of deliveries in a new Reset Period following Participant’s issuance of a Remarketing Election Notice pursuant to [Section 3.4] of the Power Supply Contract or (ii) otherwise immediately upon the early termination or anticipated early termination of an EPS Energy Period, Project Participant shall exercise Commercially Reasonable Efforts to assign a portion of Project Participant’s rights and obligations (the “Assigned Rights and Obligations”) under one or more power purchase agreements under which Project Participant is purchasing EPS Compliant Energy pursuant

to an Assignment Agreement substantially in the form of (A) the Limited Assignment Agreement set forth as Exhibit A hereto if the PPA Supplier is an unrelated third party or (B) the Limited Assignment Agreement set forth as Exhibit B hereto if the PPA Supplier is MSCG (each, an “Assignment Agreement”), and the Parties shall cooperate in good faith with respect to any proposed assignments; provided that

- (1) any subsequent Assignment Agreement shall provide (I) for the assignment by Project Participant to either (a) Prepay LLC if MSCG is the PPA Supplier or (b) MSCG if the PPA Supplier is an unrelated third party of its right to receive all of the Energy (and any associated products set forth in the Assignment Agreement) delivered under the applicable power purchase agreement for each Month of the applicable EPS Energy Period and (II) for payment by Prepay LLC or MSCG as applicable to the PPA Supplier under such subsequent power purchase agreement of the Day-Ahead Average Price for each Month of the applicable EPS Energy Period, with such amounts to be credited in the PPA Supplier’s monthly invoice to Project Participant against other amounts owed by Project Participant under the Assigned PPA during the EPS Energy Period;
 - (2) any third party PPA Supplier must satisfy MSCG’s internal credit and approval requirements and other requirements applied on a nondiscriminatory basis, including any “know your customer” rules, policies and procedures, anti-money laundering rules and regulations, Dodd-Frank Act, Commodity Exchange Act, Patriot Act and similar rules, regulations, requirements and corresponding policies;
 - (3) any such assignment must be agreed and consented to by Project Participant, Prepay LLC and MSCG in their reasonable discretion; and
 - (4) the Parties recognize that MSCG will be obligated to sell and deliver Assigned Product it receives from a third-party PPA Supplier to Prepay LLC under the Energy Management Agreement; Prepay LLC will be obligated to deliver Assigned Product that it acquires to Issuer under the terms of the Prepaid Agreement; and Issuer will be obligated to deliver Assigned Product that it acquires to Project Participant under the terms of the Power Supply Contract.
- (c) MSCG Procurement of EPS Compliant Energy. To the extent that (i) Project Participant, Prepay LLC and MSCG have not agreed upon a replacement assignment of a power purchase agreement by the date that is seventy-five (75) days prior to (A) the end of any EPS Energy Period or (B) the resumption of deliveries in a new Reset Period following Participant’s issuance of a Remarketing Election Notice pursuant to [Section 3.4] of the Power Supply Contract, or (ii) an early termination of an EPS Energy Period has occurred and Project Participant, Prepay LLC and MSCG have not agreed upon a replacement assignment of a power purchase agreement, then MSCG shall exercise Commercially Reasonable Efforts to obtain EPS Compliant Energy for ultimate redelivery to Project Participant, provided that:

- (1) Project Participant must consent to MSCG's procurement of any such EPS Compliant Energy for ultimate redelivery to Project Participant, with such consent not to be unreasonably withheld;
 - (2) the Parties shall act in good faith and in a Commercially Reasonable manner to negotiate any necessary amendments to the Prepay Energy Agreements to facilitate the delivery of such EPS Compliant Energy; and
 - (3) the period of delivery for any such EPS Compliant Energy (any such period, a "MSCG EPS Energy Period") shall not exceed the length, as applicable, of (A) the then-current Reset Period if such EPS Compliant Energy is obtained for delivery for the remainder of a Reset Period and (B) the length of the next succeeding Reset Period if such EPS Compliant Energy is obtained for delivery commencing in a subsequent Reset Period.
- (d) Tax Opinion. The Parties acknowledge and agree that their ability to enter into a new Reset Period will be contingent on obtaining an Opinion of Bond Counsel (as defined in the Bond Indenture), which will be dependent on the availability of EPS Compliant Energy for delivery in such Reset Period.

2. **Failure to Obtain EPS Compliant Energy.** To the extent an EPS Energy Period terminates or expires and Project Participant and MSCG have been unable to obtain EPS Compliant Energy for delivery under the Prepay Energy Agreements pursuant to the provisions of Paragraph 1, then Prepay LLC shall remarket the Base Energy pursuant to the provisions of Exhibit C to the Prepaid Agreement, subject to the following:

- (a) the Parties' obligations set forth in Paragraph 1 shall continue to apply;
- (b) Project Participant shall not make any new commitment to purchase Priority Energy during such a remarketing; and
- (c) consistent with [Section 7.5] of the Power Supply Contract, Project Participant shall exercise Commercially Reasonable Efforts to remediate any Disqualified Remarketing Proceeds resulting from Prepay LLC's remarketing.

3. **Representations.** Each Party represents to each of the other Parties:

- (a) **Status.** It is duly organized and validly existing under the laws of the jurisdiction of its organization or incorporation and, if relevant under such laws, in good standing.
- (b) **Powers.** It has the power to execute this Agreement and any other documentation relating to this Agreement to which it is a party, to deliver this Agreement and any other documentation relating to this Agreement that it is required by this Agreement to deliver and to perform its obligations under this Agreement and has taken all necessary action to authorize such execution, delivery and performance.

(c) **No Violation or Conflict.** Such execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its obligations under this Agreement, will not result in any violation of, or conflict with: (i) any term of any material contract or agreement applicable to it; (ii) any of its charter, bylaws, or other constitutional documents; (iii) any determination or award of any arbitrator applicable to it; or (iv) any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, law, ordinance, rule or regulation of any Government Agency, applicable to it or any of its assets or properties or to any obligations incurred by it or by which it or any of its assets or properties or obligations are bound or affected, and shall not cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets.

(d) **Consents.** All consents, approvals, orders or authorizations of, registrations, declarations, filings or giving of notice to, obtaining of any licenses or permits from, or taking of any other action with respect to, any Person or Government Agency that are required to have been obtained by such Party with respect to this Agreement and the transactions contemplated hereby, including the due authorization of such Party and its governing body and any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party, have been obtained and are in full force and effect and all conditions of any such consents have been complied with.

(e) **Obligations Binding.** Its obligations under this Agreement constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms (subject to applicable bankruptcy, reorganization, insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or at law)).

(f) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to enter into this Agreement and as to whether this Agreement is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the other Parties as investment advice or as a recommendation to enter into this Agreement; it being understood that information and explanations related to the terms and conditions of this Agreement shall not be considered investment advice or a recommendation to enter into this Agreement. It is entering into this Agreement as a bona-fide, arm's-length transaction involving the mutual exchange of consideration and, once executed by all Parties, considers this Agreement a legally enforceable contract. No communication (written or oral) received from any of the other Parties shall be deemed to be an assurance or guarantee as to the expected results of this Agreement.

(g) **Assessment and Understanding.** It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of this Agreement. It is also capable of assuming, and assumes, the risks of this Agreement.

(h) **Status of Parties.** None of the other Parties is acting as a fiduciary for or an adviser to it in respect of this Agreement.

4. **Counterparts.** This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by facsimile or electronic transmission), each of which will be deemed an original.

5. **Costs and Expenses.** The Parties will each pay their own costs and expenses (including legal fees) incurred in connection with this Agreement and as a result of the negotiation, preparation, and execution of this Agreement.

6. **Amendments.** No amendment, modification, or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by a facsimile or electronic transmission) and executed by each of the Parties or confirmed by an exchange of telexes or electronic messages on an electronic messaging system.

7. **Notices.** Any notice, demand, statement or request required or authorized by this Agreement to be given by one Party to another shall be in writing, except as otherwise expressly provided herein. It shall be sent by email transmission, courier, or personal delivery (including overnight delivery service) to each of the notice recipients and addresses for each of the other Parties designated in Appendix 2 hereto. Any such notice, demand, or request shall be deemed to be given (i) when delivered by email transmission, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon written 10 days' prior written notice to the other Parties, to change its address at any time, and to designate that copies of all such notices be directed to another person at another address. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods. Notwithstanding the foregoing, any Party may at any time notify the other Parties that any notice, demand, statement or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during such time shall be ineffective.

8. **Dispute Resolution.**

(a) **Governing Law.** This Agreement and the rights and duties of the Parties under this Agreement will be governed by and construed, enforced and performed in accordance with the laws of the state of New York, without reference to any conflicts of laws provisions that would direct the application of another jurisdiction's laws; *provided*, however, that the authority of Project Participant and Issuer to enter into and perform their obligations under this Agreement shall be determined in accordance with the laws of the State of California.

(b) **Arbitration.** Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope of this agreement to arbitrate, shall be determined by final, non-appealable binding arbitration in San Francisco, California before three (3) arbitrators. The arbitration shall be administered by Judicial Arbitration and Mediation Services, Inc. ("JAMS")

pursuant to its Comprehensive Arbitration Rules and Procedures. Within fifteen (15) days after the commencement of arbitration, each of MSCG and Project Participant shall select one person to act as arbitrator, and the two so-selected arbitrators shall select a third arbitrator (the “**chairperson**”) within thirty (30) days of the commencement of the arbitration. If either MSCG or Project Participant is unable or fails to select one person to act as arbitrator, such arbitrator shall be appointed by JAMS. If MSCG and Project Participant-selected arbitrators are unable or fail to agree upon a chairperson, the chairperson shall be appointed by JAMS. The chairperson shall be a person who has experience in renewable energy-related transactions, and none of the arbitrators shall have been previously employed by any Party or have any direct pecuniary interest in any Party or the subject matter of the arbitration, unless such conflict is expressly acknowledged and waived in writing by all of the Parties. The Parties shall maintain the confidential nature of the arbitration proceeding and any award, including any hearing(s), except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by law or judicial decision. Any arbitration proceedings, decision or award rendered hereunder and the validity, effect and interpretation of this arbitration provision shall be governed by the Federal Arbitration Act. The arbitrator(s) shall have no authority to award consequential, treble, exemplary, or punitive damages of any type or kind regardless of whether such damages may be available under any law or right, with the Parties hereby affirmatively waiving their rights, if any, to recover or claim such damages. In any arbitration arising out of or related to this Agreement, the arbitrators shall award to the prevailing Party or Parties, if any, the costs and attorneys’ fees reasonably incurred in seeking to enforce the application of this Section 8(b) and by the prevailing party in connection with the arbitration. Notwithstanding the foregoing provisions of this Section 8(b), any costs incurred by a Party in seeking judicial enforcement of any written decision of the arbitrators shall be chargeable to and borne exclusively by the Party against whom such court order is obtained. The award shall be final and binding on the Parties and judgment upon any award may be entered in any court of competent jurisdiction.

(c) **Judicial Reference.** Without limiting the provisions in Section 8(b), if Section 8(b) is deemed ineffective or unenforceable in any respect, any dispute between the Parties arising out of or in connection with this Agreement or its performance, breach, or termination (including the existence, validity and interpretation of this Agreement and the applicability of any statute of limitation period) (each, a “**Dispute**”) shall be resolved by a reference proceeding in California in accordance with the provisions of Sections 638 et seq. of the California Code of Civil Procedure (“**CCP**”), or their successor sections (a “**Reference Proceeding**”), which shall constitute the exclusive remedy for the resolution of any Dispute. As a condition precedent to initiating a Reference Proceeding with respect to any Dispute, the Parties shall comply with the provisions of Section 8(c)i.

i. Notice of Dispute. Prior to initiating the Reference Proceeding, a Party (the “**Disputing Party**”) shall provide the other Parties (the “**Responding Parties**”) with a written notice of each issue in dispute, a proposed means for resolving each such issue, and support for such position (the “**Notice of Dispute**”). Within ten (10) Days after receiving the Notice of Dispute, the Responding Parties shall provide the Disputing Party with a written Notice of each additional issue (if any) with respect to the dispute raised by the Notice of Dispute, a proposed means for resolving every issue in dispute, and support for

such position (the “**Dispute Response**”). Thereafter, the Parties shall meet to discuss the matter and attempt in good faith to reach a negotiated resolution of the dispute. If the Parties do not resolve the dispute by unanimous agreement within sixty (60) Days after receipt of the Dispute Response, (the “**Negotiation Period**”), then any Party may provide to the other Parties written notice of intent for judicial reference (the “**Impasse Notice**”) in accordance with the further provisions of this Section 8(c).

ii. Applicability; Selection of Referees.

(A) Within ten days of the delivery of an Impasse Notice, each of MSCG and Project Participant shall nominate one (1) referee. The two (2) referees (the “**Party-Appointed Referees**”) shall appoint a third referee (the “**Third Referee**”). The Party-Appointed Referees shall be competent and experienced in matters involving the electric energy business in the United States, with at least ten (10) years of electric industry experience as a practicing attorney. The Third Referee shall be an active or retired California state or federal judge. Each of the Party-Appointed Referees and the Third Referee shall be impartial and independent of each of the Parties and of the other referees and not employed by any of the Parties in any prior matter.

(B) If the Party-Appointed Referees are unable to agree on the Third Referee within forty-five (45) Days from delivery of the Impasse Notice, then the Third Referee shall be appointed pursuant to CCP Section 640(b) in an action filed in the Superior Court of California, County of San Francisco (the “**Court**”), and with due regard given to the selection criteria above. A request for appointment of a referee may be heard on an ex parte or expedited basis, and the Parties agree that irreparable harm would result if ex parte relief is not granted. Pursuant to CCP Section 170.6, each of Project Participant and MSCG shall have one (1) peremptory challenge to the referee selected by the Court.

iii. Discovery; Proceedings.

(A) The Parties agree that time is of the essence in conducting the Reference Proceeding. Accordingly, the referees shall be requested, subject to change in the time periods specified herein for good cause shown, to (i) set the matter for a status and trial-setting conference within twenty (20) days after the date of selection of the Third Referee, (ii) if practicable, try all issues of law or fact within one hundred eighty (180) days after the date of the conference, and (iii) report a statement of decision within twenty (20) days after the matter has been submitted for decision.

(B) Discovery and other pre-hearing procedures shall be conducted as agreed to by the Parties, or if they cannot agree, as determined by the Third Referee after discussion with the Parties regarding the need for discovery and other pre-hearing procedures.

(C) Except as expressly set forth herein, the Third Referee shall determine the manner in which the Reference Proceeding is conducted, including the time and place of hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of the Reference Proceeding. The Reference Proceeding, including the trial, shall be conducted at a neutral location selected by the Parties, or if not agreed by the Parties, by the Third Referee, in San Francisco, California.

(D) All proceedings and hearings conducted before the referees, except for trial, shall be conducted without a court reporter, except that when any Party so requests, a court reporter will be used at any hearing conducted before the referees, and the referees will be provided a courtesy copy of the transcript. The Party making such a request shall have the obligation to arrange for and pay the court reporter.

iv. Decision. The referees shall render a written statement of decision setting forth findings of fact and conclusions of law. The decision shall be entered as a judgment in the court in accordance with the provisions of CCP Sections 644 and 645. The decision shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the Court. The Parties intend this general reference agreement to be specifically enforceable in accordance with the CCP.

v. Expenses. Each of MSCG and Project Participant shall bear the compensation and expenses of its respective Party-Appointed Referee, own counsel, witnesses, consultants and employees. All other expenses of judicial reference shall be split equally between MSCG and Project Participant.

9. **Limitation of Liability**. Notwithstanding anything to the contrary herein, all obligations of Issuer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Issuer, payable solely from the Trust Estate (as such term is defined in the Bond Indenture) as and to the extent provided in the Bond Indenture, including with respect to Operating Expenses (as such term is defined in the Bond Indenture). Issuer shall not be required to advance any moneys derived from any source other than the Revenues (as such term is defined in the Bond Indenture) and other assets pledged under the Bond Indenture for any of the purposes in this Agreement mentioned. Neither the faith and credit of Issuer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Bond Indenture) are received for the payment thereof and may be applied therefor pursuant to the terms of the Bond Indenture.

PREPAID ENERGY PROJECT ADMINISTRATION AGREEMENT

This Prepaid Energy Project Administration Agreement (this “Agreement”) is made and entered into as of [_____, 2025, by and between California Community Choice Financing Authority (“CCCFA”) and Silicon Valley Clean Energy Authority (“SVCE”), with respect to the Prepaid Energy Project (defined below). CCCFA and SVCE may be referred to individually herein as a “Party” and collectively as the “Parties”. Capitalized terms used herein (including in the following Recitals) have the meanings given to such terms in Section 1.

W I T N E S S E T H:

WHEREAS, SVCE is a “community choice aggregator” under the Public Utilities Code; and

WHEREAS, SVCE and certain other community choice aggregators have created CCCFA as a joint exercise of powers authority under and pursuant to the Act and the Joint Powers Agreement; and

WHEREAS, CCCFA’s purpose is to assist its Members (as defined in the Joint Powers Agreement), including SVCE, by undertaking the financing or refinancing of energy prepayments that can be financed with tax advantaged bonds and other obligations on behalf of one or more of the Members by, among other things, issuing or incurring Bonds (as such term is defined in the Joint Powers Agreement) and entering into related contracts with Members; and

WHEREAS, CCCFA and SVCE are entering into a Power Supply Contract pursuant to which CCCFA has agreed to supply Energy to SVCE under the terms set forth therein; and

WHEREAS, in order to provide such Energy to SVCE under the Power Supply Contract, CCCFA is entering into the Prepaid Agreement with Energy Prepay [___], LLC, a Delaware limited liability company (the “Energy Supplier”), under which it will make a prepayment to the Energy Supplier for the purchase and delivery of such Energy; and

WHEREAS, CCCFA will finance the prepayment under the Prepaid Agreement and related costs by issuing the Bonds pursuant to the Indenture; and

NOW, THEREFORE, in consideration of the premises and mutual covenants set forth in this Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Section 1. Defined Terms. Capitalized terms used herein shall have the meanings set forth below:

“Act” means Chapter 5 of Division 7 of Title 1 of the California Government Code, being Section 6500 and following, as amended.

“Annual Refund” means the annual refund, if any, to be provided to SVCE pursuant to Section 3.2(c) of the Power Supply Contract.

“Assigned Delivery Point” has the meaning specified in the Assignment Agreement.

“Assigned Energy” has the meaning specified in the Assignment Agreement.

“Assigned Product” means Assigned Energy and associated renewable energy credits, green energy attributes and any other product included in the Assignment Agreement.

“Assignment Agreement” means the Initial Assignment Agreement and any subsequent assignment agreement entered into consistent with the Assignment Letter Agreement.

“Assignment Letter Agreement” has the meaning specified in the Power Supply Contract.

“Base Energy” means Energy to be delivered to an Energy Delivery Point.

“Bonds” means the bonds issued by CCCFA pursuant to the Indenture on or about the date of this Agreement in order to finance the prepayment required to be made to the Energy Supplier under the Prepaid Agreement and related costs of the Prepaid Energy Project, and any bonds issued to refund such bonds.

“CCCFA” means California Community Choice Financing Authority, a joint exercise of powers authority created under and pursuant to the Act and the Joint Powers Agreement.

“CCCFA Commodity Swap” means the ISDA Master Agreement, Schedule and transaction Confirmation entered into by CCCFA and the swap counterparty named therein, and any replacement swap entered into pursuant to the Prepaid Agreement.

“Contract Quantity” means the quantity of Base Energy or Assigned Energy, as applicable, specified in Exhibits A-1 and A-2 of the Power Supply Contract, as such Exhibits A-1 and A-2 may be updated from time to time in accordance with the terms of the Power Supply Contract.

“Energy” means three-phase, 60-cycle alternating current electric energy, expressed in megawatt-hours.

“Energy Delivery Point” means the delivery point for delivery of SVCE’s Contract Quantity as specified in the Power Supply Contract, and shall include, if applicable, any Assigned Delivery Point and any alternate Delivery Point for SVCE.

“Energy Supplier” means Energy Prepay [], LLC, a Delaware limited liability company.

“Indenture” means the Trust Indenture, dated as of [_____] 1. 2025, between CCCFA and the Trustee, as amended, restated, supplemented or otherwise modified from time to time.

“Initial Assignment Agreement” with respect to SVCE, the initial assignment agreement or agreements specified in the Power Supply Contract.

“Joint Powers Agreement” means the Joint Powers Agreement by and among the Members of CCCFA named therein, including SVCE, providing for the creation, purposes and powers of CCCFA, as the same may be amended or supplemented from time to time in accordance with its terms.

“Power Supply Contract” means the Power Supply Contract, dated [_____] 2025, between CCCFA and SVCE relating to the purchase by SVCE of Energy acquired by CCCFA pursuant to the Prepaid Agreement, as amended, restated, supplemented or otherwise modified from time to time.

“Prepaid Agreement” means the Prepaid Energy Sales Agreement, dated [_____] 2025, between CCCFA, as buyer, and the Energy Supplier, as seller, as amended, restated, supplemented or otherwise modified from time to time.

“Prepaid Energy Project” means the issuance of the Bonds by CCCFA pursuant to the Indenture, the acquisition of Energy and related undertakings of CCCFA under the Prepaid Agreement and the Indenture, and the sale to SVCE of such Energy and related undertakings of CCCFA under the Power Supply Contract.

“Public Utilities Code” means the Public Utilities Code of the State of California, as amended.

“Qualifying Use Requirements” has the meaning set forth in Section 1.1 of the Power Supply Contract.

“Re-Pricing Agreement” means the Re-Pricing Agreement, dated as of the date of issuance of the Bonds, by and between CCCFA and the Energy Supplier.

“Schedule”, “Scheduled” or “Scheduling” means the actions of a Party and/or its designated representatives, including each Party’s Transmission Providers, if applicable, of notifying, requesting and confirming to each other the quantity of Energy to be delivered during any given portion of the Delivery Period at a specified Delivery Point.

“SVCE” means Silicon Valley Clean Energy Authority, a community choice aggregator as defined in Section 331.1 of the Public Utilities Code.

“Tax Certificate and Agreement” means the Tax Certificate and Agreement executed and delivered by CCCFA in connection with the issuance of the Bonds relating to certain federal income tax compliance requirements relating to the Prepaid Energy Project.

“Transmission Provider(s)” means any entity or entities transmitting or transporting Energy on behalf of a Party to or from an Energy Delivery Point.

“Trustee” means The Bank of New York Mellon Trust Company, N.A., and its successors as Trustee under the Indenture.

Section 2. Assignment Agreements. With respect to any Assignment Agreement, the Parties acknowledge and agree as follows:

(a) as of the date of this Agreement, SVCE has entered into the Initial Assignment Agreement specified in the Power Supply Contract with respect to its entire Contract Quantity;

(b) subject to the terms of the applicable Assignment Letter Agreement, SVCE may from time to time enter into additional Assignment Agreements with respect to all or a portion of its Contract Quantity; and

(c) SVCE shall determine, independent of CCCFA, when and if any Assignment Agreement is entered into or terminated and the underlying agreement and portion of its Contract Quantity to which such Assignment Agreement relates.

Section 3. Scheduling and Delivery of Assigned Energy. Assigned Energy and any other Assigned Product delivered to CCCFA under the Prepaid Agreement that is attributable to an Assignment Agreement(s) entered into by SVCE shall be attributable to SVCE under the Power Supply Contract, and CCCFA shall have no responsibility for (a) any Scheduling or other operational requirements necessary for the delivery of Assigned Energy to SVCE’s Assigned Delivery Point and the transfer of other Assigned Product to SVCE, or (b) any accounting for under-deliveries or over-deliveries or other record-keeping requirements with respect to any Assigned Energy and other Assigned Product, all of which shall be the sole responsibility of SVCE pursuant to the related Assignment Agreement(s).

Section 4. Qualified Use; Remarketing of Base Energy. As provided in the Power Supply Contract, any portion of SVCE’s Contract Quantity that is not delivered as Assigned Energy is required to be delivered as Base Energy and simultaneously remarketed by MSES pursuant to the Prepaid Agreement. SVCE shall be responsible for accounting for any portion of SVCE’s Contract Quantity deemed delivered as Base Energy and subsequently remarketed, including accounting for any remediation of any such remarketing sales as may be required pursuant to the Qualifying Use Requirements. SVCE agrees to provide to CCCFA any information reasonably requested by it in order to comply with any reporting or record-keeping requirements related to such deemed deliveries and remarketing of Base Energy, including such information relating to compliance with the Qualifying Use Requirements, as may be required pursuant to the Prepaid Agreement, the Indenture or the Tax Certificate and Agreement.

Section 5. CCCFA Commodity Swap. CCCFA shall not take any action to terminate or designate the early termination of the CCCFA Commodity Swap except in accordance with written instructions of SVCE or unless otherwise required under the terms of the Prepaid Agreement or the Indenture.

Section 6. Directions, Consents and Waivers. CCCFA may be requested or required from time to time to provide certain directions, consents, or waivers under the terms of the Prepaid Agreement, the Indenture and the Re-pricing Agreement. Provided no event of default has occurred and is continuing with respect to SVCE under the Power Supply Contract, such

direction, consent or waiver shall only be provided by CCCFA in accordance with written instructions provided by SVCE.

Section 7. Re-pricing Information. CCCFA shall provide, or cause MSES to provide, to SVCE such information as is required to be provided by MSES to CCCFA in accordance the Re-pricing Agreement at such times as are required under the Re-pricing Agreement.

Section 9. Project Administration Fee; Reimbursement and Refund of Operating Expenses.

(a) Under the Bond Indenture, Operating Expenses (as defined in the Indenture) relating to the Clean Energy Project are to be paid from amounts deposited monthly into the Administrative Fee Fund for each annual period ending on [_____] 1 of each year. CCCFA agrees that amounts allocated on behalf of SVCE annually into the Administrative Fee Fund equal to \$[_____] in the aggregate for each such annual period (the “*Project Administration Fee*”), shall be allocated to pay such Operating Expenses as the same become due and payable. In the event such allocated amounts available in the Operating Fund are not sufficient to pay such Operating Expenses when due, SVCE agrees to pay such additional amounts for deposit into the Administrative Fee Fund as are necessary to pay such Operating Expenses upon receipt of notice of the amount due from the Trustee or CCCFA.

(b) As soon as practicable following the end of each annual period referred to in paragraph (a), CCCFA agrees that the amounts received in respect of the Project Administration Fee for such annual period shall be reconciled with the Operating Expenses paid or accrued for such period. In the event that, following each such reconciliation, it is determined that the amounts received in respect of the Project Administration Fee during the applicable annual period exceed Operating Expenses paid or accrued for such period, SVCE will be provided written notice thereof and the amount of such excess will be included in its Annual Refund under the Power Supply Contract.

Section 10. Notices. Notices and other information to be provided by a Party to any other Party under this Agreement shall be provided in accordance with Article XVI of the Power Supply Contract.

Section 11. Governing Law. This Agreement and the obligations of the Parties hereunder shall be governed by and determined in accordance with the laws of the State of California.

Section 12. Counterparts. This Agreement may be executed and acknowledged in multiple counterparts and by the Parties in separate counterparts, each of which shall be an original and all of which shall be and constitute one and the same instrument.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.

Re: California Community Choice Financing Authority Energy Prepayment Financing on behalf of Silicon Valley Clean Energy Authority

Overview

The California Community Choice Financing Authority (“CCCFA” or the “Issuer”) seeks to procure a 30-year supply of energy, through the issuance of Clean Energy Project Revenue Bonds (the “Bonds”) to be issued by CCCFA. The CCCFA will sell all the Prepaid Energy acquired from this transaction to Silicon Valley Clean Energy Authority (“SVCE”), the “Project Participant.”

Rating Agency Fee and SPO Fee

The rating agency fee and expenses (“Rating Agency Fee”) is paid from the proceeds of the Bonds. However, unlike most of the other fees associated with the issuance of the Bonds, payment of the Rating Agency Fee is not contingent upon the issuance of the Bonds.

In the event the Bonds are not issued due to market conditions, and there remains a Rating Agency Fee payable to Moody’s Investors Service or S&P Global Ratings (the “Rating Agency”), Morgan Stanley and CCCFA agree to split this Rating Agency Fee on an equal basis. If the Bonds are not issued due to the CCCFA or the Project Participant’s unwillingness or inability to proceed, other than due to an inability to achieve a minimum established target discount, the Rating Agency Fee will be their sole responsibility. To the extent CCCFA incurs any Rating Agency Fee if the bonds are not issued, the Project Participant agrees that it will be liable for such Rating Agency Fee and make direct payment to the Rating Agency therefor.

The Project Participant has or plans to engage Kestrel to provide a green bond second party opinion (the “SPO”). In the event the SPO is obtained and the Bonds are not issued (unless the Bonds are not issued due to the CCCFA or the Project Participant’s unwillingness or inability to proceed, other than due to an inability to achieve a minimum established target discount), the fee payable to Kestrel (the “SPO Fee”) shall be the responsibility of Morgan Stanley, and in such

event, to the extent the SPO Fee was already paid by the Project Participant or by CCCFA, Morgan Stanley agrees to reimburse the Project Participant or CCCFA, as appropriate. To the extent CCCFA incurs any SPO Fee if the bonds are not issued as a result of the Project Participant's unwillingness or inability to proceed, other than due to an inability to achieve a minimum established target discount, the Project Participant agrees that it will be liable for such SPO Fee and make direct payment to Kestrel therefor, or to CCCFA if the SPO Fee was already paid by CCCFA.

Morgan Stanley shall have no responsibility for any fees or expenses incurred by CCCFA or the Project Participant, or their agents, employees, advisors or counsel, in connection with the issuance of the Bonds and the purchase of the Prepaid Energy, other than the Rating Agency Fee and SPO Fee as described in this MOU and as further described in the Bond Purchase Agreement (as defined herein).

Miscellaneous

CCCFA and Project Participant each acknowledge and agree that: (i) the transaction contemplated by this MOU is, in each case, an arm's length, commercial transaction between the CCCFA and Morgan Stanley (in its role as "Underwriter" and/or the "Energy Supplier", as applicable) in which the Underwriter and the Energy Supplier are each acting solely as a principal and not acting as a municipal advisor, financial advisor or fiduciary to CCCFA or the Project Participant; and (ii) CCCFA and the Project Participant will consult their own legal, accounting, tax, financial and other advisors, as applicable, to the extent each has deemed appropriate.

CCCFA acknowledges and agrees that Morgan Stanley is not making a commitment to extend credit, make a loan or otherwise fund the Bonds beyond the obligations contained in a mutually satisfactory bond purchase agreement (the "Bond Purchase Agreement"). CCCFA acknowledges that the services provided under this MOU involve professional judgment on Morgan Stanley's part and that the results cannot be, and are not, guaranteed.

Nothing contained herein shall preclude the Underwriter from carrying on its customary and usual business activities. The Underwriter specifically reserves the right, but is not obligated, to bid for and maintain secondary markets on any of CCCFA's outstanding bonds subject to appropriate information barriers. Services provided by the Underwriter in connection with this MOU shall not limit the Underwriter from providing services for CCCFA or the Project Participant in conjunction with other services requested by CCCFA or the Project Participant except as limited by rule of law or regulation.

In connection with the services agreed to herein, it is understood that the Underwriter will render professional services as an independent contractor. Neither the Underwriter nor any of its agents or employees shall be deemed an employee of CCCFA or the Project Participant for any purpose.

Except as described in this paragraph, this MOU is intended to be, and shall be construed only as, a non-binding MOU, intent on summarizing and evidencing discussions between CCCFA, the Project Participant, and Morgan Stanley, as of the date hereof. Except as described below, any legally binding obligation of the parties with respect to the transaction described herein shall exist only upon the execution and delivery of definitive agreements related thereto, into which this MOU

Memorandum of Understanding
[July], 2025

and all prior discussions shall merge. It is expressly understood that this MOU is not a contract to execute any definitive agreements or to otherwise consummate the transactions described herein. The parties will cooperate in negotiating definitive agreements providing for the transactions contemplated by this MOU, but each party reserves the right of final approval or disapproval, for any reason, of the documentation relating to such agreements. Notwithstanding the foregoing, the provisions above under the headings "Rating Agency Fee and SPO Fee" shall be binding upon the parties.

Sincerely,

Grant Fraunfelder, Executive Director

TRUST INDENTURE

THIS TRUST INDENTURE, dated as of September 1, 2025 (this “*Indenture*”), is by and between California Community Choice Financing Authority, a joint powers authority and public entity of the State of California (the “*Issuer*”) and The Bank of New York Mellon Trust Company, N.A., a national banking association organized and existing under the laws of the United States and authorized to accept and execute trusts of the character herein, as trustee (the “*Trustee*”).

WITNESSETH:

WHEREAS, pursuant to the provisions of the Act (capitalized terms used herein and not otherwise defined shall have the meanings given such terms in Section 1.01 hereof), Central Coast Community Energy, East Bay Community Energy Authority, Marin Clean Energy, and Silicon Valley Clean Energy Authority entered into a joint powers agreement pursuant to which the Issuer was organized and established for the purpose, among other things, of entering into contracts for electricity and energy services and agreements for services to facilitate the sale and purchase of electricity and other related services, and for issuing bonds to assist the Members (as defined herein) in financing such contracts, agreements, purchases, sales and services; and

WHEREAS, the Issuer is authorized under the Act to acquire electricity and energy services and enter into agreements for services to facilitate the sale and purchase of electricity and other related services, and to issue revenue bonds to finance the cost of acquisition of such electricity and energy services and other agreements, and is vested with all powers necessary to accomplish the purposes for which it was created; and

WHEREAS, the Issuer has determined to finance the Cost of Acquisition of the Clean Energy Project through the issuance of Bonds pursuant to this Indenture; and

WHEREAS, the execution and delivery of this Indenture has been in all respects duly and validly authorized and approved by resolution of the Board of the Issuer; and

WHEREAS, the Trustee is willing to accept the trusts provided for in this Indenture.

NOW, THEREFORE, THIS INDENTURE WITNESSETH, and the Issuer and the Trustee agree as follows for the benefit of the other, for the benefit of the Holders of the Bonds issued pursuant hereto and the other parties secured hereby:

GRANTING CLAUSES

FOR AND IN CONSIDERATION OF the premises, the mutual covenants of the Issuer and the Trustee herein, the purchase of the Bonds by the Holders thereof and the obligations of the Interest Rate Swap Counterparty under the Interest Rate Swap, if any, and in order to secure:

- (i) the payment of the principal of and premium, if any, and interest on the Bonds and the payment of the Interest Rate Swap Payments, in each case according to the tenor and effect of the Bonds and the Interest Rate Swap, and

(ii) the performance and observance by the Issuer of all the covenants expressed or implied in this Indenture and in the Bonds,

the Issuer does hereby grant to the Trustee a lien on and security interest in the Trust Estate and convey, assign and pledge unto the Trustee and its successors in trust, all right, title and interest of the Issuer in and to the Trust Estate, subject to conveyance, assignment and pledge of the Commodity Swap Payment Fund in favor of the Commodity Swap Counterparties as set forth below, and further subject to the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in this Indenture, and all other rights hereinafter granted for the further securing of the Bonds;

FOR AND IN CONSIDERATION OF the obligations of the Commodity Swap Counterparties under the Commodity Swaps and the mutual covenants of the Issuer and the Commodity Swap Counterparties thereunder, and in order to secure the payment of the Commodity Swap Payments, the Issuer does hereby convey, assign and pledge unto the Trustee and its successors in trust, all right, title and interest of the Issuer in the Commodity Swap Payment Fund and the amounts on deposit therein, subject to the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in this Indenture, which conveyance, assignment and pledge shall have priority over the foregoing conveyance, assignment and pledge of the Commodity Swap Payment Fund and the amounts and investments on deposit therein in favor of the Bonds and the Interest Rate Swap Payments, if any;

TO HAVE AND TO HOLD all the same with all privileges and appurtenances hereby and hereafter conveyed and assigned, or agreed or intended so to be, to the Trustee and its respective successors in said trust and assigns forever;

IN TRUST NEVERTHELESS, upon the terms and trusts herein set forth for the equal and proportionate benefit, security and protection of (i) all Holders of the Bonds without privilege, priority or distinction as to the lien or otherwise of any Bond over any other Bond or the payment of interest with respect to any Bond over the payment of interest with respect to any other Bond, except as otherwise provided herein, and (ii) the Interest Rate Swap Counterparty, if any; and

PROVIDED, HOWEVER, that if the Issuer, its successors or assigns shall well and truly pay, or cause to be paid, the principal or Redemption Price, if any, on the Bonds and the interest due or to become due thereon, the Commodity Swap Payments and the Interest Rate Swap Payments, if any, at the times and in the manner provided in the Bonds, the Commodity Swaps and any Interest Rate Swap, respectively, according to the true intent and meaning thereof, and shall cause the payments to be made into the Funds as required hereunder, or shall provide, as permitted hereby, for the payment thereof as provided in Section 12.01, and shall well and truly keep and perform and observe all the covenants and conditions of this Indenture to be kept, performed and observed by it, and shall pay or cause to be paid to the Trustee all sums of money due or to become due to it in accordance with the terms and provisions hereof, then upon such final payments or provisions for such payments by the Issuer, the Bonds, the Commodity Swaps and any Interest Rate Swap shall cease to be entitled to any lien, benefit or security under this Indenture, and all covenants, agreements and obligations of the Issuer to the Holders of the Bonds shall thereupon cease, terminate and be discharged and satisfied; otherwise this Indenture shall remain in full force and effect.

The terms and conditions upon which the Bonds are to be issued, authenticated, delivered, secured and accepted by all Persons who from time to time shall be or become the Holders thereof, and the trusts and conditions upon which the Revenues, moneys, securities and funds held or set aside under this Indenture, subject to the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in this Indenture, are to be held and disposed of, which said trusts and conditions the Trustee hereby accepts, and the respective parties hereto covenant and agree, are as follows:

ARTICLE I

DEFINITIONS AND GOVERNING LAW

Section 1.01. Definitions. The following terms shall, for all purposes of this Indenture, have the following meanings:

“*Account*” or “*Accounts*” means, as the case may be, each or all of the Accounts established in Sections 4.15 and 5.02.

“*Accountant’s Certificate*” means a certificate signed by an independent certified public accountant or a firm of independent certified public accountants, selected by the Issuer, who may be the accountant or firm of accountants who regularly audit the books of the Issuer and must be identified upon selection in writing to the Trustee.

“*Act*” means the Joint Exercise of Powers Act constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500) of the California Government Code, as amended or supplemented from time to time.

“*Administrative Fee Fund*” means the Administrative Fee Fund established in Section 5.02.

“*Advance*” means the amounts paid to the Trustee, on behalf of the Issuer, pursuant to the Custodial Agreements.

“*Alternate Liquidity Facility*” means a Liquidity Facility for a Series of Bonds delivered to the Trustee in substitution for a Liquidity Facility then in effect with respect to such Bonds.

“*Amortized Value*” means, with respect to any Bond to be redeemed when a Term Rate Period is in effect with respect to such Bond, the principal amount of such Bond multiplied by the price of such Bond expressed as a percentage, calculated by a major market maker in municipal securities, as the quotation agent, selected by the Issuer, based on the industry standard method of calculating bond prices (as such industry standard prevailed on the date such Bond began to bear interest at its current Term Rate), with a delivery date equal to the date of redemption of such Bond, a maturity date equal to the earlier of (a) the stated maturity date of such Bond or (b) the Term Rate Tender Date of such Bond and a yield equal to such Bond’s original reoffering yield on the date such Bond began to bear interest at its current Term Rate. The Amortized Value of the Bonds as of certain dates during the Initial Interest Rate Period is set forth in Schedule IV.

“*Applicable Factor*” means (a) with respect to the initial issuance of a Series of Bonds bearing interest at a SOFR Index Rate, the percentage or factor of the SOFR Index determined by the Underwriter and specified in the Index Rate Determination Certificate for such Series of Bonds, or (b) with respect to a Series of Bonds for which the Interest Rate Period is being converted to a SOFR Index Rate Period (including a change in such Interest Rate Period from one SOFR Index Rate Period to another SOFR Index Rate Period), the percentage or factor of the SOFR Index determined by the Remarketing Agent and specified in the applicable Index Rate Determination Certificate or Index Rate Continuation Notice, provided in each case that the Issuer delivers to the Trustee a Favorable Opinion of Bond Counsel addressing the selection of such percentage or factor. The Applicable Factor shall be determined by the Underwriter or the Remarketing Agent, as applicable, in accordance with Section 2.09(a) and included in the applicable Index Rate Determination Certificate, and once determined shall remain constant for the duration of the applicable SOFR Index Rate Period.

“*Applicable Spread*” means, with respect to a Series of Bonds for which the Interest Rate Period is an Index Rate Period, or for any Series of Bonds for which the Interest Rate Period is converted to an Index Rate Period, the margin or spread, which may be positive or negative, determined by the Underwriter or the Remarketing Agent, as applicable, in accordance with Section 2.09(a), on or prior to the Issue Date or Conversion Date for such Bonds, as applicable, and specified in the applicable Supplemental Indenture or Index Rate Determination Certificate or Index Rate Continuation Notice, as applicable, which shall be added to the applicable Index (or the product of the Applicable Factor and the applicable Index, as the case may be) to determine the Index Rate. Once so determined, the Applicable Spread shall remain constant for the duration of the applicable Index Rate Period. The Applicable Spread shall be determined by the Underwriter or the Remarketing Agent, as applicable, in accordance with Section 2.09(a) and included in the applicable Index Rate Determination Certificate.

“*Applicable Tax Exempt Municipal Bond Rate*” means, for the Bonds of any maturity, the “Comparable AAA General Obligations” yield curve rate for the year of such maturity or Mandatory Purchase Date, as applicable, as published by Refinitiv Global Markets, Inc. at least one Business Day and not more than 15 Business Days prior to the date that notice of redemption is required to be given pursuant to Section 4.04. If no such yield curve rate is established for the applicable year, the “Comparable AAA General Obligations” yield curve rate for the two published maturities most closely corresponding to the applicable year shall be determined, and the Applicable Tax Exempt Municipal Bond Rate will be interpolated or extrapolated from those yield curve rates on a straight line basis. This rate is made available daily by Refinitiv Global Markets and is available to its subscribers through its internet address: www.tm3.com. In calculating the Applicable Tax Exempt Municipal Bond Rate, should Refinitiv Global Markets, Inc. no longer publish the “Comparable AAA General Obligations” yield curve rate, then the Applicable Tax Exempt Municipal Bond Rate shall equal the Consensus Scale yield curve rate for the applicable year. The Consensus Scale yield curve rate is made available daily by Municipal Market Analytics and is available to its subscribers through its internet address: www.mma-research.com. In the further event Municipal Market Analytics, Inc. no longer publishes the Consensus Scale, the Applicable Tax Exempt Municipal Bond Rate shall be determined by a major market maker in municipal securities, as the quotation agent, based upon the rate per annum equal to the annual yield to maturity, calculated using semi-annual compounding, of those tax exempt general obligation bonds rated in the highest Rating Category by Moody’s and S&P with a maturity

date equal to the stated maturity date or Mandatory Purchase Date, as applicable, of such Bonds having characteristics (other than the ratings) most comparable to those of such Bonds in the judgment of the quotation agent. The quotation agent's determination of the Applicable Tax Exempt Municipal Bond Rate shall be final and binding on all parties in the absence of manifest error and may be conclusively relied upon in good faith by the Trustee.

"Assignment Payment" means any payment received from the Energy Supplier, or the Master Custodian on its behalf, in connection with an assignment of the Energy Management Agreement to a replacement Seller, as such term is defined in the Energy Management Agreement. All references herein to payments made by or received from the Energy Supplier shall be deemed to include payments made by or received from the Master Custodian for and on behalf of the Energy Supplier.

"Assignment Payment Fund" means the Assignment Payment Fund established in Section 5.02.

"Attesting Party" means an individual authorized by a resolution of the Board to attest the signatures of Authorized Officers.

"Authorized Denominations" means with respect to any (a) Term Rate Period or Index Rate Period, \$5,000 and any integral multiple thereof, and (b) Commercial Paper Interest Rate Period, Daily Interest Rate Period or Weekly Interest Rate Period, \$100,000 and any integral multiple of \$1,000 in excess of \$100,000.

"Authorized Newspaper" means *The Wall Street Journal* or *The Bond Buyer* or any other newspaper or journal printed in the English language and customarily published on each Business Day devoted to financial news and selected by the Issuer, with prior written notice to and approval of the Trustee, whose decision shall be final.

"Authorized Officer" means (a) the Treasurer/Controller of the Issuer, and (b) any other person or persons designated by the Board by resolution to act on behalf of the Issuer under this Indenture. The designation of such person or persons shall be evidenced by a Written Certificate of the Issuer delivered to a Responsible Officer of the Trustee containing the specimen signature of such person or persons and signed on behalf of the Issuer by its Treasurer/Controller, which incumbency certificate shall be amended by the Issuer, with notice to a Responsible Officer of the Trustee and the Custodian, whenever a person is to be added or deleted from the listing. Such designation as an Authorized Officer shall remain in effect until a Responsible Officer of the Trustee receives actual written notice from the Issuer to the contrary, accompanied by a new certificate.

"Beneficial Owner" means, with respect to Bonds registered in the Book Entry System, any Person who acquires a beneficial ownership interest in a Bond held by the Securities Depository, and the term *"Beneficial Ownership"* shall be interpreted accordingly.

"BLS" means the Bureau of Labor Statistics of the U.S. Department of Labor.

"Board" means the Board of Directors of the Issuer, or if said Board is abolished, the board, body, commission or agency succeeding to the principal functions thereof or to whom the power

and duties granted or imposed by this Indenture are given by law, and which shall be identified in a Written Notice of the Issuer delivered to the Trustee.

“*Bond Payment Date*” means each date on which (a) interest on the Bonds is due and payable, (b) an Interest Rate Swap Payment, if any, is due, or (c) principal of the Bonds is payable at maturity or pursuant to Sinking Fund Installments.

“*Bond Purchase Fund*” means the fund by that name established pursuant to Section 4.15(a), including the Remarketing Proceeds Account and the Issuer Purchase Account therein.

“*Bond Registrar*” means the Trustee and any other bank or trust company organized under the laws of any state of the United States of America or national banking association appointed by the Issuer to perform the duties of Bond Registrar under this Indenture.

“*Bondholder*” or “*Holder of Bonds*” or “*Holder*” or “*Owner*” means any Person who shall be the registered owner of any Bond or Bonds.

“*Book Entry System*” means the system maintained by the Securities Depository and described in Section 3.09.

“*Business Day*” means any day other than (a) a Saturday or Sunday, (b) a day on which commercial banks in New York, New York, or the city in which is located the designated corporate trust office of the Trustee, the Custodian, or the Calculation Agent are authorized by law or executive order to close, (c) a day on which the New York Stock Exchange, Inc. is closed, (d) a day on which the payment system of the Federal Reserve System is not operational, and (e) for purposes of determining the SIFMA Index Rate and the SOFR Index Rate, any day other than Saturday, a Sunday, or a day that SIFMA recommends that the fixed income departments of its members be closed for the entire day for purposes of trading fixed-income securities. With respect to any action required to be taken by the Issuer hereunder, the term “*Business Day*” shall exclude any date on which the operational offices of the Issuer are authorized by law or executive order to close.

“*Calculation Agent*” means, with respect to any Series of Bonds bearing interest at an Index Rate, the Calculation Agent with respect to such Bonds appointed by the Issuer, with written notice to the Trustee, pursuant to the applicable Calculation Agent Agreement and the Indenture.

“*Calculation Agent Agreement*” means, with respect to any Series of Bonds bearing interest at an Index Rate, such agreement as is entered into by the applicable Calculation Agent and the Issuer with respect to such Series of Bonds providing for the determination of the applicable Index

Rate in accordance with Section 2.09 or Section 2.14, as originally executed or as it may from time to time be supplemented or modified pursuant to the terms thereof and this Indenture, as applicable.

“*Cede*” means Cede & Co., the nominee of DTC, and any successor nominee of DTC with respect to the Bonds pursuant to Section 3.09.

“*Clean Energy Project*” means the Issuer’s purchase of Energy pursuant to the Energy Purchase Agreement and related contractual arrangements and agreements, and the purchase of any Energy to replace Energy not delivered as required pursuant to the Energy Purchase Agreement.

“*Commercial Paper Interest Rate Period*” means, with respect to a Series of Bonds, each period comprised of CP Interest Terms for the Bonds of such Series, during which CP Interest Term Rates are in effect for the Bonds of such Series.

“*Commodity Swap*” means, individually, and “*Commodity Swaps*” means, collectively, (i) ISDA Master Agreement, Schedule and Confirmation between the Issuer and [Commodity Swap Counterparty #1], (ii) ISDA Master Agreement, Schedule and Confirmation between the Issuer and [Commodity Swap Counterparty #2], and (iii) any replacement agreement permitted by Section 2.12(b), each pursuant to which the Issuer will pay to the respective Commodity Swap Counterparty an index based floating price and such Commodity Swap Counterparty will pay to the Issuer a fixed price in relation to the quantities of Energy to be delivered under the Energy Purchase Agreement.

“*Commodity Swap Counterparty*” means, individually, and “*Commodity Swap Counterparties*” means, collectively, (i) [], and its successors and assigns (“[*Commodity Swap Counterparty #1*]”), (ii) [], and its successors and assigns (“[*Commodity Swap Counterparty #2*]”), and (iii) the counterparty to any replacement Commodity Swap that meets the requirements of Section 2.12(b).

“*Commodity Swap Mandatory Termination Event*” has the meaning set forth in Section 2.12(c)(iii).

“*Commodity Swap Payment Fund*” means the Commodity Swap Payment Fund established in Section 5.02.

“*Commodity Swap Payments*” means, as of each scheduled payment date specified in a Commodity Swap, the amount, if any, payable to the Commodity Swap Counterparty thereto by the Issuer (including any such amount paid to the Custodian pursuant to Section 3 of each Issuer Custodial Agreement).

“*Commodity Swap Receipts*” means, as of each scheduled payment date specified in a Commodity Swap, the amount, if any, payable to the Issuer by the Commodity Swap Counterparty thereto.

“*Conversion Date*” means the effective date of a Conversion of a Series of Bonds and shall occur only on a Mandatory Purchase Date.

“*Cost of Acquisition*” means all costs of planning, financing, refinancing, acquiring, transmitting, storing and implementing Clean Energy Project, including:

- (a) the amount of the prepayment required to be made by the Issuer under the Energy Purchase Agreement;

- (b) the amount for deposit into the Capitalized Interest Subaccount of the Debt Service Account for capitalized interest on the Bonds, with such interest being calculated in accordance with the definition of “Debt Service;”

- (c) the costs and expenses incurred in the issuance and sale of the Bonds, including, without limitation, legal, financial advisory, accounting, engineering, consulting, municipal advisory, financing, technical, fiscal agent and underwriting costs, fees and expenses, bond discount, rating agency fees, and all other costs and expenses incurred in connection with the authorization, sale and issuance of the Bonds and preparation of this Indenture;

- (d) all other costs incurred in connection with and properly chargeable to, the acquisition or implementation of the Clean Energy Project;

- (e) the allowance for working capital requirements of the Issuer with respect to the Clean Energy Project in such amounts as shall be deemed reasonably necessary by the Issuer; and

- (f) with respect to any Series of Refunding Bonds, the amounts necessary to purchase, redeem and discharge Bonds being refunded, including the payment of the Purchase Price or the Redemption Price of such Bonds, any necessary deposits to the Debt Service Account, and all other costs and expenses incurred in connection with such Series of Refunding Bonds, including the costs and expenses described in (e) and (f) above.

“*CP Interest Term*” means, with respect to a Commercial Paper Interest Rate Period for a Series of Bonds, each period established in accordance with Section 2.08 during which a CP Interest Term Rate is in effect for the Bonds of such Series.

“*CP Interest Term Rate*” means, with respect to any Bond of a Series of Bonds in the Commercial Paper Interest Rate Period, an interest rate established periodically for each CP Interest Term in accordance with Section 2.08.

“*CP Mandatory Purchase Date*” means (i) each Mandatory Purchase Date and (ii) the day next succeeding the last day of each CP Interest Term.

“*CPI*” means, the non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers (“*CPI*”), published monthly by the Bureau of Labor Statistics of the U.S. Department of Labor (“*BLS*”) and reported on Bloomberg CPURNSA or any successor service (“*Bloomberg CPURNSA*”). If such index is not then reported by such source but the CPI has otherwise been reported by the BLS, the Calculation Agent will determine the CPI as published by the BLS for such Month using a source it deems to be accurate and appropriate.

“*CPI Index Rate Formula*” means (i) the total of CPI for the applicable Reference Month less CPI for the twelfth month prior to the applicable Reference Month, divided by (ii) CPI for the twelfth month prior to the applicable Reference Month, which formula would be expressed mathematically as $((CPI_t - CPI_{t-12}) / CPI_{t-12})$, where:

CPI_t = CPI for the applicable Reference Month; and

CPI_{t-12} = CPI for the twelfth month prior to the applicable Reference Month.

All values used in the CPI Index Rate Formula will be truncated to six decimal places and rounded to the nearest fifth decimal place (one hundred thousandth of a percentage point), rounding upwards if the sixth decimal place is five or greater (e.g., 9.876555% (or .09876555) would be rounded up to 9.87656% (or .0987656) and 9.876554% (or .09876554) would be rounded down to 9.87655% (or .0987655)). All percentages resulting from any calculation of the interest rate will be truncated to four decimal places and rounded to the nearest third decimal place (one thousandth of a percentage point), rounding upwards if the fourth decimal place is five or greater (e.g., 9.8765% (or .098765) would be rounded up to 9.877% (or .09877) and 9.8764% (or .098764) would be rounded down to 9.876% (or .09876)). All dollar amounts used in or resulting from such calculation on Bonds bearing interest at the CPI Index Rate will be rounded to the nearest cent (with one-half cent being rounded upward).

If the sum of (i) the CPI Index Rate Formula and (ii) the Applicable Spread on any CPI Index Rate Reset Date yields a number equal to or less than zero, the interest rate on such CPI Index Rate Bonds shall be 0.00% (zero percent) for the applicable month.

“*CPI Index Rate*” means the interest rate per annum determined by the Calculation Agent equal to the sum of (a) the result of the CPI Interest Rate Formula, plus (b) the Applicable Spread, as set forth in Section 2.14.

“*CPI Index Rate Period*” means, with respect to a Series of Bonds, each period during which a CPI Index Rate is in effect for such Bonds.

“*CPI Index Rate Reset Date*” means, the first Business Day of each calendar month.

“*CPI Interest Period*” means the period from and including a CPI Index Rate Reset Date, to but excluding the next following CPI Index Rate Reset Date.

“*Written Certificate*,” “*Written Direction*,” “*Written Instrument*,” “*Written Notice*,” “*Written Request*” and “*Written Statement*” of the Issuer means in each case an instrument in writing signed on behalf of the Issuer by an Authorized Officer thereof. Any such instrument and any supporting opinions or certificates may, but need not, be combined in a single instrument with any other instrument, opinion or certificate, and the two or more so combined shall be read and construed so as to form a single instrument. Any such instrument may be based, insofar as it relates to legal, accounting or engineering matters, upon the opinion or certificate of counsel, consultants, accountants or engineers, unless the Authorized Officer signing such Written Certificate, Direction, Instrument, Notice, Request or Statement knows, or in the exercise of reasonable care should know, that the opinion or certificate with respect to the matters upon which such Written Certificate, Direction, Instrument, Notice, Request or Statement may be based, as aforesaid, is erroneous. The same Authorized Officer, or the same counsel, consultant, accountant or engineer, as the case may be, need not certify to all of the matters required to be certified under any provision of this Indenture, but different Authorized Officers, counsel, consultants, accountants or engineers may certify to different facts, respectively. Every Written Certificate, Direction, Instrument Notice, Request or Statement of the Issuer, and every certificate or opinion of counsel, consultants, accountants or engineers provided for herein shall include:

(a) a statement that the person making such certificate, direction, instrument, notice, request, statement or opinion has read the pertinent provisions of this Indenture to which such certificate, direction, notice, request, statement or opinion relates;

(b) a brief statement as to the nature and scope of the examination or investigation upon which the certificate, direction, instrument, notice, request, statement or opinion is based;

(c) a statement that, in the opinion of such person, he or she has made such examination or investigation as is necessary to enable him or her to express an informed opinion with respect to the subject matter referred to in the instrument to which his or her signature is affixed; and

(d) with respect to any statement relating to compliance with any provision hereof, a statement whether or not, in the opinion of such person, such provision has been complied with.

Section 1.02. Captions. The captions or headings in this Indenture are for convenience only and in no way define, limit or describe the scope and intent of any provisions of this Indenture.

Section 1.03. Rules of Construction. Except where the context otherwise requires, words of any gender shall include correlative words of the other genders; words importing the singular number shall include the plural number and vice versa; and words importing persons shall include firms, associations, trusts, corporations or governments or agencies or political subdivisions thereof. The term “include” and its derivations are not limiting.

References herein to contracts and agreements include all amendments or supplements thereto made in accordance with the terms thereof, and any reference to a party to any such agreement includes all successors and assigns of such party thereunder permitted by the terms hereof and thereof. References herein to Articles, Sections, Exhibits and Schedules are references to the Articles, Sections, Exhibits and Schedules of and to this Indenture.

Section 1.04. Governing Law. This Indenture shall be governed by and construed in accordance with the laws of the State.

Section 1.05. Consents. Whenever the consent, notice or direction of the Bondholders, the Energy Supplier, the Commodity Swap Counterparties, the Interest Rate Swap Counterparty or the Issuer is required under the terms of this Indenture, such consent, notice or direction, as applicable, shall be evidenced by a written instrument providing for such consent, delivered to the Trustee.

ARTICLE II

AUTHORIZATION AND ISSUANCE OF BONDS

Section 2.01. Authorization of Bonds and Refunding Bonds; Application of Proceeds.

(a) For the purpose of financing the Cost of Acquisition of the Clean Energy Project, the \$[] Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) ([Term Rate]), which shall bear interest during the Initial Interest Rate Period at a Term Rate, and which shall be entitled to the benefit, protection and security of this Indenture are hereby authorized to be issued.

(b) The proceeds of the Series 2025[] Bonds shall be deposited with the Trustee and disbursed, transferred and applied as provided in a Written Request of the Issuer delivered to the Trustee upon the issuance of the Series 2025[] Bonds.

(c) In addition to the Series 2025[] Bonds, there are hereby authorized to be issued by Supplemental Indenture one or more Series of Refunding Bonds for the purpose of refunding any Series of Bonds then Outstanding hereunder, subject to the following conditions:

(i) the Supplemental Indenture providing for issuance of a Series of Refunding Bonds shall set forth (A) the Bonds to be refunded, (B) the Series designation and aggregate principal amount of the Refunding Bonds, (C) the Maturity Dates (which shall be no later than the Final Maturity Date) and any Sinking Fund Installments for the Refunding Bonds, (D) the Scheduled Debt Service Deposits for such Bonds, (E) the initial Interest Rate Period for such Refunding Bonds, and if such Interest Rate Period is to be an

Index Rate Period, the applicable Index or CPI, and the Applicable Spread, and (F) such other terms and provisions concerning the Refunding Bonds as are not inconsistent with this Indenture;

(ii) a Series of Refunding Bonds issued in a Term Rate Period may be sold at a premium;

(iii) the proceeds of a Series of Refunding Bonds (including any sale premium) shall be used exclusively to pay the Cost of Acquisition relating to the Refunding Bonds;

(iv) if such Bonds are Variable Rate Bonds and if such Bonds are to bear interest at a Daily Interest Rate, a Weekly Interest Rate or CP Interest Term Rates, the Issuer shall have appointed a Remarketing Agent for such Bonds and shall have entered into an Interest Rate Swap with respect to such Series of Bonds;

(v) the delivery to the Trustee of an Accountant's Certificate verifying ongoing cash flow sufficiency and Termination Payment sufficiency, *provided that* the Trustee shall have no duty or obligation to review the contents thereof and shall receive such Accountant's Certificate solely as a repository on behalf of Bondholders;

(vi) the delivery to the Trustee of the requests, opinions and documents required by Section 2.03(c); and

(vii) the receipt by the Trustee of a Rating Confirmation with respect to any Bonds Outstanding prior to the issuance of such Refunding Bonds that will remain Outstanding after the issuance thereof.

(d) No bonds, other than the Bonds and any Refunding Bonds, may be issued pursuant to this Indenture.

Section 2.02. Terms of Series 2025[] Bonds; Payment. (a) The Series 2025[] Bonds shall be dated as of the date of the initial authentication and delivery thereof, shall bear interest from such date, payable on each Interest Payment Date, and shall be subject to redemption as provided in Article IV. The principal and Redemption Price of and interest on the Series 2025[] Bonds shall be payable by the Trustee at its designated corporate trust office and such banking institution is hereby appointed Paying Agent and Bond Registrar for the Bonds; *provided that* interest on the Bonds may be paid, at the option of the Issuer, by check payable to the order of the Person entitled thereto, and mailed by first-class mail, postage prepaid, to the address of such Person as shall appear on the books of the Bond Registrar as of the close of business on the Regular Record Date for such Interest Payment Date, whether or not such Regular Record Date is a Business Day, which books the Bond Registrar shall keep for such purposes at its designated corporate trust office. Upon the written request of any Owner of one million dollars (\$1,000,000) or more in aggregate principal amount of Bonds received by the Trustee prior to the applicable Regular Record Date (which request shall remain in effect until rescinded in writing by such Owner), interest shall be paid on each Interest Payment Date by wire transfer of immediately available funds to an account maintained in any bank or trust company in the United States of America that is a member of the Federal Reserve System designated in writing by such Owner. The principal and Redemption Price of and interest on all Bonds shall also be payable at any other

place which may be provided for such payment by the appointment of any other Paying Agent or Paying Agents as permitted by this Indenture. The Issuer shall provide Written Notice to the Trustee of the appointment of any additional Paying Agent.

(b) The Series 2025[] Bonds shall mature on the Maturity Dates in the principal amounts, subject to Sinking Fund Installments as set forth in Section 4.02. The Initial Interest Rate Period for the Series 2025[] Bonds shall be a Term Rate Period, and the Series 2025[] Bonds shall bear interest during such Interest Rate Period at the rates set forth below:

SERIES 2025[] BONDS

(c) If a Ledger Event occurs and Morgan Stanley Capital Group Inc. makes the Ledger Event Payments (which the Trustee shall deposit directly into the Debt Service Account), the Series 2025[] Bonds shall bear interest at the Increased Interest Rate during an Increased Interest Rate Period that begins on the day on which such Ledger Event occurs. If the Increased Interest Rate Period ends due to the failure of Morgan Stanley Capital Group Inc. to pay the Ledger Event Payments, then the Series 2025[] Bonds shall bear interest at the rate(s) shown in the table above from and including the Interest Payment Date immediately succeeding the last date on which Morgan Stanley Capital Group Inc. paid the Ledger Event Payments until the earlier of their stated maturity, the Initial Mandatory Purchase Date or any prior redemption date with respect to the Series 2025[] Bonds. The Issuer shall give prompt Written Notice to the Trustee of (i) the occurrence and date of a Ledger Event (which shall be the first day of the related Increased Interest Rate Period), and (ii) the occurrence and date of any Acceleration Event (which shall be the last day of the related Increased Interest Rate Period). All references herein and in the Series 2025[] Bonds to “interest” on the Series 2025[] Bonds during the Initial Interest Rate Period, including all provisions relating to the accrual, computation and payment of interest, shall include interest at the Increased Interest Rate during any Increased Interest Rate Period.

(d) Interest on the Series 2025[] Bonds shall be payable to the date on which such Bonds shall have been paid in full. Interest on the Series 2025[] Bonds shall be computed on the basis of a 360-day year consisting of twelve 30-day months. Interest on the Series 2025[] Bonds shall be payable on each Interest Payment Date for the period commencing on the immediately preceding Interest Accrual Date for such period and ending on the day immediately preceding such

Interest Payment Date. The first Interest Payment Date for the Series 2025[] Bonds is [] 1, 20[].

(e) The initial interest rates for the Bonds of each Series and the determination for such Bonds of the Daily Interest Rate, the Weekly Interest Rate, the Index Rate or the Term Rate and each CP Interest Term and CP Interest Term Rate by the applicable Calculation Agent or Remarketing Agent for such Bonds, as the case may be, and shall be conclusive and binding upon the Issuer, the Trustee, the Remarketing Agent and the Owners of the Bonds.

(f) In connection with any Term Rate Conversion Date of a Series of Bonds, the Sinking Fund Installments, if any, established for such Series pursuant to the applicable Supplemental Indenture may be re-designated as Maturity Dates and Sinking Fund Installments for such Bonds on the Term Rate Conversion Date for such Bonds as provided for in the applicable Supplemental Indenture.

Section 2.03. Conditions for Issuance of Bonds. The Bonds of each Series shall be executed by the Issuer and delivered to the Trustee and thereupon shall be authenticated by the Trustee and delivered upon the Written Direction of the Issuer, but only upon the receipt by the Trustee of:

(a) A copy, certified by an Authorized Officer, of a resolution and/or evidence of any other official actions taken by the Issuer that authorize the execution and delivery of the Bonds of such Series, together with a Written Request as to the authentication and delivery of the Bonds of such Series, signed by an Authorized Officer;

(b) An Opinion or Opinions of Counsel to the effect that (i) the Issuer has the right and power to authorize and enter into this Indenture, the Power Supply Contracts, the Energy Purchase Agreement, the Commodity Swaps and any Interest Rate Swap, and (ii) the Power Supply Contracts, the Energy Purchase Agreement, the Commodity Swaps and any Interest Rate Swap have been duly and lawfully authorized, executed and delivered by the Issuer and (assuming due authorization, execution and delivery by, and validity and binding effect upon, the other parties thereto) are valid and binding obligations of the Issuer, and no other authorization for the Power Supply Contracts, the Energy Purchase Agreement, the Commodity Swaps or any Interest Rate Swap is required; *provided*, that such Opinion(s) of Counsel may take customary exceptions, including as to the effect of, or for restrictions or limitations imposed by or resulting from, bankruptcy, insolvency, receivership, debt adjustment, moratorium, reorganization, arrangement, fraudulent conveyance or other similar laws relating to or affecting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion, limitations on legal remedies against public entities in the State, and the valid exercise of the sovereign police powers of the State and of the constitutional power of the United States of America and may state that no opinion is being rendered as to the availability of any particular remedy;

(c) An Opinion of Bond Counsel to the effect that (i) the Bonds of such Series constitute the valid and binding limited obligations of the Issuer; (ii) this Indenture has been duly executed and delivered by, and constitutes the valid and binding obligation of, the Issuer; and (iii) this Indenture creates a valid pledge to secure the payment of principal of and interest on the Bonds, of the Trust Estate, subject to the provisions of this Indenture permitting the application

thereof for the purposes and on the terms and conditions set forth in this Indenture; provided, that such Opinion of Bond Counsel may take customary exceptions, including as to the effect of, or for restrictions or limitations imposed by or resulting from, bankruptcy, insolvency, receivership, debt adjustment, moratorium reorganization, arrangement, fraudulent conveyance, or other similar laws relating to or affecting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion, limitations on legal remedies against public entities in the State, and the valid exercise of the sovereign police powers of the State, and may state that no opinion is being rendered as to the availability of any particular remedy under the financing documents;

(d) An opinion of Special Tax Counsel to the effect that, if applicable, interest on the Bonds of such Series is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code and is exempt from State of California personal income taxes (it being agreed that if Special Tax Counsel also serves as Bond Counsel, the opinion described in this clause (d) may be consolidated with the Opinion of Bond Counsel described in the preceding clause (c));

(e) Executed or certified copy of each Power Supply Contract with each of the Project Participants specified on Schedule I;

(f) An opinion of counsel to each of the initial Project Participants to the effect that the applicable Power Supply Contract between such Project Participant and the Issuer has been duly authorized, executed and delivered by such Project Participant, is the valid and binding obligation of such Project Participant and is enforceable in accordance with its terms, subject to customary assumptions and exceptions with respect to enforceability and such additional exceptions as may be agreed to by the Issuer and the Underwriter;

(g) A rating on the Bonds from at least one Rating Agency.

Section 2.04. Initial Interest Rate Period; Subsequent Interest Rate Periods. (a) The Series 2025[] Bonds shall be initially issued in the Interest Rate Period set forth in Section 2.02(b). Upon the purchase of the Series 2025[] Bonds on a Mandatory Purchase Date, the Interest Rate Period for each Series of the Series 2025[] Bonds may be converted to a Daily Interest Rate Period, a Weekly Interest Rate Period, a Commercial Paper Interest Rate Period, an Index Rate Period, a Term Rate Period or a combination thereof, as provided in this Article II. In the event that two or more Interest Rate Periods are so established, the Series 2025[] Bonds shall, by Supplemental Indenture, be divided into separate Series or sub-Series corresponding to such Interest Rate Periods.

(b) In the manner hereinafter provided, the term of each Series of Bonds will be divided into consecutive Interest Rate Periods during each of which such Bonds shall bear interest at the Daily Interest Rate, the Weekly Interest Rate, CP Interest Term Rates, Term Rates or an Index Rate; *provided, however*, that the Interest Rate Period shall be the same for all Bonds of a Series, and, notwithstanding anything herein to the contrary, no Bond shall bear interest in excess of the Maximum Rate. The initial Interest Rate Period for any Series of Bonds (other than the Initial Interest Rate Period for the Series 2025[] Bonds) shall be established pursuant to the related Supplemental Indenture.

Section 2.05. Daily Interest Rate Period.

(a) *Determination of Daily Interest Rates.* During each Daily Interest Rate Period for a Series of Bonds, the Bonds of such Series shall bear interest at the Daily Interest Rate, which shall be determined by the Remarketing Agent on or before 11:00 a.m., New York City time, on each Business Day for such Business Day. The Remarketing Agent will advise the Trustee by Electronic Means of the final Daily Interest Rate by 12:00 noon, New York City time, on the day such rate is determined. The Daily Interest Rate shall be the rate of interest per annum determined by the Remarketing Agent to be the minimum interest rate which, if borne by the Bonds of the applicable Series, would enable the Remarketing Agent to sell the Bonds of such Series on that Business Day at a price (without regard to accrued interest) equal to 100% of the principal amount thereof. With respect to any day that is not a Business Day, the Daily Interest Rate for that day shall be the same Daily Interest Rate established for the immediately preceding Business Day. In the event the Remarketing Agent fails to establish a Daily Interest Rate for any Business Day, then the Daily Interest Rate for that Business Day shall be the Daily Interest Rate for the immediately preceding Business Day if the Daily Interest Rate for the immediately preceding Business Day was established by the Remarketing Agent. Subject to the provisions of Section 2.10(d), in the event that the Daily Interest Rate for the immediately preceding Business Day was not determined by the Remarketing Agent, or in the event that the Daily Interest Rate determined by the Remarketing Agent shall be held to be invalid or unenforceable by a court of law, then the Daily Interest Rate shall be deemed to be equal to the SIFMA Index on the Business Day such Daily Interest Rate would otherwise be determined as provided herein for such Daily Interest Rate Period.

(b) *Conversion to Daily Interest Rate Period.* Subject to Section 2.10, at any time the Issuer, in a Written Direction of the Issuer delivered to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at a Daily Interest Rate. Such direction of the Issuer shall specify the proposed effective date of such Conversion to a Daily Interest Rate Period, which shall be a Business Day not earlier than the 30th day following the second Business Day after receipt by the Trustee of the Written Direction of the Issuer, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture. In addition, such direction shall be accompanied by a form of notice required by Section 2.05(c) and the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the effective date of the Conversion to the Daily Interest Rate Period. Upon the Conversion of any Series of Bonds to the Daily Interest Rate Period and until the day immediately preceding the effective date of the next succeeding Interest Rate Period under the terms of this Indenture, the interest rate borne by such Series of Bonds shall be a Daily Interest Rate as provided in Section 2.05(a).

(c) *Notice of Conversion to Daily Interest Rate Period.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Daily Interest Rate Period as provided in Section 2.05(b), the Trustee shall give notice by first class mail of the Conversion of such Bonds to bear interest in a Daily Interest Rate Period to the Owners of such Bonds not less than 30 days prior to the proposed effective date of such Daily Interest Rate Period. Such notice shall be in the form provided to the Trustee pursuant to 2.05(b) to state: (i) that the

Interest Rate Period for such Bonds will be converted to a Daily Interest Rate Period unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Daily Interest Rate Period as provided in Section 2.10(b) or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the applicable Conversion Date; (ii) the proposed Conversion Date to the Daily Interest Rate Period; (iii) that the Bonds of such Series are subject to mandatory tender for purchase on the proposed Conversion Date unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Daily Interest Rate Period as provided in Section 2.10(b); and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

Section 2.06. Weekly Interest Rate Period.

(a) *Determination of Weekly Interest Rates.* The Weekly Interest Rate for the initial Weekly Interest Rate Period following the issuance of a Series of Bonds bearing interest in a Weekly Interest Rate Period or Conversion of a Series of Bonds to a Weekly Interest Rate Period shall be determined on or prior to the first day of such Weekly Interest Rate Period and shall apply to the period commencing on the first day of such Weekly Interest Rate Period and ending on the succeeding Wednesday (whether or not a Business Day). Thereafter, during each Weekly Interest Rate Period for a Series of Bonds, the Bonds of such Series shall bear interest at the Weekly Interest Rate, which shall be determined by the Remarketing Agent by no later than 5:00 p.m., New York City time, on Wednesday of each week during such Weekly Interest Rate Period, or if such day shall not be a Business Day, then on the next succeeding Business Day. Each Weekly Interest Rate so determined shall apply to the period commencing on Thursday (whether or not a Business Day) and ending on the next succeeding Wednesday (whether or not a Business Day), unless such Weekly Interest Rate Period shall end on a day other than Wednesday, in which event the last Weekly Interest Rate for such Weekly Interest Rate Period shall apply to the period commencing on Thursday (whether or not a Business Day) and ending on the last day of such Weekly Interest Rate Period. The Weekly Interest Rate shall be the rate of interest per annum determined by the Remarketing Agent to be the minimum interest rate which, if borne by the Bonds of the applicable Series, would enable the Remarketing Agent to sell the Bonds of such Series on the effective date of such rate at a price (without regard to accrued interest) equal to 100% of the principal amount thereof. In the event that the Remarketing Agent fails to establish a Weekly Interest Rate for any week, then the Weekly Interest Rate for such week shall be the same as the Weekly Interest Rate for the immediately preceding week if the Weekly Interest Rate for such preceding week was determined by the Remarketing Agent. Subject to the provisions of Section 2.10(d), in the event that the Weekly Interest Rate for the immediately preceding week was not determined by the Remarketing Agent, or in the event that the Weekly Interest Rate determined by the Remarketing Agent shall be held to be invalid or unenforceable by a court of law, then the interest rate for such week shall be equal to the SIFMA Index on the day such Weekly Interest Rate would otherwise be determined as provided herein for such Weekly Interest Rate Period.

(b) *Conversion to Weekly Interest Rate Period.* Subject to Section 2.10, at any time, the Issuer, in a Written Direction of the Issuer delivered to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at a Weekly Interest Rate. Such direction of the Issuer shall specify the proposed effective date of such Conversion to a Weekly Interest Rate Period, which shall be a Business Day not earlier than the later of (a) the 30th day

following the second Business Day after receipt by the Trustee of such Written Direction of the Issuer, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture. In addition, such direction shall be accompanied by a form of notice required by Section 2.06(c) and the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the effective date of the Conversion to the Weekly Interest Rate Period. Upon Conversion of any Series of Bonds to the Weekly Interest Rate Period and until the day immediately preceding the effective date of the next succeeding Interest Rate Period under the terms of this Indenture, the interest rate borne by such Series of Bonds shall be a Weekly Interest Rate as provided in Section 2.06(a).

(c) *Notice of Conversion to Weekly Interest Rate.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Weekly Interest Rate Period as provided in Section 2.06(b), the Trustee shall give notice by first class mail of the Conversion of such Bonds to bear interest in a Weekly Interest Rate Period to the Owners of such Bonds not less than 30 days prior to the proposed effective date of such Weekly Interest Rate Period. Such notice shall be in the form provided to the Trustee pursuant to 2.06(b) to state: (i) that the Interest Rate Period on such Bonds will be converted to a Weekly Interest Rate unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Daily Interest Rate Period as provided in Section 2.10(b) or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the applicable Conversion Date; (ii) the proposed Conversion Date to the Weekly Interest Rate Period; and (iii) that the Bonds of such Series are subject to mandatory tender for purchase on the proposed Conversion Date unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Weekly Interest Rate Period as provided in Section 2.10(b); and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

Section 2.07. Term Rate Period.

(a) *Determination of Term Rates.* For each Term Rate Period for a Series of Bonds, (i) the Issuer may by Written Notice to the Trustee delivered in connection with a Term Rate Conversion Date establish one or more Maturity Dates for the Bonds of such Series and Sinking Fund Installments for any maturities of the Bonds of such Series, and (ii) each maturity of the Bonds of such Series shall bear interest at a Term Rate; provided that the Term Rate, Maturity Dates and Sinking Fund Installments for each maturity of Bonds of any Series upon initial issuance of such Bonds, if any, shall be specified in this Indenture or a Supplemental Indenture providing for the issuance of such Series of Bonds. The Term Rate for each maturity of Bonds of a Series bearing interest in the Term Rate Period shall be determined by the Underwriter or the Remarketing Agent, as applicable, on a Business Day no later than the Issue Date or the Term Rate Conversion Date for such Series of Bonds, as applicable. Subject to the provisions of Section 2.07(d), each Term Rate shall be the rate of interest per annum determined by the Underwriter or the Remarketing Agent, as applicable, to be the minimum interest rate which, if borne by the Bonds of the applicable Series and maturity, would enable the Underwriter or the Remarketing Agent, as the case may be, to sell such Bonds and maturity on such date at a price (without regard to accrued interest) equal to 100% of the principal amount thereof. If, for any reason, with respect to any Series of Bonds being converted to a Term Rate Period, the Term Rate

for such Term Rate Period is not determined by the Remarketing Agent on or prior to the first day of such Term Rate Period, then the Interest Rate Period for the Bonds of the applicable Series shall be a Weekly Interest Rate Period and such Weekly Interest Rate Period shall continue until such time as the Interest Rate Period for such Series of Bonds shall have been converted to a Daily Interest Rate Period, a Commercial Paper Interest Rate Period, a Term Rate Period or an Index Rate Period as provided herein.

(b) *Conversion to or Continuation of Term Rate Period.* Subject to Section 2.10, at any time, the Issuer, in a Written Direction of the Issuer delivered to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at Term Rates. Such direction of the Issuer shall specify (i) the proposed effective date of the Term Rate Period, which date shall be a Business Day not earlier than the 30th day following receipt by the Trustee of such Written Direction of the Issuer, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture; (ii) the last day of such Term Rate Period, which day shall be either the day immediately prior to the Final Maturity Date for the applicable Series of Bonds, or a day which both immediately precedes a Business Day and is at least one hundred eighty one (181) days after the effective date of the Term Rate Period; and (iii) with respect to any such Term Rate Period, may specify redemption prices and periods different than those set forth in this Indenture or the applicable Supplemental Indenture providing for the issuance of such Series of Bonds, subject to the Favorable Opinion of Bond Counsel as provided in Section 2.07(b)(iii). In addition, such direction shall be accompanied by the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the Term Rate Conversion Date and by a form of the notice to be mailed by the Trustee as provided in Section 2.07(c). Upon Conversion of any Series of Bonds to the Term Rate Period and until the day immediately preceding the effective date of the next succeeding Interest Rate Period under the terms of this Indenture, the interest rate or rates borne by such Series of Bonds shall be Term Rates as provided in Section 2.07(a). The day following the last day of any Term Rate Period for a Series of Bonds shall be a Term Rate Tender Date for such Series of Bonds. After the Final Fixed Rate Conversion Date for a Series of Bonds, the Bonds of such Series shall no longer be subject to or have the benefit of the provisions of Section 4.11 through Section 4.22.

(c) *Notice of Conversion to or Continuation of Term Rate.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Term Rate Period as provided in Section 2.07(b), the Trustee shall give notice by first-class mail of the Conversion of such Bonds to bear interest in a (or the establishment of another) Term Rate Period for a Series of Bonds to the Owners of the Bonds of such Series not less than thirty (30) days prior to the proposed effective date of such Term Rate Period. Such notice shall be in the form provided to the Trustee pursuant to Section 2.07(b) to state: (i) that the Interest Rate Period for such Bonds shall be converted to, or continue to be, a Term Rate Period unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Term Rate Period as provided in Section 2.10(b) or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the Term Rate Conversion Date; (ii) that such Bonds are subject to mandatory tender for purchase on the Term Rate Conversion Date and setting forth the applicable Purchase Price and the place of delivery for purchase of such Bonds; (iii) that the Bonds of such Series are subject to mandatory tender for purchase on the proposed Conversion Date

unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Term Rate Period as provided in Section 2.10(b); and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

(d) *Sale at Premium or Discount.* Notwithstanding the provisions of Section 2.07(a), the Term Rate for each maturity of any Series of Bonds as initially issued, or the Term Rate for each maturity of any other Series of Bonds upon Conversion to a Term Rate Period, shall be the rate of interest per annum determined by the Underwriter or the Remarketing Agent, as applicable, to be the interest rate which, if borne by the Bonds of such Series and maturity, would enable the Underwriter or the Remarketing Agent, as applicable, to sell the Bonds of such Series and maturity at a price (without regard to accrued interest) which will result in the lowest net interest cost for the Bonds of such Series and maturity, after taking into account any premium or discount at which the Bonds of such Series and maturity are sold by the Underwriter or the Remarketing Agent, as applicable, *provided that*:

(i) The Underwriter or the Remarketing Agent, as applicable, certifies in writing to the Trustee and the Issuer that the sale of the Bonds of such Series at the interest rate and premium or discount specified by the Underwriter or the Remarketing Agent, as applicable, is expected to result in the lowest net interest cost for such Bonds;

(ii) The Issuer consents in writing to the sale of the Bonds of such Series at such premium or discount;

(iii) In the case of the Bonds of such Series to be sold at a premium, the Underwriter or the Remarketing Agent, as applicable, shall transfer the amount of such premium to the Trustee for deposit into such Funds and Accounts as shall be specified in a Written Direction of the Issuer;

(iv) On or before the date of determination of the Term Rates for the Bonds of such Series, the Issuer delivers to the Trustee and the Remarketing Agent a form of a Favorable Opinion of Bond Counsel proposed to be delivered on the Term Rate Conversion Date; and

(v) On or before the Conversion Date, a Favorable Opinion of Bond Counsel shall have been delivered to the Trustee.

Section 2.08. Commercial Paper Interest Rate Periods.

(a) *Determination of CP Interest Terms and CP Interest Term Rates.* During each Commercial Paper Interest Rate Period for a Series of Bonds, each Bond of such Series shall bear interest during each CP Interest Term for such Bond at the CP Interest Term Rate for such Bond. The CP Interest Term and the CP Interest Term Rate for each Bond need not be the same for any two Bonds of such Series, even if determined on the same date. Each of such CP Interest Terms and CP Interest Term Rates for each Bond shall be determined by the Remarketing Agent no later than the first day of each CP Interest Term. Each CP Interest Term shall be for a period of days within the range or ranges announced as possible CP Interest Terms no later than 9:30 a.m., New York City time, on the first day of each CP Interest Term by the Remarketing Agent. Each CP Interest Term for each Bond of the applicable Series shall be a period of not more than two hundred

seventy (270) days, determined by the Remarketing Agent to be the period which, together with all other CP Interest Terms for all Bonds of the applicable Series then Outstanding, will result in the lowest overall interest expense on such Bonds over the next succeeding two hundred seventy (270) days. Each CP Interest Term shall end on either a day which immediately precedes a Business Day or on the day immediately preceding the Final Maturity Date for the applicable Series of Bonds. If, for any reason, a CP Interest Term for any Bond cannot be so determined by the Remarketing Agent, or if the determination of such CP Interest Term is held by a court of law to be invalid or unenforceable, then such CP Interest Term shall be thirty (30) days, but if the last day so determined shall not be a day immediately preceding a Business Day, such CP Interest Term shall end on the first day immediately preceding the Business Day next succeeding such last day, or if such last day would be after the day immediately preceding the Final Maturity Date for the applicable Series of Bonds, shall end on the day immediately preceding such Final Maturity Date. In determining the number of days in each CP Interest Term, the Remarketing Agent shall take into account the following factors: (i) existing short-term, tax-exempt market rates and indices of such short-term rates; (ii) the existing market supply and demand for short-term tax-exempt securities; (iii) existing yield curves for short-term and long-term tax-exempt securities for obligations of credit quality comparable to the Bonds of the applicable Series; (iv) general economic conditions; (v) industry economic and financial conditions that may affect or be relevant to the Bonds of the applicable Series; (vi) the CP Interest Terms of other Bonds of the applicable Series; and (vii) such other facts, circumstances and conditions pertaining to financial markets as the Remarketing Agent, in its sole discretion, shall determine to be relevant.

The CP Interest Term Rate for each CP Interest Term for each Bond in a Commercial Paper Interest Rate Period shall be the rate of interest per annum determined by the Remarketing Agent to be the minimum interest rate which, if borne by such Bond, would enable the Remarketing Agent to sell such Bond on the effective date of such rate at a price equal to the principal amount thereof. Subject to the provisions of Section 2.10(d), if, for any reason, a CP Interest Term Rate for any Bond in a Commercial Paper Interest Rate Period is not so established by the Remarketing Agent for any CP Interest Term, or if such CP Interest Term Rate is determined by a court of law to be invalid or unenforceable, then the CP Interest Term Rate for such CP Interest Term shall be a rate per annum equal to the SIFMA Index on the first day of such CP Interest Term.

(b) *Conversion to Commercial Paper Interest Rate Period.* Subject to Section 2.10, at any time, the Issuer, in a Written Direction of the Issuer to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at CP Interest Term Rates. Such Written Direction of the Issuer shall specify (i) the proposed effective date of the Commercial Paper Interest Rate Period, which shall be a Business Day not earlier than the thirtieth (30th) day following the second Business Day after receipt by the Trustee of such direction, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture. In addition, the Written Direction of the Issuer shall be accompanied by the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the effective date of the Conversion to the Commercial Paper Interest Rate Period and a form of the notice to be mailed by the Trustee pursuant to Section 2.08(c). Upon Conversion of any Series of Bonds to the Commercial Paper Interest Rate Period and until the day immediately preceding the effective date of the next succeeding Interest Rate Period under the

terms of this Indenture, each Bond of such Series shall bear interest at a CP Interest Term Rate applicable to the CP Interest Term then in effect for such Bond, which may differ from the CP Interest Term Rate and CP Interest Term applicable to other Bonds of such Series.

(c) *Notice of Conversion to CP Interest Term Rates.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Commercial Paper Interest Rate Period as provided in Section 2.08(b), the Trustee shall give notice by first class mail of the Conversion of such Bonds to bear interest in a Commercial Paper Interest Rate Period to the Owners of the Bonds of the applicable Series not less than thirty (30) days prior to the proposed effective date of such Commercial Paper Interest Rate Period. Such notice shall be in the form provided to the Trustee pursuant to Section 2.08(b) to state: (i) that such Bonds shall bear interest at CP Interest Term Rates unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Commercial Paper Interest Rate Period as provided in Section 2.10(b) or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the applicable Conversion Date; (ii) the proposed Conversion Date to the Commercial Paper Interest Rate Period; and (iii) that Bonds of such Bonds are subject to mandatory tender for purchase on such proposed Conversion Date unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Commercial Paper Interest Rate Period as provided in Section 2.10(b); and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

(d) *Conversion From Commercial Paper Interest Rate Period.* Subject to Section 2.10(b), at any time during a Commercial Paper Interest Rate Period for a Series of Bonds, the Issuer may elect, pursuant to Section 2.05(b), Section 2.06(b), Section 2.07(b) or Section 2.09(c), that such Bonds no longer shall bear interest at CP Interest Term Rates and shall instead bear interest at a Daily Interest Rate, a Weekly Interest Rate, a Term Rate or an Index Rate, as specified in such election. In connection with any such election, and notwithstanding any provision contained in this Section 2.08 to the contrary, each CP Interest Term established by the Remarketing Agent for the Bonds shall end on the same date in order to facilitate the Conversion of such Bonds. The date on which all CP Interest Terms determined for the Bonds end shall be the last day of the then current Commercial Paper Interest Rate Period and the day next succeeding such date shall be the effective date of the Daily Interest Rate Period, Weekly Interest Rate Period, Term Rate Period or Index Rate Period elected by the Issuer for such Bonds.

Section 2.09. Index Rate Periods.

(a) *Determination of Applicable Spread and Applicable Factor.* In connection with the issuance of a Series of Bonds bearing interest in an Index Rate Period, the Applicable Spread and any Applicable Factor applicable to such Series of Bonds for the duration of the initial Index Rate Period for such Series of Bonds shall be specified in this Indenture or in the Supplemental Indenture providing for the issuance of such Series of Bonds. In connection with the Conversion of the Interest Rate Period for a Series of Bonds to an Index Rate Period, the Remarketing Agent shall determine the Applicable Spread and any Applicable Factor applicable to such Bonds for the duration of the applicable Index Rate Period, and shall specify such Applicable Spread and any Applicable Factor selected by the Issuer in the Index Rate Determination Certificate for the applicable Index Rate Period. The Applicable Spread and any Applicable Factor shall be such amount as shall result in the minimum Index Rate (as a rate of interest per annum) which, if borne

by the Bonds of the applicable Series as of the first day of the applicable Index Rate Period, under Prevailing Market Conditions, would enable the Underwriter or the Remarketing Agent, as applicable, to sell the Bonds on the first day of the applicable Index Rate Period at a price (without regard to accrued interest) equal to 100% of the principal amount thereof.

(b) *Determination of Index Rate.*

(i) During each Index Rate Period for a Series of Bonds, such Bonds shall bear interest at an Index Rate, as specified in the applicable Index Rate Determination Certificate delivered to the Trustee on the first day of such Interest Rate Period. One Business Day prior to the Conversion Date of a Series of Bonds to a SOFR Index Rate, the SOFR Index Rate shall be calculated by the Calculation Agent and shall be in effect from and including the Conversion Date to (but not including) the first Index Rate Reset Date.

(ii) With respect to each SIFMA Index Rate Period, (A) the Calculation Agent shall determine the SIFMA Index by 4:00 p.m., New York City time, on each Wednesday or, if such Wednesday is not a Business Day, the Business Day immediately succeeding such Wednesday, and (B) the SIFMA Index Rate shall be determined by the Calculation Agent at or before 12:00 noon, New York City time, on each Index Rate Reset Date.

(iii) With respect to each SOFR Index Rate Period, the Calculation Agent shall (A) determine and provide to the Trustee by Electronic Means the SOFR Index by 4:00 p.m., New York City time, on each SOFR Publish Date, and (B) determine and provide to the Trustee by Electronic Means the SOFR Index Rate by 12:00 noon, New York City time, on each SOFR Effective Date.

(iv) During any Index Rate Period, interest shall be computed on the basis of a 365 or 366-day year and actual days elapsed. The Calculation Agent shall calculate and provide by Electronic Means to the Issuer and the Trustee the amount of interest due and payable on each Series of Bonds bearing interest at an Index (A) with respect to a Series of Bonds bearing interest at the SIFMA Index Rate, on or prior to each Interest Payment Date, and (B) with respect to a Series of Bonds bearing interest at the SOFR Index Rate, on each Interest Payment Date, which in case of a Series of Bonds bearing interest at the SOFR Index Rate shall be the SOFR Interest Calculation Date. The amount of interest due on a Series of Bonds bearing interest at the SIFMA Index Rate on any Interest Payment Date shall be calculated on the basis of the actual number of days in the calendar month immediately preceding such Interest Payment Date. The amount of interest due on a Series of Bonds bearing interest at the SOFR Index Rate on any Interest Payment Date shall be calculated on the basis of the actual number of days in the SOFR Accrual Period immediately preceding such Interest Payment Date. All percentages resulting from any step in the calculation of interest on a Series of Bonds while in an Index Rate Period will be rounded, if necessary, to the nearest one millionth of a percentage point (*i.e.*, to six decimal places, with 0.0000005 rounded upward to 0.000001), and all dollar amounts used in or resulting from such calculation of interest on such Bonds while in an Index Rate Period will be rounded to the nearest cent (with one-half cent being rounded upward).

(v) In determining the interest rate that any Bond shall bear as provided in this Section 2.09, neither the Underwriter nor the Remarketing Agent, as applicable, the Calculation Agent, nor the Trustee shall have any liability to the Issuer or the Holder of such Bond, except for its own negligence or willful misconduct.

(vi) If, during any Index Rate Period, the Index or rate used to determine an Index Rate is not reported by the relevant source at the time necessary for determination of such Index Rate or otherwise ceases to be available, the Issuer or its independent financial advisor (as applicable) shall determine a replacement or substitute Index Rate (as applicable), including any alternative rate and any adjustments, and promptly provide the same via Electronic Means to the Calculation Agent and the Trustee, together with the effective date of the substitute or replacement Index Rate, which substitute or replacement must be consistent with any corresponding substitute or replacement index designated pursuant to the relevant Interest Rate Swap.

(c) *Conversion to or Continuation of Index Rate Period.* Subject to Section 2.10, at any time, the Issuer, in a Written Direction of the Issuer delivered to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at an Index Rate. Such direction of the Issuer shall specify the proposed effective date of the Index Rate Period, which date shall be a Business Day not earlier than the 30th day following the second Business Day after receipt by the Trustee of the Written Direction of the Issuer, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture, with such right to be exercised by delivery of an Index Rate Continuation Notice; (ii) the last day of such Index Rate Period, which day shall be either the day immediately prior to the Final Maturity Date for the applicable Series of Bonds, or a day which immediately precedes a Business Day. In addition, such direction of the Issuer shall be accompanied by the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the Conversion Date and a form of the notice to be mailed by the Trustee pursuant to Section 2.09(d).

(d) *Notice of Conversion to or Continuation of Index Rate.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Index Rate Period as provided in Section 2.09(b), the Trustee shall give notice by first-class mail of the Conversion of such Bonds to bear interest in a (or the establishment of another) Index Rate Period for a Series of Bonds to the Owners of the Bonds of such Series not less than thirty (30) days prior to the proposed effective date of such Index Rate Period. Such notice shall be in the form provided to the Trustee pursuant to Section 2.09(c) to state: (i) that the Interest Rate Period for such Bonds shall be converted to, or continue to be, an Index Rate Period unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to an Index Rate Period as provided in Section 2.10(b) or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the Index Rate Conversion Date; (ii) that such Bonds are subject to mandatory tender for purchase on the Index Rate Conversion Date and setting forth the applicable Purchase Price and the place of delivery for purchase of such Bonds; and (iii) that the Bonds of such Series are subject to mandatory tender for purchase on the proposed Conversion Date unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such

Series to an Index Rate Period as provided in Section 2.10(b); and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

Section 2.10. Notice of Conversion. (a) In the event that the Issuer shall elect to convert the Interest Rate Period for a Series of Bonds to a Daily Interest Rate Period, a Weekly Interest Rate Period, a Term Rate Period, an Index Rate Period or a Commercial Paper Interest Rate Period as provided in this Article II, then the Written Direction of the Issuer required to be delivered to the Trustee by the applicable provision of this Article II shall be given by registered or certified mail, or by Electronic Means.

(b) Notwithstanding anything in this Article II, in connection with any Conversion of the Interest Rate Period for a Series of Bonds, the Issuer shall have the right to deliver to the Trustee and the Remarketing Agent (if any), on or prior to 10:00 a.m., New York City time, on the third Business Day preceding the effective date of any such Conversion a Written Direction of the Issuer to the effect that the Issuer elects to rescind its election to make such Conversion. If the Issuer rescinds its election to make such Conversion, then the Interest Rate Period shall not be converted and the Bonds of the applicable Series shall continue to bear interest in the Daily Interest Rate Period, Weekly Interest Rate Period, Term Rate Period, Commercial Paper Interest Rate Period or Index Rate Period, as the case may be, as in effect immediately prior to such proposed Conversion, and the Term Rate Tender Date or Index Rate Tender Date, if applicable, for any such Series of Bonds shall also remain unchanged from that in effect immediately prior to such proposed Conversion.

(c) No Conversion of a Series of Bonds from one Interest Rate Period to another, and no continuation or establishment of a new Term Rate Period or Index Rate Period, shall take effect under this Indenture unless each of the following conditions, to the extent applicable, shall have been satisfied:

(i) the Trustee shall have received a Favorable Opinion of Bond Counsel with respect to such Conversion;

(ii) with respect to any Series of Bonds bearing interest at an Index Rate or a Term Rate, no Conversion may occur with respect to such Bonds earlier than (A) the Business Day following the last day of the applicable Interest Rate Period or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to Section 4.03(b) or an applicable Supplemental Indenture;

(iii) in the case of any Conversion of the Interest Rate Period for a Series of Bonds to a Daily Interest Rate Period, a Weekly Interest Rate Period or a Commercial Paper Interest Rate Period, prior to the Conversion Date the Issuer shall have appointed a Remarketing Agent and shall have executed and delivered a Remarketing Agreement with respect to such Series of Bonds, and shall have obtained a Liquidity Facility with respect to such Series of Bonds as required by Section 2.11;

(iv) in the case of a Conversion of the Interest Rate Period for a Series of Bonds to an Index Rate Period, prior to the Conversion Date the Issuer shall have appointed a

Calculation Agent and executed and delivered a Calculation Agent Agreement with respect to such Series of Bonds; and

(v) the remarketing proceeds available on the Conversion Date shall not be less than the amount required to purchase all of the Bonds of such Series at the applicable Purchase Price (unless the Issuer in its sole discretion elects to transfer to the Trustee the amount of such deficiency on or before the Conversion Date).

(d) If any condition to the Conversion of the Interest Rate Period for a Series of Bonds shall not have been satisfied, then the Interest Rate Period shall not be converted and the Bonds of the applicable Series shall continue in the Daily Interest Rate Period, Weekly Interest Rate Period, Index Rate Period, Term Rate Period, or Commercial Paper Interest Rate Period, as the case may be, as in effect immediately prior to such proposed Conversion (provided, that the period of any such continuing Term Rate Period shall be one year), and the Bonds of such Series shall continue to be subject to mandatory tender for purchase on the date which would have been the effective date of the Conversion as provided in Section 4.14.

Section 2.11. Liquidity Facility. In connection with the issuance of any Series of Bonds, or the Conversion of any Series of Bonds, to bear interest in a Daily Interest Rate Period, a Weekly Interest Rate Period, an Index Rate Period or a Commercial Paper Interest Rate Period, the Issuer shall obtain a Liquidity Facility for such Series of Bonds, and the Issuer may elect to obtain a Liquidity Facility for any Series of Bonds bearing interest in a Term Rate Period or an Index Rate Period. Provisions concerning any Liquidity Facility so obtained with respect to such Series of Bonds shall be set forth in a Supplemental Indenture.

Section 2.12. Provisions Regarding Commodity Swaps. (a) In connection with the Clean Energy Project, the Issuer shall enter into the initial Commodity Swaps with the Commodity Swap Counterparties. The following shall apply to each such Commodity Swap:

(i) The method for the calculation of the Commodity Swap Payments and Commodity Swap Receipts, as applicable, and the scheduled payment dates therefor, are set forth in Schedule III hereto.

(ii) Commodity Swap Payments shall be made by the Trustee (for the account of the Issuer) from the Commodity Swap Payment Fund.

(iii) Commodity Swap Receipts shall be payable directly to the Trustee (for the account of the Issuer) and shall be deposited directly into the Revenue Fund.

(b) The following shall apply with respect to restrictions on replacement and termination of each Commodity Swap:

(i) Except as provided in clause (iii) below, the Issuer agrees that it will not exercise any right to declare an early termination date under the Commodity Swap unless either (A) the Issuer has entered into a replacement Commodity Swap in accordance with clause (ii) or (iii) below, and such replacement Commodity Swap will be effective as of such early termination date and cover price exposure from and after such early termination date, or (B) the Issuer causes or permits the termination of the Energy Purchase Agreement,

including by designating an Energy Delivery Termination Date in accordance with Section 17.2 of the Energy Purchase Agreement, prior to or as of such early termination date.

(ii) The Issuer may replace the Commodity Swap (and any related guaranty of the Commodity Swap Counterparty's obligations thereunder) with a similar agreement for the same hedging purposes with an alternate Commodity Swap Counterparty at any time upon delivery to the Trustee of a Rating Confirmation.

(iii) If the Commodity Swap is subject to termination (or, in the case of clause (B) below, is terminated) by either party in accordance with its terms, then (A) the Issuer may, subject to clause (i) above, terminate the Commodity Swap if the Issuer has the right to do so, and (B) the Issuer may enter into a replacement Commodity Swap with an alternate Commodity Swap Counterparty without Rating Confirmation, but only if the replacement Commodity Swap is identical in all material respects to the existing Commodity Swap, except for the identity of the Commodity Swap Counterparty, and (1) the replacement Commodity Swap Counterparty (or its credit support provider under the Commodity Swap) is then rated at least the lower of (a) the credit rating of the Funding Recipient or (b) the rating then assigned by each Rating Agency to the Bonds, or (2) the Commodity Swap Counterparty provides such collateral and security arrangements as the Issuer shall determine to be necessary, and (3) in either case, the replacement Commodity Swap Counterparty enters into a replacement Energy Supplier Custodial Agreement with the Energy Supplier and the Custodian that is identical in all material respects to the existing Energy Supplier Custodial Agreements.

(c) The following shall apply with respect to the mandatory termination of each Commodity Swap and the Energy Purchase Agreement:

(i) Upon the occurrence of a Commodity Swap Mandatory Termination Event, the Issuer shall (A) notify the Energy Supplier of such event pursuant to Section 17.5(a) of the Energy Purchase Agreement, and (B) in accordance with Section 17.5(a) of the Energy Purchase Agreement, use its good faith efforts to replace the affected Commodity Swap with an alternate Commodity Swap, subject to the conditions of subsection (b)(ii) above, during the 120-day replacement period contemplated by Section 17.5(a) of the Energy Purchase Agreement or any period that the Custodian, under the terms of the Custodial Agreements, is making payments (an "*Alternate Replacement Period*"), *provided* that any such Alternate Replacement Period shall end on the earlier of the date on which the Custodian ceases making payments under the Custodial Agreements and the date of the sixth consecutive monthly payment by the Custodian.

(ii) If the Issuer is unable to enter into an alternate Commodity Swap pursuant to clause (i)(B) above during such 120-day replacement period or Alternate Replacement Period, as applicable, the Issuer shall (A) designate an Energy Delivery Termination Date in accordance with Section 17.2 of the Energy Purchase Agreement, with such Energy Delivery Termination Date occurring immediately at the end of such replacement period, and (B) unless the Commodity Swap has been terminated automatically pursuant to Section 6(a) thereof, designate an early termination date for the Commodity Swap pursuant

to Section 6(a) thereof with such early termination date occurring concurrently with the Energy Delivery Termination Date described in clause (A) above.

(iii) A “*Commodity Swap Mandatory Termination Event*” occurs if the Commodity Swap becomes terminable by the Issuer pursuant to Part 1(h)(ii) (failure to pay after cure period) of the Schedule to the Commodity Swap.

Section 2.13. Provisions Regarding Interest Rate Swap. (a) In connection with the issuance of any Variable Rate Series of Bonds, or the Conversion of any Series of Bonds, to bear interest in a Daily Interest Rate Period, a Weekly Interest Rate Period, an Index Rate Period or a Commercial Paper Interest Rate Period, the Issuer shall enter into an Interest Rate Swap with an Interest Rate Swap Counterparty. The following shall apply to the Interest Rate Swap:

(i) The method for the calculation of the Interest Rate Swap Payments and Interest Rate Swap Receipts, as applicable, and the scheduled payment dates therefor are set forth in the Interest Rate Swap;

(ii) Interest Rate Swap Payments shall be made by the Trustee (for the account of the Issuer) from the Debt Service Account on parity with principal and interest payments on Bonds; and

(iii) Interest Rate Swap Receipts shall be payable directly to the Trustee (for the account of the Issuer) and shall be deposited directly into the Debt Service Account.

(b) The following shall apply with respect to restrictions on replacement and termination of the Interest Rate Swap:

(i) The Issuer agrees that it will not exercise any right to declare an early termination date under the Interest Rate Swap unless either (A) the Issuer has entered into a replacement Interest Rate Swap in accordance with clause (ii) and (iii) below, and such replacement Interest Rate Swap will be effective as of such early termination date and cover interest rate exposure from and after such early termination date, or (B) in all other cases, the Energy Purchase Agreement will terminate prior to or as of such early termination date.

(ii) The Issuer may replace the Interest Rate Swap (and any related guaranty of the Interest Rate Swap Counterparty’s obligations thereunder) with a similar agreement for the same hedging purposes with an alternate Interest Rate Swap Counterparty at any time upon delivery to the Trustee of a Rating Confirmation.

(iii) If the Interest Rate Swap is subject to termination (or, in the case of clause (B) below, is terminated) by either party in accordance with its terms, then (A) the Issuer may, subject to clause (i) above, terminate the Interest Rate Swap if the Issuer has the right to do so, and (B) the Issuer may enter into a replacement Interest Rate Swap with an alternate Interest Rate Swap Counterparty without Rating Confirmation, but only if the replacement Interest Rate Swap is identical in all material respects to the existing Interest Rate Swap, except for the identity of the Interest Rate Swap Counterparty, and (1) the alternate Interest Rate Swap Counterparty (or its credit support provider under the Interest

Rate Swap) is then rated at least the lower of (a) the credit rating of the Funding Recipient or (b) at least as highly as the rating then assigned by each Rating Agency to the Bonds, or (2) the Interest Rate Swap Counterparty provides such collateral and security arrangements as the Issuer shall determine to be necessary.

Section 2.14. CPI Index Rate Periods. The provisions of this Section 2.14 shall apply to Index Rate Bonds bearing interest in a CPI Index Rate Period.

(a) *Determination of Applicable Spread.* In connection with the issuance of a Series of Bonds bearing interest at a CPI Index Rate, or the Conversion of the Interest Rate Period for a Series of Bonds to a CPI Index Rate Period, the Underwriter or Remarketing Agent, as applicable, shall determine the Applicable Spread for such Bonds for the duration of the applicable CPI Index Rate Period, and such Applicable Spread shall be specified in the Supplemental Indenture or Index Rate Determination Certificate for the applicable CPI Index Rate Period. The Applicable Spread for a CPI Index Rate Period shall be such amount as shall result in the minimum interest rate(s) which, if borne by the Bonds of the applicable Series as of the first day of the applicable CPI Index Rate Period, under Prevailing Market Conditions, would enable the Underwriter or the Remarketing Agent, as applicable, to sell the Bonds at a price equal to 100% of the aggregate principal amount of such Bonds on the first day of the applicable CPI Index Rate Period.

(b) *Determination of CPI Index Rate.*

(i) During any CPI Index Rate Period for a Series of Bonds, such Bonds shall bear interest at the CPI Index Rate, determined using the CPI Index Rate Formula and the Applicable Spread, as specified in the applicable Index Rate Determination Certificate delivered to the Trustee on the first day of such CPI Index Rate Period.

(ii) The Calculation Agent shall by noon, New York time, on each CPI Index Rate Reset Date (or, if such CPI Index Rate Reset Date is not a Business Day, on the next succeeding Business Day) determine the CPI Index Rate for the CPI Interest Rate Period that begins on such CPI Index Rate Reset Date. The Calculation Agent shall also calculate and provide to the Issuer and the Trustee the amount of interest due and payable on each Interest Payment Date for the applicable Series of Bonds at least two Business Days prior to such Interest Payment Date. The Calculation Agent shall furnish each CPI Index Rate so determined to the Issuer and the Trustee by Electronic Means not later than each CPI Index Rate Reset Date. Upon the written request of any Holder, the Trustee shall confirm the CPI Index Rate then in effect. All percentages resulting from any step in the calculation of interest on a Series of Bonds while in a CPI Index Rate Period will be rounded, if necessary, to the nearest hundred thousandth of a percentage point (*i.e.*, to five decimal places) with five millionths of a percentage point rounded upward, and all dollar amounts used in or resulting from such calculation of interest on such Bonds while in an Index Rate Period will be rounded to the nearest cent (with one-half cent being rounded upward).

(iii) During any CPI Index Rate Period, interest shall be computed on the basis of a 360-day year of twelve 30 day calendar months.

(iv) In determining the interest rate that any Bond shall bear as provided in this Section 2.14, neither the Underwriter nor the Remarketing Agent, as applicable, the Calculation Agent, nor the Trustee shall have any liability to the Issuer or the Holder of such Bond, except for its negligence or willful misconduct.

(v) If the CPI is not reported on Bloomberg CPURNSA for a particular month by 11:00 a.m. on a CPI Index Rate Reset Date, but the CPI has otherwise been published by the BLS, the Calculation Agent will determine the CPI as published by the BLS for such month using a source it deems to be accurate and appropriate. If the CPI is not published by the BLS for a particular month by 11:00 a.m. on a CPI Index Rate Reset Date, the Calculation Agent will determine the CPI with reference to an index number based on the last twelve-month change in the CPI available and announced by the Department of the Treasury for its Inflation-Indexed Securities as described at 62 Federal Register 846-874 (January 6, 1997) (the “*Treasury Inflation-Indexed Securities Regulation*”) or, if no such index number is announced, in accordance with general market practice at the time.

(vi) In calculating CPI_{It} and CPI_{It-12}, the Calculation Agent will use the most recently available value of the CPI determined as described above on the applicable Interest Reset Date, even if such value has been adjusted from a prior reported value for the relevant month. However, if a value of CPI_{It} and CPI_{It-12} used by the Calculation Agent on any Interest Reset Date to determine the interest rate on the CPI Bonds (an “*Initial CPI Value*”) is subsequently revised by the BLS, the Calculation Agent will continue to use the Initial CPI Value for all purposes hereunder, and the interest rate on the related CPI Index Rate Reset Date, as determined based upon the Initial CPI Value, will not be revised.

(c) *CPI Index Rate Continuation.*

(i) On any Mandatory Purchase Date pursuant to Section 4.13 and unless the Issuer has given notice with respect to the Conversion of the Bonds to an Interest Rate Period other than the CPI Index Rate Period, the Issuer may establish a new CPI Index Rate Period and a new CPI Index Rate for the Bonds with such right to be exercised by delivery of an Index Rate Continuation Notice to the Trustee no less than 30 days prior to the effective date of the new CPI Index Rate Period. The CPI Index Rate Continuation Notice shall be accompanied by a letter of Bond Counsel to the effect that Bond Counsel expects to be able to deliver a Favorable Opinion of Bond Counsel on the effective date of the new CPI Index Rate Period.

(ii) Any establishment of a new CPI Index Rate and CPI Index Rate Period for a Series of Bonds pursuant to paragraph (i) above must comply with the following conditions:

(A) the first day of such new CPI Index Rate Period must be a Mandatory Purchase Date for such Bonds pursuant to the provisions of Section 4.13, and such Bonds shall be required to be tendered for purchase on such date;

(B) the first day of such new CPI Index Rate Period must be a Business Day; and

(C) no new CPI Index Rate shall become effective unless (x) the Favorable Opinion of Bond Counsel referred to in paragraph (i) above is delivered on the first day of the new CPI Index Rate Period and (y) there is no Failed Remarketing on the Mandatory Purchase Date on which such new CPI Index Rate Period is to become effective.

(iii) Upon receipt by the Trustee of a CPI Index Rate Continuation Notice from an Authorized Officer, as soon as practicable, but in any event not less than 10 Business Days prior to the first day of the proposed CPI Index Rate Period, the Issuer (or any dissemination agent appointed by the Issuer) shall give notice by first class mail or by Electronic Means via EMMA to the Holders of the Bonds of the applicable Series, which notice shall state in substance:

(A) that a new CPI Index Rate Period and CPI Index Rate is to be established for such Bonds and the proposed effective date of such new CPI Index Rate Period (which date shall be the Mandatory Purchase Date for such Bonds pursuant to Section 4.13), and that such new CPI Index Rate Period and CPI Index Rate will become effective on such date if the conditions specified in this Section 2.14 are satisfied on or before such date;

(B) that all Bonds of the applicable Series are subject to mandatory tender for purchase on the applicable Mandatory Purchase Date pursuant to Section 4.13 (whether or not the proposed new CPI Index Rate Period becomes effective on such date) at the Purchase Price, which shall be specified therein;

(C) the first day of the new CPI Index Rate Period;

(D) that the new CPI Index Rate Period and CPI Index Rate for the Bonds shall not be established unless a Favorable Opinion of Bond Counsel is delivered to the Trustee on the first day of the new CPI Index Rate Period and no Failed Remarketing occurs on such date;

(E) the CUSIP numbers or other identification information of the Bonds of the applicable Series; and

(F) that, to the extent that there shall be on deposit with the Trustee on the first day of the new CPI Index Rate Period an amount of money sufficient to pay the Purchase Price thereof, all the Bonds not delivered to the Trustee on or prior to such date shall be deemed to have been properly tendered for purchase and shall cease to constitute or represent a right on behalf of the Holder thereof to the payment of principal thereof or interest thereon and shall represent and constitute only the right to payment of the Purchase Price on deposit with the Trustee, without interest accruing thereon after such date.

(d) *End of CPI Index Rate Period.* In the event the Issuer has not given a CPI Index Rate Continuation Notice or other Written Notice reasonably acceptable to the Trustee with respect to the Conversion of Bonds to an Interest Rate Period other than a CPI Index Rate Period, in either case at the time required by this Indenture, or if the conditions to the effectiveness of a new CPI Index Rate Period and new CPI Index Rate set forth above are not satisfied, including as a result of the Remarketing Agent's failure to establish a CPI Index Rate as herein provided, then the Bonds of the applicable Series shall be purchased on the applicable Mandatory Purchase Date pursuant to Section 4.13 and a Failed Remarketing shall be deemed to have occurred and the Bonds shall not be remarketed.

ARTICLE III

GENERAL TERMS AND PROVISIONS OF BONDS

Section 3.01. Medium of Payment; Form and Date; Letters and Numbers. (a) The Bonds shall be payable, with respect to interest, principal and Redemption Price, in any coin or currency of the United States of America which at the time of payment is legal tender for the payment of public and private debts.

(b) The Bonds may be issued only in the form of fully registered Bonds without coupons, in Authorized Denominations. The Bonds shall be in substantially the form set forth in *Exhibit A* hereto, and may be printed, engraved, typewritten or otherwise produced.

(c) Unless the Issuer shall otherwise direct, the Bonds shall be numbered from one upward, with a separate designation for each Series.

Section 3.02. Legends. The Bonds may contain or have endorsed thereon such provisions, specifications and descriptive words not inconsistent with the provisions of this Indenture as may be necessary or desirable to comply with custom, the rules of any securities exchange or commission or brokerage board, or otherwise, as may be determined by the Issuer prior to the authentication and delivery thereof.

Section 3.03. Execution and Authentication. (a) The parties agree that the Electronic Signature of a party to this Indenture, including all acknowledgements, authorizations, directions, waivers and consents thereto (or any amendment or supplement thereto) shall be as valid as an original signature of such party and shall be effective to bind such party to this Indenture. The parties agree that any Electronically Signed document (including this Indenture) shall be deemed (i) to be "written" or "be in writing," (ii) to have been signed, and (iii) to constitute a record established and maintained in the ordinary course of business and an original written record when printed from electronic files. For purposes hereof, "Electronic Signature" or "Electronically Signed" means a manually signed original signature that is then transmitted by Electronic Means and containing, or to which there is affixed, an Electronic Signature.

(b) The Bonds shall be executed on behalf of the Issuer by the manual or facsimile signature of the Chair or any other Authorized Officer of the Issuer, and attested by the manual or facsimile signature of the Secretary of the Issuer or any other Authorized Officer. In case any one or more of the officers who shall have signed any of the Bonds shall cease to be such officer before

the Bonds so signed shall have been authenticated and delivered by the Trustee, such Bonds may, nevertheless, be authenticated and delivered as herein provided, and may be issued as if the Persons who signed such Bonds had not ceased to hold such offices. Any Bond may be signed on behalf of the Issuer by such Persons as at the time of the execution of such Bonds shall be duly authorized or hold the proper office in the Issuer, although at the date borne by the Bonds such Persons may not have been so authorized or have held such office.

(c) The Bonds shall bear thereon a certificate of authentication, in the form set forth in *Exhibit A* hereto, executed manually by the Trustee. Only such Bonds as shall bear thereon such certificate of authentication shall be entitled to any right or benefit under this Indenture, and no Bond shall be valid or obligatory for any purpose until such certificate of authentication shall have been duly executed by the Trustee. Such certificate of the Trustee upon any Bond executed on behalf of the Issuer shall be conclusive evidence that the Bond so authenticated has been duly authenticated and delivered under this Indenture and that the Holder thereof is entitled to the benefits of this Indenture.

(d) The parties agree that the Electronic Signature of a party to this Indenture, including all acknowledgements, authorizations, directions, waivers and consents thereto (or any amendment or supplement thereto) shall be as valid as an original signature of such party and shall be effective to bind such party to this Indenture. The parties agree that any Electronically Signed Document (including this Indenture) shall be deemed (i) to be “written” or “in writing,” (ii) to have been signed, and (iii) to constitute a record established and maintained in the ordinary course of business and an original written record when printed from electronic files. For purposes hereof, “Electronic Signature” means a manually signed original signature that is then transmitted by Electronic Means; “transmitted by Electronic Means” means sent in the form of a facsimile or sent via the Internet as a pdf (portable document format) or other replicating image attached to an e-mail message; and, “Electronically Signed Document” means a document transmitted by Electronic Means and containing, or to which there is affixed, an Electronic Signature. Paper copies or “printouts,” if introduced as evidence in any judicial, arbitral, mediation or administrative proceeding, will be admissible as between the parties to the same extent and under the same conditions as other original business records created and maintained in documentary form. Neither party shall contest the admissibility of true and accurate copies of Electronically Signed Documents on the basis of the best evidence rule or as not satisfying the business records exception to the hearsay rule.

Section 3.04. Exchange, Transfer and Registry. (a) The Bonds shall be registered and transferred only upon the books of the Issuer, which shall be held and controlled by the Bond Registrar and kept for such purposes at the designated corporate trust office of the Bond Registrar, and may be transferred by the registered owner thereof in person or by its attorney duly authorized in writing, upon surrender thereof together with a written instrument of transfer, in form and with guaranty of signature satisfactory to the Bond Registrar duly executed by the registered owner or its duly authorized attorney and in compliance with the applicable terms of this Indenture. The transferor shall also provide, or cause to be provided, to the Trustee all information reasonably required by the Trustee to allow it to comply with any applicable federal, state or local tax reporting obligations, including, without limitation, any cost-basis reporting obligations under Internal Revenue Code Section 6045. The Trustee may rely on such information provided to it and shall have no responsibility to verify or ensure the accuracy of such information. Upon the registration

of transfer of any Bond, the Issuer shall issue in the name of the transferee a new Bond or Bonds of the same Series, aggregate principal amount and maturity as the surrendered Bond.

(b) The registered owner of any Bond or Bonds of one or more denominations shall have the right to exchange such Bond or Bonds for a new Bond or Bonds of any denomination then authorized for such Bond or Bonds of the same Series, aggregate principal amount and maturity of the surrendered Bond or Bonds. Such Bond or Bonds shall be exchanged by the Issuer for a new Bond or Bonds upon the request of the registered owner thereof in person or by its attorney duly authorized in writing, upon surrender of such Bond or Bonds together with a written instrument requesting such exchange, in form satisfactory to the Bond Registrar duly executed by the registered owner or its duly authorized attorney.

(c) The Issuer and each Fiduciary may deem and treat the Person in whose name any Bond shall be registered upon the Bond registration books maintained by the Bond Registrar as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal and Redemption Price, if any, of and interest on such Bond and for all other purposes, and all such payments so made to any such registered owner or upon its order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the Issuer nor any Fiduciary shall be affected by any notice to the contrary.

Section 3.05. Regulations With Respect to Exchanges and Registration of Transfers. In all cases in which the privilege of exchanging or registering the transfer of Bonds is exercised, the Issuer shall execute and the Trustee shall authenticate and deliver Bonds in accordance with the provisions of this Indenture. All Bonds surrendered in any such exchanges or registration of transfer shall forthwith be delivered to the Trustee and cancelled or retained by the Trustee. Prior to every such exchange or registration of transfer of Bonds, whether temporary or definitive, the Trustee or the Bond Registrar may require the Holder to pay an amount sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer. Every applicable person that transfers Bonds in any such exchange or transfer shall also timely provide or cause to be provided to the Trustee all information necessary to allow the Trustee to comply with any applicable tax reporting obligation, including without limitation any cost-basis reporting obligations under Section 6045 of the Internal Revenue Code and the applicable Treasury Regulations promulgated thereunder. The Trustee may rely on the information provided to it and shall have no responsibility to verify or ensure the accuracy of such information. Unless otherwise provided in a Supplemental Indenture, neither the Trustee nor the Bond Registrar shall be required (a) to register the transfer or exchange of Bonds for the period next preceding any Interest Payment Date for the Bonds, beginning with the Regular Record Date for such Interest Payment Date and ending on such Interest Payment Date, or for the period next preceding any date for the proposed payment of Defaulted Interest with respect to such Bonds beginning with the Special Record Date for the date of such proposed payment and ending on the date of such proposed payment, (b) to register the transfer or exchange of Bonds for a period beginning 15 days before the mailing of any notice of redemption of such Bonds and ending on the day of such mailing, or (c) to register the transfer or exchange of any Bonds called for redemption. Every Person that transfers Bonds shall timely provide or cause to be timely provided to the Trustee all information necessary to allow the Trustee to comply with any applicable tax reporting obligations, including without limitation any cost-basis reporting obligations under Section 6045 of the Internal Revenue Code

and regulations promulgated thereunder. The Trustee may rely on the information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

Section 3.06. Bonds Mutilated, Destroyed, Stolen or Lost. If any Bond becomes mutilated or is lost, stolen or destroyed, the Issuer may execute and the Trustee shall authenticate and deliver a new Bond of like Series, date of issue, maturity date, principal amount and interest rate per annum as the Bond so mutilated, lost, stolen or destroyed, *provided* that (a) in the case of such mutilated Bond, such Bond is first surrendered to the Trustee, (b) in the case of any such lost, stolen or destroyed Bond, there is first furnished evidence of such loss, theft or destruction in form satisfactory to the Trustee together with indemnity satisfactory to the Issuer and the Trustee, (c) all other reasonable requirements of the Issuer and the Trustee are complied with, and (d) expenses in connection with such transaction are paid by the Holder. Any Bond surrendered for registration or transfer shall be cancelled. Any such new Bonds issued pursuant to this Section in substitution for Bonds alleged to be destroyed, stolen or lost shall constitute original additional contractual obligations on the part of the Issuer, whether or not the Bonds so alleged to be destroyed, stolen or lost be at any time enforceable by anyone, and shall be equally secured by and entitled to equal and proportionate benefits with all other Bonds issued under this Indenture, in any moneys or securities held by the Issuer or any Fiduciary for the benefit of the Bondholders.

Section 3.07. Temporary Bonds. (a) Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.03, and upon the request of the Issuer, the Trustee shall authenticate and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds, one or more temporary Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, and with such omissions, insertions and variations as may be appropriate to temporary Bonds. The Issuer at its own expense shall prepare and execute and, upon the surrender of such temporary Bonds for exchange and the cancellation of such surrendered temporary Bonds, the Trustee shall authenticate and, without service charge to the Holder thereof (except a sum sufficient to cover any tax, fee or other governmental charge that may be imposed in relation thereto), deliver in exchange therefor, definitive Bonds of the same aggregate principal amount and maturity as the temporary Bonds surrendered. Until so exchanged, the temporary Bonds shall in all respects be entitled to the same benefits and security as definitive Bonds authenticated and issued pursuant to this Indenture.

(b) All temporary Bonds surrendered in exchange either for another temporary Bond or Bonds or for a definitive Bond or Bonds shall be forthwith cancelled by the Trustee.

Section 3.08. Payment of Interest on Bonds; Interest Rights Preserved. Interest on any Bond which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the Person in whose name that Bond is registered at the close of business on the Regular Record Date.

Any interest on any Bond which is payable, but is not punctually paid or duly provided for, on any Interest Payment Date (hereinafter, “*Defaulted Interest*”) shall forthwith cease to be payable to the Person who was the registered owner on the relevant Regular Record Date; and such Defaulted Interest shall be paid by the Issuer to the Persons in whose names the Bonds are registered at the close of business on a date (hereinafter, the “*Special Record Date*”) for the

payment of such Defaulted Interest, which shall be fixed in the following manner. The Issuer shall notify the Bond Registrar in writing of the amount of Defaulted Interest proposed to be paid on each Bond and the date of the proposed payment, and at the same time the Issuer shall deposit with the Paying Agents an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to and approved in writing by the Paying Agents for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as in this Section provided. Thereupon the Bond Registrar shall fix a Special Record Date for the payment of such Defaulted Interest which shall be not more than 15 days or less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Bond Registrar of the written notice of the proposed payment. The Bond Registrar shall promptly notify the Issuer of such Special Record Date and, in the name and at the expense of the Issuer, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be mailed, first class postage prepaid, to each Bondholder at its address as it appears upon the registry books, not less than 10 days prior to such Special Record Date.

Subject to the foregoing provisions of this Section, each Bond delivered under this Indenture upon registration or transfer of or in exchange for or in lieu of any other Bond shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Bond.

Section 3.09. Book Entry System; Appointment of Securities Depository. All Bonds shall be registered in the name of Cede & Co., as nominee for DTC, as Securities Depository, and held in the custody or for the account of the Securities Depository. A single certificate will be issued and delivered to the Securities Depository for each maturity of Bonds, and the Beneficial Owners will not receive physical delivery of Bond certificates except as provided in this Indenture. For so long as the Securities Depository shall continue to serve as securities depository for the Bonds as provided herein, all transfers of Beneficial Ownership interests will be made by book entry only, and no investor or other party purchasing, selling or otherwise transferring Beneficial Ownership of Bonds is to receive, hold or deliver any Bond certificate. In connection with any proposed transfer outside the Book Entry System, the Issuer or the Securities Depository shall provide, or cause to be provided, to the Trustee all information reasonably required by the Trustee to allow it to comply with any applicable federal, state or local tax reporting obligations, including, without limitation, any cost-basis reporting obligations under Internal Revenue Code Section 6045. The Trustee may rely on such information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

The Issuer may, with Written Notice to the Trustee but without the consent of any Bondholders, appoint a successor Securities Depository and enter into an agreement with the successor Securities Depository, to establish procedures with respect to a Book Entry System for the Bonds not inconsistent with the provisions of this Indenture. Any successor Securities Depository shall be a “clearing agency” registered under Section 17A of the Securities Exchange Act of 1934, as amended.

The Issuer and the Trustee may rely conclusively upon (i) a certificate of the Securities Depository as to the identity of the Participants in the Book Entry System with respect to the Bonds, and (ii) a certificate of any such Participant as to the identity of, and the respective principal amount of the Bonds beneficially owned by the Beneficial Owners.

Whenever, during the term of the Bonds, the Beneficial Ownership of any Series thereof is determined by a book entry at the Securities Depository, the requirements in this Indenture of holding, delivering or transferring such Bonds shall be deemed modified to require the appropriate Person to meet the requirements of the Securities Depository as to registering or transferring the book entry to produce the same effect. Any provision hereof permitting or requiring delivery of the Bonds shall, while such Bonds are in such Book Entry System, be satisfied by the notation on the books of the Securities Depository in accordance with applicable state law. Notwithstanding the foregoing, the Trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under this Indenture or under applicable law with respect to any transfer of any interest in any security (including any transfers between or among Securities Depository Participants or Beneficial Owners) other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by the terms of, this Indenture, and to examine the same to determine substantial compliance as to form with the express requirements hereof.

Except as otherwise specifically provided herein with respect to the rights of Participants and Beneficial Owners, when a Book Entry System is in effect, the Issuer and the Trustee may treat the Securities Depository (or its nominee) as the sole and exclusive owner of the Bonds registered in its name for the purposes of payment of the principal, Redemption Price or Purchase Price of and interest on such Bonds or portion thereof to be redeemed or purchased, of giving any notice permitted or required to be given to the Bondholders under this Indenture and of voting, and neither the Issuer nor the Trustee shall be affected by any notice to the contrary. Neither the Issuer nor the Trustee will have any responsibility or obligations to the Securities Depository, any Participant, any Beneficial Owner or any other Person which is not shown on the bond register, with respect to (a) the accuracy of any records maintained by the Securities Depository or any Participant; (b) the payment by the Securities Depository or by any Participant of any amount due to any Beneficial Owner in respect of the principal amount, Redemption Price or Purchase Price of, or interest on, any Bonds; (c) the delivery of any notice by the Securities Depository or any Participant; (d) the selection of the Beneficial Owners to receive payment in the event of any partial redemption of any of the Bonds; or (e) any other action taken by the Securities Depository or any Participant. The Trustee shall pay all principal or Redemption Price of and interest on the Bonds registered in the name of Cede only to or “upon the order of” the Securities Depository (as that term is used in the Uniform Commercial Code as adopted in the State and New York), and all such payments shall be valid and effective to fully satisfy and discharge the Issuer’s obligations with respect to the principal, Redemption Price or purchase price of and interest on such Bonds to the extent of the sum or sums so paid.

The Book Entry System may be discontinued by the Trustee and the Issuer, at the Written Direction and expense of the Issuer, and the Issuer and the Trustee will cause the delivery of Bond certificates to such Beneficial Owners of the Bonds and registered in the names of such Beneficial Owners as shall be specified to the Trustee by the Securities Depository in writing, under the following circumstances:

- (i) The Securities Depository determines to discontinue providing its service with respect to any Bonds and no successor Securities Depository is appointed as described above. Such a determination may be made at any time by giving 30 days’ written notice to

the Issuer and the Trustee and discharging its responsibilities with respect thereto under applicable law; or

(ii) The Issuer determines, with written notice to the Trustee, not to continue the Book Entry System through a Securities Depository for the Bonds.

When the Book Entry System is not in effect, all references herein to the Securities Depository shall be of no further force or effect.

In connection with any proposed transfer outside the Book Entry System of the Securities Depository, the Securities Depository and the Issuer shall provide or cause to be provided to the Trustee all information necessary to allow the Trustee to comply with any applicable tax reporting obligations, including without limitation cost-basis reporting obligations under Section 6045 of the Internal Revenue Code and the applicable Treasury Regulations promulgated thereunder. The Trustee may rely on the information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

Section 3.10. Subsidy Payments. In the event that one or more Series of Bonds are issued which qualify the Issuer to receive Subsidy Payments and the Issuer, in a Supplemental Indenture, pledges such Subsidy Payments to the repayment of the principal of, and interest on, the Bonds, then, to the extent such Subsidy Payments are received by the Trustee, they shall constitute Revenues under the Indenture.

Section 3.11. Limitation of Liability of the Issuer. Notwithstanding anything to the contrary herein or in the Bonds, all obligations of the Issuer to make payments of any kind pursuant to this Indenture are special, limited obligations of the Issuer, payable solely from, and secured solely by, the Trust Estate as and to the extent provided herein. The Issuer shall not be required to advance any moneys derived from any source other than the Revenues and other assets pledged under this Indenture for any of the purposes in this Indenture mentioned, whether for the payment of the principal of or interest on the Bonds or for any other purpose of this Indenture. Neither the faith and credit of the Issuer nor the taxing power of the State or any political subdivision thereof is pledged to payments pursuant to this Indenture or the Bonds. The Issuer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Indenture or the Clean Energy Project, except solely to the extent Revenues are received for the payment thereof.

ARTICLE IV

REDEMPTION OF BONDS AND TENDER PROVISIONS

Section 4.01. Extraordinary Redemption. (a) The Bonds shall be subject to mandatory redemption prior to maturity in whole, and not in part, on the first day of the Month following the Early Termination Payment Date, which redemption date in the case of a Failed Remarketing will

be the same day as the next-occurring Mandatory Purchase Date, at the following Redemption Prices:

- (i) in the case of a Series of Bonds bearing interest in a Term Rate Period (including the Series 2025[] Bonds), the Amortized Value thereof, and
- (ii) in the case of a Series of Variable Rate Bonds, 100% of the principal amount thereof,

plus, in each case, accrued and unpaid interest to the redemption date at the initial interest rates on the Bonds or the Increased Interest Rate, whichever is then in effect.

(b) The Issuer shall (i) provide the Trustee with Written Notice of the Early Termination Payment Date as provided in Section 7.12(b), and (ii) as of the first day of the Month prior to a Mandatory Purchase Date, direct the Trustee to send a conditional notice of redemption pursuant to Section 4.04 in the event that a Failed Remarketing may occur.

Section 4.02. Sinking Fund Redemption. (a) The Series 2025[] Bonds maturing on [] 1, 20[] shall be subject to mandatory redemption prior to their stated maturity in part (by lot) from Sinking Fund Installments, at a Redemption Price equal to the principal amount thereof, without premium, plus accrued interest to the date of redemption on the following dates and in the following amounts:

REDEMPTION DATE	PRINCIPAL AMOUNT	REDEMPTION DATE	PRINCIPAL AMOUNT
[] 1, 20 []	\$[]	[] 1, 20 []	\$[]

REDEMPTION DATE	PRINCIPAL AMOUNT	REDEMPTION DATE	PRINCIPAL AMOUNT

*

* Stated Maturity

Section 4.03. Optional Redemption. (a) The Series 2025[] Bonds are subject to redemption at the option of the Issuer in whole or in part (in such amounts and by such maturities as may be specified by the Issuer and by lot within a maturity) on any date prior to [] 1, 20[] at a Redemption Price, calculated by a quotation agent selected by the Issuer, equal to the greater of:

(i) the sum of the present values of the remaining unpaid payments of principal and interest to be paid on the Series 2025[] Bond to be redeemed from and including the date of redemption (not including any portion of the interest accrued and unpaid as of the redemption date) to the earlier of the stated maturity date of such Series 2025[] Bond or the Mandatory Purchase Date, discounted to the date of redemption on a semiannual basis at a discount rate equal to the Applicable Tax Exempt Municipal Bond Rate for such Series 2025[] Bonds minus 0.25% per annum provided, however, that if the Applicable Tax-Exempt Municipal Bond Rate results in a discount rate less than zero percent, such discount shall be 0.00% in any event, and

(ii) the Amortized Value thereof;

in each case plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest Rate, whichever is then in effect.

(b) The Series 2025[] Bonds maturing on the Initial Mandatory Purchase Date are subject to redemption at the option of the Issuer in whole or in part (in such amounts and by such maturities as may be specified by the Issuer and by lot within a maturity) on any date on or after [] 1, 20[] at a Redemption Price equal to the Amortized Value thereof as of the date of redemption, plus \$0.10 per \$1,000 of the principal amount thereof plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest Rate, whichever is then in effect; *provided that*, if the optional redemption date is the Mandatory Purchase Date, the Redemption Price will be 100% of the principal amount of the Series 2025[]-1 Bonds to be redeemed plus accrued and unpaid interest to the date of redemption.

The Series 2025[] Bonds maturing after the Initial Mandatory Purchase Date are subject to redemption at the option of the Issuer in whole or in part (in such amounts and by such maturities as may be specified by the Issuer and by lot within a maturity) on any date on or after [] 1, 20[] at a Redemption Price equal to the Amortized Value thereof as of the date of redemption, plus \$0.10 per \$1,000 of the principal amount thereof plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest

Rate, whichever is then in effect; *provided that*, if the optional redemption date is the Mandatory Purchase Date, the Redemption Price will be 100% of the principal amount of the Series 2025[] Bonds to be redeemed plus accrued and unpaid interest to the date of redemption.

(c) The Issuer shall provide Written Notice of the identity of the quotation agent to the Trustee.

(d) The Series 2025[] Bonds shall also be subject to redemption at the option of the Issuer, as provided in a Supplemental Indenture executed or Interest Rate Determination Certificate delivered in connection with a Conversion of the Bonds.

(e) For so long as a Series of Bonds is bearing interest in an Index Rate Period, the Bonds of such Series are subject to optional redemption by the Issuer, in whole or in part (in such amounts and by such maturities as may be specified by the Issuer and at random within a maturity), on any Business Day on or after the first Business Day of the third month preceding the Index Rate Tender Date for such Series of Bonds at a Redemption Price equal to 100% of the principal amount thereof to be redeemed, plus accrued and unpaid interest to the date of redemption.

(f) For so long as a Series of Bonds is bearing interest in a Daily Interest Rate Period or a Weekly Interest Rate Period, the Bonds of such Series are subject to optional redemption by the Issuer in whole or in part (in such amounts and by such maturities as may be specified by the Issuer and at random within a maturity) on any Business Day at a Redemption Price equal to 100% of the principal amount thereof to be redeemed, plus accrued and unpaid interest to the date of redemption.

(g) For so long as a Series of Bonds is bearing interest in a Commercial Paper Interest Rate Period, each Bond of such Series is subject to optional redemption by the Issuer on the day succeeding the last day of any CP Interest Term for such Bond at a Redemption Price equal to 100% of the principal amount thereof to be redeemed, plus accrued and unpaid interest to the date of redemption.

(h) Notwithstanding anything to the contrary contained herein, in connection with the Conversion of a Series of Bonds from one Interest Rate Period to another or the establishment of a new Term Rate Period or Index Rate Period for a Series of Bonds, the Issuer may, in the Written Direction to the Trustee delivered in connection with such Conversion or establishment of a new Term Rate Period or Index Rate Period, designate additional or different terms upon which the Bonds of such Series will be subject to optional redemption during the new Interest Rate Period for such Series of Bonds if such additional or different terms of optional redemption are approved by Bond Counsel.

(i) In lieu of redeeming Series 2025[] Bonds pursuant to this Section 4.03, the Trustee may, upon the Written Direction of the Issuer, use such funds as may be available by the Issuer or as are otherwise available hereunder to purchase such Series 2025[] Bonds on the applicable redemption date at a Purchase Price equal to the applicable Redemption Price of such Series 2025[] Bonds. Any Series 2025[] Bonds so purchased may be remarketed in a new Interest Rate Period or may be cancelled by the Trustee, in either case as set forth in the Written Direction of the Issuer.

Section 4.04. Redemption Notice. (a) When the Trustee receives Written Notice from the Issuer of its election or direction to optionally redeem Bonds pursuant to Section 4.06, the Trustee shall give notice, in the name of the Issuer, or when redemption of Bonds is authorized or required pursuant to Section 4.01 or other than at the election or direction of the Issuer, pursuant to Section 4.07 the Trustee shall give notice, in the name of the Issuer, of the redemption of such Bonds by first class mail, postage prepaid, to the registered owner of each Bond being redeemed, at its address as it appears on the bond registration books of the Trustee or at such address as such owner may have filed with the Trustee in writing for that purpose, as of the Regular Record Date, as follows:

- (i) for any redemption of the Bonds pursuant to Section 4.01, not less than 15 days prior to the redemption date;
- (ii) for redemptions of Bonds bearing interest in a Term Rate Period, pursuant to Sections 4.02 and 4.03, not less than 30 days prior to the redemption date;
- (iii) for redemptions of Variable Rate Bonds pursuant to Sections 4.02 4.03, not less than 15 days prior to the redemption date.

A notice of redemption of the Series 2025[] Bonds (A) pursuant to clause (iii) above may include a statement that, if the Series 2025[] Bonds are not redeemed for any reason, the Series 2025[] Bonds shall be subject to mandatory tender for purchase on the Initial Mandatory Purchase Date, and (B) pursuant to clause (i) or clause (iii) above may be combined with notice of the mandatory tender of the Series 2025[] Bonds on the Initial Mandatory Purchase Date pursuant to Section 4.16, subject to the condition set forth in Section 4.16(b).

(b) In the event that the Bonds may be subject to extraordinary redemption as a result of a Failed Remarketing that could occur if the Trustee has not received the Purchase Price of the Bonds by noon New York City time on the fifth Business Day preceding a Mandatory Purchase Date, a notice of extraordinary redemption of the Bonds pursuant to this Section 4.04 may be a conditional notice of redemption, delivered in each case not less than 15 days prior to such Mandatory Purchase Date, stating that: (a) such redemption shall be conditioned upon the Trustee's failure to receive, by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Purchase Price of the Bonds required to be purchased on such Mandatory Purchase Date, and (b) if the full amount of the Purchase Price has been received by the Trustee by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Bonds shall be purchased pursuant to Section 4.13 or Section 4.14 hereof on such Mandatory Purchase Date rather than redeemed. If the full amount of the Purchase Price has been received by the Trustee by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Trustee shall withdraw such conditional notice of redemption prior to such Mandatory Purchase Date and the Bonds shall be purchased pursuant to Section 4.13 or Section 4.14 hereof on such Mandatory Purchase Date rather than redeemed.

(c) Each notice of redemption shall identify the Bonds to be redeemed and shall state (i) the redemption date, (ii) the Redemption Price or the manner in which it will be calculated, (iii) that the Bonds called for redemption must be surrendered to collect the Redemption Price,

(iv) the address at which the Bonds must be surrendered, and (v) that interest on the Bonds called for redemption ceases to accrue on the redemption date.

(d) With respect to any notice of optional redemption of Bonds, unless upon the giving of such notice such Bonds shall be deemed to have been paid within the meaning of Section 12.01 of this Indenture, such notice shall state that such redemption shall be conditioned upon the receipt by the Trustee on or prior to the date fixed for such redemption of money sufficient to pay the Redemption Price of and interest on the Bonds to be redeemed, and that if such money shall not have been so received said notice shall be of no force and effect, and the Issuer shall not be required to redeem such Bonds. In the event that such notice of redemption contains such a condition and such money is not so received, the redemption shall not be made and the Trustee shall within a reasonable time thereafter give notice, in the manner in which the notice of redemption was given, that such money was not so received and that such redemption was not made.

(e) Failure of the registered owner of any Bonds which are to be redeemed to receive any such notice, or any defect in such notice, shall not affect the validity of the proceedings for the redemption of any Bonds.

Section 4.05. Bonds Redeemed in Part. Upon surrender of a Bond redeemed in part, the Issuer will execute and the Trustee will authenticate and deliver to the Holder thereof a new Bond or Bonds of the same Series, maturity and tenor in Authorized Denominations equal in principal amount to the unredeemed portion of the Bond surrendered. Notwithstanding anything herein to the contrary, so long as the Bonds are held in the Book Entry System the Bonds will not be delivered as set forth above; rather transfers of Beneficial Ownership of such Bonds to the Person indicated above will be effected on the registration books of the Securities Depository pursuant to its rules and procedures.

Section 4.06. Redemption at the Election or Direction of the Issuer. In the case of any redemption of Bonds at the election or direction of the Issuer, the Issuer shall give Written Notice to the Trustee, at least five Business Days prior to the last date on which the Trustee is required to give notice of redemption pursuant to Section 4.04, of its election or direction so to redeem, the Series, Maturity Dates, principal amounts by Maturity Dates and CUSIP numbers of the Bonds to be redeemed, the Redemption Price or the manner in which it will be calculated for each Maturity Date of Bonds to be redeemed, and the date on which such Bonds are to be redeemed, and directing the Trustee to provide notice of such redemption to the Owners of such Bonds pursuant to Section 4.04 (maturities and principal amounts thereof to be redeemed shall be determined by the Issuer in its sole discretion). In the event notice of redemption shall have been given as in Section 4.04 provided, there shall be paid on or prior to the redemption date to the appropriate Paying Agents an amount in cash which, in addition to other moneys, if any, available therefor held by such Paying Agents, will be sufficient to redeem on the redemption date at the Redemption Price thereof, plus interest accrued and unpaid to the redemption date, all of the Bonds to be redeemed. The Issuer shall promptly notify the Trustee in writing of all such payments by it to such Paying Agents.

Section 4.07. Redemption Other Than at the Issuer's Election or Direction. Whenever by the terms of this Indenture the Trustee is required or authorized to redeem Bonds other than at the election or direction of the Issuer, the Trustee shall (i) select the Bonds or portions of Bonds to be

redeemed, (ii) give the notice of redemption and (iii) pay out of moneys available therefor the Redemption Price thereof (as determined by the quotation agent and provided in a Written Notice to the Trustee), plus interest accrued and unpaid to the redemption date, to the appropriate Paying Agents in accordance with the terms of this Article IV and, to the extent applicable, Section 5.07 and Section 5.08.

Section 4.08. Selection of Bonds To Be Redeemed. If less than all of the Bonds of like Series, tenor and maturity shall be called for redemption, the particular Bonds or portions of Bonds of such Series, tenor and maturity to be redeemed shall be selected by lot in such manner as the Trustee shall determine, in its sole discretion, from Bonds of such Series, tenor and maturity not previously called for redemption; *provided, however*, that the portion of any Bond of a denomination of more than a minimum Authorized Denomination to be redeemed shall be in the principal amount of such minimum Authorized Denomination or a multiple thereof, and that, in selecting portions of such Bonds for redemption, the Trustee shall treat each such Bond as representing that number of Bonds of a minimum Authorized Denomination which is obtained by dividing by such minimum Authorized Denomination the principal amount of such Bond to be redeemed in part.

Section 4.09. Payment of Redeemed Bonds. Notice having been given in the manner provided in Section 4.04 and, in the case of optional redemption of Bonds, sufficient moneys for payment of the Redemption Price of, together with interest accrued to the redemption date on such Bonds being held by the Trustee, the Bonds or portions thereof so called for redemption shall become due and payable on the redemption date so designated at the applicable Redemption Price, and, upon presentation and surrender thereof at the office specified in such notice, such Bonds, or portions thereof, shall be paid at the Redemption Price. If there shall be drawn for redemption less than all of a Bond, the Issuer shall execute and the Trustee shall authenticate and the Paying Agent shall deliver, upon the surrender of such Bond, without charge to the owner thereof, for the unredeemed balance of the principal amount of the Bonds so surrendered, Bonds of like Series, maturity and tenor in any of the Authorized Denominations. If, on the redemption date, moneys for the redemption of all the Bonds or portions thereof of any like maturity to be redeemed, together with interest to the redemption date, shall be held by the Paying Agents so as to be available therefor on said date and if notice of redemption shall have been given as aforesaid, then, from and after the redemption date interest on the Bonds or portions thereof of so called for redemption shall cease to accrue and become payable. If said moneys shall not be so available on the redemption date, such Bonds or portions thereof shall continue to bear interest until paid at the same rate as they would have borne had they not been called for redemption. Upon the payment of the Redemption Price of the Bonds or portions thereof being redeemed, each check or other transfer of funds issued for such purpose shall bear the CUSIP number identifying, by maturity, the Bonds being redeemed with the proceeds of such check or other transfer.

Section 4.10. Cancellation and Destruction of Bonds. All Bonds paid or redeemed either at or before maturity shall be delivered to the Trustee at its designated corporate trust office when such payment or redemption is made, and such Bonds, together with all Bonds purchased or redeemed pursuant to Section 5.10(c) that have been delivered to the Trustee for application as a credit against Sinking Fund Installments and all Bonds purchased by the Trustee pursuant to the Written Direction of the Issuer, shall thereupon be promptly cancelled (or deemed to have been cancelled). Bonds so cancelled may, to the extent permitted by law, at any time be destroyed by

the Trustee, who shall execute a certificate of destruction in duplicate by the signature of one of its authorized officers describing the Bonds so destroyed, and one executed certificate shall be filed with the Issuer and the other executed certificate shall be retained by the Trustee.

Section 4.11. Optional Tender During Daily or Weekly Interest Rate Periods. (a) During any Daily Interest Rate Period or Weekly Interest Rate Period for a Series of Bonds, any Eligible Bond of such Series shall be purchased from its Owner at the option of the Owner on any Business Day at the applicable Purchase Price, payable in immediately available funds, upon delivery to the Trustee at its designated corporate trust office for delivery of notices and the Remarketing Agent of an irrevocable written notice which states the name of the Owner, the principal amount and the date on which the same shall be purchased, which date shall be a Business Day not prior to the seventh day next succeeding the date of the delivery of such notice to the Trustee. Any notice delivered to the Trustee after 4:00 p.m., New York City time, shall be deemed to have been received on the next succeeding Business Day. Payment of such Purchase Price shall be made from the sources and in the order of priority set forth in Section 4.15(e) on the date specified in such notice, provided such Bond is delivered, at or prior to 10:00 a.m., New York City time, on the date specified in such notice, to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof, in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange.

(b) So long as the Bonds are registered in the name of Cede & Co., as nominee for DTC, only direct or indirect Participants may give notice of the election to tender Bonds or portions thereof and the Beneficial Owners shall not have the right to tender Bonds directly to the Trustee, except through such Participants.

Section 4.12. Mandatory Tender for Purchase on Day Next Succeeding the Last Day of Each CP Interest Term. On the day next succeeding the last day of each CP Interest Term for an Eligible Bond in a Commercial Paper Interest Rate Period, unless such day is the first day of a new Interest Rate Period for such Bond (in which event such Bond shall be subject to mandatory purchase pursuant to Section 4.14), such Bond shall be purchased from its Owner at the applicable Purchase Price payable in immediately available funds, provided such Bond is delivered to the Trustee on or prior to 10:00 a.m., New York City time, on such day, or if delivered after 10:00 a.m., New York City time, on the next succeeding Business Day; *provided, however*, that in any event such Bond will not bear interest at the CP Interest Term Rate after the last day of the applicable CP Interest Term. The Purchase Price of any Bond so purchased shall be payable from the sources and in the order of priority set forth in Section 4.15(e) only upon surrender of such Bond to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof, in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange.

Section 4.13. Mandatory Tender for Purchase on the Mandatory Purchase Date, Index Rate Tender Date or Term Rate Tender Date. On the Mandatory Purchase Date, Index Rate Tender Date or Term Rate Tender Date for a Series of Bonds (which, for the avoidance of doubt, can occur only on a Mandatory Purchase Date), unless such day is the first day of a new Interest Rate Period for such Bonds (in which event such Bonds shall be subject to mandatory purchase pursuant to

Section 4.14), each Eligible Bond of such Series shall be purchased from the Owner thereof at the applicable Purchase Price, payable in immediately available funds, provided such Bond is delivered to the Trustee on or prior to 10:00 a.m., New York City time, on such day, or if delivered after 10:00 a.m., New York City time, on the next succeeding Business Day; *provided, however*, that in any event such Bond will not bear interest at the applicable Index Rate or Term Rate after the last day of the applicable Index Rate Period or Term Rate Period, respectively. The Purchase Price of any Bond so purchased shall be payable from the sources and in the order of priority specified in Section 4.15(e) only upon surrender of such Bond to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof, in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange. The Series 2025[] Bonds shall be subject to mandatory tender pursuant to this Section 4.13 on the Initial Mandatory Purchase Date.

Section 4.14. Mandatory Tender for Purchase on Conversion of Interest Rate Period. Eligible Bonds of a Series shall be subject to mandatory tender for purchase on each Conversion Date (which shall be a Mandatory Purchase Date) at the applicable Purchase Price, payable in immediately available funds. The Purchase Price of any Bond so purchased shall be payable from the sources and in the order of priority specified in Section 4.15(e) only upon surrender of such Bond to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof, in form satisfactory to such Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange at or prior to 10:00 a.m., New York City time, on the date specified for such delivery in this paragraph or in the notice provided pursuant to Section 2.10.

Section 4.15. General Provisions Relating to Tenders.

(a) *Creation of Bond Purchase Fund.*

(i) There shall be created and established hereunder with the Trustee a fund to be designated the "Bond Purchase Fund" to be held in trust only for the benefit of the Owners of tendered Bonds who shall thereafter be restricted exclusively to the moneys held in such fund for the satisfaction of any claim for the Purchase Price of such tendered Bonds. The Bond Purchase Fund and the Accounts therein are not Pledged Funds.

(ii) There shall be created and designated the following Accounts with respect to each Series of Bonds within the Bond Purchase Fund: the "Remarketing Proceeds Account" and the "Issuer Purchase Account." Moneys paid to the Trustee for the purchase of tendered or deemed tendered Bonds of a Series received from

(A) the Remarketing Agent shall be deposited in the Remarketing Proceeds Account for such Series in accordance with the provisions of Section 4.15(d)(i) and

(B) the Issuer shall be deposited in the Issuer Purchase Account in accordance with the provisions of Section 4.15(d)(ii). Moneys provided by the

Issuer not required to be used in connection with the purchase of tendered Bonds shall be returned to the Issuer in accordance with Section 4.15(d) and Section 4.15(e).

(iii) Moneys in the Issuer Purchase Account and the Remarketing Proceeds Account with respect to a Series of Bonds shall not be commingled with other funds held by the Trustee and shall remain uninvested. The Issuer shall have no right, title or interest in any of the funds held on deposit in the Remarketing Proceeds Account or any remarketing proceeds held for any period of time by the Remarketing Agent.

(b) *Deposit of Bonds.* The Trustee agrees to hold all Bonds delivered to it pursuant to Section 4.11, Section 4.12, Section 4.13 or Section 4.14 in trust for the benefit of the respective Owners which shall have so delivered such Bonds until moneys representing the Purchase Price of such Bonds have been delivered to such Owner in accordance with the provisions of this Indenture and until such Bonds shall have been delivered by the Trustee in accordance with Section 4.15(f).

(c) *Remarketing of Bonds.*

(i) Immediately upon its receipt, but not later than noon, New York City time on the following Business Day, from an Owner of a Bond bearing interest at a Daily Interest Rate or a Weekly Interest Rate of a notice pursuant to Section 4.11, the Trustee shall notify the Remarketing Agent by telephone, promptly confirmed in writing by Electronic Means, of such receipt, specifying the principal amount of Bonds for which it has received such notice, the names of the Owners thereof and the date on which such Bonds are to be purchased in accordance with Section 4.11.

(ii) As soon as practicable, but in no event later than 10:15 a.m., New York City time, on a Purchase Date, the Remarketing Agent shall inform the Trustee by telephone, promptly confirmed in writing, by Electronic Means, of the principal amount of Purchased Bonds to be purchased on such date, the name, address and taxpayer identification number of each such purchaser, and the Authorized Denominations in which such Purchased Bonds are to be delivered. Upon receipt from the Remarketing Agent of such information, and in no event later than 12:30 p.m., New York City time, on the Purchase Date, the Trustee shall prepare Purchased Bonds in accordance with such information received from the Remarketing Agent for the registration of transfer and redelivery to the Remarketing Agent pursuant to paragraph (f) of this Section 4.15.

(iii) Any Purchased Bonds which are subject to mandatory tender for purchase in accordance with Section 4.12, Section 4.13 or Section 4.14 which are not presented to the Trustee on the Purchase Date and any Purchased Bonds which are the subject of a notice pursuant to Section 4.16 which are not presented to the Trustee on the Purchase Date, shall, in accordance with the provisions of Section 4.16, be deemed to have been purchased upon the deposit of moneys equal to the Purchase Price thereof into any or all of the accounts of the Bond Purchase Fund.

(d) *Deposits of Funds.*

(i) The Trustee shall deposit into the Remarketing Proceeds Account for the applicable Series of Bonds any amounts received by it in immediately available funds by 12:30 p.m., New York City time, on any Purchase Date from the Remarketing Agent against receipt of Bonds by the Remarketing Agent pursuant to Section 4.15(f) and on account of Purchased Bonds remarketed pursuant to the terms of the Remarketing Agreement.

(ii) The Issuer may, in its sole discretion, pay to the Trustee in immediately available funds the amount equal to the difference, if any, between the total Purchase Price of Bonds to be purchased and the amount of money deposited under Section 4.15(d)(i) (the “*Additional Liquidity Drawing Amount*”) by 12:45 p.m., New York City time. The Trustee shall deposit any Additional Liquidity Drawing Amounts into the Issuer Purchase Account for the applicable Series of Bonds.

(iii) The Trustee shall hold all proceeds received from the Remarketing Agent or the Issuer pursuant to this Section 4.15(d) in trust for the tendering Owners. In holding such proceeds and moneys, the Trustee will be acting on behalf of such Owners by facilitating the purchase of the Bonds and not on behalf of the Issuer and will not be subject to the control of the Issuer. Subject to the provisions of Section 4.15(e), following the discharge of the pledge created by Section 5.01 or after payment in full of the Bonds, the Trustee shall pay any moneys remaining in any Account of the Bond Purchase Fund directly to the Persons for whom such money is held upon presentation of evidence reasonably satisfactory to the Trustee that such Person is rightfully entitled to such money and the Trustee shall not pay such amounts to any other Person.

(e) *Disbursements; Payment of Purchase Price.* Moneys delivered to the Trustee on a Purchase Date shall be applied at or before 1:00 p.m., New York City time, on such Purchase Date to pay the Purchase Price of Purchased Bonds of the applicable Series in immediately available funds as follows in the indicated order of application and, to the extent not so applied on such date, shall be held in the separate and segregated Accounts of the Bond Purchase Fund for the benefit of the Owners of the Purchased Bonds which were to have been purchased:

FIRST: Moneys deposited in the Remarketing Proceeds Account for the Bonds of the applicable Series; and

SECOND: Moneys deposited in the Issuer Purchase Account for the Bonds of the applicable Series.

Any moneys held by the Trustee in the Issuer Purchase Account remaining unclaimed by the Owners of the Purchased Bonds which were to have been purchased for two years after the respective Purchase Date for such Bonds shall be paid to the Issuer, upon a request in a Written Direction of the Issuer against written receipt therefor. The Owners of Purchased Bonds who have not yet claimed money in respect of such Bonds shall thereafter be entitled to look only to the Trustee, to the extent it shall hold moneys on deposit in the Bond Purchase Fund, or the Issuer to the extent moneys have been transferred in accordance with this Section 4.15(e). The Trustee shall

have no obligation to advance its own funds to fund the Bond Purchase Fund or otherwise pay the Purchase Price on any Bonds.

(f) *Delivery of Purchased Bonds.*

(i) The Remarketing Agent shall give telephonic notice, promptly confirmed by a written notice, by Electronic Means, to the Trustee on each date on which Bonds shall have been purchased pursuant to Section 4.11, Section 4.12, Section 4.13, or Section 4.14, specifying the principal amount of such Bonds, if any, sold by it and a list of such purchasers showing the names and Authorized Denominations in which such Bonds shall be registered, and the addresses and social security or taxpayer identification numbers of such purchasers. By 12:30 p.m., New York City time, on the Purchase Date, a principal amount of Bonds equal to the amount of Purchased Bonds purchased with moneys from the Remarketing Proceeds Account shall be made available by the Trustee to the Remarketing Agent against payment therefor in immediately available funds.

(ii) A principal amount of Bonds equal to the amount of Purchased Bonds purchased from moneys on deposit in the Issuer Purchase Account shall be delivered on the day of such purchase by the Trustee to or as directed by the Issuer. The Trustee shall register such Bonds in the name of the Issuer or as otherwise directed by the Issuer.

Section 4.16. Notice of Mandatory Tender for Purchase. In connection with any mandatory tender for purchase of Bonds in accordance with Section 4.12, Section 4.13 or Section 4.14, the Trustee shall give the notice (which in the case of a mandatory tender pursuant to Section 4.14 shall be given as a part of the notice given pursuant to Section 2.06(c), Section 2.07(c), Section 2.08(c), Section 2.09(c) or Section 2.14(c)) stating: (a) that the Purchase Price of any Bond so subject to mandatory tender for purchase shall be payable only upon surrender of such Bond to the Trustee at the office specified in such notice, accompanied by an instrument of transfer thereof in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange; (b) that all Bonds so subject to mandatory tender for purchase shall be purchased on the Mandatory Purchase Date, unless (i) a Failed Remarketing shall have occurred prior to such Mandatory Purchase Date, in which case such Bonds shall be redeemed rather than purchased on such Mandatory Purchase Date, or (ii) such Bonds shall have otherwise been redeemed on or prior to, or are not Outstanding as of, such Mandatory Purchase Date; and (c) that in the event that any Owner of a Bond so subject to mandatory tender for purchase shall not surrender such Bond to the Trustee for purchase on such Mandatory Purchase Date, then such Bond shall be deemed to be an Undelivered Bond, and that no interest shall accrue thereon on and after such Mandatory Purchase Date and that the Owner thereof shall have no rights under this Indenture other than to receive payment of the Purchase Price thereof. Any such notice of a mandatory tender of Bonds pursuant to Section 4.12, Section 4.13 or Section 4.14 shall be given no less than thirty (30) days prior to the applicable Mandatory Purchase Date, and the Trustee shall give a conditional notice of extraordinary redemption pursuant to Section 4.04 no later than the applicable deadlines set forth in that section to provide for the extraordinary redemption of the Bonds if a Failed Remarketing occurs prior to the Mandatory Purchase Date. No later than five (5) Business Days prior to the date on which such conditional notice of extraordinary redemption is required to be given by the Trustee pursuant to

Section 4.4, the Issuer shall direct the Trustee to send such conditional redemption notice pursuant to a Written Direction in the form attached hereto as *Exhibit C*, which Written Direction shall include the applicable Redemption Date and method(s) for calculating the Redemption Price, to be followed by notice of the Redemption Price, as provided in *Exhibit C*.

Section 4.17. Irrevocable Notice Deemed to Be Tender of Bond; Undelivered Bonds Deemed Purchased on Mandatory Purchase Date. (a) The giving of notice by an Owner of a Bond bearing interest at a Daily Interest Rate or a Weekly Interest Rate pursuant to Section 4.11 shall constitute the irrevocable tender for purchase of each such Bond with respect to which such notice shall have been given, regardless of whether such Bond is delivered to the Trustee for purchase on the relevant Purchase Date as provided in this Article IV.

(b) The Trustee may refuse to accept delivery of any Purchased Bonds for which a proper instrument of transfer, with a satisfactory guaranty of signature, has not been provided; such refusal, however, shall not affect the validity of the purchase of such Bond as herein described. For purposes of this Article IV, the Trustee for the Bonds shall determine timely and proper delivery of Purchased Bonds and the proper endorsement of such Bonds. Such determination shall be binding on the Owners of such Bonds, the Issuer and the Remarketing Agent, absent manifest error. If any Owner of a Bond who shall have given notice of tender of purchase pursuant to Section 4.11 or any Owner of a Bond subject to mandatory tender for purchase pursuant to Section 4.12, Section 4.13 or Section 4.14 shall fail to deliver such Bond to the Trustee at the place and on the applicable date and at the time specified, or shall fail to deliver such Bond properly endorsed, such Bond shall constitute an Undelivered Bond. If funds in the amount of the Purchase Price of the Undelivered Bond are available for payment to the Owner thereof on the date and at the time specified, from and after the date and time of that required delivery, (i) the Undelivered Bond shall be deemed to be purchased and shall no longer be deemed to be Outstanding under this Indenture; (ii) interest shall no longer accrue thereon; and (iii) funds in the amount of the Purchase Price of the Undelivered Bond shall be held by the Trustee for such Bond for the benefit of the Owner thereof, to be paid on delivery (and proper endorsement) of the Undelivered Bond to the Trustee at its designated corporate trust office. Any funds held by the Trustee as described in clause (iii) of the preceding sentence shall be held uninvested.

Section 4.18. Remarketing of Bonds; Notice of Interest Rates. (a) Upon a mandatory tender or notice of the tender for purchase of Bonds, the Remarketing Agent shall offer for sale and use its best efforts to sell such Bonds subject to conditions in the Remarketing Agreement, any such sale to be made on the Purchase Date in accordance with this Article IV at a price equal to the principal amount thereof plus accrued interest, if any, thereon to the Purchase Date. The Remarketing Agent agrees that it shall not sell any Bonds purchased pursuant to this Article IV to the Issuer or a Project Participant, or to any Person who controls, is controlled by, or is under common control with the Issuer or a Project Participant.

(b) The Remarketing Agent shall determine the rate of interest to be borne by the Bonds bearing interest at a Daily Interest Rate, Weekly Interest Rate, CP Interest Term Rates or a Term Rate and the CP Interest Terms for each Bond during each Commercial Paper Interest Rate Period, and the applicable Calculation Agent shall determine the rate of interest to be borne by each Series of Bonds bearing interest at an Index Rate, all as provided in Article II, and shall furnish to the

Trustee and to the Issuer upon request, in a timely fashion by Electronic Means, each rate of interest and CP Interest Term so determined.

(c) Anything in this Indenture to the contrary notwithstanding, if there shall have occurred and is continuing an Event of Default, there shall be no remarketing of Bonds tendered or deemed tendered for purchase.

Section 4.19. The Remarketing Agent. (a) The Remarketing Agent shall be authorized by law to perform all the duties imposed upon it pursuant to the Remarketing Agreement. The Remarketing Agent or any successor shall signify its acceptance of the duties and obligations imposed upon it pursuant to the Remarketing Agreement by an agreement under which the Remarketing Agent will agree to:

(i) determine the interest rates applicable to the Bonds of the applicable Series and give written notice to the Trustee of such rates and periods in accordance with Article II;

(ii) keep such books and records as shall be consistent with prudent industry practice; and

(iii) use its best efforts to remarket Bonds in accordance with the Remarketing Agreement.

(b) The Remarketing Agent shall hold all amounts received by it in accordance with any remarketing of Bonds in trust only for the benefit of the Owners of tendered Bonds and shall not commingle such amounts with any other moneys.

Section 4.20. Qualifications of Remarketing Agent; Resignation; Removal. (a) Each Remarketing Agent shall be a member of the Financial Industry Regulatory Authority or subject to supervision by the Office of the Comptroller of the Currency, having a combined capital stock, surplus and undivided profits of at least \$50,000,000 and be authorized by law to perform all the duties imposed upon it by this Indenture. Any successor Remarketing Agent shall have senior unsecured long term debt which shall be rated by each Rating Agency.

(b) A Remarketing Agent may at any time resign and be discharged of the duties and obligations created by the Remarketing Agreement by giving written notice to the Trustee and the Issuer. A Remarketing Agent may be removed at the direction of the Issuer at any time on 30 days' prior written notice, in a Written Direction of the Issuer, filed with such Remarketing Agent for the related Series of Bonds and the Trustee. No such resignation or removal shall be effective until a successor has been appointed and has accepted such duties.

Section 4.21. Successor Remarketing Agents. (a) Any corporation, association, partnership or firm which succeeds to the business of the Remarketing Agent as a whole or substantially as a whole, whether by sale, merger, consolidation or otherwise, shall thereby become vested with all the property, rights and powers of such Remarketing Agent hereunder.

(b) In the event that the Remarketing Agent has given written notice of resignation or has been notified of its impending removal in accordance with Section 4.20(b), the Issuer shall appoint a successor Remarketing Agent.

(c) In the event that the property or affairs of the Remarketing Agent shall be taken under control of any state or federal court or administrative body because of bankruptcy or insolvency, or for any other reason, and the Issuer shall not have appointed its successor, the Issuer shall appoint a successor and, if no appointment is made within 30 days, the Trustee shall apply to a court of competent jurisdiction for such appointment.

Section 4.22. Tender Agent. The Trustee shall serve as the tender agent for any Series of Bonds for which optional or mandatory tender for purchase is applicable under this Article IV, and as tender agent it and each successor Trustee appointed in accordance with this Indenture shall:

(a) hold all Bonds delivered to it for purchase hereunder in trust for the exclusive benefit of the respective Owners that shall have so delivered such Bonds until moneys representing the Purchase Price of such Bonds shall have been delivered to or for the account of or to the order of such Owners;

(b) hold all moneys delivered to it hereunder for the purchase of Bonds in trust for the exclusive benefit of the Person that shall have so delivered such moneys until the Bonds purchased with such moneys shall have been delivered to it for the account of such Person and, thereafter, for the benefit of the Owners tendering such Bonds; and

(c) keep such books and records as shall be consistent with prudent industry practice and make such books and records available for inspection at all times during regular business hours (upon reasonable prior written notice of inspection) by the Issuer and the Remarketing Agent for such Series of Bonds.

ARTICLE V

ESTABLISHMENT OF FUNDS AND APPLICATION THEREOF

Section 5.01. Pledge Effected by This Indenture. (a) The Bonds and any Interest Rate Swap are limited obligations of the Issuer payable solely from and secured as to the payment of the principal and Redemption Price thereof, and interest thereon, in accordance with their terms and the provisions of this Indenture solely by, the Trust Estate. Pursuant to the Granting Clauses of this Indenture, the Trust Estate has been conveyed, assigned and pledged to the payment of the principal and Redemption Price of and interest on the Bonds and any Interest Rate Swap Payments in accordance with their terms, and any other senior, parity and subordinate obligations of the Issuer secured by the lien of this Indenture, subject to (i) the pledge of and lien on the Commodity Swap Payment Fund and the amounts and investments on deposit therein in favor of the Commodity Swap Counterparties, and (ii) the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in this Indenture. The Trust Estate thereby pledged and assigned shall immediately be subject to the lien of such pledge without any further physical delivery thereof or other further act, and the lien of such pledge shall be a first lien and shall be valid and binding as against all parties having claims of any kind

in tort, contract or otherwise against the Issuer, irrespective of whether such parties have notice thereof.

(b) None of the Bonds, any Interest Rate Swap or the Commodity Swaps constitute a debt or liability of the State or of any political subdivision thereof, other than as limited obligations of the Issuer, and the Issuer shall not be obligated to pay the principal or Redemption Price of, or interest on, the Bonds, any Interest Rate Swap Payments or the Commodity Swap Payments except from the funds provided therefor under this Indenture. Neither the faith and credit nor the taxing power of the State or of any political subdivision thereof, including the Issuer, or of any Project Participant is pledged to the payment of the principal or Redemption Price of and interest on the Bonds, any Interest Rate Swap Payments or the Commodity Swap Payments. The issuance of the Bonds and the execution and delivery of any Interest Rate Swap and the Commodity Swaps shall not directly or indirectly or contingently obligate the State or any political subdivision thereof to levy or to pledge any form of taxation or to make any appropriation for their payment. The Issuer has no taxing power.

(c) Nothing contained in this Indenture shall be construed to prevent the Issuer from acquiring, constructing or financing, through the issuance of its bonds, notes or other evidences of indebtedness, any facilities or supplies of Energy other than the Clean Energy Project; *provided* that such bonds, notes or other evidences of indebtedness shall not be payable out of or secured by the Trust Estate or any portion thereof, and neither the cost of such facilities or supplies of Energy nor any expenditure in connection therewith or with the financing thereof shall be payable from the Trust Estate or any portion thereof.

Section 5.02. Establishment of Funds and Accounts. (a) The following Funds and Accounts are hereby established, each of which shall be held by the Trustee except as indicated below:

- (i) Project Fund,
- (ii) Revenue Fund,
- (iii) Operating Fund,
- (iv) Debt Service Fund, consisting of the Debt Service Account (and within such Account, a Capitalized Interest Subaccount) and the Redemption Account,
- (v) Commodity Swap Payment Fund,
- (vi) General Reserve Fund,
- (vii) Energy Remarketing Reserve Fund, consisting of a Remediation Account,
- (viii) Assignment Payment Fund,
- (ix) Bond Purchase Fund established pursuant to Section 4.15, consisting of the Issuer Purchase Account and the Remarketing Proceeds Account; and

(x) Administrative Fee Fund.

(b) Within the Funds and Accounts established hereunder and held by the Trustee, the Trustee may create additional Accounts in any Fund or subaccounts in any Accounts as may facilitate the administration of this Indenture. The Issuer may, by Supplemental Indenture, with the prior written approval of the Trustee, establish one or more additional accounts or subaccounts. By Supplemental Indenture, the Issuer may also (i) establish custodial accounts to be held by the Trustee as custodian to receive Revenues paid by the Project Participants under the Power Supply Contracts, and (ii) provide for the application of such amounts for transfer to the Revenue Fund and for such other purposes as may be specified therein.

Section 5.03. Project Fund. (a) There shall be paid into the Project Fund proceeds of the Bonds in the amount specified by Written Request of the Issuer, and there may be paid into the Project Fund, at the option of the Issuer, any moneys received for or in connection with the Clean Energy Project by the Issuer from any other source, unless required to be otherwise applied as provided by this Indenture. Upon delivery of the Bonds, the Trustee shall immediately transfer from the Project Fund into the Capitalized Interest Subaccount of the Debt Service Account an amount, specified by Written Request of the Issuer, representing capitalized interest on the Bonds to the date set forth in such Written Request. Except as otherwise provided in this Section 5.03, amounts in the Project Fund shall be applied by the Issuer to pay the Cost of Acquisition and any capitalized interest on the Series 2025[] Bonds.

(b) Before any payment is made by the Trustee from the Project Fund, the Issuer shall file with the Trustee a Written Request of the Issuer, showing with respect to each payment to be made, the name of the Person to whom payment is due and the amount to be paid, and stating that the obligation to be paid was incurred and is a proper charge against the Project Fund. To the extent that the Written Request includes amounts to be paid pursuant to the Energy Purchase Agreement, copies of the invoices or requests for direct payments submitted under the Energy Purchase Agreement shall be attached to the Written Request. Each such Written Request shall be sufficient evidence to the Trustee: (i) that obligations in the stated amounts have been incurred by the Issuer and that each item thereof is a proper charge against the Project Fund; and (ii) that there has not been filed with or served upon Issuer notice of any lien, right to lien or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to any of the Persons named in such Written Request which has not been released or will not be released simultaneously with the payment of such obligation other than materialmen's or mechanics' liens accruing by mere operation of law.

(c) Upon receipt of each such Written Request, the Trustee shall pay the amounts set forth therein as directed by the terms thereof from the applicable Account in accordance with and subject to the applicable terms of this Section 5.03.

(d) Notwithstanding any of the other provisions of this Section, to the extent that other moneys are not available therefor, amounts in Project Fund shall be applied to the payment of principal of and interest on Bonds when due.

(e) Upon Written Direction of the Issuer, but not earlier than six months after the date of delivery of the Bonds, the Trustee shall transfer to the Revenue Fund any amounts remaining on deposit in Project Fund.

Section 5.04. Revenues and Revenue Fund; Other Amounts. (a) All Revenues shall be deposited promptly by the Trustee upon receipt thereof into the Revenue Fund; *provided* that, for the avoidance of doubt, if any amounts are received from a Project Participant for which Outstanding Sold Receivables exist, as identified in a written notice from the Issuer to the Trustee, the Trustee shall promptly cause any such receipts to be paid to the Energy Supplier to the extent of such Outstanding Sold Receivables without setoff of any kind in accordance with Section 2.7 of the Receivables Purchase Provisions and any remaining amounts received from such Project Participant shall be deposited into the Revenue Fund.

(b) In the event that any Specified Project Participant fails to pay the amount due under its applicable Power Supply Contract, the Trustee shall perform the following actions on behalf of the Issuer under Section 2.1 of the Receivables Purchase Provisions: (i) provide a preliminary notice by email to the Issuer and the Energy Supplier that a Specified Project Participant will fail to make a payment as soon as practicable after becoming aware that a payment default will occur and in any event no later than the end of the calendar day on which the relevant payment default occurs, and (ii) prepare and deliver to the Energy Supplier a Put Option Notice by 12:00 p.m. New York City time on the Business Day following any such payment default. On the twenty-fourth day of the Month in which such Put Option Notice was delivered (or if such day is not a Business Day, the next Business Day following the twenty-fourth day of such Month), the Trustee shall deliver to the Energy Supplier the bill of sale and certificates required by Section 2.3(a) of the Receivables Purchase Provisions. The Trustee is hereby authorized to sell the Put Receivables then owed by the Specified Project Participants under the Power Supply Contracts pursuant to the Receivables Purchase Provisions and to take all actions on its part necessary in connection therewith. All amounts received by the Trustee pursuant to the Receivables Purchase Provisions in respect of Put Receivables shall be deposited in the Revenue Fund for application pursuant to Section 5.05.

(c) Upon receipt of the preliminary notice from the Trustee pursuant to (b)(i) above, the Issuer shall:

(i) in consultation with the Energy Supplier, determine the amount of the Net Participant Shortfall Amount, if any, resulting from such failure to pay; and

(ii) give prompt written notice of the amounts of such Net Participant Shortfall Amount, if any, and the amount of such nonpayment and the resulting Net Participant Shortfall Amount, to the Trustee, the Energy Supplier and the Commodity Swap Counterparties.

(d) The following amounts, which are payable to the Trustee but do not constitute Revenues, shall be applied by the Trustee as follows:

(i) any Termination Payment shall be deposited directly into the Redemption Account of the Debt Service Fund as provided in Section 5.08;

(ii) any Assignment Payment shall be deposited directly into the Assignment Payment Fund as provided in Section 5.12;

(iii) [Reserved];

(iv) amounts representing the Project Administration Fee, together with any amounts paid by the Project Participant under the Prepaid Clean Energy Project Administration Agreement, shall be paid as received to Issuer into the Administrative Fee Fund;

(v) any Interest Rate Swap Receipts shall be deposited directly into the Debt Service Account as provided in Section 2.13;

(vi) any amounts required by Section 5.11 to be deposited into the Energy Remarketing Reserve Fund shall be deposited directly therein; and

(vii) Ledger Event Payments shall be deposited directly into the Debt Service Account as provided in Section 2.02.

Section 5.05. Payments from Revenue Fund. (a) In each Month during which there is a deposit of Revenues into the Revenue Fund (but in no case later than the respective dates set forth below), the Trustee shall apply the amounts on deposit in the Revenue Fund, to the extent available, for credit or deposit to the Funds and Accounts indicated below, in the amounts described below (such application to be made in such a manner so as to assure good funds are available on the respective dates set forth below) in the following order of priority:

(i) [Reserved.];

(ii) To the Operating Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount, if any, required so that the balance therein shall equal the amount necessary for the payment of Operating Expenses coming due for such Month;

(iii) Subject to the provisos below, to the Debt Service Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day) for the credit to the Debt Service Account, an amount equal to the greater of (A) the Scheduled Debt Service Deposit, as set forth in Schedule II hereto, or (B) the amount necessary to cause an amount equal to the cumulative unpaid Scheduled Debt Service Deposits due through such date to be on deposit therein (without credit for undisbursed Interest Rate Swap Receipts, if any, on deposit therein);

(iv) To the Commodity Swap Payment Fund, on or before the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount required so that the balance therein shall equal the Commodity Swap Payments due for such Month; and

(v) To the Energy Supplier, not later than the last Business Day of such Month, the amount, if any, required for the repurchase of Put Receivables and the payment of

interest on all Put Receivables sold to the Energy Supplier pursuant to the Receivables Purchase Provisions;

provided, however, that if a Project Participant's payment failure results in a Net Participant Shortfall Amount for such Month, the intent is that such payment failure be allocated between the amounts that otherwise would have been deposited to the Debt Service Fund and the Commodity Swap Payment Fund. Therefore, for any Month in which a Net Participant Shortfall Amount exists, the Trustee shall reduce the amount transferred under clause (iii) above to the extent necessary such that the amount available for transfer under clause (iv) above is not less than (A) the amount that would be required to fully fund the Commodity Swap Payments due for such Month, minus (B) the sum of all Net Participant Shortfall Amounts for such Month; and

provided further, the amount required to be transferred to the Debt Service Account pursuant to clause (iii) above shall be reduced by the amount of investment earnings scheduled to be deposited into the Debt Service Account on or before the last Business Day of such Month.

(b) If, after a scheduled monthly deposit to the Debt Service Account, the balance therein is below the cumulative Scheduled Debt Service Deposits for such month as specified on Schedule II, the Trustee shall immediately notify the Issuer of such deficiency and the Trustee shall (i) if the Issuer has not previously done so, cause the Issuer to suspend all deliveries of all quantities of Energy under the Power Supply Contracts to the Project Participant that is in default thereunder, and (ii) promptly give notice to the Energy Supplier to follow the Remarketing Provisions.

(c) On each [] 1, beginning [] 1, 202[], after (i) the deposit of Revenues into the Revenue Fund, and (ii) making such transfers, credits and deposits as required by paragraph (a) above, the Trustee shall credit to the General Reserve Fund the remaining balance in the Revenue Fund.

(d) So long as there shall be held in the Debt Service Fund an amount sufficient to pay in full all Outstanding Bonds and Interest Rate Swap Payments, if any, in accordance with their terms (including principal or applicable Sinking Fund Installments and interest thereon), no transfers shall be required to be made to the Debt Service Fund.

Section 5.06. Operating Fund. (a) Amounts credited to the Operating Fund shall be applied from time to time by the Trustee to the payment of (i) first, Rebate Payments, and (ii) second, any other Operating Expenses then due and payable.

(b) Amounts credited to the Operating Fund that the Trustee, on the last Business Day of each Month, determines to be in excess of the requirements of such Fund for such Month, shall be applied to make up any deficiencies in the Debt Service Account. Any balance of such excess not required to be so applied shall be transferred to the Revenue Fund for application in accordance with Section 5.05(a).

Section 5.07. Debt Service Fund—Debt Service Account. (a) The amounts deposited into the Debt Service Account pursuant to Section 5.05(a)(iii) shall be held in such Account and applied to the payment of the Debt Service and any Interest Rate Swap Payments, if any, payable on each Bond Payment Date; *provided that*, for the purposes of computing the amount to be deposited in

such Account, there shall be excluded from the required deposit the amount, if any, on deposit in the Capitalized Interest Subaccount or set aside in the Debt Service Account from the proceeds of Bonds (including amounts, if any, transferred thereto from the Project Fund) for the payment of interest on the Bonds. Amounts in the Capitalized Interest Subaccount shall be applied to Debt Service prior to other monies held within the Debt Service Account.

(b) The Trustee shall pay out of the Debt Service Account to the Paying Agent: (i) on or before each Interest Payment Date, the amount required for the interest on the Bonds payable on such date; (ii) on or before each Bond Payment Date, the Interest Rate Swap Payments, if any, then due, (iii) on or before the Bond Payment Date on which a Principal Installment is due, the amount required for the Principal Installment payable on such date; and (iv) on or before any redemption date, the amount required for the payment of the Redemption Price of and accrued interest on such Bonds then to be redeemed; *provided, however*, that if with respect to any Bonds or portions thereof the amounts due on any such Bond Payment Date and/or redemption date are intended to be paid from a source other than amounts in the Debt Service Account prior to any application of amounts in the Debt Service Account to such payments, then the Trustee (after Written Notice from the Issuer to the Trustee that the Issuer intends to make payments from a source other than amounts in the Debt Service Account) shall not pay any such amounts to the Paying Agent until such amounts have failed to be provided from such other source at the time required and if any such amounts due are paid from such other source the Trustee shall apply the amounts in the Debt Service Account to provide reimbursement for such payment from such other source as provided in the agreement governing reimbursement of such amounts to such other source. Such amounts shall be applied by the Paying Agent on and after the due dates thereof. The Trustee shall also pay out of the Debt Service Account the accrued interest included in the purchase price of Bonds purchased for retirement.

(c) Amounts accumulated in the Debt Service Account with respect to any Sinking Fund Installment (together with amounts accumulated therein with respect to interest on the Bonds for which such Sinking Fund Installment was established) shall, if so directed by the Issuer in a Written Request delivered not less than thirty (30) days before the due date of such Sinking Fund Installment, be applied by the Trustee to (i) the purchase of Bonds of the Series, maturity and tenor for which such Sinking Fund Installment was established, (ii) the redemption at the applicable sinking fund Redemption Price of such Bonds, if then redeemable by their terms, or (iii) any combination of (i) and (ii). All purchases and redemptions of any Bonds pursuant to this subsection (c) shall be made at prices not exceeding the applicable sinking fund Redemption Price of such Bonds plus accrued interest, and such purchases shall be made in such manner as the Issuer shall direct the Trustee in writing. The applicable sinking fund Redemption Price (or principal amount of maturing Bonds) of any Bonds so purchased or redeemed shall be deemed to constitute part of the Debt Service Account until such Sinking Fund Installment date, for the purpose of calculating the amount of such Account. As soon as practicable after the thirtieth (30th) day preceding the due date of any such Sinking Fund Installment, the Trustee shall proceed to call for the redemption on such due date, by giving notice as required by this Indenture, Bonds of the Series, maturity and tenor for which such Sinking Fund Installment was established (except in the case of Bonds maturing on a Sinking Fund Installment date) in such amount as shall be necessary to complete the retirement of the unsatisfied balance of such Sinking Fund Installment after making allowance for any Bonds purchased or redeemed pursuant to Section 5.10 which the Issuer has directed the Trustee in writing to apply as a credit against such Sinking Fund Installment as

provided in Section 5.10(c). The Trustee shall pay out of the Debt Service Account to the Paying Agent, on or before such redemption date or maturity date, as applicable, the amount required for the redemption of the Bonds so called for redemption (or for the payment of such Bonds then maturing), and such amount shall be applied by such Paying Agents to such redemption or payment, as applicable. All expenses in connection with the purchase or redemption of Bonds shall be paid by the Issuer in such manner as the Issuer shall direct the Trustee in writing from the Operating Fund.

All Bonds paid or redeemed, either at or before maturity, shall be delivered to the Trustee at its designated corporate trust office when such payment or redemption is made, and such Bonds, together with all Bonds purchased or redeemed pursuant to Section 5.10 that have been delivered to the Trustee for application as a credit against Sinking Fund Installments and all Bonds purchased by the Trustee pursuant to this Section 5.07, shall thereupon be promptly cancelled (or deemed to have been cancelled).

(d) Amounts accumulated in the Debt Service Account with respect to any principal amount of Bonds due on a certain future date for which no Sinking Fund Installments have been established (together with amounts accumulated therein with respect to interest on such Bonds) shall, upon the reasonable prior Written Direction of the Issuer, be applied by the Trustee on or prior to the due date thereof, to (i) the purchase of such Bonds or (ii) the redemption at the principal amount of such Bonds, if then redeemable by their terms. All purchases and redemptions of any Bonds pursuant to this subsection (d) shall be made at prices not exceeding the principal amount of such Bonds plus accrued interest, and such purchases and redemptions shall be made in such manner as the Issuer shall determine. The principal amount of any Bonds so purchased or redeemed shall be deemed to constitute part of the Debt Service Account until such due date, for the purpose of calculating the amount of such Account.

(e) The amount deposited in the Debt Service Account on the Issue Date of any Series of Bonds from the proceeds thereof shall be set aside and applied to the payment of interest on such Series of Bonds and related Interest Rate Swap Payments, if any.

(f) In the event of the refunding or defeasance of any Bonds, the Trustee shall, if directed by the Issuer in writing, withdraw from the Debt Service Account all, or any portion of, the amounts accumulated therein with respect to Debt Service on the Bonds being refunded or defeased and deposit such amounts with the Trustee to be held for the payment of the principal or Redemption Price, if applicable, and interest on the Bonds being refunded or defeased; *provided* that such withdrawal shall not be made unless immediately thereafter Bonds being refunded or defeased shall be deemed to have been paid pursuant to Section 12.01(b). In the event of such refunding or defeasance, the Issuer may direct the Trustee to withdraw from the Debt Service Account all, or any portion of, the amounts accumulated therein with respect to Debt Service on the Bonds being refunded or defeased and deposit such amounts in any Fund or Account hereunder; *provided, however*, that such withdrawal shall not be made unless the Bonds being defeased shall be deemed to have been paid pursuant to Section 12.01(b) and *provided, further*, that, at the time of such withdrawal, there shall exist no deficiency in any Fund or Account held hereunder.

(g) Any amount remaining in the Debt Service Account, to the extent not required to be retained therein for purposes of making future payments, shall be deposited in the Revenue Fund.

Section 5.08. Debt Service Fund–Redemption Account. (a) In the event of an early termination of the Energy Purchase Agreement, the Issuer shall direct the Energy Supplier to pay the Termination Payment directly to the Trustee for the account of the Issuer. The Trustee shall deposit the Termination Payment into the Redemption Account. Amounts deposited into the Redemption Account shall be applied by the Trustee to the redemption of Outstanding Bonds pursuant to Section 4.01.

(b) Any amounts remaining on deposit in the Redemption Account following the redemption and payment of all Outstanding Bonds shall be applied by the Trustee first to pay any Swap Payment Deficiency, second to repurchase any Put Receivables owned by the Energy Supplier, and third, upon Written Direction of the Issuer to the Trustee, shall be transferred to the Revenue Fund.

(c) For the avoidance of doubt, no Extraordinary Expenses shall be paid from the Redemption Account.

Section 5.09. Commodity Swap Payment Fund. (a) Amounts credited to the Commodity Swap Payment Fund shall be applied from time to time by the Trustee to the payment of the Commodity Swap Payments when due.

(b) Any amount remaining in the Commodity Swap Payment Fund following the payment of the Commodity Swap Payment due in any Month and prior to any deposit therein for the following Month shall be transferred to the Revenue Fund for application in accordance with Section 5.05(a).

Section 5.10. General Reserve Fund. (a) The Trustee shall apply moneys on deposit in the General Reserve Fund in the following amounts and in the following order of priority: *first*, for deposit into the Debt Service Account, the amount necessary (or all of the moneys in the General Reserve Fund if less than the amount necessary) to make up any deficiencies in the deposits to such Account required by Section 5.05(a)(iii); *second*, for deposit into the Commodity Swap Payment Fund, the amount necessary to cause the balance therein to equal a Commodity Swap Payment that is then due; and *third* for deposit into the Operating Fund, the amount necessary for the payment of any Operating Expenses then due and payable and for which other funds are not available under this Indenture.

(b) Amounts on deposit in the General Reserve Fund not required to meet a deficiency or to make a deposit as provided in subsection (a) above shall be applied by the Trustee upon the Written Request of the Issuer to the following in the order listed below:

- (i) payment of Extraordinary Expenses;
- (ii) payment of any fees owed pursuant to any Qualified Investments;

- (iii) the repurchase of Put Receivables and the payment of interest on all receivables sold to the Energy Supplier pursuant to the Receivables Purchase Provisions;
- (iv) annual refunds to the Project Participant pursuant to the Power Supply Contract;
- (v) the purchase or redemption of Bonds and expenses in connection with the purchase or redemption of such Bonds or any reserves which the Issuer determines shall be required for such purposes; and
- (vi) any other lawful purpose of the Issuer under the Act;

provided, however, that, subject to the provisions of subsection (a) of this Section, amounts credited to the General Reserve Fund and required by this Indenture to be applied to the purchase or redemption of Bonds shall be applied to such purpose.

(c) If at any time Bonds of any Series, maturity and tenor for which Sinking Fund Installments shall have been established are (i) purchased or redeemed other than pursuant to Section 5.07(d) or (ii) deemed to have been paid pursuant to Section 12.01(b) and, with respect to such Bonds which have been deemed paid, irrevocable written instructions have been given by the Issuer to the Trustee to redeem or purchase the same on or prior to the due date of the Sinking Fund Installment to be credited under this subsection (c), the Issuer may from time to time and at any time by Written Direction to the Trustee specify the portion, if any, of such Bonds so purchased, redeemed or deemed to have been paid and not previously applied as a credit against any Sinking Fund Installment which are to be credited against future Sinking Fund Installments. Such direction shall specify the amounts of such Bonds to be applied as a credit against each Sinking Fund Installment or Installments and the particular Sinking Fund Installment or Installments against which such Bonds are to be applied as a credit; *provided, however*, that none of such Bonds may be applied as a credit against a Sinking Fund Installment to become due less than thirty (30) days after such written notice is delivered to the Trustee. All such Bonds to be applied as a credit shall be surrendered to the Trustee for cancellation on or prior to the due date of the Sinking Fund Installment against which they are being applied as a credit. The portion of any such Sinking Fund Installment remaining after the deduction of any such amounts credited toward the same (or the original amount of any such Sinking Fund Installment if no such amounts shall have been credited toward the same) shall constitute the unsatisfied balance of such Sinking Fund Installment for the purpose of calculation of Sinking Fund Installments due on a future date.

Section 5.11. Energy Remarketing Reserve Fund. There shall be paid by the Trustee into the Remediation Account of the Energy Remarketing Reserve Fund, and within such Remediation Account the subaccount applicable to each Project Participant, the amounts, as directed in a Written Direction of the Issuer, specified in Section 5(e)(i) of the Remarketing Provisions. In the case of a Remediation Remarketing (as defined in the Remarketing Provisions) pursuant to Section 8 of the Remarketing Provisions, amounts shall be released from the applicable subaccount of the Remediation Account upon such remarketing and applied pursuant to a Written Direction of the Issuer as follows: (a) if the proceeds received by the Trustee from the remarketing equal or exceed the Remediation Remarketing Purchase Price, the portion of the applicable subaccount of the Remediation Account allocable to such remarketing shall be transferred to the General Reserve

Fund, and (b) if the proceeds received by the Trustee from the remarketing are less than the Remediation Remarketing Purchase Price, then (x) the portion of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund allocable to such remarketing shall be used to make a payment to the Energy Supplier in an amount equal to the excess of such Remediation Remarketing Purchase Price over such proceeds received by the Issuer from the remarketing, and (y) any remaining amounts allocable to such remarketing shall be transferred to the General Reserve Fund. For purposes of this Section 5.11(a), the portion of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund specified in writing by the Issuer to the Trustee as the amount allocable to a remarketing shall consist of the product of (i) a fraction, the numerator of which is the purchase price of the Energy to be remarketed, and the denominator of which is the aggregate amount previously received by the Issuer from the sale of such Energy in Non-Private Business Sales (as defined in the Remarketing Provisions) or Private Business Sales (as defined in the Remarketing Provisions) that, as of the time of the remarketing, has not been remediated in accordance with Section 8 of the Remarketing Provisions, multiplied by (ii) the balance of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund at the time of the remarketing.

Section 5.12. Assignment Payment Fund. In connection with the issuance of Refunding Bonds, any Assignment Payment received from the Energy Supplier (or the Master Custodian on its behalf) shall be deposited into the Assignment Payment Fund to be transferred to the replacement energy supplier, *provided, however*, that if the existing Bonds have not been redeemed or defeased on or before the Mandatory Purchase Date, in whole, by the Refunding Bonds, all or a portion of the Assignment Payment shall be transferred to the Trustee for deposit as directed by the Issuer in writing to the Redemption Account in Section 5.08, along with the proceeds of the Refunding Bonds, in order to redeem all of the Outstanding Bonds.

Section 5.13. Purchases of Bonds. Except as otherwise provided in Section 5.07, any purchase of Bonds (or portions thereof) by or at the direction of the Issuer pursuant to this Indenture may be made with or without tenders of Bonds and at either public or private sale, in such manner as the Issuer may determine.

Section 5.14. Administrative Fee Fund. All Project Administration Fees, together with any amounts paid by the Project Participant pursuant to the Prepaid Clean Energy Project Administration Agreement, shall be deposited by the Trustee into the Administrative Fee Fund. The Trustee shall apply amounts on deposit in the Administrative Fee Fund to pay Operating Expenses promptly upon receipt of a Written Request of the Issuer directing such payment. In the event amounts on deposit in the Administrative Fee Fund are insufficient to make any payments directed in the Written Request of the Issuer, the Trustee shall promptly notify each Project Participant, at its respective address shown on Schedule I attached hereto, of the fact and amount of such deficiency.

ARTICLE VI

DEPOSITORIES OF MONEYS, SECURITY FOR DEPOSITS AND INVESTMENT OF FUNDS

Section 6.01. Depositories. (a) All moneys held by the Trustee under the provisions of this Indenture shall constitute trust funds and the Trustee may deposit such moneys with one or more Depositories in trust for the parties secured hereunder. All moneys deposited under the provisions of this Indenture with the Trustee or any Depository shall be held in trust and applied only in accordance with the provisions of this Indenture; provided, however, that the Trustee shall be entitled to rely, without verification, on any certificate of a bank, trust company, national banking association or other entity that certifies that it meets the requirements for being a Depository of moneys hereunder and shall not be responsible for any monitoring of such requirements after the initial deposit of any moneys pursuant to the provisions of this Indenture.

(b) Each Depository shall be a bank or trust company organized under the laws of any state of the United States or a national banking association having capital stock, surplus and undivided earnings of \$50,000,000 or more, and willing and able to accept the office on reasonable and customary terms and authorized by law to act in accordance with the provisions of this Indenture; *provided, however*, that the Trustee shall be entitled to rely, without verification, on any certificate of a bank, trust company, national banking association or other entity that certifies that it meets the requirements for being a Depository of moneys hereunder and shall not be responsible for any monitoring of such requirements after the initial deposit of any moneys pursuant to the provisions of this Indenture.

Section 6.02. Deposits. (a) All Revenues and moneys held by any Depository under this Indenture may be placed on demand or time deposit, if and as directed by the Issuer in writing, *provided* that such deposits shall permit the moneys so held to be available for use at the time when needed. Any such deposit may be made in the commercial banking department of any Fiduciary, which may honor checks and drafts on such deposit with the same force and effect as if it were not such Fiduciary. All moneys held by any Fiduciary, as such, may be deposited by such Fiduciary in its banking department on demand or, if and to the extent directed by the Issuer in writing and acceptable to such Fiduciary, on time deposit, *provided* that such moneys on deposit be available for use at the time when needed. Such Fiduciary shall allow and credit on such moneys such interest, if any, as it customarily allows upon similar funds of similar size and under similar conditions or as required by law.

(b) All moneys held under this Indenture by the Trustee, the Issuer or any Depository shall be held in such manner as may then be required by applicable federal or State laws and regulations and applicable state laws and regulations of the state in which such Depository is located, regarding security for, or granting a preference in the case of, the deposit of public or trust funds or, in the absence of such laws and regulations, shall be either (i) continuously or fully insured by the Federal Deposit Insurance Corporation, or (ii) continuously and fully secured, to the extent not insured by the Federal Deposit Insurance Corporation, by lodging with the Trustee, as custodian, as collateral security, Qualified Investments having a market value (exclusive of accrued interest) not less than the amount of such moneys (or portion thereof not insured by the Federal Deposit Insurance Corporation); *provided, however*, that, to the extent permitted by law,

it shall not be necessary for the Fiduciaries to give security under this subsection (b) for the deposit of any moneys with them held in trust and set aside by them for the payment of the principal or Redemption Price of or interest on any Bonds, or for the Trustee, the Issuer or any Depository to give security for any moneys which shall be represented by obligations or certificates of deposit purchased as an investment of such moneys.

(c) All moneys deposited with the Trustee and each Depository shall be credited to the particular Fund or Account to which such moneys belong and, except as provided with respect to the investment of moneys in Qualified Investments in Section 6.03, the moneys credited to each particular Fund or Account shall be kept separate and apart from, and not commingled with, any moneys credited to any other Fund or Account or any other moneys deposited with the Trustee, the Issuer and each Depository, except as provided in Section 6.03.

Section 6.03. Investment of Certain Funds. Moneys held in the Debt Service Account shall be invested and reinvested by the Trustee at the Written Direction of the Issuer to the fullest extent practicable in Qualified Investments specified in such Written Direction which mature or are payable not later than such times as shall be necessary to provide moneys when needed for payments to be made from such Accounts and may take the form of a Debt Service Fund Agreement. To the extent moneys held in the Debt Service Account are invested in a Debt Service Fund Agreement, the Issuer covenants and agrees that it will not consent or agree to or permit any assignment of, rescission of or amendment to or otherwise take any action under or in connection with such Debt Service Fund Agreement without the written consent of the Trustee and the delivery to the Trustee of a Rating Confirmation with respect to such amendment. Moneys held in the Revenue Fund and the Project Fund may be invested and reinvested by the Trustee at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction which mature not later than such times as shall be necessary to provide moneys when needed for payments to be made from such Funds. Moneys in the Operating Fund (other than moneys in the Operating Fund held with respect to Rebate Payments) may be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction which mature within twelve months or which provide funds as needed; moneys held in the Operating Fund with respect to Rebate Payments shall be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction at fair market value; and moneys in the General Reserve Fund and the Energy Remarketing Reserve Fund may be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction; in any case the Qualified Investments in such Funds or in the Accounts therein shall mature not later than such times as shall be necessary to provide moneys when needed to provide payments from such Funds or Accounts. The Trustee shall only be required to make investments of moneys held by it in the Funds and Accounts established under this Indenture in accordance with Written Directions received by the Trustee from any Authorized Officer of the Issuer and may rely on such investment directions without verifying the suitability or legality of such investment and any deposit or investment directed by the Issuer shall constitute a certification by the Issuer that the assets so deposited or to be purchased pursuant to such directions are Qualified Investments. In making any investment in any Qualified Investments with moneys in any Fund or Account established under this Indenture, the Issuer may give Written Direction to the Trustee to combine such moneys with moneys in any other Fund or Account, but solely for purposes of making such investment in such Qualified Investments.

The Trustee shall only be required to make investments of moneys held by it in the Funds and Accounts established under this Indenture in accordance with Written Directions received by the Trustee from any Authorized Officer of the Issuer. The Trustee shall be entitled to rely in good faith on any Written Direction of the Issuer as to the suitability and legality of the directed investment and any deposit or investment directed by the Issuer shall constitute a certification by the Issuer that the assets so deposited or to be purchased pursuant to such directions are Qualified Investments. In making any investment in any Qualified Investments with moneys in any Fund or Account established under this Indenture, the Issuer may give Written Direction to the Trustee to combine such moneys with moneys in any other Fund or Account, but solely for purposes of making such investment in such Qualified Investments.

Interest earned on any moneys or investments in the Funds and Accounts established hereunder shall be paid into the Revenue Fund, other than interest earned on any moneys or investments in (i) the Redemption Account in the Debt Service Fund, (ii) the Operating Fund relating to Rebate Payments, (iii) the Energy Remarketing Reserve Fund, and (iv) the Administrative Fee Fund. Such interest shall be held in such respective Fund or Account for the purposes thereof. If no written investment directions have been delivered to the Trustee for any Fund or Account, moneys shall be held there uninvested by the Trustee.

Nothing in this Indenture shall prevent any Qualified Investments acquired as investments of or security for Funds held under this Indenture from being issued or held in book-entry form on the books of the Department of the Treasury of the United States.

Nothing in this Indenture shall preclude the Trustee from investing or reinvesting moneys that it holds in the Funds and Accounts established pursuant to this Indenture through its bond department; *provided, however*, that the Issuer may, in its discretion, give a Written Direction to the Trustee that such moneys be invested or reinvested in a manner other than through such bond department.

To the extent any Qualified Investment is insured, guaranteed or otherwise supported by any secondary facility, the Trustee shall make a claim under such facility at such time as shall be required to receive payment thereunder not later than the date required to make any necessary deposit pursuant to Section 5.05 or Section 5.09 or otherwise under Article V.

Section 6.04. Valuation and Sale of Investments. Obligations purchased as an investment of moneys in any Fund created under the provisions of this Indenture shall be deemed at all times to be a part of such Fund and any profit realized from the liquidation of such investment shall be credited to such Fund, and any loss resulting from the liquidation of such investment shall be charged to the respective Fund.

In computing the amount in any Fund created under the provisions of this Indenture for any purpose provided in this Indenture, obligations purchased as an investment of moneys therein shall be valued at the lower of market value or the amortized cost thereof. The accrued interest paid in connection with the purchase of any obligation shall be included in the value thereof until interest on such obligation is paid. Such computation shall be determined at the Written Direction of the Issuer to the Trustee as of each Principal Installment payment date and at such other times as the Issuer shall reasonably determine. Guaranteed investment contracts or similar agreements

shall be valued at their face value to the extent that they provide for withdrawals without market adjustment or penalty when they are required to provide payment pursuant to this Indenture.

Except as otherwise provided in this Indenture, the Trustee shall use reasonable efforts to sell at the best price obtainable, or present for redemption, any obligation so purchased as an investment whenever it shall be requested to do so by a Written Request of the Issuer. Whenever it shall be necessary in order to provide moneys to meet any payment or transfer from any Fund held by the Trustee or the Issuer, the Issuer or the Trustee at the Written Direction of the Issuer shall use reasonable efforts to sell at the best price obtainable or present for redemption such obligation or obligations designated by an Authorized Officer in a Written Direction of the Issuer to the Trustee as necessary to provide sufficient moneys for such payment or transfer. The Issuer acknowledges that, to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grants the Issuer the right to receive from the Trustee brokerage confirmations of security transactions as they occur, the Issuer specifically waives receipt of such confirmations to the extent permitted by law. The Trustee shall not be required to provide any brokerage information.

The Trustee shall not be liable or responsible for any loss, fee, tax or other charge resulting from any such investment, sale or presentation for redemption made in the manner provided above in Section 6.02, Section 6.03 or Section 6.04. In the event of any such loss, fee, tax or other charge, the Issuer shall pay such amount to the Trustee to be credited as part of the monies originally invested.

ARTICLE VII

PARTICULAR COVENANTS OF THE ISSUER

The Issuer covenants and agrees with the Trustee and the Bondholders as follows:

Section 7.01. Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid, but solely from the Trust Estate, the principal or Redemption Price, if any, of every Bond and the interest thereon, at the dates and places and in the manner provided in the Bonds, according to the true intent and meaning thereof.

Section 7.02. Extension of Payment of Bonds. The Issuer shall not directly or indirectly extend or assent to the extension of the maturity of any of the Bonds or the time of payment of any claims for interest by the purchase or funding of such Bonds or claims for interest or by any other arrangement, and in case the maturity of any of the Bonds or the time for payment of any such claims for interest shall be extended, such Bonds or claims for interest shall not be entitled, in case of any default under this Indenture, to the benefit of this Indenture or to any payment out of Revenues or Funds established by this Indenture, including the investment income, if any, thereof, pledged under this Indenture or the moneys (except moneys held in trust for the payment of particular Bonds or claims for interest pursuant to this Indenture) held by the Fiduciaries, except subject to the prior payment of the principal of all Bonds Outstanding the maturity of which has not been extended and of such portion of the accrued interest on the Bonds as shall not be represented by such extended claims for interest.

Section 7.03. Offices for Servicing Bonds. Pursuant to Section 2.02, the Issuer has appointed the Trustee as Bond Registrar and Paying Agent for the Bonds and the Trustee hereby accepts such appointments. The Trustee shall at all times maintain one or more agencies or offices where Bonds may be presented for registration exchange or transfer, where principal and Redemption Price of and interest on the Bonds may be paid, where reports, statements and other documents furnished to the Trustee hereunder may be inspected and where notices, demands and other documents may be served upon the Issuer in respect of the Bonds or of this Indenture, and the Trustee shall continuously maintain or make arrangements to provide such services. The Issuer shall maintain one or more offices or agencies where notices, demands and other documents may be served upon the Issuer in respect of the Bonds or this Indenture, and the Issuer shall continuously maintain or make arrangements to provide such services.

Section 7.04. Further Assurance. At any and all times the Issuer shall, as far as it may be authorized by law, comply with any reasonable request of the Trustee to pass, make, do, execute, acknowledge and deliver all and every such further resolutions, acts, deeds, conveyances, assignments, transfers and assurances as may be necessary or desirable for the better assuring, conveying, granting, pledging, assigning and confirming all and singular the rights, Revenues and other moneys, securities and funds hereby pledged, or intended so to be, or which the Issuer may become bound to pledge.

Section 7.05. Power To Issue Bonds and Pledge the Trust Estate. The Issuer is duly authorized under all applicable laws to create and issue the Bonds and to execute and deliver this Indenture and to pledge the Trust Estate, in the manner and to the extent provided in this Indenture. Except to the extent otherwise provided in or contemplated by this Indenture, the Trust Estate will be free and clear of any pledge, lien, charge or encumbrance thereon or with respect thereto prior to, or of equal rank with, the security interest, the pledge and assignment created by this Indenture, and all action on the part of the Issuer to that end has been and will be duly and validly taken. The Bonds and the provisions of this Indenture are and will be the valid and legally enforceable limited obligations of the Issuer in accordance with their terms and the terms of this Indenture. The Issuer shall at all times, to the extent permitted by law, defend, preserve and protect the pledge of the Revenues and other moneys, securities and funds pledged under this Indenture and all the rights of the Bondholders under this Indenture against all claims and demands of all Persons whomsoever.

Section 7.06. Power To Fix and Collect Fees and Charges for the Sale of Energy. The Issuer has, and, to the extent permitted by law, will have as long as any Bonds are Outstanding, good right and lawful power to fix, establish, maintain and collect fees and charges for the sale of Energy or otherwise with respect to the Clean Energy Project, subject to the terms of the Power Supply Contracts.

Section 7.07. Creation of Liens. Except as expressly permitted under the terms of this Indenture, for so long as any Bonds are Outstanding, the Issuer shall not, without a Rating Confirmation, issue any bonds, notes, debentures or other evidences of indebtedness of similar nature payable from or secured by a pledge and assignment of the Trust Estate, other than the Bonds and bonds, notes, debentures or other evidences of indebtedness issued to refund Outstanding Bonds, or otherwise incur obligations other than those contemplated by this Indenture, the Energy Purchase Agreement, the Power Supply Contracts, the Issuer Custodial Agreements,

the Commodity Swaps, any Interest Rate Swaps and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments), payable out of or secured by a pledge or assignment of, or lien on, the Trust Estate; and, except as expressly permitted under the terms of this Indenture, shall not, without a Rating Confirmation, create or cause to be created any lien or charge on the Trust Estate except as provided in or contemplated by this Indenture, the Energy Purchase Agreement, the Power Supply Contracts, the Issuer Custodial Agreements, the Commodity Swaps, any Interest Rate Swap and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments); provided, however, that nothing contained in this Indenture shall prevent the Issuer from entering into or issuing, if and to the extent permitted by law (A) evidences of indebtedness (1) payable out of moneys in the Project Fund as part of the Cost of Acquisition or (2) payable out of or secured by a pledge and assignment of the Trust Estate or any part thereof to be derived on and after such date as the pledge of the Trust Estate provided in this Indenture shall be discharged and satisfied as provided in Section 12.01, or (B) Commodity Swaps and any Interest Rate Swaps upon the terms and conditions set forth herein.

Section 7.08. [Reserved].

Section 7.09. Limitations on Operating Expenses and Other Costs. The Issuer shall not incur Operating Expenses in any Fiscal Year in excess of the reasonable and necessary amount of such Operating Expenses.

Section 7.10. Amendments to Power Supply Contracts. The Issuer will not consent or agree to or permit any termination or rescission of, assignment or novation (in whole or in part) by a Project Participant of, or amendment to or otherwise take any action under or in connection with any Power Supply Contract that will impair the ability of the Issuer to collect Revenues in each Fiscal Year which, together with the other amounts available therefor, shall provide an amount sufficient to pay:

(a) The amount estimated by the Issuer to be required to be paid during such Fiscal Year into the Operating Fund;

(b) The amounts, if any, required to be paid during such Fiscal Year into the Debt Service Fund other than any such amounts which the Issuer anticipates shall be transferred from other Funds or Accounts;

(c) The amounts, if any, to be paid during such Fiscal Year into any other Fund established under Section 5.02; and

(d) All other charges or liens whatsoever payable out of Revenues during such Fiscal Year;

provided that:

(i) the Issuer may take any other action under or in connection with the Power Supply Contracts that is expressly permitted pursuant to the provisions thereof;

(ii) the Issuer and a Project Participant may amend the Power Supply Contracts to change any Delivery Point (as defined and provided therein);

(iii) a Power Supply Contract may be amended upon receipt of (A) a Rating Confirmation with respect to such amendment, and (B) to the extent such amendment would have a material adverse effect (including, but not limited to, a change in the timing of payments, the source of such payments, or the Issuer's rights of collection thereof) upon the Receivables Purchase Provisions or a Commodity Swap, the consent of the Energy Supplier or applicable Commodity Swap Counterparty, respectively, such consent not to be unreasonably withheld or delayed;

(iv) the Issuer may agree to an assignment or novation of all or a portion of a Project Participant's rights and obligations under a Power Supply Contract upon (A) compliance with the restrictions on assignment set forth in such Power Supply Contract, and (B) receipt of a Rating Confirmation with respect to such assignment or novation; and

(v) a Power Supply Contract may also be amended in connection with a remediation pursuant to Section 18.3(b) of the Energy Purchase Agreement.

Section 7.11. Power Supply Contract; Energy Remarketing. (a) The Issuer shall cause all Revenues payable by the Project Participants under the Power Supply Contracts to be payable directly to the Trustee for deposit into the Revenue Fund or custodial accounts established pursuant to Section 5.02(b). The Issuer shall enforce the provisions of the Power Supply Contracts, as well as any other contract or contracts entered into relating to the Clean Energy Project, and duly perform its covenants and agreements thereunder.

(b) In the event that any Project Participant fails to pay when due any amounts owed to the Issuer under a Power Supply Contract, the Issuer shall:

(i) promptly exercise its right to suspend all Energy deliveries to such Project Participant; and

(ii) promptly give notice to the Energy Supplier to follow the provisions set forth in the Remarketing Exhibit to the Energy Purchase Agreement for each Month of such suspension with respect to the quantities of Energy for which deliveries have been suspended.

(c) In the event that any Project Participant delivers a Remarketing Election Notice (as defined in each Power Supply Contract) in respect of any Reset Period, then the Issuer will promptly give notice to the Energy Supplier to follow the provisions set forth in the Remarketing Provisions for each month of such Reset Period with respect to any quantities of Energy that would otherwise have been delivered to such Project Participant.

(d) For the avoidance of doubt, as of the date of this Indenture, the Power Supply Contracts with the Project Participants set forth on Schedule I shall be the only Power Supply Contracts until such time, if any, that an assignment or novation occurs in accordance with the requirements set forth above. Without prejudice to the rights of the Energy Supplier to remarket

Energy under the Energy Purchase Agreement or to an assignment or novation of a Power Supply Contract in compliance with this Section 7.11, the Issuer may sell the quantities of Energy to be delivered under the Energy Purchase Agreement only pursuant to the Power Supply Contracts. A copy of each Power Supply Contract and any amendment to a Power Supply Contract, certified by an Authorized Officer, shall be filed with the Trustee.

Section 7.12. Energy Purchase Agreement. (a) The Issuer shall enforce the provisions of the Energy Purchase Agreement and duly perform its covenants and agreements thereunder.

(b) The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of the Energy Supplier under the Energy Purchase Agreement. The Issuer shall provide the Trustee with Written Notice of the Early Termination Payment Date (i) on the date on which a Failed Remarketing occurs, and (ii) in all other cases, not more than five (5) Business Days after such date is determined.

(c) The Issuer will not consent or agree to or permit any assignment of, rescission of or amendment to or otherwise take any action under or in connection with the Energy Purchase Agreement which will in any manner materially impair or materially adversely affect the rights of the Issuer thereunder or the rights or security of the Bondholders under this Indenture; *provided* that the Energy Purchase Agreement may be assigned or amended without Bondholder consent upon receipt of a Rating Confirmation with respect to such assignment or amendment. The Energy Purchase Agreement may also be amended in connection with a remediation pursuant to Section 18.3(b) of the Energy Purchase Agreement. Copies of the Energy Purchase Agreement and any amendments thereto, certified by an Authorized Officer, shall be filed with the Trustee.

(d) The Issuer has the right, pursuant to the Energy Supplier LLCA to appoint a director (the “Issuer-Appointed Director”) to the board of directors of the Energy Supplier. In any vote that comes before the board of directors of the Energy Supplier regarding the Energy Supplier Documents, the Issuer shall instruct the Issuer-Appointed Director to exercise its voting rights in favor of the Energy Supplier (i) observing and performing its obligations under the Energy Purchase Agreement and (ii) enforcing the provisions of the other Energy Supplier Documents and (iii) not permitting any assignment of, rescission of or amendment to or waiver of the Energy Supplier Documents which will in any manner materially impair or materially adversely affect the rights of the Issuer thereunder or the rights or security of the Bondholders under this Indenture.

Section 7.13. [Reserved].

Section 7.14. Commodity Swaps. The Issuer shall cause all Commodity Swap Receipts and any other amounts payable to the Issuer pursuant to the Commodity Swaps to be collected and paid directly to the Trustee for deposit into the Revenue Fund. The Issuer shall enforce the provisions of the Commodity Swaps and duly perform its covenants and agreements thereunder. The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of a Commodity Swap Counterparty under a Commodity Swap. The Issuer will not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with a Commodity Swap that will impair the ability of the Issuer to comply during the current or any future year with the provisions hereof. The Issuer shall only exercise its right to terminate a Commodity Swap in compliance with Section 2.12(b). A copy

of each Commodity Swap certified by an Authorized Officer shall be filed with the Trustee, and a copy of any amendment to a Commodity Swap, certified by an Authorized Officer, shall be filed with the Trustee.

Section 7.15. Interest Rate Swap. The Issuer shall cause all Interest Rate Swap Receipts or other amounts payable to the Issuer pursuant to the Interest Rate Swap to be collected and paid to the Trustee for deposit into the Debt Service Account. The Issuer shall enforce the provisions of the Interest Rate Swap and duly perform its covenants and agreements thereunder. The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of the Interest Rate Swap Counterparty under the Interest Rate Swap. The Issuer will not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with the Interest Rate Swap that will impair the ability of the Issuer to comply during the current or any future year with the provisions hereof. The Issuer shall only exercise its right to terminate the Interest Rate Swap in compliance with Section 2.13(b). A copy of the Interest Rate Swap certified by an Authorized Officer shall be filed with the Trustee, and a copy of any amendment to the Interest Rate Swap, certified by an Authorized Officer, shall be filed with the Trustee.

Section 7.16. Accounts and Reports. (a) The Issuer shall keep or cause to be kept with respect to the Clean Energy Project proper books of record and account (separate from all other records and accounts) in accordance with generally accepted accounting principles, as such may be modified by the provisions of this Indenture, in which complete and correct entries shall be made of its transactions relating to the Clean Energy Project, the amount of Revenues and the application thereof and each Fund and Account established under this Indenture and relating to its costs and charges under the Power Supply Contracts and any other contracts for the sale or purchase of Energy, and which, together with the Energy Purchase Agreement and all contracts and all other books and papers of the Issuer relating to the Clean Energy Project, shall, subject to the terms thereof, at all times during regular business hours be subject to the inspection of the Trustee and the Holders of an aggregate of not less than 5% in principal amount of the Bonds then Outstanding or their representatives duly authorized in writing.

(b) The Trustee shall advise the Issuer promptly after the end of each month of the respective transactions during such month relating to each Fund and Account held by it under this Indenture.

(c) The Issuer shall file with the Trustee (i) forthwith upon becoming aware of any Event of Default or default in the performance by the Issuer of any covenant, agreement or condition contained in this Indenture, a Written Certificate of the Issuer and specifying such Event of Default or default and (ii) within 180 days after the end of each Fiscal Year, commencing with the first Fiscal Year ending following the issuance of the Bonds, a Written Certificate of the Issuer signed by an appropriate Authorized Officer stating whether, to the best of such Authorized Officer's knowledge and belief, the Issuer has kept, observed, performed and fulfilled its covenants and obligations contained in this Indenture and that there does not exist at the date of such certificate any default by the Issuer under this Indenture or any Event of Default or other event which, with the lapse of time specified in Section 8.01, would become an Event of Default, or, if any such default or Event of Default or other event shall so exist, specifying the same and the nature and status thereof.

(d) The reports, statements and other documents required to be furnished to the Trustee pursuant to any provisions of this Indenture shall be available for the inspection of Bondholders at all times during regular business hours at the designated corporate trust office of the Trustee (upon reasonable prior written notice of inspection delivered to the Trustee), subject to such reasonable regulations as the Trustee may from time to time determine to be advisable or required by law, and shall be mailed to each Bondholder who shall file a written request therefor with the Issuer. The Issuer may charge each Bondholder requesting such reports, statements and other documents a reasonable fee to cover reproduction, handling and postage.

Section 7.17. Payment of Taxes and Charges. The Issuer will from time to time duly pay and discharge, or cause to be paid and discharged, all taxes, assessments and other governmental charges, or required payments in lieu thereof, lawfully imposed upon the properties of the Issuer or upon the rights, revenues, income, receipts, and other moneys, securities and funds of the Issuer when the same shall become due (including all rights, moneys and other property transferred, assigned or pledged under this Indenture), and all lawful claims for labor and material and supplies, except those taxes, assessments, charges or claims which the Issuer shall in good faith contest by proper legal proceedings if the Issuer shall in all such cases have set aside on its books reserves deemed adequate by the Issuer with respect thereto.

Section 7.18. Tax Covenants. (a) The Issuer covenants that it shall not take any action, or fail to take any action, or permit any action to be taken on its behalf or cause or permit any circumstance within its control to arise or continue, if any such action or inaction would adversely affect the exclusion from gross income for federal income tax purposes of the interest on any of the Bonds under Section 103 of the Internal Revenue Code and the applicable Treasury Regulations promulgated thereunder or, as applicable, would adversely affect the Subsidy Payments or receipt thereof by the Issuer or the Trustee. Without limiting the generality of the foregoing, the Issuer covenants that it will (i) comply with the instructions and requirements of the Tax Agreement and (ii) exercise commercially reasonable efforts to cause the Bonds to be redeemed (A) in such amount as may be necessary to maintain the exclusion from federal gross income of interest on the Bonds and (B) in whole in the event that interest on the Bonds becomes includible in federal gross income. The Issuer further agrees to follow any directions provided by Special Tax Counsel with respect to any such redemption. This covenant shall survive payment in full or defeasance of the Bonds.

(b) In the event that at any time the Issuer is of the opinion that for purposes of this Section it is necessary or helpful to restrict or limit the yield on the investment of any moneys held by the Trustee under this Indenture, the Issuer shall so instruct the Trustee in writing as to the specific actions to be taken, and the Trustee shall take such action as specified in such instructions.

(c) Notwithstanding any other provisions of this Section, if the Issuer shall provide to the Trustee an Opinion of Special Tax Counsel that any specified action required under this Section is no longer required or that some further or different action is required to maintain the exclusion from federal income tax of interest on the Bonds or the qualification of the Issuer to receive Subsidy Payments with respect to the applicable Series of Bonds, the Issuer and the Trustee may conclusively rely on such opinion in complying with the requirements of this Section and of the Tax Agreement, and the covenants hereunder shall be deemed to be modified to that extent.

(d) Notwithstanding any other provision of this Indenture to the contrary, upon the Issuer's failure to observe or refusal to comply with the above covenants, the Holders of the Bonds, or the Trustee acting on their behalf pursuant to their written request and direction, shall be entitled to the rights and remedies provided to Bondholders under this Indenture based upon the Issuer's failure to observe, or refusal to comply with, the above covenants. In connection with any action taken by it under this Section, the Trustee shall have the benefit of all of the protective provisions set forth in Article IX.

Section 7.19. General. (a) The Issuer shall at all times maintain its existence and shall do and perform or cause to be done and performed all acts and things required to be done or performed by or on behalf of the Issuer under the provisions of the Act and this Indenture.

(b) The Issuer shall not consolidate or amalgamate with, or merge with or into, or transfer all or substantially all its assets to (other than the sale in the normal course of business of Energy to the Project Participants pursuant to the Power Supply Contracts), or reorganize, reincorporate or reconstitute into or as, another entity unless, (i) prior to such event, the Issuer receives confirmation from each Commodity Swap Counterparty that such event does not trigger a termination event under Section 5(b)(iv) of the respective Commodity Swap and confirmation from the Interest Rate Swap Counterparty that such event does not trigger a termination event under Section 5(b)(iv) of the Interest Rate Swap; and (ii) at the time of such consolidation, amalgamation, merger, transfer, reorganization, reincorporation or reconstitution, the resulting, surviving or transferee entity assumes all the obligations of the Issuer under the Commodity Swaps and the Interest Rate Swap.

(c) The Issuer shall not take any action, or fail to take any action, or permit any action to be taken on its behalf or cause or permit any circumstance within its control to arise or continue, if any such action or inaction would adversely affect the ratings on the Bonds.

(d) Upon the date of authentication and delivery of any of the Bonds, all conditions, acts and things required by law and this Indenture to exist, to have happened and to have been performed precedent to and in the issuance of such Bonds shall exist, have happened and have been performed, and the issuance of such Bonds, together with all other obligations of the Issuer, shall comply in all respects with the applicable laws of the State.

Section 7.20. Bankruptcy. To the extent permitted by law, the Issuer shall not, prior to the date which is one year and one day after the termination of this Indenture, acquiesce, petition, or otherwise invoke the process of any court or government authority for the purpose of commencing or sustaining a case under any federal or state bankruptcy, insolvency, or similar law or appointing a receiver, liquidator, assignee, trustee, custodian or sequestrator for any substantial part of its property, or ordering the winding up or liquidation of the affairs of the Issuer. This covenant shall survive the termination of this Indenture.

Section 7.21. [Reserved].

Section 7.22. [Reserved].

Section 7.23. Avoidance of Failed Remarketing. The Issuer covenants that it will exercise commercially reasonable efforts to avoid a Failed Remarketing.

ARTICLE VIII

EVENTS OF DEFAULT AND REMEDIES

Section 8.01. Events of Default. Any one or more of the following shall constitute an “Event of Default” hereunder:

(a) default shall be made in the due and punctual payment of the principal or Redemption Price or Purchase Price of any Bond when and as the same shall become due and payable, whether at maturity or by call for redemption or tender, or otherwise;

(b) default shall be made in the due and punctual payment of any installment of interest on any Bond or the unsatisfied balance of any Sinking Fund Installment therefor (except when such Sinking Fund Installment is due on the maturity date of such Bond), when and as such interest installment or Sinking Fund Installment shall become due and payable;

(c) default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in this Indenture or in the Bonds contained, and such default shall continue for a period of 60 days or, if such default cannot reasonably be remedied within such 60-day period, such longer period so long as diligent efforts are being made to remedy such default, after written notice thereof specifying such default and requiring that it shall have been remedied and stating that such notice is a “Notice of Default” hereunder is given to the Issuer by the Trustee or to the Issuer and to the Trustee by the Holders of not less than 10% in principal amount of the Bonds Outstanding;

(d) default shall be made in the due and punctual payment of any Commodity Swap Payment or Interest Rate Swap Payment when and as the same shall become due and payable;

(e) the Issuer shall commence a voluntary case or similar proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect (*provided, however,* that such event shall not constitute an Event of Default hereunder unless in addition, (i) the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature or (ii) any plan of adjustment or other action in such proceeding would affect in any way the Revenues or the Clean Energy Project, or shall authorize, apply for or consent to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian, sequestrator or similar official for the Clean Energy Project, or any part thereof, and/or the rents, fees, charges or other revenues therefrom, or shall make any general assignment for the benefit of creditors, or shall make a written declaration or admission to the effect that it is unable to meet its debts with respect to the Clean Energy Project as such debts mature, or shall authorize or take any action in furtherance of any of the foregoing;

(f) a court having jurisdiction in the premises shall enter a decree or order for relief in respect of the Issuer in an involuntary case or similar proceeding under any

applicable bankruptcy, insolvency or other similar law now or hereafter in effect, *(provided, however,* that such event shall not constitute an Event of Default hereunder unless in addition, (i) the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature or (ii) any plan of adjustment or other action in such proceeding would affect in any way the Revenues or the Clean Energy Project, or a decree or order appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official for the Clean Energy Project, or any part thereof, and/or the rents, fees, charges or other revenues therefor, or a decree or order for the dissolution, liquidation or winding up of the Issuer and its affairs or a decree or order finding or determining that the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature, and any such decree or order shall remain unstayed and in effect for a period of 90 consecutive days; and

(g) there shall occur any other Event of Default specified in a Supplemental Indenture.

Section 8.02. Accounting and Examination of Records After Default. (a) The Issuer covenants that if an Event of Default shall have happened and shall not have been remedied, the books of record and accounts of the Issuer and all other records relating to the Clean Energy Project shall at all times during regular business hours be subject to the inspection and use of the Trustee and of its agents and attorneys.

(b) The Issuer covenants that if an Event of Default shall have happened and shall not have been remedied, the Issuer, upon demand of the Trustee, will account, as if it were the trustee of an express trust, for all Revenues and other moneys, securities and funds pledged or held under this Indenture for such period as shall be stated in such demand.

Section 8.03. Enforcement of Agreements; Application of Moneys after Default. (a) The Issuer covenants that, if an Event of Default shall have occurred and be continuing, it shall upon the demand of the Trustee (i) take such additional actions on its part as shall be necessary to cause all Project Participants to make payments of all amounts due under the Power Supply Contracts to the Trustee, (ii) take such additional actions on its part as shall be necessary to cause the Commodity Swap Counterparties to make payment of all amounts due under the Commodity Swaps directly to the Trustee, (iii) take such additional actions on its part as shall be necessary to cause the Interest Rate Swap Counterparty to make payment of all amounts due under the Interest Rate Swap directly to the Trustee, (iv) execute and deliver such additional instruments that may be necessary to establish or confirm its pledge and assignment to the Trustee of its rights and remedies afforded the Issuer under the Power Supply Contracts, and (v) pay over or cause to be paid over to the Trustee any Revenues which have not been paid directly to the Trustee as promptly as practicable after receipt thereof. In addition, to secure its obligations under this Indenture, the Issuer hereby irrevocably pledges and collaterally assigns to the Trustee the Issuer's rights to issue notices (including notices to direct the remarketing of Energy) and to take any other actions that the Issuer is required or permitted to take under the Energy Purchase Agreement, the Power Supply Contracts, the Commodity Swaps and any Interest Rate Swap, and, while an Event of Default has occurred and is continuing under this Indenture, the Trustee is hereby authorized and directed, and shall have the authority, to take any such actions as it deems necessary under the Energy Purchase Agreement, the Power Supply Contracts, the Commodity Swaps and any Interest Rate Swap.

Notwithstanding this authorization, the Issuer shall retain, in the absence of any conflicting action by the Trustee while an Event of Default has occurred and is continuing, the right and obligation to exercise any rights which it has pledged and collaterally assigned to the Trustee in accordance with the foregoing; provided, however, if an Event of Default has occurred and is continuing, the Trustee shall have the right to notify the Issuer to cease exercising such rights and, upon receipt of such notice with a copy provided to the Energy Supplier under the Energy Purchase Agreement, the Project Participants under the Power Supply Contracts, and the Commodity Swap Counterparties under the Commodity Swaps, subject to the rights of the Energy Supplier with respect to the Power Supply Contracts as set forth in the Receivables Purchase Provisions, the Trustee shall have exclusive authority to exercise such rights until such time as the Event of Default has been cured pursuant to the terms of this Indenture or the Trustee issues a subsequent notice otherwise. For the avoidance of doubt, the Energy Purchase Agreement, the Power Supply Contracts and the Commodity Swaps may be amended at any time for changes in Delivery Points as provided therein, without the consent of the Bondholders, any parties other than those to the relevant agreement, and without the provision of opinions or other process hereunder.

(b) During the continuance of an Event of Default, the Trustee shall apply all moneys, securities, funds and Revenues received by the Trustee pursuant to any right given or action taken under the provisions of this Article in accordance with Article V of this Indenture, after the payment of the fees, charges, expenses and liabilities of the Fiduciaries (including court costs and the fees and expenses of the Fiduciaries' counsel) payable to or incurred by the Fiduciaries in connection with the performance of their duties and the exercise of their rights hereunder, *provided* that (1) moneys held in the Debt Service Account shall not be used for purposes other than payment of the interest and principal or Redemption Price then due on the Bonds and the payment of Interest Rate Swap Payments then due under the Interest Rate Swap, (2) moneys in the Commodity Swap Payment Fund shall be used first to pay any Commodity Swap Payments then due, (3) moneys held in the General Reserve Fund shall not be used other than for the payment of the items specified in Section 5.10(a), and (4) moneys held in the Administrative Fee Fund shall not be used other than as specified in Section 5.14.

(c) If and whenever all overdue installments of interest on all Bonds, together with the charges, expenses and liabilities of the Fiduciaries, and all other sums payable or secured by the Issuer under this Indenture, including the principal and Redemption Price of and accrued unpaid interest on all Bonds which shall then be payable by declaration or otherwise, shall either be paid by or for the account of the Issuer, or provisions satisfactory to the Trustee shall be made for such payment, and all defaults under this Indenture or the Bonds shall be made good or secured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall be made therefor, the Trustee shall pay over to the Issuer all moneys, securities and funds then remaining unexpended in the hands of the Trustee (except moneys, securities and funds deposited or pledged, or required by the terms of this Indenture, particularly Section 5.02, to be deposited or pledged, with the Trustee), and thereupon the Issuer and the Trustee shall be restored, respectively, to their former positions and rights under this Indenture. No such payment over to the Issuer by the Trustee nor restoration of the Issuer and the Trustee to their former positions and rights shall extend to or affect any subsequent default under this Indenture or impair any right consequent thereon.

Section 8.04. Appointment of Receiver. The Trustee shall have the right, upon the happening of an Event of Default, to apply in an appropriate proceeding for the appointment of a receiver of the Clean Energy Project.

Section 8.05. Proceedings Brought by Trustee. (a) If an Event of Default shall happen and shall not have been remedied, then and in every such case, the Trustee, by its agents and attorneys, may proceed, and upon written request of the Holders of not less than a majority in principal amount of the Bonds Outstanding and upon being indemnified to its satisfaction shall proceed, to protect and enforce its rights and the rights of the Holders of the Bonds under this Indenture forthwith by a suit or suits in equity or at law, whether for the specific performance of any covenant herein contained, or in aid of the execution of any power herein granted, or for an accounting against the Issuer as if the Issuer were the trustee of an express trust, or in the enforcement of any other legal or equitable right as the Trustee, being advised by counsel, shall deem most effectual to enforce any of its rights or to perform any of its duties under this Indenture.

(b) All rights of action under this Indenture may be enforced by the Trustee without the possession of any of the Bonds or the production thereof at the trial or other proceedings, and any such suit or proceedings instituted by the Trustee shall be brought in its name.

(c) The Holders of not less than a majority in principal amount of the Bonds at the time Outstanding may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee, *provided that* the Trustee shall have the right to decline to follow any such direction if the Trustee shall be advised by counsel that the action or proceeding so directed may not lawfully be taken, or if the Trustee in good faith shall determine that the action or proceeding so directed would involve the Trustee in personal liability or be unjustly prejudicial to the Bondholders not parties to such direction.

(d) Upon commencing a suit in equity or upon other commencement of judicial proceedings by the Trustee to enforce any right under this Indenture, the Trustee shall be entitled to exercise any and all rights and powers conferred in this Indenture and provided to be exercised by the Trustee upon the occurrence of any Event of Default.

(e) Regardless of the happening of an Event of Default, the Trustee shall have power to, but unless requested in writing by the Holders of a majority in principal amount of the Bonds then Outstanding and furnished with reasonable security and indemnity, shall be under no obligation to, institute and maintain such suits and proceedings as it may be advised shall be necessary or expedient to prevent any impairment of the security under this Indenture by any acts which may be unlawful or in violation of this Indenture, and such suits and proceedings as the Trustee may be advised shall be necessary or expedient to preserve or protect its interests and the interests of the Bondholders.

Section 8.06. Restriction on Bondholder's Action. (a) No Holder of any Bond shall have any right to institute any suit, action or proceeding at law or in equity for the enforcement of any provision of this Indenture or the execution of any trust under this Indenture or for any remedy under this Indenture, unless such Holder (i) shall have previously given to the Trustee written notice of the happening of an Event of Default, as provided in this Article, and the Holders of at

least a majority in principal amount of the Bonds then Outstanding shall have filed a written request with the Trustee, (ii) shall have offered it reasonable opportunity, either to exercise the powers granted in this Indenture or by the laws of the State or to institute such action, suit or proceeding in its own name, and (iii) shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby, and the Trustee shall have refused to comply with such request for a period of 60 days after receipt by it of such notice, request and offer of indemnity, it being understood and intended that no one or more Holders of Bonds shall have any right in any manner whatever by its or their action to affect, disturb or prejudice the pledge created by this Indenture, or to enforce any right under this Indenture, except in the manner therein provided; and that all proceedings at law or in equity to enforce any provision of this Indenture shall be instituted, had and maintained in the manner provided in this Indenture and for the equal benefit of all Holders of the Outstanding Bonds, subject only to the provisions of Section 7.02.

(b) Nothing in this Indenture or in the Bonds shall affect or impair the obligation of the Issuer, which is absolute and unconditional, to pay only from the Trust Estate, in accordance with the terms of this Indenture, at the respective dates of maturity and places therein expressed the principal of (and premium, if any) and interest on the Bonds to the respective Holders thereof, or affect or impair the right of action, which is also absolute and unconditional, of any Holder to enforce such payment of its Bond.

Section 8.07. Remedies Not Exclusive. No remedy by the terms of this Indenture conferred upon or reserved to the Trustee or the Bondholders is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Indenture or existing at law or in equity or by statute on or after the date of execution and delivery of this Indenture.

Section 8.08. Effect of Waiver and Other Circumstances. (a) No delay or omission of the Trustee or any Bondholder to exercise any right or power arising upon the happening of an Event of Default shall impair any right or power or shall be construed to be a waiver of any such Event of Default or be an acquiescence therein; and every power and remedy given by this Article VIII to the Trustee or to the Bondholders may be exercised from time to time and as often as may be deemed expedient by the Trustee or by the Bondholders.

(b) Prior to the declaration of maturity of the Bonds as provided in Section 8.01, the Holders of not less than a majority in principal amount of the Bonds at the time Outstanding, or their attorneys-in-fact duly authorized, may on behalf of the Holders of all of the Bonds waive any past default under this Indenture and its consequences, except a default in the payment of interest on or principal of or premium (if any) on any of the Bonds. No such waiver shall extend to any subsequent or other default or impair any right consequent thereon.

Section 8.09. Notice of Default. The Trustee shall promptly mail written notice of the occurrence of any Event of Default to each registered owner of Bonds then Outstanding at its address, if any, appearing upon the registry books of the Issuer.

ARTICLE IX

CONCERNING THE FIDUCIARIES

Section 9.01. Acceptance by Trustee of Duties. The Trustee accepts the duties and obligations imposed upon it by this Indenture and the trusts hereby created, but only, however, upon the terms and conditions set forth in this Indenture.

Section 9.02. Paying Agents; Appointment and Acceptance of Duties. (a) The Issuer shall appoint one or more Paying Agents for the Bonds, and may at any time or from time to time appoint one or more other Paying Agents. All Paying Agents appointed shall have the qualifications set forth in Section 9.13 for a successor Paying Agent. The Trustee is hereby appointed as initial Paying Agent.

(b) Each Paying Agent shall signify its acceptance of the duties and obligations imposed upon it by this Indenture by executing and delivering to the Issuer and to the Trustee a written acceptance thereof.

(c) Unless otherwise provided, the principal corporate trust offices of the Paying Agents are designated as the respective offices or agencies of the Issuer for the payment of the interest on and principal or Redemption Price of the Bonds.

Section 9.03. Responsibilities of Fiduciaries. (a) The recitals of fact herein and in the Bonds contained shall be taken as the statements of the Issuer and no Fiduciary assumes any responsibility for the correctness of the same. No Fiduciary makes any representations as to the validity or sufficiency of this Indenture or of any Bonds issued hereunder or as to the security afforded by this Indenture, and no Fiduciary shall incur any liability in respect thereof. Furthermore, no Fiduciary shall be responsible for any offering documents (except for information provided by any Fiduciary for inclusion in such offering documents). The Trustee shall, however, be responsible for its representation contained in its certificate of authentication on the Bonds. No Fiduciary shall be under any responsibility or duty with respect to the application of any moneys, including bond proceeds, paid by such Fiduciary in accordance with the provisions of this Indenture to the Issuer or to any other Person. No Fiduciary shall be under any obligation or duty to perform any act which would involve it in expense or liability or to institute or undertake any suit or proceeding under this Indenture or to enter any appearance in or defend any suit in respect thereof, or to advance any of its own moneys, expend or risk its own funds or otherwise incur any financial liability unless properly indemnified to its satisfaction against any and all costs and expenses, outlays and counsel fees and other anticipated disbursements, and against all liability except to the extent determined by a court of competent jurisdiction to have been caused by its own negligence or willful misconduct. To the extent permitted by law, the Issuer shall indemnify the Trustee for, and hold it harmless against, any loss, damage, claim, liability or expense incurred by it, arising out of or in connection with the acceptance or administration of this Indenture or the trusts hereunder, including the costs and expenses of defending itself against any claim or liability in connection with the exercise or the performance of any of its duties hereunder unless properly indemnified to its satisfaction. Subject to the provisions of subsection (b), no Fiduciary shall be liable in connection with the performance of its duties hereunder except to the extent determined by a court of competent jurisdiction to have been primarily caused by its own negligence or willful

misconduct. Notwithstanding anything to the contrary, the permissive rights of any Fiduciary to do things enumerated under this Indenture shall not be construed as duties.

(b) The Trustee, prior to the occurrence of an Event of Default and after the curing of all Events of Default which may have occurred, undertakes to perform such duties and only such duties as are specifically set forth in this Indenture. In case an Event of Default has occurred (which has not been cured) the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. Any provision of this Indenture relating to action taken or to be taken by the Trustee or to evidence upon which the Trustee may rely shall be subject to the provisions of this Section 9.03 and Section 9.04.

(c) The Trustee shall not be considered in breach of or in default in its obligations hereunder or progress in respect thereto in the event of enforced delay ("unavoidable delay") in connection with the performance of such obligations due to unforeseeable causes beyond its control and without its fault or negligence, including, but not limited to, Acts of God or of the public enemy or terrorists, acts of a government, acts of the other party, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, earthquakes, explosion, mob violence, riot, inability to procure or general sabotage or rationing of labor, equipment, facilities, sources of energy, material or supplies in the open market, litigation or arbitration involving a party or others relating to zoning or other governmental action or inaction pertaining to the project, malicious mischief, condemnation, and unusually severe weather or delays of suppliers or subcontractors due to such causes or any similar event and/or occurrences beyond the control of the Trustee.

(d) Notwithstanding anything to the contrary herein, the Issuer acknowledges and agrees that the Trustee is not acting as the disclosure or dissemination agent for purposes of Rule 15c2-12 of the Securities Exchange Act of 1934 in connection with any notice required to be posted with the Municipal Securities Rulemaking Board via its EMMA system.

Section 9.04. Evidence on Which Fiduciaries May Act. (a) Each Fiduciary may conclusively rely upon any notice, direction, ordinance, resolution, request, consent, order, certificate, report, opinion, bond, statement, facsimile transmission, electronic mail or other paper or document furnished to it pursuant to any provision of this Indenture and shall be protected in acting upon any such instrument believed by it to be genuine and to have been signed or presented by the proper party or parties and in conformity with the formal requirements of this Indenture. Each Fiduciary may consult with a consultant, accountant or counsel, who may or may not be a consultant, accountant or counsel to the Issuer, and the opinion of such consultant, accountant or counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it under this Indenture in good faith and in accordance therewith and the Trustee shall be under no duty to make any investigation or inquiry into any statements contained or matters referred to in any such instrument.

(b) Whenever any Fiduciary shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this Indenture, such matter (unless other evidence in respect thereof be therein specifically prescribed) may be deemed to be conclusively proved and established by a Written Certificate of the Issuer, and such certificate shall be full warrant for any action taken or suffered in good faith under the provisions of this Indenture upon

the faith thereof; but in its discretion the Fiduciary may in lieu thereof accept other evidence of such fact or matter or may require such further or additional evidence as it may deem reasonable. Neither the Trustee, the Bond Registrar, the tender agent, nor the Paying Agent shall be bound to recognize any Person as a Bondholder or to take any action at its request unless its Bond shall be deposited with such entity or satisfactory evidence of the ownership of such Bond shall be furnished to such entity.

(c) The Trustee shall have the right to accept and act upon directions given pursuant to this Indenture, or any other document reasonably relating to the Bonds and delivered using Electronic Means; *provided, however*, that the Issuer shall provide to the Trustee a Written Certificate of the Issuer listing Authorized Officers with the authority to provide such directions and containing specimen signatures of such Authorized Officers, which Written Certificate of the Issuer shall be amended whenever a person is to be added or deleted from the listing. If the Issuer elects to give the Trustee directions using Electronic Means and the Trustee in its discretion elects to act upon such directions, the Trustee's understanding of such directions shall be deemed controlling. The Issuer understands and agrees that the Trustee cannot determine the identity of the actual sender of such directions and that the Trustee shall conclusively presume that directions that purport to have been sent by an Authorized Officer listed on the Written Certificate of the Issuer provided to the Trustee have been sent by such Authorized Officer. The Issuer shall be responsible for ensuring that only Authorized Officers transmit such directions to the Trustee and that all Authorized Officers treat applicable user and authorization codes, passwords and/or authentication keys issued by the Trustee as confidential and with extreme care. The Trustee shall not be liable for any losses, costs or expenses arising directly or indirectly from the Trustee's reliance upon and compliance with such directions notwithstanding such directions conflict or are inconsistent with a subsequent written direction. The Issuer agrees: (i) to assume all risks arising out of the use of Electronic Means to submit directions to the Trustee, including without limitation the risk of the Trustee acting on unauthorized directions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting directions to the Trustee and that there may be more secure methods of transmitting directions; (iii) that the security procedures (if any) to be followed in connection with its transmission of directions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and (iv) to notify the Trustee immediately upon learning of any compromise or unauthorized use of the security procedures.

Section 9.05. Compensation. The Issuer shall pay or cause to be paid to each Fiduciary from time to time reasonable compensation for all services rendered under this Indenture, and also all reasonable expenses, charges, legal fees and other disbursements, including those of its attorneys, agents and employees, incurred in and about the performance of their powers and duties under this Indenture, in accordance with the agreements made from time to time between the Issuer and the Fiduciary. Subject to the provisions of Section 9.03, the Issuer further agrees, to the extent permitted by applicable law, to indemnify and save each Fiduciary harmless against any liabilities that it may incur in the exercise and performance of its powers and duties hereunder and that are not due to such Fiduciary's negligence or willful misconduct.

Section 9.06. Certain Permitted Acts. Any Fiduciary, individually or otherwise, may become the owner of any Bonds, with the same rights it would have if it were not a Fiduciary. To the extent permitted by law, any Fiduciary may act as depository for, and permit any of its officers

or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Bondholders or to effect or aid in any reorganization growing out of the enforcement of the Bonds or this Indenture, whether or not any such committee shall represent the Holders of a majority in principal amount of the Bonds then Outstanding. Nothing herein shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Bondholder any plan of reorganization, arrangement, adjustment, or composition affecting the Bonds or the rights of any Holder thereof, or to authorize the Trustee to vote in respect of the claim of any Bondholder in any such proceeding without the approval of the Bondholders so affected.

Section 9.07. Resignation of Trustee. The Trustee may at any time resign and be discharged of the duties created by this Indenture by giving not less than 60 days' written notice to the Issuer and mailing notice thereof to the Holders of Bonds then Outstanding, specifying the date when such resignation shall take effect, and such resignation shall take effect upon the day specified in such notice unless (a) previously a successor shall have been appointed by the Issuer or the Bondholders as provided in Section 9.09, in which event such resignation shall take effect immediately on the appointment of such successor, or (b) a successor shall not have been appointed by the Issuer or the Bondholders as provided in Section 9.09 on such date, in which event such resignation shall not take effect until a successor is appointed.

Section 9.08. Removal of the Trustee. The Trustee may be removed with 30 days' prior notice with or without cause by an instrument or concurrent instruments in writing, filed with the Trustee, and signed by the Holders of a majority in principal amount of the Bonds then Outstanding or their attorneys-in-fact duly authorized, excluding any Bonds held by or for the account of the Issuer. So long as no Event of Default, or an event which, with notice or passage of time, or both, would become an Event of Default, shall have occurred and be continuing, the Trustee may be removed at any time with 30 days' prior Written Notice, with or without cause, by delivery of a Written Certificate of the Issuer to the Trustee with respect to the foregoing. Notwithstanding the foregoing, any such removal of the Trustee shall not be effective until a successor Trustee has been appointed pursuant to Section 9.09.

Section 9.09. Appointment of Successor Trustee. (a) In case at any time the Trustee shall resign or shall be removed or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or if a receiver, liquidator or conservator of the Trustee, or of its property, shall be appointed, or if any public officer shall take charge or control of the Trustee, or of its property or affairs, a successor Trustee may be appointed by the Issuer by a duly executed written instrument signed by an Authorized Officer.

(b) If no appointment of a successor Trustee shall be made pursuant to the foregoing provisions of this Section within 30 days after the Trustee shall have given to the Issuer written notice as provided in Section 9.07 or within 30 days after a vacancy in the office of the Trustee shall have occurred by reason of its inability to act, removal, or for any other reason whatsoever, the Trustee or the Holder of any Bond (in any case) may apply to any court of competent jurisdiction to appoint a successor Trustee. Said court may thereupon, after such notice, if any, as such court may deem proper, appoint a successor Trustee.

(c) Any Trustee appointed under the provisions of this Section 9.09 in succession to the Trustee shall be a bank or trust company organized under the laws of any state or a national

banking association and shall have capital stock, surplus and undivided earnings aggregating at least \$100,000,000 if there be such a bank with trust powers or trust company or national banking association willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Indenture.

Section 9.10. Transfer of Rights and Property to Successor Trustee. Any successor trustee appointed under this Indenture shall execute, acknowledge and deliver to its predecessor Trustee, and also to the Issuer, an instrument accepting such appointment, and thereupon such successor Trustee, without any further act, deed or conveyance, shall become fully vested with all moneys, estates, properties, rights, powers, duties and obligations of such predecessor Trustee, with like effect as if originally named as Trustee; but the Trustee ceasing to act shall nevertheless, on the Written Request of the Issuer or of the successor Trustee, at the cost and expense of the Issuer, execute, acknowledge and deliver such instrument of conveyance and further assurance and do such other things as may reasonably be required for more fully and certainly vesting and confirming in such successor Trustee all the right, title and interest of the predecessor Trustee in and to any property, rights, interests and estates held by it under this Indenture, and shall pay over, assign and deliver to the successor Trustee any money or other property subject to the trusts and conditions herein set forth. Should any deed, conveyance or instrument in writing from the Issuer be required by such successor Trustee for more fully and certainly vesting in and confirming to such successor Trustee any such estates, rights, powers and duties, any and all such deeds, conveyances and instruments in writing shall, on request, and so far as may be authorized by law, be executed, acknowledged and delivered by the Issuer. Any such successor Trustee shall promptly notify the Paying Agents of its appointment as Trustee.

Section 9.11. Merger or Consolidation. Any company into which any Fiduciary may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which any Fiduciary may sell or transfer all or substantially all of its corporate trust business, *provided* such company shall be a bank with trust powers or trust company organized under the laws of any state of the United States or a national banking association and shall be authorized by law to perform all the duties imposed upon it by this Indenture and shall meet the qualifications set forth in Section 9.09(c), shall be the successor to such Fiduciary without the execution or filing of any paper or the performance of any further act.

Section 9.12. Adoption of Authentication. In case any of the Bonds contemplated to be issued under this Indenture shall have been authenticated but not delivered, any successor Trustee may adopt the certificate of authentication of any predecessor Trustee so authenticating such Bonds and deliver such Bonds so authenticated; and in case any of the said Bonds shall not have been authenticated, any successor Trustee may authenticate such Bonds in the name of the successor Trustee, and in all such cases such certificate shall have the full force which it is provided, anywhere in said Bonds or in this Indenture, that the certificate of the Trustee shall have.

Section 9.13. Resignation or Removal of Paying Agent and Appointment of Successor. (a) Any Paying Agent may at any time resign and be discharged of the duties and obligations created by this Indenture by giving at least 60 days' written notice to the Issuer, the Trustee and the other Paying Agents. Any Paying Agent may be removed at any time by an instrument filed with such Paying Agent and the Trustee and signed by an Authorized Officer. Any successor

Paying Agent shall be appointed by the Issuer and shall be a bank or trust company organized under the laws of any state of the United States or a national banking association, having capital stock, surplus and undivided earnings aggregating at least \$50,000,000, and willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Indenture.

(b) In the event of the resignation or removal of any Paying Agent, such Paying Agent shall pay over, assign and deliver any moneys held by it as Paying Agent to its successor, at the reasonable cost and expense of the Issuer to the extent such Paying Agent is not acting as the Trustee at the time of such resignation or removal, or if there be no successor, to the Trustee. In the event that for any reason there shall be a vacancy in the office of any Paying Agent, the Trustee shall act as such Paying Agent.

Section 9.14. Trustee's Reliance. In the absence of bad faith on its part, the Trustee may conclusively rely, and shall be protected in acting upon any notice, direction, ordinance, resolution, request, consent, order, certificate, report, opinion, bond, statement, facsimile transmission, electronic mail or other paper or document furnished to the Trustee pursuant to any provision of this Indenture and that is believed by the Trustee to be genuine and to have been signed or presented by the proper party or parties and in conformity with the formal requirements of this Indenture. The Trustee may consult with any consultant, account, or counsel, who may or may not be counsel to the Issuer, and the opinion of such consultant, accountant, or counsel shall be full and complete authorization and protection in respect of any action taken or suffered by Trustee under this Indenture in good faith and in accordance therewith. The Trustee shall be under no duty to make any investigation or inquiry into any statements contained or matters referred to in any such instrument. Any request, direction, authority or consent given by the Holders of any Bond shall be conclusive and binding upon all Holders of the same Bond and any Bond issued in its place.

Section 9.15. Trustee's Liability. (a) The Trustee shall not be liable with respect to any action taken or omitted to be taken by it in good faith, in accordance with the provisions of this Indenture, in accordance with the direction of the Holders of a majority in principal amount of the Outstanding Bonds, relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee, or, except for its negligence or willful misconduct, exercising any trust or power conferred upon the Trustee, under this Indenture with respect to the Bonds. In no event shall the Trustee be liable for indirect, incidental, special, consequential or punitive damages or penalties (including, but not limited to, lost profits).

(b) The Trustee shall not be deemed to have knowledge of an Event of Default except for those Events of Default in Sections 8.1(a) and (b) unless a Responsible Officer of the Trustee shall have actual knowledge of such Event of Default. As used herein, "actual knowledge" shall mean the actual fact or statement of knowing without any independent duty to make any investigation with regard thereto.

(c) The Trustee's rights to immunities and protection from liability hereunder and its rights to payment of its fees and expenses shall survive its resignation or removal and final payment or defeasance of the Bonds. All rights, benefits, indemnifications and releases from liability

granted herein to the Trustee shall extend to the directors, officers, employees and agents of the Trustee.

(d) Whenever in the administration of the trusts imposed upon it by this Indenture the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a Written Certificate of the Issuer, and such Written Certificate shall be full warrant to the Trustee for any action taken or suffered in good faith under the provisions of this Indenture in reliance upon such Written Instrument, but in its discretion the Trustee may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

(e) No provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in connection with the performance or exercise of any of its duties hereunder, or in the exercise of any of its rights or powers hereunder, if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it.

(f) The Trustee shall not be responsible for any recital in this Indenture or on the Bonds (except with respect to the certificate of the Trustee endorsed on the Bonds) or for insuring any property conveyed or collecting any insurance monies, or for the validity of the execution by the Issuer of this Indenture or of any supplements hereto, or instruments of further assurance, or for the sufficiency of the security for the Bonds, or for the investment of monies as herein permitted (except that no investment shall be made except in compliance with Section 6.02 and Section 6.03 hereof), or for the recording or re-recording, filing or re-filing of this Indenture, or any supplement or amendment thereto, or of any Supplemental Indentures or instruments of further assurance, or for the sufficiency of the security for the Bonds issued hereunder or intended to be secured hereby, or for the value or title of the property herein conveyed or otherwise as to the maintenance of the security hereof. Except as specifically provided in this Indenture, the Trustee shall not be bound to ascertain or inquire as to the performance or observance of any covenants, conditions, or agreements on the part of the Issuer, but the Trustee may require of the Issuer full information and advice as to the performance of such covenants. The Trustee shall not be required to give any bond or surety in respect of the execution of the said trusts and powers. Under no circumstances shall the Trustee in any of its capacities hereunder be liable in its individual capacity for the obligations evidenced by the Bonds or be subject to any personal liability or accountability by reason of the issuance of this Bond or in respect of any undertakings by the Trustee under this Indenture. In accepting the trust hereby created, the Trustee acts solely as Trustee for the holders of the Bonds and not in its individual capacity, and all persons, including without limitation the holders of the Bonds and the Issuer, having any claim against the Trustee arising from this Indenture shall look only to the Funds and Accounts held by the Trustee hereunder for payment except as otherwise provided herein.

(g) To the extent permitted by law, the Issuer shall indemnify the Trustee for, and hold it harmless against, any loss, damage, claim, liability or expense incurred by it, arising out of or in connection with the acceptance or administration of this Indenture or the trusts hereunder or the performance of any of its duties hereunder, except to the extent that any such loss, damage, claim, liability or expense was due to Trustee's own negligence or willful misconduct.

(h) The Trustee shall have no responsibility with respect to any information, statement, or recital in any official statement, offering memorandum or other disclosure material prepared or distributed with respect to the Bonds.

Section 9.16. Trustee's Agents or Attorneys. The Trustee may execute any of its trusts or powers under this Indenture or perform any of its duties hereunder either directly or by or through agents, attorneys, custodians or nominees appointed with due care, and shall not be responsible for any willful misconduct or negligence on the part of any agent, attorney, custodian or nominee so appointed.

Section 9.17. Notice of Lien Filings. Notwithstanding anything to the contrary contained in this Indenture, the Trustee shall not be responsible for any initial filings of any financing statements or the information contained therein (including the exhibits thereto), the perfection of any such security interests, or the accuracy or sufficiency of any description of collateral in such initial filings or for filing any modifications or amendments to the initial filings required by any amendments to Article 9 of the Uniform Commercial Code, if applicable. In addition, unless the Trustee shall have received Written Notice from the Issuer that any such initial filing or description of collateral was or has become defective, the Trustee shall be fully protected (i) in relying on such initial filing and descriptions in filing any financing or continuation statements or modifications thereto pursuant to this Section 9.17 and (ii) in filing any continuation statements in the same filing offices as the initial filings were made. If applicable, the Trustee shall, upon the prior Written Direction of the Issuer, cause to be filed, in accordance with such instructions, a continuation statement with respect to each Uniform Commercial Code financing statement relating to the Bonds which was filed at the time of the issuance thereof, for which the Issuer has directed a continuation statement to be filed, in such manner and in such places as the initial filings were made, provided that a copy of the filed original financing statement is timely delivered with such Written Direction of the Issuer to the Trustee. The Issuer shall be responsible for the reasonable costs incurred by the Trustee in the preparation and filing of all continuation statements hereunder, including payment of any filing fees, and shall give the Trustee any assistance it reasonably requests in order to enable the Trustee to file continuation statements for the lien established by this Indenture.

ARTICLE X

SUPPLEMENTAL INDENTURES

Section 10.01. Supplemental Indentures Not Requiring Consent of Bondholders. The Issuer and the Trustee may from time to time, subject to the conditions and restrictions in this Indenture contained, enter into a Supplemental Indenture or Indentures, in form satisfactory to the Trustee, which shall thereafter form a part hereof, without the consent of the Bondholders for any one or more of the following purposes:

(a) To cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision in this Indenture;

(b) To insert such provisions clarifying matters or questions arising under this Indenture as are necessary or desirable and are not contrary to or inconsistent with this Indenture as theretofore in effect;

(c) To make any other modification or amendment of this Indenture which the Trustee shall in its sole discretion determine will not have a material adverse effect on the Bondholders or the Interest Rate Swap Counterparty; and in making such a determination, the Trustee shall be entitled to rely conclusively upon an Opinion of Counsel and/or certificates of investment bankers or other financial professionals or consultants;

(d) To add to the covenants and agreements of the Issuer in this Indenture, other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with this Indenture as theretofore in effect;

(e) To add to the limitations and restrictions in this Indenture, other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with this Indenture as theretofore in effect;

(f) To authorize the issuance of Refunding Bonds;

(g) To authorize, in compliance with all applicable law, Bonds to be issued in the form of coupon Bonds registrable as to principal only and, in connection therewith, specify and determine the matters and things relative to the issuance of such coupon Bonds, including provisions relating to the timing and manner of provision of any notice required to be given hereunder to the Holders of such coupon Bonds, which are not contrary to or inconsistent with this Indenture as theretofore in effect, or to amend, modify or rescind any such authorization, specification or determination at any time prior to the first authentication and delivery of such coupon Bonds;

(h) To provide for the execution of a Commodity Swap in accordance with the provisions hereof;

(i) To provide for a Liquidity Facility and Liquidity Facility Provider in accordance with the provisions hereof;

(j) To confirm, as further assurance, any security interest, pledge or assignment under, and the subjection to any security interest, pledge or assignment created or to be created by, this Indenture of the Revenues or of any other moneys, securities or funds;

(k) To add to the Events of Default in this Indenture additional Events of Default;

(l) To add to this Indenture any provisions relating to the application of interest earnings on any Fund or Account under this Indenture required by law to preserve the exclusion of interest on Bonds issued from gross income for federal income tax purposes;

(m) To evidence the appointment of a successor Trustee; or

(n) If the Bonds affected by such change are rated by a Rating Agency, to make any change upon receipt of a Rating Confirmation with respect to the Bonds so affected.

Each Supplemental Indenture authorized by this Section shall become effective as of the date of its execution and delivery by the Issuer and the Trustee or such later date as shall be specified in such Supplemental Indenture.

A Supplemental Indenture will be deemed to not materially adversely affect the Holders of any Bonds that are subject to mandatory tender on or before the effective date of the Supplemental Indenture.

Section 10.02. Supplemental Indentures Effective With Consent of Bondholders. At any time or from time to time, subject to Section 10.03(e) and Section 11.05(b), a Supplemental Indenture may be entered into by the Issuer and the Trustee subject to notice to and consent by Bondholders in accordance with and subject to the provisions of Article XI, which Supplemental Indenture, upon compliance with the provisions of said Article XI, shall become fully effective in accordance with its terms as provided in said Article XI.

Section 10.03. General Provisions. (a) This Indenture shall not be modified or amended in any respect except as provided in and in accordance with and subject to the provisions of this Article X and Article XI. Nothing contained in this Article X or Article XI shall affect or limit the right or obligation of the Issuer to adopt, make, do, execute, acknowledge or deliver any resolution, act or other instrument pursuant to the provisions of Section 7.04 or the right or obligation of the Issuer to execute and deliver to any Fiduciary any instrument which elsewhere in this Indenture it is provided shall be delivered to said Fiduciary.

(b) Any Supplemental Indenture referred to and permitted or authorized by Section 10.01 may be entered into between the Issuer and the Trustee without the consent of any of the Bondholders, but shall become effective only on the conditions, to the extent and at the time provided in said Section. A copy of every Supplemental Indenture shall be accompanied by an Opinion of Counsel stating that such Supplemental Indenture is authorized or permitted by this Indenture, and is valid and binding upon the Issuer; provided, that such Opinion of Counsel may take customary exceptions, including as to the effect of, or for restrictions or limitations imposed by or resulting from, bankruptcy, insolvency, receivership, debt adjustment, moratorium, reorganization, arrangement, fraudulent conveyance or other similar laws relating to or affecting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion, limitations on legal remedies against public entities in the State, and the valid exercise of the sovereign police powers of the State and of the constitutional power of the United States of America and may state that no opinion is being rendered as to the availability of any particular remedy.

(c) The Trustee is hereby authorized to enter into any Supplemental Indenture referred to and permitted or authorized by Section 10.01 or Section 10.02 and to make all further agreements and stipulations which may be therein contained, and the Trustee, in taking such action, shall be fully protected in relying on an Opinion of Counsel that such Supplemental Indenture is authorized or permitted by the provisions of this Indenture.

(d) No Supplemental Indenture shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto; *provided, however* this section shall not affect the rights of the Holders or the Issuer to remove the Trustee as provided in Section 9.08 herein.

(e) Notwithstanding anything in this Article X to the contrary, no Supplemental Indenture (or other amendment to this Indenture) shall change or modify (i) the order of priority of deposits set forth in Section 5.05(a), (ii) the priority of the application of funds following an Event of Default as set forth in Section 8.03, (iii) the definition of Operating Expenses, (iv) any of the rights or interests of a Commodity Swap Counterparty, the Interest Rate Swap Counterparty (if any) or the Energy Supplier, as purchaser under the Receivables Purchase Provisions, granted herein or in the Commodity Swaps, any Interest Rate Swap or the Receivables Purchase Provisions, as the case may be, or (v) the provisions of Section 5.04(b) regarding the sale by the Trustee of Put Receivables (A) in each case unless the prior written consent of the applicable Commodity Swap Counterparty has been obtained, and such Commodity Swap Counterparty shall have full right to enforce this provision, and (B) in the case of clause (iv) of this Section 10.03(e), unless the prior written consent of the Interest Rate Swap Counterparty and/or the Energy Supplier, as applicable, has been obtained.

ARTICLE XI

AMENDMENTS

Section 11.01. Mailing. Any provision in this Article XI for the mailing of a notice or other paper to Bondholders shall be fully complied with if it is mailed postage prepaid only (a) to each registered owner of Bonds then Outstanding at its address, if any, appearing upon the registry books of the Issuer, and (b) to the Trustee.

Section 11.02. Powers of Amendment. Any modification or amendment of this Indenture and of the rights and obligations of the Issuer and of the Holders of the Bonds thereunder may be made by a Supplemental Indenture, subject to Section 10.03(e), with the written consent given as provided in Section 11.03(a) of the Holders of not less than a majority in principal amount of Outstanding Bonds, and (b) in case the modification or amendment changes the terms of any Sinking Fund Installment, of the Holders of not less than a majority in principal amount of Outstanding Bonds of the particular maturity entitled to such Sinking Fund Installment; *provided, however*, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified like maturity remain Outstanding (or have become subject to mandatory purchase) the consent of the Holders of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this Section; and *provided further, however*, that if such modification or amendment would adversely affect the Interest Rate Swap Counterparty, such modification or amendment shall be subject to the prior written consent of the Interest Rate Swap Counterparty. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal of any Outstanding Bond or of any installment of interest thereon or a reduction in the principal amount or the Redemption Price thereof or in the rate of interest thereon without the consent of the Holder of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds the consent of the Holders of which is required to effect any such modification or amendment, or shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto. For

the purposes of this Section, the Bonds shall be deemed to be affected by a modification or amendment of this Indenture if the same adversely affects or diminishes the rights of the Holders of Bonds in any material respect. The Trustee may in its discretion determine whether or not in accordance with the foregoing powers of amendment Bonds would be materially affected by any modification or amendment of this Indenture and any such determination shall be binding and conclusive on the Issuer and all Holders of Bonds. For purposes of this Section, the Holders of any Bonds may include the initial Holders thereof, regardless of whether such Bonds are being held for resale.

Section 11.03. Consent of Bondholders. The Issuer and the Trustee may at any time enter into a Supplemental Indenture making a modification or amendment permitted by the provisions of Section 11.02 to take effect when and as provided in this Section 11.03. A copy of such Supplemental Indenture (or brief summary thereof or reference thereto in form approved by the Trustee), together with a request to Bondholders for their consent thereto in form satisfactory to the Trustee, shall be mailed by the Issuer to Bondholders (but failure to mail such copy and request shall not affect the validity of the Supplemental Indenture when consented to as in this Section 11.03 provided). Such Supplemental Indenture shall not be effective unless and until there shall have been filed with the Trustee (a) the written consents of Holders of the percentages of Outstanding Bonds specified in Section 11.02, subject to Section 11.05(b), (b) the written consent of the Interest Rate Swap Counterparty if required by Section 11.02, and (c) an Opinion of Counsel stating that such Supplemental Indenture has been duly and lawfully executed by the Issuer in accordance with the provisions of this Indenture, is authorized or permitted by this Indenture, and is valid and binding upon the Issuer; *provided, that* such Opinion(s) of Counsel may take customary exceptions, including as to the effect of, or for restrictions or limitations imposed by or resulting from, bankruptcy, insolvency, receivership, debt adjustment, moratorium, reorganization, arrangement, fraudulent conveyance or other similar laws relating to or affecting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion, limitations on legal remedies against public entities in the State, and the valid exercise of the sovereign police powers of the State and of the constitutional power of the United States of America and may state that no opinion is being rendered as to the availability of any particular remedy. For purposes of clause (a) of the preceding sentence, the written consent of the Bondholder shall be deemed to have been received if the amendment is expressly referred to in the Supplemental Indenture authorizing such Bonds and in the text of such Bonds and such Bonds recite that such Bondholder shall be deemed to have consented to such amendments by accepting such Bonds. Otherwise, each such consent shall be effective only if accompanied by proof of the holding, at the date of such consent, of the Bonds with respect to which such consent is given, which proof shall be such as is permitted by Section 12.02. A certificate or certificates executed by the Trustee and filed with the Trustee and the Issuer stating that it has examined such proof and that such proof is sufficient in accordance with Section 12.02 shall be conclusive that the consents have been given by the Holders of the Bonds described in such certificate or certificates of the Trustee. Any such consent shall be irrevocable and shall be binding upon the Holder of the Bonds giving such consent and, anything in Section 12.02 to the contrary notwithstanding, upon any subsequent Holder of such Bonds and of any Bonds issued in exchange therefor (whether or not such subsequent Holder thereof has notice of such consent). At any time after the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Indenture (or have deemed to have consented to such Supplemental Indenture), the Trustee shall make and file with the Trustee and the Issuer a written statement that the Holders of such required percentages

of Bonds have consented to, such Supplemental Indenture. Such written statements shall be conclusive that such consents have been received. At any time thereafter, notice stating in substance that the Supplemental Indenture (which may be referred to as a Supplemental Indenture entered into by the Issuer and the Trustee on a stated date, a copy of which is on file with the Trustee) has been consented to by the Holders of the required percentages of Bonds and will be effective as provided in this Section 11.03, may be given to Bondholders by the Trustee by mailing such notice to Bondholders (but failure to mail such notice shall not prevent such Supplemental Indenture from becoming effective and binding as in this Section 11.03 provided). A record, consisting of the certificates or statements required or permitted by this Section 11.03 to be made by the Trustee, shall be proof of the matters therein stated.

Section 11.04. Notifications by Unanimous Consent. The terms and provisions of this Indenture and the rights and obligations of the Issuer and of the Holders of the Bonds thereunder may be modified or amended in any respect upon the execution of a Supplemental Indenture by the Trustee and the Issuer, the consent of the Holders of all of the Bonds then Outstanding (such consent to be given as provided in Section 11.03), and the consent of the Interest Rate Swap Counterparty if required by Section 11.02; *provided, however*, that no such modification or amendment shall change or modify any of the rights or obligations of any Fiduciary or any of the provisions referenced in Section 10.03(e) without the filing with the Trustee of the written assent thereto of such Fiduciary or the applicable Commodity Swap Counterparty, respectively, in addition to the consent of the Bondholders.

Section 11.05. Exclusion of Bonds. (a) Bonds owned or held by or for the account of the Issuer shall not be deemed Outstanding for the purpose of consent or other action or any calculation of Outstanding Bonds provided for in this Article XI, and the Issuer shall not be entitled with respect to such Bonds to give any consent or take any other action provided for in this Article XI. At the time of any consent or other action taken under this Article XI, the Issuer shall furnish the Trustee a certificate of an Authorized Officer, upon which the Trustee may rely, describing all Bonds so to be excluded.

(b) Bonds for which a Bondholder has submitted a notice of abstention in response to a request for consent received pursuant to Section 11.03 shall not be deemed Outstanding for the purpose of consent or other action or any calculation of Outstanding Bonds provided for in this Article XI with respect to any Supplemental Indenture to be entered into by the Issuer and the Trustee; *provided*, that, such notice of abstention shall not apply with respect to any proposed amendments of Section 8.01.

Section 11.06. Notation on Bonds. Bonds authenticated and delivered after the effective date of any action taken as provided in Article X or this Article XI may, and, if the Trustee so determines, shall, bear a notation by endorsement or otherwise in form approved by the Issuer and the Trustee as to such action, and in that case upon demand of the Holder of any Bond Outstanding at such effective date and presentation of its Bond for the purpose at the principal corporate trust office of the Trustee or upon any transfer or exchange of any Bond Outstanding at such effective date, suitable notation shall be made on such Bond or upon any Bond issued upon any such transfer or exchange by the Trustee as to any such action. If the Issuer or the Trustee shall so determine, new Bonds so modified as in the opinion of the Trustee and the Issuer to conform to such action shall be prepared, authenticated and delivered, and upon demand of the Holder of any Bond then

Outstanding shall be exchanged, without cost to such Bondholder, for Bonds of the same maturity then Outstanding, upon surrender of such Bonds.

ARTICLE XII

MISCELLANEOUS

Section 12.01. Defeasance. (a) If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of all Bonds the principal or Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated in the Bonds and in this Indenture and shall pay or cause to be paid all amounts due or to become due to the Interest Rate Swap Counterparty under the Interest Rate Swap, then the pledge of all covenants, agreements and other obligations of the Issuer to the Bondholders, shall thereupon cease, terminate and be discharged and satisfied except for remaining rights of registration of transfer and exchange of Bonds; *provided, however*, that this Indenture shall not be discharged until (i) the Issuer shall have paid and satisfied all claims, charges and expenses that constitute Operating Expenses hereunder, (ii) the Trustee shall have received an Opinion of Counsel to the effect that all conditions precedent to the satisfaction and discharge of this Indenture have been fulfilled and (iii) receipt by the Trustee of a Rating Confirmation. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the Issuer to be prepared and filed with the Issuer and, upon the request of the Issuer, shall execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction, and the Fiduciaries shall pay over or deliver to the Issuer all moneys or securities held by them pursuant to this Indenture which are not required for the payment of principal or Redemption Price, if applicable, on Bonds not theretofore surrendered for such payment or redemption. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of any Outstanding Bonds the principal or Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in this Indenture, such Bonds shall cease to be entitled to any lien, benefit or security under this Indenture, and all covenants, agreements and obligations of the Issuer to the Holders of such Bonds shall thereupon cease, terminate and be discharged and satisfied except for remaining rights of registration of transfer and exchange of Bonds.

(b) Bonds or interest installments for the payment or redemption of which moneys shall have been set aside and shall be held in trust by the Paying Agents (through deposit by the Issuer of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed in subsection (a). In addition, any Outstanding Bonds shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in subsection (a) upon compliance with the provisions of subsection (c).

(c) Subject to the provisions of subsection (d) of this Section, any Outstanding Bonds shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in subsection (a) of this Section if (i) in case any of said Bonds are to be redeemed on any date prior to their maturity, the Issuer shall have given to the Trustee irrevocable written instructions accepted in writing by the Trustee to mail as provided in Article IV notice of redemption of such Bonds (other than Bonds which have been purchased by

the Trustee at the direction of the Issuer or purchased or otherwise acquired by the Issuer and delivered to the Trustee as hereinafter provided prior to the mailing of such notice of redemption) on said date, (ii) there shall have been deposited with the Trustee either moneys (including moneys withdrawn and deposited pursuant to Section 5.07(g)) in an amount which shall be sufficient, or Defeasance Securities (including any Defeasance Securities issued or held in book entry form on the books of the Department of the Treasury of the United States) the principal of and the interest on which when due will provide moneys which, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient, to pay when due the principal or Redemption Price, if applicable, and interest due and to become due on said Bonds (with such interest being calculated at the Maximum Rate with respect to any Bonds with interest rates that are not fixed to their redemption or maturity date, as applicable) on or prior to the redemption date or maturity date thereof, as the case may be, and (iii) in the event said Bonds are not by their terms subject to redemption within the next succeeding 60 days, the Issuer shall have given the Trustee in form satisfactory to it irrevocable written instructions to mail, as soon as practicable, a notice to the Holders of such Bonds at their last addresses appearing upon the registry books at the close of business on the last Business Day of the month preceding the month for which notice is mailed that the deposit required by (ii) above has been made with the Trustee and that said Bonds are deemed to have been paid in accordance with this Section 12.01 and stating such maturity or redemption date upon which moneys are expected, subject to the provisions of subsection (d) of this Section 12.01, to be available for the payment of the principal or Redemption Price, if applicable, on said Bonds (other than Bonds which have been purchased by the Trustee at the direction of the Issuer or purchased or otherwise acquired by the Issuer and delivered to the Trustee as hereinafter provided prior to the mailing of the notice of redemption referred to in clause (i)). Any notice of redemption mailed pursuant to the preceding sentence with respect to Bonds which constitute less than all of the Outstanding Bonds of any maturity shall specify the letter and number or other distinguishing mark of each such Bond. The Trustee shall, as and to the extent necessary, apply moneys held by it pursuant to this Section 12.01 to the retirement of said Bonds in amounts equal to the unsatisfied balances (determined as provided in Section 5.10(c)) of any Sinking Fund Installments with respect to such Bonds, all in the manner provided in this Indenture. The Trustee shall, if so directed by the Issuer (A) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 which are not to be redeemed prior to their maturity date or (B) prior to the mailing of the notice of redemption referred to in clause (i) above with respect to any Bonds deemed to have been paid in accordance with this Section 12.01 which are to be redeemed on any date prior to their maturity, apply moneys deposited with the Trustee in respect of such Bonds and redeem or sell Defeasance Securities so deposited with the Trustee and apply the proceeds thereof to the purchase of such Bonds and, the Trustee shall immediately thereafter cancel all such Bonds so purchased; *provided, however*, that the moneys and Defeasance Securities remaining on deposit with the Trustee after the purchase and cancellation of such Bonds (or the deemed cancellation thereof) shall be sufficient to pay when due the Principal Installment or Redemption Price, if applicable, and interest due or to become due on all Bonds (calculated as described above), in respect of which such moneys and Defeasance Securities are being held by the Trustee on or prior to the redemption date or maturity date thereof, as the case may be. If, at any time (1) prior to the maturity date of Bonds deemed to have been paid in accordance with this Section 12.01 which are not to be redeemed prior to their maturity date or (2) prior to the mailing of the notice of redemption referred to in clause (i) with respect to any Bonds deemed to have been paid in accordance with this Section 12.01 which are to be redeemed on any date prior to their

maturity, the Issuer shall purchase or otherwise acquire any such Bonds and deliver such Bonds to the Trustee prior to their maturity date or redemption date, as the case may be, the Trustee shall immediately cancel all such Bonds so delivered; such delivery of Bonds to the Trustee shall be accompanied by written directions from the Issuer to the Trustee as to the manner in which such Bonds are to be applied against the obligation of the Trustee to pay or redeem Bonds deemed paid in accordance with this Section 12.01. The directions given by the Issuer to the Trustee referred to in the preceding sentences shall also specify the portion, if any, of such Bonds so purchased or delivered and cancelled or deemed cancelled to be applied against the obligation of the Trustee to pay Bonds deemed paid in accordance with this Section 12.01 upon their maturity date or dates and the portion, if any, of such Bonds so purchased or delivered and cancelled or deemed cancelled to be applied against the obligation of the Trustee to redeem Bonds deemed paid in accordance with this Section 12.01 on any date or dates prior to their maturity. In the event that on any date as a result of any purchases, acquisitions and cancellations or deemed cancellations of Bonds as provided in this Section 12.01 the total amount of moneys and Defeasance Securities remaining on deposit with the Trustee under this Section 12.01 is in excess of the total amount which would have been required to be deposited with the Trustee on such date in respect of the remaining Bonds in order to satisfy clause (ii) of this subsection (c) of Section 12.01, the Trustee shall, if requested by the Issuer in writing, pay the amount of such excess to the Issuer free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Indenture. Except as otherwise provided in subsections (c) and (d) of this Section 12.01, neither Defeasance Securities nor moneys deposited with the Trustee pursuant to this Section nor principal or interest payments on any such Defeasance Securities shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal or Redemption Price, if applicable, and interest on said Bonds; *provided* that any cash received from such principal or interest payments on such Defeasance Securities deposited with the Trustee, (x) to the extent such cash will not be required at any time for such purpose, shall be paid over to the Issuer as received by the Trustee, free and clear of any trust, lien or pledge securing said Bonds or otherwise existing under this Indenture, and (y) to the extent such cash will be required for such purpose at a later date, shall, to the extent practicable, be reinvested in Qualified Investments maturing at times and in amounts sufficient to pay when due the principal or Redemption Price, if applicable, and interest to become due on said Bonds on or prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the Issuer, as received by the Trustee, free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under this Indenture. Notwithstanding anything contained herein to the contrary, the Issuer shall pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against Defeasance Securities or the principal and interest received on Defeasance Securities.

(d) Anything in this Indenture to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any of the Bonds which remain unclaimed for six years (or, if shorter, one Business Day before such moneys would escheat to the State under then applicable State law) after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the Fiduciary at such date, or for six years after the date of deposit of such moneys if deposited with the Fiduciary after the said date when such Bonds became due and payable, shall, at the Written Request of the Issuer, be repaid by the Fiduciary to the Issuer, as its absolute property and free from trust, and the Fiduciary shall thereupon be released and discharged with respect thereto and

the Bondholders shall look only to the Issuer for the payment of such Bonds; *provided, however*, that before being required to make any such payment to the Issuer the Fiduciary shall, at the expense of the Issuer, cause to be published at least twice, at an interval of not less than seven days between publications, in the Authorized Newspaper, a notice that said moneys remain unclaimed and that, after a date named in said notice, which date shall be not less than 30 days after the date of the first publication of such notice, the balance of such moneys then unclaimed will be returned to the Issuer.

Section 12.02. Evidence of Signatures of Bondholders and Ownership of Bonds. (a) Any request, consent, revocation of consent or other instrument which this Indenture may require or permit to be signed and executed by the Bondholders may be in one or more instruments of similar tenor, and, except as otherwise provided in Section 11.03, shall be signed or executed by such Bondholders in person or by their attorneys appointed in writing. Proof of (1) the execution of any such instrument, or of an instrument appointing any such attorney, or (2) the holding by any Person of the Bonds shall be sufficient for any purpose of this Indenture (except as otherwise therein expressly provided) if made in the following manner, or in any other manner satisfactory to the Trustee, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(i) The fact and date of the execution by any Bondholder or its attorney of such instruments may be proved by a guarantee of the signature thereon by a bank or trust company or by the certificate of any notary public or other officer authorized to take acknowledgments of deeds, that the Person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such signature, guarantee, certificate or affidavit shall also constitute sufficient proof of its authority.

(ii) The amount of Bonds transferable by delivery held by any Person executing any instrument as a Bondholder, the date of holding such Bonds, and the numbers and other identification thereof, may be proved by a certificate, which need not be acknowledged or verified, in form satisfactory to the Trustee, executed by the Trustee or by a member of a financial firm or by an officer of a bank, trust company, insurance company, or financial corporation or other depository wherever situated, showing at the date therein mentioned that such Person exhibited to such member or officer or had on deposit with such depository the Bonds described in such certificate. Such certificate may be given by a member of a financial firm or by an officer of any bank, trust company, insurance company or financial corporation or depository with respect to Bonds owned by it, if acceptable to the Trustee. In addition to the foregoing provisions, the Trustee may from time to time make such reasonable regulations as it may deem advisable permitting other proof of holding of Bonds transferable by delivery.

(b) The ownership of Bonds registered other than to bearer and the amount, numbers and other identification, and date of holding the same shall be proved by the registry books.

(c) Any request or consent by the owner of any Bond shall bind all future owners of such Bond in respect of anything done or suffered to be done by the Issuer or any Fiduciary in accordance therewith.

Section 12.03. Moneys Held for Particular Bonds. The amounts held by any Fiduciary for the payment of the interest, principal or Redemption Price due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it for the Holders of the Bonds entitled thereto.

Section 12.04. Preservation and Inspection of Documents. All documents received by any Fiduciary under the provisions of this Indenture shall be retained in its possession and shall at all times during regular business hours (upon reasonable prior written notice) be subject to the inspection of the Issuer, any other Fiduciary, and any Bondholder and their agents and their representatives, any of whom may make copies thereof, subject to such reasonable regulations as such Fiduciary may from time to time determine to be advisable or required by law.

Section 12.05. Parties Interested Herein. Nothing in this Indenture expressed or implied, except for the rights and interests of the Commodity Swap Counterparties, the Interest Rate Swap Counterparty (if any) and the Energy Supplier, as purchaser under the Receivables Purchase Provisions, as described in Section 10.03(e), and the pledges of the Commodity Swap Payment Fund granted to the Commodity Swap Counterparties, is intended or shall be construed to confer upon, or to give to, any Person or corporation, other than the Issuer, the Fiduciaries, the Holders of the Bonds, any right, remedy or claim under or by reason of this Indenture or any covenant, condition or stipulation thereof; and, except as provided in Section 10.03(e), all the covenants, stipulations, promises and agreements in this Indenture contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer, the Fiduciaries, the Holders of the Bonds and the Interest Rate Swap Counterparty.

Section 12.06. No Recourse on the Bonds; Non-Liability of the Issuer. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Indenture against any source other than the Trust Estate as provided in this Indenture, including against any member of the board or officer of the Issuer, the Project Participants or any Person executing the Bonds. The Issuer shall not be obligated to pay the principal or Redemption Price or Purchase Price of or interest on the Bonds, the Interest Rate Swap Payments or the Commodity Swap Payments, except from the Trust Estate as provided in this Indenture. Neither the faith and credit nor the taxing power of the State or any political subdivision thereof, including the Issuer, is pledged to the payment of the principal or Redemption Price of or interest on the Bonds, the Interest Rate Swap Payments or Commodity Swap Payments. The Issuer shall not be liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reason of or in connection with the Bonds, this Indenture, the Interest Rate Swap or the Commodity Swaps except only to the extent of the Trust Estate as provided in this Indenture.

Section 12.07. Publication of Notice; Suspension of Publication. (a) Any publication to be made under the provisions of this Indenture in successive weeks or on successive dates may be made in each instance upon any Business Day of the week and need not be made in the same

Authorized Newspaper for any or all of the successive publications but may be made in a different Authorized Newspaper.

(b) If, because of the temporary or permanent suspension of the publication or general circulation of any Authorized Newspaper or for any other reason, it is impossible or impractical to publish any notice pursuant to this Indenture in the manner herein provided, then such publication in lieu thereof as shall be made by the Issuer with the written approval of the Trustee shall constitute a sufficient publication of such notice.

Section 12.08. Severability of Invalid Provisions. If any one or more of the covenants or agreements provided in this Indenture on the part of the Issuer or any Fiduciary to be performed should be contrary to law, then such covenant or covenants or agreement or agreements shall be deemed severable from the remaining covenants and agreements, and shall in no way affect the validity of the other provisions of this Indenture.

Section 12.09. Holidays. If the date for making any payment or the last date for performance of any act or the exercising of any right, as provided in this Indenture, shall not be a Business Day, such payment may be made or act performed or right exercised on the next succeeding Business Day with the same force and effect as if done on the nominal date provided in this Indenture, and no interest shall accrue for the period after such nominal date.

Section 12.10. Notices. (a) Except as otherwise provided herein, all notices, requests, demands and other communications required or permitted under this Indenture shall be deemed to have been duly given if delivered or mailed, first class, postage prepaid (or sent by Electronic Means, confirmed by mail, as aforesaid), as follows:

(b) The Issuer may, by Written Direction to the Trustee, permit a Project Participant that is a Member to deliver to the Trustee on behalf of the Issuer any notices, requests, demands and other communications required or permitted to be delivered by the Issuer under this Indenture. Such Written Direction shall contain a certificate identifying the Authorized Officers of such Project Participant for purposes of delivery of notices under this Indenture. The Trustee shall treat all such notices received from the Project Participant as if they were delivered by the Issuer, unless an Event of Default has occurred and is continuing under this Indenture, in which case any notices from such Project Participant shall be disregarded by the Trustee and of no force or effect. The Issuer may at any time rescind and annul the Written Direction permitting such Project Participant to deliver notices hereunder on behalf of the Issuer by delivering a Written Direction to the Trustee stating that such permission has been rescinded and annulled.

Section 12.11. Notices to Rating Agencies. The Issuer shall provide to each Rating Agency rating the Bonds at the time notice of any amendment to this Indenture, the Energy Purchase Agreement, any Commodity Swaps, any Power Supply Contract, and Debt Service Fund Agreement or any other document relating to the Bonds or the Clean Energy Project.

Section 12.12. Counterparts. This Indenture may be executed in multiple counterparts, each of which shall be regarded for all purposes as an original; and such counterparts shall constitute but one and the same instrument.

Section 12.13. Waiver of Jury Trial. EACH PARTY HEREBY KNOWINGLY, VOLUNTARILY, AND INTENTIONALLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY PROCEEDING INVOLVING, DIRECTLY OR INDIRECTLY, ANY MATTER IN ANY WAY ARISING OUT OF, RELATED TO OR CONNECTED WITH THIS INDENTURE OR ANY OTHER TRANSACTION DOCUMENT, THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY, OR THE RELATIONSHIP ESTABLISHED HEREUNDER OR THEREUNDER, AND AGREES THAT ANY SUCH PROCEEDING SHALL BE TRIED BEFORE A JUDGE SITTING WITHOUT A JURY.

Section 12.14. Electronic Signatures. Each of the parties hereto agrees that the transaction consisting of this agreement may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent, that if such party signs this agreement using an electronic signature, it is signing, adopting, and accepting this agreement and that signing this agreement using an electronic signature is the legal equivalent of having placed its handwritten signature on this agreement on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this agreement in a usable format.

California Community Choice Financing Authority (the “Issuer”), a joint powers authority, organized and existing pursuant to the Joint Exercise of Powers Act, Title 1, Division 7, Chapter 5 of the Government Code of the State of California (the “Act”), and the Joint Powers Agreement, dated June 25, 2021, as amended from time to time, for value received, hereby promises to pay in lawful money of the United States of America, to the Registered Owner identified above, or registered assigns, on the Maturity Date stated above, unless this Bond shall have been called for redemption (in whole or in part) and payment of the redemption price shall have been duly made or provided for, upon presentation and surrender hereof, the principal amount identified above, and to pay, in the manner and from the source hereinafter provided, to the Registered Owner hereof interest on the balance of said principal amount from time to time remaining unpaid at the rate determined as provided in the Indenture identified below, until payment in full of such principal amount. The initial Interest Rate Period, as defined in the Indenture, for this Bond is set out in the

Indenture. The Interest Rate Period for this Bond may be changed from time to time as provided in the Indenture.

The following paragraph shall be inserted in the Series 2025[] Bonds:

This Bond bears interest from the Dated Date specified above, or from the most recent interest payment date to which interest has been paid or duly provided for, at the rate per annum set forth above, computed on the basis of a 360-day year consisting of 12 thirty-day months, payable on [] 1 and [] 1 of each year, commencing [] 1, 2025.

The following paragraph shall be inserted for any SIFMA Index Rate Bonds, and the phrase “SIFMA Index Rate” shall be inserted under the caption “Interest Rate” immediately below the title of such Bond:

This Bond bears interest from the Dated Date specified above, or from the most recent interest payment date to which interest has been paid or duly provided for, at a SIFMA Index Rate equal to the sum of (a) the SIFMA Index as of the day of determination plus (b) the Applicable Spread of [] basis points ([]%) (but not more than the Maximum Rate of 12% per annum), computed on the basis of a 365- or 366-day year, as applicable, for the actual number of days elapsed and payable on the first Business Day of each Month, commencing on the first Business Day of [] 20[].

The following paragraph shall be inserted for any SOFR Index Rate Bonds, and the phrase “SOFR Index Rate” shall be inserted under the caption “Interest Rate” immediately below the title of such Bond:

This Bond bears interest from the Dated Date specified above, or from the most recent interest payment date to which interest has been paid or duly provided for, at a SOFR Index Rate equal to the sum of (a) the Applicable Spread of [] basis points ([]%) plus (b) the product of (i) the SOFR Index as of the day of determination multiplied by (ii) the Applicable Factor of []% (but not more than the Maximum Rate of 12% *per annum*), computed on the basis of a 365- or 366-day year, as applicable, for the actual number of days elapsed and payable on the first Business Day of each Month, commencing on the first Business Day of [] 20[].

The following paragraph shall be inserted for any CPI Index Rate Bonds, and the phrase “CPI Index Rate” shall be inserted under the caption “Interest Rate” immediately below the title of such Bond:

This Bond bears interest from the Dated Date specified above, or from the most recent interest payment date to which interest has been paid or duly provided for, at a CPI Index Rate determined accordance with Section 2.14 of the Indenture (but not more than the Maximum Rate of 12% per annum), computed on the basis of a 360-day year of twelve 30-day calendar months and payable on the first Business Day of each Month, commencing on the first Business Day of [] 20[].

The Issuer is obligated to pay the principal, Redemption Price of, and interest on this Bond solely from the Trust Estate as defined in and in accordance with the provisions of the Trust Indenture, dated as of [], 2025, between the Issuer and The Bank of New York Mellon Trust Company, N.A., as trustee (said trustee and any successor thereto under the Indenture being herein referred to as the “Trustee”), as the same may be amended and supplemented from time to time (the “Indenture”).

This Bond is one of the Clean Energy Project Revenue Bonds of the Issuer initially issued in a single series (collectively, the “Bonds”) under and by virtue of the Act and under and pursuant to the Indenture for the purpose of providing funds to pay the Cost of Acquisition of the Issuer’s Clean Energy Project. The aggregate principal amount of Bonds issued pursuant to the Indenture is limited to \$[]. This Bond is one of the Series of Bonds designated as “Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) ([Term Rate]),” dated as of the Dated Date identified above. Except as otherwise provided herein and unless the context clearly indicates otherwise, words and phrases used herein shall have the same meanings as such words and phrases in the Indenture.

All Bonds are and will be equally and ratably secured by the pledge and covenants made in the Indenture, except as otherwise expressly provided or permitted in or pursuant to the Indenture.

THIS BOND IS A LIMITED OBLIGATION OF THE ISSUER AND THE PRINCIPAL AND REDEMPTION PRICE OF, AND INTEREST ON, THIS BOND ARE PAYABLE SOLELY FROM THE TRUST ESTATE. THE BONDS DO NOT CONSTITUTE A DEBT OR LIABILITY OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF, OTHER THAN THE ISSUER, BUT SHALL BE PAYABLE SOLELY FROM THE FUNDS PROVIDED THEREFOR UNDER THE INDENTURE. THE ISSUER SHALL NOT BE OBLIGATED TO PAY THE PRINCIPAL OR THE REDEMPTION PRICE OF OR INTEREST ON THE BONDS EXCEPT FROM THE FUNDS PROVIDED THEREFOR UNDER THE INDENTURE AND NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OR REDEMPTION PRICE OF OR INTEREST ON THE BONDS. THE ISSUANCE OF THE BONDS SHALL NOT DIRECTLY OR INDIRECTLY OR CONTINGENTLY OBLIGATE THE STATE OF CALIFORNIA OR

ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR TO PLEDGE ANY FORM OF TAXATION OR TO MAKE ANY APPROPRIATION FOR THEIR PAYMENT. THE ISSUER HAS NO TAXING POWER.

Copies of the Indenture are on file at the office of the office of Trustee in Los Angeles, California, and reference to the Indenture and the Act is made for a description of the pledge and covenants securing the Bonds, the nature, manner and extent of enforcement of such pledge and covenants, the terms and conditions upon which the Bonds are issued, and a statement of the rights, duties, immunities and obligations of the Issuer and of the Trustee. Such pledge and other obligations of the Issuer under the Indenture may be discharged at or prior to the maturity or redemption of the Bonds upon the making of provision for the payment thereof on the terms and conditions set forth in the Indenture.

The Issuer has established a book-entry system of registration for the Bonds. Except as specifically provided otherwise in the Indenture, the Securities Depository will be the registered owner of this Bond. By acceptance of a confirmation of purchase, delivery or transfer, a Beneficial Owner shall be deemed to have agreed to this arrangement. The Securities Depository, as registered owner of this Bond, shall be treated as the Owner of it for all purposes.

The Issuer will pay the principal or Redemption Price of and interest on this Bond solely from the Trust Estate in accordance with the provisions of the Indenture. Interest will accrue on the unpaid portion of the principal of this Bond from the last Interest Payment Date for which interest has been paid or duly provided for or if no interest has been paid or duly provided for, from the Dated Date of this Bond, until the entire principal amount of this Bond is paid or duly provided for, and such interest shall be paid in the manner and on the Interest Payment Dates specified in the Indenture.

This Bond may be transferred or exchanged as provided in the Indenture.

To the extent and in the respects permitted by the Indenture, the Indenture may be modified or amended in the manner and subject to the conditions and exceptions prescribed in the Indenture. Certain such modifications and amendments may be made without the consent of the Owners of the Bonds to the extent provided in the Indenture.

The Owner or Beneficial Owner of this Bond shall have no right to enforce the provisions of the Indenture or to institute action to enforce the pledge or covenants made therein or to take any action with respect to an Event of Default under the Indenture or to institute, appear in, or defend any suit or other proceeding with respect thereto, except as provided in the Indenture.

The Bonds are subject to tender or redemption prior to maturity upon the circumstances, at the times, in the amounts, upon payment of the amounts, with the notice, upon the other terms and provisions and with the effect set forth in the Indenture.

No director, officer, agent or employee of the Issuer shall be individually or personally liable for the payment of any principal or Redemption Price of or interest on the Bonds or any sum hereunder or be subject to any personal liability or accountability by reason of the execution and delivery of the Indenture.

It is hereby certified and recited that all conditions, acts and things required by the Constitution or statutes of the State of California or by the Act or the Indenture to exist, to have happened or to have been performed precedent to or in the issuance of this Bond exist, have happened and have been performed in due time, form and manner, and that the issue of Bonds, together with all other indebtedness of the Issuer, is within every debt and other limit prescribed by said Constitution and statutes.

This Bond shall not be valid until the Certificate of Authentication hereon shall have been signed by the Trustee.

IN WITNESS WHEREOF, the California Community Choice Financing Authority has caused this Bond to be signed in its name and on its behalf by the manual or facsimile signature of its Chair, and attested by the manual or facsimile signature of its Secretary, all as of the Dated Date specified above.

FORM OF INDEX RATE DETERMINATION CERTIFICATE

Re: California Community Choice Financing Authority Clean Energy Project Revenue Bonds, Series 2025[]-[] (Green Bonds) ([SIFMA/SOFR] Index Rate) (the “Bonds”)

Reference is made to Section 2.09 [and Section 2.14] of the Trust Indenture, dated as of September 1, 2025 (the “Indenture”), between the California Community Choice Financing Authority (the “Issuer”) and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”), relating to the above captioned Bonds. Capitalized terms used and not otherwise defined herein have the meanings assigned to them in the Indenture.

The undersigned Authorized Representative of the Issuer hereby notifies the Trustee and the Rating Agencies as follows with respect to the Index Rate Period commencing on the date hereof:

Include the following text separately for each Series of Index Rate Bonds:

(i) the Index Rate shall be the [SIFMA/SOFR] Index Rate and the Index Rate Period shall be _____;

(ii) if the Index Rate shall be the SOFR Index Rate, (A) the SOFR Index shall be the “Secured Overnight Financing Rate” reported on the website of the Federal Reserve Bank of New York, or reported by any successor to the Federal Reserve Bank of New York as administrator of such Secured Overnight Financing Rate, as of 3:00 p.m. on each SOFR Publish Date representing the SOFR Index as of the third Business Day preceding the [Conversion Date][Index Rate Reset Date], which will be used to calculate interest for the SOFR Effective Period beginning on such [Conversion Date][Index Rate Reset Date] (the “SOFR Effective Date”) (for example, for purposes of determining the SOFR Index for a SOFR Effective Date of Thursday, _____, 20__, the Calculation Agent uses SOFR published on the SOFR Publish Date of Tuesday, _____, 20__, which is the SOFR Index for the SOFR Lookback Date of Monday, _____, 20__), and (B) the Applicable Factor, as determined by the Underwriter or the Remarketing Agent, as the case may be, shall be % of SOFR.

(iii) the Applicable Spread for each Maturity Date, as determined by the Underwriter or the Remarketing Agent, as the case may be, shall be as follows:

MATURITY DATE	APPLICABLE SPREAD	MATURITY DATE	APPLICABLE SPREAD

(iv) if, during any [SIFMA/SOFR] Index Rate Period, the [SIFMA/SOFR] Index Rate is not reported by, or otherwise ceases to be available from, the relevant source,

the substitute or replacement Index Rate, as determined by the Issuer, for the Index Rate Period shall be the substitute determined in writing by the Issuer;

(v) the Index Rate Tender Date shall be _____;

(vi) the Interest Payment Date[s] shall be _____;

(vii) for a Series of Bonds bearing interest at the SIFMA Index Rate, the Index Rate Reset Date[s] shall be [Thursday of each week, or if the SIFMA Index is not issued on Wednesday of such week, the Business Day next succeeding the day on which the SIFMA Index for such week is issued]; and

(viii) for a Series of Bonds bearing interest at the SOFR Index Rate, the SOFR Effective Date shall be each Business Day.

Include the following text for any Series of CPI Bonds:

(i) the CPI Interest Period shall be _____.

(ii) the Applicable Spread for each Maturity Date, as determined by the Underwriter or the Remarketing Agent, as the case may be, shall be as follows:

MATURITY DATE	APPLICABLE SPREAD	MATURITY DATE	APPLICABLE SPREAD

(iii) the CPI Index Rate for each Maturity Date shall be calculated, in accordance with Section 2.14 of the Indenture, using the CPI Index Rate Formula, which means (i) the total of CPI for the applicable Reference Month less CPI for the twelfth month prior to the applicable Reference Month, divided by (ii) CPI for the twelfth month prior to the applicable Reference Month, which formula would be expressed mathematically as $((CPI_t - CPI_{t-12}) / CPI_{t-12})$, where:

CPI_t = CPI for the applicable Reference Month;

CPI_{t-12} = CPI for the twelfth month prior to the applicable Reference Month;

Applicable Spread = []%; and

Reference Month = the 3rd calendar month preceding each CPI Index Rate Reset Date.

(iv) the Mandatory Purchase Date shall be _____;

(v) the Interest Payment Date[s] shall be the first Business Day of each Month, commencing on the first Business Day of [____], [20__]; and

(vi) CPI Index Rate Reset Date[s] shall be the first Business Day of each calendar month; and

(vii) if, during any CPI Index Rate Period, the CPI is not reported by, or otherwise ceases to be available from, the relevant source, but the CPI has otherwise been reported by the BLS, the Calculation Agent will determine the CPI as published by the BLS for such month using a source it deems to be accurate and appropriate.

Form of Written Direction and Redemption Notice

To: The Bank of New York Mellon Trust Company, N.A., as Trustee (the “*Trustee*”)

DIRECTION IS HEREBY GIVEN by **CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY** (the “*Issuer*”) to the Trustee for the Issuer’s Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) ([Term Rate]) (the “*Bonds*”) issued pursuant to the Trust Indenture, dated as of September 1, 2025, by and between the Issuer and the Trustee (the “*Indenture*”), to call the Bonds for redemption on [], 20[] (the “*Redemption Date*”) at a redemption price equal to [FOR REDEMPTION UNDER SECTION 4.03(a): the greater of (i) the Amortized Value of the Bonds, and (ii) the sum of the present values of the remaining unpaid payments of principal and interest to be paid on the Bonds to be redeemed from and including the Redemption Date (not including any portion of the interest accrued and unpaid as of the Redemption Date) to the earlier of the stated maturity date of such Bonds or the Initial Mandatory Purchase Date, discounted to the Redemption Date on a semiannual basis at a discount rate equal to the Applicable Tax Exempt Municipal Bond Rate for the Bonds minus 0.25% per annum, in each case plus accrued and unpaid interest to the Redemption Date (the “*Redemption Price*”)] OR [FOR REDEMPTION UNDER SECTION 4.03(b): the Amortized Value of the Bonds as of the Redemption Date, plus \$0.10 per \$1,000 of the principal amount thereof plus accrued and unpaid interest to the Redemption Date (the “*Redemption Price*”).]

[“*Amortized Value*” means, with respect to any Bond to be redeemed when a Term Rate Period is in effect with respect to such Bond, the principal amount of such Bond multiplied by the price of such Bond expressed as a percentage, calculated by a major market maker in municipal securities, as the quotation agent, selected by the Issuer, based on the industry standard method of calculating bond prices (as such industry standard prevailed on the date such Bond began to bear interest at its current Term Rate), with a delivery date equal to the date of redemption of such Bond, a maturity date equal to the earlier of (a) the stated maturity date of such Bond or (b) the Term Rate Tender Date of such Bond and a yield equal to such Bond’s original reoffering yield on the date such Bond began to bear interest at its current Term Rate. The Amortized Value of the Bonds as of certain dates during the Initial Interest Rate Period is set forth in Schedule IV to the Indenture.]

[“*Applicable Tax Exempt Municipal Bond Rate*” means, for the Bonds of any maturity, the “*Comparable AAA General Obligations*” yield curve rate for the year of such maturity or Mandatory Purchase Date, as applicable, as published by Refinitiv Global Markets, Inc. at least one Business Day and not more than 15 Business Days prior to the date that notice of redemption is required to be given pursuant to Section 4.04 of the Indenture. If no such yield curve rate is established for the applicable year, the “*Comparable AAA General Obligations*” yield curve rate for the two published maturities most closely corresponding to the applicable year shall be determined, and the Applicable Tax Exempt Municipal Bond Rate will be interpolated or extrapolated from those yield curve rates on a straight line basis. This rate is made available daily by Refinitiv Global Markets, Inc. and is available to its subscribers through its internet address: www.tm3.com. In calculating the Applicable Tax Exempt Municipal Bond Rate, should Refinitiv

Global Markets, Inc. no longer publish the “Comparable AAA General Obligations” yield curve rate, then the Applicable Tax Exempt Municipal Bond Rate shall equal the Consensus Scale yield curve rate for the applicable year. The Consensus Scale yield curve rate is made available daily by Municipal Market Analytics, Inc. and is available to its subscribers through its internet address: www.mma-research.com. In the further event Municipal Market Analytics, Inc. no longer publishes the Consensus Scale, the Applicable Tax Exempt Municipal Bond Rate shall be determined by a major market maker in municipal securities, as the quotation agent, based upon the rate per annum equal to the annual yield to maturity, calculated using semi-annual compounding, of those tax exempt general obligation bonds rated in the highest Rating Category by Moody’s and S&P with a maturity date equal to the stated maturity date or Mandatory Purchase Date, as applicable, of such Bonds having characteristics (other than the ratings) most comparable to those of such Bonds in the judgment of the quotation agent. The quotation agent’s determination of the Applicable Tax Exempt Municipal Bond Rate shall be final and binding on all parties in the absence of manifest error and may be conclusively relied upon in good faith by the Trustee.]

The quotation agent selected by the Issuer is [_____]. [_____] shall calculate the Redemption Price and deliver it to you five Business Days (as defined in the Indenture) prior to the Redemption Date.

[The remainder of this page is intentionally left blank]

The Issuer hereby directs you to cause notice of such optional redemption to be given pursuant to the provisions set forth in Section 4.04 of the Indenture to the registered owner of each Bond being redeemed, at its address as it appears on the bond registration books of the Trustee or at such address as such owner may have filed with the Trustee for that purpose, as of the Regular Record Date (as defined in the Indenture), such notice to be mailed by first class mail, postage prepaid, at least [] ([]) days prior to the Redemption Date, and such notice to be in substantially the form attached as APPENDIX A hereto.

PREPAID ENERGY SALES AGREEMENT

This Prepaid Energy Sales Agreement (hereinafter, this “Agreement”) is made and entered into as of [____], 2025 (the “Execution Date”), by and between Energy Prepay IX, LLC, a Delaware limited liability company (“Seller”), and California Community Choice Financing Authority, a joint powers authority and a public entity of the State of California established pursuant to the provisions of the Joint Exercise of Powers Act (Article 1, Chapter 5, Division 7, Title 1, Section 6500 *et seq.* of the California Government Code, as amended) (“Buyer”).

WITNESSETH:

WHEREAS, Seller desires to sell Energy to Buyer, and Buyer desires to purchase Energy from Seller, upon the terms and conditions hereinafter set forth; and

WHEREAS, in connection with the execution of this Agreement, Seller shall enter into that certain Energy Management Agreement, dated as of the date hereof (the “Energy Management Agreement”), with Morgan Stanley Capital Group Inc., a Delaware corporation (“MSCG”), pursuant to which Seller shall acquire Energy for delivery under this Agreement; and

WHEREAS, in connection with Buyer’s execution of the Power Supply Contract (as defined below), the Project Participant (as defined below) under such Power Supply Contract will assign to MSCG pursuant to the Initial Assignment Agreement certain Assigned Rights and Obligations, including the right to receive Assigned Product, which Assigned Product will be resold by MSCG to Seller under the Energy Management Agreement, then resold by Seller to Buyer hereunder and then resold to the Project Participant under the Power Supply Contract.

NOW, THEREFORE, in consideration of the premises above and the mutual covenants and agreements herein set forth, Buyer and Seller (the “Parties” hereto; each is a “Party”) agree as follows:

ARTICLE I. DEFINITIONS

Section 1.1 Defined Terms. The following terms, when used in this Agreement and identified by the capitalization of the first letter thereof, have the respective meanings set forth below, unless the context otherwise requires:

“Acceleration Event” has the meaning specified in Section 17.1.

“Affiliate” means, with respect to either Party, any entity which is a direct or indirect parent or subsidiary of such Party or which directly or indirectly (i) owns or controls such Party, (ii) is owned or controlled by such Party, or (iii) is under common ownership or control with such Party. For purposes of this definition, “control” of an entity means the power, directly or indirectly, either to (a) vote 50% or more of the securities having ordinary voting power for the election of directors or Persons performing similar functions or (b) direct or cause the direction of the management and policies, whether by contract or otherwise.

“Agreement” has the meaning specified in the preamble and shall include exhibits, recitals and attachments referenced herein and attached hereto and all amendments, supplements and modifications hereto and thereto.

“Annual Quantity” means, with respect to each Contract Year of the Delivery Period, the quantity (in MWh) of Assigned Product for such Contract Year as set forth on Exhibit A-3; provided that the Annual Quantity for any Contract Year shall be reduced by the aggregate amount of any quantities of Base Energy required to be remarketed under this Agreement for any given Contract Year.

“Assigned Delivery Point” has the meaning specified in the applicable Assignment Agreement.

“Assigned Energy” has the meaning specified in the applicable Assignment Agreement; provided that any Assigned Energy shall be EPS Compliant Energy as set forth in the Assignment Letter Agreement.

“Assigned Paygo Quantity” means any Assigned Products delivered under this Agreement in excess of the Annual Quantity for any Contract Year.

“Assigned PPA” has the meaning specified in the Participant Custodial Agreement.

“Assigned PPA Index Adder” means the amount (in \$/MWh) specified in Exhibit A-2 for each Month of the Delivery Period.

“Assigned Product” means, as applicable, PCC1 Product, Long-Term PCC1 Product, PCC2 Product, Assigned Energy, Assigned RECs and any other product included in an Assignment Agreement.

“Assigned RECs” means any RECs to be delivered to MSCG or Seller pursuant to any Assigned Rights and Obligations.

“Assigned Rights and Obligations” means a portion of the Project Participant’s rights and obligations under a power purchase agreement assigned pursuant to an Assignment Agreement.

“Assignment Agreement” means the Initial Assignment Agreement and any subsequent assignment agreement entered into consistent with the Assignment Letter Agreement.

“Daily Commodity Reference Price” means (A) the Day-Ahead Market Price, (B) the Day-Ahead Average Price or (C) the Real-Time Market Price.

“Daily Replacement Index” has the meaning specified in Section 18.11(a)(ii).

“Day-Ahead Average Price” means, for any Assigned Energy in any EPS Energy Period¹, the result of (i) (x) the sum of the Day-Ahead Market Prices for each Pricing Interval in a Month divided by (y) the number of Pricing Intervals in such Month plus (ii) the Assigned PPA Index Adder for the relevant Month. As used in this definition, “Pricing Interval” means each unit of time for which CAISO establishes a separate price.

“Day-Ahead Market Price” means the Day Ahead Market or Locational Marginal Price for the Energy Delivery Point for each applicable hour as published by CAISO, or as such price may be corrected or revised from time to time by such independent system operator or other entity in accordance with its rules.

“Default Rate” means, as of any date of determination, the lesser of (a) the sum of (i) the rate of interest per annum quoted in The Wall Street Journal (Eastern Edition) under the “Money Rates” section as the “Prime Rate” for such date of determination, plus (ii) one percent per annum, or (b) if a lower maximum rate is imposed by applicable Law, such maximum lawful rate.

“Delivery Hours” means each Hour commencing at 00:00 (PPT) on the first day of the Delivery Period, and each Hour thereafter during the Delivery Period.

“Delivery Period” has the meaning specified in Exhibit F.

“Delivery Point” means (i) the applicable Assigned Delivery Point(s) for Assigned Energy and (ii) the applicable Energy Delivery Point for Base Energy (as set forth in Exhibits A-1 and A-2).

“Early Termination Payment Date” means the last Business Day of the first Month that commences after an Acceleration Event; *provided* that, in the case of an Acceleration Event due to a Failed Remarketing, the Early Termination Payment Date shall be the last Business Day of the then-current Interest Rate Period.

“Energy” means three-phase, 60-cycle alternating current electric energy, expressed in MWs.

“Energy Delivery Point” has the meaning specified in Exhibit A-1.

“Energy Delivery Termination Date” means a date that occurs pursuant to Section 17.4(a) upon which the Delivery Period will end and Buyer’s and Seller’s respective obligations to receive and deliver Energy under this Agreement will terminate.

“Energy Delivery Termination Event” has the meaning specified in Section 17.2.

“Energy Management Agreement” has the meaning specified in the recitals.

¹ NTD: Parties to confirm pricing for the Initial Assignment Agreement.

“EPS” means California’s Emissions Performance Standards, as set forth in Sections 8340 and 8341 of the California Public Utilities Code, as implemented and amended from time to time, and any successor Law.

“EPS Compliant Energy” means Energy that the Project Participant can contract for and purchase in compliance with EPS requirements that are applicable to such Project Participant.

“EPS Energy Period” means the Initial EPS Energy Period and any subsequent Assignment Period established by future assignments of power purchase agreements consistent with the Assignment Letter Agreement.

“Execution Date” has the meaning specified in the preamble.

“Failed Remarketing” has the meaning specified in the Bond Indenture.

“FERC” means the Federal Energy Regulatory Commission and any successor thereto.

“Firm (LD)” means, with respect to the obligation to deliver Energy, that either Party shall be relieved of its obligations to sell and deliver or purchase and receive without liability only to the extent that, and for the period during which, such performance is prevented by Force Majeure. In the absence of Force Majeure, the Party to which performance is owed shall be entitled to receive from the Party which failed to deliver/receive an amount determined pursuant to Article IV.

“WREGIS” means the Western Renewable Energy Generation Information System or its successor.

Section 1.2 Definitions; Interpretation. References to “Articles,” “Sections,” “Schedules” and “Exhibits” shall be to Articles, Sections, Schedules and Exhibits, as the case may be, of this Agreement unless otherwise specifically provided. Section headings in this Agreement are included herein for convenience of reference only and shall not constitute a part of this Agreement for any other purpose or be given any substantive effect. Any of the terms defined herein may, unless the context otherwise requires, be used in the singular or the plural, depending on the reference. The use herein of the word “include” or “including”, when following any general statement, term or matter, shall not be construed to limit such statement, term or matter to the specific items or matters set forth immediately following such word or to similar items or matters, whether or not non-limiting language (such as “without limitation” or “but not limited to” or words of similar import) is used with reference thereto, but rather shall be deemed to refer to all other items or matters that fall within the scope of such general statement, term or matter. Any reference herein to any agreement or document includes all amendments, supplements or restatements to and of such agreement or document as may occur from time to time, and any reference to a party

to any such agreement includes all successors and assigns of such party thereunder permitted by the terms hereof and thereof.

ARTICLE II. EXECUTION DATE AND DELIVERY PERIOD

Section 2.1 Execution Date; Delivery Period. This Agreement shall become effective upon the Execution Date and, unless this Agreement is terminated early pursuant to Section 2.2, all of Seller's and Buyer's obligations under this Agreement shall be deemed to have been incurred upon the Execution Date. Unless this Agreement is terminated pursuant to Section 2.2, then, upon receipt of the Prepayment, the delivery of Energy under this Agreement shall commence and continue for the Delivery Period.

Section 2.2 Termination by Seller Prior to Prepayment. Seller shall have no obligation to perform under this Agreement unless and until it has received the Prepayment from Buyer pursuant to Section 3.2. In the event Seller has not received the Prepayment prior to noon local time in New York, New York on the Prepayment Outside Date, Seller shall have the right, until such Prepayment has been paid, to terminate this Agreement without any further obligation or liability of either Party; *provided* that, for the avoidance of doubt, in the event Seller so terminates, such termination shall be effective upon the Prepayment Outside Date regardless of whether Buyer tenders the Prepayment after Seller's notice of termination but prior to the Prepayment Outside Date. For the avoidance of doubt, no Termination Payment shall be payable by Seller under any circumstances if this Agreement terminates pursuant to this Section 2.2.

ARTICLE III. SALE AND PURCHASE

Section 3.1 Sale and Purchase of Energy.

(a) Seller agrees to sell and deliver or cause to be delivered to Buyer, and Buyer agrees to take or cause to be taken from Seller, in each case, on a Firm (LD) basis, the Contract Quantity pursuant to the terms and conditions set forth in this Agreement. Energy delivered to Buyer under this Agreement shall be re-delivered to the Project Participant on a floating price basis throughout the Delivery Period. The Parties acknowledge and agree that Seller's delivery obligation for (i) Assigned Products will be measured on an annual basis and (ii) Base Energy will be measured on an Hourly basis, as reflected in the definition of Contract Quantity and further set forth in the terms of this Agreement.

(b) In recognition that Seller will have increased floating price payment obligations to the Swap Counterparty under the Seller Swap with respect to negatively priced Energy and the Swap Counterparty will have increased floating price payment obligations to Buyer under the Buyer Swap with respect to negatively priced Energy, the Parties acknowledge and agree that Seller shall have no payment obligations to Buyer with respect to negatively priced Energy. Furthermore, with respect to any negatively priced Energy remarketed pursuant to this Agreement, Seller's payment obligations under Exhibit C shall be reduced to the extent that such Energy is negatively priced.

Section 3.2 Prepayment. Prior to the commencement of the Delivery Period, Buyer shall pay Seller for all Energy to be delivered during the Delivery Period in an amount equal to the Prepayment, and Seller shall accept the Prepayment as payment in full for all Energy to be delivered hereunder. Buyer shall pay the Prepayment in a single lump sum payment by wire transfer of immediately available funds to an account designated by Seller. In no event shall Buyer be entitled to any rebate or refund of the Prepayment, but nothing in this Section 3.2 shall limit Buyer's rights under (i) Article IV for Seller's failure to deliver Energy (whether or not excused), (ii) Article XVII upon early termination of this Agreement or (iii) Exhibit C with respect to remarketing of Energy in accordance therewith. In no event shall Buyer be required to pay the Prepayment unless and until the Bonds are issued in exchange for a purchase price sufficient to pay costs of issuance, to fund required reserves under the Bond Indenture (or purchase surety bonds or enter into any similar arrangements in lieu of funding such reserves), and to pay the Prepayment.

Section 3.3 Other Amounts Payable with Respect to Assigned Products.

(a) With respect to Monthly Excess Quantities and Assigned Paygo Quantities delivered hereunder, Buyer shall pay Seller an amount equal to the quantity of such Monthly Excess Quantities and Assigned Paygo Quantities, as applicable, multiplied by the price specified for Assigned Product under the applicable Assignment Agreement(s); provided that the Parties acknowledge and agree that the Project Participant's payment of the Retained Payment Amount (as defined in the Participant Custodial Agreement) shall be deemed to satisfy Buyer's payment obligation hereunder with respect to any such Monthly Excess Quantities and Assigned Paygo Quantities. To the extent the Project Participant fails to pay any amounts when due under the Participant Custodial Agreement with respect to Monthly Excess Quantities or Assigned Paygo Quantities, Buyer shall promptly transfer the resulting Excess Receivables (as defined in Exhibit G) to Seller, and the transfer of such Excess Receivables shall satisfy Buyer's payment obligation with respect thereto.

(b) After the Annual Quantity has been delivered for any Contract Year, Seller shall pay Buyer the Day-Ahead Average Price with respect to any remaining Monthly Projected Quantities for any such Contract Year.

Section 3.4 No Obligation to Take Base Energy. Notwithstanding anything to the contrary in this Agreement, Buyer shall not be required to purchase and receive any Base Energy hereunder, and Seller shall remarket any portion of the Contract Quantity that is Base Energy pursuant to the provisions of Exhibit C.

Section 3.5 Reduction of Contract Quantity. The Parties recognize and agree that the Contract Quantity may be reduced in a Reset Period pursuant to the re-pricing methodology described in the Re-Pricing Agreement if necessary to achieve a successful remarketing of the Bonds. The Parties agree further that if, pursuant to the Re-Pricing Agreement, Buyer and the Calculation Agent (as defined in the Bond Indenture) determine in connection with the establishment of any new Reset Period that: (i) such Reset Period will be the final Reset Period and (ii) such Reset Period will end prior to the end of the original Delivery Period, then (A) the Delivery Period will be deemed to be modified so that it ends at the end of such Reset Period, and

(B) the Contract Quantity for the last Month in such Reset Period may be reduced as provided in the Re-Pricing Agreement.

ARTICLE IV. FAILURE TO DELIVER OR TAKE ENERGY

Section 4.1 Assigned Product. Notwithstanding anything herein to the contrary, neither Seller nor Buyer shall have any liability or other obligation to one another under this Agreement for any failure to Schedule, take, or deliver Assigned Product other than as set forth in Section 5(a) of Exhibit C for any failure to Schedule, take or deliver Assigned Energy.

Section 4.2 Failure to Deliver or Take Due to Force Majeure. If with respect to all or any portion of the Contract Quantity of Base Energy:

(a) Buyer fails to take or Seller fails to deliver all or any portion of the Contract Quantity at any Delivery Point pursuant to the terms of this Agreement; and

(b) such failure is due to Force Majeure claimed by either Party,

then Seller shall pay to Buyer the result determined by the following formula with respect to each such Delivery Point:

$$P = Q \times IP$$

Where:

P = The amount payable by Seller under this Section 4.2;

Q = The quantity of Energy described in the lead-in to this Section 4.2;
and

IP = With respect to Base Energy, the Contract Index Price applicable to such Delivery Hour and Energy Delivery Point for Base Energy.

The Parties acknowledge and agree that any failure to deliver the Annual Quantity of Assigned Energy, whether or not due to Force Majeure, is subject to the terms of Section 5(a) of Exhibit C.

ARTICLE V. TRANSMISSION AND DELIVERY; COMMUNICATIONS

Section 5.1 Delivery of Energy.

(a) Assigned Product. All Assigned Energy delivered under this Agreement shall be Scheduled at the applicable Assigned Delivery Point and in accordance with the terms of the applicable Assignment Agreement. All other Assigned Product shall be delivered consistent with the terms of the applicable Assignment Agreement. Except as set forth in the two foregoing sentences, Buyer and Seller shall have no liability or obligations under this Article V with respect to Assigned Product.

(b) Updates to Exhibits. Buyer and Seller may, upon mutual agreement, update Exhibit A-1 to modify the Delivery Points thereunder, provided that the Parties shall promptly notify the Swap Counterparty of any such updates and furthermore shall update the corresponding exhibits to the Buyer Swap and the Seller Swap in accordance with the terms thereof. Furthermore, following the Initial EPS Energy Period and thereafter in connection with the establishment, expiration or termination of any subsequent EPS Energy Period, the Parties shall update (i) the exhibits hereto in accordance with Section 6.2 and (ii) the exhibits to the Buyer Swap and the Seller Swap in accordance with the terms thereof. For the avoidance doubt, such updates will reflect that deliveries will be made to (A) the Energy Delivery Point at the Day-Ahead Market Price for any Base Energy and (B) an Assigned Delivery Point at the Day-Ahead Average Price for any Assigned Energy.

Section 5.2 Scheduling. Scheduling of Assigned Energy shall be in accordance with the applicable Assignment Agreement.

Section 5.3 Title and Risk of Loss. The transfer of title and risk of loss for all Assigned Product other than Assigned Energy shall be in accordance with the applicable Assignment Agreement; provided that all Assignment Agreements shall provide for the transfer of Renewable Energy Credits in accordance with WREGIS.

Section 5.4 PCC1 Product, Long-Term PCC1 Product, and PCC2 Product. To the extent that any Assigned Product is PCC1 Product, Long-Term PCC1 Product or PCC2 Product, the following provisions apply:

(a) Eligibility. Seller, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Clean Energy Project qualifies and is certified by the CEC as an Eligible Renewable Energy Resource as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Clean Energy Project's output delivered to Buyer qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. **[STC 6, Non-Modifiable. (Source: D.07-11-025, Attachment A.) D.08-04-009].** As used above, any capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(b) Transfer of Renewable Energy Credits. Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the renewable energy credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. **[STC REC-1, Non-modifiable. D.11-01-025].** As used above, any capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(c) Tracking of RECs in WREGIS. Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract. **[STC REC-2, Non-modifiable. D.11-01-025]**. As used above, any capitalized terms not otherwise defined herein shall have the meaning specified in the Assignment Agreement.

(d) Governing Law. This Agreement and the rights and duties of the Parties hereunder shall be governed by and construed, enforced and performed in accordance with the Laws of the State of California, without regard to principles of conflicts of law. To the extent enforceable at such time, each Party waives its respective right to any jury trial with respect to any litigation arising under or in connection with this Agreement. **[STC 17, Non-Modifiable. (Source: D.07-11-025, Attachment A) D.08-04-009]**

(e) Seller Representations and Warranties.

Seller represents and warrants:

- (i) Seller has the right to sell the Assigned Product from the Applicable Project;
- (ii) Seller has not sold the Assigned Product or any REC or other attributes of the Assigned Product to be transferred to Buyer to any other person or entity;
- (iii) the Energy component of the Assigned Product produced by the Applicable Project for PCC2 Product and purchased by Seller for resale to Buyer hereunder is not being sold by Seller back to the Applicable Project or PPA Supplier;
- (iv) Assigned Energy and Assigned RECs to be purchased and sold pursuant to this Agreement are not committed to another party;
- (v) the Assigned Product is free and clear of all liens or other encumbrances;
- (vi) Seller will deliver to Buyer all Assigned Energy and associated RECs generated by the Applicable Project for PCC1 Product in compliance with the requirements set forth in California Public Utilities Code Section 399.16(b)(1) and the California RPS compliance requirements for Portfolio Content Category 1 as set forth in CPUC Decision 11-12-052, if applicable;
- (vii) Seller will deliver to Buyer all Assigned Energy and associated RECs generated by the Applicable Project for PCC2 Product in compliance with the requirements set forth in California Public Utilities Code 399.16(b)(2) and the California RPS compliance requirements for Portfolio Content Category 2 as set forth in CPUC Decision 11-12-052, if applicable;
- (viii) Seller will deliver to Buyer all Assigned Energy and associated RECs generated by the Applicable Project for Long-Term PCC1

Product in compliance with the California Long-Term Contracting Requirements, if applicable;

- (ix) the Assigned Product supplied to Buyer under this Agreement that is Long-Term PCC1 Product will be sourced solely from Applicable Projects that have an Assignment Period of ten years or more in length, or otherwise in compliance with the California Long Term Contracting Requirements; and
- (x) Seller will cooperate and work with Buyer, the CEC, and/or the CPUC to provide any documentation required by the CPUC or CEC to support the Product's classification as Portfolio Content Category 1 or Portfolio Content Category 2, as applicable, as set forth in California Public Utilities Code Sections 399.16(b)(1) or 399.16(b)(2), as applicable, and compliance with the California Long-Term Contracting Requirements, if applicable.

Seller further represents and warrants to Buyer that, to the extent that the PCC1 Product sold by Seller is a resale of part or all of a contract between Seller and one or more third parties, Seller represents, warrants and covenants that the resale complies with the following conditions in (i) through (iv) below during the Assignment Period and throughout the generation period:

- (i) the original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(1);
- (ii) this Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;
- (iii) the electricity transferred by this Agreement is transferred to Buyer in real time; and
- (iv) if the Applicable Project has an agreement to dynamically transfer electricity to a California balancing authority, the transactions implemented under this Agreement are not contrary to any condition imposed by a balancing authority participating in the dynamic transfer arrangement.

Seller further represents and warrants to Buyer that, to the extent that the PCC2 Product sold by Seller is a resale of part or all of a contract between Seller and one or more third parties, Seller represents, warrants and covenants that the resale complies with the following conditions in (i) through (v) below during the Assignment Period and throughout the generation period:

- (i) the original upstream third-party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(2);
- (ii) this Agreement transfers only electricity and RECs that have not yet been generated prior to the Assignment Period;

- (iii) this Agreement transfers the original arrangement for substitute electricity (e.g., source and quantity);
- (iv) this Agreement retains the scheduling of the substitute electricity into a California balancing authority as set out in the original firming and shaping transaction; and
- (v) this Agreement continues to provide incremental electricity scheduled into a California balancing authority.

(f) Subsequent Changes in Law. In the event that the qualifications or requirements of the RPS program, PCC1 Product, PCC2 Product, or the California Long-Term Contracting Requirements change, Seller shall take commercially reasonable actions to meet the amended qualifications or requirements of the RPS Law, PCC1 Product, PCC2 Product or the California Long-Term Contracting Requirements but will not be required to incur any unreimbursed costs to comply with the RPS Law, PCC1, PCC2 or the California Long-Term Contracting Requirements, collectively.

(g) Limitations. Notwithstanding anything to the contrary in this Agreement, the Parties acknowledge and agree as follows:

- (i) Seller has relied exclusively upon the representations and warranties of each respective seller set forth in the Assignment Agreements in making the representations and warranties set forth in this Section 5.4 and has not performed any independent investigation with respect thereto;
- (ii) Seller agrees that it will terminate or cause MSCG to terminate the applicable Assignment Period in the event that any representation or warranty in this Section 5.4 proves to be incorrect in any respect;
- (iii) Buyer agrees that its sole recourse for any breach of the provisions of this Section 5.4 shall be the termination of the applicable Assignment Period and Buyer shall have no other recourse against Seller or remedies under this Agreement; and
- (iv) Section 5.4(d) shall only apply to the provisions of this Section 5.4 and all other provisions of this Agreement shall remain subject to and interpreted in accordance with Section 18.4.

Section 5.5 Deliveries within CAISO or Another Balancing Authority. The Parties acknowledge that Energy delivered by Seller at a Delivery Point within CAISO or another Balancing Authority will be delivered in accordance with the CAISO Tariff and rules of the Balancing Authority as applicable. Scheduling such Energy in accordance with the requirements of the applicable Balancing Authority shall constitute delivery of such Energy to Buyer; provided that, any Assigned Products associated with such Energy are also delivered to Buyer hereunder.

Section 5.6 Assigned Products. Notwithstanding anything to the contrary herein, the Parties shall have no liability under this Article V with respect to any Assigned Products.

ARTICLE VI. PARTIAL ASSIGNMENTS OF PPAS

Section 6.1 Future PPA Assignments. Subsequent to the Initial EPS Energy Period, the Project Participant, Seller, Buyer and MSCG shall cooperate to obtain EPS Compliant Energy for delivery hereunder in accordance with the Assignment Letter Agreement.

Section 6.2 Updates to Exhibits A-1 and A-2.

(a) To the extent that an EPS Energy Period terminates or expires and Assigned Energy is not available for delivery immediately following (i) the end of the period for which Force Majeure is deemed to occur in the event of an early termination of an EPS Energy Period or (ii) the expiration of an EPS Energy Period, the Parties shall update (A) Exhibit A-1 to reflect an increase in the Hourly Quantities of Base Energy and (B) Exhibit A-2 to reflect a decrease in the Monthly Projected Quantities associated with the relevant Assigned PPA, in each case, in an amount equal to the Assigned Energy associated with the EPS Energy Period that terminated or expired. For the avoidance of doubt, any updates to Exhibits A-1 and A-2 due to an early termination of an EPS Energy Period shall be effective as of the earlier of (1) the commencement of an “Assignment Period” under a replacement Assignment Agreement or (2) the start of the third Month following the Month in which such early termination occurs.

(b) In connection with the execution of any subsequent Assignment Agreement, the Parties shall update Exhibits A-1 and A-2 to reflect (i) appropriate decreases in the Hourly Quantities of Base Energy and increases in the Monthly Projected Quantities of Assigned Energy and (ii) any other changes in connection therewith.

ARTICLE VII. ENERGY REMARKETING

Section 7.1 Energy Remarketing. If (a) the Project Participant is in default under the Power Supply Contract or does not require or is unable to receive all or any portion of the Energy purchased by Buyer under this Agreement as a result of (i) the Project Participant’s decreased Energy requirements, (ii) decreased demand by the Project Participant’s retail customers and its request that such Energy be remarketed or (iii) EPS Compliant Energy not being available for delivery hereunder; or (b) a quantity of Assigned Energy less than the Annual Quantity is delivered hereunder in any Contract Year for any reason other than Force Majeure, then Buyer shall request (and pursuant to Exhibit C may be deemed to request) remarketing services from Seller pursuant to the provisions of Exhibit C.

Section 7.2 Delegation of Authority. Buyer hereby acknowledges and agrees that Seller shall delegate its rights and obligations under Exhibit C to MSCG pursuant to the Energy Management Agreement.

ARTICLE VIII. REPRESENTATIONS AND WARRANTIES

Section 8.1 Representations and Warranties. As a material inducement to entering into this Agreement, each Party, with respect to itself, hereby represents and warrants to the other Party as of the Execution Date as follows:

(a) it is duly organized and validly existing under the Laws of the state in which it is organized;

(b) it has all requisite power and authority to conduct its business, to own its properties and to execute, deliver and perform its obligations under this Agreement;

(c) there is no litigation, action, suit, proceeding or investigation pending or, to the best of such Party's knowledge, threatened, before or by any Government Agency, which could reasonably be expected to materially and adversely affect the performance by such Party of its obligations under this Agreement or that questions the validity, binding effect or enforceability hereof, any action taken or to be taken by such Party pursuant hereto, or any of the transactions contemplated hereby;

(d) the execution, delivery and performance of this Agreement by such Party has been duly authorized by all necessary action on the part of such Party and does not require any approval or consent of any security holder of such Party or any holder (or any trustee for any holder) of any indebtedness or other obligation of such Party;

(e) this Agreement has been duly executed and delivered on behalf of such Party by an appropriate officer or authorized Person of such Party and constitutes the legal, valid and binding obligation of such Party, enforceable against it in accordance with its terms, as such enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium and similar Laws affecting creditors' rights generally and by general principles of equity;

(f) the execution, delivery and performance of this Agreement by such Party shall not violate any provision of any Law, decree or other legal or regulatory determination applicable to it;

(g) the execution, delivery and performance by such Party of this Agreement, and the consummation of the transactions contemplated hereby, including the incurrence by such Party of its financial obligations under this Agreement, shall not result in any violation of any term of any material contract or agreement applicable to it, or any of its charter or bylaws or of any license, permit, franchise, judgment, writ, injunction or regulation, decree, order, charter, Law or ordinance applicable to it or any of its properties or to any obligations incurred by it or by which it or any of its properties or obligations are bound or affected, or of any determination or award of any arbitrator applicable to it, and shall not conflict with, or cause a breach of, or default under, any such term or result in the creation of any lien upon any of its properties or assets, except with respect to Buyer, the lien of the Bond Indenture;

(h) to the best of the knowledge and belief of such Party, no consent, approval, order or authorization of, or registration, declaration or filing with, or giving of notice to, obtaining

of any license or permit from, or taking of any other action with respect to, any Government Agency is required in connection with the valid authorization, execution, delivery and performance by such Party of this Agreement or the consummation of any of the transactions contemplated hereby other than those that have been obtained; and

(i) it enters this Agreement as a bona-fide, arm's-length transaction involving the mutual exchange of consideration and, once executed by both Parties, considers this Agreement a legally enforceable contract.

Section 8.2 Additional Representations and Warranties of Buyer. As a material inducement to entering into this Agreement, Buyer hereby represents and warrants to Seller as of the Execution Date as follows:

(a) Buyer is entering into this Agreement for the purpose of acquiring Energy for sale to the Project Participant pursuant to the Power Supply Contract;

(b) any amounts payable by Buyer under this Agreement shall (i) other than the Prepayment, be payable as an item of Operating Expense under (and as defined in) the Bond Indenture, and (ii) not constitute an indebtedness or liability of Buyer within the meaning of any constitutional or statutory limitation or restriction applicable to Buyer;

(c) Buyer will promptly alert Seller of any notice received by Buyer alleging a breach under the Bond Indenture or of any covenant of Buyer in the agreements entered into by Buyer in connection with the Clean Energy Project;

(d) Buyer shall not (i) enter into any Bond Documents (excluding any contracts applicable to Energy being resold by Buyer or the Project Participant (or a related joint powers authority selling Energy to the Project Participant)), (ii) consent to, waive or agree to or permit any material amendment to or rescission of any such Bond Documents or (iii) consent to, waive or agree to permit any amendment (whether or not material) to or rescission of the Bond Indenture, in each case, without the prior written consent of Seller;

(e) Buyer shall collect and forthwith cause to be deposited in the relevant funds pursuant to the Bond Indenture all amounts payable to it pursuant to the Power Supply Contract. Buyer shall enforce the provisions of the Power Supply Contract, as well as any other contract or contracts entered into relating to the Clean Energy Project, and duly perform its covenants and agreements thereunder. Buyer shall not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with the Power Supply Contract which will impair the ability of Buyer to pay all of its debts and obligations as they come due; provided that this provision shall not prevent Buyer from otherwise taking any action under or in connection with the Power Supply Contract which is expressly permitted pursuant to the provisions thereof. A copy of the Power Supply Contract and any amendment thereto certified by an authorized officer of Buyer shall be provided to Seller. Buyer shall not enter into any new Power Supply Contract following the Bond Closing Date without the prior written consent of Seller;

(f) Buyer shall keep or cause to be kept with respect to the Clean Energy Project, proper books of record and account (separate from all other records and accounts) in

accordance with generally accepted accounting principles, as such may be modified by the provisions of the Bond Indenture, in which complete and correct entries shall be made of its transactions relating to the Clean Energy Project, the amount of revenues and the application thereof and each fund and account established under the Bond Indenture and relating to its costs and charges under the Power Supply Contract and any other contracts for the sale or purchase of Energy, and which, together with all contracts and all other books and papers of Buyer relating to the Clean Energy Project, shall, subject to the terms thereof, at all times during regular business hours be subject to the inspection of Seller;

(g) Buyer shall from time to time duly pay and discharge, or cause to be paid and discharged, all taxes, assessments and other governmental charges, or required payments in lieu thereof, lawfully imposed upon the properties of Buyer or upon the rights, revenues, income, receipts, and other moneys, securities and funds of Buyer when the same shall become due, and all lawful claims for labor and material and supplies, except those taxes, assessments, charges or claims which Buyer shall in good faith contest by proper legal proceedings if Buyer shall in all such cases have set aside on its books reserves deemed adequate by Buyer with respect thereto;

(h) Buyer shall at all times maintain its existence and shall do and perform or cause to be done and performed all acts and things required to maintain its existence; and

(i) Buyer shall not consolidate or amalgamate with, or merge with or into, or transfer all or substantially all its assets to, or reorganize, reincorporate or reconstitute into or as, another entity unless (i) prior to such event, Buyer receives confirmation from Seller that such event does not trigger a termination event under this Agreement or the Buyer Swap and (ii) at the time of such consolidation, amalgamation, merger, transfer, reorganization, reincorporation or reconstitution, the resulting, surviving or transferee entity assumes all the obligations of Buyer under this Agreement and the Buyer Swap.

Section 8.3 Warranty of Title. Seller warrants that it will have the right to convey and will transfer good and merchantable title to all Energy sold under this Agreement and delivered by it to Buyer, free and clear of all liens, encumbrances, and claims. EXCEPT FOR THE WARRANTIES EXPRESSLY MADE BY SELLER IN THIS ARTICLE VIII, SELLER HEREBY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Section 8.4 Funding Agreement.

(a) Except (i) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision in the Funding Agreement, (ii) to insert such provisions clarifying matters or questions arising under the Funding Agreement as are necessary or desirable and are not contrary to or inconsistent therewith, (iii) to convert or supplement any provision in a manner consistent with the intent of the Funding Agreement and the other Transaction Documents or (iv) for any transfer of the Funding Agreement to MSCG pursuant to [Section 17.6(a)] of the Energy Management Agreement, Seller agrees that it shall not agree to any amendment, alteration, modification, assignment, sale or transfer of the Funding Agreement without receipt of (A) a Rating Confirmation and (B) the prior written consent of Buyer; provided that, for the avoidance

of doubt, no such consent of Buyer shall be required in connection with the replacement, refinancing or re-pricing of the Funding Agreement at the end of any Interest Rate Period in accordance with the terms of the Funding Agreement.

(b) Upon the occurrence of an [Event of Default as defined in the Funding Agreement], Seller shall (i) exercise any right it has pursuant to [] of the Funding Agreement to designate an early termination thereof and (ii) exercise Commercially Reasonable Efforts to recover amounts due thereunder. Additionally, Seller agrees that it shall not withdraw the Early [Repayment Amount] under and as defined in the Funding Agreement pursuant to the provision of [Exhibit A to the Funding Agreement titled “Early Repayment Date and Early Repayment Amount”] unless such Early Repayment Amount plus other available funds are sufficient for the early redemption of the Bonds.

Section 8.5 Notice of PSC Termination. Seller covenants and agrees that it shall provide prompt notice to MSCG if the Project Participant makes a PSC Remarketing Termination for any Reset Period.

ARTICLE IX. TAXES

Seller shall (i) be responsible for all ad valorem, excise and other taxes assessed with respect to Energy delivered pursuant to this Agreement upstream of the Delivery Points, and (ii) indemnify Buyer and its Affiliates for any such taxes paid by Buyer or its Affiliates. Buyer shall (x) be responsible for all such taxes assessed at or downstream of the Delivery Points, and (y) indemnify Seller and its Affiliates for any such taxes paid by Seller or its Affiliates.

ARTICLE X. DISPUTE RESOLUTION

Section 10.1 Arbitration. Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope of this agreement to arbitrate, shall be determined by final, non-appealable binding arbitration in San Francisco, California before three (3) arbitrators. The arbitration shall be administered by Judicial Arbitration and Mediation Services, Inc. (“JAMS”) pursuant to its Comprehensive Arbitration Rules and Procedures. Within 15 days after the commencement of arbitration, each of the Parties shall select one person to act as arbitrator, and the two so-selected arbitrators shall select a third arbitrator (the “chairperson”) within 30 days of the commencement of the arbitration. If either Party is unable or fails to select one person to act as arbitrator, such arbitrator shall be appointed by JAMS. If the Party-selected arbitrators are unable or fail to agree upon a chairperson, the chairperson shall be appointed by JAMS. The chairperson shall be a person who has experience in renewable energy-related transactions, and none of the arbitrators shall have been previously employed by either Party or have any direct pecuniary interest in either Party or the subject matter of the arbitration, unless such conflict is expressly acknowledged and waived in writing by each of the Parties. The Parties shall maintain the confidential nature of the arbitration proceeding and any award, including any hearing(s), except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as necessary in connection with a court application for a preliminary remedy, a

judicial challenge to an award or its enforcement, or unless otherwise required by law or judicial decision. Any arbitration proceedings, decision or award rendered hereunder and the validity, effect and interpretation of this arbitration provision shall be governed by the Federal Arbitration Act. The arbitrator(s) shall have no authority to award consequential, treble, exemplary, or punitive damages of any type or kind regardless of whether such damages may be available under any law or right, with the Parties hereby affirmatively waiving their rights, if any, to recover or claim such damages. In any arbitration arising out of or related to this Agreement, the arbitrators shall award to the prevailing Party, if any, the costs and attorneys' fees reasonably incurred in seeking to enforce the application of this Section 10.1 and by the prevailing party in connection with the arbitration. Notwithstanding the foregoing provisions of this Section 10.1, any costs incurred by a Party in seeking judicial enforcement of any written decision of the arbitrators shall be chargeable to and borne exclusively by the Party against whom such court order is obtained. The award shall be final and binding on the Parties and judgment upon any award may be entered in any court of competent jurisdiction.

Section 10.2 Dispute Resolution.

(a) Judicial Reference. Without limiting the provisions in Section 10.1, if Section 10.1 is ineffective or unenforceable, any dispute between the Parties arising out of or in connection with this Agreement or its performance, breach, or termination (including the existence, validity and interpretation of this Agreement and the applicability of any statute of limitation period) (each, a "Dispute") shall be resolved by a reference proceeding in California in accordance with the provisions of Sections 638 *et seq.* of the California Code of Civil Procedure ("CCP"), or their successor sections (a "Reference Proceeding"), which shall constitute the exclusive remedy for the resolution of any Dispute. As a condition precedent to initiating a Reference Proceeding with respect to any Dispute, the Parties shall comply with the provisions of Section 10.2(b).

(b) Notice of Dispute. Prior to initiating the Reference Proceeding, a Party (the "Disputing Party") shall provide the other Party (the "Responding Party") with a written notice of each issue in dispute, a proposed means for resolving each such issue, and support for such position (the "Notice of Dispute"). Within 10 days after receiving the Notice of Dispute, the Responding Party shall provide the Disputing Party with a written notice of each additional issue (if any) with respect to the dispute raised by the Notice of Dispute, a proposed means for resolving every issue in dispute, and support for such position (the "Dispute Response"). Thereafter, the Parties shall meet to discuss the matter and attempt in good faith to reach a negotiated resolution of the dispute. If the Parties do not resolve the dispute by mutual agreement within 60 days after receipt of the Dispute Response, (the "Negotiation Period"), then either Party may provide to the other Party written notice of intent for judicial reference (the "Impasse Notice") in accordance with the further provisions of this Section 10.2.

(c) Applicability; Selection of Referees.

(i) The Party that provides the Impasse Notice shall nominate one referee at the same time it provides the Impasse Notice. The other Party shall nominate one referee within 10 days of receiving the Impasse Notice. The two referees (the "Party-Appointed Referees") shall appoint a third referee (the "Third Referee", together with the

Party-Appointed Referees, the “Referees”). The Party-Appointed Referees shall be competent and experienced in matters involving the electric energy business in the United States, with at least 10 years of electric industry experience as a practicing attorney. The Third Referee shall be an active or retired California state or federal judge. Each of the Party-Appointed Referees and the Third Referee shall be impartial and independent of either Party and of the other referees and not employed by any of the Parties in any prior matter.

(ii) If the Party-Appointed Referees are unable to agree on the Third Referee within 45 days from delivery of the Impasse Notice, then the Third Referee shall be appointed pursuant to CCP Section 640(b) in an action filed in the Superior Court of California, County of San Francisco (the “Court”), and with due regard given to the selection criteria above. A request for appointment of a referee may be heard on an ex parte or expedited basis, and the Parties agree that irreparable harm would result if ex parte relief is not granted. Pursuant to CCP Section 170.6, each Party shall have one (1) peremptory challenge to the referee selected by the Court.

(d) Discovery; Proceedings.

(i) The Parties agree that time is of the essence in conducting the Reference Proceeding. Accordingly, the referees shall be requested, subject to change in the time periods specified herein for good cause shown, to (i) set the matter for a status and trial-setting conference within 20 days after the date of selection of the Third Referee, (ii) if practicable, try all issues of law or fact within 180 days after the date of the conference, and (iii) report a statement of decision within 20 days after the matter has been submitted for decision.

(ii) Discovery and other pre-hearing procedures shall be conducted as agreed to by the Parties, or if they cannot agree, as determined by the Third Referee after discussion with the Parties regarding the need for discovery and other pre-hearing procedures.

(iii) Except as expressly set forth herein, the Third Referee shall determine the manner in which the Reference Proceeding is conducted, including the time and place of hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of the Reference Proceeding. The Reference Proceeding, including the trial, shall be conducted at a neutral location selected by the Parties, or if not agreed by the Parties, by the Third Referee, in San Francisco, California.

(iv) All proceedings and hearings conducted before the referees, except for trial, shall be conducted without a court reporter, except that when any Party so requests, a court reporter will be used at any hearing conducted before the referees, and the referees will be provided a courtesy copy of the transcript. The Party making such a request shall have the obligation to arrange for and pay the court reporter.

(e) Decision. The referees shall render a written statement of decision setting forth findings of fact and conclusions of law. The decision shall be entered as a judgment in the

court in accordance with the provisions of CCP Sections 644 and 645. The decision shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the Court. The Parties intend this general reference agreement to be specifically enforceable in accordance with the CCP.

(f) Expenses. Each Party shall bear the compensation and expenses of its respective Party-Appointed Referee, own counsel, witnesses, consultants and employees. All other expenses of judicial reference shall be split equally between the Parties.

ARTICLE XI. FORCE MAJEURE

Section 11.1 Applicability of Force Majeure. To the extent either Party is prevented by Force Majeure from carrying out, in whole or part, its obligations under this Agreement and such Party (the “Claiming Party”) gives notice and details of the Force Majeure to the other Party as soon as practicable, then the Claiming Party shall be excused from the performance of its obligations with respect to this Agreement (other than the obligation to make payments then due or becoming due with respect to performance prior to the Force Majeure). The Claiming Party shall mitigate the Force Majeure with all reasonable dispatch. For the duration of the Claiming Party’s non-performance (and only for such period), the non-Claiming Party shall not be required to perform or resume performance of its obligations to the Claiming Party corresponding to the obligations of the Claiming Party excused by Force Majeure.

Section 11.2 Settlement of Labor Disputes. Notwithstanding anything to the contrary herein, the Parties agree that the settlement of strikes, lockouts or other industrial disturbances shall be within the sole discretion of the Party experiencing such disturbance, and the failure of a Party to settle such strikes, lockouts or other industrial disturbances shall not prevent the existence of Force Majeure or of reasonable dispatch to remedy the same.

ARTICLE XII. GOVERNMENTAL RULES AND REGULATIONS

Section 12.1 Compliance with Laws. This Agreement shall be subject to all present and future Laws of any Government Agency having jurisdiction, and neither Party has knowingly undertaken or will knowingly undertake or knowingly cause to be undertaken any activity that would conflict with such Laws; *provided*, however, that nothing herein shall be construed to restrict or limit either Party’s right to object to or contest any such Law, or its application to this Agreement or the transactions undertaken hereunder, and neither acquiescence therein or compliance therewith for any period of time shall be construed as a waiver of such right.

Section 12.2 Contests. Excluding all matters involving a contractual dispute between the Parties, no Party shall contest, cause to be contested or in any way actively support the contest of the equity, fairness, reasonableness or lawfulness of any terms or conditions set forth or established pursuant to this Agreement, as those terms or conditions may be at issue before any Government Agency in any proceeding, if the successful result of such contest would be to preclude or excuse the performance of this Agreement by either Party.

Section 12.3 Defense of Agreement. Excluding all matters involving a contractual dispute between the Parties, each Party shall hereafter defend and support this Agreement before any Government Agency in any proceeding, if the substance, validity or enforceability of all or any part of this Agreement is hereafter directly challenged or if any proposed changes in regulatory practices or procedures would have the effect of making this Agreement invalid or unenforceable or would otherwise materially affect the rights or obligations of the Parties under this Agreement.

ARTICLE XIII. ASSIGNMENT

Neither Party shall assign this Agreement or any of its rights or obligations under this Agreement without the prior written consent of the other Party; provided, however, that:

(a) pursuant to the Bond Indenture, Buyer may, without the consent of Seller, transfer, sell, pledge, encumber or assign this Agreement to the Trustee in connection with any financing or other financial arrangements; provided that Buyer shall not assign this Agreement unless, contemporaneously with the effectiveness of such assignment, Buyer also assigns the Buyer Swap (and the Buyer Custodial Agreement) to the same assignee;

(b) upon written notice to Buyer, Seller may, without Buyer's consent, assign this Agreement to an Affiliate of Seller which assignment shall constitute a novation; provided that, Seller shall not assign this Agreement unless (i) Seller delivers a Rating Confirmation to Buyer with respect to such assignment, (ii) contemporaneously with the effectiveness of such assignment, Seller also assigns the Seller Swap, the Seller Custodial Agreement and the Master Custodial Agreement to the same assignee and either (A) Seller assigns the Funding Agreement and Energy Management Agreement to the same assignee or (B) the assignee provides to Buyer a guarantee of its obligations by Morgan Stanley, and (iii) the assignee is a special purpose entity approved by Buyer or its obligations under this Agreement are guaranteed or otherwise supported by (A) Morgan Stanley or (B) a Funding Recipient to the satisfaction of Buyer; and

(c) if either (A) Seller notifies Buyer that the Funding Agreement will not be replaced, refinanced or re-priced as of the end of any Interest Rate Period, (B) Seller is unable to provide, under the Re-Pricing Agreement, an Estimated Available Discount (as defined in the Re-Pricing Agreement) that is equal to or greater than the Minimum Discount under the Power Supply Contract, or (C) both (1) Seller has agreed under the Re-Pricing Agreement to provide an Available Discount equal to or greater than the Minimum Discount but for a Reset Period shorter than the entire remaining term to maturity of this Agreement and (2) Buyer has identified a potential assignee that has agreed to provide an Available Discount equal to or greater than the Minimum Discount for a Reset Period equal to the entire remaining term to maturity of this Agreement then, at the request of Buyer, Seller will reasonably cooperate with Buyer to cause Seller's (or Seller's Affiliate's, if applicable) right, title and interest in this Agreement, the Re-Pricing Agreement, the Seller Swap, the Seller Custodial Agreement and any Specified Investment Agreement with a term that extends past the then-current Interest Rate Period to which Seller or any Affiliate is a party and all agreements related to any of the foregoing (the "Transaction Documents") to be novated to a replacement seller; provided that (x) a Rating Confirmation is obtained for any Bonds required to be redeemed on the first Mandatory Purchase Date following the effective date of such novation,

(y) the Swap Counterparty shall have provided its prior written consent to such assignment in accordance with the terms of the Seller Swap, and (z) after giving effect to such novation, Seller will not have any obligations (contingent or otherwise, including any obligation to make or repeat any representations or warranties other than basic representations on authority and the right to transfer its rights, title and interests under this Agreement without encumbrances) or be required to make any payment under any Transaction Document or otherwise in connection with or following such novation other than any obligations that would have existed or payments that would have been required had this Agreement terminated as of the end of the last Reset Period that commenced prior to such novation.

ARTICLE XIV. PAYMENTS

Section 14.1 Monthly Statements.

(a) No later than the 5th day of each Month during the Delivery Period (excluding the first Month of the Delivery Period) and the first Month following the end of the Delivery Period, Buyer shall deliver to Seller a statement (a “Buyer’s Statement”) listing any other amounts due to Buyer in connection with this Agreement with respect to the prior Month(s).

(b) No later than the 10th day of each Month during the Delivery Period (excluding the first Month of the Delivery Period) and the first Month following the end of the Delivery Period (the “Billing Date”), Seller shall deliver a statement (a “Billing Statement”) to Buyer and each of the Parties to the Participant Custodial Agreement indicating (i) the total amount due to Buyer, if any, under Article IV, Article V, Article VII and Exhibit C with respect to the prior Month(s), (ii) any amounts due to Seller in connection with this Agreement with respect to the prior Month(s), and (iii) the net amount due to Buyer or Seller; provided that invoicing for Monthly Excess Quantities and Assigned Paygo Quantities shall occur under the Participant Custodial Agreement. If a Participant Monthly Statement (as defined in the Participant Custodial Agreement) for an Assigned PPA has not been delivered by the 10th day of the Month following deliveries², Seller shall provisionally prepare or cause to be prepared a Billing Statement for this Agreement that assumes all of the Monthly Projected Quantities were delivered under the applicable Assigned PPA for such Month, and any subsequent resettlements required with respect thereto shall occur under the Participant Custodial Agreement. As set forth in Section 5(a) of Exhibit C, in any Billing Statement that Seller delivers that reflects a Provisional Payment due, Seller shall indicate (x) the total amount of any Provisional Payment due for such Month and (y) the portion of such Provisional Payment that reflects the Net Participant Price that would otherwise be payable with respect thereto. The Parties acknowledge and agree that all amounts owed to and from Seller in connection with the Clean Energy Project shall be paid pursuant to the Master Custodial Agreement, and the Billing Statement may be provided by MSCG, as Seller’s agent, in the form of a consolidated statement regarding all amounts owed to and from Seller in connection with the Clean Energy Project for each Month, including payments to be made under this Agreement, the Funding Agreement, the Energy Management Agreement and the Seller Swap.

² NTD: Parties to discuss PPA invoice timing.

(c) Upon request by either Party, the other Party shall deliver such supporting documentation of the foregoing as such requesting Party may reasonably request.

Section 14.2 Payment.

(a) If the Billing Statement indicates an amount due from Buyer, then Buyer shall remit such amount to Seller by wire transfer (pursuant to Seller's instructions), in immediately available funds, on or before the later of (i) the 25th day of the Month following the most recent Month to which such Billing Statement relates, or (ii) the 10th day following Buyer's receipt of Seller's Billing Statement, or if either such day is not a Business Day, the following Business Day. If the Billing Statement indicates an amount due from Seller, then Seller shall remit such amount to Buyer by wire transfer (pursuant to the Trustee's instructions for payments due under this Agreement, provided that amounts due from Seller under Section 5(a) of Exhibit C shall be paid to the Provisional Payments Account under and as defined in the Participant Custodial Agreement), in immediately available funds, on or before the later of (i) the 24th day of the Month following the most recent Month to which such Billing Statement relates, or (ii) the 10th day following Seller's receipt of Buyer's Statement, or if either such day is not a Business Day, the preceding Business Day.

(b) If Buyer fails to issue a Buyer's Statement with respect to any Month, Seller shall not be required to estimate any amounts due to Buyer for such Month, *provided* that Buyer may include any such amount on subsequent Buyer's Statements issued within the next sixty (60) days. The sixty (60)-day deadline in this subsection (b) replaces the two (2)-year deadline in Section 14.5 with respect to any claim by any non-delivering Party of inaccuracy in any estimated invoice issued or payment made pursuant to this subsection (b).

Section 14.3 Payment of Disputed Amounts. If Seller disputes any amounts included in the Buyer's Statement, Seller shall (a) (except in the case of manifest error) nonetheless calculate the Billing Statement based on the amounts included in Buyer's Statement and (b) pay any amount required by the Billing Statement in accordance with Section 14.2 without regard to any right of set-off, counterclaim, recoupment or other defenses to payment that Seller may have; *provided*, however, that Seller shall have the right, after payment, to dispute any amounts included in a Buyer's Statement or otherwise used to calculate payments due under this Agreement pursuant to Section 14.5(b). If Buyer disputes any amounts included in the Billing Statement, Buyer may withhold payment to the extent of the disputed amount; *provided*, however, that interest shall be due at the Default Rate for any withheld amount later found to have been properly due.

Section 14.4 Late Payment. If a Party owing a net payment under Section 14.2 fails to remit the full amount payable when due, interest on the unpaid portion shall accrue from the date due until the date of payment at the Default Rate.

Section 14.5 Audit; Adjustments.

(a) A Party shall have the right, at its own expense, upon reasonable notice to the other Party and at reasonable times, to examine and audit and to obtain copies of the relevant portion of the books, records, and telephone recordings of the other Party to the extent reasonably necessary, but only to such extent, to verify the accuracy of any statement, charge, payment, or

computation made under this Agreement. This right to examine, audit, and obtain copies shall not be available with respect to proprietary information not directly relevant to transactions under this Agreement.

(b) Each Buyer's Statement and each Billing Statement shall be conclusively presumed final and accurate and all associated claims for under- or overpayments shall be deemed waived unless such Buyer's Statement or Billing Statement is objected to in writing, with adequate explanation and/or documentation, within two (2) years after the applicable Month of Energy delivery.

(c) All retroactive adjustments shall be paid in full by the Party owing payment within 30 days of notice and substantiation of such inaccuracy. If the Parties are unable to agree upon any retroactive adjustments requested by either Party within the time period specified in Section 14.5(b), then either Party may pursue any remedies available with respect to such adjustments at law or in equity. Retroactive adjustments for payments made based on incorrect Buyer's Statements or Billing Statements shall bear interest at the Default Rate from the date such payment was made. Buyer shall cause the Project Participant to comply with the provisions of Section 14.5(a) to the extent necessary to allow Seller to verify any amounts due under this Agreement.

Section 14.6 Netting. The Parties shall net all amounts due and owing, including any past due amounts (which, for the avoidance of doubt, shall include any accrued interest), arising under this Agreement such that the Party owing the greater amount shall make a single payment of the net amount to the other Party in accordance with this Article XIV. Notwithstanding the foregoing, Seller shall not be entitled to net (i) any amounts that are in dispute or (ii) any payments due to Seller against (A) the Termination Payment if it becomes due, or (B) any payments due from Seller pursuant to Article IV, Article V or Exhibit C.

ARTICLE XV. RECEIVABLES PURCHASES

In accordance with the provisions of Exhibit G, Buyer shall put and Seller shall purchase certain Put Receivables (as defined in Exhibit G) from Buyer relating to payment defaults by the Specified Project Participant (as defined in Exhibit G).

ARTICLE XVI. NOTICES

Any notice, demand, or request required or authorized by this Agreement to be given by one Party to another Party shall be in writing and shall either be sent by electronic means, courier, or personally delivered (including overnight delivery service) to each of the notice recipients and addresses specified in Exhibit B for the receiving Party. Any such notice, demand, or request shall be deemed to be given (i) on the date it is delivered by electronic means, or (ii) when actually received if delivered by courier or personal delivery (including overnight delivery service). Each Party shall have the right, upon 10 days' prior written notice to the other Party, to change its list of notice recipients and addresses in Exhibit B. The Parties may mutually agree in writing at any time to deliver notices, demands or requests through alternate or additional methods.

Notwithstanding the foregoing, a Party may at any time notify the other Party that any notice, demand, statement or request to it must be provided by email transmission for a specified period of time or until further notice, and any communications delivered by means other than email transmission during the specified period of time shall be ineffective.

ARTICLE XVII. ACCELERATION; TERMINATION; REMEDIES

Section 17.1 Acceleration Event. Each of the following events shall constitute an “Acceleration Event” under this Agreement:

- (a) The acceleration of the Funding Recipient’s payment obligations under the Funding Agreement pursuant to Section [] of the Funding Agreement due to an [Event of Default (as defined in the Funding Agreement)];
- (b) Seller is unable to replace, refinance or re-price the Funding Agreement for any Reset Period by the date that is one week prior to the beginning of the first Month following a Reset Period;
- (c) MSCG designates an “Early Termination Date” under the Energy Management Agreement due to the Project Participant making a PSC Remarketing Termination;
- (d) MSCG purchases the Funding Agreement from Seller pursuant to [Section 17.6(a)] of the Energy Management Agreement following the occurrence of a Ledger Event; or
- (e) a Failed Remarketing occurs.

Section 17.2 Energy Delivery Termination Events. Each of the following events shall constitute an “Energy Delivery Termination Event” under this Agreement:

Termination Related to:	Energy Delivery Termination Event:
(a) Ledger Event	The occurrence of a Ledger Event.
(b) Termination of Energy Management Agreement and Failure to Replace MSCG	Both (A) an “Early Termination Date” occurs under the Energy Management Agreement, and (B) Seller is unable to enter into a replacement Energy Management Agreement by the date that is 120 days following such Early Termination Date under the Energy Management Agreement (provided that, for the avoidance of doubt, Seller may only enter into such a replacement Energy Management Agreement if Seller delivers a Rating Confirmation to Buyer with respect to its entry into such replacement Energy Management Agreement).

Termination Related to:	Energy Delivery Termination Event:
(c) Termination of a Buyer Swap	Both (A) an Early Termination Date (as defined in the Buyer Swap) is designated pursuant to the terms of the Buyer Swap for any reason or occurs automatically pursuant to the terms of the Buyer Swap based on an Event of Default or Termination Event (as each term is defined in the Buyer Swap), and (B) either the Seller Swap or the Buyer Swap is not replaced within the Swap Replacement Period.
(d) Termination of a Seller Swap	Both (A) an Early Termination Date (as defined in the Seller Swap) is designated pursuant to the terms of the Seller Swap for any reason or occurs automatically pursuant to the terms of the Seller Swap based on an Event of Default or Termination Event (as each term is defined in the Seller Swap), and (B) either such Seller Swap or the Buyer Swap is not replaced within the Swap Replacement Period.

Section 17.3 Payments Following a Ledger Event. If a Ledger Event occurs and MSCG has not purchased the Funding Agreement pursuant to [Section 17.6(a)] of the Energy Management Agreement, then Seller shall pay to Buyer any amounts paid by MSCG to Seller pursuant to [Section 17.6(b)] of the Energy Management Agreement, which amounts will accrue from the first day of the Month following the Month during which a Ledger Event occurs until (but not including) the earlier of (a) an Early Termination Payment Date or (b) the Initial Mandatory Purchase Date (as defined in the Bond Indenture); provided that the Parties acknowledge and agree that such amounts shall not accrue for any Month in which an Early Termination Payment Date has been designated as a result of MSCG's purchase of the Funding Agreement pursuant to [Section 17.6(a)] of the Energy Management Agreement.

Section 17.4 Remedies and Termination.

(a) Acceleration Event and Delivery Period Termination. An Energy Delivery Termination Date shall occur automatically upon the date of the occurrence of an Acceleration Event or an Energy Delivery Termination Event. As of the Energy Delivery Termination Date, (i) the Delivery Period shall end, (ii) the obligation of Seller to make any further deliveries of Energy to Buyer under this Agreement shall terminate and shall be replaced with a continuing obligation to make payment of the amounts set forth in Exhibit D-3 to Buyer until the earlier of (A) the Month in which an Early Termination Payment Date occurs and (B) the last due date for such payments under Exhibit D-3, and (iii) the obligation of Buyer to receive deliveries of Energy from Seller under this Agreement shall terminate. For the avoidance of doubt, (i) except as set forth in this Section 17.4(a), this Agreement will continue past an Energy Delivery Termination Date, and (ii) an Acceleration Event may arise contemporaneously with an Energy Delivery Termination Date or at any time thereafter and the occurrence of an Energy Delivery Termination Date shall not prevent the occurrence of an Acceleration Event.

(b) Early Termination Payment Date. Following an Acceleration Event, Seller shall (i) promptly notify the Master Custodian of the Early Termination Payment Date and (ii) pay the Termination Payment to the Trustee on the Early Termination Payment Date pursuant to payment instructions issued by Buyer or, in the absence of such instructions, by wire transfer. Such amounts shall be paid together with interest thereon (before as well as after judgment) from (and including) the Early Termination Payment Date to (but excluding) the date such amount is paid, at the Default Rate. The Parties acknowledge that it is impractical and difficult to assess actual damages as a result of a termination of the Delivery Period under this Agreement, and the Parties therefore agree that the payment of the Termination Payment or the continued payment of amounts specified in Exhibit D-3, as applicable, is a fair and reasonable pre-estimate of the actual damages that would be incurred by Buyer as a result of termination of the Delivery Period under this Agreement for any reason and is not a penalty. The obligation of Seller to pay the Termination Payment on the Early Termination Payment Date is unconditional, irrespective of the validity or enforceability of this Agreement or any other agreement contemplated hereby, any waiver or consent by Buyer or any other circumstances that might otherwise constitute a legal or equitable discharge of Seller or a defense of Seller to pay the Termination Payment. Seller waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available to Seller with regard to Seller's obligation to pay the Termination Payment on the Early Termination Payment Date.

(c) Exclusive Termination Rights. Neither this Agreement nor the Delivery Period may be terminated for any reason except as specified in this Article XVII and in Section 2.2. Except with respect to amounts due for periods prior to termination, the payment of the Termination Payment and, if applicable, any amounts specified in Exhibit D-3 shall be the sole and exclusive remedy for each Party upon the termination of the Delivery Period and this Agreement for any reason, including as a result of rejection of this Agreement by either Party in any bankruptcy proceedings.

Section 17.5 Replacement of Swaps.

(a) In the event that (i) any Buyer Swap or any Seller Swap terminates, (ii) any notice of termination is delivered by any party to a Buyer Swap or a Seller Swap, or (iii) any Buyer Swap or Seller Swap is otherwise reasonably anticipated to become subject to immediate termination, in each case for any reason other than a Seller Specified Termination or insolvency of either Buyer or Seller, then each Party whose swap is affected shall notify the other Party and the Parties shall cooperate in good faith for a period of 120 days (commencing no later than the date on which any notice of termination (or anticipated termination) is delivered by any party to a Buyer Swap or a Seller Swap) (such period, the "Swap Replacement Period") to (x) cause the same Swap Counterparty whose Buyer Swap or Seller Swap has been terminated (or is anticipated to terminate) to terminate its unaffected Seller Swap or Buyer Swap, as applicable, and (y) locate replacement agreements with an alternate Swap Counterparty, to be mutually agreed upon by Buyer and Seller, to replace both the affected swap and the unaffected swap; provided, however, that neither Party shall be required to breach any obligation under the unaffected swap or to expend any amounts to cause the unaffected swap to be replaced or to cause an alternate counterparty to replace both swaps. Neither Party shall terminate this Agreement as a result of the termination of any Seller Swap or any Buyer Swap without first complying with this Section 17.5.

As used in this Section 17.5, the term “Seller Specified Termination” means a termination or potential termination of the Seller Swap due to (i) an Event of Default (as such term is defined in the Seller Swap) with respect to Seller pursuant to Section 5(a)(iii) of the Seller Swap, in either case other than where (A) any such failure to pay or transfer was caused solely by error or omission of an administrative or operational nature; (B) funds were available to enable Seller to make such payment or transfer when due; and (C) such payment or transfer is made within two (2) Business Days of Seller’s receipt of written notice of its failure to pay or transfer, or (ii) an Event of Default (as such term is defined in the Seller Swap) with respect to Seller under Section 5(a)(vii) of the Seller Swap.

(b) In the event of a termination (or anticipated termination) of the Seller Swap, if Seller (i) presents to Buyer a proposed alternate Swap Counterparty, (ii) requests in writing that Buyer enter into a replacement swap with such alternate Swap Counterparty, and (iii) agrees to pay Buyer’s reasonable expenses in connection therewith, Buyer shall (y) enter into a master agreement with such alternate Swap Counterparty and (z) either (A) terminate the Buyer Swap when permitted thereby and enter into a replacement transaction under such new master agreement to the same effect as the terminated Buyer Swap or (B) cause such Buyer Swap to be novated to such replacement Swap Counterparty, *provided* that, in each instance, such replacement Swap Counterparty, replacement master agreement and replacement transaction meet the requirements specified for such under the Bond Indenture. Buyer shall not replace a Buyer Swap without Seller’s consent.

(c) Each of Buyer and Seller agree that it will not enter into a replacement Buyer Swap or Seller Swap, as applicable, unless the other Party is replacing its Buyer Swap or Seller Swap, as applicable, with the same replacement Swap Counterparty.

(d) In the event that the Seller Swap terminates or is no longer in effect and the Prepay LLC Payments Period (as defined in the Seller Custodial Agreement) is in effect, then, during such Prepay LLC Payments Period, Seller shall comply with the terms of the Seller Custodial Agreement and make all payments as and when required under Section 3(e) of the Seller Custodial Agreement. In the event that the Buyer Swap terminates or is no longer in effect and the Issuer Payments Period (as defined in the Buyer Custodial Agreement) is in effect, then, during such Issuer Payments Period, Buyer shall comply with the terms of the Buyer Custodial Agreement and make all payments as and when required under Section 3(e) of the Buyer Custodial Agreement. The Parties agree that during any Prepay LLC Payments Period (as defined in the Seller Custodial Agreement) and during any Issuer Payments Period (as defined in the Buyer Custodial Agreement), Seller shall act as calculation agent under the Seller Custodial Agreement or the Buyer Custodial Agreement, as applicable. Seller agrees not to permit any amendment or other modification to the Seller Custodial Agreement that could adversely affect the right of Buyer to receive payments pursuant to Section 3(e) of the Seller Custodial Agreement. Buyer agrees not to permit any amendment or other modification to the Buyer Custodial Agreement that could adversely affect the right of Seller to receive payments pursuant to Section 3(e) of the Buyer Custodial Agreement.

Section 17.6 Limitation on Damages. THE PARTIES CONFIRM THAT THE EXPRESS REMEDIES AND MEASURES OF DAMAGES PROVIDED IN THIS AGREEMENT SATISFY THE ESSENTIAL PURPOSES HEREOF. FOR BREACH OF ANY

PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS HEREIN PROVIDED, SUCH EXPRESS REMEDY OR MEASURE OF DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY, THE OBLIGOR'S LIABILITY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION, AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED. NEITHER PARTY SHALL BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, PUNITIVE, EXEMPLARY, OR INDIRECT DAMAGES, LOST PROFITS OR OTHER BUSINESS INTERRUPTION DAMAGES, BY STATUTE, IN TORT OR CONTRACT, UNDER ANY INDEMNITY PROVISION, OR OTHERWISE. IT IS THE INTENT OF THE PARTIES THAT THE LIMITATIONS HEREIN IMPOSED ON REMEDIES AND THE MEASURE OF DAMAGES BE WITHOUT REGARD TO THE CAUSE OR CAUSES RELATED THERETO, INCLUDING WITHOUT LIMITATION THE NEGLIGENCE OF EITHER PARTY, WHETHER SUCH NEGLIGENCE BE SOLE, JOINT OR CONCURRENT, OR ACTIVE OR PASSIVE. TO THE EXTENT ANY DAMAGES REQUIRED TO BE PAID UNDER THIS AGREEMENT ARE LIQUIDATED, THE PARTIES ACKNOWLEDGE THAT THE DAMAGES ARE DIFFICULT OR IMPOSSIBLE TO DETERMINE, OTHERWISE OBTAINING AN ADEQUATE REMEDY IS INCONVENIENT, AND THE LIQUIDATED DAMAGES CONSTITUTE A REASONABLE APPROXIMATION OF THE HARM OR LOSS. IN DETERMINING THE APPROPRIATE MEASURE OF DAMAGES THAT WOULD MAKE THE PARTIES WHOLE, THE PARTIES HAVE THOROUGHLY CONSIDERED, INTER ALIA, THE UNCERTAINTY OF FLUCTUATIONS IN COMMODITY PRICES, THE ABILITY AND INTENTION OF THE PARTIES TO HEDGE SUCH FLUCTUATIONS, THE BARGAINED-FOR ALLOCATION OF RISK, THE KNOWLEDGE, SOPHISTICATION AND EQUAL BARGAINING POWER OF THE PARTIES, THE ARMS-LENGTH NATURE OF THE NEGOTIATIONS, THE SPECIAL CIRCUMSTANCES OF THIS TRANSACTION, THE ACCOUNTING AND TAX TREATMENT OF THE TRANSACTION BY THE PARTIES, AND THE ENTERING INTO OF OTHER TRANSACTIONS IN RELIANCE ON THE ENFORCEABILITY OF THE LIQUIDATED DAMAGES PROVISIONS CONTAINED HEREIN. THE PARTIES ACKNOWLEDGE THAT THIS IS A SALE OF GOODS SUBJECT TO ARTICLE 2 OF THE NEW YORK UNIFORM COMMERCIAL CODE, INCLUDING WITHOUT LIMITATION, §§ 2-706(6), 2-711, 2-718, AND 2-719.

Section 17.7 Option to Purchase Bonds. In connection with any new Interest Rate Period established under the Bond Indenture after the initial Interest Rate Period, Seller shall have the option to purchase Bonds to be remarketed on the relevant Mandatory Purchase Date by delivering notice to Buyer and the Trustee no later than the last Business Day of the Reset Period that Seller will purchase a quantity of Bonds necessary to avoid the occurrence of a Failed Remarketing. In the event that Seller exercises such option, (x) Seller will be obligated to pay the purchase price of such Bonds in immediately available funds on the Mandatory Purchase Date, and (y) to the extent a PSC Remarketing Termination is in effect with respect to the Reset Period commencing immediately prior to such Interest Rate Period, then Seller shall be required to remarket the Contract Quantities associated with the PSC Remarketing Termination, *provided* that:

- (a) Seller shall be entitled to purchase such Energy for its own account,
- (b) for all such Energy, regardless of how it is remarketed, Seller will pay Buyer the amount determined pursuant to Section 5(b)(iv) of Exhibit C, and

(c) to the extent that it is determined that interest on the Bonds purchased by Seller is not excluded from gross income for federal income tax purposes, Section 7 through Section 9 of Exhibit C shall not apply to any such remarketing.

Section 17.8 Termination Payment Adjustment Schedule. Seller shall prepare revisions to the then-current Exhibit D-2 (Termination Payment Adjustment Schedule) in connection with each successive Interest Rate Period pursuant to the terms of the Re-Pricing Agreement by delivering a revised Exhibit D-2 to Buyer no later than the last day of the applicable Reset Period, in which case such amendments will be effective as of the first day of the next Interest Rate Period.

ARTICLE XVIII. MISCELLANEOUS

Section 18.1 Indemnification Procedure. With respect to each indemnification included in this Agreement, the indemnity is given to the fullest extent permitted by applicable Law and the following provisions shall be applicable. The indemnified Party shall promptly notify the indemnifying Party in writing of any Claim and the indemnifying Party shall have the right to assume its investigation and defense, including employment of counsel, and shall be obligated to pay related court costs, attorneys' fees and experts' fees and to post any appeals bonds; *provided*, however, that the indemnified Party shall have the right to employ at its expense separate counsel and participate in the defense of any Claim. The indemnifying Party shall not be liable for any settlement of a Claim without its express written consent thereto. In order to prevent double recovery, the indemnified Party shall reimburse the indemnifying Party for payments or costs incurred in respect of an indemnity with the proceeds of any judgment, insurance, bond, surety or other recovery made by the indemnified Party with respect to a covered event.

Section 18.2 Deliveries. No later than delivery of the Prepayment, Buyer will deliver to Seller a copy of the Bond Indenture. The following documents shall be delivered by the Parties contemporaneously with this Agreement (unless otherwise specified):

(a) by Seller no later than the date of issuance of the Bonds, an executed copy of the Funding Agreement;

(b) by Buyer, a certificate of the Secretary or Assistant Secretary of Buyer setting forth (i) the resolutions of its governing body with respect to the authorization of Buyer to execute and deliver this Agreement, the Bond Indenture and the Power Supply Contract, (ii) the appropriate individuals who are authorized to sign such agreements, (iii) specimen signatures of such authorized individuals, and (iv) the organization documents of Buyer, certified as being true and complete;

(c) by Seller, evidence reasonably satisfactory to Buyer of (i) Seller's authority to execute and deliver this Agreement and (ii) the appropriate individuals who are authorized to sign this Agreement; and

(d) at Seller's request at any time, Buyer shall provide Seller with a valid sales tax exemption certificate and any other required exemption or resale certificate in jurisdictions where sales of Energy occur under this Agreement to the extent such a certificate can be obtained

and is necessary for exemption from any relevant state taxes that may be levied against the Parties in relation to the transactions under, or pursuant, to this Agreement.

Section 18.3 Entirety; Amendments. This Agreement and the Re-Pricing Agreement, including the exhibits and attachments hereto and thereto, constitute the entire agreement between the Parties and supersedes all prior discussions and agreements between the Parties with respect to the subject matter hereof and thereof. There are no prior or contemporaneous agreements or representations affecting the same subject matter other than those expressed herein and in the Re-Pricing Agreement. Except for any matters that, in accordance with the express provisions of this Agreement, may be resolved by oral agreement between the Parties, no amendment, modification or change herein shall be enforceable unless reduced to writing and executed by both Parties.

Section 18.4 Governing Law. THIS AGREEMENT AND THE RIGHTS AND DUTIES OF THE PARTIES UNDER THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED, ENFORCED AND PERFORMED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT REGARD TO ANY CONFLICTS OF LAW PRINCIPLE THAT WOULD DIRECT THE APPLICATION OF ANOTHER JURISDICTION'S LAW; *PROVIDED*, HOWEVER, THAT THE AUTHORITY OF BUYER TO ENTER INTO AND PERFORM ITS OBLIGATIONS UNDER THIS AGREEMENT SHALL BE DETERMINED IN ACCORDANCE WITH THE LAWS OF THE STATE OF CALIFORNIA.

Section 18.5 Non-Waiver. No waiver of any breach of any of the terms of this Agreement shall be effective unless such waiver is in writing and signed by the Party granting such waiver. No waiver of any breach shall be deemed a waiver of any other subsequent breach.

Section 18.6 Severability. If any provision of this Agreement, or the application thereof, shall for any reason be invalid or unenforceable, then to the extent of such invalidity or unenforceability, the remainder of this Agreement and the application of such provision to other Persons or circumstances shall not be affected thereby, but rather shall be enforced to the maximum extent permissible under applicable Law, so long as the economic and legal substance of the transactions contemplated hereby is not affected in any materially adverse manner as to either Party.

Section 18.7 Exhibits. Any and all Exhibits referenced in this Agreement are hereby incorporated herein by reference and shall be deemed to be an integral part hereof.

Section 18.8 Winding Up Arrangements. All indemnity and confidentiality obligations, audit rights, and other provisions specifically providing for survival shall survive the expiration or termination of this Agreement. The expiration or termination of this Agreement shall not relieve either Party of (a) any unfulfilled obligation or undischarged liability of such Party on the date of such termination or (b) the consequences of any breach or default of any warranty or covenant contained in this Agreement. All obligations and liabilities described in the preceding sentence of this Section 18.8, and applicable provisions of this Agreement creating or relating to such obligations and liabilities, shall survive such expiration or termination.

Section 18.9 Relationships of Parties. The Parties shall not be deemed to be in a relationship of partners or joint venturers by virtue of this Agreement, nor shall either Party be an agent, representative, trustee or fiduciary of the other, except that Seller shall act on behalf of Buyer in remarketing Energy pursuant to Exhibit C. Neither Party shall have any authority to bind the other to any agreement. This Agreement is intended to secure and provide for the services of each Party as an independent contractor.

Section 18.10 Immunity. Buyer represents and covenants to and agrees with Seller that it is not entitled to and shall not assert the defense of sovereign immunity with respect to its obligations or any Claims under this Agreement.

Section 18.11 Rates and Indices.

(a) Commodity Reference Prices.

(i) Price Replacement Process for Energy. If a Daily Commodity Reference Price for Energy is not available for any Hour but such Daily Commodity Reference Price has not permanently ceased to be published, then the Parties shall promptly endeavor to agree on an alternative source for determination of such Daily Commodity Reference Price for the applicable Hours. If such agreement is not reached by the Parties within three (3) Business Days, the Parties shall request quotations for the applicable Daily Commodity Reference Price from four (4) recognized dealers in the applicable commodity (two (2) selected by each Party) for the period that such Daily Commodity Reference Price is expected to be unavailable. If four (4) quotations are provided as requested, the applicable Daily Commodity Reference Price for the applicable Hours shall be the arithmetic mean of the quotations provided by each recognized dealer after disregarding the quotations having the highest and lowest values; *provided that*, if more than one (1) quotation has the same value, then one (1) of such quotations shall be disregarded. If exactly three (3) quotations are provided, the applicable Daily Commodity Reference Price for the applicable Hours shall be the quotation provided by the relevant dealer that remains after disregarding the quotations having the highest and lowest values; *provided that*, if more than one (1) quotation has the same value, then the value of the two (2) quotations with the same value shall control. If fewer than three (3) quotations are provided, the Parties shall seek additional quotations until at least three (3) have been received.

(ii) Price Replacement Process for Non-Published Index. If a Daily Commodity Reference Price is not available because it has permanently ceased to be published, then the Parties shall promptly endeavor to agree on an alternative source for determination of such Daily Commodity Reference Price, which may include agreeing upon a published index or a basket of published indices ("Daily Replacement Index") from which to seek quotes for basis differentials as the replacement for the applicable Daily Commodity Reference Price. If such agreement is not reached by the Parties within three (3) Business Days, then the Daily Replacement Index shall be selected by Seller, acting reasonably. The Parties shall request quotations from four (4) recognized dealers in the applicable commodity (two (2) selected by each Party) for a basis differential ("Daily Basis Differential") between the Daily Replacement Index and physical prices at the relevant Delivery Point for the remaining term of this Agreement. If four (4) quotations are

provided as requested, the Daily Basis Differential will be the arithmetic mean of the quotations provided by each recognized dealer, after disregarding the quotations having the highest and lowest values; *provided* that, if more than one (1) quotation has the same value, then one (1) of such quotations shall be disregarded. If exactly three (3) quotations are provided, the Daily Basis Differential shall be the quotation provided by the relevant dealer that remains after disregarding the quotations having the highest and lowest values; *provided* that, if more than one (1) quotation has the same value, then the value of the two (2) quotations with the same value shall control. If fewer than three (3) quotations are provided, the Parties shall seek additional quotations until at least three (3) have been received. The applicable Daily Commodity Reference Price shall be the Daily Replacement Index plus the Daily Basis Differential calculated in accordance with the provisions of this clause (iii).

(b) Corrections. If a value published for any rate or index used or to be used in this Agreement is subsequently corrected and the correction is published or announced by the Person responsible for that publication or announcement within thirty (30) days after the original publication or announcement, either Party may notify the other Party of (i) that correction and (ii) the amount (if any) that is payable as a result of that correction. If, not later than thirty (30) days after publication or announcement of that correction, a Party gives notice that an amount is so payable, the Party that originally either received or retained such amount shall, not later than three (3) Business Days after the effectiveness of that notice, pay, subject to any other applicable provisions of this Agreement, to the other Party that amount, together with interest on that amount at the Default Rate for the period from and including the day on which a payment originally was (or was not) made to but excluding the day of payment of the refund or payment resulting from that correction.

Section 18.12 Limitation of Liability. Notwithstanding anything to the contrary herein, all obligations of Buyer under this Agreement, including without limitation all obligations to make payments of any kind whatsoever, are special, limited obligations of Buyer payable solely from Trust Estate (as such term is defined in the Bond Indenture) as and to the extent provided in the Bond Indenture, including with respect to Operating Expenses (as such term is defined in the Bond Indenture). Buyer shall not be required to advance any moneys derived from any source other than the Revenues (as such term is defined in the Bond Indenture) and other assets pledged under the Bond Indenture for any of the purposes in this Agreement mentioned. Neither the faith and credit of Buyer nor the taxing power of the State of California or any political subdivision thereof is pledged to payments pursuant to this Agreement. Buyer shall not be directly, indirectly, contingently or otherwise liable for any costs, expenses, losses, damages, claims or actions, of any conceivable kind on any conceivable theory, under or by reasons of or in connection with this Agreement, except solely to the extent Revenues (as such term is defined in the Bond Indenture) are received for the payment thereof and may be applied therefor pursuant to the terms of the Bond Indenture.

Section 18.13 Counterparts. This Agreement may be executed and acknowledged in multiple counterparts and by the Parties in separate counterparts, each of which shall be an original and all of which shall be and constitute one and the same instrument.

Section 18.14 Rights of Trustee. Pursuant to the terms of the Bond Indenture, Buyer has irrevocably appointed the Trustee as its agent to issue notices (including Remarketing Notices, Call Option Notices, Put Option Notices and Repurchase Offers) and, as directed under the Bond Indenture, to take any other actions that Buyer is required or permitted to take under this Agreement. Seller may rely on notices or other actions taken by Buyer or the Trustee and Seller has the right to exclusively rely on any notices delivered by the Trustee that the Trustee is authorized to deliver under the Bond Indenture, regardless of any conflicting notices that it may receive from Buyer.

Section 18.15 Waiver of Defenses. Seller waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available to Seller with regard to Seller's obligations pursuant to the terms of this Agreement.

Section 18.16 U.S. Resolution Stay. The Parties agree that (i) to the extent that prior to the date hereof the Parties hereto have adhered to the 2018 ISDA U.S. Resolution Stay Protocol (the "Protocol"), the terms of the Protocol are incorporated into and form a part of this Agreement, and for such purposes this Agreement shall be deemed a Protocol Covered Agreement and each Party shall be deemed to have the same status as Regulated Entity or Adhering Party as applicable to it under the Protocol; (ii) to the extent that prior to the date hereof the Parties have executed a separate agreement the effect of which is to amend the qualified financial contracts between them to conform with the requirements of the QFC Stay Rules (the "Bilateral Agreement"), the terms of the Bilateral Agreement are incorporated into and form a part of this Agreement and for such purposes each Party shall be deemed to have the same status as "Covered Entity", "Counterparty Entity" or "Client Entity" (or other similar term) as applicable to it under the Bilateral Agreement; or (iii) if clause (i) and clause (ii) do not apply, the terms of Section 1 and Section 2 and the related defined terms (together, the "Bilateral Terms") of the form of bilateral template entitled "Full-Length Omnibus (for use between U.S. G-SIBs and Corporate Groups)" or the "Agency Version of Omnibus Agreement (for use with U.S. G-SIBs)", as applicable, published by ISDA on November 2, 2018 (currently available on the 2018 ISDA U.S. Resolution Stay Protocol page at www.isda.org), the effect of which is to amend the qualified financial contracts between the Parties thereto to conform with the requirements of the QFC Stay Rules, are hereby incorporated into and form a part of this Agreement, and for such purposes this Agreement shall be deemed a "Covered Agreement," Seller shall be deemed a "Covered Entity" and Buyer shall be deemed a "Counterparty Entity" (or "Client Entity" for the Agency version, as applicable). In the event that, after the date of this Agreement, the Parties hereto become adhering Parties to the Protocol, the terms of the Protocol will replace the terms of this section. In the event of any inconsistencies between this Agreement and the terms of the Protocol, the Bilateral Agreement or the Bilateral Terms (each, the "QFC Stay Terms"), as applicable, the QFC Stay Terms will govern. Terms used in this paragraph without definition shall have the meanings assigned to them under the QFC Stay Rules. For purposes of this paragraph, references to "this Agreement" include any related credit enhancements entered into between the Parties, directly or indirectly through an agent, or provided by one to the other. In addition, the Parties agree that the terms of this paragraph shall be incorporated into any related covered affiliate credit enhancements, as applicable, with all references to Seller replaced by references to the covered affiliate support provider.

"QFC Stay Rules" means the regulations codified at 12 C.F.R. 252.2, 252.81–8, 12 C.F.R. 382.1–7 and 12 C.F.R. 47.1–8, which, subject to limited exceptions, require an express recognition of the

stay-and-transfer powers of the FDIC under the Federal Deposit Insurance Act and the Orderly Liquidation Authority under Title II of the Dodd Frank Wall Street Reform and Consumer Protection Act and the override of default rights related directly or indirectly to the entry of an affiliate into certain insolvency proceedings and any restrictions on the transfer of any covered affiliate credit enhancements.

Section 18.17 Rate Changes.

(a) Absent the agreement of the Parties to the proposed change, the standard of review for changes to any rate, charge, classification, term or condition of this Agreement, whether proposed by a Party (to the extent that any waiver in Section 18.17(b) below is unenforceable or ineffective as to such Party), a non-party or FERC acting *sua sponte*, shall solely be the “public interest” application of the “just and reasonable” standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) and clarified by Morgan Stanley Capital Group Inc. v. Public Util. Dist. No. 1 of Snohomish, 554 U.S. 527 (2008) and further refined in NRG Power Marketing v. Maine Public utilities Commission, 558 U.S. 165 (2010).

(b) In addition, and notwithstanding Section 18.17(a), to the fullest extent permitted by applicable Law, each Party, for itself and its successors and assigns, hereby expressly and irrevocably waives any rights it can or may have, now or in the future, whether under Section 205 and/or 206 of the Federal Power Act or otherwise, to seek to obtain from FERC by any means, directly or indirectly (through complaint, investigation or otherwise), and each hereby covenants and agrees not at any time to seek to so obtain, an order from FERC changing any section of this Agreement specifying the rate, charge, classification, or other term or condition agreed to by the Parties, it being the express intent of the Parties that, to the fullest extent permitted by applicable Law, neither Party shall unilaterally seek to obtain from FERC any relief changing the rate, charge, classification, or other term or condition of this Agreement, notwithstanding any subsequent changes in applicable Law or market conditions that may occur. In the event it were to be determined that applicable Law precludes the Parties from waiving their rights to seek changes from FERC to their market-based power sales contracts (including entering into covenants not to do so) then this Section 18.17(b) shall not apply, *provided* that, consistent with Section 18.17(a), neither Party shall seek any such changes except solely under the “public interest” application of the “just and reasonable” standard of review and otherwise as set forth in Section 18.17(a).

IN WITNESS WHEREOF, the Parties have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.

EXHIBIT C

ENERGY REMARKETING

Section 1. Defined Terms. Capitalized terms used but not otherwise defined in this Exhibit shall have the meanings given to such terms in this Agreement, unless otherwise indicated. The following terms, when used in this Exhibit C and identified by the capitalization of the first letter thereof, have the respective meanings set forth below, unless the context otherwise requires. In the event that any of the provisions of the Code or the Treasury Regulations referenced in this Section 1 (the “Original Code Provisions”) (x) cease to be effective or no longer apply to remarketing and remediation under this Agreement and (y) upon or following such change to the Original Code Provisions, other Code provisions, Treasury Regulations or Laws apply to remarketing and remediation under this Agreement (the “New Code Provisions”), then the references herein to any such Original Code Provisions shall be deemed to refer to the applicable New Code Provisions.

“Code” means the Internal Revenue Code of 1986, as amended.

“Energy Remarketing Reserve Fund” means an account established under the Bond Indenture into which Buyer shall deposit the amounts specified in Section 5(b) of this Exhibit C.

“Expired Non-Private Business Sales Ledger” has the meaning specified in Section 9(a) of this Exhibit C.

“Expired Private Business Sales Ledger” has the meaning specified in Section 9(a) of this Exhibit C.

“Ledger Entry” has the meaning specified in Section 7(d) of this Exhibit C.

“Ledger Event” has the meaning specified in Section 9(c) of this Exhibit C.

“Minimum Remarketing Sales Price” is an amount determined for Energy by the following formula:

$$\text{MRSP} = \text{RRPP} - (\text{RRPP} \times (\text{RRF}/\text{CLB}))$$

Where:

MRSP = The Minimum Remarketing Sales Price for one MWh

RRPP = The Remediation Remarketing Purchase Price for one MWh

RRF = The balance of the Energy Remarketing Reserve Fund

CLB = The combined cash balance of the Non-Private Business Sales Ledger and the Private Business Sales Ledger

“Monthly Discount” has the meaning specified in the Power Supply Contract.

“Monthly Remarketing Notice” has the meaning specified in Section 3(b) of this Exhibit C.

“Municipal Utility” means any Person that (a)(i) is a “governmental person” as defined in Treasury Regulation Section 1.141-1(b) and (ii) owns an electric distribution utility (or provides Energy at wholesale to entities described in clause (i) that own such utilities), or (b) is a community choice aggregator organized under the Laws of the State of California. Buyer shall from time to time to the extent necessary revise the definition of “Municipal Utility” to conform to the applicable provisions of the Code or Treasury Regulations by delivery of written notice to Seller setting forth the revised definition together with a Tax Opinion.

“Net Participant Price” means, with respect to the Project Participant, the Contract Index Price less the Monthly Discount.

“Non-Private Business Remarketing Proceeds” means all proceeds received by Buyer under Section 5 of this Exhibit C from Seller’s remarketing of Energy in any Non-Private Business Sale.

“Non-Private Business Sale” means a sale (other than a Qualified Sale) of Energy to a “governmental person” as defined in Treasury Regulation Section 1.141-1(b) that in each case agrees in writing to not use any part of such Energy for a Private Business Use.

“Non-Private Business Sales Ledger” has the meaning specified in Section 7(a) of this Exhibit C.

“Non-Qualifying Remarketing Limit” means a quantity of Energy, in MWhs, equal to 10% of the total quantity of Energy, in MWhs, to be delivered hereunder, as such Non-Qualifying Remarketing Limit may be increased from time to time upon receipt by Buyer and Seller of a Tax Opinion setting forth a higher Non-Qualifying Remarketing Limit

“Private Business Remarketing Limit” means a quantity of Energy in MWhs equal to (a) \$15,000,000, divided by (b) the Specified Fixed Price, as such Private Business Remarketing Limit may be increased from time to time upon receipt by Buyer and Seller of a Tax Opinion setting forth a higher Private Business Remarketing Limit.

“Private Business Remarketing Proceeds” means all proceeds received by Buyer under Section 5 of this Exhibit C from Seller’s remarketing of Energy in any Private Business Sale (including the purchase of such Energy by Seller for its own account).

“Private Business Sale” means any sale of Energy other than in a Non-Private Business Sale or a Qualified Sale.

“Private Business Sales Ledger” has the meaning specified in Section 7(b) of this Exhibit C.

“Private Business Use” has the meaning ascribed to such term in Section 141 of the Code.

“Provisional Payment” has the meaning specified in Section 5(a) of this Exhibit C.

“Qualified Sale” means the sale of Energy to a Municipal Utility that agrees in writing (i) to use all of such Energy for a Qualifying Use that is not a Private Business Use and (ii) not to count any purchase of such Energy towards any remediation obligations such as Municipal Utility may have with respect to proceeds received from the sale of property purchased with tax-exempt financing proceeds. Buyer shall from time to time to the extent necessary revise the definition of “Qualified Sale” to conform to the applicable provisions of the Code or Treasury Regulations by delivery of written notice to Seller setting forth the revised definition together with a Tax Opinion.

“Qualifying Use” with respect to Energy has the meaning ascribed to such term in Treasury Regulations Section 1.148-1(e)(2)(iii)(A)(2) or (B)(2), as applicable.

“Remarketing Fee” means the amount specified in Exhibit F of this Agreement.

“Remarketing Notice” means a Monthly Remarketing Notice.

“Remediation Remarketing” means the remarketing of Energy in Qualified Sales by Seller pursuant to Section 8 of this Exhibit C in an effort to reduce to zero (0) any Ledger Entry balances in either the Non-Private Business Sales Ledger or the Private Business Sales Ledger.

“Remediation Remarketing Purchase Price” has the meaning specified in Section 8(b)(ii) of this Exhibit C.

“Tax Opinion” means an [Opinion of Bond Counsel or Special Tax Counsel (as defined in the Bond Indenture)] to the effect that an action proposed to be taken or an event will not, in and of itself, cause interest on the applicable Bonds to be included in gross income for purposes of federal income taxation.

“Treasury Regulations” means the U.S. Treasury Regulations under the Code.

Section 2. Buyer’s Right and Obligation to Request Remarketing. Buyer may, and, if required to do so under the Bond Indenture or the terms of this Agreement shall, request Seller to remarket, pursuant to this Exhibit C, all or a specified part of the Contract Quantities for any Delivery Point.

Section 3. Remarketing Notice.

(a) Generally. To request remarketing under this Exhibit C, Buyer must issue a Remarketing Notice, which Remarketing Notice must state as applicable (i) the portion of the Contract Quantity to be remarketed from each relevant Delivery Point, and (ii) the Delivery Hours in which such portion of the Contract Quantity is to be remarketed.

(b) Monthly Remarketing Notice. Buyer may designate a Remarketing Notice as a “Monthly Remarketing Notice” if the Remarketing Notice is delivered to Seller not later than three (3) Business Days prior to the start of the first Month in which it applies and applies to a period of one (1) Month or more; provided furthermore that, in the event Seller is obligated to remarket Base Energy under Section 3.4 of the Agreement, Buyer shall be deemed to have delivered a Monthly Remarketing Notice with respect thereto.

Section 4. Seller's Remarketing Obligations Generally.

(a) All Energy remarketed by Seller pursuant to this Exhibit C shall be for the benefit of Buyer, meaning all remarketed Energy shall first be sold by Seller to Buyer and then resold by or for the account of Buyer pursuant to the terms and provisions of this Exhibit C.

(b) Seller may act directly as principal to the remarketing buyer or may cause a supplier to Seller to act directly as principal to the remarketing buyer. Neither Seller nor any Person acting on Seller's behalf shall owe any fiduciary duties to Buyer with respect to the remarketing of any Energy. Buyer acknowledges and agrees that Seller or a Person acting on Seller's behalf in remarketing Energy may have other supplies of Energy available to sell to potential remarketing buyers, and Energy designated for remarketing shall not be entitled to any preference over any such other supplies of Energy.

(c) Seller shall prepare, maintain and provide Monthly to Buyer accurate and complete records showing (i) the identity of each purchaser in a Qualified Sale, a Non-Private Business Sale, or a Private Business Sale undertaken by Seller on Buyer's behalf, (ii) the aggregate amount of Energy remarketed under this Agreement in Qualified Sales, (iii) the aggregate amount of Energy remarketed under this Agreement in Non-Private Business Sales, and (iv) the aggregate amount of Energy remarketed under this Agreement in Private Business Sales. Notwithstanding the foregoing or anything to the contrary herein, in the event that either Party (x) reasonably determines that interest on the Bonds is not excluded from gross income for federal income tax purposes due to a change in Law, (y) receives an opinion of counsel to such effect (provided that such opinion of counsel shall be rendered by counsel of nationally recognized standing in matters pertaining to the tax exempt status of interest on obligations issued by states and their political subdivisions, duly admitted to the practice of law before the highest court of any state of the United States) and (z) notifies the other Party of such determination (which notice shall include a copy of the opinion of counsel referenced in clause (y)), then (I) the terms of this Exhibit C regarding the remediation obligations of the Parties shall cease to apply and shall be of no further force and effect, and (II) Seller shall no longer maintain the records described in the immediately preceding sentence and shall not record Ledger Entries or otherwise maintain the ledgers described in Exhibit C Section 7 and **Error! Reference source not found.** of this Exhibit C.

(d) Any amounts due to Buyer for Energy remarketed by Seller or purchased by Seller under this Exhibit C shall be remitted to Buyer pursuant to Section 14.2 of this Agreement in the Month following the Month in which such Energy is remarketed or purchased, as applicable. Additionally, the Parties acknowledge and agree that Seller's payment obligations under this Exhibit C shall be reduced to the extent that any Energy remarketed hereunder is negatively priced.

Section 5. Remarketing.

(a) Provisional Payments for and Remarketing of Assigned Product. Notwithstanding anything to the contrary herein, the following terms shall apply to under-deliveries of Assigned Product.

(i) To the extent that (A) the Annual Quantity has not been delivered for the then-current Contract Year as of the end of a Month and (B) the quantity of Assigned

Product delivered under an Assigned PPA in any such Month is less than the Monthly Projected Quantity, then Seller shall pay Buyer for any such Month the product of (I) the Monthly Projected Quantity for the relevant Assigned PPA(s), minus the quantity of Assigned Product actually delivered under such Assigned PPA(s), multiplied by (II) the Day-Ahead Average Price for the relevant Month (any such payment, a “Provisional Payment”). Any Provisional Payments due from Seller to Buyer under this Section 5(a)(i) shall be paid to the Provisional Payments Account established under and defined in the Participant Custodial Agreement, and Seller shall have fully satisfied any Provisional Payment obligation upon payment of such amount in accordance with the Participant Custodial Agreement, regardless of whether the Participant Custodian complies with its obligations thereunder. In any Billing Statement that Seller delivers under Section 14.2(b) that reflects a Provisional Payment due, Seller shall indicate (x) the total amount of any Provisional Payment due for such Month and (y) the portion of such Provisional Payment that reflects the Net Participant Price that would otherwise be payable with respect thereto.

(ii) To the extent that a quantity of Assigned Products equal to or greater than the Annual Quantity are delivered for any Contract Year, any Provisional Payments made during such Contract Year shall not result in Ledger Entries under this Exhibit C.

(iii) To the extent that less than the Annual Quantity of Assigned Product is delivered for any Contract Year, then (A) Buyer shall be deemed to have requested for Seller to remarket a quantity of Assigned Product equal to the Annual Quantity minus the quantity of Assigned Products actually delivered during such Contract Year (such quantities, the “Remarketed Quantities”), provided that (x) the Remarketed Quantities shall be reduced by any Assigned Products not delivered due to Force Majeure and (y) any Provisional Payment attributable to Assigned Products not delivered due to Force Majeure shall be excluded from the calculations described below, and (B) Seller shall be deemed to have purchased such Remarketed Quantities for its own account at a price equal to the Average Provisional Price (as defined in Section 5(a)(iv) below). Any purchase by Seller of the Remarketed Quantities for its own account pursuant to this Section 5(a) shall constitute a Private Business Sale and shall be reflected on the Private Business Sales Ledger effective as of the first day of the Ledger Month (as defined below). Buyer shall notify Seller if and to the extent the proceeds from any such Private Business Sales are applied to amounts owed by the Project Participant pursuant to Section 7.5 of the Power Supply Contract, and, to the extent so applied, such proceeds shall remediate such Private Business Sales and be entered as debits on the Private Business Sales Ledger.

(iv) The following terms have the meaning specified below for the purpose of this Section 5(a).

“Average Provisional Price” means the sum of all Provisional Payment Allocation Amounts for such Contract Year.

“Ledger Month” means, for any Contract Year, the Month immediately following the last Month for which the Pro-Rated Monthly Quantity was fully delivered for such Contract Year. For example, if (x) a Contract Year is from January 1 to December 31, (y) the Annual Quantity

is 120 MWhs and (z) 110 MWhs are delivered in a given Contract Year, then the resulting Ledger Entries would be entered on December 1 for such Contract Year. For another example, if (x) a Contract Year is from January 1 to December 31, (y) the Annual Quantity is 120 MWhs and (z) 85 MWhs are delivered in a given Contract Year, then the resulting Ledger Entries would be entered on September 1 for such Contract Year.

“Pro-Rated Monthly Quantity” means, for each Contract Year, the quantity attributable to each Month of such Contract Year if the Annual Quantity is divided into twelfths. For example, if the Annual Quantity is 120 MWhs, the Pro-Rated Monthly Quantity for each Month in a Contract Year is 10 MWhs – and, in such case, if (x) 110 MWhs are delivered in a given Contract Year, the Pro-Rated Monthly Quantity would be fully delivered for 11 of the 12 Months in such Contract Year; and (y) if 85 MWhs are delivered in a given Contract Year, the Pro-Rated Monthly Quantity would be fully delivered for 8 of the 12 Months in such Contract Year.

“Provisional Payment Allocation Amount” means, for each Provisional Payment in a Contract Year, an amount (in \$/MWh) determined by multiplying the Weight for such Provisional Payment by the price used to calculate such Provisional Payment.

“Weight” means an amount (in \$/MWh) determined for each Provisional Payment in a Contract Year by dividing the amount of each such Provisional Payment by the sum of all Provisional Payments for such Contract Year.

(b) Remarketing of Base Energy. The following provisions shall apply to the remarketing of Base Energy by Seller:

(i) Seller shall use Commercially Reasonable Efforts to remarket or cause to be remarketed all Base Energy specified for remarketing. In exercising such Commercially Reasonable Efforts, Seller shall first attempt to remarket or cause to be remarketed all Energy specified in a Remarketing Notice in Qualified Sales and then, if Seller is unable to so remarket all of such Energy for such purposes, in Non-Private Business Sales. If Seller is unable to remarket all or any portion of the Energy designated in a Remarketing Notice, then Seller shall purchase such Energy for its own account at the prices set forth in Section 5(b)(v) of this Exhibit C as if such Energy had been remarketed to it.

(ii) Seller shall not be required to remarket any Base Energy at a net price to Seller (after deducting all transportation and transmission costs and all other costs) that is anticipated to be less than the Day-Ahead Market Price applicable to such Energy in the case of a Monthly Remarketing Notice.

(iii) Notwithstanding the foregoing or anything to the contrary herein, provided that (A) the Project Participant is not in default under its Power Supply Contract and (B) Seller is remarketing such Project Participant's portion of the Contract Quantity because an EPS Energy Period is not in effect, then:

A. Seller shall purchase Energy for its own account and shall pay Buyer the product of (A) the quantity of such Energy purchased for its own account multiplied by (B) the result of (I) the applicable Day-Ahead Market Price minus (II) the Remarketing Fee;

B. Proceeds received by Buyer under this Section 5(b)(iii) that exceed the amount Buyer would have received for the same quantity of Energy at the Net Participant Price shall be deposited in the Participant Rebate Account (as defined in the Bond Indenture) of the Energy Remarketing Reserve Fund;

C. the Project Participant shall be required under Section 7.5 of the Power Supply Contract to exercise Commercially Reasonable Efforts to purchase Energy for a Qualifying Use to remediate any Ledger Entry resulting from Seller's purchase of Energy; and

D. if any Ledger Entry has not been reversed within twelve Months of the date of any such Ledger Entry, Seller thereafter shall exercise Commercially Reasonable Efforts to remediate any such Ledger Entry by making a Qualified Sale to the Project Participant or any other Municipal Utility.

(iv) Proceeds from Qualified Sales and Non-Private Business Sales.

A. For any Energy specified in a Monthly Remarketing Notice that Seller remarkets in a Qualified Sale or Non-Private Business Sale, Seller shall deliver to Buyer the actual proceeds less the Remarketing Fee per MWh sold, *provided* that the aggregate amount delivered by Seller under this clause (A) for any Month shall not be less than the aggregate quantity so remarketed during such Month multiplied by the Net Participant Price.

B. Reserved.

C. In the event the payment due date under a Qualified Sale or Non-Private Business Sale has not yet occurred prior to the date upon which payment is due under this Agreement for the applicable Month, the Parties shall nonetheless issue statements as if the full amount from such Qualified Sale or Non-Private Business Sale had been paid and, if such full payment is not received prior to the next Monthly due date under this Agreement, the Parties shall issue the appropriate statements to reflect the actual proceeds received and true-up any difference.

(v) Proceeds from Private Business Sales.

A. For any Energy specified in a Monthly Remarketing Notice that is not remarketed in a Qualified Sale or Non-Private Business Sale, Seller shall pay to Buyer the positive result determined by the following formula with respect to each Delivery Point to which such Monthly Remarketing Notice applied, provided that the aggregate amount delivered by Seller under this clause (A) for any Month shall not be less than the aggregate quantity so remarketed during such Month multiplied by the Net Participant Price:

$$P = Q \times (IP - RF)$$

Where:

P = The amount payable by Seller under this Section 5(b)(v)(A)

Q = The quantity of such Energy remarketed with respect to such Delivery Point

IP = The Contract Index Price for such Delivery Point

RF = The Remarketing Fee

B. Reserved.

(vi) Energy Remarketing Reserve Fund. Any proceeds received by Buyer under this Section 5 for Energy remarketed in sales other than Qualified Sales that exceed the amount Buyer would have received for the same quantity of Energy at the Net Participant Price shall be deposited in the Energy Remarketing Reserve Fund.

Section 6. Reserved.

Section 7. Tracking Remarketing Proceeds. Seller shall maintain four (4) separate ledgers related to remarketing proceeds as described below:

(a) One (1) ledger (the “Non-Private Business Sales Ledger”) shall include, (A) as dollar credits, the Non-Private Business Remarketing Proceeds, and (B) as a MWh credit, the MWhs corresponding to such Non-Private Business Remarketing Proceeds.

(b) Another ledger (the “Private Business Sales Ledger”) shall include, (A) as dollar credits, Private Business Remarketing Proceeds, and (B) as a MWh credit, the MWhs corresponding to such Private Business Remarketing Proceeds.

(c) The other two (2) ledgers shall be maintained as described in Section 9(a) of this Exhibit C.

(d) The credits to be recorded in the ledgers described in Section 7(a) and (b) of this Exhibit C (collectively, the “Ledger Entries”) shall be dated as of the first day of the Month prior to the Month in which Buyer or Project Participant receives the proceeds corresponding to such Ledger Entries.

(e) The four (4) ledgers described in this Section 7 of this Exhibit C and all debits and credits to such ledgers shall be kept on an aggregate basis for purposes of this Exhibit C.

Section 8. Remediation Remarketing and Bond Redemptions. At any time that the net Ledger Entry balance of either the Non-Private Business Sales Ledger or the Private Business Sales Ledger is greater than zero (0):

(a) Buyer shall exercise Commercially Reasonable Efforts to utilize the proceeds represented by the dollar balances of such Ledger Entries to purchase Energy for resale in Qualified Sales and shall promptly notify Seller following such purchase and sale.

(b) Seller shall exercise Commercially Reasonable Efforts to locate opportunities for Buyer to purchase Energy to sell in Qualified Sales to remediate the proceeds represented by the dollar balances of the Ledger Entries. In this regard, if Seller locates a Remediation Remarketing opportunity, then

(i) Seller shall notify Buyer of such opportunity;

(ii) Buyer shall, upon receipt of such notice, purchase Energy from Seller at a price determined by Seller in a Commercially Reasonable manner based upon applicable market prices at the location where the remarketing opportunity sale will occur (the "Remediation Remarketing Purchase Price");

(iii) Seller shall remarket such Energy on Buyer's behalf in a Qualified Sale;

(iv) Seller shall remit to Buyer the proceeds collected from such Qualified Sale, but in no event shall Seller remit less than the Minimum Remarketing Sales Price for the remarketing transaction; *provided*, however, that to the extent Seller does not receive the Remediation Remarketing Purchase Price from Buyer prior to the Remediation Remarketing described herein, Seller shall credit the proceeds collected from such remarketing sale against the Remediation Remarketing Purchase Price owed to Seller, and Seller shall be reimbursed from the Energy Remarketing Reserve Fund to the extent necessary to make Seller whole for such Qualified Sale; and

(v) Seller shall issue to Buyer a confirmation notice (including the dollar price and MWhs) of each purchase of Energy by or on behalf of Buyer, and each sale of Energy on Buyer's behalf, under this Section 8, and amounts due from or to Buyer shall be separately stated on the Billing Statement for the Month in which such remarketing transactions occur.

For the avoidance of doubt, Seller shall not sell, nor be required to sell, Energy to Buyer for a Remediation Remarketing if such Energy is to be remarketed by Seller on behalf of Buyer for less than the Minimum Remarketing Sales Price.

(c) Unless the terms of a Remediation Remarketing undertaken by Seller on Buyer's behalf are specifically assumed by Buyer, Seller shall indemnify Buyer for any costs or

liabilities associated with such Remediation Remarketing (other than costs related to the price at which such Energy is sold and the risk of collecting the sale proceeds from the remarketing buyer), including, without limitation, any cover or replacement costs; termination payments; fees, penalties, costs or charges (in cash or in kind) assessed by any Transmission Provider for failure to satisfy its balance or nomination requirements; Claims for breach of warranty; taxes, fees, levies, penalties, licenses or charges imposed by any Government Agency; and Claims from personal injury or property damages.

(d) The total purchase price of any Energy purchased by Buyer or Seller pursuant to Section 8(b) of this Exhibit C will be entered by Seller as a dollar debit on (i) first, the Private Business Sales Ledger, if and to the extent such ledger has a positive balance and such Energy is remarketed in a Qualified Sale and (ii) second, on the Non-Private Business Sales Ledger, if and to the extent such ledger has a positive balance, the Private Business Sales Ledger has a zero (0) balance, and such Energy is remarketed in a Qualified Sale, with such debit in the case of (i) or (ii) dated as of the last day of the Month in which such Energy was purchased. Each dollar debit shall offset and reverse an equal amount of the dollar credits to such ledger (that have not previously been transferred to the Expired Non-Private Business Sales Ledger or the Expired Private Business Sales Ledger) in the order in which they were made (beginning with the oldest credit not previously offset and reversed by any prior debit). Whenever a debit is made to the dollar balance of the Ledger Entries of either such ledger, Seller shall also debit the Energy balance of the Ledger Entries of such ledger based on (i) such dollar debit divided by (ii) an average Energy price calculated from the net Ledger Entry then present on the relevant ledger being debited. For the avoidance of doubt, neither the Non-Private Business Sales Ledger nor the Private Business Sales Ledger shall ever have a negative balance, and the same purchase transaction shall not result in a debit to more than one ledger except to the extent that a debit for the transaction causes one (1) ledger to have a zero (0) balance and the remaining portion of the permitted debit is made to the other ledger.

(e) In addition to the ability of Seller or Buyer to engage in Remediation Remarketing to reduce the balances of any Ledger Entries through Qualified Sales of Energy, the proceeds represented by the dollar balances of such Ledger Entries may also be remediated through the purchase of natural gas that will be remarketed in Qualified Sales. For the purposes of entering MMBtu debits for natural gas to the Ledger Entries in accordance with Section 8(d) of this Exhibit C for any Remediation Remarketing of natural gas, a quantity of MWhs will be debited based on (i) the total proceeds paid for such natural gas divided by (ii) an average Energy price calculated from the net Ledger Entry then present on the relevant ledger being debited.

Section 9. Ledger Event.

(a) In addition to the Non-Private Business Sales Ledger and the Private Business Sales Ledger described in Section 7(a) and (b) of this Exhibit C, above, Seller shall also maintain an “Expired Non-Private Business Sales Ledger” and an “Expired Private Business Sales Ledger.” Whenever a credit to the dollar balance of the Ledger Entries of the Non-Private Business Sales Ledger has not been reversed in full within two (2) years of such credit by an offsetting dollar debit in accordance with Section 8(d) or (e) of this Exhibit C, then Seller shall (i) debit the remaining portion of such dollar credit and the MWh balance of the Ledger Entries in the manner described in the penultimate sentence of Section 8(d) and (ii) record such debits as credits to the

Expired Non-Private Business Sales Ledger. Similarly, whenever a credit to the dollar balance of the Ledger Entries of the Private Business Sales Ledger has not been reversed in full within two (2) years of such credit by an offsetting dollar debit in accordance with Section 8(d) or (e) of this Exhibit C, then Seller shall (i) debit the remaining portion of such dollar credit and the MWh balance of the Ledger Entries in the manner described in the penultimate sentence of Section 8(d) and (ii) record such debits as credits to the Expired Private Business Sales Ledger.

(b) No later than the tenth (10th) day of each Month, Seller shall provide to Buyer copies of the Non-Private Business Sales Ledger, the Private Business Sales Ledger, the Expired Non-Private Business Sales Ledger and the Expired Private Business Sales Ledger showing all credits and debits to each such ledger since the Execution Date.

(c) A “Ledger Event” shall occur if, upon delivery of a ledger statement under Section 9(b) above, either (i) (A) the sum of all MWh credits on the Expired Non-Private Business Sales Ledger and the Expired Private Business Sales Ledger exceeds (B) the Non-Qualifying Remarketing Limit, or (ii) (A) the sum of all MWh credits on the Expired Private Business Sales Ledger exceeds (B) the Private Business Remarketing Limit, unless Buyer has obtained a Tax Opinion with respect to such event or any remedial action that may have been taken with respect to the Bonds.

(d) The occurrence of a Ledger Event and any remedies associated therewith in Article XVII of this Agreement shall be Buyer’s sole and exclusive remedies with respect to any inability by Seller to purchase and remarket Energy for Buyer pursuant to, or any breach by Seller of its obligations under, this Exhibit C.

Section 10. Buyer Right to Request to Purchase Remarketed Energy. Notwithstanding any other provision of this Exhibit C, Buyer may request in a Remarketing Notice delivered to Seller that Buyer be the remarketing buyer of the quantities of Energy described in such Remarketing Notice, in which case Seller will sell such remarketed Energy to Buyer at a price, at Delivery Point(s) and on date(s) to be mutually agreed (but the price, with respect to Energy remarketed pursuant to a Monthly Remarketing Notice, shall in no event be less than the Net Participant Price) by the Parties, provided that Seller shall be obligated to remarket such Energy to Buyer only if all of the following conditions are satisfied:

- (a) Buyer is not in default under any Transaction Document;
- (b) Buyer has certified to Seller in the Remarketing Notice that the condition in (a) above is true;
- (c) Buyer has provided such adequate assurances of Buyer’s performance, if any, as may have been reasonably requested by Seller;
- (d) there is a master agreement in effect between Buyer and Seller that will govern the remarketing transaction between Buyer and Seller; and
- (e) Buyer covenants to resell the Energy only in Qualified Sales.

EXHIBIT D-1

TERMINATION PAYMENT SCHEDULE

The Termination Payment for any Early Termination Payment Date will be the amount set forth on the attached table in the column corresponding to the month in which the Early Termination Date occurs, plus the product of (a) the Monthly Projected Quantity for such Month and the Hourly Quantities for such Month, as applicable, minus the quantity of Energy delivered in such Month prior to the effectiveness of such Early Termination Date, multiplied by (b) the result of (i) the applicable Fixed Price for Energy (as defined in the Buyer Swap), minus (ii) the Specified Discount then in effect.

RE-PRICING AGREEMENT

This RE-PRICING AGREEMENT, dated as of [____], 2025 (this “Agreement”), is entered into by and between Energy Prepay [____], LLC, a Delaware limited liability company (“Prepay LLC”) and California Community Choice Financing Authority (“Issuer”). Prepay LLC and Issuer are sometimes referred to herein individually as a “Party” and collectively as the “Parties.” Capitalized terms used herein shall have the meanings set forth in Section 1.

WHEREAS, Issuer is issuing the [Clean Energy Project Revenue Bonds, 2025 Series [X]] pursuant to the Indenture in order to provide funds to acquire the Energy Supply from Prepay LLC pursuant to the Prepaid Agreement; and

WHEREAS, in connection with its acquisition of the Energy Supply, Issuer has entered into the Power Supply Contract with the Project Participant providing for the sale of the Energy Supply by Issuer to the Project Participant; and

WHEREAS, the price payable by the Project Participant for the Energy Supply includes a discount to the price set forth in the Power Supply Contract, which discount has been established for the Initial Reset Period therein and will be re-established for each subsequent Reset Period under the terms and conditions set forth herein; and

WHEREAS, under the terms of the Power Supply Contract, prior to each Reset Period after the Initial Reset Period, the Project Participant may elect to have its Energy Supply remarketed if the Available Discount established for such Reset Period is less than the Minimum Discount specified in the Power Supply Contract;

NOW, THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Section 1. Definitions. When used herein, the following capitalized terms shall have the following meanings:

“Additional Reduction Amount” has the meaning set forth in Appendix A.

“Available Discount” has the meaning specified in the Power Supply Contract and also means, for each Reset Period, the final amount determined by Prepay LLC as of the applicable Bond Pricing Date pursuant to Appendix A, expressed in cents per MWh (rounded down to the nearest one-half cent).

“Bond Closing Date” means the date on which the Bonds are issued pursuant to the Indenture.

“Bond Pricing Date” means, for any Reset Period, the date upon which the interest rate and yield on the Bonds is established pursuant to the applicable bond remarketing agreement or bond purchase agreement.

“Bonds” has the meaning set forth in the Indenture.

“Business Day” has the meaning set forth in the Indenture.

“Contract Quantity” has the meaning set forth in the Prepaid Agreement.

“Delivery Period” has the meaning set forth in the Prepaid Agreement.

“Delivery Period Implied Rate” has the meaning set forth in Appendix A.

“Determination Month” has the meaning set forth in Appendix A.

“Energy” has the meaning set forth in the Prepaid Agreement.

“Energy Supply” means with respect to the Prepaid Agreement, the aggregate Contract Quantities of Energy to be delivered by Prepay LLC under the Prepaid Agreement.

“Estimated Available Discount” has the meaning set forth in Section 5(a).

“Excess Amount” is the positive difference, if any, of the Prior Remaining Energy Value less the New Remaining Delivery Cost.

“Fixed Price” means \$[____]/MWh.

“Fixed Rate” has the meaning set forth in Appendix A.

“Funding Agreement” has the meaning set forth in the Prepaid Agreement.

“Funding Bidder” has the meaning set forth in the LLC Agreement.

“Funding Recipient” has the meaning set forth in the Prepaid Agreement.

“Indenture” means the Trust Indenture, dated as of the first day of the month of the Bond Closing Date, between Issuer and the Trustee, as the same may be amended or supplemented from time to time pursuant to one or more Supplemental Indentures, or any other trust indenture under which refunding bonds are issued and secured.

“Initial Reset Period” means the period from [____], 2025 until [____], 20[____].

“Interest Rate Period” has the meaning set forth in the Indenture, provided that if the Bonds are Outstanding in two or more Series with separate, concurrent and co-terminus Interest Rate Periods, “Interest Rate Period” shall mean all such Interest Rate Periods collectively.

“LLC Agreement” means the Amended and Restated Limited Liability Company Agreement of Prepay LLC, dated as of [____], 2025.

“Mandatory Purchase Date” has the meaning set forth in the Indenture.

“Minimum Discount” has the meaning set forth in the Power Supply Contract.

“Monthly Contract Quantity” means, for any month, the aggregate Contract Quantities scheduled to be delivered by Prepay LLC to Issuer under the Prepaid Agreement for such month.

“Monthly Discount” has the meaning set forth in Section 6(b).

“MWh” has the meaning set forth in the Prepaid Agreement.

“Prepay LLC” has the meaning set forth in the preamble.

“New Remaining Delivery Cost” has the meaning set forth in Appendix A.

“New Reset Period” has the meaning set forth in Appendix A.

“Old Reset Period” has the meaning set forth in Appendix A.

“Outstanding” has the meaning set forth in the Indenture.

“Participant Notification Deadline Day” means, with respect to each Reset Period, the last day on which Issuer is permitted to provide a notice of the Estimated Available Discount to the Project Participant under the Power Supply Contract.

“Person” means any individual, corporation, partnership, joint venture, trust, unincorporated organization, or government agency.

“Power Supply Contract” has the meaning set forth in the Indenture.

“Prepaid Agreement” means the Prepaid Energy Sales Agreement, dated as of [____], 2025, between Prepay LLC and Issuer, as the same may be amended or supplemented in accordance with its terms.

“Prior Remaining Energy Value” has the meaning set forth in Appendix A.

“Project Participant” has the meaning set forth in the Indenture.

“Re-pricing Date” means, for any Reset Period, any Business Day not earlier than ninety (90) days prior to the earlier of (i) the date on which the Bonds then Outstanding may be called for optional redemption in accordance with the Indenture and (ii) the day following the last day of the Reset Period then in effect.

“Re-pricing Firm Offer” means, for any Reset Period after the Initial Reset Period, a binding offer from a Funding Bidder on the Bond Pricing Date for such Reset Period to provide a Funding Agreement that reflects (i) a Reset Period Implied Rate that is sufficient to achieve the Minimum Discount for such Reset Period, and (ii) a Reset Period length that complies with the requirements of Section 3.

“Re-pricing Indicative Offer” means, for any Reset Period after the Initial Reset Period, indicative pricing from a Funding Bidder that would constitute a Re-pricing Firm Offer if made on the proposed Bond Pricing Date for such Reset Period.

“Remaining Delivery Cost” has the meaning set forth in Appendix A.

“Remaining Energy Value” has the meaning set forth in Appendix A.

“Reset Period” means the Initial Reset Period and each period determined pursuant to Section 3.

“Reset Period Implied Rate” has the meaning set forth in Appendix A.

“Series” means Bonds designated as a Series and authorized to be issued by Issuer pursuant to Section 2.01 of the Indenture.

“SOFR” means the Secured Overnight Financing Rate administered by the Federal Reserve Bank of New York (or a successor administrator) and provided on the New York Fed’s Website.

“Supplemental Indenture” means any indenture supplemental to or amendatory of the Indenture executed and delivered by Issuer and the Trustee in accordance with Article X of the Indenture.

“Termination Payment Adjustment Schedule” has the meaning set forth in the Prepaid Agreement.

“Trustee” means the trustee under the Indenture and its successors and assigns.

Section 2. Purpose of Agreement and Intention of Parties. The Parties are entering into this Agreement in connection with the execution and delivery of the Indenture, the Prepaid Agreement and the other transaction documents for the purpose of establishing the methodology for determining the Available Discount for each Reset Period following the Initial Reset Period.

Section 3. Reset Periods. Each Reset Period shall commence on the next day that follows the last day of the Initial Reset Period or, subsequently, the immediately prior Reset Period. The length of each Reset Period shall be the remaining term of the Delivery Period unless Prepay LLC elects, in its sole discretion following consultation with Issuer, a shorter period, which period may not be shorter than the lesser of (a) three (3) years or (b) the remaining term of the Delivery Period without Issuer’s consent; *provided further* that:

- (i) The Initial Reset Period and each subsequent Reset Period (other than the final Reset Period) shall end the last day of the month preceding the end of the applicable Interest Rate Period. For example, if the Interest Rate Period ends October 31, the last day of the Reset Period would end September 30, and
- (ii) the final Reset Period shall end on the last day of the Delivery Period.

Section 4. Reserved.

Section 5. Estimated Available Discount.

(a) On any Business Day not earlier than the 70th day prior to the earliest potential Re-pricing Date for any Reset Period and not later than ten (10) Business Days prior to the latest potential Re-pricing Date for any Reset Period, Prepay LLC (either on its own initiative or at Issuer's request) shall provide to Issuer an estimate of the length of such Reset Period, the Reset Period Implied Rate and the Available Discount (the "Estimated Available Discount") that are anticipated to apply to such Reset Period. In determining the Estimated Available Discount, Prepay LLC shall utilize the methodology set forth in Appendix A. After Prepay LLC provides an initial estimate for a Reset Period, Prepay LLC may provide updated estimates on its own initiative or upon a subsequent request from Issuer.

(b) Issuer shall notify the Project Participant of the Estimated Available Discount and any updates thereto under the relevant provisions of the Power Supply Contract. Unless Prepay LLC and Issuer otherwise agree, in any notice of Estimated Available Discount provided to a Project Participant prior to the Participant Notification Deadline Day, Issuer shall clearly indicate in such notice that the notice is provisional and is not intended to, and does not, trigger a Project Participant's right to provide a Remarketing Election Notice (as defined in the Power Supply Contract).

(c) If, at any time during the re-pricing period for a Reset Period, a Funding Bidder provides a Re-pricing Firm Offer for such Reset Period that Prepay LLC accepts in accordance with the LLC Agreement, Issuer agrees that it will execute a bond purchase or remarketing agreement reflecting a Funding Agreement for such Reset Period between Prepay LLC and the Funding Bidder selected by Prepay LLC for such Reset Period.

(d) Issuer agrees to cooperate in good faith with Prepay LLC and to take all steps reasonably within Issuer's control that are necessary, in each case, to cause a Bond Pricing Date to occur for any Re-pricing Indicative Offer that Prepay LLC elects to pursue, which steps shall include retaining an underwriter or remarketing agent for the Bonds to be priced and participating in the Bond marketing or remarketing process.

(e) Issuer shall notify the Project Participant of the Estimated Available Discount and any updates thereto under the relevant provisions of the Power Supply Contract. Unless Prepay LLC and Issuer otherwise agree, in any notice of Estimated Available Discount provided to a Project Participant prior to the Participant Notification Deadline Day, Issuer shall clearly indicate in such notice that the notice is provisional and is not intended to, and does not, trigger a Project Participant's right to provide a Remarketing Notice (as defined in the Power Supply Contract).

Section 6. Determination of Available Discount and Monthly Discount.

(a) Prepay LLC shall determine on the Bond Pricing Date the Available Discount for such Reset Period (expressed in cents per MWh and rounded down to the nearest one-half cent) in accordance with the methodology set forth in Appendix A.

(b) For each Reset Period after the Initial Reset Period, Prepay LLC shall determine the monthly discount portion of the Available Discount for such Reset Period (the "Monthly Discount"). Issuer and Prepay LLC then shall mutually agree upon the projected Annual Refund (as defined in the Power Supply Contract) for such Reset Period, which shall be determined

consistent with Section 3.2(b) of the Power Supply Contract and shall be the remaining portion of the Available Discount. Prepay LLC and Issuer acknowledge that the purpose of retaining a portion of the Available Discount for distribution in the Annual Refund is to mitigate the risk to bondholders of reduced or lost investment income on any investments held under the Indenture.

Section 7. Termination Payment Adjustment Schedule; Monthly Quantity Changes.

(a) For any Reset Period, Prepay LLC may modify the Termination Payment Adjustment Schedule to reflect changes in the Remaining Energy Values set forth on Attachment 1 to Appendix A and otherwise, provided that such modifications are sufficient to meet the redemption requirements of the Bonds to be sold for such Reset Period.

(b) Issuer and Prepay LLC agree that the Prepaid Agreement will be amended to reflect any reductions to Monthly Contract Quantities determined pursuant to Appendix A.

Section 8. Timing. The dates and time intervals stated in this Agreement may be waived or altered by the mutual agreement of the Parties.

Section 9. Termination. This Agreement shall terminate automatically upon the occurrence of an Early Termination Payment under and as defined in the Prepaid Agreement. For the avoidance of doubt, any such termination shall not be considered a failure by Prepay LLC to act in good faith hereunder, regardless of whether the Parties have previously discussed pricing that may apply to any Reset Period or otherwise taken the steps required under this Agreement.

Section 10. Communications.

(a) All notices, requests and other communications shall be in writing (including facsimile, electronic mail or other electronic means) provided to the address and/or electronic mail address set forth below:

Prepay LLC: As provided in the Prepaid Agreement

Issuer: As provided in the Prepaid Agreement

(b) Each Party may change the address for communications to it pursuant to the terms of the referenced agreement, which notice shall be effective when delivered at the address specified herein.

Section 11. Miscellaneous.

(a) *Miscellaneous.* Article X (Dispute Resolution) and Sections 18.3 (Entirety; Amendments), 18.4 (Governing Law), 18.5 (Non-Waiver), 18.6 (Severability), 18.7 (Exhibits), 18.9 (Relationship of Parties), 18.12 (Limitation of Liability) and 18.13 (Counterparts) of the Prepaid Agreement are incorporated by reference into this Agreement, *mutatis mutandis*, as if fully set forth herein.

(b) *Amendments to Power Supply Contract and Indenture.* Issuer shall not agree to or consent to any modification, supplement, amendment or waiver of any provision of the Power Supply Contract or the Indenture that affects the meaning of any defined term herein or the operation of any provision hereof.

(c) *Assignment.* This Agreement and all of the provisions hereof shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns, but neither this Agreement nor any of the rights, interests or obligations hereunder shall be assigned by either Party hereto without the prior written consent of the other Party; provided that each Party acknowledges and agrees that the other Party shall assign all of its right, title and interest in, to and under this Agreement in connection with any assignment by either Party of its right, title and interest in, to and under the Prepaid Agreement to the assignee thereof, which assignment shall constitute a novation.

[Separate Signature Page(s) Attached]

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be duly executed and delivered by their proper and duly authorized officers as of the date first above written.

Appendix A

Prepay LLC will undertake the following steps in determining the Available Discount for any Reset Period (each, a “New Reset Period”):

- Step 1: Determine the “Prior Remaining Energy Value”
 - Prepay LLC will determine the Remaining Energy Value for the last month of the current Reset Period (the “Old Reset Period”) based on Attachment 1 hereto, as such Attachment initially existed or was last updated at the beginning of the prior Reset Period (the “Prior Remaining Energy Value”).
 - “Remaining Energy Value” means, for any month, the amount set forth on Attachment 1 of Appendix A as the “Remaining Energy Value” for such month, as Attachment 1 may be updated pursuant to this Appendix A in connection with the establishment of any new Reset Period.
- Step 2: Prepay LLC will specify the length of the New Reset Period pursuant to Section 3 of this Agreement
- Step 3: Prepay LLC will specify a Reset Period Implied Rate for the New Reset Period and a Delivery Period Implied Rate
 - “Reset Period Implied Rate” means, for any Reset Period other than the Initial Reset Period, a fixed rate offered by the Funding Recipient for such Reset Period as of the Bond Pricing Date for such Reset Period, which rate the Parties acknowledge (i) will be determined by the Funding Recipient in its sole and absolute discretion based on the rate of the Funding Recipient, and (ii) for which the Funding Recipient may consider all relevant factors, including (w) the nature of the source of funding provided by the Funding Agreement, including any applicable regulatory or capital charges, (x) the tenor, (y) market interest for such funding at the time, and (z) any other unique attributes of the Funding Agreement funding relative to other sources available to the Funding Recipient. The Parties acknowledge that, for purposes of providing an Estimated Available Discount, Prepay LLC may rely on indicative pricing proposals from a Funding Bidder.
 - “Delivery Period Implied Rate” means, for any portion of the Delivery Period that is not covered by a Reset Period, a fixed rate determined by Prepay LLC in its sole and absolute discretion as of the Bond Pricing Date for such Reset Period which Prepay LLC determines (in its sole discretion) that the Funding Recipient would be able to acquire, as of the date of determination, funding from other sources comparable to the funding provided by the Funding Agreement as of the date of determination if such Funding Agreement were extended for the entire Delivery Period. In determining such a rate, Prepay LLC may consider all relevant factors, including (w) the nature of the source of funding provided by the Funding Agreement, including any applicable regulatory or capital charges, (x) the length of the Delivery Period, (y) market interest for such funding at the time, and (z) any other unique attributes of the

Funding Agreement funding relative to other sources available to the Funding Recipient.

- Step 4: Determine the “New Remaining Delivery Cost”
 - Prepay LLC will determine the “Remaining Delivery Cost” for each month of the Delivery Period after the Old Reset Period. The Remaining Delivery Cost for the first month of the New Reset Period is the “New Remaining Delivery Cost”.
 - “Remaining Delivery Cost” means, for the first month of any New Reset Period (the “Determination Month”), an amount calculated by Prepay LLC equal to the net present value of a stream of monthly payments equal to the Monthly Contract Quantities multiplied by the Fixed Price for the remainder of the Delivery Period (including such Determination Month), discounted at the Reset Period Implied Rate for the New Reset Period and the Delivery Period Implied Rate for the remainder of the Delivery Period after the New Reset Period.
- Step 5: Additional Reduction Amount or changing Monthly Contract Quantities
 - If the Prior Remaining Energy Value is less than the New Remaining Delivery Cost:
 - If the Reset Period will go to the end of the Delivery Period, Prepay LLC will reduce the Monthly Contract Quantities to zero in as many months as necessary at the end of the Delivery Period (and, to the extent necessary, reduce the Monthly Contract Quantities in the last remaining month of the Reset Period to a quantity greater than zero) such that the Prior Remaining Energy Value is equal to the New Remaining Delivery Cost.
 - If the Reset Period will end prior to the end of the Delivery Period, Prepay LLC in its sole discretion may reduce the Monthly Contract Quantities as provided above.
 - If the Prior Remaining Energy Value is greater than the New Remaining Delivery Cost:
 - Subject to the following bullet, Prepay LLC will pay to Issuer the amount, if any, by which (A) the Prior Remaining Energy Value exceeds (B) the New Remaining Delivery Cost (the “Additional Reduction Amount”) on the first day of the contemplated Interest Rate Period, which payment shall be applied by Issuer to the retirement of Bonds.
 - Notwithstanding the immediately prior bullet, Prepay LLC may elect to retain a portion of the Excess Amount if (i) the Reset Period will end prior to the end of the Delivery Period, (ii) such retention does not reduce the Available Discount, and (iii) doing so is consistent with the amortization requirement of the Bonds. If Prepay LLC elects to retain a portion of such Excess Amount pursuant to the foregoing proviso, the

- Additional Reduction Amount shall be the portion of such Excess Amount that Prepay LLC elects to pay.
- Any Additional Reduction Amount or changes in Monthly Contract Quantities will then be included in calculating the New Remaining Delivery Cost. An Additional Reduction Amount will reduce the Prior Remaining Energy Value for this purpose.
 - Once the New Reset Period goes into effect, Attachment 1 hereto will be amended such that the Remaining Energy Value for each month in the New Reset Period and the remainder of the Delivery Period is equal to the Remaining Delivery Cost for such month as determined under Step 4 and updated under this Step 5.
- Step 6: Determine the Fixed Rate for the Bonds for the term of such contemplated Interest Rate Period
 - The remarketing agent or underwriter of the Bonds for such contemplated Interest Rate Period will specify the Fixed Rate.
 - “Fixed Rate” means, for any New Reset Period, the fixed rate or rates of interest payable by Issuer with respect to a Series of Bonds or, in the case of a Series of Variable Rate Bonds (as defined in the Indenture), the fixed rate payable by Issuer under the related fixed rate swap transaction, which Fixed Rates will be determined on the Bond Pricing Date at a rate sufficient to enable all the Bonds to be sold or remarketed on such Bond Pricing Date in accordance with the Indenture (which sale price may include a premium or discount to par), as determined based on market information then available.
 - Step 7: Determine Monthly Discount Portion of Available Discount
 - Prepay LLC will determine the Monthly Discount portion of the Available Discount for the Reset Period based on the expected differences between monthly revenues and monthly debt service and other obligations of the Clean Energy Project (as defined in the Indenture).
 - Step 8: Determine Annual Refund Portion of Available Discount
 - Prepay LLC and Issuer shall mutually agree upon the projected Annual Refund (as defined in the Power Supply Contract) for the Reset Period, which shall be determined consistent with Section 3.2 of the Power Supply Contract and shall be the remaining portion of the Available Discount applicable to such Project Participant.

PRELIMINARY OFFICIAL STATEMENT DATED [] 1, 2025

Chapman Draft 07.08.25

NEW ISSUE - BOOK-ENTRY ONLY

RATING: (SEE "RATING" HEREIN)

In the opinion of Ballard Spahr LLP, Bond Counsel to CCCFA, interest on the Bonds is excludable from gross income for purposes of federal income tax, assuming continuing compliance with the requirements of federal tax laws. Interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, such interest is taken into account in determining the adjusted financial statement income of applicable corporations. Bond Counsel is also of the opinion that, based upon existing laws, interest on the Bonds is exempt from State of California personal income taxes. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds. See "TAX MATTERS" herein.

[CCCFA LOGO]/[KESTREL LOGO]	\$[]* CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY CLEAN ENERGY PROJECT REVENUE BONDS, SERIES 2025[] (GREEN BONDS) (TERM RATE)

DATED: Date of Delivery

DUE: As shown on the inside cover

California Community Choice Financing Authority ("CCCFA") is issuing its Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) (Term Rate) (the "Series 2025[] Bonds" or "Bonds"), under a Trust Indenture between CCCFA and The Bank of New York Mellon Trust Company, N.A., as Trustee. The Bonds will be issued in book-entry form through the facilities of The Depository Trust Company ("DTC"). Purchases of the Bonds will be made in book-entry form through DTC participants in denominations of \$5,000 or any multiple thereof. Payments of principal of, premium, if any, and interest on the Bonds will be made directly to DTC and will subsequently be disbursed to DTC participants and thereafter to Beneficial Owners of the Bonds, all as described herein. Capitalized terms used and not otherwise defined on this cover page have the meanings set forth herein.

From their initial issue date (the "Initial Issue Date") to and including [], 20[]* (the "Initial Interest Rate Period"), the Bonds will bear interest in a Term Rate Period, as shown on the inside cover page and described herein. During the Initial Interest Rate Period, interest on the Bonds is payable semiannually on each [] 1 and [] 1, commencing [] 1, 20[]*. The Bonds are subject to optional and extraordinary mandatory redemption during the Initial Interest Rate Period, and the Bonds maturing on [] 1, 20[]* are subject to mandatory tender for purchase on [] 1, 20[]* (the "Mandatory Purchase Date").

Proceeds of the Bonds will be used to prepay the costs of the acquisition of EPS Compliant Energy to be delivered over approximately 30 years under a Prepaid Energy Sales Agreement (the "Prepaid Energy Sales Agreement"), between Energy Prepay [], LLC, a Delaware limited liability company (the "Energy Supplier") and CCCFA. "EPS Compliant Energy" means three-phase, 60-cycle alternating current electric energy ("Energy") that the Project Participant (hereinafter defined) can contract for and purchase in compliance with California's Emissions Performance Standards ("EPS"), as set forth in Sections 8340 and 8341 of the California Public Utilities Code, as implemented and amended from time to time, and any successor Law, that are applicable to the Project Participant. Pursuant to the Prepaid Energy Sales Agreement, the Energy Supplier is obligated to deliver specified quantities of EPS Compliant Energy to CCCFA (the "Prepaid Energy"), make certain payments for any Prepaid Energy not delivered, remarket quantities of Base Energy (defined herein) in respect of Prepaid Energy not taken by the Project Participant and make a Termination Payment upon any early termination of the Prepaid Energy Sales Agreement in whole or in part. Any such Termination Payment (defined herein) will be applied to the mandatory redemption of the Bonds in whole or in part, as applicable.

The Energy Supplier will use proceeds from the prepayment it receives from CCCFA to purchase a [] (the "Funding Agreement") with [] ("Funding Recipient"), and will enter into an Energy Management Agreement (the "Energy Management Agreement") with Morgan Stanley Capital Group Inc. ("MSCG"). Under the Energy Management Agreement, MSCG will sell electricity to the Energy Supplier in the quantities and at the delivery points necessary for the Energy Supplier to meet its obligations to CCCFA under the Prepaid Energy Sales Agreement and for CCCFA to meet its obligations to the Project Participant under the Power Supply Contract (as defined herein). The scheduled payments under the Funding Agreement provide amounts sufficient to enable the Energy Supplier to meet its payment obligations under the Energy Management Agreement and, if applicable, the Energy Supplier Commodity Swap. The payment obligations of MSCG under the Energy Management Agreement are unconditionally guaranteed by Morgan Stanley under a guarantee agreement (the "Morgan Stanley Guarantee").

CCCFA will sell all of the Prepaid Energy acquired under the Prepaid Energy Sales Agreement to Silicon Valley Clean Energy Authority ("SVCE" or the "Project Participant") under a Power Supply Contract (the "Power Supply Contract") between CCCFA and the Project Participant. Under the terms of the Prepaid Energy Sales Agreement and the Power Supply Contract, the Project Participant may assign its rights to the delivery of EPS Compliant Energy under existing and future power purchase agreements to the Energy Supplier or to MSCG for ultimate delivery of such EPS Compliant Energy from such agreements to the Project Participant. The Project Participant has entered into a limited assignment agreement relating to specific power purchase agreement(s) as of the Date of Delivery.

The Bonds have been designated "Green Bonds". See "DESIGNATION OF BONDS AS GREEN BONDS" and Second Party Opinion by Kestrel set forth herein.

THE PAYMENT OF THE BONDS IS NOT GUARANTEED BY THE ENERGY SUPPLIER, MSCG, MSCS, MORGAN STANLEY, THE FUNDING RECIPIENT, THE UNDERWRITER, THE COMMODITY SWAP COUNTERPARTY, THE INVESTMENT AGREEMENT PROVIDER, CCCFA OR ITS MEMBERS, OR THE PROJECT PARTICIPANT. THE BONDS DO NOT CONSTITUTE GENERAL OBLIGATIONS OR INDEBTEDNESS OF CCCFA, THE MEMBERS OF CCCFA, THE PROJECT PARTICIPANT, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION OF THE STATE AND NEITHER THE FAITH AND CREDIT OF CCCFA NOR THE

This Official Statement describes the Bonds only during the Initial Interest Rate Period and must not be relied upon if the Bonds are converted to any other interest rate period. The purchase and ownership of the Bonds involve investment risk and may not be suitable for all investors. This cover page is not intended to be a summary of the terms of or the security for the Bonds. Investors are advised to read this Official Statement in its entirety to obtain information essential to the making of an informed investment decision with respect to the Bonds, giving particular attention to the matters discussed under "INVESTMENT CONSIDERATIONS" herein.

The Bonds are offered, when, as and if issued by CCCFA and accepted by the Underwriter, subject to the approval of validity by Ballard Spahr LLP, Bond Counsel, and certain other conditions. Certain legal matters will be passed upon for CCCFA by its General Counsel, for the Project Participant by Chapman and Cutler LLP; for the Energy Supplier by Sheppard, Mullin, Richter & Hampton LLP; and for the Underwriter by Nixon Peabody LLP. It is expected that the Bonds will be available for delivery through the facilities of DTC on or about [____], 2025.

**CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY
CLEAN ENERGY PROJECT REVENUE BONDS (GREEN BONDS) (TERM RATE)
SERIES 2025[]**

INTRODUCTION

This Official Statement, which includes the cover page and appendices attached hereto, contains information concerning (a) California Community Choice Financing Authority (“CCCFA” or the “Issuer”), (b) CCCFA’s Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) (Term Rate) (the “Series 2025[] Bonds” or “Bonds”), being issued in the aggregate principal amount of \$[]* and (c) the Clean Energy Project (defined below) being financed with proceeds of the Bonds. Capitalized terms used herein have the meanings shown in APPENDIX B.

California Community Choice Financing Authority

California Community Choice Financing Authority is a joint powers agency organized and existing under the laws of the State of California (the “State”) with the power to issue the Bonds and enter into the transaction documents described herein. As of the date of this Official Statement, the members of CCCFA are Ava Community Energy Authority, Central Coast Community Energy, Clean Power Alliance of Southern California, Marin Clean Energy, the Project Participant (Silicon Valley Clean Energy Authority) (each a “Founding Member”) and San Diego Community Power, Pioneer Community Energy, Peninsula Clean Energy Authority, the City of San José through its community choice aggregator program known as San José Clean Energy, Sonoma Clean Power Authority and Valley Clean Energy Alliance (each an “Associate Member” and, together with the Founding Members and any additional members which may later be added as parties to the JPA Agreement, a “Member”). CCCFA is authorized to exercise the common powers of its Members and to undertake all actions permitted by the Joint Exercise of Powers Act, constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500) of the California Government Code, as amended and supplemented (the “Act”), in connection with the clean energy project, including the purchase of the Prepaid Energy and the sale thereof to the Project Participant, and the entry into of the related agreements described herein (referred to herein as the “Clean Energy Project”). See “CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY” and “COMMUNITY CHOICE AGGREGATORS” herein.

The Bonds

From their Initial Issue Date to and including [], 20[]* (the “Initial Interest Rate Period”) the Bonds will bear interest in a Term Rate Period, with interest payable semiannually on each [] 1 and [] 1, commencing [] 1, 20[]*, all as shown on the inside cover page and as described herein. See “THE BONDS”.

The Bonds are subject to optional redemption and extraordinary mandatory redemption during the Initial Interest Rate Period, and the Bonds maturing on [] 1, 20[]* are required to be tendered for purchase on [] 1, 20[]* (the “Mandatory Purchase Date”), which is the day following the end of

* Preliminary; subject to change.

the Initial Interest Rate Period. The Purchase Price of Bonds on the Mandatory Purchase Date is equal to the principal amount thereof on such date and is payable in immediately available funds. Under the Indenture, a “Failed Remarketing” means, (a) with respect to the Bonds on any Mandatory Purchase Date, a failure to either (i) pay the Purchase Price of the Bonds required to be purchased on such date or (ii) redeem such Bonds in whole on such date (including from any funds required from an Assignment Payment to the Assignment Payment Fund) or (b) with respect to the Bonds (i) if, on the last day of the current Reset Period prior to a Mandatory Purchase Date, CCCFA has not entered into a bond purchase agreement, firm remarketing agreement or similar agreement with respect to the remarketing or refunding of the Bonds, or (ii) if the conditions described in (b)(i) above are satisfied, but the Purchase Price of the Bonds required to be purchased on the Mandatory Purchase Date is not delivered to the Trustee by 12:00 noon, New York City time, on the fifth Business Day preceding the Mandatory Purchase Date. A Failed Remarketing will result in an Early Termination Payment Date under the Prepaid Energy Sales Agreement and the extraordinary redemption of the Bonds on the Mandatory Purchase Date. See “THE BONDS—*Redemption*” and “—*Tender—Mandatory Tender*”.

Security for the Bonds

The Bonds are issued pursuant to the authority contained in the Act and are issued and secured under a Trust Indenture, to be dated as of the first day of the month in which the Bonds are issued (the “*Indenture*”), between CCCFA and The Bank of New York Mellon Trust Company, N.A., as trustee (the “*Trustee*”). The Bonds are special and limited obligations of CCCFA, are payable solely from and secured solely by the Trust Estate pledged by the Indenture and are expected to be paid from the revenues of the Clean Energy Project.

The payment of the principal of and premium, if any, and interest on the Bonds are secured by a pledge of all right, title and interest of CCCFA in and to the Trust Estate established by the Indenture, which Trust Estate includes (among other things) CCCFA’s rights under the Power Supply Contract (except for the right to receive the Project Administration Fee), the Revenues, any Termination Payment payable by the Energy Supplier under the Prepaid Energy Sales Agreement, CCCFA’s rights under the Receivables Purchase Provisions (as defined herein), CCCFA’s rights with respect to the Debt Service Fund Agreement and Debt Service Fund Agreement Guaranty, if any, and the Pledged Funds (which does not include the Administrative Fee Fund, the Energy Remarketing Reserve Fund and the Bond Purchase Fund, and excluding Rebate Payments held in any Fund or Account), subject only to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein. The pledge of and lien on the Trust Estate in favor of the Bonds is subject to certain provisions of the Indenture. The Bonds are expected to be paid from the Revenues which (among other things) include the revenues received by CCCFA under the Power Supply Contract and the Prepaid Energy Sales Agreement, Commodity Swap Receipts received by the Trustee on behalf of CCCFA under the CCCFA Commodity Swap and interest received or to be received on any moneys or securities (other than moneys or securities held in the Project Fund, moneys or securities held in the Redemption Account in the Debt Service Fund or that portion of moneys in the Operating Fund required for Rebate Payments) held pursuant to the Indenture and paid or required to be paid into the Revenue Fund. The Revenues are to be applied in accordance with the priorities established under the Indenture, including the payment from the Revenues of the Operating Expenses (as defined herein) of the Clean Energy Project. The Indenture includes provisions for the application of various other amounts under the Clean Energy Project that do not constitute Revenues.

Among other funds and accounts, the Indenture establishes a Revenue Fund, an Operating Fund, a Debt Service Account within the Debt Service Fund and a Commodity Swap Payment Fund, and establishes the funding requirements therefor. Scheduled Debt Service Deposits are required to be made into the Debt Service Account and will be initially invested pursuant to the Debt Service Account Investment Agreement described herein. See “SECURITY FOR THE BONDS—*Investment of Funds*”.

THE BONDS DO NOT CONSTITUTE GENERAL OBLIGATIONS OR INDEBTEDNESS OF CCCFA, THE MEMBERS OF CCCFA, THE PROJECT PARTICIPANT, THE STATE OR ANY POLITICAL SUBDIVISION OF THE STATE. THE BONDS ARE SPECIAL, LIMITED OBLIGATIONS OF CCCFA PAYABLE SOLELY FROM AND SECURED SOLELY BY THE TRUST ESTATE, IN THE MANNER AND TO THE EXTENT PROVIDED FOR IN THE INDENTURE. CCCFA HAS NO TAXING POWER. SEE “SECURITY FOR THE BONDS”.

The Clean Energy Project

CCCFA is issuing the Bonds to finance the Clean Energy Project, which includes the cost of acquisition of a 30-year supply of EPS Compliant Energy (the “*Prepaid Energy*”) under a Prepaid Energy Sales Agreement between CCCFA and Energy Prepay [], LLC, a Delaware limited liability company (the “*Energy Supplier*”) and the sale thereof to the Project Participant as hereinafter described. The Energy Supplier is a special purpose entity organized for the sole purpose of undertaking various aspects of the Clean Energy Project. MSCG is the sole member of the Energy Supplier.

The Clean Energy Project is structured to assist the Project Participant to procure a long-term supply of EPS Compliant Energy at attractive prices. In order to do so, the Clean Energy Project includes a feature whereby the Project Participant will assign to the Energy Supplier, or to MSCG, a portion of the Project Participant’s rights and obligations (the “*Assigned Rights and Obligations*”) to receive certain quantities (“*Assigned Quantities*”) of EPS Compliant Energy (“*Assigned Energy*”), which assignments may include renewable energy credits (“*RECs*”), capacity, or other related products (collectively, “*Assigned Products*”) under existing and future power purchase agreements (“*PPAs*”). With respect to any such assignment to MSCG, MSCG will redeliver such Assigned Energy and other Assigned Products to the Energy Supplier to meet the Energy Supplier’s obligations to deliver Prepaid Energy to CCCFA under the Prepaid Energy Sales Agreement. CCCFA will then deliver such Assigned Energy and other Assigned Products to the Project Participant under its Power Supply Contract. See “THE CLEAN ENERGY PROJECT”.

Under an Energy Management Agreement (the “*Energy Management Agreement*”) between MSCG and the Energy Supplier, MSCG has agreed to sell electricity to the Energy Supplier on a pay-as-you-go basis in the quantities and at the delivery points necessary, and has agreed to provide the necessary related services, to enable the Energy Supplier to meet its electricity delivery, payment, remarketing and Receivables Purchase obligations under the Prepaid Energy Sales Agreement.

The Prepaid Energy Sales Agreement, the Power Supply Contract, the Energy Management Agreement, the Funding Agreement, the Debt Service Account Investment Agreement, the CCCFA Commodity Swap, the Indenture, the Receivables Purchase Provisions, the Bonds and related agreements have been structured so that, assuming timely performance and payment by the Energy Supplier, the Funding Recipient, the Investment Agreement Provider and the Project Participant of their respective contractual obligations, the Revenues available to CCCFA from the Clean Energy Project are calculated to

be sufficient at all times to provide for the timely payment of Operating Expenses and the scheduled Debt Service requirements on the Bonds and the CCCFA Commodity Swap.

For a summary of certain terms and provisions of the Prepaid Energy Sales Agreement, see “THE PREPAID ENERGY SALES AGREEMENT”.

The Project Participant

CCCFA has entered into a Power Supply Contract (the “*Power Supply Contract*”) for the sale of the Prepaid Energy with Silicon Valley Clean Energy Authority (“*SVCE*”), a joint powers authority and a community choice aggregator duly organized and existing under the laws of the State of California (the “*Project Participant*”). See “COMMUNITY CHOICE AGGREGATORS” for certain information with respect to California community choice aggregators. During the Delivery Period, the Project Participant will use the Prepaid Energy it purchases from CCCFA for sale to retail customers located in its established service area. For a summary of certain terms and provisions of the Power Supply Contract, see “THE POWER SUPPLY CONTRACT”. See APPENDIX A for certain information with respect to the Project Participant.

The Prepaid Energy Sales Agreement

General. During the Delivery Period, the Prepaid Energy Sales Agreement provides for monthly deliveries by the Energy Supplier to CCCFA of the Annual Quantity of Prepaid Energy. To the extent (a) the Annual Quantity has not been delivered for the then-current Contract Year as of the end of a Month, and (b) the Assigned Quantities delivered under the initially Assigned PPA or any future Assigned PPA for any month is less than the Monthly Projected Quantity for such month, the Energy Supplier will be obligated to make a payment to CCCFA equal to the quantity of Assigned Energy not delivered multiplied by the result of the Day-Ahead Average Price minus any applicable Provisional Payment Fee (any such payment, a “*Provisional Payment*”). After the Annual Quantity has been delivered for any Contract Year, the Energy Supplier shall pay CCCFA the Day-Ahead Average Price with respect to any remaining Monthly Projected Quantities for any such Contract Year. Other than the Energy Supplier’s Provisional Payment obligation, neither CCCFA nor the Energy Supplier will have any liability or other obligation to one another for any failure to schedule, receive or deliver Assigned Energy, as further discussed under “The Prepaid Energy Sales Agreement — *Assignment of Power Purchase Agreements*” herein. To the extent that EPS Compliant Energy is not available for delivery pursuant to the Prepaid Energy Sales Agreement, the Energy Supplier’s obligation to deliver the Assigned Products will be replaced with an obligation to deliver firm (LD) energy (“*Base Energy*”), and the Energy Supplier is obligated to remarket Base Energy under the Prepaid Energy Sales Agreement and remit the proceeds thereof to CCCFA. The Energy Supplier is also obligated to make payments to CCCFA for Base Energy not delivered or remarketed under the Prepaid Energy Sales Agreement, including for *Force Majeure* events.

Replacement of Initially Assigned PPA. In the event of any expiration or termination of the Initial Assigned Rights and Obligations, the Project Participant is required to use Commercially Reasonable Efforts to assign replacement Assigned Rights and Obligations to MSCG or the Energy Supplier for delivery of Assigned Energy equal to the Prepaid Quantities (“*Replacement Assigned Rights and Obligations*”). **Assigned Rights and Obligations are expected to be in place for the entirety of the Initial Reset Period, and Base Energy is not expected to be delivered during the Initial Reset Period.**

Provisional Payments and Energy Remarketing. In the event Assigned Quantities equivalent to the Monthly Projected Quantities for any month are not delivered under an Assigned PPA, and the Annual

Quantity has not been delivered as of the end of that month, the Energy Supplier will be obligated to pay the Provisional Payment to CCCFA. To the extent that the Energy Supplier makes one or more Provisional Payments to CCCFA in any Contract Year and the Annual Quantity is not delivered in full within such Contract Year, the Energy Supplier will be deemed to have remarketed such Assigned Quantities not delivered (other than the amount that was not delivered due to Force Majeure) and to have purchased such Assigned Quantities for its own account (at a price equal to the weighted average price of such Provisional Payments), and such purchase will constitute a private-business use sale. In such case, the Project Participant shall be obligated to use Commercially Reasonable Efforts to remediate the proceeds of such sales with other qualifying purchases of Energy. To the extent the Project Participant has not remediated the proceeds of any such sale within twelve months of the first day of the Month prior to the Month in which CCCFA or the Project Participant receives the proceeds of such sale, the Energy Supplier is required to use Commercially Reasonable Efforts to remediate such proceeds through Qualifying Sales to Municipal Utilities.

In the event of any expiration or termination of an Assigned PPA, the Project Participant is required to use Commercially Reasonable Efforts to enter into a new limited assignment agreement relating to one or more additional PPAs, providing for the assignment of its rights to delivery of quantities of EPS Compliant Energy equivalent to the Prepaid Quantities for the term of such assignment. To the extent the Project Participant exercises Commercially Reasonable Efforts to enter into such a limited assignment but is unable to do so, then, subject to certain conditions, the Energy Supplier shall be obligated to remarket Base Energy and purchase such Base Energy for its own account at the applicable index price, and the Project Participant shall be obligated to use Commercially Reasonable Efforts to remediate the proceeds of such sales with other qualifying purchases of energy. See “THE PREPAID ENERGY SALES AGREEMENT – *Energy Remarketing*” and “THE POWER SUPPLY CONTRACT – *Remarketing of Energy*”.

Base Energy is not expected to be delivered during the Initial Reset Period.

Termination of Energy Deliveries. The occurrence of an Energy Delivery Termination Event will automatically result in the termination of electricity deliveries under the Prepaid Energy Sales Agreement as of the date of such event (the “*Energy Delivery Termination Date*”). The events that constitute an Energy Delivery Termination Event are described under the caption “THE PREPAID ENERGY SALES AGREEMENT – *Energy Delivery Termination Events*” and include (among other things): (a) the occurrence of a Ledger Event; and (b) the designation of an early termination date under the Energy Management Agreement upon the occurrence of an MSCG Default or an Energy Supplier Default (an “*EMA Early Termination Date*”) and the Energy Supplier is unable to enter into a replacement Energy Management Agreement by the date that is 120 days following such EMA Early Termination Date.

If an Energy Delivery Termination Date occurs, the obligations of the Energy Supplier and CCCFA to deliver and receive electricity will terminate, and the Energy Supplier will be required to pay scheduled monthly amounts to CCCFA until the earlier of (a) the Month in which an Early Termination Payment Date occurs or (b) the last scheduled due date for such monthly amounts. Such scheduled monthly amounts are payable to the Trustee for deposit into the Revenue Fund and have been calculated to be sufficient, along with other funds anticipated to be on hand, to enable the Trustee to make the transfers required by the Indenture in respect of Scheduled Debt Service Deposits. *The use of these scheduled payments (in lieu of payments made by the Project Participant under the Power Supply Contract) to make Scheduled Debt Service Deposits and debt service payments on the Bonds could, under certain circumstances, adversely affect the continued tax-exempt status of interest on the Bonds.*

Early Termination of the Prepaid Energy Sales Agreement. The occurrence of an Acceleration Event will result in both an Energy Delivery Termination Date and an Early Termination Payment Date under the Prepaid Energy Sales Agreement. The events that constitute an Acceleration Event are described under the caption “THE PREPAID ENERGY SALES AGREEMENT—*Acceleration Events*” and include (among other things) (a) the acceleration of the Funding Recipient’s payment obligations under the Funding Agreement due to an Event of Default thereunder, (b) MSCG’s purchase of the Funding Agreement from the Energy Supplier following the occurrence of a Ledger Event or (c) the occurrence of a Failed Remarketing.

If an Acceleration Event occurs, except in the case of a Failed Remarketing, the Energy Supplier is required to pay a scheduled termination payment (the “*Termination Payment*”) to CCCFA on the last Business Day of the Month following the Month in which the Acceleration Event occurs (the “*Early Termination Payment Date*”). In the case of an Acceleration Event resulting from a Failed Remarketing, the Early Termination Payment Date will be the last business day of the current Interest Rate Period.

If an Early Termination Payment Date occurs, the Bonds will be subject to extraordinary mandatory redemption in whole on the first day of the next Month. The amount of the Termination Payment declines over time. The Termination Payment payable by the Energy Supplier, together with the amounts required to be on deposit in certain Funds and Accounts held by the Trustee, has been calculated to provide a sum at least sufficient to pay the Redemption Price of the Bonds, assuming that the Energy Supplier and the Funding Recipient pay their respective contract obligations when due. A performance shortfall from any one of these entities could result in a payment shortfall to Bondholders.

See “THE PREPAID ENERGY SALES AGREEMENT” and “THE BONDS — *Redemption* — *Extraordinary Mandatory Redemption*”. A schedule of the amount of the Termination Payment for each month during the initial Reset Period under the Prepaid Energy Sales Agreement is attached as APPENDIX I.

The Funding Agreement

The Energy Supplier will use proceeds from the prepayment it receives from CCCFA to purchase the [] (the “*Funding Agreement*”) from [] (“[]” or the “*Funding Recipient*”). Such amount will be deposited into the “Funding Account” established under the Funding Agreement and will earn a fixed rate of interest. The Funding Agreement will mature by its terms on the Business Day preceding the Mandatory Purchase Date of the Bonds (the “*Maturity Date*”) unless terminated earlier. The Funding Agreement provides for monthly withdrawals of scheduled amounts (the “*Scheduled Withdrawals*”) from the Funding Account, including a final Scheduled Withdrawal of the unamortized balance of the Funding Account on the Maturity Date or any earlier termination date of the Funding Agreement. For a summary of certain provisions of the Funding Agreement, see “THE FUNDING AGREEMENT.” For certain information regarding the Funding Recipient, see Appendix J.

The monthly Scheduled Withdrawals provide amounts sufficient to enable the Energy Supplier to meet its payment obligations (other than those in respect of the Receivables Purchase Provisions) under the Prepaid Agreement, the Energy Management Agreement and the Energy Supplier Commodity Swap.

No interests in or rights under the Funding Agreement are offered as a part of the offering of the Bonds. Neither the Trustee nor the Bondholders have any rights to enforce the Funding Agreement. See “Investment Considerations—Limitations on Exercise of Remedies.”

Energy Management Agreement

Under the Energy Management Agreement, MSCG has agreed to sell electricity to the Energy Supplier on a pay-as-you-go basis in the quantities and at the delivery points necessary to enable the Energy Supplier to meet its electricity delivery obligations under the Prepaid Energy Sales Agreement. MSCG has also agreed to remarket electricity and make payments to the Energy Supplier that enable it to meet its obligations under the Prepaid Energy Sales Agreement, including payments for Base Energy not delivered or taken under the Energy Management Agreement for any reason, including force majeure events. MSCG is appointed as the Energy Supplier's agent for taking all actions that the Energy Supplier is required or permitted to take under the Prepaid Energy Sales Agreement, the Energy Supplier Commodity Swap, the Re-Pricing Agreement and (with respect to ordinary course transactions) the Energy Management Agreement. MSCG's electricity delivery, payment, remarketing and Receivables Purchase obligations under the Energy Management Agreement mirror the corresponding obligations of the Energy Supplier under the Prepaid Energy Sales Agreement. The Energy Supplier may net any outstanding amounts due and owing to it by MSCG against its monthly payments to MSCG, but MSCG is not entitled to net any amounts due and owing to it against its monthly payments to the Energy Supplier. See "THE ENERGY MANAGEMENT AGREEMENT."

The Receivables Purchase Provisions

The Prepaid Energy Sales Agreement contains provisions (the "Receivables Purchase Provisions") designed to mitigate the risk of non-payment by the Project Participant under the Power Supply Contract. Upon a payment default by the Project Participant, the Receivables Purchase Provisions require CCCFA to put, and require the Energy Supplier, as Receivables Purchaser, to purchase, the amount equal to the non-payment by the Project Participant ("Put Receivables" or "Receivables"). Amounts received by the Trustee from the sale of Put Receivables will be deposited into the Revenue Fund and applied in accordance with the priorities established under the Indenture.

Under the Energy Management Agreement, MSCG has agreed to accept as payment from the Energy Supplier all Put Receivables purchased by the Energy Supplier under the Receivables Purchase Provisions.

See "THE PREPAID ENERGY SALES AGREEMENT—*Receivables Purchase Provisions*".

The Power Supply Contract

The Power Supply Contract provides for the sale to the Project Participant of the Prepaid Energy to be delivered to CCCFA over the term of the Prepaid Energy Sales Agreement. Such Prepaid Energy will be comprised of the Assigned Quantities under Assigned PPAs and, to the extent such Assigned Quantities are less than the Prepaid Quantities for any measurement period specified in the Power Supply Contract and the Energy Supplier is otherwise unable to deliver make-up quantities of EPS Compliant Energy, Base Energy. Under the Power Supply Contract, CCCFA has agreed to deliver, and the Project Participant has agreed to purchase, such Assigned Quantities and to cause the remarketing of any Base Energy during the Delivery Period. Base Energy is required to be remarketed under the Prepaid Energy Sales Agreement, subject to the requirements set forth therein. In the event that the Energy Supplier is unable to remarket any such Base Energy, the Energy Supplier has agreed to purchase such Base Energy for its own account.

The payments required to be made under the Power Supply Contract, together with any net amounts received by CCCFA under the CCCFA Commodity Swap described below, constitute the

primary and expected source of the Revenues pledged to the payment of the Bonds. The obligations of the Project Participant under the Power Supply Contract are payable solely from revenues of the Project Participant derived from its community choice aggregator power supply operations. Under the Power Supply Contract, the Project Participant makes payments directly to the Trustee for deposit into the Revenue Fund. See “THE POWER SUPPLY CONTRACT”.

THE OBLIGATION OF THE PROJECT PARTICIPANT TO MAKE PAYMENTS TO CCCFA UNDER THE POWER SUPPLY CONTRACT IS NOT, NOR SHALL IT BE CONSTRUED AS, A GUARANTY OR ENDORSEMENT OF OR A SURETY FOR, THE BONDS. SUCH OBLIGATION OF THE PROJECT PARTICIPANT IS NOT A GENERAL OBLIGATION OF THE PROJECT PARTICIPANT AND IS PAYABLE SOLELY FROM THE REVENUES DERIVED FROM SALES OF ENERGY TO THEIR CUSTOMERS. THE INDENTURE DOES NOT MORTGAGE THE CLEAN ENERGY PROJECT OR ANY TANGIBLE PROPERTIES OR ASSETS OF CCCFA OR THE PROJECT PARTICIPANT.

Re-Pricing Agreement

On the initial issue date of the Bonds, CCCFA and the Energy Supplier will enter into a Re-Pricing Agreement (the “*Re-Pricing Agreement*”), which provides for (a) the determination of Energy Delivery Periods subsequent to the Initial Reset Period to correspond to the related Interest Rate Periods on the Bonds (“*Reset Periods*”) and (b) the determination of the amount of the discount (in US Dollars per MWh) to the Index Price that will be available for such Reset Period (the “*Available Discount*”) for sales of Energy to the Project Participant under the Power Supply Contract during each Reset Period.

The Initial Reset Period under the Prepaid Energy Sales Agreement ends one month before the end of the Initial Interest Rate Period, and each subsequent Reset Period will end one month before the end of the corresponding Interest Rate Period. The Initial Reset Period begins on the first day of [] 202[]* and ends on the last day of [] 20[]* (the “*Initial Reset Period*”). See “The RE-PRICING AGREEMENT”.

Commodity Swaps

CCCFA Commodity Swap. CCCFA will enter into the CCCFA Commodity Swap under which CCCFA will pay a floating Energy price at a specified pricing point and will receive a fixed Energy price for the monthly notional quantities specified in the CCCFA Commodity Swap.

Energy Supplier Commodity Swap. The Energy Supplier will enter into the Energy Supplier Commodity Swap with the same Commodity Swap Counterparty under which the Energy Supplier pays a fixed price and the Commodity Swap Counterparty pays a floating price. The notional energy quantities under the Energy Supplier Commodity Swap match those under the CCCFA Commodity Swap and, accordingly, those under the Prepaid Energy Sales Agreement.

Term. The Commodity Swaps extend for the term of the Delivery Period under the Prepaid Energy Sales Agreement, but are subject to early termination upon the occurrence of certain events. Termination of either of the Commodity Swaps without replacement by CCCFA and the Energy Supplier will give rise to early termination rights under, and in some cases result in automatic termination of, the Prepaid Energy

* Preliminary; subject to change.

Sales Agreement, which would result in the extraordinary mandatory redemption of the Bonds pursuant to the Indenture.

Commodity Swap Counterparty. The commodity swap counterparty is [] (the “Commodity Swap Counterparty”). For a description of certain provisions of the Commodity Swaps, see “THE COMMODITY SWAPS.” For information regarding the Commodity Swap Counterparty, see “THE COMMODITY SWAP COUNTERPARTY.”

Custodial Agreements. CCCFA will enter into a Custodial Agreement (the “CCCFA Custodial Agreement”), with the Commodity Swap Counterparty, the Trustee and The Bank of New York Mellon Trust Company, N.A., as Trustee and as custodian (in such capacity, the “Custodian”) to administer payments under the CCCFA Commodity Swap. The Energy Supplier will enter into a separate Custodial Agreement with the Commodity Swap Counterparty, the Trustee and the Custodian, to administer payments under Energy Supplier Commodity Swap (the “Energy Supplier Custodial Agreement,” and together with the CCCFA Custodial Agreement, the “Custodial Agreements”). The Custodial Agreements contain provisions designed to mitigate risks to CCCFA and Bondholders resulting from a failure of a Commodity Swap Counterparty to make payments to CCCFA under the CCCFA Commodity Swap, and mitigate risks to the Energy Supplier resulting from a failure of a Commodity Swap Counterparty to make payments to the Energy Supplier under the Energy Supplier Commodity Swap. See “The Commodity Swaps—Custodial Agreements.”

The Energy Supplier, MSCG and MSCS

The Energy Supplier. The Energy Supplier is a Delaware limited liability company organized for the sole purpose of entering into the transactions on its part with respect to the Clean Energy Project. MSCG is the sole member of the Energy Supplier, and will provide initial funding to the Energy Supplier by the purchase of a subordinated note of the Energy Supplier described herein (the “Subordinated Note”) and a capital contribution of \$1,000,000. Morgan Stanley Capital Services LLC, a Delaware limited liability company (“MSCS”) will provide the Credit Default Swap described herein to the Energy Supplier in an amount that, together with the purchase price paid by MSCG to the Energy Supplier for the Subordinated Note and the capital contribution, equals at least three percent of the outstanding (unamortized) amount of the prepayment under the Prepaid Energy Sales Agreement (approximately \$[]* million as of the Initial Issue Date).

The Energy Supplier, MSCG, CCCFA and The Bank of New York Mellon, as custodian (the “Master Custodian”), will enter into a Master Custodial Agreement (the “Master Custodial Agreement”) to administer the amounts payable to the Energy Supplier under the Funding Agreement, the Energy Management Agreement, the Prepaid Energy Sales Agreement, the Energy Supplier Commodity Swap and certain other agreements. These amounts are required to be deposited into a separate account held by the Master Custodian and applied to the payment of the amounts due from the Energy Supplier under the Prepaid Energy Sales Agreement, the Energy Management Agreement and, if applicable, the Energy Supplier Commodity Swap.

MSCG. MSCG, pursuant to the Energy Management Agreement, will act as the upstream electricity supplier to the Energy Supplier in connection with the Clean Energy Project. MSCG is the sole member and the manager of the Energy Supplier. MSCG is an indirect, wholly-owned subsidiary of

* Preliminary; subject to change.

Morgan Stanley. MSCG is engaged, among other things, in client facilitation and market-making activities in commodities and commodity derivative contracts. MSCG is registered as a swap dealer with the CFTC. The short term and long term issuer ratings of MSCG are “A-1” and “A+” from S&P Global Ratings and “P-1” and “Aa3” from Moody’s.

MSCS. MSCS engages primarily in OTC derivative transactions as a market maker and provides trading related services to a broad range of customers and clients, including affiliates. MSCS is conditionally registered with the SEC as a security-based swap dealer and is registered as an OTC derivative dealer. MSCS is also registered with the CFTC as a swap dealer and is a member with ICE Clear Europe Ltd, ICE Clear Credit, LLC and LCH Clearnet Group Ltd. MSCS is an indirect subsidiary of Morgan Stanley. The short term and long term issuer ratings of MSCS are “A-1” and “A+” from S&P Global Ratings and “P-1” and “Aa3” from Moody’s.

See “THE ENERGY SUPPLIER, MSCG, MSCS AND MORGAN STANLEY” and “THE PREPAID ENERGY SALES AGREEMENT—*Security*”.

Certain Relationships

The Energy Supplier, which is also the Receivables Purchaser, under the Prepaid Agreement the lender under the Funding Agreement, the electricity purchaser under the Energy Management Agreement and a party to the Energy Supplier Commodity Swap, is wholly owned by MSCG. MSCG is the sole member of the Energy Supplier and the electricity seller and Receivables Purchaser under the Energy Management Agreement, and is a wholly owned subsidiary of Morgan Stanley. Morgan Stanley & Co. LLC (“*MS&Co.*”), the Underwriter, is a wholly owned subsidiary of Morgan Stanley. Morgan Stanley Capital Services, LLC (“*MSCS*”), which is the counterparty to the Credit Default Swap (defined below), is a wholly-owned subsidiary of Morgan Stanley. The payment obligations of MSCG under the Energy Management Agreement are unconditionally guaranteed by the Morgan Stanley Guarantee.

The relationships described above could create one or more conflicts of interest or the appearance of such conflicts.

This Official Statement includes information regarding and descriptions of CCCFA, the Clean Energy Project, the Energy Supplier, MSCG, MSCS, Morgan Stanley, the Commodity Swap Counterparty, the Funding Recipient, the Project Participant and the Bonds, and summaries of certain provisions of the Indenture, the Power Supply Contract, the Prepaid Energy Sales Agreement, the Commodity Swaps, the Funding Agreement, the Energy Management Agreement, the Receivables Purchase Provisions, the Re-Pricing Agreement, the Debt Service Account Investment Agreement and the Custodial Agreements referred to herein. Such descriptions and summaries do not purport to be complete or definitive, and such summaries are qualified by reference to such documents. Certain of these documents are available to prospective investors during the initial offering period of the Bonds and thereafter to Bondholders, in each case upon request to CCCFA. Descriptions of the Indenture, the Bonds, the Prepaid Energy Sales Agreement, the Power Supply Contract, the Commodity Swaps, the Funding Agreement, the Energy Management Agreement, the Debt Service Account Investment Agreement, the Custodial Agreements, the Receivables Purchase Provisions and the Re-Pricing Agreement, and are qualified by reference to bankruptcy laws affecting the remedies for the enforcement of the rights and security provided therein and the effect of the exercise of police and regulatory powers by federal and state authorities.

This Official Statement describes the terms of the Bonds only during the Initial Interest Rate Period and must not be relied upon after the Bonds are converted to another Interest Rate Period.

THE CLEAN ENERGY PROJECT

CCCFA is issuing the Bonds to finance the Clean Energy Project, which includes the cost of acquisition of approximately 30-year supply of EPS Compliant Energy (the “*Prepaid Energy*”) under a Prepaid Energy Sales Agreement between CCCFA and Energy Prepay [____], LLC, a Delaware limited liability company (the “*Energy Supplier*”) and the sale thereof to the Project Participant as hereinafter described. The term “*EPS Compliant Energy*” means three-phase, 60-cycle alternating current electric energy (“*Energy*”) that the Project Participant can contract for and purchase in compliance with California’s Emissions Performance Standards (“*EPS*”), as set forth in Sections 8340 and 8341 of the California Public Utilities Code, as implemented and amended from time to time, and any successor Law, that are applicable to the Project Participant.

Pursuant to the Prepaid Energy Sales Agreement, the Energy Supplier is obligated to deliver specified quantities of Prepaid Energy to CCCFA each Contract Year (the “*Prepaid Quantities*”), make certain payments for any Prepaid Quantities not delivered, remarket Prepaid Quantities not taken by the Project Participant and make a Termination Payment upon any early termination of the Prepaid Energy Sales Agreement in whole. Any such Termination Payment will be applied to the mandatory redemption of the Bonds in whole. For a summary of certain terms and provisions of the Prepaid Energy Sales Agreement, see “THE PREPAID ENERGY SALES AGREEMENT”.

CCCFA has entered into a Power Supply Contract (the “*Power Supply Contract*”) for the sale of the Prepaid Energy with the Project Participant. During the Delivery Period, the Project Participant will use the Prepaid Energy it purchases from CCCFA for sale to retail customers located in its established service area. For a summary of certain terms and provisions of the Power Supply Contract, see “THE POWER SUPPLY CONTRACT”. See APPENDIX A for certain information with respect to the Project Participant.

Assignment of Power Purchase Agreements by the Project Participant

California’s EPS regulations, codified as Senate Bill 1368 (2006) (“*SB 1368*”) prevents all California utilities, both privately and publicly owned, from signing long-term contracts from a specified source with a greenhouse gas emissions greater per unit of power than the emissions of greenhouse gases for combined-cycle natural gas baseload generation or from an unspecified source. For baseload generation procured under contracts, a long-term commitment is a contract of five years or longer, and the Project Participant has adopted long-term plans for the procurement of EPS Compliant Energy.

Right to Assign Existing and Future Power Purchase Agreements. The Clean Energy Project is structured to assist the Project Participant to procure a long-term supply of EPS Compliant Energy at attractive prices. In order to do so, the Clean Energy Project includes a feature whereby the Project Participant will assign to the Energy Supplier, or to MSCG, a portion of the Project Participant’s rights and obligations (the “*Assigned Rights and Obligations*”) to receive certain quantities (“*Assigned Quantities*”) of EPS Compliant Energy (“*Assigned Energy*”), together with associated renewable energy credits (“*RECs*”), capacity, or other related products (collectively, “*Assigned Products*”) under existing and future power purchase agreements (“*PPAs*”). With respect to any such assignment to MSCG, MSCG will redeliver such Assigned Energy and other Assigned Products to the Energy Supplier to meet the Energy

Supplier's obligations to deliver Prepaid Energy to CCCFA under the Prepaid Energy Sales Agreement. CCCFA will then deliver such Assigned Energy and other Assigned Products to the Project Participant under its Power Supply Contract. In connection with the execution of the Prepaid Energy Sales Agreement and the Power Supply Contract, the Project Participant expects to enter into a limited assignment agreement (each, an "*Assignment Agreement*") relating to a specific PPA (the "*Initial Assignment Agreement*") among the Project Participant, the Energy Supplier and MSCG, as seller under the Initial Assignment Agreement, to assign the Assigned Rights and Obligations (the "*Initial Assigned Rights and Obligations*") to the Energy Supplier beginning [_____] 1, 20[____]* and ending [_____] 20[____]*.

In the event of any expiration, termination or anticipated termination of Assigned Rights and Obligations under the Assigned PPAs, the Project Participant is obligated to exercise Commercially Reasonable Efforts to assign Replacement Assigned Rights and Obligations to MSCG for delivery of EPS Compliant Energy to the Energy Supplier. The Project Participant has or expects to have additional power purchase agreements pursuant to which it purchases or expects to purchase EPS Compliant Energy and wherein its rights and obligations thereunder could be assigned to MSCG.

In the event of a termination of the Prepaid Energy Sales Agreement, the rights, title and interest under the Assigned PPAs will revert back to the Project Participant, who may continue to receive the EPS Compliant Energy delivered under such agreements at the price payable under the applicable Assigned PPA. In the event of a termination of an Assignment Agreement and the reversion of the related Assigned Rights and Obligations under an Assigned PPA to the Project Participant, no termination payment will be required to be made by CCCFA, the Energy Supplier or MSCG, provided that MSCG shall remain responsible for payment of any Assigned Product delivered prior to such termination.

Structure of the Clean Energy Project

The Prepaid Energy Sales Agreement, the Power Supply Contract, the Debt Service Account Investment Agreement, the CCCFA Commodity Swap, the Custodial Agreements, the Indenture, the Receivables Purchase Provisions, the Bonds and related agreements have been structured so that, assuming timely performance and payment by the Energy Supplier, the Funding Recipient, MSGC, the Investment Agreement Provider and the Project Participant of their respective contractual obligations, the Revenues available to CCCFA from the Clean Energy Project are calculated to be sufficient at all times to provide for the timely payment of Operating Expenses and the scheduled Debt Service requirements on the Bonds and the CCCFA Commodity Swap. These arrangements include:

- The Energy Supplier is required to deliver Prepaid Energy under the Prepaid Energy Sales Agreement to CCCFA such that CCCFA can meet its obligations to the Project Participant under the Power Supply Contract. In the event Assigned Quantities equivalent to the Monthly Projected Quantities for any month are not delivered under the Assigned PPAs, the Energy Supplier will be required to make a payment to CCCFA equal to the quantity of Assigned Energy not delivered multiplied by the applicable index price. In the event the Energy Supplier fails to deliver Base Energy that is not otherwise required to be remarketed for any reason, including *force majeure* events, it is required to pay certain specified amounts to CCCFA.

* Preliminary; subject to change.

- The Funding Recipient is required to make scheduled monthly payments under the Funding Agreement which will provide the Energy Supplier with amounts sufficient to make the payments it is required to make to MSCG under the Energy Management Agreement and to the Commodity Swap Counterparty under the Energy Supplier Commodity Swaps.
- The Project Participant has agreed to pay the Contract Price each month for the Assigned Quantities actually delivered in such month pursuant to the Power Supply Contract. In the event the Project Participant fails to pay when due any amounts owed under its Power Supply Contract, CCCFA has covenanted in the Indenture to exercise its right under the Power Supply Contract to suspend further deliveries of Prepaid Energy to the Project Participant and to give notice to the Energy Supplier to remarket such Prepaid Energy.
- In the event the Project Participant fails to pay when due any amounts owed under the Power Supply Contract, the Trustee is obligated to sell and the Energy Supplier is obligated to purchase Put Receivables in the amount of the Project Participant's non-payment. Under the Energy Management Agreement, MSCG has agreed to purchase all Put Receivables purchased by the Energy Supplier.
- In the event of a suspension of Prepaid Energy deliveries to the Project Participant, the Energy Supplier will remarket Base Energy pursuant to the Prepaid Energy Sales Agreement. The Prepaid Energy Sales Agreement requires specified payments for all Base Energy remarketed or purchased, less certain applicable fees.
- If the Commodity Swap Counterparty does not make a required payment under the CCCFA Commodity Swap and such payment remains unpaid after the expiration of any grace period, the Custodian under the terms of the Energy Supplier Custodial Agreement will pay the amount that the Energy Supplier paid under the Energy Supplier Commodity Swap (or in the event of termination of the Energy Supplier Commodity Swap, the amount that the Energy Supplier paid into the custodial account as if such Energy Supplier Commodity Swap were still in effect), which amount is held in custody, to the Trustee for deposit in the Revenue Fund pursuant to the Indenture, and such payment will be treated as a Commodity Swap Receipt.
- If an Energy Delivery Termination Date occurs under the Prepaid Energy Sales Agreement, the Energy Supplier is required to pay scheduled monthly amounts to CCCFA in lieu of Energy deliveries, which amounts are sufficient to enable CCCFA to make the Scheduled Debt Service Deposits required by the Indenture.
- If the Prepaid Energy Sales Agreement is terminated early, such termination will happen in conjunction with either the acceleration or final maturity of the Funding Agreement, at which time the Funding Recipient will be required to pay the Energy Supplier the final amount payable under the Funding Agreement, or the purchase by MSCG of the Funding Agreement from the Energy Supplier, which in any case will enable the Energy Supplier to pay the scheduled Termination Payment to CCCFA, as further described below.
- [____], as provider of the Debt Service Account Investment Agreement (the "*Investment Agreement Provider*") is required to make timely payment of scheduled

amounts due under the Debt Service Account Investment Agreement which, together with other Revenues, provide sufficient monies to CCCFA to pay debt service.

The Prepaid Energy Sales Agreement provides certain energy delivery termination events (each, an “*Energy Delivery Termination Event*”) and certain acceleration events (each, an “*Acceleration Event*”). Upon the occurrence of an Energy Delivery Termination Event under the Prepaid Energy Sales Agreement, the obligation of the Energy Supplier and CCCFA to deliver and take Energy shall terminate, and if the Prepaid Energy Sales Agreement terminates as a result of an Acceleration Event, the Energy Supplier is required to pay the scheduled Termination Payment on the Early Termination Payment Date. In the event the Prepaid Energy Sales Agreement is terminated, the Bonds are to be redeemed at their Amortized Value plus accrued interest to the redemption date, regardless of reinvestment rates at the time. See “THE BONDS—*Redemption—Extraordinary Mandatory Redemption.*”

CLEAN ENERGY PROJECT TRANSACTION STRUCTURE

Transaction Overview

- Bond Issuance:** CCCFA issues the Bonds to fund the prepayment for Energy, pay capitalized interest, and pay costs of issuance. The Bonds will bear interest at fixed interest rates during the Initial Interest Rate Period.
- Prepayment:** CCCFA will apply bond proceeds to prepay Energy Supplier for approximately 30 years of Energy deliveries. Under the Prepaid Energy Sales Agreement, Energy Supplier will be obligated to (a) deliver specified annual quantities of Energy each Contract Year, to be delivered on a monthly basis, to CCCFA for approximately 30 years; (b) make payments for (i) projected monthly quantities of Assigned Energy that are not delivered and (ii) hourly quantities of Base Energy that are remarketed based on the applicable index price; and (c) make a termination payment upon any early termination of the Prepaid Energy Sales Agreement, including upon a Failed Remarketing, as described herein.
- Energy Supplier Commodity Swap:** Energy Supplier enters into the Energy Supplier Commodity Swap with the Commodity Swap Counterparty to facilitate Energy Supplier's ability to purchase at index prices the specified Energy quantities required to be delivered each month throughout the term of the Prepaid Energy Sales Agreement. Payments from Energy Supplier to the Commodity Swap Counterparty under the Energy Supplier Commodity Swap will be held in trust in a third-party custodial account under the Energy Supplier Custodial Agreement and released only upon the Commodity Swap Counterparty's payment to CCCFA under the CCCFA Commodity Swap. In the event of non-payment by the Commodity Swap Counterparty, the Energy Supplier payment to the custodial account will be transferred to the Revenue Fund under the Indenture and treated as a Commodity Swap Receipt.
-
- CCCFA Commodity Swap:** CCCFA enters into the CCCFA Commodity Swap with the Commodity Swap Counterparty to facilitate its ability to sell specified Energy quantities required to be delivered to the Project Participant at index prices, creating the economic effect of fixing the discount below the index (market) price at which Energy is sold to the Project Participant. The CCCFA Commodity Swap enables CCCFA to sell prepaid quantities to the Project Participant at index prices while ensuring that the net revenues from Project Participant payments and the CCCFA Commodity Swap always equal or exceed debt service regardless of the index price of Energy at the time. Quantities, term, and delivery points for CCCFA Commodity Swap mirror those of the Energy Supplier Commodity Swap.
- Project Participant:** Under the Power Supply Contract, CCCFA will sell to the Project Participant all of the Energy delivered by the Energy Supplier on a pay-as-you-go basis at an index price less specified discounts determined to ensure that the month's net Energy sale revenues (net of swap payments and receipts) will enable CCCFA to make scheduled deposits to the Debt Service Account.
- Funding Agreement:** The Energy Supplier will use a portion of the prepayment proceeds it receives to purchase a [] (the "Funding Agreement") from [] (the "Funding Recipient"). The Scheduled Withdrawals payable under the Funding Agreement provide amounts sufficient to enable the Energy Supplier to meet its monthly electricity purchase obligations under the Energy Management Agreement and the payments, if any, due under the Energy Supplier Commodity Swap. The Funding Agreement provides a fixed interest rate for a period equal to the Initial Interest Rate Period on the Bonds and will mature at the end of such period. The unamortized balance of the Funding Account established under the Funding Agreement is payable to the Energy Supplier on the maturity date or any early termination date of the Funding Agreement.
- Assigned PPAs:** The Project Participant is expected to assign its rights to receive EPS Compliant Energy under existing and future PPAs to the Energy Supplier (or, if MSCG is not the seller under the applicable PPA, to MSCG for delivery of the Assigned Product to the Energy Supplier) in order for the Energy Supplier to meet its obligation to deliver EPS Compliant Energy to CCCFA under the Prepaid Energy Sales Agreement.

The cumulative effect of the Prepaid Energy Sales Agreement, the CCCFA Commodity Swap, the Power Supply Contract and related documents enables CCCFA to receive dependable Energy supplies at a discount below market prices for sale to the Project Participant. The resulting monthly net revenues, regardless of changes in Energy prices, are expected to be adequate to pay Debt Service requirements on the Bonds and program expenses when due.

DESIGNATION OF BONDS AS GREEN BONDS

Green Bonds Designation

Per the International Capital Market Association (“ICMA”), Green Bonds are any type of bond instrument where the proceeds will be exclusively applied to finance or re-finance, in part or in full, new and/or existing eligible Green Projects and which are aligned with the four core components of the Green Bond Principles. The four core components are: 1. Use of Proceeds; 2. Process for Project Evaluation and Selection; 3. Management of Proceeds; and 4. Reporting.

Kestrel has determined that the Bonds are in conformance with the four core components of the ICMA Green Bond Principles, as described in Kestrel’s “Second Party Opinion”, which is attached hereto as APPENDIX F.

Independent Second Party Opinion on Green Bond Designation and Disclaimer

For over 23 years, Kestrel has been consulting in sustainable finance. Kestrel, a division of Kestrel 360, Inc. is an Approved Verifier accredited by the Climate Bonds Initiative and the market leader for Second Party Opinions in US public finance. Kestrel reviews transactions in all asset classes worldwide for alignment with ICMA Green Bond Principles, Social Bond Principles, Sustainability Bond Guidelines and the Climate Bonds Initiative Standards and Criteria. Municipal bonds are benchmarked with Kestrel Sustainability Intelligence™.

The Second Party Opinion issued by Kestrel does not and is not intended to make any representation or give any assurance with respect to any other matter relating to the Bonds. Designations by Kestrel are not a recommendation to any person to purchase, hold, or sell the Bonds and such labeling does not address the market price or suitability of these bonds for a particular investor and does not and is not in any way intended to address the likelihood of timely payment of interest or principal when due.

In issuing the Second Party Opinion, Kestrel has assumed and relied upon the accuracy and completeness of the information made publicly available by CCCFA, the Project Participant, or that was otherwise made available to Kestrel.

INVESTMENT CONSIDERATIONS

The purchase of the Bonds involves certain investment considerations discussed throughout this Official Statement. Prospective purchasers of the Bonds should make a decision to purchase the Bonds only after reviewing the entire Official Statement and making an independent evaluation of the information contained herein. Certain of those investment considerations are summarized below. This summary does not purport to be complete, and the order in which the following investment considerations are presented is not intended to reflect their relative significance.

Special and Limited Obligations

The Bonds are special, limited obligations of CCCFA and are payable solely from and secured solely by the Trust Estate pledged pursuant to the Indenture. The Trust Estate includes only the proceeds, revenues, funds and rights related to the Clean Energy Project, as described under “SECURITY FOR THE BONDS — The Indenture” below and does not include any other revenues or assets of CCCFA. The Bonds are not general obligations of CCCFA, and CCCFA has no taxing power.

Only CCCFA is obligated to pay the Bonds. The Project Participant is not obligated to make payments in respect of the debt service on the Bonds. The Project Participant is obligated only to purchase and pay for Prepaid Energy tendered for delivery by CCCFA at the applicable Contract Price set forth in the Power Supply Contract. None of the Energy Supplier, MSCG, nor the Funding Recipient is obligated to make debt service payments on the Bonds, and none of them has guaranteed payment of the Bonds.

The amounts required to be on deposit in certain Funds and Accounts held by the Trustee under the Indenture are calculated to be sufficient to pay the Purchase Price or the Redemption Price of all Bonds on the Mandatory Purchase Date, assuming that the Energy Supplier, the Funding Recipient, and the Investment Agreement Provider pay and perform their respective contract obligations when due. Any failure to pay the purchase price or the Redemption Price of all of the Bonds on the Mandatory Purchase Date will result in an Event of Default under the Indenture.

Structure of the Clean Energy Project

The Prepaid Energy Sales Agreement, the Energy Management Agreement, the Power Supply Contract, the Funding Agreement, the Debt Service Account Investment Agreement, the CCCFA Commodity Swap, the Indenture, the Receivables Purchase Provisions, the Bonds and related agreements have been structured so that, assuming timely performance and payment by the Energy Supplier, MSCG, the Funding Recipient, the Investment Agreement Provider and the Project Participant of their respective contractual obligations, the Revenues available to CCCFA from the Clean Energy Project are calculated to be sufficient at all times to provide for the timely payment of Operating Expenses and the scheduled Debt Service requirements on the Bonds and the CCCFA Commodity Swap. See “THE CLEAN ENERGY PROJECT – Structure of the Clean Energy Project”.

The Prepaid Energy Sales Agreement provides certain Energy Delivery Termination Events and certain Acceleration Events. Upon the occurrence of an Energy Delivery Termination Event under the Prepaid Energy Sales Agreement, the obligation of the Energy Supplier and CCCFA to deliver and take Energy shall terminate, and if the Prepaid Energy Sales Agreement is terminated as a result of an Acceleration Event, the Energy Supplier is required to pay the scheduled Termination Payment on the Early Termination Payment Date. In the event the Prepaid Energy Sales Agreement is terminated, the Bonds are to be redeemed at their Amortized Value plus accrued interest to the redemption date, regardless of reinvestment rates at the time. See “THE BONDS—Redemption—Extraordinary Mandatory Redemption” and “THE PREPAID ENERGY SALES AGREEMENT—Termination” and “—Termination Payment.”

Performance by Others

During the Initial Interest Rate Period, the ability of CCCFA to pay timely the scheduled debt service on the Bonds depends on the timely performance and payment by (a) the Energy Supplier under the Prepaid Energy Sales Agreement, including the Receivables Purchase Provisions therein, and the Energy

Supplier Commodity Swap, and (b) the Investment Agreement Provider under the Debt Service Account Investment Agreement. The failure by any one or more of such parties to meet such obligations could materially and adversely affect the ability of CCCFA to pay timely the scheduled debt service on the Bonds, and to meet its other obligations under the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract and, if applicable, the CCCFA Commodity Swap.

The ability of the Energy Supplier to meet its payment obligations under the Prepaid Energy Sales Agreement, the Energy Management Agreement and the Energy Supplier Commodity Swap will depend directly and materially on timely payment by the Funding Recipient of the amounts due on the Funding Agreement. A failure by the Funding Recipient to pay any amounts when due under the Funding Agreement will result in an insufficiency of funds being available to the Energy Supplier for the performance of its obligations under the Prepaid Energy Sales Agreement, the Energy Management Agreement and the Energy Supplier Commodity Swap. Nonperformance by the Energy Supplier under these agreements should, in turn, be expected to result in nonperformance by CCCFA of its obligations under the Power Supply Contract and an insufficiency in the revenues necessary for the payment of debt service on the Bonds. The obligations of CCCFA with respect to the Bonds are limited to the revenues and funds available in the Trust Estate as described above, and none of the Energy Supplier, the Funding Recipient, MSCG, MSCS, or Morgan Stanley is obligated to cure any default in the payment of the Bonds, and none of them has guaranteed payment of the Bonds.

A default on the payment of Debt Service could also result from failure by the Investment Agreement Provider to make timely payments of amounts due and payable under the Debt Service Account Investment Agreement.

Certain events and conditions outside of the control of CCCFA could also result in an Acceleration Event under the Prepaid Energy Sales Agreement, which will cause the extraordinary mandatory redemption of the Bonds, including an event of default by the Funding Recipient under the Funding Agreement that results in the acceleration of the Funding Agreement. For a complete list of Acceleration Events, see “THE PREPAID ENERGY SALES AGREEMENT – Termination.”

Upon the early termination of the Prepaid Energy Sales Agreement as a result of an Acceleration Event, the Energy Supplier will be obligated to pay the scheduled Termination Payment on the Early Termination Payment Date. The scheduled amount of the Termination Payment, together with the amounts required to be on deposit in certain Funds and Accounts held by the Trustee, has been calculated to provide CCCFA with an amount at least sufficient to redeem all of the Bonds, assuming that the Energy Supplier and the Investment Agreement Provider pay and perform their contract obligations when due.

In the case of a Failed Remarketing and a mandatory redemption of the Bonds on the Mandatory Purchase Date, the amounts required to be on deposit in certain Funds and Accounts held by the Trustee under the Indenture are calculated to be sufficient to pay the Redemption Price of all Bonds on the Mandatory Purchase Date, assuming that the Energy Supplier and the Investment Agreement Provider pay and perform their respective contract obligations when due. Any failure to pay the Purchase Price or the Redemption Price of all of the Bonds on the Mandatory Purchase Date will result in an Event of Default under the Indenture.

Energy Remarketing

In the event the Project Participant is in default under the Power Supply Contract or does not require or is unable to receive all or any portion of its applicable Contract Quantity under the Power Supply Contract

for certain reasons described below under “The Power Supply Contract – Remarketing of Energy” or if the Assigned Energy for any measurement period during the term of the Prepaid Energy Sales Agreement is less than the quantity of Prepaid Energy required to be delivered during such period, the Energy Supplier is required to use Commercially Reasonable Efforts to deliver Base Energy or Assigned Energy, as applicable, for remarketing under the terms of the Prepaid Energy Sales Agreement.

The Energy Supplier must remarket any Base Energy required to be delivered under the Prepaid Energy Sales Agreement. In the event the Energy Supplier is unable to remarket such Base Energy, it has agreed to purchase such Base Energy for its own account. The Energy Supplier is required to (a) enter all remarketing sales or purchases of Base Energy on a ledger system that tracks compliance with the requirements of the U.S. Treasury Regulations applicable to tax-exempt bonds that finance Prepaid Energy supplies, and (b) remediate any non-complying sales (i.e., non-qualifying use sales and private business use sales) through “qualifying use” sales within two years. See “INTRODUCTION – *Energy Remarketing*”, “THE PREPAID ENERGY SALES AGREEMENT – *Provisional Payments and Energy Remarketing*”, and “THE POWER SUPPLY CONTRACT – *Remarketing of Energy*”.

Base Energy is not expected to be delivered during the Initial Reset Period.

The Energy Supplier has agreed to use Commercially Reasonable Efforts to remarket electricity to Municipal Utilities pursuant to provisions that are intended to maintain the tax exempt status of interest on the Bonds, but, if the Energy Supplier cannot do so, the Energy Supplier is also permitted to remarket electricity to other governmental entities in non-private business use sales, although it is not required to remarket electricity to any such other governmental entity for a price (net of transportation and other costs) that is anticipated to be less than the applicable index price. If the Energy Supplier is unable to remarket all or any portion of the electricity designated for remarketing in qualifying sales to Municipal Utilities or to other governmental entities in non-private business use sales, it must purchase such electricity. Under certain circumstances and upon reaching certain thresholds that are not timely remediated, the remarketing of electricity to entities other than Municipal Utilities could result in a Ledger Event under the Prepaid Energy Sales Agreement.

The Energy Supplier will depend upon performance by MSCG under the Energy Management Agreement to meet its electricity remarketing obligations under the Prepaid Energy Sales Agreement, including particularly the ability of MSCG to remarket electricity to Municipal Utilities (as defined in the Prepaid Energy Sales Agreement) and to remediate any non-complying sales in order to avoid the occurrence of a Ledger Event under the Prepaid Energy Sales Agreement. In the event that any non-complying remarketing sales of electricity are not remediated within two years and exceed certain cumulative limits, a Ledger Event will occur, subject to certain provisions of the Prepaid Energy Sales Agreement.

The occurrence of a Ledger Event will result in an Energy Delivery Termination Event, and MSCG will have the option to purchase the Funding Agreement from the Energy Supplier, which will result in an Acceleration Event and extraordinary mandatory redemption of the Bonds. If a Ledger Event occurs and MSCG does not elect to purchase the Funding Agreement, MSCG will be obligated to pay the Energy Supplier, and the Energy Supplier will be obligated to pay CCCFA, scheduled Ledger Event Payments calculated to provide a sum sufficient (together with the interest component of the Scheduled Debt Service Deposits) to enable CCCFA to pay interest on the Bonds at the Increased Interest Rate of 8% per annum. The Indenture provides that, subject to CCCFA’s receipt of such Ledger Event Payments from the Energy Supplier, interest on the Bonds will be paid at the Increased Interest Rate after the occurrence of a Ledger

Event. See “THE PREPAID ENERGY SALES AGREEMENT—Energy Remarketing” and “—Ledger Event,” “THE ENERGY MANAGEMENT AGREEMENT—MSCG as Agent” and “THE BONDS—Increased Interest Rate Upon Ledger Event.”

Limitations on Exercise of Remedies

The remedies available to CCCFA under the Prepaid Energy Sales Agreement are limited to those described herein. The remedies available to the Trustee, CCCFA and the Holders of the Bonds upon an Event of Default under the Indenture are in many respects dependent upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory provisions and judicial decisions, the remedies provided in the Indenture may not be readily available or may be limited. CCCFA has no rights to enforce the provisions of the Funding Agreement or the Energy Management Agreement. Neither the Trustee nor the Bondholders have any rights to enforce the Funding Agreement or the Energy Management Agreement. None of CCCFA, the Trustee nor the Bondholders have any right to enforce the Morgan Stanley Guarantee.

Enforceability of Contracts

The enforceability of the various legal agreements relating to the Clean Energy Project may be limited by bankruptcy, reorganization, insolvency, moratorium or other similar laws affecting the rights of creditors or secured parties generally, by the exercise of judicial discretion in accordance with general principles of equity and by principles of equity, public policy and commercial reasonableness. The Prepaid Energy Sales Agreement and other agreements relating to the Clean Energy Project are executory contracts. If CCCFA, the Energy Supplier, MSCG, Morgan Stanley, the Funding Recipient, the Commodity Swap Counterparty, the Project Participant or any of the parties with which CCCFA has contracted under such agreements (including the Prepaid Energy Sales Agreement) is involved in a bankruptcy proceeding, the relevant agreement could be discharged in return for a claim for damages against the party’s estate with uncertain value. In particular, an insolvency event with respect to the Funding Recipient that results in a delay or a reduction in the payments due under the Funding Agreement will result in insufficient amounts being available for the payment of the Bonds, whether on a Bond Payment Date, the Mandatory Tender Date or any extraordinary redemption date. In the event that CCCFA is involved in an insolvency proceeding, the exercise of the remedies afforded to the Trustee under the Indenture may be stayed, and the availability of the Revenues necessary for the payment of the Bonds could be materially and adversely affected.

No Established Trading Market

The Bonds constitute a new issue with no established trading market. The Bonds have not been registered under the Securities Act of 1933 in reliance upon exemptions contained therein. Although the Underwriter has informed CCCFA that it currently intends to make a market in the Bonds, they are not obligated to do so and may discontinue any such market making at any time without notice. There can be no assurance as to the development or liquidity of any market for the Bonds. If an active public market does not develop, the market price and liquidity of the Bonds may be adversely affected.

Loss of Tax Exemption on the Bonds

As described below, the opinion of Bond Counsel with respect to the exclusion of interest on the Bonds from gross income for federal income tax purposes is based on current legal authority, covers certain

matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service (the "IRS") or the courts and is not a guarantee of a result.

The Indenture, CCCFA's Tax Agreement with respect to the Bonds, the Prepaid Energy Sales Agreement and the Power Supply Contract contain various covenants and agreements on the part of CCCFA, the Energy Supplier and the Project Participant that are intended to establish and maintain the tax-exempt status of the Bonds. CCCFA, the Energy Supplier and the Project Participant have each agreed to abide by the various covenants and agreements designed to protect the tax-exempt status of the Bonds. A failure by CCCFA, the Energy Supplier and the Project Participant to comply with such covenants and agreements could, directly or indirectly, adversely affect the tax-exempt status of the Bonds.

In particular, if the Project Participant requests, or is deemed to have requested, a remarketing of Energy under the Power Supply Contract, and in the event that any non-complying Energy remarketing sales are not remediated within two years and exceed certain cumulative limits, a Ledger Event will occur, subject to certain provisions of the Prepaid Energy Sales Agreement. Upon the occurrence of a Ledger Event, if and MSCG does not purchase the Funding Agreement, MSCG will be required to make Ledger Event Payments to enable CCCFA to pay interest on the Bonds at the Increased Interest Rate. The occurrence of Ledger Event could, under certain circumstances, adversely affect the continued tax-exempt status of interest on the Bonds, if there is not an extraordinary mandatory redemption of the Bonds or other qualified remedial action. See "The Master Power Supply Agreement – *Electricity Remarketing*" and "– *Ledger Event*," "The Energy Management Agreement – *MSCG as Agent*" and "– *Additional Amounts Payable Following a Ledger Event*," and "The Bonds – *Increased Interest Rate Upon Ledger Event*."

Furthermore, the Prepaid Energy Sales Agreement provides for circumstances where Energy deliveries under the Prepaid Energy Sales Agreement would cease and the Energy Supplier would make scheduled monthly payments to CCCFA in order to pay debt service on the Bonds. The use of these scheduled payments (in lieu of payments made by the Project Participant under the Power Supply Contract) to make debt service payments could, under certain circumstances, adversely affect the continued tax-exempt status of interest on the Bonds.

The IRS has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the IRS, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. It cannot be predicted whether or not the IRS will commence an audit of the Bonds. If an audit is commenced, under current procedures the IRS may treat CCCFA as a taxpayer and the Bondholders may have no right to participate in such procedure. The commencement of an audit could adversely affect the market value and liquidity of the Bonds until the audit is concluded, regardless of the ultimate outcome.

Any loss of the tax-exempt status of the Bonds could be retroactive to the date of issuance of the Bonds and could cause all of the interest on the Bonds to be includable in gross income for purposes of federal income taxation. *The loss of the tax-exempt status of the Bonds is not an Acceleration Event under the Prepaid Energy Sales Agreement and will not result in a mandatory redemption of the Bonds.* See "THE PREPAID ENERGY SALES AGREEMENT" and "TAX MATTERS".

SECURITY FOR THE BONDS

The Indenture

The Bonds are secured under the Indenture solely by a pledge of the “*Trust Estate*,” which is defined in the Indenture to mean (a) the proceeds of the sale of the Bonds, (b) all right, title and interest of CCCFA in, to and under the Power Supply Contract, except for the right to receive the Project Administration Fee, (c) the Revenues, (d) any Termination Payment or the right to receive such Termination Payment, (e) all right, title and interest of CCCFA in, to and under the Receivables Purchase Provisions, including payments received from the Energy Supplier (or the Master Custodian on its behalf) pursuant thereto, and (f) all right, title and interest of CCCFA in, to and under any Debt Service Fund Agreement and Debt Service Fund Agreement Guaranty and (g) the Pledged Funds (which does not include the Administrative Fee Fund, the Energy Remarketing Reserve Fund and the Bond Purchase Fund, and excluding Rebate Payments held in any Fund or Account), including the investment income, if any, thereof subject only to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein.

The pledge of the Trust Estate in favor of the Trustee is subject to (x) the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein, and (y) conveyance, assignment and pledge of the Commodity Swap Payment Fund and the amounts and investments on deposit therein in favor of the Commodity Swap Counterparty.

The term “*Revenues*” is defined in the Indenture to mean (a) all revenues, income, rents, user fees or charges, and receipts derived or to be derived by CCCFA from or attributable or relating to the ownership and operation of the Clean Energy Project, including all revenues attributable or relating to the Clean Energy Project or to the payment of the costs thereof received or to be received by CCCFA under the Power Supply Contract and the Prepaid Energy Sales Agreement or otherwise payable to the Trustee for the account of CCCFA for the sale and/or transmission of Energy or otherwise with respect to the Clean Energy Project (excluding any payments received by CCCFA in respect of any Monthly Excess Quantities or Assigned Paygo Quantities), (b) interest received or to be received on any moneys or securities (other than moneys or securities held in the Project Fund, moneys or securities held in the Redemption Account in the Debt Service Fund or that portion of moneys in the Operating Fund required for Rebate Payments) held pursuant to the Indenture and paid or required to be paid into the Revenue Fund; (c) any Commodity Swap Receipts received by the Trustee on behalf of CCCFA; (d) any Subsidy Payments received by the Trustee, on behalf of CCCFA, in accordance with the Indenture; and (e) any Advance received by the Trustee on behalf of CCCFA; *provided that*, the term “*Revenues*” does not include: (i) Ledger Event Payments, (ii) any Termination Payment pursuant to the Prepaid Energy Sales Agreement; (iii) any amounts received from the Energy Supplier that are required to be deposited into the Energy Remarketing Reserve Fund pursuant to the Indenture; (iv) any amounts paid by the Project Participant under the Prepaid Clean Energy Project Administration Agreement; (v) any Assignment Payment received from the Energy Supplier; and (vi) amounts paid by the Project Participant in respect of the Project Administration Fee. The Revenues are to be applied in accordance with the priorities established under the Indenture, including the prior payment from the Revenues of the Operating Expenses of the Clean Energy Project. See “*Flow of Funds*” below.

The term “*Operating Expenses*” is defined in the Indenture to mean, to the extent properly allocable to the Clean Energy Project: (a) CCCFA’s expenses for operation of the Clean Energy Project, including

all Rebate Payments, costs, collateral deposits and other amounts (other than Commodity Swap Payments) necessary to maintain the CCCFA Commodity Swap; and payments required under the Prepaid Energy Sales Agreement (which may, under certain circumstances, include imbalance charges and other miscellaneous payments) or required to be incurred under or in connection with the performance of CCCFA's obligations under the Power Supply Contract; (b) any other current expenses or obligations required to be paid by CCCFA under the provisions of the Indenture (other than Debt Service on the Bonds and deposits to the General Reserve Fund and the Energy Remarketing Reserve Fund, or any Cost of Acquisition) or by law or required to be incurred under or in connection with the performance of CCCFA's obligations under the Power Supply Contract; (c) fees payable by CCCFA with respect to any Remarketing Agreement; (d) the fees and expenses of the Fiduciaries; (e) reasonable accounting, legal and other professional fees and expenses, and all other reasonable administrative and operating expenses of CCCFA which are incurred by CCCFA with respect to the Bonds, the Indenture, or the Clean Energy Project, including but not limited to those relating to the administration of the Trust Estate and compliance by CCCFA with its continuing disclosure obligations, if any, with respect to the Bonds; and (f) the costs of any insurance premiums incurred by CCCFA, including, without limitation, directors and officers liability insurance allocable to the Clean Energy Project; provided that, for purposes of the transfers from the Revenue Fund described under the proviso "second" under the heading "Flow of Funds" below, Operating Expenses shall not include any of the foregoing administrative expenses, fees or other costs described in the foregoing clauses (a) through (f) that are paid from funds on deposit in the Administrative Fee Fund. Commodity Swap Payments, litigation judgments and settlements and indemnification payments in connection with the payment of any litigation judgment or settlement, and Extraordinary Expenses are not Operating Expenses.

THE BONDS ARE A LIMITED OBLIGATION OF CCCFA AND THE PRINCIPAL AND REDEMPTION PRICE OF, AND INTEREST ON, THE BONDS ARE PAYABLE SOLELY FROM THE TRUST ESTATE. THE BONDS DO NOT CONSTITUTE A DEBT OR LIABILITY OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF, OTHER THAN THE CCCFA, BUT SHALL BE PAYABLE SOLELY FROM THE FUNDS PROVIDED THEREFOR UNDER THE INDENTURE. CCCFA SHALL NOT BE OBLIGATED TO PAY THE PRINCIPAL OR THE REDEMPTION PRICE OF OR INTEREST ON THE BONDS EXCEPT FROM THE FUNDS PROVIDED THEREFOR UNDER THE INDENTURE AND NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE STATE OF CALIFORNIA OR OF ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OR REDEMPTION PRICE OF OR INTEREST ON THE BONDS. THE ISSUANCE OF THE BONDS SHALL NOT DIRECTLY OR INDIRECTLY OR CONTINGENTLY OBLIGATE THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR TO PLEDGE ANY FORM OF TAXATION OR TO MAKE ANY APPROPRIATION FOR THEIR PAYMENT. CCCFA HAS NO TAXING POWER.

See APPENDIX B for definitions of certain terms and see APPENDIX C for a further description of certain provisions of the Indenture.

Flow of Funds

All Revenues are required by the Indenture to be deposited promptly by the Trustee upon receipt thereof into the Revenue Fund; provided that, for the avoidance of doubt, if any amounts are received from the Project Participant for which Outstanding Sold Receivables exist, as identified in a written notice from CCCFA to the Trustee, the Trustee will promptly cause any such receipts to be paid to the Energy Supplier to the extent of such Outstanding Sold Receivables without setoff of any kind in accordance with the

Receivables Purchase Provisions of the Prepaid Energy Sales Agreement and any remaining amounts received from the Project Participant will be deposited into the Revenue Fund. In each Month during which there is a deposit of Revenues into the Revenue Fund (but in no case later than the respective dates set forth below), the Trustee is required to apply the amounts on deposit in the Revenue Fund, to the extent available, for credit or deposit to the Funds and Accounts indicated below, in the amounts described below (such application to be made in such a manner so as to assure good funds are available on the respective dates set forth below) in the following order of priority:

first, to the Operating Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount, if any, required so that the balance therein shall equal the amount necessary for the payment of Operating Expenses coming due for such Month;

second, to the Debt Service Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day) for the credit to the Debt Service Account, an amount equal to the greater of (A) the Scheduled Debt Service Deposit, as set forth in the Indenture, or (B) the amount necessary to cause an amount equal to the cumulative unpaid Scheduled Debt Service Deposits due through such date to be on deposit therein; and

third, to the Commodity Swap Payment Fund, on or before the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount required so that the balance therein shall equal the Commodity Swap Payments due for such Month.

If, after a scheduled monthly deposit to the Debt Service Account or the Commodity Swap Payment Fund, the balance therein is below the cumulative Scheduled Debt Service Deposits for such month as specified in the Indenture or the Commodity Swap Payments due for such month, respectively, the Trustee shall immediately notify CCCFA of such deficiency and the Trustee shall (a) if CCCFA has not previously done so, cause CCCFA to suspend all deliveries of all quantities of Energy under the Power Supply Contract if the Project Participant is in default thereunder, and (b) promptly give notice to the Energy Supplier to follow the electricity remarketing provisions set forth in the Prepaid Energy Sales Agreement.

On each [] 1, beginning [] 1, 20[]*, after (a) the deposit of Revenues into the Revenue Fund, and (b) making such transfers, credits and deposits as described in the first paragraph of this section "Flow of Funds," the Trustee shall credit to the General Reserve Fund the remaining balance in the Revenue Fund.

So long as there shall be held in the Debt Service Fund an amount sufficient to pay in full all Outstanding Bonds in accordance with their terms (including principal or applicable Sinking Fund Installments and interest thereon), no transfers will be required to be made to the Debt Service Fund. See "Revenues and Revenue Fund" and "Payments into Certain Funds" in APPENDIX C.

As noted above, certain amounts are pledged as a part of the Trust Estate but do not constitute Revenues and are not deposited into the Revenue Fund, including any Termination Payment or the right to receive such Termination Payment under the Prepaid Energy Sales Agreement, which is to be deposited directly into the Redemption Account.

The Indenture also provides that the following amounts, which are payable to the Trustee but do not constitute Revenues, will be applied as follows: (a) any Assignment Payment will be deposited directly

* Preliminary, subject to change.

into the Assignment Payment Fund; (b) amounts representing the Project Administration Fee, together with amounts paid by the Project Participant under the Prepaid Clean Energy Project Administration Agreement, will be deposited directly into the Administrative Fee Fund; (c) certain proceeds from electricity remarketing sales will be deposited directly into the Energy Remarketing Reserve Fund; and (d) Ledger Event Payments will be deposited directly into the Debt Service Account.

Debt Service Fund - Debt Service Account

The amounts deposited into the Debt Service Account, including any amounts deposited therein representing capitalized interest on the Bonds, must be held in such Account and applied to the payment of Debt Service payable on each Bond Payment Date.

Amounts on deposit in the Debt Service Account, including any amounts deposited therein representing capitalized interest on the Bonds, will be initially invested pursuant to the Debt Service Account Investment Agreement, which will provide for scheduled withdrawals to pay debt service on the Bonds when due and, in the case of extraordinary redemption, all funds invested thereunder will be used to pay a portion of the Redemption Price without penalty or market value adjustments. See “Investment of Funds – Debt Service Account Investment Agreement” herein. Capitalized interest on the Bonds will be funded with a deposit of Bond proceeds on the Initial Issue Date of the Bonds. The amount so deposited will be used to pay a portion of the interest coming due on the Bonds through [] 1, 20[]*.

Administrative Fee Fund

All Project Administration Fees, together with any amounts paid by the Project Participant pursuant to the Prepaid Clean Energy Project Administration Agreement, shall be deposited by the Trustee into the Administrative Fee Fund. The Trustee is required to apply amounts on deposit in the Administrative Fee Fund to pay Operating Expenses promptly upon receipt of a Written Request of CCCFA directing such payment. In the event amounts on deposit in the Administrative Fee Fund are insufficient to make any payments directed in the Written Request of CCCFA, the Trustee shall promptly notify the Project Participant, at its address shown in the Indenture, of the fact and amount of such deficiency.

Commodity Swap Payment Fund

The amounts credited to the Commodity Swap Payment Fund shall be applied from time to time by the Trustee solely to the payment of Commodity Swap Payments when due.

Any amount remaining in the Commodity Swap Payment Fund following the payment of the Commodity Swap Payment due in any Month and prior to any deposit therein for the following Month shall be transferred to the Revenue Fund for application as described above.

Debt Service Fund - Redemption Account

In the event of an early termination of the Prepaid Energy Sales Agreement, CCCFA will direct the Energy Supplier to pay the Termination Payment directly to the Trustee for the account of CCCFA. The Trustee will deposit the Termination Payment into the Redemption Account. Amounts deposited into the Redemption Account shall be applied by the Trustee to the extraordinary mandatory redemption of

* Preliminary, subject to change.

Outstanding Bonds as described below under “THE BONDS — Redemption — *Extraordinary Mandatory Redemption*.”

Restriction on Additional Obligations

Except as expressly permitted under the terms of the Indenture, for so long as any Bonds are Outstanding, CCCFA will not, without a Rating Confirmation, issue any debt payable from or secured by a pledge and assignment of the Trust Estate other than debt issued to refund Outstanding Bonds, or otherwise incur obligations other than those contemplated by the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the CCCFA Custodial Agreement, the CCCFA Commodity Swap and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments), payable out of or secured by a pledge or assignment of, or lien on, the Trust Estate; and shall not, without a Rating Confirmation, create or cause to be created any lien or charge on the Trust Estate except as provided in or contemplated by the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the CCCFA Custodial Agreement, the CCCFA Commodity Swap and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments). However, such limitation will not prevent CCCFA from entering into any Commodity Swap upon the terms set forth in the Indenture, or incurring any debt payable out of moneys in the Project fund as part of the Cost of Acquisition or secured by the Trust Estate following the defeasance of the Bonds.

Other than the Bonds and any refunding bonds, no additional bonds or other obligations are authorized to be issued under the Indenture or, except as described above, for which payment is otherwise secured by a pledge or assignment of, or lien on, the Trust Estate. See “Creation of Liens” in APPENDIX C.

Amendment of Indenture

CCCFA and the Trustee may, subject to the conditions and restrictions in the Indenture, enter into a Supplemental Indenture or Indentures, in form satisfactory to the Trustee, which will thereafter form a part of the Indenture, without the consent of the Bondholders (i) for certain purposes, or (ii) upon receipt of a Rating Confirmation if the Bonds affected by such change are rated by a Rating Agency. See “*Supplemental Indenture Not Requiring Consent of Bondholders*,” “*General Provisions*” and “*Powers of Amendment*” in APPENDIX C hereto.

Investment of Funds

General. Subject to the provisions of the Indenture, amounts on deposit in the Funds and Accounts may be invested in, among other things, guaranteed investment contracts, forward delivery agreements, interest rate exchange agreements or similar agreements providing for a specified rate of return over a specified time period; provided, however, that guaranteed investment contracts, forward delivery agreements or similar agreements must be with providers that are rated (or whose financial obligations to CCCFA receive credit support from an entity rated) (i) at least “[]” from Moody’s or (ii) at such a rating that will allow the Bonds to be rated the same as the credit rating or financial strength rating assigned to the Funding Recipient. See APPENDIX B—Definitions of Certain Terms and “Investment of Certain Funds” in APPENDIX C.

Debt Service Account Investment Agreement. On the Initial Issue Date of the Bonds, it is expected that CCCFA or the Trustee will enter into an investment agreement with the Investment Agreement Provider with respect to the Debt Service Account (the “*Debt Service Account Investment Agreement*”). The Debt Service Account Investment Agreement constitutes a “Debt Service Fund Agreement” as defined

in the Indenture. The Debt Service Account Investment Agreement will become effective on the first day, and will be scheduled to terminate on the last day, of the Initial Interest Rate Period. The Debt Service Account Investment Agreement is required to meet all of the criteria of a Qualified Investment under the Indenture and is expected to be bid out on the day of Bond pricing to qualified investment providers. See “SECURITY FOR THE BONDS— *Investment of Funds*”.

Required qualifications for the initial Investment Agreement Provider include: (a) a minimum credit rating requirement for the Investment Agreement Provider (or its guarantor) of at least “[]” by Moody’s, and (b) a requirement that if the rating assigned to the senior unsecured long-term debt obligations of the Investment Agreement Provider (or its guarantor) falls below “[]” by Moody’s, the Investment Agreement Provider will provide a credit remedy, such as providing credit support or posting eligible collateral, or the Trustee, at the direction of CCCFA, will have the right to terminate the Debt Service Account Investment Agreement.

The Debt Service Account Investment Agreement will provide for a fixed interest rate to be paid on the funds invested. Payments are scheduled to return amounts to the Trustee in connection with the Bond Payment Dates.

Upon transaction termination, whether by extraordinary mandatory redemption or final maturity, the funds invested under the Debt Service Account Investment Agreement will be used to pay the redemption price or debt service due on the Bonds. If the Debt Service Account Investment Agreement terminates, all invested funds are required to be returned to the Trustee.

Enforcement of Project Agreements

Power Supply Contract. CCCFA has covenanted in the Indenture that it will enforce the provisions of the Power Supply Contract, as well as any other contract or contracts entered into relating to the Clean Energy Project, and duly perform its covenants and agreements thereunder.

CCCFA has also covenanted to exercise promptly its right to suspend all Energy deliveries under the Power Supply Contract if the Project Participant thereunder fails to pay when due any amounts owed to CCCFA thereunder and to promptly give notice to the Energy Supplier to follow provisions set forth in the remarketing provisions of the Prepaid Energy Sales Agreement for each Month of such suspension with respect to the quantities of Energy for which deliveries have been suspended.

In the event that the Project Participant delivers a Remarketing Election Notice (as defined in the Power Supply Contract) in respect of any Reset Period, CCCFA will promptly give notice to the Energy Supplier to follow the provisions set forth in the remarketing exhibit to the Prepaid Energy Sales Agreement for each month of such Reset Period with respect to any quantities of Energy that would otherwise have been delivered to the Project Participant. See “THE RE-PRICING AGREEMENT”.

CCCFA has further covenanted in the Indenture that it will not consent or agree to or permit any termination or rescission of, any assignment or novation (in whole or in part) by the Project Participant of, or any amendment to or otherwise take any action under or in connection with any Power Supply Contract that will impair the ability of CCCFA to collect Revenues in each Fiscal Year which, together with the other amounts available therefor, shall provide an amount sufficient to pay the amount estimated by CCCFA to be required to be paid during such Fiscal Year into the Operating Fund; the amounts, if any, required to be paid during such Fiscal Year into the Debt Service Fund other than any such amounts which CCCFA

anticipates will be transferred from other Funds or Accounts; the amounts, if any, to be paid during such Fiscal Year into any other Fund established under the Indenture; and all other charges or liens whatsoever payable out of Revenues during such Fiscal Year. Under the Indenture, upon the satisfaction of certain conditions, including delivery of a Rating Confirmation with respect to such amendment or assignment, as applicable, from each rating agency then rating the Bonds, CCCFA may agree to the amendment of a Power Supply Contract or to the assignment of a Power Supply Contract by the Project Participant to another Municipal Utility.

Enforcement of Agreements by the Trustee. Under the Indenture, CCCFA has irrevocably pledged and collaterally assigned to the Trustee its rights to issue notices and to take any other actions that CCCFA is required or permitted to take in order to enforce performance under certain documents, including (a) the Prepaid Energy Sales Agreement, (b) the Receivables Purchase Provisions, (c) the Power Supply Contract, and (d) the CCCFA Commodity Swap. CCCFA has retained, in the absence of any conflicting action by the Trustee while an Event of Default has occurred and is continuing, the right and obligation to exercise any rights for which it has pledged and collaterally assigned to the Trustee as described in the preceding sentence; *provided, however*, if an Event of Default has occurred and is continuing, the Trustee will have the right to notify CCCFA to cease exercising such rights, subject to certain rights of the Energy Supplier with respect to the Power Supply Contract.

Prepaid Energy Sales Agreement. CCCFA has covenanted in the Indenture that it will enforce the provisions of the Prepaid Energy Sales Agreement and that it will duly perform its covenants and agreements thereunder.

The Trustee will promptly notify CCCFA of any payment default that has occurred and is continuing on the part of the Energy Supplier under the Prepaid Energy Sales Agreement. CCCFA will provide the Trustee with Written Notice of the Early Termination Payment Date (a) on the date on which a Failed Remarketing occurs, and (b) in all other cases, not more than five Business Days after such date is determined.

CCCFA has further covenanted that it will not consent or agree to or permit any rescission of, assignment of or amendment to or otherwise take any action under or in connection with the Prepaid Energy Sales Agreement which would in any manner materially impair or materially adversely affect its rights thereunder or the rights or security of the Bondholders under the Indenture; *provided*, that the Prepaid Energy Sales Agreement may be assigned or amended without Bondholder consent upon receipt of a Rating Confirmation with respect to such assignment or amendment. The Prepaid Energy Sales Agreement may also be amended in connection with a remediation to reduce the schedule of Prepaid Quantities upon the occurrence of a Ledger Event.

CCCFA Commodity Swap. CCCFA has covenanted to cause amounts due to CCCFA under the CCCFA Commodity Swap to be collected and paid directly to the Trustee. Pursuant to the Indenture, the Commodity Swap Receipts are to be deposited by the Trustee into the Revenue Fund. CCCFA has covenanted in the Indenture that:

- it will enforce the provisions of the CCCFA Commodity Swap and duly perform its covenants and agreements thereunder,
- it will not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with the CCCFA Commodity Swap

that will impair the ability of CCCFA to comply during the current or any future year with the provisions of the Indenture, and

- it will not exercise any right to terminate the CCCFA Commodity Swap unless either (i) it has entered into a replacement CCCFA Commodity Swap that meets the requirements of the Indenture (described below), and such replacement CCCFA Commodity Swap will be effective as of such early termination date and cover energy price exposure from and after such early termination date, or (ii) CCCFA causes or permits the termination of the Prepaid Energy Sales Agreement prior to or as of such early termination date.

CCCFA may replace the CCCFA Commodity Swap (and any related guaranty of the Commodity Swap Counterparty's obligations thereunder) with a similar agreement for the same purposes with an alternate Commodity Swap Counterparty at any time upon delivery to the Trustee of a Rating Confirmation. If the CCCFA Commodity Swap is subject to termination (or, in the case of clause (B) below, is terminated) by either party in accordance with its terms, then (A) CCCFA may terminate the CCCFA Commodity Swap if CCCFA has the right to do so, and (B) CCCFA may enter into a replacement CCCFA Commodity Swap with an alternate Commodity Swap Counterparty without a Rating Confirmation, but only if the replacement CCCFA Commodity Swap is identical in all material respects to the existing CCCFA Commodity Swap, except for the identity of the Commodity Swap Counterparty, and (1) the replacement Commodity Swap Counterparty (or its credit support provider under the replacement CCCFA Commodity Swap) is then rated at least the lower of (a) the credit rating of the Funding Recipient or (b) the rating then assigned by each Rating Agency to the Bonds or (2) the Commodity Swap Counterparty provides such collateral and security arrangements as CCCFA determines to be necessary, and (3) in either case, the Commodity Swap Counterparty enters into a replacement Custodial Agreement with the Energy Supplier and the Custodian that is identical in all material respects to the existing Custodial Agreement among the Energy Supplier, the Custodian and the Commodity Swap Counterparty.

If the CCCFA Commodity Swap becomes terminable by CCCFA as a result of a failure by the Commodity Swap Counterparty to make a payment due under the CCCFA Commodity Swap, CCCFA will (A) notify the Energy Supplier of such event pursuant to the Prepaid Energy Sales Agreement, and (B) in accordance with the Prepaid Energy Sales Agreement, use its good faith efforts to replace the CCCFA Commodity Swap with an alternate CCCFA Commodity Swap, subject to the conditions of the first sentence of the paragraph immediately above, during the 120 day replacement period contemplated by the Prepaid Energy Sales Agreement (the "*Swap Replacement Period*").

If CCCFA is unable to enter into an alternate CCCFA Commodity Swap pursuant to clause (B) in the paragraph immediately above during the Swap Replacement Period, CCCFA will (A) designate an Energy Delivery Termination Date in accordance with the Prepaid Energy Sales Agreement, with such Energy Delivery Termination Date occurring immediately at the end of the Swap Replacement Period and, (B) unless the CCCFA Commodity Swap has been terminated automatically pursuant to the terms thereof, designate an early termination date for the CCCFA Commodity Swap, with such early termination date occurring concurrently with the Energy Delivery Termination Date under the Prepaid Energy Sales Agreement.

SOURCES AND USES OF FUNDS

The sources and uses of funds in connection with the issuance of the Bonds are approximately as follows:

SOURCES:	
Par Amount	\$
Original Issue Premium	
Total Sources	<u>\$</u>
USES:	
Deposit to Project Fund ¹	\$
Costs of Issuance ²	
Total Uses	<u>\$</u>

¹ Includes the prepayment amount and capitalized interest on the Bonds (which will be transferred to the Debt Service Account).

² Includes underwriting, rating agency, Trustee, financial advisor, legal and other fees and other expenses related to the issuance of the Bonds and the acquisition of the Clean Energy Project.

THE BONDS

General

The Bonds will mature (subject to redemption as described below) on the dates and in the principal amounts shown on the inside cover page of this Official Statement. The Bonds will be initially issued in denominations of \$5,000 and any integral multiples thereof (an “*Authorized Denomination*”). The Bonds will be initially issued in book-entry only form through the facilities of The Depository Trust Company, New York, New York (“*DTC*”). See “THE BONDS — *Book-Entry System*” and APPENDIX G for a description of DTC and its book-entry system.

Interest

During the Initial Interest Rate Period, the Series 2025[] Bonds will bear interest in a Term Rate Period, with the Series 2025[] Bonds of each maturity bearing interest at the fixed rates shown on the inside cover page of this Official Statement. During the Initial Interest Rate Period, interest on the Series 2025[] Bonds will be payable semiannually on [] 1 and [] 1 of each year, commencing [] 1, 20[]*. During the Initial Interest Rate Period, interest on the Series 2025[] Bonds will be computed on the basis of a 360-day year of twelve 30-day months.

After the Initial Interest Rate Period, the Outstanding Bonds may be remarketed or converted into another Term Rate Period or may be remarketed or converted to one or more of a Daily Interest Rate Period, a Weekly Interest Rate Period, a Commercial Paper Interest Rate Period or an Index Rate Period(s). ***This Official Statement describes the terms of the Bonds only during the Initial Interest Rate Period and must not be relied upon after the Bonds have been converted to another Interest Rate Period.***

Interest on any Bond which is payable, and is punctually paid or duly provided for, on any Interest Payment Date, shall be paid to the Person in whose name that Bond is registered, at the close of business on the 15th day of the Month immediately preceding the Month in which such Interest Payment Date falls (the “*Regular Record Date*”).

* Preliminary; subject to change.

Any interest on any Bond which is payable, but is not punctually paid or duly provided for on any Interest Payment Date (“*Defaulted Interest*”), shall forthwith cease to be payable to the Person who was the registered owner on the relevant Regular Record Date; and such Defaulted Interest shall be paid by CCCFA to the Persons in whose names the Bonds are registered at the close of business on a date (the “*Special Record Date*”) for the payment of such Defaulted Interest, which shall be fixed in the following manner. CCCFA shall notify the Bond Registrar in writing of the amount of Defaulted Interest proposed to be paid on each Bond and the date of the proposed payment, and at the same time CCCFA shall deposit with the Paying Agent an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to and approved in writing by the Paying Agent for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as provided in the Indenture. Thereupon the Bond Registrar will then fix a Special Record Date for the payment of such Defaulted Interest which will be not more than 15 days or less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Bond Registrar of the written notice of the proposed payment. The Bond Registrar shall promptly notify CCCFA of such Special Record Date and, in the name and at the expense of CCCFA, will cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be mailed, first class postage prepaid, to each Bondholder at its address as it appears upon the registry books, not less than 10 days prior to such Special Record Date.

Increased Interest Rate Upon Ledger Event

If a Ledger Event occurs and MSCG does not exercise its option to purchase the Funding Agreement, MSCG will be obligated to pay the Energy Supplier, and the Energy Supplier will be obligated to pay CCCFA, scheduled Ledger Event Payments calculated to provide a sum sufficient (together with the interest component of the Scheduled Debt Service Deposits) to enable CCCFA to pay additional interest on the Bonds at the Increased Interest Rate of 8% per annum. The Indenture provides that, subject to CCCFA’s receipt of such Ledger Event Payments from the Energy Supplier, interest on the Bonds will be paid at the Increased Interest Rate after the occurrence of a Ledger Event.

See “THE PREPAID ENERGY SALES AGREEMENT—Ledger Event” below for a description of the provisions of the Prepaid Energy Sales Agreement relating to a Ledger Event and the amounts payable by the Energy Supplier to CCCFA following a Ledger Event. See “THE ENERGY MANAGEMENT AGREEMENT—Ledger Event Payments” for a description of the provisions of the Energy Management Agreement relating to the amounts payable by MSCG to the Energy Supplier following a Ledger Event.

Subject to CCCFA’s receipt of the Ledger Event Payments, as described above, the Bonds will bear interest at the Increased Interest Rate during an Increased Interest Rate Period that begins on the day on which a Ledger Event occurs to but not including the earliest of (a) the date on which an Early Termination Payment Date occurs under the Prepaid Energy Sales Agreement, (b) the end of the Initial Interest Rate Period, and (c) the Interest Payment Date immediately succeeding the last day on which the Energy Supplier paid a Ledger Event Payment. Under the Prepaid Energy Sales Agreement, any Ledger Event would occur on and as of the first day of a Month.

Interest on the Bonds at the Increased Interest Rate will be payable on each regular Interest Payment Date, any redemption date and the Mandatory Purchase Date. CCCFA will give prompt notice to the Trustee of the occurrence of a Ledger Event and whether the Increased Interest Rate becomes payable on the Bonds. Interest on the Bonds at an Increased Interest Rate will be computed on the basis of a 360-day

year consisting of twelve 30-day months and will be payable in the same manner as the interest borne by the Bonds on the Initial Issue Date.

For purposes of the Indenture:

(a) any Ledger Event Payments received by CCCFA from the Energy Supplier in respect of a Ledger Event shall not constitute an item of “Revenues” and shall be deposited directly into the Debt Service Account; and

(b) the Scheduled Debt Service Deposits required by the Indenture shall be computed on the basis of the interest rates borne by the Bonds on the Initial Issue Date and shall not be re-computed in the event that the Bonds bear interest at an Increased Interest Rate.

Tender

Mandatory Tender. The Bonds maturing on [_____] 1, 20[___]* are required to be tendered for purchase on [_____] 1, 20[___]* (the “*Mandatory Purchase Date*”), which is the day following the end of the Initial Interest Rate Period. The Purchase Price of the Bonds on the Mandatory Purchase Date is equal to 100% of the principal amount thereof and is payable in immediately available funds *first* from amounts on deposit in the Remarketing Proceeds Account established by the Indenture and *second* from amounts on deposit in the Issuer Purchase Account established by the Indenture. Accrued interest due on any Bonds to be purchased on the Mandatory Purchase Date, which is an Interest Payment Date, shall be paid from amounts on deposit in the Debt Service Account.

The Purchase Price of any Bond on the Mandatory Purchase Date shall be payable only upon surrender of such Bond to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner’s duly-authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange at or prior to 10:00 a.m., New York City time, on the date specified for such delivery in a notice provided to the Owners by the Trustee, such notice to be given no less than 30 days prior to the applicable Mandatory Purchase Date. In the event that any Owner of a Bond so subject to mandatory tender for purchase shall not surrender such Bond to the Trustee for purchase on the Mandatory Purchase Date, then such Bond shall be deemed to be an Undelivered Bond, and no interest shall accrue thereon on and after the Mandatory Purchase Date, and the Owner thereof shall have no rights under the Indenture other than to receive payment of the Purchase Price thereof.

Failed Remarketing. Under the Indenture, a “*Failed Remarketing*” means, (a) with respect to the Bonds on any Mandatory Purchase Date, a failure to either (i) pay the Purchase Price of the Bonds required to be purchased on such date or (ii) redeem such Bonds in whole on such date (including from any funds required from an Assignment Payment to the Assignment Payment Fund), or (b) with respect to the Bonds (i) if, on the last day of the current Reset Period prior to a Mandatory Purchase Date, CCCFA has not entered into a bond purchase agreement, firm remarketing agreement or similar agreement with respect to the remarketing or refunding of the Bonds, or (ii) if the conditions of (b)(i) above are satisfied, but the Purchase Price of the Bonds required to be purchased on the Mandatory Purchase Date is not delivered to the Trustee by 12:00 noon, New York City time, on the fifth Business Day preceding such Mandatory

* Preliminary; subject to change.

Purchase Date. A Failed Remarketing will result in an Early Termination Payment Date under the Prepaid Energy Sales Agreement and the extraordinary redemption of the Bonds on the Mandatory Purchase Date.

No Optional Tender. The Bonds are **not** subject to optional tender by Bondholders during the Initial Interest Rate Period.

*Redemption**

Optional Redemption of Series 2025[] Bonds. The Series 2025[] Bonds are subject to redemption at the option of CCCFA in whole or in part (in such amounts and by such maturities as may be specified by CCCFA and by lot within a maturity) on any date prior to [] 1, 20[]* at a Redemption Price, calculated by a quotation agent selected by CCCFA, equal to the greater of:

(a) the sum of the present values of the remaining unpaid payments of principal and interest to be paid on the Series 2025[] Bonds to be redeemed from and including the date of redemption (not including any portion of the interest accrued and unpaid as of the redemption date) to the earlier of the stated maturity date of such Series 2025[] Bond or the Mandatory Purchase Date, discounted to the date of redemption on a semiannual basis at a discount rate equal to the Applicable Tax-Exempt Municipal Bond Rate (defined below) for such Series 2025[] Bonds minus 0.25% per annum, provided, however, that if the Applicable Tax-Exempt Municipal Bond Rate results in a discount rate less than zero percent, such discount shall be 0.00% in any event, and

(b) the Amortized Value (defined below) thereof;

in each case plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest Rate, whichever is then in effect.

The Series 2025[] Bonds maturing on the Mandatory Purchase Date are subject to redemption at the option of CCCFA in whole or in part (in such amounts and by such maturities as may be specified by CCCFA and by lot within a maturity) on any date on or after [] 1, 20[]* at a Redemption Price equal to the Amortized Value thereof as of the date of redemption, plus \$[] per \$1,000 of the principal amount thereof plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest Rate, whichever is then in effect; provided that, if the optional redemption date is the Mandatory Purchase Date, the Redemption Price will be 100% of the principal amount of the Bonds to be redeemed plus accrued and unpaid interest to the date of redemption.

The Series 2025[] Bonds maturing after the Mandatory Purchase Date are subject to redemption at the option of CCCFA in whole or in part (in such amounts and by such maturities as may be specified by CCCFA and by lot within a maturity) on any date on or after [] 1, 20[]* at a Redemption Price equal to the Amortized Value thereof as of the date of redemption, plus \$[] per \$1,000 of the principal amount thereof plus accrued and unpaid interest to the date of redemption at the initial interest rates on the Series 2025[] Bonds or the Increased Interest Rate, whichever is then in effect; provided that, if the

*. Preliminary; subject to change.

optional redemption date is the Mandatory Purchase Date, the redemption price will be 100% of the principal amount of the Bonds to be redeemed plus accrued and unpaid interest to the date of redemption.

In lieu of redeeming Series 2025[] Bonds pursuant to the Indenture, the Trustee may, upon the Written Direction of CCCFA, use such funds as may be available by CCCFA or as are otherwise available under the Indenture to purchase such Series 2025[] Bonds on the applicable redemption date at a Purchase Price equal to the applicable Redemption Price of such Series 2025[] Bonds. Any Series 2025[] Bonds so purchased may be remarketed in a new Interest Rate Period or may be cancelled by the Trustee, in either case as set forth in the Written Direction of the Issuer.

The “*Applicable Tax-Exempt Municipal Bond Rate*” means, for the Bonds of any maturity, the “Comparable AAA General Obligations” yield curve rate for the year of such maturity or Mandatory Purchase Date, as applicable, as published by Refinitiv Global Markets, Inc. at least one Business Day and not more than 15 Business Days prior to the date that notice of redemption is required to be given pursuant to the Indenture. If no such yield curve rate is established for the applicable year, the “Comparable AAA General Obligations” yield curve rate for the two published maturities most closely corresponding to the applicable year shall be determined, and the Applicable Tax-Exempt Municipal Bond Rate will be interpolated or extrapolated from those yield curve rates on a straight-line basis. This rate is made available daily by Refinitiv Global Markets, Inc. and is available to its subscribers through the internet address: www.tm3.com. In calculating the Applicable Tax-Exempt Municipal Bond Rate, should Refinitiv Global Markets, Inc. no longer publish the “Comparable AAA General Obligations” yield curve rate, then the Applicable Tax-Exempt Municipal Bond Rate shall equal the Consensus Scale yield curve rate for the applicable year. The Consensus Scale yield curve rate is made available daily by Municipal Market Analytics and is available to its subscribers through its internet address: www.mma-research.com. In the further event Municipal Market Analytics no longer publishes the Consensus Scale, the Applicable Tax-Exempt Municipal Bond Rate shall be determined by a major market maker in municipal securities, as the quotation agent, based upon the rate per annum equal to the annual yield to maturity, calculated using semi-annual compounding, of those tax-exempt general obligation bonds rated in the highest Rating Category by Moody’s and S&P with a maturity date equal to the stated maturity date or Mandatory Purchase Date, as applicable, of such Bonds having characteristics (other than the ratings) most comparable to those of such Bonds in the judgment of the quotation agent. The quotation agent’s determination of the Applicable Tax-Exempt Municipal Bond Rate shall be final and binding on all parties in the absence of manifest error and may be conclusively relied upon in good faith by the Trustee.

“*Amortized Value*” means, with respect to any Bond to be redeemed during the Initial Interest Rate Period, the principal amount of such Bond multiplied by the price of such Bond expressed as a percentage, calculated by a major market maker in municipal securities, as the quotation agent, selected by CCCFA, based on the industry standard method of calculating bond prices (as such industry standard prevailed on the date such Bond began to bear interest at its current Term Rate), with a delivery date equal to the date of redemption of such Bond, a maturity date equal to the earlier of (a) the stated maturity date of such Bond or (b) the Term Rate Tender Date of such Bond and a yield equal to such Bond’s original reoffering yield (as set forth on the inside cover page of this Official Statement on the date such Bond began to bear interest at its current Term Rate). The Amortized Value of the Bonds as of certain dates during the Initial Interest Rate Period is shown on APPENDIX H.

Extraordinary Mandatory Redemption. The Bonds shall be subject to mandatory redemption prior to maturity in whole, and not in part, on the first day of the Month following the Early Termination Payment

Date, which redemption date in the case of a Failed Remarketing will be the same day as the current Mandatory Purchase Date, at a Redemption Price equal to the Amortized Value thereof, plus accrued and unpaid interest to the redemption date at the initial interest rates on the Bonds or the Increased Interest Rate, whichever is then in effect. See APPENDIX H for a schedule showing the Redemption Price (excluding accrued interest) of the Bonds upon an extraordinary mandatory redemption following an Early Termination Payment Date that occurs during the Initial Interest Rate Period.

CCCFA shall provide the Trustee with Written Notice of the Early Termination Payment Date (x) on the date on which a Failed Remarketing occurs, and (y) in all other cases, not more than five (5) Business Days after such date is determined.

Notice of Redemption. In the case of every redemption of Bonds, the Trustee must give notice, in the name of CCCFA, of the redemption of such Bonds by first-class mail, postage prepaid, to the registered owner of each Bond being redeemed, at its address as it appears on the bond registration books of the Trustee or at such address as such owner may have filed with the Trustee in writing for that purpose, as of the Regular Record Date, not less than 15 days prior to the redemption date in the case of an extraordinary mandatory redemption described above and not less than 30 days prior to the redemption date in the case of mandatory sinking fund redemption or optional redemption of the Series 2025[] Bonds.

Each notice of redemption must identify the Bonds to be redeemed and must state (i) the redemption date, (ii) the Redemption Price or the manner in which it will be calculated, (iii) that the Bonds called for redemption must be surrendered to collect the Redemption Price, (iv) the address at which the Bonds must be surrendered, and (v) that interest on the Bonds called for redemption ceases to accrue on the redemption date. Failure of the registered owner of any Bonds which are to be redeemed to receive any such notice, or any defect in such notice, shall not affect the validity of the proceedings for the redemption of any Bonds.

In the event that the Bonds may be subject to extraordinary redemption as a result of a Failed Remarketing that could occur if the Trustee has not received the Purchase Price of the Bonds by noon New York City time on the fifth Business Day preceding a Mandatory Purchase Date, a notice of extraordinary redemption of the Bonds may be a conditional notice of redemption, delivered in each case not less than 15 days prior to such Mandatory Purchase Date, stating that: (a) such redemption shall be conditioned upon the Trustee's failure to receive, by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Purchase Price of the Bonds required to be purchased on such Mandatory Purchase Date, and (b) if the full amount of the Purchase Price has been received by the Trustee by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Bonds shall be purchased pursuant to a mandatory tender on such Mandatory Purchase Date rather than redeemed. If the full amount of the Purchase Price has been received by the Trustee by noon New York City time on the fifth Business Day preceding such Mandatory Purchase Date, the Trustee shall withdraw such conditional notice of redemption prior to such Mandatory Purchase Date and the Bonds shall be purchased pursuant to the provisions of the Indenture relating to mandatory tender on such Mandatory Purchase Date rather than redeemed.

With respect to any notice of optional redemption of Bonds, unless upon the giving of such notice such Bonds will be deemed to have been paid under the Indenture, such notice must state that such redemption will be conditioned upon the receipt by the Trustee on or prior to the date fixed for such redemption of money sufficient to pay the Redemption Price of and interest on the Bonds to be redeemed, and that if such money shall not have been so received said notice will be of no force and effect, and CCCFA will not be required to redeem such Bonds. In the event that such notice of redemption contains such a

condition and such money is not so received, the redemption will not be made and the Trustee must within a reasonable time thereafter give notice, in the manner in which the notice of redemption was given, that such money was not so received and that such redemption was not made.

Effect of Redemption. Notice having been given in the manner provided in the Indenture and, in the case of optional redemption of Bonds, sufficient moneys for payment of the Redemption Price of, together with interest accrued to the redemption date on such Bonds being held by the Trustee, the Bonds or portions thereof so called for redemption will become due and payable on the redemption date so designated at the applicable Redemption Price, and, upon presentation and surrender thereof at the office specified in such notice, such Bonds, or portions thereof, will be paid at the Redemption Price. If there shall be drawn for redemption less than all of a Bond, CCCFA must execute and the Trustee must authenticate and the Paying Agent must deliver, upon the surrender of such Bond, without charge to the owner thereof, for the unredeemed balance of the principal amount of the Bonds so surrendered, Bonds of like Series, maturity and tenor in any of the Authorized Denominations. If, on the redemption date, moneys for the redemption of all the Bonds or portions thereof of any like maturity to be redeemed, together with interest to the redemption date, shall be held by the Paying Agents so as to be available therefor on said date and if notice of redemption shall have been given as aforesaid, then, from and after the redemption date interest on the Bonds or portions thereof of so called for redemption shall cease to accrue and become payable.

If said moneys shall not be so available on the redemption date, such Bonds or portions thereof shall continue to bear interest until paid at the same rate as they would have borne had they not been called for redemption. Upon the payment of the Redemption Price of the Bonds or portions thereof being redeemed, each check or other transfer of funds issued for such purpose shall bear the CUSIP number identifying, by maturity, the Bonds being redeemed with the proceeds of such check or other transfer.

Selection of Bonds to be Redeemed. If less than all of the Bonds of like series, tenor and maturity are called for redemption, the particular Bonds or portions of Bonds of such series, tenor and maturity to be redeemed must be selected by lot in such manner as the Trustee shall determine, in its sole discretion, from Bonds of such series, tenor and maturity not previously called for redemption; *provided, however*, that the portion of any Bond of a denomination of more than a minimum Authorized Denomination to be redeemed shall be in the principal amount of such minimum Authorized Denomination or a multiple thereof, and that, in selecting portions of such Bonds for redemption, the Trustee shall treat each such Bond as representing that number of Bonds of a minimum Authorized Denomination which is obtained by dividing by such minimum Authorized Denomination the principal amount of such Bond to be redeemed in part.

Book-Entry System

The Bonds will be initially issued in book-entry only form through the facilities of DTC. The Bonds will be transferable and exchangeable as set forth in the Indenture and, when issued, will be registered in the name of Cede & Co., as nominee of DTC. DTC will act as securities depository for the Bonds. So long as Cede & Co. is the registered owner of the Bonds, principal of and premium, if any, and interest on the Bonds are payable by wire transfer by the Trustee to Cede & Co., as nominee for DTC, which, in turn, will remit such amounts to DTC participants for subsequent disbursement to the Beneficial Owners. See APPENDIX G — “BOOK-ENTRY SYSTEM”.

DEBT SERVICE REQUIREMENTS

Set forth in the following table are the Debt Service requirements on the Bonds in each bond year during the Initial Interest Rate Period, excluding the purchase price of the Bonds that mature on [] 1, 20[]* that is payable on the Mandatory Purchase Date ([] 1, 20[]*)¹.

THE PREPAID ENERGY SALES AGREEMENT

Purchase and Sale

Under the Prepaid Energy Sales Agreement, the Energy Supplier agrees to deliver an Annual Quantity of EPS Compliant Energy in each Contract Year, to be delivered on a monthly basis, set forth in the Prepaid Energy Sales Agreement (the “*Prepaid Energy*”) during the Delivery Period and CCCFA has agreed to make a lump sum advance payment to the Energy Supplier for all of the cost of the Prepaid Energy to be delivered during the Delivery Period. The total quantity of expected Prepaid Energy to be delivered by the Energy Supplier during the Initial Reset Period is approximately [] million* MWh and is subject to change as described below under the heading “*Aggregate Quantity*”.

For discussion of the Contract Price, see “THE POWER SUPPLY CONTRACT — *Pricing Provisions*”.

Delivery of Prepaid Energy

Assigned Energy. Assigned Energy delivered under the Prepaid Energy Sales Agreement shall be Scheduled at the delivery point specified in the applicable Assignment Agreement (an “*Assigned Delivery Point*”). Scheduling and transmission of Assigned Energy shall be in accordance with the applicable Assignment Agreement. At the start of the Delivery Period, the Project Participant is expected to assign the initially Assigned PPA, as described under “– *Assignment of Power Purchase Agreements*” below, for delivery of the quantity of Assigned Energy equal to the quantity of Prepaid Energy required to be delivered by the Energy Supplier during the term of such assignments.

Base Energy. If the Assigned Energy for any measurement period during the term of the Prepaid Energy Sales Agreement is less than the quantity of Prepaid Energy required to be delivered during such period, the Energy Supplier is required to deliver Base Energy for remarketing under the terms of the

* Preliminary; subject to change.

Prepaid Energy Sales Agreement. Base Energy is not expected to be delivered during the Initial Reset Period.

Title. Title to and risk of loss of the Energy delivered under the Prepaid Energy Sales Agreement shall pass from the Energy Supplier to CCCFA at the applicable Delivery Point. The transfer of title and risk of loss for all Assigned Energy shall be set forth in the applicable Assignment Agreement; provided that all Assignment Agreements shall provide for the transfer of Renewable Energy Credits in accordance with the Western Renewable Energy Generation Information System or its successor.

Aggregate Quantity. The aggregate quantity of Energy to be delivered during the term of the Delivery Period varies based on the quantities of Prepaid Energy CCCFA has agreed to deliver to the Project Participant under the Power Supply Contract. The aggregate average quantity of Monthly Projected Quantities under the Prepaid Energy Sales Agreement during the Initial Reset Period is approximately [] MWh.

Assignment of Power Purchase Agreements

The Project Participant has assigned its Initial Assigned Rights and Obligations to the Energy Supplier. The Assigned Energy during the Initial EPS Energy Period will be delivered from a portfolio of carbon free resources. The initially Assigned PPA allows for MSCG to add additional carbon free resources, upon written notice to the Project Participant in order to meet the guaranteed minimum delivery obligations thereunder.

Upon any EPS Energy Period terminating or expiring, or any subsequent Assignment Agreement being entered into, the Prepaid Energy Sales Agreement and the Power Supply Contract include provisions to recalculate Assigned Quantities and quantities of Base Energy. As such, upon a replacement of the Assigned Rights and Obligations under an Assigned PPA, the quantities of Base Energy will be reduced as provided in the Prepaid Energy Sales Agreement. Quantities of Base Energy may also be revised to reflect any Replacement Assigned Rights and Obligations.

Failure to Deliver or Receive Energy

Assigned Quantities. Neither CCCFA nor the Energy Supplier shall have any liability or other obligation to one another for any failure to Schedule, receive, or deliver Assigned Quantities, except as described under the following subheading “— *Provisional Payments and Energy Remarketing.*”

Base Energy. As Base Energy does not qualify as EPS Compliant Energy, CCCFA will have no obligation to take Base Quantities under the Prepaid Energy Sales Agreement. However, because CCCFA will have prepaid for all Energy to be delivered under the Prepaid Energy Sales Agreement, any Base Energy that is required to be delivered will be remarketed as described under the heading “*Provisional Payments and Energy Remarketing – Base Quantities.*”

See “THE POWER SUPPLY CONTRACT — *Pricing Provisions*”. **Base Energy is not expected to be delivered during the Initial Reset Period.**

Provisional Payments and Energy Remarketing

Assigned Quantities. In the event (a) the Annual Quantity has not been delivered for the then current Contract Year as of the end of a month, and (b) Assigned Quantities equivalent to the Monthly Projected Quantities for any month are not delivered under an Assigned PPA, the Energy Supplier will be obligated to make a payment to CCCFA equal to the quantity of Assigned Energy not delivered multiplied by the Day-Ahead Average Price, minus any applicable (as described below) Provisional Payment Fee (any such payment, a “Provisional Payment”). To the extent that the Energy Supplier makes one or more Provisional Payments to CCCFA in any Contract Year and the Annual Quantity is not delivered in full within such Contract Year, the Energy Supplier will be deemed to have remarketed such undelivered Assigned Quantities (other than any portion thereof that was not delivered due to Force Majeure) and to have purchased such Assigned Quantities for its own account (at a price equal to the weighted average price of such Provisional Payments), and such purchase will constitute a private-business use sale; provided no remarketing shall occur with respect to any Provisional Payment required to be made for Assigned Quantities not delivered due to Force Majeure. In such case, the Project Participant shall be obligated to use Commercially Reasonable Efforts to remediate the proceeds of such sales with other qualifying purchases of Energy. To the extent the Project Participant has not remediated the proceeds of any such sale within twelve months of the first day of the Month prior to the Month in which CCCFA or the Project Participant receives the proceeds of such remarketing sale, the Energy Supplier is required to use Commercially Reasonable Efforts to remediate such proceeds through Qualifying Sales to the Project Participant or any Municipal Utilities (as defined in Appendix B).

To the extent that both (i) less than 95% of the Monthly Projected Quantities in aggregate under an Assigned PPA are delivered in a Contract Year and (ii) less than 95% of the Monthly Projected Quantities under the same Assigned PPA are delivered in the four consecutive Months preceding the end of such Contract Year (provided that, for the purpose of clauses (i) and (ii), any Monthly Projected Quantities not delivered due to Force Majeure shall be disregarded), the Provisional Payment Fee shall be applicable to Provisional Payments for Assigned Products under such Assigned PPA commencing with Energy Supplier’s Provisional Payment for the last Month of such Contract Year and such Provisional Payment Fee shall continue to apply with respect to such Assigned PPA until such Assigned PPA has delivered 95% or more of the Monthly Projected Quantities for such Assigned PPA for three consecutive Months. In addition, to the extent that none of the Monthly Projected Quantities are actually delivered under an Assigned PPA for six consecutive Months due to Force Majeure, then (i) an “Assigned PPA FM Provisional Payment Event” shall be in effect until such Assigned PPA has delivered 95% or more of the Monthly Projected Quantities for such Assigned PPA for three consecutive Months and (ii) the Provisional Payment Fee shall be applicable to Provisional Payments for Assigned Products under such Assigned PPA commencing with Seller’s Provisional Payment for the sixth consecutive Month of non-deliveries until such Assigned PPA FM Provisional Payment Event is no longer in effect.

Base Quantities. In the event of any expiration or termination of an Assigned PPA, the Project Participant is required to use Commercially Reasonable Efforts to enter into a new limited assignment agreement relating to one or more additional PPAs, providing for the assignment of its rights to delivery of quantities of EPS Compliant Energy equivalent to the Prepaid Quantities for the term of such assignment. If (i) the Project Participant exercises Commercially Reasonable Efforts to enter into a limited assignment agreement for the redelivery of EPS Compliant Energy under its Power Supply Contract and (ii) the Project Participant is not in default under its Power Supply Contract, then:

- the Energy Supplier shall be obligated to remarket Base Energy and purchase such Base Energy for its own account at the applicable index price;
- the Project Participant shall be obligated to use Commercially Reasonable Efforts to remediate the proceeds of such sales with other qualifying purchases of energy; and
- to the extent the Project Participant has not remediated the proceeds of such sales within twelve months, the Energy Supplier is required to use Commercially Reasonable Efforts to remediate such proceeds through Qualifying Sales to the Project Participant or other Municipal Utilities.

To the extent that the Project Participant (i) has not exercised commercially reasonable efforts to enter into a limited assignment agreement for the redelivery of EPS Compliant Energy under its Power Supply Contract, (ii) is otherwise in default under its Power Supply Contract or (iii) does not require or is unable to receive all or a portion of the Prepaid Quantities under its Power Supply Contract as a result of decreased Energy requirements, decreased demand by its retail customers or EPS Compliant Energy not being available for delivery under the Prepaid Energy Sales Agreement, then:

- the Energy Supplier is required to use Commercially Reasonable Efforts to remarket equivalent quantities of Base Energy first to Municipal Utilities for a Qualifying Use, and if unable to remarket all or any portion of such quantities for a Qualifying Use at a net price not less than the applicable index price, to sell such remaining quantities in a non-private business sale; and
- to the extent the Energy Supplier cannot remarket such quantities to Municipal Utilities for a Qualifying Use, it is required to purchase such quantities for its own account.

The Energy Supplier shall pay to CCCFA the proceeds of any sales to Municipal Utilities or non-private business sales (net of a remarketing fee), and to the extent the Energy Supplier purchases quantities for its own account the Energy Supplier shall pay CCCFA an amount based on the applicable index price for such quantities; provided any such amounts payable by the Energy Supplier shall not be less than the Contract Price.

Financial Responsibility

If (a) the Energy Supplier or MSCG has entered into an Assignment Agreement that does not include a Receivables setoff provision substantially in the form prescribed in the Receivables Purchase Provisions (permitting the Energy Supplier to apply the face amount of Receivables relating to Assigned Product purchased by MSCG pursuant to the Assigned Rights and Obligations to reduce any Delivered Product Payment Amount) or (b) reasonable grounds arise for insecurity of payments due under the Power Supply Contract, the Energy Supplier may request that the CCCFA exercise its rights under the Power Supply Contract to demand adequate assurance, and CCCFA shall promptly exercise such rights if commercially reasonable.

In the event of a dispute or if the Project Participant fails to provide adequate assurance when requested, the Energy Supplier may suspend deliveries to CCCFA and remarket the Contract Quantity under the Prepaid Agreement until the demand is satisfied and the term of deliveries to any replacement customer (to which such Energy has been remarketed) is completed. Reasonable grounds include but are not limited

to the occurrence of an insolvency or liquidation proceeding with respect to the Project Participant or the downgrading of the Project Participant's credit rating below investment grade (in accordance with the applicable rating scale of the rating agency), or such facts and circumstances which would constitute reasonable grounds for insecurity under applicable Law.

Payment After Delivery of Annual Quantity

After the Annual Quantity has been delivered for any Contract Year, the Energy Supplier shall pay CCCFA the Day-Ahead Average Price with respect to any remaining Monthly Projected Quantities for any such Contract Year.

Ledger Event

Except as described under the heading "Provisional Payments and Energy Remarketing" above, the Energy Supplier is required to use Commercially Reasonable Efforts to remarket Base Energy first in Qualifying Sales and next in non-private business sales. If the Energy Supplier is unable to remarket Base Energy required to be remarketed under the Prepaid Energy Sales Agreement in Qualifying Sales or in non-private business sales, it must purchase such Base Energy for its own account. To the extent the Energy Supplier purchases such electricity, CCCFA will exercise commercially reasonable efforts to use the proceeds of such remarketing to purchase Energy (other than Priority Energy, as described below) for resale in qualified sales.

If after two years there are remaining remarketing proceeds from sales to purchasers other than Municipal Utilities or other qualified users, such balance will count against either a limit equivalent to a quantity of Energy, in MWh, equal to \$15 million divided by a specified fixed price per MWh under the Prepaid Energy Sales Agreement (or such higher limit determined in a Favorable Opinion of Bond Counsel) or a limit of 10% of the original quantity of Energy purchased under the Prepaid Energy Sales Agreement (or such higher limit determined in a favorable opinion of Bond Counsel), depending on the status of the purchaser at the time the proceeds are received by CCCFA. Both limits apply in the aggregate over the term of the Prepaid Energy Sales Agreement. Once either limit has been exceeded, a Ledger Event will be deemed to have occurred.

The occurrence of a Ledger Event could cause interest on the Bonds to become subject to federal income taxation, possibly retroactive to the Initial Issue Date of the Bonds. A Ledger Event results in an Energy Delivery Termination Date under the Prepaid Energy Sales Agreement. A Ledger Event does not, by itself, result in an Early Termination Payment Date under the Prepaid Energy Sales Agreement, however upon the occurrence of a Ledger Event MSCG will have the option to purchase the Funding Agreement from the Energy Supplier, which will result in an Early Termination Payment Date and mandatory redemption of the Bonds. See "Investment Considerations – *Loss of Tax Exemption on the Bonds*" herein.

Payment Provisions

The prepayment from CCCFA to the Energy Supplier will be due prior to the inception of the term of the Prepaid Energy Sales Agreement. To the extent any other amount becomes due to the Energy Supplier or CCCFA thereunder (for example, as a result of remarketing or failure to deliver by the Energy Supplier), such amount will be due to the other party on or before the later of (x) the 25th or 22nd day, respectively, of the month following the month in which such amount accrues or (y) the 10th day following

the relevant party's receipt of a billing statement (or if either such day is not a Business Day, the preceding Business Day).

Force Majeure

Each of CCCFA and the Energy Supplier are excused from their respective obligations to receive and deliver Energy under the Prepaid Energy Sales Agreement to the extent prevented by Force Majeure (as defined in APPENDIX B). The Energy Supplier is required to pay to CCCFA the applicable index price with respect to any Base Energy not delivered due to Force Majeure.

Assignment

Neither party may assign its rights under the Prepaid Energy Sales Agreement without the other party's prior written consent except:

(a) pursuant to the Indenture, CCCFA may transfer, sell, pledge, encumber or assign the Prepaid Energy Sales Agreement to the Trustee in connection with a financing arrangement; *provided* that CCCFA may not assign its rights under the Prepaid Energy Sales Agreement unless, contemporaneously with the effectiveness of such assignment, CCCFA also assigns the CCCFA Commodity Swap and CCCFA Custodial Agreement to the same assignee; and

(b) the Energy Supplier may assign the Prepaid Energy Sales Agreement to an affiliate, which assignment shall constitute a novation; provided that (i) the Energy Supplier delivers a Rating Confirmation with respect to such assignment, (ii) contemporaneously with the effectiveness of such assignment, the Energy Supplier also assigns the Energy Supplier Commodity Swap, the Energy Supplier Custodial Agreement and the Master Custodial Agreement to the same assignee and either (A) the Energy Supplier assigns the Funding Agreement and the Energy Management Agreement to the same assignee or (B) the assignee provides a guarantee of its obligations by Morgan Stanley, and (iii) the assignee is a special purpose entity approved by CCCFA or its obligations under the Prepaid Energy Sales Agreement are guaranteed or otherwise supported by the Funding Recipient to the satisfaction of CCCFA.

If either (a) the Energy Supplier notifies CCCFA that the Funding Agreement will not be replaced, re-financed or re-priced as of the end of any Interest Rate Period for the Bonds, (b) the Energy Supplier is unable to provide under the Re-Pricing Agreement an estimated Available Discount for any Reset Period that is equal to or greater than the applicable minimum discount under the Power Supply Contract, or (c) both (i) the Energy Supplier has agreed under the Re-Pricing Agreement to provide an Available Discount equal to or greater than the applicable minimum discount but for a Reset Period shorter than the entire remaining term to maturity of the Prepaid Energy Sales Agreement and (ii) CCCFA has identified a potential assignee that has agreed to provide an Available Discount equal to or greater than the applicable minimum discount for a Reset Period equal to the entire remaining term to maturity of the Prepaid Energy Sales Agreement, then, at the request of CCCFA, the Energy Supplier will reasonably cooperate with CCCFA to cause the Energy Supplier's (or the Energy Supplier's affiliate's) right, title and interest in the Prepaid Energy Sales Agreement, the Re-Pricing Agreement, the Energy Supplier Commodity Swap, the Energy Supplier Custodial Agreement and any Debt Service Account Investment Agreement with a term that extends past the then-current Interest Rate Period to which the Energy Supplier or any of its affiliates is a party and all agreements related to any of the foregoing (collectively, the "Transaction Documents") to

be novated to a replacement seller. The Prepaid Energy Sales Agreement and the Indenture impose certain requirements, including delivery of a Rating Confirmation, for any such novation.

Termination

Acceleration Event. Following the occurrence of an Acceleration Event, the Energy Supplier is required to pay the Termination Payment on the Early Termination Payment Date. An Acceleration Event will occur the Prepaid Energy Sales Agreement under the following circumstances each an “*Acceleration Event*”):

- the Funding Agreement is accelerated pursuant to the provisions of the Funding Agreement due to an Event of Default thereunder;
- the Energy Supplier is unable to replace, refinance or re-price the Funding Agreement for any Reset Period by the date that is one week prior to the beginning of the first Month following a Reset Period;
- the Project Participant makes a Remarketing Election under the Power Supply Contract for any Reset Period (a “*PSC Remarketing Event*”), and MSCG exercises its option to designate an EMA Early Termination Date under the Energy Management Agreement;
- MSCG purchases the Funding Agreement from the Energy Supplier pursuant to the Energy Management Agreement following the occurrence of a Ledger Event; or
- a Failed Remarketing occurs.

Energy Delivery Termination Events. An Energy Delivery Termination Date will occur automatically under the Prepaid Energy Sales Agreement upon the occurrence of an Acceleration Event or an Energy Delivery Termination Event. If an Energy Delivery Termination Date occurs, the Delivery Period under the Prepaid Energy Sales Agreement will end and the Energy Supplier will be required to make the payment or payments. An Energy Delivery Termination Date will occur under the following circumstances (each, an “*Energy Delivery Termination Event*”):

- the occurrence of a Ledger Event;
- both (a) an EMA Early Termination Date occurs under the Energy Management Agreement and (b) the Energy Supplier is unable to enter into a replacement Energy Management Agreement by the date that is 120 days following such early termination date;
- both (a) an early termination date is designated under the CCCFA Commodity Swap for any reason or occurs automatically pursuant to the terms of the CCCFA Commodity Swap based on an event of default or a termination event thereunder and (b) either the Energy Supplier Commodity Swap or the CCCFA Commodity Swap is not replaced within the Swap Replacement Period; or
- both (a) an early termination date is designated (or occurs automatically) under the Energy Supplier Commodity Swap for any reason and (b) either the Energy Supplier Commodity

Swap or the CCCFA Commodity Swap is not replaced within the Swap Replacement Period.

Termination Payment

Following an Acceleration Event, the Energy Supplier is required to pay the Termination Payment to the Trustee on the Early Termination Payment Date. Except in the case of a Failed Remarketing, the “Early Termination Payment Date” is the last Business Day of the Month that commences after an Acceleration Event occurs. In the case of an Acceleration Event that results from a Failed Remarketing, the Early Termination Payment Date will be the last Business Day of the current Interest Rate Period. The obligation of the Energy Supplier to pay the Termination Payment on the Early Termination Payment Date is unconditional, and the Energy Supplier waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available with regard to its obligation to pay the Termination Payment on the Early Termination Payment Date.

The amount of the Termination Payment is set forth on an exhibit to the Prepaid Energy Sales Agreement. The Termination Payment schedule generally corresponds to the amount payable by the Funding Recipient upon the maturity or prior redemption or acceleration of the Funding Agreement, or the price MSCG would pay to purchase the Funding Agreement from the Energy Supplier. The Termination Payment payable by the Energy Supplier, together with the amounts required to be on deposit in certain Funds and Accounts held by the Trustee, has been calculated to provide a sum at least sufficient to pay the Redemption Price of the Bonds, assuming that the Funding Recipient and the Energy Supplier pay and perform their respective obligations under the Funding Agreement, the Prepaid Energy Sales Agreement and the Energy Management Agreement when due.

Receivables Purchase Provisions

General. Pursuant to the Receivables Purchase Provisions of the Prepaid Energy Sales Agreement, the Energy Supplier has agreed to purchase from CCCFA the rights to payment of net amounts owed by the Project Participant under the Power Supply Contract (the “*Put Receivables*”). CCCFA is required to sell and the Energy Supplier is required to purchase Put Receivables under the circumstances described below under “*Put Receivables*.”

Put Receivables. Upon a payment default by the Project Participant under the Power Supply Contract, CCCFA shall put to the Energy Supplier and the Energy Supplier shall purchase Put Receivables with a face value equal to the amount of the non-payment by the Project Participant. CCCFA shall exercise its put option by delivering notice (the “*Put Option Notice*”) to the Energy Supplier on the Business Day following the date on which the relevant payment default occurs. The Put Option Notice shall include a description of the Put Receivables (including the relevant Project Participant, aging information and face amount of the Put Receivables) to be sold to the Energy Supplier (collectively, the “*Put Identified Receivables*”).

Receivables Purchase by MSCG. Under the Energy Management Agreement, MSCG has agreed to accept as payment from the Energy Supplier any Put Receivables purchased by the Energy Supplier under the Receivables Purchase Provisions. See “The Energy Management Agreement.”

THE RE-PRICING AGREEMENT

General

CCCFA and the Energy Supplier will enter into the Re-Pricing Agreement which provides for the determination of Reset Periods subsequent to the Initial Reset Period to correspond to the related Interest Rate Periods on the Bonds. The Initial Reset Period under the Prepaid Energy Sales Agreement and the Power Supply Contract begins on [_____] 1, 20[___] and ends on the last day of [_____] 20[___]*. The Initial Reset Period under the Prepaid Energy Sales Agreement ends one month before the end of the Initial Interest Rate Period, and each subsequent Reset Period will end one month before the end of the corresponding Interest Rate Period.

The debt service requirements on the Bonds for each Reset Period will not be known until the interest rate on the Bonds has been determined for such Reset Period. The Power Supply Contract includes provisions for the adjustment of the Energy sales price for each Reset Period so as to provide Revenues sufficient to enable CCCFA to meet the debt service requirements on the Bonds during each Reset Period. Accordingly, the Re-Pricing Agreement further provides for the calculation of the amount of the Available Discount (in cents per MWh) for sales of Energy to the Project Participant under the Power Supply Contract during each Reset Period.

In the event that the Available Discount for any Reset Period is less than the Minimum Discount specified in the Power Supply Contract (which includes both monthly discounts and any annual refunds), the Project Participant may elect not to take its Contract Quantities of Energy during the Reset Period, and to have such Energy remarketed for the duration of the Reset Period (a “*Remarketing Election*”) by giving notice of such election to CCCFA, the Energy Supplier and the Trustee. Any Energy that is covered by a Remarketing Election will be remarketed in accordance with the provisions of the Indenture and the Prepaid Energy Sales Agreement. In the event that the Project Participant makes a PSC Remarketing Election, MSCG will have the option to terminate the Energy Management Agreement. If MSCG exercises this option, an Acceleration Event and an Early Payment Termination Date will occur under the Prepaid Energy Sales Agreement. See “THE PREPAID ENERGY SALES AGREEMENT—*Energy Remarketing*” and “—*Termination*”.

Replacement of Funding Agreement

The Re-Pricing Agreement includes provisions that enable the Energy Supplier to obtain proposals from the Funding Recipient and other qualified funding providers for funding agreements to replace the Funding Agreement upon its maturity (which coincides with the end of the Initial Interest Rate Period). CCCFA agrees to cooperate in good faith with the Energy Supplier and to take all steps reasonably within its control to cause the Bonds to be remarketed or refunded for the Interest Rate Period that corresponds to each Reset Period.

THE FUNDING AGREEMENT

Set forth below is a summary of certain provisions of the Funding Agreement. This summary does not purport to be a complete description of the terms and conditions of the Funding Agreement and accordingly is qualified by reference to the full text thereof.

* Preliminary; subject to change.

General

In connection with the Energy Project, the Energy Supplier will purchase that certain [____], dated [____], 2025 (the “*Funding Agreement*”) from [____]. [The Energy Supplier and [____] will enter into a Funding Agreement Purchase Agreement, dated the sale date of the Bonds, that includes the form of the Funding Agreement as an annex thereto.]

The Funding Provider is a [____] organized under the laws of [____].

So long as there are any obligations outstanding under the Funding Agreement, [____] agrees that it will make publicly available [____].

Funding Account

On the Initial Issue Date of the Bonds (referred to in this Section as the “*Funding Date*”), the Energy Supplier will pay to [____] proceeds from the prepayment it receives from CCCFA under the Prepaid Agreement (the “*Deposit Amount*”). Upon its receipt of the Deposit Amount, [____] will establish under the Funding Agreement and maintain on its books a funding account (the “*Funding Account*”), and will record the amounts held under the Funding Agreement in accordance with the terms and conditions of the Funding Agreement. The Funding Account will be a bookkeeping account and not a separate account. [____] is neither a trustee nor a fiduciary with respect to the Funding Account.

The balance in the Funding Account at the end of any day will be equal to:

- (1) the initial Deposit Amount, plus any additional Deposit Amount(s) made to the Funding Account; *less*
- (2) any withdrawals made by the Energy Supplier as specified in the Term Sheet or in accordance with the Funding Agreement; *plus*
- (3) any accrued and unpaid interest on the balance in the Funding Account.

Interest will accrue on the sum of the aggregate amounts calculated in accordance with (1) and (2) set forth above at the fixed rate specified in the Funding Agreement. Such interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

All funds received by [____] under the Funding Agreement shall become the exclusive property of [____] and remain a part of its general account without any duty or requirement of segregation or separate investment. [____] shall have the sole right to control, manage and administer all funds deposited in or credited to the Funding Account, and may commingle the funds in its possession pursuant to the Funding Agreement with its other funds.

Payments; No Set-Off

[____] will pay to or at the direction of the Energy Supplier the amounts specified in the Funding Agreement (the “*Scheduled Withdrawals*”) on the dates specified in the Funding Agreement (the “*Scheduled Withdrawal Dates*”). The Scheduled Withdrawals consist of (a) monthly amortization payments set forth on a schedule attached to the Funding Agreement and (b) a final payment equal to the

entire amount then remaining in the Funding Account. The final Scheduled Withdrawal is payable on (i) the maturity date of the Funding Agreement, which is the Business Day preceding the Mandatory Purchase Date of the Bonds (the “Maturity Date”) or (ii) any earlier termination date of the Funding Agreement.

[] waives all rights to set-off, counterclaim, recoupment and any other defenses that might otherwise be available to it with regard to its obligations pursuant to the Funding Agreement.

Events of Default and Termination

The Funding Agreement will provide that an “Event of Default” will occur upon the occurrence of one or any combination of the following:

- (a) []’s failure to make any payment due under the Funding Agreement, if such failure to pay is not corrected within five Business Days after such payment becomes due and payable;
- (b) [] fails to maintain any representation or comply with any provision under the Funding Agreement, and [] fails to cure such breach within thirty days after notice thereof by the Energy Supplier; and
- (c) if [] is dissolved or has a resolution passed or proceeding instituted for its winding up, liquidation, rehabilitation or similar arrangement (other than pursuant to a consolidation, amalgamation or merger).

If an Event of Default described in clause (a) or (b) above occurs with respect to the Funding Recipient and the Energy Supplier delivers a written notice of termination with respect to such Event of Default, [] shall pay the entire amount held in the Funding Account (including accrued and unpaid interest) upon the resulting Funding Agreement Early Termination Payment Date (as defined below). If an Event of Default described in clause (c) above occurs, the Funding Agreement will automatically terminate and the entire amount in the Funding Account will be immediately due and payable by [] to the Energy Supplier, subject to [] regulations regarding the impairment or insolvency of a []. Upon such payment by [] to the Energy Supplier, []’s obligations under the Funding Agreement will be fully satisfied, and the Funding Agreement will be deemed terminated. As used above, “*Funding Agreement Early Termination Payment Date*” means the last Business Day of the month following the month in which the Energy Supplier delivers a written notice of termination to the Funding Recipient.

The Energy Supplier represents in the Funding Agreement that it is acquiring the Funding Agreement for investment and not with a view to any resale or distribution thereof. If the Energy Supplier fails to comply with the restrictions on resale pursuant to Rule 506 of Regulation D of the U.S. Securities and Exchange Commission (17 C.F.R. §230.506), [] will have the right upon written notice to the Energy Supplier to withdraw the entire amount held in the Funding Account (including accrued and unpaid interest) and pay it to the Energy Supplier. Upon such payment, []’s obligations under the Funding Agreement will be fully satisfied, and the Funding Agreement will be deemed terminated.

Governing Law

The Funding Agreement issued by [] will be governed by, and construed in accordance with, the laws of the State of [] without regard to conflicts of law principles.

Insolvency of []

The Funding Agreement is an unsecured obligation of [] and, in the event of []'s insolvency, will be subject to the provisions of [] laws.

Additional Information

For additional information with respect to the Funding Recipient, see APPENDIX J.

THE ENERGY MANAGEMENT AGREEMENT

Set forth below is a summary of certain provisions of the Energy Management Agreement. This summary does not purport to be a complete description of the terms and conditions of the Energy Management Agreement and accordingly is qualified by reference to the full text thereof.

General

Under the Energy Management Agreement, MSCG agrees to sell and deliver the monthly or hourly Contract Quantity of electricity on a firm basis; *provided that* Assigned Energy to be delivered by MSCG in its capacity as a PPA Supplier under an Assignment Agreement shall be delivered pursuant to such Assignment Agreement and not under the Energy Management Agreement. The Energy Supplier agrees to pay MSCG for the electricity delivered (or remarketed by MSCG) under the Energy Management Agreement in an amount equal to the applicable index price set forth in the Energy Management Agreement, plus a specified fee per each MWh of electricity (the “*MSCG Fee*”), reduced by any amounts the Energy Supplier is required to remit under the Prepaid Energy Sales Agreement in respect of any energy subject to remarketing or provisional payments thereunder. The Contract Quantity, delivery points and delivery period under the Energy Management Agreement match the corresponding provisions of the Prepaid Energy Sales Agreement and, in turn, the corresponding provisions of the Power Supply Contract. The provisions of the Energy Management Agreement with respect to failures to deliver or take electricity match the corresponding provisions of the Prepaid Energy Sales Agreement.

MSCG as Agent

General. Under the Energy Management Agreement, the Energy Supplier appoints and directs MSCG as its agent and MSCG agrees to issue notices and other communications, billing statements and to take any other actions that the Energy Supplier is required or permitted to take under any of the agreements entered into by the Energy Supplier in connection with the Clean Energy Project, including the Prepaid Energy Sales Agreement and the Energy Management Agreement (collectively, the “*Energy Documents*”); provided that MSCG’s agency role shall be limited to ordinary course actions required in connection with the Clean Energy Project and MSCG shall have no right to waive, modify or amend the terms of the Energy Management Agreement on the Energy Supplier’s behalf or to act on the Energy Supplier’s behalf with

respect to any dispute thereunder. In exercising this agency power, MSCG shall have the authority to take any such actions as it deems necessary under the Energy Documents.

Standard of Care. In the conduct and performance of its agency role, MSCG shall conduct itself consistent with and observe the same standard of care as it has in similar transactions in which MSCG has acted as the seller under prepaid commodity sales agreements, and the Energy Supplier acknowledges and agrees that MSCG shall have no obligation to observe a standard of care greater than it has in such similar transactions or to take any actions or measures beyond those it typically takes in connection with such transactions. MSCG shall not be liable for any action taken or omitted by it in acting as agent on behalf of the Energy Supplier.

Energy Remarketing. Under the Energy Management Agreement, the Energy Supplier delegates, and MSCG assumes, all of the Energy Supplier's electricity remarketing obligations under the remarketing provisions of the Prepaid Energy Sales Agreement, and MSCG agrees to comply with such provisions. Pursuant to this delegation, all electricity remarketing notices, directions and other actions will be given to or by, and will be performed by, MSCG, except as described below.

Receivables Purchases. MSCG agrees in the Energy Management Agreement to accept as a credit against payment owed by the Energy Supplier any Put Receivables purchased by the Energy Supplier under the Receivables Purchase Provisions.

Payment Provisions

Amounts due from MSCG to the Energy Supplier under the Energy Management Agreement (for example, as a result of remarketing or failure to deliver by MSCG) will be due on or before the 22nd day of the month following the month in which such amount accrues. Amounts due from the Energy Supplier to MSCG under the Energy Management Agreement will be due on or before the 26th day of the month following the month in which such amount accrues. MSCG is not entitled to net amounts due and owing by it thereunder, but the Energy Supplier is entitled to net any amounts due and owing by MSCG against its monthly payments due to MSCG.

Force Majeure

Each of the Energy Supplier and MSCG are excused from their respective obligations to receive and deliver electricity under the Energy Management Agreement to the extent prevented by *force majeure*, defined generally as any cause not within the reasonable control of, or the result of the negligence of, the party claiming an excuse to its obligations, and which by the exercise of due diligence such party is unable to overcome or avoid.

MSCG Obligations Following a Ledger Event

Option to Purchase Funding Agreement. Following the occurrence of a Ledger Event, and receipt of notification by MSCG of a Ledger Event, MSCG shall have the option to purchase the Funding Agreement from the Energy Supplier for an amount equal to (i) the Termination Payment for the Month following the Month in which MSCG purchases the Funding Agreement, plus (ii) any scheduled monthly payments due under the Funding Agreement from the date of MSCG's purchase of the Funding Agreement until the resulting Early Termination Payment Date, provided that MSCG shall be deemed to have elected not to exercise such option if it does not purchase the Funding Agreement by the end of the Month in which

it received notice that a Ledger Event has occurred. MSCG's purchase of the Funding Agreement will constitute an Acceleration Event under the Prepaid Energy Sales Agreement and that accordingly an Early Termination Payment Date will occur as of the last Business Day of the Month following MSCG's purchase of the Funding Agreement, and MSCG shall not owe any payments described in the following paragraph.

Ledger Event Payments

If a Ledger Event occurs under the Prepaid Energy Sales Agreement and MSCG has not purchased the Funding Agreement, MSCG will be required to pay to the Energy Supplier scheduled Ledger Event Payments calculated to provide a sum sufficient (together with the interest component of the Scheduled Debt Service Deposits) to enable CCCFA to pay interest on the Bonds at the Increased Interest Rate. Such payments are due to the Energy Supplier on (a) the Business Day preceding each Interest Payment Date and the Mandatory Purchase Date, and (b) any Early Termination Payment Date under the Prepaid Energy Sales Agreement. See "The Prepaid Energy Sales Agreement — Ledger Event," and "The Bonds — Increased Interest Rate Upon Ledger Event."

Assignment

Neither party may assign its rights under the Energy Management Agreement without the other party's consent, except that MSCG may assign the Energy Management Agreement to an affiliate of MSCG (which assignment shall constitute a novation) to the extent that either the Morgan Stanley Guarantee continues to apply to the assignee's obligations or Morgan Stanley otherwise guarantees such assignee's obligations thereunder.

Defaults and Termination Events

MSCG Default. Each of the following events constitutes a "MSCG Default" under the Energy Management Agreement:

- (a) MSCG fails to pay when due any amounts owed to the Energy Supplier pursuant to the Energy Management Agreement and such failure continues for two business days after receipt by MSCG of notice thereof, unless Morgan Stanley has made such payment under the Morgan Stanley Guarantee;
- (b) certain bankruptcy or insolvency events with respect to MSCG;
- (c) any representation or warranty made by MSCG in the Energy Management Agreement proves to have been incorrect in any material respect when made; and
- (d) the Morgan Stanley Guarantee ceases to be in full force and effect or is declared to be null and void, or Morgan Stanley contests the validity or enforceability of the Morgan Stanley Guarantee; provided that no such event will occur as a consequence of Morgan Stanley becoming subject to a receivership, insolvency, liquidation, resolution or similar proceeding.

Energy Supplier Default. Each of the following events constitutes a "Energy Supplier Default" under the Energy Management Agreement:

(a) the Energy Supplier fails to pay when due any amounts owed to MSCG pursuant to the Energy Management Agreement and such failure continues for five business days after receipt by the Energy Supplier of notice thereof;

(b) certain bankruptcy or insolvency events with respect to the Energy Supplier; and

(c) any representation or warranty made by the Energy Supplier in the Energy Management Agreement proves to have been incorrect in any material respect when made.

Optional Non-Default Termination Event. The Energy Supplier is required to provide prompt written notice to MSCG of any PSC Remarketing Election by the Project Participant. Such notice will constitute an “*Optional Non-Default Termination Event*” under the Energy Management Agreement.

Automatic Non-Default Termination Event. The occurrence of an Energy Delivery Termination Date under the Prepaid Energy Sales Agreement will constitute an “*Automatic Non-Default Termination Event*” under the Energy Management Agreement.

Remedies and Termination

If an MSCG Default or an Energy Supplier Default has occurred and is continuing, the non-defaulting party may designate an early termination date under the Energy Management Agreement by notice to the defaulting party (an “*EMA Early Termination Date*”). If an Optional Non-Default Termination Event has occurred and is continuing, MSCG may designate an EMA Early Termination Date by notice to the Energy Supplier; provided that MSCG’s right to designate an EMA Early Termination Date will expire if not exercised within two Business Days of such event. An EMA Early Termination Date will occur automatically upon the occurrence of an Automatic Non-Default Termination Event.

If an Energy Delivery Termination Date occurs, the Delivery Period for electricity under the Energy Management Agreement will end and the obligations of the parties to deliver and receive electricity will terminate.

Morgan Stanley Guarantee

The payment obligations of MSCG under the Energy Management Agreement are unconditionally guaranteed by Morgan Stanley under a guarantee agreement (the “*Morgan Stanley Guarantee*”). Any description of the Morgan Stanley Guarantee is qualified by reference to bankruptcy laws affecting the remedies for the enforcement of the rights and security provided therein and the effect of the exercise of police and regulatory powers by federal and state authorities.

Neither the Trustee nor the Bondholders have any rights to enforce the Morgan Stanley Guarantee.

THE ENERGY SUPPLIER, MSCG, MSCS AND MORGAN STANLEY

Set forth below is certain information regarding the Energy Supplier, MSCG, MSCS and Morgan Stanley that has been obtained from such persons and other sources believed to be reliable. CCCFA assumes no responsibility for such information and cannot guarantee the accuracy thereof. Under no circumstance is the Energy Supplier, MSCG, MSCS or Morgan Stanley obligated to pay any amounts owed in respect of the Bonds.

Energy Supplier. The Energy Supplier is a Delaware limited liability company organized for the sole purpose of entering into the transactions on its part with respect to the Clean Energy Project. MSCG is the sole member (the “Member”) and the Manager (the “Manager”) of the Energy Supplier and will fund the Energy Supplier by the purchase of a subordinated note of the Energy Supplier (the “Subordinated Note”) under a note purchase agreement (the “Subordinated Note Purchase Agreement”) with the Energy Supplier and the capital contribution described below.

The Energy Supplier is governed by a three-member board of directors. One director is appointed by MSCG, one director is appointed by CCCFA, and the third director is an independent director appointed by MSCG. The directors have appointed MSCG as the manager of the Energy Supplier. The Energy Supplier agrees to indemnify the directors (other than the director appointed by MSCG), the Member, the Manager and their affiliates (“Covered Persons”) for any loss, damage or claim incurred by such Covered Person by reason of any act or omission performed or omitted by such Covered Person in good faith on behalf of the Energy Supplier and in a manner reasonably believed to be within the scope of the authority conferred on such Covered Person by the Energy Supplier’s limited liability company agreement; provided that the Energy Supplier’s indemnification obligations to any Covered Person shall not in any event exceed \$500,000 in the aggregate.

The director appointed by CCCFA has the sole consent rights with respect to certain matters, including: the enforcement of the Energy Management Agreement and the Morgan Stanley Guarantee and the designation of an EMA Early Termination Date under the Energy Management Agreement; the removal and replacement of MSCG as the Manager of the Energy Supplier and as the Energy Supplier’s agent under the Prepaid Energy Sales Agreement if the Energy Management Agreement between MSCG and the Energy Supplier has been terminated due to a MSCG Default; the removal and replacement of the Master Custodian (defined below); and certain determinations with respect to Reset Periods under the Re-Pricing Agreement.

CCCFA covenants in the Indenture that, in any vote that comes before the board of directors of the Energy Supplier regarding the Product Supplier Documents (as defined in the Indenture), it will instruct the CCCFA-appointed director to exercise its voting rights in favor of (a) observing and performing the Energy Supplier’s obligations under the Prepaid Energy Sales Agreement, (b) the Energy Supplier enforcing the provisions of the Product Supplier Documents, and (c) not permitting any assignment, rescission, amendment or waiver to or of the Product Supplier Documents which will in any manner materially impair or materially adversely affect the rights of CCCFA thereunder or the rights or security of the Bondholders under the Indenture. The director appointed by MSCG has sole consent rights with respect to other matters, including: the termination or replacement of the Energy Supplier Commodity Swap; and the entry into any contracts, transactions or other arrangements for the acquisition or sale of electricity by the Energy Supplier, including agreement by the Energy Supplier on the terms thereof including but not limited to pricing. The independent director is required to consider only the interests of the Energy Supplier and its creditors in acting or voting on certain material actions that require the unanimous consent of the directors. No

resignation or removal of the independent director will be effective until a successor independent director has been appointed.

MSCG. Pursuant to the Energy Management Agreement, MSCG will act as the upstream electricity supplier to the Energy Supplier in connection with the Clean Energy Project. MSCG is the sole member and the manager of the Energy Supplier. MSCG is an indirect, wholly-owned subsidiary of Morgan Stanley. MSCG is engaged, among other things, in client facilitation and market-making activities in commodities and commodity derivative contracts. MSCG is registered as a swap dealer with the CFTC. The short-term and long-term issuer ratings of MSCG are “A-1” and “A+” from S&P Global Ratings and “P-1” and “Aa3” from Moody’s.

MSCS. MSCS engages primarily in OTC derivative transactions as a market maker and provides trading related services to a broad range of customers and clients, including affiliates. MSCS is conditionally registered with the SEC as a security-based swap dealer and is registered as an OTC derivative dealer. MSCS is also registered with the CFTC as a swap dealer and is a member with ICE Clear Europe Ltd, ICE Clear Credit, LLC and LCH Clearnet Group Ltd. MSCS is an indirect subsidiary of Morgan Stanley. The short term and long term issuer ratings of MSCS are “A-1” and “A+” from S&P Global Ratings and “P-1” and “Aa3” from Moody’s.

Morgan Stanley. Morgan Stanley is a global financial services firm that, through its subsidiaries and affiliates, provides a wide variety of products and services to a large and diversified group of clients and customers, including corporations, governments, financial institutions and individuals. Morgan Stanley was originally incorporated under the laws of the State of Delaware in 1981, and its predecessor companies date back to 1924. Morgan Stanley is a financial holding company regulated by the Board of Governors of the Federal Reserve System under the Bank Holding Company Act of 1956, as amended. Morgan Stanley conducts its business from its headquarters in and around New York City, its regional offices and branches throughout the U.S., and its principal offices in London, Tokyo, Hong Kong and other world financial centers. Morgan Stanley’s principal executive offices are at 1585 Broadway, New York, New York 10036, and its telephone number is (212) 761-4000.

The senior unsecured long-term debt of Morgan Stanley is rated “A1” by Moody’s, “A-” by S&P, and “A+” by Fitch.

Morgan Stanley is unconditionally guaranteeing the payment obligations of MSCG under the Energy Management Agreement pursuant to the Morgan Stanley Guarantee.

Energy Supplier Master Custodial Agreement. The Energy Supplier, MSCG, CCCFA and The Bank of New York Mellon, as custodian (the “*Master Custodian*”), will enter into an SPE Master Custodial Agreement (the “*Master Custodial Agreement*”) to administer:

(a) the amounts payable to the Energy Supplier under (i) the Funding Agreement, (ii) the Energy Management Agreement, (iii) the Prepaid Energy Sales Agreement, (iv) the Energy Supplier Commodity Swap, (v) the Subordinated Note Purchase Agreement and (vi) the Credit Default Swap (defined below), and

(b) the amounts payable by the Energy Supplier under (i) the Prepaid Energy Sales Agreement, (ii) the Energy Management Agreement, (iii) the Energy Supplier Commodity Swap, (iv) the Credit Default

Swap, (v) as a distribution to MSCG in its capacity as the sole member of the Energy Supplier, and (vi) the Subordinated Note.

The Master Custodial Agreement establishes a revenue account (the “*Energy Supplier Revenue Account*”) and a capital account (the “*Energy Supplier Capital Account*”) with the Master Custodian. The amounts payable to the Energy Supplier under the Funding Agreement, the Energy Management Agreement, the Prepaid Energy Sales Agreement and the Energy Supplier Commodity Swap are to be paid directly into the Energy Supplier Revenue Account.

Under the Master Custodial Agreement, the Master Custodian will, to the extent of the amounts on deposit in the Energy Supplier Revenue Account and so long as no Early Termination Payment Date has occurred under the Prepaid Energy Sales Agreement, make monthly transfers for the payment of amounts due by the Energy Supplier under (and in the following order of priority): (i) the Energy Supplier Commodity Swap; (ii) the Prepaid Energy Sales Agreement (other than the Ledger Event Payments payable after the occurrence of a Ledger Event which shall be transferred promptly to the Trustee); and (iii) the Energy Management Agreement. Following these monthly transfers, any remaining funds in the Energy Supplier Revenue Account are transferred to the Energy Supplier Capital Account. Pending their application, the amounts in the Energy Supplier Revenue Account are held in trust for the benefit of the Energy Supplier. Following receipt of notice from the Energy Supplier that an Early Termination Payment Date has occurred under the Prepaid Energy Sales Agreement, the Master Custodian will withdraw amounts on deposit in the Energy Supplier Revenue Account for the payment of other specified obligations of the Energy Supplier.

The Energy Supplier Capital Account will be initially funded by MSCG by the purchase of the Subordinated Note in the amount of \$[_____] and a capital contribution of \$1,000,000. The capital contribution may be in the form of cash or Cash Equivalents (defined below). In addition, MSCS and the Energy Supplier have entered into a credit default swap transaction (the “*Credit Default Swap*”) under which MSCS agrees to pay to the Energy Supplier specified amounts upon the occurrence of an Event of Default with respect to the Funding Agreement and an acceleration of the Funding Agreement pursuant to the terms of the Funding Agreement.

Collectively, the proceeds of the Subordinated Note, the capital contribution and the amounts payable under the Credit Default Swap equal at least three percent of the outstanding (unamortized) amount of the prepayment under the Prepaid Energy Sales Agreement (approximately \$[_____] million as of the Initial Issue Date).

Under the Master Custodial Agreement, the amounts in the Energy Supplier Capital Account may be invested only in: direct obligations of (or unconditionally guaranteed by) the United States (or any agency or political subdivision thereof, to the extent such obligations are supported by the full faith and credit of the United States) maturing not more than two years from the date of acquisition thereof; certain certificates of deposit and demand deposits; certain money market funds; and cash (“*Cash Equivalents*”).

Amounts on deposit in the Energy Supplier Capital Account shall be withdrawn by the Master Custodian pursuant to instructions provided by the Energy Supplier and applied to: (a) meet the Energy Supplier’s collateral posting obligations under the credit support annexes to the Energy Supplier

* Preliminary, subject to change.

Commodity Swap; (b) to make up any deficiency of the amounts on deposit in the Energy Supplier Revenue Account for the purposes described above; and (c) pay fees or other amounts due to the Master Custodian and the Independent Director. The Master Custodian shall have a lien, security interest and right of set-off for the payment of any claim by the Master Custodian for compensation, reimbursement or indemnity under the Master Custodial Agreement.

To the extent that the amounts on deposit in the Energy Supplier Capital Account (including any amounts posted by Energy Supplier as collateral under the Energy Supplier Commodity Swap) at any time exceed the greater of a scheduled amount specified in the Master Custodial Agreement or \$[] (the greater of these amounts is referred to as the “*Minimum Deposit Amount*”), and after the payment of the Energy Supplier’s obligations under the Energy Supplier Commodity Swap, the Prepaid Energy Sales Agreement and the Energy Management Agreement, the Master Custodian is instructed to withdraw amounts on deposit in the Energy Supplier Capital Account to be applied first to the payment of amounts due by the Energy Supplier under the Credit Default Swap, second as a distribution to MSCG in its capacity as the sole member of Energy Supplier, and third to the payment of amounts due, if any, under the Subordinated Note for any given Month; provided that the Master Custodian shall not transfer any amount from the Energy Supplier Capital Account to the extent the remaining balance in the Energy Supplier Capital Account following such transfer will be less than the Minimum Deposit Amount.

THE POWER SUPPLY CONTRACT

General

Under the Power Supply Contract, CCCFA has agreed to sell and deliver to the Project Participant, and the Project Participant has agreed to purchase and receive from CCCFA at the delivery point, quantities of EPS Compliant Energy, which shall be comprised of Assigned Energy and other EPS Compliant Energy delivered to CCCFA by the Energy Supplier under the Prepaid Energy Sales Agreement.

The Power Supply Contract will remain in full force and effect for a primary term ending at the end of the Delivery Period under the Prepaid Energy Sales Agreement; *provided, however*, that if the Prepaid Energy Sales Agreement is terminated, the Power Supply Contract will terminate on the Termination Date.

THE OBLIGATION OF THE PROJECT PARTICIPANT TO MAKE PAYMENTS TO CCCFA UNDER THE POWER SUPPLY CONTRACT IS NOT, NOR SHALL IT BE CONSTRUED AS, A GUARANTY OR ENDORSEMENT OF OR A SURETY FOR, THE BONDS. SUCH OBLIGATION OF THE PROJECT PARTICIPANT IS NOT A GENERAL OBLIGATION OF THE PROJECT PARTICIPANT AND IS PAYABLE SOLELY FROM THE REVENUES DERIVED FROM SALES OF ENERGY TO THEIR CUSTOMERS. THE INDENTURE DOES NOT MORTGAGE THE CLEAN ENERGY PROJECT OR ANY TANGIBLE PROPERTIES OR ASSETS OF CCCFA OR THE PROJECT PARTICIPANT.

For information regarding the Project Participant, see APPENDIX A.

Pricing Provisions

Contract Price. For each MWh of Prepaid Energy delivered to the Project Participant, the Project Participant shall pay CCCFA the applicable Contract Price; provided that CCCFA shall owe a payment to

the Project Participant to the extent that the Contract Price is negative. The Contract Price for Assigned Energy is inclusive of any amounts due in respect of other Assigned Products. The “*Contract Price*” means (i) for Monthly Projected Quantities, the Day-Ahead Average Price for the Month in which Energy is delivered minus the Monthly Discount; and (ii) for Monthly Excess Quantities and Assigned Paygo Quantities, the Day-Ahead Average Price for the Month in which Energy is delivered. With respect to Monthly Excess Quantities and Assigned Paygo Quantities (as such terms are defined in APPENDIX B), the Project Participant’s payment obligations under the Power Supply Contract shall be satisfied by its payment of the “Retained Payment Amount” consistent with the terms of the Participant Custodial Agreement (as such terms are defined in APPENDIX B).

If Base Energy is required to be delivered and remarketed pursuant to the Prepaid Energy Sales Agreement, the Energy Supplier will remarket such Base Energy at a price, net of applicable costs, not less than the Day-Ahead Market Price. See “THE PREPAID ENERGY SALES AGREEMENT — *Provisional Payments and Energy Remarketing*”.

Through the Clean Energy Project, the Project Participant anticipates realizing a discount to existing fixed contract prices or to market Energy prices. No assurance can be given as to the total actual discount the Project Participant will realize.

Project Administration Fee

Under the Prepaid Clean Energy Project Administration Agreement, the Project Participant is required to pay to CCCFA annually a Project Administration Fee in an amount sufficient to pay any Operating Expenses then due and for which payment has not been made from the Operating Fund.

Assignment of Power Purchase Agreements

General. Concurrently with the execution of its Power Supply Contract, the Project Participant will assign the Initial Assigned Rights and Obligations to the Energy Supplier for delivery under the Prepaid Energy Sales Agreement.

Under the terms of a letter agreement, commencing six months prior to the expiration of any EPS Energy Period, or otherwise immediately upon the early termination or anticipated early termination of an EPS Energy Period, the Project Participant shall exercise Commercially Reasonable Efforts to assign the Assigned Rights and Obligations under one or more Assigned PPAs (pursuant to which the Project Participant is purchasing EPS Compliant Energy) either to the Energy Supplier or MSCG, subject to MSCG’s and the Energy Supplier’s consent to such assignment. For any Assigned PPA assigned to MSCG, MSCG will be obligated to sell and deliver Assigned Energy and associated attributes it receives under all Assigned Rights and Obligations pursuant to such Assigned PPA to the Energy Supplier pursuant to the Energy Management Agreement, and the Energy Supplier will be obligated to deliver such Assigned Energy and associated attributes to CCCFA pursuant to the Prepaid Energy Sales Agreement. See “THE CLEAN ENERGY PROJECT - *Assignment of Power Purchase Agreements by the Project Participant*”.

Failure to Obtain EPS Compliant Energy. Under the terms of a letter agreement, to the extent an EPS Energy Period terminates or expires and the Project Participant and MSCG have been unable to obtain EPS Compliant Energy for delivery, then the Energy Supplier shall remarket the Base Energy pursuant to the Prepaid Energy Sales Agreement, the obligations of the Project Participant and the Energy Supplier described under this heading shall continue to apply and the Project Participant may not make any new

commitment to purchase Priority Energy during such a remarketing. See “THE PREPAID ENERGY SALES AGREEMENT – *Provisional Payments and Energy Remarketing*” and “THE POWER SUPPLY CONTRACT – *Remarketing of Energy*”.

Billing and Payment

Not later than ten days following the end of the Month during the Delivery Period, CCCFA must provide a monthly billing statement of the amount due for the Energy actually delivered in the previous Month. The due date for payment by the Project Participant will be the 20th day of the month following the month of delivery (or if such day is not a Business Day, the preceding Business Day). The due date for payment from CCCFA will be the 28th day of the month following the month of delivery (or if such day is not a Business Day, the preceding Business Day). If the Project Participant disputes the appropriateness of any charge or calculation in any billing statement, the Project Participant, within the time provided for payment, must notify CCCFA of the existence of and basis for such dispute and, absent manifest error, must pay all amounts billed by CCCFA, including any amounts in dispute. If it is ultimately determined that the Project Participant did not owe the disputed amount, CCCFA must pay the Project Participant the disputed amount plus interest.

Annual Refunds

CCCFA has agreed to provide annual refunds to the Project Participant from amounts available for distribution pursuant to the Indenture. In determining the amount of such refunds, CCCFA may reserve such funds as may be required under the terms of the Indenture or as it deems reasonably necessary and appropriate to cover anticipated costs and expenses to be incurred in the next succeeding bond year, with certain limitations.

Covenants of the Project Participant

Operating Expense. The Project Participant covenants (a) to make the payments on its part due under the Power Supply Contract from the revenues of its electric utility system, and only from such revenues, as an item of operating expense and (b) that it will not pledge or encumber its revenues in any way which creates a prior or superior obligation to its obligation to make payments under the Power Supply Contract.

Maintenance of Rates and Charges. The Project Participant has covenanted and agreed that it will establish, maintain, and collect rates and charges for its electric utility system so as to provide revenues sufficient, together with all available electric system revenues, to enable it to pay to CCCFA all amounts legally payable from such revenues and to maintain required reserves.

Qualifying Use. The Project Participant has agreed that it will (a) provide such information with respect to its electric utility system as may be requested by CCCFA in order to establish the tax-exempt status of the Bonds, and (b) act in accordance with such written instructions as CCCFA may provide from time to time in order to enable CCCFA to maintain the tax-exempt status of interest on the Bonds. Without limiting the foregoing, the Project Participant has further agreed to use the Energy purchased under the Power Supply Contract (a) in a “qualifying use” as defined in the applicable U.S. Treasury Regulation, (b) in a manner that will not result in any private business use of that Energy within the meaning of Section 141 of the Code, and (c) consistent with its Federal Tax Certificate (collectively, the “*Qualifying Use Requirements*”).

In the event that any portion of the Project Participant's contract quantity is remarketed in a manner that does not comply with the Qualifying Use Requirements, the Project Participant agrees to exercise Commercially Reasonable Efforts to use the proceeds of such remarketing to purchase Energy (other than Priority Energy, which are described below) for use in compliance with such Qualifying Use Requirements. The Project Participant further agrees to provide monthly remediation certificates to CCCFA and the Energy Supplier with respect to other purchases of Energy that is used in compliance with the Qualifying Use Requirements to remediate the proceeds from sales of Energy that were sold in a transaction that does not comply with the Qualifying Use Requirements.

Priority Energy. The Project Participant agrees to purchase and receive the Base Energy and Assigned Quantities to be delivered under its Power Supply Contract (a) in priority over and in preference to all other Energy available to it that are not Priority Energy; and (b) on at least a *pari passu* and non-discriminatory basis with other Priority Energy. For purposes of this covenant and during the Delivery Period, "*Priority Energy*" means (a) the Contract Quantity, and (b) other Energy that the Project Participant is obligated to take under a long-term agreement that is purchased with or generated using capacity that was constructed using the proceeds of tax-exempt bonds, notes, or other obligations.

Delivery Points; Title and Risk of Loss

Assigned Energy. Assigned Energy delivered under the Power Supply Contract shall be Scheduled for delivery to and receipt at the applicable Assigned Delivery Point specified in the applicable Assignment Agreement. All other Assigned Energy will be delivered pursuant to the terms of the applicable Assignment Agreement. Scheduling and transmission of Assigned Energy shall be in accordance with the applicable Assignment Agreement.

Title. Title to and risk of loss of the Prepaid Energy delivered under each Power Supply Contract shall pass from the CCCFA to the Project Participant at the applicable Assigned Delivery Point. The transfer of title and risk of loss for Assigned Energy shall be in accordance with the applicable Assignment Agreement.

Failure to Perform

To the extent that specified quantities of Assigned Product are not delivered to the Project Participant for reasons other than Force Majeure, the remarketing provisions of the Prepaid Energy Sales Agreement shall apply. See "THE PREPAID ENERGY SALES AGREEMENT — *Provisional Payments and Energy Remarketing*". Neither the Project Participant nor CCCFA has any liability to one another for any failure to take or deliver Assigned Energy, except as described in this section under "— *Assignment of Power Purchase Agreements*."

Remarketing of Energy

Under the Prepaid Energy Sales Agreement, in the event the Project Participant is in default under its Power Supply Contract or does not require or is unable to receive all or any portion of its Contract Quantity under its Power Supply Contract as a result of (i) the Project Participant's decreased Energy requirements, (ii) decreased demand by its retail customers, or (iii) EPS Compliant Energy not being available for delivery under the Prepaid Energy Sales Agreement, or if the Assigned Energy for any measurement period is not equal to or greater than the quantity of Prepaid Energy required to be delivered during such period for any reason other than Force Majeure, then the Energy Supplier is required to

remarket such portion of the Contract Quantity as required under the Remarketing Provisions. Under the Prepaid Energy Sales Agreement, CCCFA arranges for sales through the Energy Supplier in accordance with the Remarketing Provisions. If the Energy Supplier successfully makes such a sale or sales, CCCFA must credit against the amount owed by the Project Participant to CCCFA the amount received from the Energy Supplier, such credit not to exceed the Contract Price for the Energy so sold. See “The Prepaid Energy Sales Agreement — *Provisional Payments and Energy Remarketing*”.

Force Majeure

Except with regard to a party’s obligation to make payments under the Power Supply Contract, neither party shall be liable to the other for failure to perform its obligations under the Power Supply Contract to the extent such performance is prevented by an event of “*Force Majeure*” (as defined in APPENDIX B).

Default

Each of the following is a default under the Power Supply Contract:

- (a) Any representation or warranty made by a party in the Power Supply Contract shall prove to have been incorrect in any material respect when made; and
- (b) A party fails to perform, observe or comply with any covenant, agreement or term contained in the Power Supply Contract, subject to such grace period and notice or, knowledge provisions set forth therein.

In addition, each of the following is a default by the Project Participant under the Power Supply Contract:

- (a) Failure by the Project Participant to pay when due any amounts owed to CCCFA under the Power Supply Contract, subject to a grace period; and
- (b) The insolvency or bankruptcy of the Project Participant.

Upon the occurrence of a default by the Project Participant described in (b) above, the Power Supply Contract will automatically terminate and all amounts due to CCCFA will be immediately due and payable. Upon the occurrence of the other defaults described above, the non-defaulting party may terminate the Power Supply Contract and/or declare all amounts due to it to be immediately due and payable. During the existence of a default, the non-defaulting party may exercise all other rights and remedies available to it at law or in equity, including without limitation mandamus, injunction and action for specific performance, to enforce any covenant, agreement or term of the Power Supply Contract.

In addition to the remedies described above, during the existence of any payment default by the Project Participant, CCCFA may suspend its performance under the Power Supply Contract and discontinue the supply of all or any portion of the Energy otherwise to be delivered to the Project Participant under the Power Supply Contract.

If CCCFA exercises its right to discontinue Energy deliveries to the Project Participant, such service may only be reinstated, at a time determined by CCCFA, upon (a) payment in full by the Project Participant of all amounts then due and payable under its Power Supply Contract and (b) payment in

advance by the Project Participant at the beginning of each month amounts estimated by CCCFA to be due from the Project Participant for the future delivery of Energy for such month. If the Project Participant fails to accept the Energy tendered, CCCFA has the right to sell the Energy to third parties.

Assignment

The provisions of the Power Supply Contract are binding on the successors and assigns of such contract. Neither party may assign the Power Supply Contract to another party without the prior written consent of the other party, except that CCCFA may assign its interests to secure its obligations under the Indenture. Prior to assigning all or any part of its interest in the Power Supply Contract, the Project Participant is required to deliver to CCCFA a Rating Confirmation from each rating agency then rating the Bonds. Any applicable Assignment Agreement will terminate concurrent with the assignment of the Power Supply Contract.

CALIFORNIA COMMUNITY CHOICE FINANCING AUTHORITY

General

CCCFA is a joint powers authority formed pursuant to the Act and the joint powers agreement (“the *JPA Agreement*”) made among those public agencies which are its members. CCCFA was incorporated and organized in 2021. As of the date of this Official Statement the members of CCCFA are Ava Community Energy, Central Coast Community Energy, Clean Power Alliance of Southern California, Marin Clean Energy and the Project Participant (Silicon Valley Clean Energy Authority) (each a “*Founding Member*”) and San Diego Community Power, Peninsula Clean Energy Authority, Pioneer Community Energy, the City of San José through its community choice aggregator program known as San José Clean Energy, Sonoma Clean Power Authority and Valley Clean Energy Alliance (each an “Associate Member” and, together with the Founding Members and any additional members which may later be added as parties to the JPA Agreement, a “*Member*”).

Each Member is a community choice aggregator, and a public agency as defined in the Act, which operates a community choice aggregation program with the authority to group retail electricity customers to solicit bids, broker, and contract for electricity and energy services for those customers, and to enter into agreements for services to facilitate the sale and purchase of electricity and other related services, and to study, promote, develop, conduct, operate and manage energy-related programs.

CCCFA was formed for, among other purposes, the purpose of financing energy prepayments which can be financed with tax advantaged bonds for the benefit of its Members.

Powers and Authority

Under the provisions of the Act, CCCFA has all of the powers common to the Members, and any and all power in connection with the financing or refinancing of energy prepayments that can be financed with tax advantaged bonds and other obligations, including: (i) the purchase and sale of electric energy and associated capacity and environmental attributes, (ii) the design, acquisition, maintenance, or operation of any Public Capital Improvement (as defined in the Act) or other facility or improvement, or the leasing thereof, (iii) the provision of working capital, and (iv) any other project, program, public capital improvement or purpose authorized by the Act or other law to be undertaken, financed, or refinanced by CCCFA, in connection with the financing or refinancing of energy prepayments that can be financed with

tax advantaged bonds and other obligations (a “*Prepayment Project*”). CCCFA shall have the power to issue, incur, sell and deliver bonds in accordance with the provisions of the Act and other applicable laws for the purpose of acquiring, undertaking, financing, or refinancing one or more Prepayment Projects.

Under the provisions of the JPA Agreement and the Act, CCCFA has (among others) the following powers:

- (a) to acquire, purchase, finance, operate, maintain, utilize and/or dispose of one or more Prepayment Projects and any facilities, programs or other authorized costs relating thereto;
- (b) to make and enter contracts (including without limitation interest rate, commodity, basis and similar hedging contracts intended to hedge payment, rate, cost or similar exposure);
- (c) to employ agents and employees;
- (d) to acquire, manage, maintain or operate any building, works or improvements;
- (e) to acquire, hold, lease or dispose of property;
- (f) to incur debts (including without limitation through the issuance or incurrence of bonds), liabilities or obligations (which shall not constitute debts, liabilities, or obligations of any of the Members);
- (g) to sue and be sued in its own name;
- (h) to receive gifts, contributions and donations of real or personal property, funds, services and other forms of assistance from any source;
- (i) to receive, collect, invest and disburse moneys;
- (j) to apply for, accept, and receive all licenses, permits, grants, loans or other aids from any federal, state, or local public agency;
- (k) to make and enter into service agreements relating to the provision of services necessary to plan, implement, operate and administer energy-related programs;
- (l) to defend, hold harmless, and indemnify, to the fullest extent permitted by law, each Member from any liability, claims, suits, or other actions; and
- (m) to exercise any other power and take any other action permitted by law to accomplish the purposes of the JPA Agreement.

The JPA Agreement shall continue in full force and effect until terminated as provided in therein; *provided, however*, the JPA Agreement cannot be terminated while either (a) any bonds of CCCFA, including the Bonds, remain outstanding, or (b) CCCFA is the owner, lessor or lessee of any real or personal property financed from the proceeds of any bonds.

Governance and Management

Board of Directors. CCCFA is governed by a Board of Directors (the “*Board*”) consisting of one director for each Founding Member. The Board shall have the authority to provide for the general management and oversight of the affairs, property and business of CCCFA. The Board may appoint a part-time or full-time General Manager and may appoint one or more part-time or full-time Assistant General Managers. The General Manager would be responsible for the day-to-day operation and management of CCCFA. The names of the current directors of CCCFA are listed on the roster page at the front of this Official Statement.

Management. The Board has not appointed a General Manager or Assistant General Manager. CCCFA’s current management team consists of Garth Salisbury as Treasurer/Controller and David J. Ruderman of Colantuono, Highsmith & Whatley, PC as General Counsel.

Other CCCFA Projects

CCCFA previously issued its bonds (a) on September 23, 2021 to purchase prepaid electricity from Morgan Stanley Energy Structuring, L.L.C. (“MSES”) which is delivered to its Members, Ava Community Energy (formerly known as East Bay Community Energy Authority) and Silicon Valley Clean Energy Authority, (b) on November 24, 2021 to purchase prepaid electricity from Aron Energy Prepay 5 LLC, which is delivered to its Member, Marin Clean Energy, (c) on July 12, 2022 to purchase prepaid electricity from MSES, which is delivered to its Member, Ava Community Energy, (d) on January 4, 2023 to purchase prepaid electricity from Aron Energy Prepay 15 LLC, which is delivered to its Member, Pioneer Community Energy, (e) on January 27, 2023 to purchase prepaid electricity from MSES, which is delivered to its Member, Silicon Valley Clean Energy Authority (f) on February 23, 2023 to purchase prepaid electricity from Aron Energy Prepay 14 LLC, which is delivered to its Member, Clean Power Alliance of Southern California, (g) on June 15, 2023 to purchase prepaid electricity from Aron Energy Prepay 16 LLC, which is delivered to its Member, Clean Power Alliance of Southern California, (h) on August 16, 2023 to purchase prepaid electricity from MSES, which is delivered to its Member, Ava Community Energy, (i) on October 26, 2023 to purchase prepaid electricity from Aron Energy Prepay 22 LLC, which is delivered to it Member, Central Coast Community Energy, (j) on December 15, 2023 to purchase prepaid electricity from Aron Energy Prepay 21 LLC, which is delivered to its Member, Marin Clean Energy, (k) on January 25, 2024 to purchase prepaid electricity from MSES, which is delivered to its Member Silicon Valley Clean Energy Authority, (l) on August 27, 2024 to purchase prepaid electricity from Aron Energy Prepay 41 LLC, which is delivered to its Member, Clean Power Alliance of Southern California, (m) on October 10, 2024 to purchase prepaid electricity from Aron Energy Prepay 43 LLC, which is delivered to its Member, Peninsula Clean Energy Authority, (n) on November 4, 2024 to purchase prepaid electricity from MSES, which is delivered to its Member the City of San José, (o) on November 14, 2024 to purchase prepaid electricity from Royal Bank of Canada, which is delivered to its Member, Clean Power Alliance of Southern California, (p) on November 20, 2024 to purchase prepaid electricity from Energy Prepay IV, LLC, which is delivered to its Member, San Diego Community Power, (q) on November 27, 2024 to purchase prepaid electricity from Aron Energy Prepay 45 LLC, which is delivered to its Member, Sonoma Clean Power Authority, (r) on December 20, 2024 to purchase prepaid electricity from Aron Energy Prepay 46 LLC, which is delivered to its Member, Clean Power Alliance of Southern California, (s) on March 13, 2025 to purchase prepaid electricity from Aron Energy Prepay 44 LLC, which is delivered to its Member, Valley Clean Energy Alliance, and (t) on June 18, 2025 to purchase prepaid electricity from Aron Energy Prepay 52 LLC, which is delivered to its Member, Marin Clean Energy. Each series of bonds is secured by a separate bond indenture.

CCCFA may issue future bonds to purchase prepaid electricity supplies for sale to participating municipal utilities, with the revenues from such sales pledged to the payment of such bonds. Such revenues will not be pledged, nor may such revenues be used, to pay amounts due with respect to the Bonds.

In furtherance of its corporate and public purposes, CCCFA intends to acquire and finance supplies of electricity on a prepaid basis for sale to other community choice aggregators. CCCFA is currently developing additional Clean Energy Projects under transaction and financing structures that are expected to be generally similar to the structure of the Clean Energy Project. CCCFA can give no assurance as to the timing or terms of these projects or that they will be completed. A range of factors that are outside of the control of CCCFA, including the final negotiation of transaction documents, the approval of commodity supply contracts by the prospective project participants, changes in market prices and rates, the receipt of bond ratings, and other factors could result in these transactions not being completed.

Any additional Clean Energy Projects that may be undertaken by CCCFA will be separate and distinct transactions, and the bonds issued to finance these projects will be payable solely from the commodity sales and other revenues pledged for their payment. In no event will the Revenues and Trust Estate pledged to the payment of the Bonds be used to pay any other bonds of CCCFA.

Separate Obligations

THE BONDS, PREVIOUS BONDS ISSUED BY CCCFA, ANY FUTURE BONDS THAT MAY BE ISSUED BY CCCFA AND ANY FUTURE CONTRACTS THAT CCCFA MAY ENTER INTO TO ACQUIRE ADDITIONAL ENERGY OR ELECTRICITY ARE AND WILL BE SEPARATE AND DISTINCT OBLIGATIONS OF CCCFA. ANY FUTURE BONDS OR CONTRACTS WILL NOT BE SECURED BY OR PAYABLE FROM THE REVENUES PLEDGED BY THE INDENTURE TO THE PAYMENT OF THE BONDS, AND THE BONDS WILL NOT BE SECURED BY OR PAYABLE FROM THE REVENUES DERIVED FROM ANY FUTURE PROJECT, CLEAN ENERGY PROJECT OR CONTRACT OF CCCFA.

Limited Liability

CCCFA DOES NOT HAVE THE POWER TO LEVY AD VALOREM PROPERTY TAXES. ALL BONDS ISSUED BY CCCFA ARE PAYABLE SOLELY FROM THE REVENUES AND RECEIPTS DERIVED FROM ITS ACTIVITIES PURSUANT TO ITS STATUTORY PURPOSES AND POWERS AND IN ACCORDANCE WITH THE APPLICABLE FINANCING DOCUMENTS. THE BONDS ARE PAYABLE SOLELY FROM AND SECURED SOLELY BY THE TRUST ESTATE PLEDGED PURSUANT TO THE INDENTURE.

COMMUNITY CHOICE AGGREGATORS

General

The Project Participant is a “community choice aggregator” pursuant to Section 331.1 of the Public Utilities Code (a “CCA”). See APPENDIX A for information with respect to the Project Participant.

Establishment of Community Choice Aggregators

A CCA may be established by any city, county, or city and county whose governing board elects to combine the loads of its residents, businesses, and municipal facilities in a community-wide Energy buyers' program, and by any group of cities, counties, or cities and counties whose governing boards have elected to combine the loads of their programs, through the formation of a joint powers agency established under Joint Powers Act, provided in either case that the entity is not within the jurisdiction of a local publicly owned electric utility that provided electrical service as of January 1, 2003. "Local publicly owned electric utility" means a municipality or municipal corporation operating as a "public utility" and certain municipal utility districts, public utility districts, irrigation districts, or joint powers authorities that include one or more of these agencies and that owns generation or transmission facilities or furnishes electric services over its own or its members' electric distribution systems.

Community Choice Service Model

Once a community forms or joins a CCA, the CCA is the default energy provider in that community. The CCA procures energy for customers in that community, but the investor-owned utility for that community continues to provide transmission, distribution and billing services to customers. Revenues from the sale of energy by the CCA are delivered by the investor-owned utility to the CCA as they are received over the course of the billing period.

Service Contract Requirements and Registration with the Public Utilities Commission

CCAs are required to have an operating service agreement with the applicable investor-owned utility prior to furnishing electric service to consumers within its jurisdiction. The service agreement must include performance standards that govern the business and operational relationship between the CCA and the investor-owned utility. CCAs are also required to register with the California Public Utilities Commission (the "PUC"), which may require additional information to ensure compliance with basic consumer protection rules and other procedural matters. Once notified of a CCA program, the applicable investor-owned utility is required to transfer all applicable accounts to the CCA within a 30-day period from the date of the close of the utility's normally scheduled monthly metering and billing process.

Customer Participation and Opt-out Rights

Participation in a CCA is voluntary. Each local government seeking to form or join a CCA must adopt an appropriate authorizing resolution or ordinance. When a community forms or joins a CCA, customers are given advance notice and have the choice to opt-out of the CCA program prior to or after transition to the CCA, and instead receive Energy from the applicable investor-owned utility. Customers that do not opt-out are automatically enrolled in the program. Customers that opt-out may be subject to a fee.

Regulatory Compliance

CCAs are "load-serving entities" and as such are required to comply with the renewable portfolio standards and reliability standards established by the PUC and the California Energy Commission (the "CEC") and file integrated resource plans and other periodic reports with the PUC and the California Energy Commission.

Cost Recovery Related to Transfer of Customers to a CCA

Although investor-owned utilities do not purchase power for CCA customers, they continue to deliver the power. Investor-owned utilities also have the obligation to provide electric service to customers that opt out of CCA service as the “provider of last resort.” In order to compensate investor-owned utilities for investments in power generation and long-term power purchase contracts associated with the loss of customers to CCAs, the PUC has established a “power charge indifference adjustment” (the “*PCIA*”) applicable to CCA customers. The *PCIA* is calculated by taking the difference between (i) the “actual portfolio cost” related to utility’s power procurement (e.g., utility-owned generation and purchased power), and (ii) the “market value of the portfolio,” which is measured by the Market Price Benchmark (the “*MPB*”) and the megawatt hours of generation.

The *MPB* is based on a PUC approved methodology for calculating the current market cost of renewables and natural gas-fueled power. If the investor-owned utility’s actual portfolio cost is above-market value, the departing load customers pay their share of the difference in the form of a *PCIA* based on their power consumption. The amount of the *PCIA* applicable to a CCA customer depends on when a customer left the investor-owned utility and what the investor-owned utility’s portfolio was at the time. Each departing load customer pays the assigned “vintage *PCIA*.” For example, a customer who departed in 2019 pays the “2019 vintage *PCIA*” which only includes the above market costs of pre-2020 vintage power procured by the investor-owned utility.

In addition to *PCIA* charges, CCA customers are required to pay certain other “non-bypassable departing load charges”, including a nuclear decommissioning charge, a public purpose charge and a cost allocation charge to pay for new resources needed for ongoing system reliability.

THE COMMODITY SWAPS

CCCFA Commodity Swap

CCCFA has entered into the CCCFA Commodity Swap under which CCCFA will pay a floating Energy price at a specified pricing point and will receive a fixed Energy price for the notional quantities specified in the CCCFA Commodity Swap for each month of such term.

Under the CCCFA Commodity Swap, for each calendar month that the relevant floating price of Energy is greater than the fixed price specified in the CCCFA Commodity Swap on an aggregate net basis for all delivery hours in such month, CCCFA will be obligated to pay to the Commodity Swap Counterparty (on an aggregate net basis for all hours in such month) an amount equal to the product of (x) the difference between the floating price and the fixed price for each such hour multiplied by (y) a notional quantity equal to the quantity of Prepaid Energy scheduled to be delivered during such hour by the Energy Supplier under the Prepaid Energy Sales Agreement. If the fixed price specified in a CCCFA Commodity Swap is greater than the relevant floating price of Prepaid Energy for on an aggregate net basis for all delivery hours in such month, the Commodity Swap Counterparty will be obligated to pay CCCFA (on an aggregate net basis for all hours in such month) an amount equal to the product of (x) the difference between the fixed price and floating price multiplied by (y) a notional quantity equal to the quantity of Prepaid Energy scheduled to be delivered during such hour by the Energy Supplier under the Prepaid Energy Sales Agreement. If the relevant floating price for a calendar month is equal to the specified fixed price, no payment will be owed by either party to the other under the CCCFA Commodity Swap for such month.

Energy Supplier Commodity Swap

The Energy Supplier has entered into a comparable Energy Supplier Commodity Swap with the same Commodity Swap Counterparty under which the Energy Supplier pays a fixed Energy price and receives a floating Energy price for the same notional quantities at the same pricing points.

Form of Commodity Swaps and Term

The Commodity Swaps have been entered into as a confirmation under a 2002 ISDA Master Agreement with certain amendments and elections under the Master Agreement that have been agreed to by the parties. The Commodity Swaps have an initial term of two months and thereafter rolling one-month terms that renew automatically upon the payment due date of each monthly net settlement amount due thereunder through the term of the Delivery Period under the Prepaid Energy Sales Agreement unless an early termination date occurs under the Commodity Swaps.

Payment

For each month of scheduled deliveries and notional amounts, each party with a net obligation under a Commodity Swap (based on the relative values of the fixed price and relevant index prices) will pay that net obligation to the other party on (x) in the case of the CCCFA Commodity Swap, the 25th day and (y) in the case of the Energy Supplier Commodity Swap, the 23rd day, in each case, of the calendar month following the month to which the applicable day-ahead market prices relate (or if such day is not a business day, either the following business day of such month or the preceding business day, respectively).

Early Termination

General. Each of the Commodity Swaps will be subject to early termination under certain circumstances. This early termination can be triggered automatically or upon the election by the non-defaulting party or the non-affected party as described below. No settlement or other termination payment (other than previously accrued amounts) would be due to any party as a result of any early termination of either Commodity Swap, except that in the case of any designation by the Energy Supplier of an early termination date under the Energy Supplier Commodity Swap that is conditioned on the termination of the CCCFA Commodity Swap, subject to certain conditions, the Energy Supplier, in addition to previously accrued unpaid amounts, shall owe the Commodity Swap Counterparty a make-whole amount equal to the discounted present value of the fee the Commodity Swap Counterparty would have received for the remainder of the then-current Reset Period (a “*Termination Fee*”).

Automatic Termination of Both Commodity Swaps. The occurrence of an Energy Delivery Termination Event under the Prepaid Energy Sales Agreement for any reason would result in the automatic termination of the CCCFA Commodity Swap and the Energy Supplier Commodity Swap; provided that, in the case of any designation by the Energy Supplier of an early termination date under the Energy Supplier Commodity Swap that is conditioned on the termination of the CCCFA Commodity Swap, subject to certain conditions, the Energy Supplier, in addition to previously accrued unpaid amounts, shall owe the Commodity Swap Counterparty a Termination Fee as noted in the previous paragraph. Upon the occurrence of an EMA Early Termination Date and written notice thereof to the Commodity Swap Counterparty, both the CCCFA Commodity Swap and the Energy Supplier Commodity Swap will terminate automatically as of the EMA Termination Date.

Automatic Termination of the CCCFA Commodity Swap. The Energy Supplier's delivery of notice designating an early termination date under the Energy Supplier Commodity Swap results in the automatic termination of the CCCFA Commodity Swap.

Elective Termination of the CCCFA Commodity Swap. Each of the following events of default and termination events would provide the non-defaulting party or the non-affected party (or, in the case of tax indemnification, the party required to make an additional payment or receive a reduced payment) the right to terminate the CCCFA Commodity Swap if it is not cured within the applicable cure period:

- a party's failure to pay amounts due to the other party under the CCCFA Commodity Swap (notwithstanding any payment from the Custodian to CCCFA under the Energy Supplier Custodial Agreement following the Commodity Swap Counterparty's failure to pay any amounts when due);
- if a party becomes subject to certain insolvency events;
- the Commodity Swap Counterparty's Credit Rating is not at least "Baa3" from Moody's and "BBB-" from S&P, where "*Commodity Swap Counterparty's Credit Rating*" means the credit rating assigned by the applicable rating agency to the Commodity Swap Counterparty's senior, unsecured long-term debt obligations (not supported by third party credit enhancements);
- if certain provisions of the Prepaid Energy Sales Agreement related to termination of the Prepaid Energy Sales Agreement or the Receivables Purchase Provisions are modified without the Commodity Swap Counterparty's consent, and the Commodity Swap Counterparty notifies CCCFA (within a specified period) of its determination that such amendment, if not rescinded, would have certain effects on termination of the Prepaid Energy Sales Agreement, the Energy Management Agreement, the CCCFA Commodity Swap and/or the Energy Supplier Commodity Swap;
- CCCFA fails to exercise its right to suspend all energy deliveries under the Power Supply Contract to the Project Participant upon the Project Participant's failure to pay when due any amounts owed to CCCFA thereunder; and
- if the Indenture is modified in breach of the Commodity Swap Counterparty's consent rights under the Indenture.

Automatic Termination of Energy Supplier Commodity Swap. The Commodity Swap Counterparty's delivery of notice designating an early termination date under the CCCFA Commodity Swap results in the automatic termination of the Energy Supplier Commodity Swap.

Elective Termination of the Energy Supplier Commodity Swap. Each of the following events of default or termination events would provide the non-defaulting party or non-affected party (or, in the case of tax indemnification, the party required to make an additional payment or receive a reduced payment) the right to terminate an Energy Supplier Commodity Swap if it is not cured within the applicable cure period:

- a party's failure to pay amounts due to the other party under the Energy Supplier Commodity Swap;

- if a party becomes subject to certain insolvency events;
- credit support default with respect to a party;
- the Commodity Swap Counterparty's Credit Rating is not at least "Baa3" from Moody's and "BBB-" from S&P, with "Commodity Swap Counterparty's Credit Rating" having the meaning described above under *"Elective Termination of the CCCFA Commodity Swap"*;
- if certain provisions of the Prepaid Energy Sales Agreement related to termination of the Prepaid Energy Sales Agreement or the Receivables Purchase Provisions are modified without the Commodity Swap Counterparty's consent, and the Commodity Swap Counterparty notifies the Energy Supplier (within a specified period) of its determination that such amendment, if not rescinded, would have certain effects on termination of the Prepaid Energy Sales Agreement, the Energy Management Agreement, the Energy Supplier Commodity Swap and/or the CCCFA Commodity Swap;
- if the Energy Supplier delivers a notice of termination designating an early termination date under the Energy Supplier Commodity Swap (which must be at least one local business day after the date of such notice), subject to the condition that the CCCFA Commodity Swap must terminate effective as of the same date (provided that, if certain conditions apply, then the Energy Supplier, in addition to previously accrued unpaid amounts, shall owe the Commodity Swap Counterparty a Termination Fee); and
- if the rights and obligations of the Energy Supplier under the Prepaid Energy Sales Agreement are assigned to another entity, or the rights and obligations of either the Energy Supplier or MSCG under the Energy Management Agreement are assigned to another entity, unless either (a) the Commodity Swap Counterparty consents to such assignment or (b) all of the Commodity Swap Counterparty's rights and obligations under the Energy Supplier Commodity Swap are assigned and novated to another entity. See "The Prepaid Energy Sales Agreement—*Assignment*" above.

Other Listed Events. The Commodity Swaps contain other listed events (including breach or repudiation, misrepresentation, illegality and certain tax and credit events) that do not give CCCFA, the Energy Supplier or the Commodity Swap Counterparty the right to designate an early termination date, but which permit the non-defaulting party or the non-affected party to pursue such equitable remedies, including specific performance, as may be available.

Custodial Agreements

The Energy Supplier will enter into the Energy Supplier Custodial Agreement to administer payments under the Energy Supplier Commodity Swap. CCCFA will enter into the CCCFA Custodial Agreement to administer payments under the CCCFA Commodity Swap. The Custodial Agreements contain provisions designed to mitigate risks to CCCFA and Bondholders resulting from a failure of the Commodity Swap Counterparty to make payments to CCCFA under the CCCFA Commodity Swap and mitigate risks to the Energy Supplier resulting from a failure of the Commodity Swap Counterparty to make payments to the Energy Supplier under the Energy Supplier Commodity Swap.

Payments made by the Energy Supplier under the Energy Supplier Commodity Swap will be made to a custodial account maintained by the Custodian under the Energy Supplier Custodial Agreement. Such amounts will not be released until the Custodian has confirmed that the amount payable to CCCFA by a Commodity Swap Counterparty under the CCCFA Commodity Swap for such month has been paid. If a Commodity Swap Counterparty does not make a required payment under the CCCFA Commodity Swap and such payment remains unpaid after the expiration of any grace period, the Custodian will pay the amount that the Energy Supplier paid under the Energy Supplier Commodity Swap (which amount is held in custody) to the Trustee for deposit in the Revenue Fund and that payment will be treated as a Commodity Swap Receipt. Additionally, if the Energy Supplier Commodity Swap terminates, the Energy Supplier will continue to make payments to the custodial account as if the Energy Supplier Commodity Swap were still in effect until the earlier of (i) replacement of the Commodity Swaps in accordance with the requirements of the Prepaid Energy Sales Agreement and (ii) termination of the Prepaid Energy Sales Agreement, and such payments will be used to ensure that CCCFA receives deposits in the Revenue Fund as described in the preceding sentence in the event that the Commodity Swap Counterparty does not make a required payment under the CCCFA Commodity Swap.

Payments made by CCCFA under the CCCFA Commodity Swap will be made to a custodial account maintained by the Custodian under the CCCFA Custodial Agreement. Such amounts will be paid to the Commodity Swap Counterparty on each date when due, provided that if, prior to any such date, the Energy Supplier has instructed the Custodian to hold any scheduled payments to the Commodity Swap Counterparty under the CCCFA Commodity Swap, such amounts will not be released until the Custodian has received confirmation that the amount payable to the Energy Supplier by the Commodity Swap Counterparty under the Energy Supplier Commodity Swap for such month has been paid. If the Commodity Swap Counterparty does not make a required payment under the Energy Supplier Commodity Swap and such payment remains unpaid after the expiration of any grace period, the Custodian will pay the amount that CCCFA paid under the CCCFA Commodity Swap (which amount is held in custody) to the Energy Supplier. Additionally, if the CCCFA Commodity Swap terminates, CCCFA will continue to make payments to the custodial account as if the CCCFA Commodity Swap were still in effect until the earlier of (i) replacement of the Commodity Swaps in accordance with the requirements of the Prepaid Energy Sales Agreement and (ii) termination of the Prepaid Energy Sales Agreement, and such payments will be withdrawn by the Custodian and paid to the Energy Supplier.

THE COMMODITY SWAP COUNTERPARTY

Set forth below is certain information regarding the Commodity Swap Counterparty. CCCFA assumes no responsibility for such information and cannot guarantee the accuracy thereof. Under no circumstance is the Commodity Swap Counterparty obligated to pay any amount owed in respect of the Bonds.

[to be provided]

The delivery of this Official Statement does not imply that there has been no change in the affairs of [] since the date hereof or that the information contained or referred to herein is correct as at any time subsequent to its date.

The foregoing information regarding the Commodity Swap Counterparty has been obtained from sources CCCFA believes to be reliable, but CCCFA assumes no responsibility for the content thereof.

CONTINUING DISCLOSURE

CCCFA. CCCFA will enter into a Continuing Disclosure Undertaking (the “*Undertaking*”) for the benefit of the beneficial owners of the Bonds to send certain information annually and to provide notice of certain events to the MSRB’s EMMA system for municipal securities disclosures (“*EMMA*”), pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (“*Rule 15c2-12*”) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended.

A failure by CCCFA to comply with the Undertaking will not constitute an event of default under the Indenture or the Bonds and Beneficial Owners of the Bonds shall only be entitled to the remedies for any such failure described in the Undertaking. A failure by CCCFA to comply with the Undertaking must be reported in accordance with Rule 15c2-12 and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

The Undertaking and commitments of CCCFA described under this heading and in APPENDIX D hereto to furnish the above-described documents and information are agreements and commitments solely of CCCFA, and the Underwriter has no responsibility to ensure that CCCFA complies with any such Undertaking or commitment. In addition, the Underwriter makes no representation that any such documents or information will be furnished, or that any such documents or information so furnished will be accurate or complete, or sufficient for the purposes for which they may be used.

CCCFA has previously entered into continuing disclosure undertakings pursuant to Rule 15c2-12. CCCFA has adopted a written policy that sets forth procedures for compliance with the federal tax and continuing disclosure requirements applicable to its bonds. The policy includes, among other things, procedures that are intended to promote CCCFA’s compliance with the Undertaking.

During the five-year period preceding the date of this Official Statement, CCCFA has determined that certain financial information relating to a project participant for its fiscal year ending June 30, 2021 and unaudited financial statements for its fiscal year ending December 31, 2023 were filed late. CCCFA subsequently filed such information and unaudited financial statements on the Municipal Securities Rulemaking Board Electronic Municipal Market Access System. CCCFA has engaged BLX Group to assist with its continuing disclosure obligations.

Project Participant. Pursuant to the Power Supply Contract, the Project Participant has agreed to provide to CCCFA certain annual operating and financial information, which information will enable CCCFA to comply with the Undertaking. Failure of the Project Participant to provide such information is not a default under its Power Supply Contract, but any such failure entitles CCCFA to take such actions and to initiate such proceedings as shall be necessary to cause the Project Participant to comply with its undertaking as set forth in its Power Supply Contract.

LITIGATION

There are no legal proceedings pending against CCCFA relating to the issuance, sale or delivery of the Bonds which could adversely affect the Clean Energy Project. In addition, there is no litigation pending or, to the knowledge of CCCFA, threatened against or affecting CCCFA or in any way questioning or in any manner affecting the validity or enforceability against CCCFA of the Bonds, the Power Supply

Contract, the Prepaid Energy Sales Agreement, the CCCFA Commodity Swap, the Receivables Purchase Provisions, the Debt Service Account Investment Agreement, the Custodial Agreements, the Indenture, or the pledge of the Trust Estate under the Indenture.

The Project Participant reports that there is no litigation pending or, to its knowledge, threatened against it questioning or in any manner affecting the validity or enforceability of the Power Supply Contract.

FINANCIAL STATEMENTS

CCCFA's audited financial statements for the fiscal year ended December 31, 2023 are available on EMMA, and are hereby incorporated into this Official Statement.

Pursuant to the Undertaking described under "CONTINUING DISCLOSURE" above, CCCFA has agreed to file its audited financial statements and the audited financial statements of the Project Participant, commencing with its audited financial statements for its fiscal year ended December 31, 2024 and the Project Participant's audited financial statements for its fiscal year ended June 30, 2025, on EMMA.

FINANCIAL ADVISOR

PFM Financial Advisors LLC (the "*Financial Advisor*") has served as financial advisor to CCCFA in connection with the Clean Energy Project and the Bonds. Among other responsibilities, the Financial Advisor has provided advice and recommendations to CCCFA with respect to the structure, timing, terms of and similar matters relating to the Bonds, bond market conditions, costs of issuance and other matters relating to the Bonds and the Clean Energy Project. The Financial Advisor has also provided advice and recommendations to CCCFA, and has served as CCCFA's "qualified independent representative," with respect to the CCCFA Commodity Swap. The Financial Advisor has reviewed this Official Statement, but has not audited, authenticated or otherwise verified the information set forth herein, and makes no guaranty, warranty or representation with respect to the accuracy and completeness of the information contained in this Official Statement. The Financial Advisor's fees are contingent upon the sale and delivery of the Bonds, and are based, in part, on the proceeds of the Bonds.

UNDERWRITING

Pursuant to the purchase contract relating to the Bonds between CCCFA and Morgan Stanley & Co. LLC, as the underwriter of the Bonds (the "*Underwriter*"), the Underwriter has agreed, subject to certain conditions to purchase the Bonds from CCCFA at an aggregate purchase price of \$_____ (representing the principal amount of the Bonds, plus original issue premium of \$_____, less Underwriter's discount of \$_____). The obligation of the Underwriter to purchase the Bonds is subject to certain terms and conditions set forth in the purchase contract. The Underwriter is obligated to purchase all the Bonds if any are purchased. The Bonds may be offered and sold to certain dealers and others at prices lower than the initial offering prices, and such initial offering prices may be changed from time to time by the Underwriter. The Underwriter has no obligations other than those that are set forth in the purchase contract. The payment of the Bonds is not guaranteed by the Underwriter.

Morgan Stanley & Co. LLC has entered into a retail distribution arrangement with its affiliate Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley & Co. LLC may distribute municipal securities to retail investors through the financial advisor network of Morgan

Stanley Smith Barney LLC. As part of this arrangement, Morgan Stanley & Co. LLC may compensate Morgan Stanley Smith Barney LLC for its selling efforts with respect to the Bonds.

Morgan Stanley & Co. LLC (together with its affiliates) is a full service financial institution engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Morgan Stanley & Co. LLC and its affiliates have provided, and may in the future provide, a variety of these services to CCCFA and to persons and entities with relationships with CCCFA, for which they received or will receive customary fees and expenses.

In the ordinary course of its various business activities, the Underwriter and its affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own accounts and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of CCCFA (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with CCCFA. The Underwriter and its affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

The Underwriter is not acting as financial advisor to CCCFA in connection with the Bonds or the offering or sale of the Bonds.

CERTAIN RELATIONSHIPS

The Energy Supplier is the prepaid seller under the Prepaid Energy Sales Agreement, the Receivable Purchaser, the electricity purchaser under the Energy Management Agreement, the lender under the Funding Agreement and a party to the Energy Supplier Commodity Swap, and is wholly owned by MSCG. MSCG is the sole member of the Energy Supplier and the electricity seller under the Energy Management Agreement, and is a wholly owned subsidiary of Morgan Stanley. Morgan Stanley & Co. LLC, the Underwriter, is a wholly owned subsidiary of Morgan Stanley. The payment obligations of MSCG under the Energy Management Agreement are unconditionally guaranteed by the Morgan Stanley Guarantee.

Neither the Energy Supplier nor Morgan Stanley has guaranteed or is responsible for the payment of the Bonds.

RATING

Moody's Investors Service, Inc. has assigned a municipal bond rating of "[]" to the Bonds.

CCCFA has furnished to each rating agency that is expected to rate the Bonds certain information, including information not included in this Official Statement, about CCCFA and the Bonds. Generally, a rating agency bases its ratings on that information and on independent investigations, studies and assumptions made by each rating agency. A securities rating is not a recommendation to buy, sell or hold securities. There is no assurance that a rating, once obtained, will continue for any given period of time or

that it will not be revised downward or withdrawn entirely if, in the opinion of the rating agency, circumstances so warrant. Any such downward revision or withdrawal could have an adverse effect on the marketability or market price of the Bonds. CCCFA has not undertaken any responsibility after issuance of the Bonds to assure the maintenance of the ratings applicable thereto or to oppose any revision or withdrawal of such ratings.

TAX MATTERS

In the opinion of Ballard Spahr LLP, Bond Counsel to CCCFA, interest on the Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Bonds, assuming the accuracy of the certifications of CCCFA and continuing compliance by CCCFA with the requirements of the Internal Revenue Code of 1986, as amended (the “Code”). Interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, such interest is taken into account in determining the “adjusted financial statement income” (as defined in Section 56A of the Code) for purposes of computing the alternative minimum tax imposed on such corporations.

The Code contains a number of restrictions and requirements that apply to the Bonds, including, without limitations, (i) investment restrictions, (ii) requirements for periodic payments of arbitrage profits to the United States, and (iii) rules regarding the proper use of the proceeds of the Bonds and the facilities to be financed or refinanced with such proceeds. CCCFA has covenanted to comply with all of the restrictions and requirements of the Code that must be satisfied in order for the interest on the Bonds to be and remain excludable from the gross income of the owners thereof for federal income tax purposes.

Original Issue Discount. Certain of the Bonds may be offered at a discount (“original issue discount”) equal generally to the difference between the public offering price and the principal amount. For federal income tax purposes, original issue discount on a Bond accrues periodically over the term of such Bond as interest with the same tax exemption and alternative minimum tax status as stated interest. The accrual of original issue discount increases the bondholder’s tax basis in the Bond for determining taxable gain or loss upon sale or redemption prior to maturity. Bondholders should consult their tax advisers for an explanation of the accrual rules.

Original Issue Premium. Certain of the Bonds may be offered at a premium (“original issue premium”) over their principal amount. For federal income tax purposes, original issue premium is amortizable periodically over the term of a Bond through reductions in the bondholder’s tax basis for the Bond for determining taxable gain or loss upon sale or redemption prior to maturity. Amortization of premium does not create a deductible expense or loss. Bondholders should consult their tax advisers for an explanation of the amortization rules.

Information Reporting and Backup Withholding. A person making payments of tax-exempt interest to a bondholder is generally required to make an information report of the payments to the Internal Revenue Service and to perform “backup withholding” from the interest if the bondholder does not provide an IRS Form W-9 to the payor. “Backup withholding” means that the payor withholds tax from the interest payments at the backup withholding rate, currently 24%. Form W-9 sets forth the bondholder’s taxpayer identification number or basis of exemption from backup withholding.

If a bondholder purchasing a Bond through a brokerage account has executed a Form W-9 in connection with the account, as generally can be expected, there should be no backup withholding from the interest on the Bond.

If backup withholding occurs, it does not affect the excludability of the interest on the Bonds from gross income for federal income tax purposes. Any amounts withheld pursuant to backup withholding

would be allowed as a refund or a credit against the bondholder's federal income tax once the required information is furnished to the Internal Revenue Service.

Bond Counsel expresses no opinion regarding any other federal tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

Bond Counsel is also of the opinion that interest on the Bonds is exempt from State of California personal income taxes. Bond Counsel will express no opinion regarding other state or local tax consequences arising with respect to the Bonds, including whether interest on the Bonds is exempt from taxation under the laws of any jurisdiction other than the State of California.

These opinions expressed by Bond Counsel are based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Bonds, and Bond Counsel will not express any opinion as of any date subsequent thereto or with respect to any proposed or pending legislation, regulatory initiatives or litigation.

The foregoing is only a general summary of certain provisions of the Code as enacted and in effect on the date hereof and does not purport to be complete; holders of the Bonds should consult their own tax advisors as to the effects, if any, of the Code in their particular circumstances.

A complete copy of the proposed form of opinion of Bond Counsel is set forth in Appendix E hereto.

APPROVAL OF LEGAL MATTERS

The validity of the Bonds and certain other legal matters are subject to the approving opinion of Ballard Spahr LLP, Bond Counsel to CCCFA. A complete copy of the proposed form of the opinion of Bond Counsel is contained in APPENDIX E to this Official Statement.

Certain legal matters will be passed upon for CCCFA by Ballard Spahr LLP; for the Project Participant by Chapman and Cutler LLP; for the Energy Supplier by its counsel, Sheppard, Mullin, Richter & Hampton LLP; and for the Underwriter by Nixon Peabody LLP.

CCCFA will receive an opinion from counsel to the Project Participant on the date of original delivery of the Bonds, to the effect that the Power Supply Contract of the Project Participant has been duly authorized, executed and delivered by the Project Participant and constitutes the legal, valid and binding obligation of the Project Participant enforceable in accordance with its terms. The enforceability of the Power Supply Contract may be limited by or subject to applicable bankruptcy, insolvency, moratorium, reorganization, other laws affecting creditors' rights generally and by general principles of equity, public policy and commercial reasonableness.

MISCELLANEOUS

Any statements in this Official Statement involving matters of opinion, estimates or forecasts, whether or not expressly so stated, are intended as such and not as representations of fact. The Appendices attached hereto are an integral part of this Official Statement and must be read in conjunction with the foregoing material. This Official Statement is not to be construed as a contract or agreement between CCCFA and the purchasers or owners of the Bonds.

The delivery of this Official Statement has been duly authorized by the Board of Directors of CCCFA.

APPENDIX A
THE PROJECT PARTICIPANT

APPENDIX B DEFINITIONS OF CERTAIN TERMS

“*Account*” or “*Accounts*” means, as the case may be, each or all of the Accounts established in and pursuant to the Indenture.

“*Act*” means the Joint Exercise of Powers Act constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500) of the California Government Code, as amended or supplemented from time to time.

“*Administrative Fee Fund*” means the Administrative Fee Fund established in the Indenture.

“*Advance*” means the amounts paid to the Trustee, on behalf of CCCFA, pursuant to the Custodial Agreements.

“*Alternate Liquidity Facility*” means a Liquidity Facility for a Series of Bonds delivered to the Trustee in substitution for a Liquidity Facility then in effect with respect to such Bonds.

“*Amortized Value*” means, with respect to any Bond to be redeemed during the Initial Interest Rate Period, the principal amount of such Bond multiplied by the price of such Bond expressed as a percentage, calculated by a major market maker in municipal securities, as the quotation agent, selected by CCCFA, based on the industry standard method of calculating bond prices (as such industry standard prevailed on the date such Bond began to bear interest at its current Term Rate), with a delivery date equal to the date of redemption of such Bond, a maturity date equal to the earlier of (a) the stated maturity date of such Bond or (b) the Term Rate Tender Date of such Bond and a yield equal to such Bond’s original reoffering yield (as set forth on the inside cover page of this Official Statement) on the date such Bond began to bear interest at its current Term Rate. The Amortized Value of the Bonds as of certain dates during the Initial Interest Rate Period is shown on Appendix H.

“*Annual Quantity*” means, with respect to each Contract Year of the Delivery Period, the quantity (in MWh) of Assigned Product for such Contract Year as set forth in the applicable exhibit to the Power Supply Contract for such Contract Year; provided that the Annual Quantity for any Contract Year shall be reduced by the aggregate quantities of Base Energy required to be remarketed under the Power Supply Contract for any given Contract Year.

“*Applicable Factor*” means (a) with respect to the initial issuance of a Series of Bonds bearing interest at a SOFR Index Rate, the percentage or factor of the SOFR Index determined by the Underwriter and specified in the Index Rate Determination Certificate for such Series of Bonds, or (b) with respect to a Series of Bonds for which the Interest Rate Period is being converted to a SOFR Index Rate Period (including a change in such Interest Rate Period from one SOFR Index Rate Period to another SOFR Index Rate Period), the percentage or factor of the SOFR Index determined by the Remarketing Agent and specified in the applicable Index Rate Determination Certificate or Index Rate Continuation Notice, provided in each case that the Issuer delivers to the Trustee a Favorable Opinion of Bond Counsel addressing the selection of such percentage or factor. The Applicable Factor shall be determined by the Underwriter or the Remarketing Agent, as applicable, in accordance with the Indenture and included in the applicable Index Rate Determination Certificate, and once determined shall remain constant for the duration of the applicable SOFR Index Rate Period.

“Applicable Spread” means, with respect to a Series of Bonds for which the Initial Interest Rate Period is an Index Rate Period, or for any Series of Bonds for which the Interest Rate Period is converted to an Index Rate Period, the margin or spread, which may be positive or negative, determined by the Underwriter or the Remarketing Agent, as applicable, in accordance with the Indenture, on or prior to the Issue Date or Conversion Date for such Bonds, as applicable, and specified in the applicable Supplemental Indenture or Index Rate Determination Certificate or Index Rate Continuation Notice, as applicable, which shall be added to the applicable Index (or the product of the Applicable Factor and the applicable Index, as the case may be) to determine the Index Rate. Once so determined, Applicable Spread shall remain constant for the duration of the applicable Index Rate Period.

“Assigned Delivery Point” means the delivery point for Assigned Energy as set forth in the applicable Assignment Agreement.

“Assigned Energy” means EPS Compliant Energy assigned pursuant to an Assignment Agreement.

“Assigned Paygo Quantity” means any Assigned Products delivered under the Power Supply Contract in excess of the Annual Quantity for any Contract Year.

“Assigned PPAs” means the initially Assigned PPAs, and any future power purchase contracts assigned by the Project Participant.

“Assigned PPA Index Adder” means the amount (in \$/MWh) specified in the Power Supply Contract for each Month of the Delivery Period.

“Assigned Product” means, as applicable, PCC1 Product, Long-Term PCC1 Product, PCC2 Product, Assigned Energy, Assigned RECs and any other product included in an Assignment Agreement

“Assigned RECs” means any RECs to be delivered to MSCG or the Energy Supplier pursuant to any Assigned Rights and Obligations.

“Assigned Rights and Obligations” means a portion of the Project Participant’s rights and obligations under a power purchase agreement assigned pursuant to an Assignment Agreement.

“Assignment Agreements” mean the Initial Assignment Agreement and any subsequent assignment agreement entered into consistent with the Assignment Letter Agreement.

“Assignment Letter Agreements” means those certain Letter Agreements, dated as of the date of the Prepaid Energy Sales Agreement, by and among MSCG, the Energy Supplier, CCCFA and the Project Participant.

“Assignment Payment” means any payment received from the Energy Supplier, or the Master Custodian on its behalf, in connection with an assignment of the Energy Management Agreement to a replacement Seller, as such term is defined in the Energy Management Agreement.

“Assignment Payment Fund” means the Assignment Payment Fund established under the Indenture.

“Authorized Denominations” means, with respect to the Bonds, denominations of \$5,000 and any integral multiple thereof

“Authorized Newspaper” means The Wall Street Journal or The Bond Buyer or any other newspaper or journal printed in the English language and customarily published on each Business Day devoted to financial news and selected by CCCFA, with prior written notice to and approval of the Trustee, whose decision shall be final.

“Authorized Officer” means (a) the Treasurer/Controller of CCCFA, and (b) any other person or persons designated by the Board by resolution to act on behalf of CCCFA under the Indenture. The designation of such person or persons shall be evidenced by a Written Certificate of CCCFA delivered to a Responsible Officer of the Trustee containing the specimen signature of such person or persons and signed on behalf of CCCFA by its Treasurer/Controller, which incumbency certificate shall be amended by CCCFA, with notice to a Responsible Officer of the Trustee and the Custodian, whenever a person is to be added or deleted from the listing. Such designation as an Authorized Officer shall remain in effect until a Responsible Officer of the Trustee receives actual written notice from CCCFA to the contrary, accompanied by a new certificate.

“Base Energy” means Firm (LD) Energy to be delivered to an Energy Delivery Point.

“Beneficial Owner” means, with respect to Bonds registered in the Book-Entry System, any Person who acquires a beneficial ownership interest in a Bond held by the Securities Depository, and the term “Beneficial Ownership” shall be interpreted accordingly.

“Board” means the Board of Directors of CCCFA, or if said Board is abolished, the board, body, commission or agency succeeding to the principal functions thereof or to whom the power and duties granted or imposed by the Indenture are given by law, and which shall be identified in a Written Notice of the Issuer delivered to the Trustee.

“Bond Counsel” means Ballard Spahr LLP or any other counsel of nationally recognized standing in matters pertaining to the tax exempt status of interest on obligations issued by states and their political subdivisions and instrumentalities, duly admitted to the practice of law before the highest court of any state of the United States, and selected by CCCFA.

“Bond Payment Date” means each date on which (a) interest on the Bonds is due and payable, (b) an Interest Rate Swap Payment is due, or (c) principal of the Bonds is payable at maturity or pursuant to Sinking Fund Installments.

“Bond Purchase Fund” means the fund by that name established pursuant to the Indenture, including the Remarketing Proceeds Account and the Issuer Purchase Account.

“Bond Registrar” means the Trustee and any other bank or trust company organized under the laws of any state of the United States of America or national banking association appointed by CCCFA to perform the duties of Bond Registrar under the Indenture.

“Bondholder” or *“Holder”* or *“Owner”* means any Person who shall be the registered owner of any Bond or Bonds.

“*Business Day*” means any day other than (a) a Saturday or Sunday, (b) a day on which commercial banks in New York, New York, or the cities in which are located the designated corporate trust offices of the Trustee, the Custodian, or the Calculation Agent are authorized by law or executive order to close, (c) a day on which the New York Stock Exchange, Inc. is closed, (d) a day on which the payment system of the Federal Reserve System is not operational, and (e) for purposes of determining the SIFMA Index Rate and the SOFR Index Rate, any day that SIFMA recommends that the fixed income departments of its members be closed for the purposes of trading fixed-income securities.

“*CAISO*” means California Independent System Operator or its successor.

“*Calculation Agent*” means, with respect to any Series of Bonds bearing interest at an Index Rate, the Calculation Agent with respect to such Bonds appointed by the Issuer in a Written Instrument to the Trustee, pursuant to the applicable Calculation Agent Agreement and the Indenture.

“*CCCFA*” or the “*Issuer*” means the California Community Choice Financing Authority.

“*CCCFA Custodial Agreement*” means the Custodial Agreement, dated as of the date of issuance of the Bonds, by and among the Commodity Swap Counterparty, CCCFA, and The Bank of New York Mellon Trust Company, N.A., as Trustee and custodian, as the same may be amended, modified or supplemented from time to time.

“*CCCFA Commodity Swap*” means the ISDA Master Agreement, Schedule and Confirmation between CCCFA and the Commodity Swap Counterparty, or any replacement agreement permitted by the Indenture, pursuant to which CCCFA will pay to the Commodity Swap Counterparty an index based floating price and the Commodity Swap Counterparty will pay to CCCFA a fixed price in relation to the quantities of Energy to be delivered under the Prepaid Energy Sales Agreement.

“*Cede*” means Cede & Co., the nominee of DTC, and any successor nominee of DTC with respect to the Bonds pursuant to Section 3.09.

“*Clean Energy Project*” means CCCFA’s purchase of Energy pursuant to the Prepaid Energy Sales Agreement and related contractual arrangements and agreements, and the purchase of any Energy to replace Energy not delivered as required pursuant to the Prepaid Energy Sales Agreement.

Any such instrument and any supporting opinions or certificates may, but need not, be combined in a single instrument with any other instrument, opinion or certificate, and the two or more so combined shall be read and construed so as to form a single instrument. Any such instrument may be based, insofar as it relates to legal, accounting or engineering matters, upon the opinion or certificate of counsel, consultants, accountants or engineers, unless the Authorized Officer signing such Written Certificate, Direction, Instrument, Notice, Request or Statement knows, or in the exercise of reasonable care should know, that the opinion or certificate with respect to the matters upon which such Written Certificate, Direction, Instrument, Notice, Request or Statement may be based, as aforesaid, is erroneous. The same Authorized Officer, or the same counsel, consultant, accountant or engineer, as the case may be, need not certify to all of the matters required to be certified under any provision of the Indenture, but different Authorized Officers, counsel, consultants, accountants or engineers may certify to different facts, respectively. Every Written Certificate, Direction, Instrument Notice, Request or Statement of CCCFA, and every certificate or opinion of counsel, consultants, accountants or engineers provided for herein shall include:

- (a) a statement that the person making such certificate, direction, instrument, notice, request, statement or opinion has read the pertinent provisions of the Indenture to which such certificate, direction, notice, request, statement or opinion relates;
- (b) a brief statement as to the nature and scope of the examination or investigation upon which the certificate, direction, instrument, notice, request, statement or opinion is based;
- (c) a statement that, in the opinion of such person, he or she has made such examination or investigation as is necessary to enable him or her to express an informed opinion

with respect to the subject matter referred to in the instrument to which his or her signature is affixed; and

(d) with respect to any statement relating to compliance with any provision hereof, a statement whether or not, in the opinion of such person, such provision has been complied with.

APPENDIX C

SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE

The following is a brief summary of certain provisions of the Indenture pertaining to the Bonds. Such summary does not purport to be complete and reference is made to the Indenture for full and complete statements of all provisions of the Indenture.

DEFINITIONS

See “DEFINITIONS OF CERTAIN TERMS” in APPENDIX B for the definitions of terms used but not otherwise defined in this APPENDIX C.

SUBSEQUENT INTEREST RATE PERIODS

As provided in the Indenture, the term of the Bonds will be divided into consecutive Interest Rate Periods during each of which such Bonds shall bear interest at the Daily Interest Rate, the Weekly Interest Rate, CP Interest Term Rates, Term Rates or an Index Rate; *provided, however*, that the Interest Rate Period shall be the same for all Bonds of a Series, and, notwithstanding anything in the Indenture to the contrary, no Bond shall bear interest in excess of the Maximum Rate.

(Section 2.04)

TERM RATE PERIOD

(a) *Determination of Term Rates.* For each Term Rate Period for a Series of Bonds, (i) the Issuer may by Written Notice to the Trustee delivered in connection with a Term Rate Conversion Date establish one or more Maturity Dates for the Bonds of such Series and Sinking Fund Installments for any maturities of the Bonds of such Series, and (ii) each maturity of the Bonds of such Series shall bear interest at a Term Rate; provided that the Term Rate, Maturity Dates and Sinking Fund Installments for each maturity of Bonds of any Series upon initial issuance of such Bonds, if any, shall be specified in the Indenture or a Supplemental Indenture providing for the issuance of such Series of Bonds. The Term Rate for each maturity of Bonds of a Series bearing interest in the Term Rate Period shall be determined by the Underwriter or the Remarketing Agent, as applicable, on a Business Day no later than the Issue Date or the Term Rate Conversion Date for such Series of Bonds, as applicable. Subject to the provisions of the Indenture described in paragraph (d) below, each Term Rate shall be the rate of interest per annum determined by the Underwriter or the Remarketing Agent, as applicable, to be the minimum interest rate which, if borne by the Bonds of the applicable Series and maturity, would enable the Underwriter or the Remarketing Agent, as the case may be, to sell such Bonds and maturity on such date at a price (without regard to accrued interest) equal to 100% of the principal amount thereof. If, for any reason, with respect to any Series of Bonds being converted to a Term Rate Period, the Term Rate for such Term Rate Period is not determined by the Remarketing Agent on or prior to the first day of such Term Rate Period, then the Interest Rate Period for the Bonds of the applicable Series shall be a Weekly Interest Rate Period and such Weekly Interest Rate Period shall continue until such time as the Interest Rate Period for such Series of Bonds shall have been converted to a Daily Interest Rate Period, a Commercial Paper Interest Rate Period, a Term Rate Period or an Index Rate Period as provided in the Indenture.

(b) *Conversion to or Continuation of Term Rate Period.* Subject to the provisions of the Indenture, at any time, the Issuer, in a Written Direction of the Issuer delivered to the Trustee and the Remarketing Agent (if any), may elect that a Series of Bonds shall bear interest at Term Rates. Such direction of the Issuer shall specify (i) the proposed effective date of the Term Rate Period, which date shall

be a Business Day not earlier than the 30th day following receipt by the Trustee of such Written Direction of the Issuer, and either (A) in the case of a Conversion from a Commercial Paper Interest Rate Period, an Index Rate Period or a Term Rate Period, the day immediately following the last day of such Interest Rate Period, or (B) a day on which all of the Outstanding Bonds of such Series are subject to optional redemption pursuant to the provisions of the Indenture or an applicable Supplemental Indenture; (ii) the last day of such Term Rate Period, which day shall be either the day immediately prior to the Final Maturity Date for the applicable Series of Bonds, or a day which both immediately precedes a Business Day and is at least one hundred eighty one (181) days after the effective date of the Term Rate Period; and (iii) with respect to any such Term Rate Period, may specify redemption prices and periods different than those set forth in the Indenture or the applicable Supplemental Indenture providing for the issuance of such Series of Bonds, subject to the Favorable Opinion of Bond Counsel as provided in the provisions of the Indenture described in this paragraph. In addition, such direction shall be accompanied by the form of a Favorable Opinion of Bond Counsel proposed to be delivered on the Term Rate Conversion Date and by a form of the notice to be mailed by the Trustee as provided in the provisions of the Indenture described in paragraph (c) below. Upon Conversion of any Series of Bonds to the Term Rate Period and until the day immediately preceding the effective date of the next succeeding Interest Rate Period under the terms of the Indenture, the interest rate or rates borne by such Series of Bonds shall be Term Rates as provided in the Indenture. The day following the last day of any Term Rate Period for a Series of Bonds shall be a Term Rate Tender Date for such Series of Bonds. After the Final Fixed Rate Conversion Date for a Series of Bonds, the Bonds of such Series shall no longer be subject to or have the benefit of the provisions of the Indenture.

(c) *Notice of Conversion to or Continuation of Term Rate.* Following timely receipt of a Written Direction of the Issuer directing the Conversion of a Series of Bonds to the Term Rate Period as provided in the provisions of the Indenture described in paragraph (b) above, the Trustee shall give notice by first-class mail of the Conversion of such Bonds to bear interest in a (or the establishment of another) Term Rate Period for a Series of Bonds to the Owners of the Bonds of such Series not less than thirty (30) days prior to the proposed effective date of such Term Rate Period. Such notice shall be in the form provided to the Trustee pursuant to the Indenture to state: (i) that the Interest Rate Period for such Bonds shall be converted to, or continue to be, a Term Rate Period unless (A) the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Term Rate Period as provided in the Indenture or (B) Bond Counsel shall fail to deliver a Favorable Opinion of Bond Counsel as to such Conversion on the Term Rate Conversion Date; (ii) that such Bonds are subject to mandatory tender for purchase on the Term Rate Conversion Date and setting forth the applicable Purchase Price and the place of delivery for purchase of such Bonds; (iii) that the Bonds of such Series are subject to mandatory tender for purchase on the proposed Conversion Date unless the Issuer rescinds its election to convert the Interest Rate Period for the Bonds of such Series to a Term Rate Period as provided in the Indenture; and (iv) the applicable Purchase Price and the place of delivery for purchase of such Bonds.

(d) *Sale at Premium or Discount.* Notwithstanding the provisions of the Indenture described in paragraph (a) above, the Term Rate for each maturity of any Series of Bonds as initially issued, or the Term Rate for each maturity of any other Series of Bonds upon Conversion to a Term Rate Period, shall be the rate of interest per annum determined by the Underwriter or the Remarketing Agent, as applicable, to be the interest rate which, if borne by the Bonds of such Series and maturity, would enable the Underwriter or the Remarketing Agent, as applicable, to sell the Bonds of such Series and maturity at a price (without regard to accrued interest) which will result in the lowest net interest cost for the Bonds of such Series and maturity, after taking into account any premium or discount at which the Bonds of such Series and maturity are sold by the Underwriter or the Remarketing Agent, as applicable, provided that: (i) The Underwriter or the Remarketing Agent, as applicable, certifies in writing to the Trustee and the Issuer that the sale of the Bonds of such Series at the interest rate and premium or discount specified by the Underwriter or the Remarketing Agent, as applicable, is expected to result in the lowest net interest cost for such Bonds;

(i) The Issuer consents in writing to the sale of the Bonds of such Series at such premium or discount;

(ii) In the case of the Bonds of such Series to be sold at a premium, the Underwriter or the Remarketing Agent, as applicable, shall transfer the amount of such premium to the Trustee for deposit into such Funds and Accounts as shall be specified in a Written Direction of the Issuer;

(iii) On or before the date of determination of the Term Rates for the Bonds of such Series, the Issuer delivers to the Trustee and the Remarketing Agent a form of a Favorable Opinion of Bond Counsel proposed to be delivered on the Term Rate Conversion Date; and

(iv) On or before the Conversion Date, a Favorable Opinion of Bond Counsel shall have been delivered to the Trustee.

(Section 2.07)

PROVISIONS REGARDING INTEREST RATE SWAP

(a) In connection with the issuance of any Variable Rate Series of Bonds, or the Conversion of any Series of Bonds, to bear interest in a Daily Interest Rate Period, a Weekly Interest Rate Period, an Index Rate Period or a Commercial Paper Interest Rate Period, the Issuer shall enter into an Interest Rate Swap with an Interest Rate Swap Counterparty. The following shall apply to the Interest Rate Swap:

(i) The method for the calculation of the Interest Rate Swap Payments and Interest Rate Swap Receipts, as applicable, and the scheduled payment dates therefor are set forth in the Interest Rate Swap;

(ii) Interest Rate Swap Payments shall be made by the Trustee (for the account of the Issuer) from the Debt Service Account on parity with principal and interest payments on Bonds; and

(iii) Interest Rate Swap Receipts shall be payable directly to the Trustee (for the account of the Issuer) and shall be deposited directly into the Debt Service Account.

(b) The following shall apply with respect to restrictions on replacement and termination of the Interest Rate Swap:

(i) The Issuer agrees that it will not exercise any right to declare an early termination date under the Interest Rate Swap unless either (A) the Issuer has entered into a replacement Interest Rate Swap in accordance with clause (ii) and (iii) below, and such replacement Interest Rate Swap will be effective as of such early termination date and cover interest rate exposure from and after such early termination date, or (B) in all other cases, the Prepaid Energy Sales Agreement will terminate prior to or as of such early termination date.

(ii) The Issuer may replace the Interest Rate Swap (and any related guaranty of the Interest Rate Swap Counterparty's obligations thereunder) with a similar agreement for the same hedging purposes with an alternate Interest Rate Swap Counterparty at any time upon delivery to the Trustee of a Rating Confirmation.

(iii) If the Interest Rate Swap is subject to termination (or, in the case of clause (B) below, is terminated) by either party in accordance with its terms, then (A) the Issuer may, subject

to clause (i) above, terminate the Interest Rate Swap if the Issuer has the right to do so, and (B) the Issuer may enter into a replacement Interest Rate Swap with an alternate Interest Rate Swap Counterparty without Rating Confirmation, but only if the replacement Interest Rate Swap is identical in all material respects to the existing Interest Rate Swap, except for the identity of the Interest Rate Swap Counterparty, and (1) the alternate Interest Rate Swap Counterparty (or its credit support provider under the Interest Rate Swap) is then rated at least the lower of (a) the credit rating of the Funding Recipient or (b) at least as highly as the rating then assigned by each Rating Agency to the Bonds, or (2) the Interest Rate Swap Counterparty provides such collateral and security arrangements as the Issuer shall determine to be necessary.

(Section 2.13)

MANDATORY TENDER FOR PURCHASE ON CONVERSION OF INTEREST RATE PERIOD

Eligible Bonds of a Series shall be subject to mandatory tender for purchase on each Conversion Date (which shall be a Mandatory Purchase Date) at the applicable Purchase Price, payable in immediately available funds. The Purchase Price of any Bond so purchased shall be payable from the sources and in the order of priority specified in the Indenture only upon surrender of such Bond to the Trustee at its designated corporate trust office, accompanied by an instrument of transfer thereof, in form satisfactory to such Trustee, executed in blank by the Owner thereof or by the Owner's duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange at or prior to 10:00 a.m., New York City time, on the date specified for such delivery as described in this paragraph or in the notice provided pursuant to the Indenture.

(Section 4.14)

GENERAL PROVISIONS RELATING TO TENDERS

(a) *Creation of Bond Purchase Fund.*

(i) There shall be created and established under the Indenture with the Trustee a fund to be designated the "Bond Purchase Fund" to be held in trust only for the benefit of the Owners of tendered Bonds who shall thereafter be restricted exclusively to the moneys held in such fund for the satisfaction of any claim for the Purchase Price of such tendered Bonds. The Bond Purchase Fund and the Accounts therein are not Pledged Funds.

(ii) There shall be created and designated under the Indenture the following Accounts with respect to each Series of Bonds within the Bond Purchase Fund: the "Remarketing Proceeds Account" and the "Issuer Purchase Account." Moneys paid to the Trustee for the purchase of tendered or deemed tendered Bonds of a Series received from (A) the Remarketing Agent shall be deposited in the Remarketing Proceeds Account for such Series in accordance with the provisions of the Indenture described under the first paragraph of "*Deposits of Funds*" below and (B) the Issuer shall be deposited in the Issuer Purchase Account in accordance with the provisions of the Indenture described under the second paragraph of "*Deposits of Funds*" below. Moneys provided by the Issuer not required to be used in connection with the purchase of tendered Bonds shall be returned to the Issuer in accordance with the provisions of the Indenture described under "*Deposits of Funds*" and "*Disbursements; Payment of Purchase Price*" below.

(iii) Moneys in the Issuer Purchase Account and the Remarketing Proceeds Account with respect to a Series of Bonds shall not be commingled with other funds held by the Trustee and shall remain uninvested. The Issuer shall have no right, title or interest in any of the funds held on

deposit in the Remarketing Proceeds Account or any remarketing proceeds held for any period of time by the Remarketing Agent.

(b) *Deposit of Bonds.* The Trustee agrees to hold all Bonds delivered to it pursuant to the Indenture in trust for the benefit of the respective Owners which shall have so delivered such Bonds until moneys representing the Purchase Price of such Bonds have been delivered to such Owner in accordance with the provisions of the Indenture and until such Bonds shall have been delivered by the Trustee in accordance with the provisions of the Indenture described under “*Delivery of Purchased Bonds*” below.

(c) *Remarketing of Bonds.*

(i) Immediately upon its receipt, but not later than noon, New York City time on the following Business Day, from an Owner of a Bond bearing interest at a Daily Interest Rate or a Weekly Interest Rate of a notice pursuant to the Indenture, the Trustee shall notify the Remarketing Agent by telephone, promptly confirmed in writing by Electronic Means, of such receipt, specifying the principal amount of Bonds for which it has received such notice, the names of the Owners thereof and the date on which such Bonds are to be purchased in accordance with the Indenture.

(ii) As soon as practicable, but in no event later than 10:15 a.m., New York City time, on a Purchase Date, the Remarketing Agent shall inform the Trustee by telephone, promptly confirmed in writing, by Electronic Means, of the principal amount of Purchased Bonds to be purchased on such date, the name, address and taxpayer identification number of each such purchaser, and the Authorized Denominations in which such Purchased Bonds are to be delivered. Upon receipt from the Remarketing Agent of such information, and in no event later than 12:30 p.m., New York City time, on the Purchase Date, the Trustee shall prepare Purchased Bonds in accordance with such information received from the Remarketing Agent for the registration of transfer and redelivery to the Remarketing Agent pursuant to “*Delivery of Purchased Bonds*” below.

(iii) Any Purchased Bonds which are subject to mandatory tender for purchase in accordance with the Indenture which are not presented to the Trustee on the Purchase Date and any Purchased Bonds which are the subject of a notice pursuant to the Indenture which are not presented to the Trustee on the Purchase Date, shall, in accordance with the provisions of the Indenture, be deemed to have been purchased upon the deposit of moneys equal to the Purchase Price thereof into any or all of the accounts of the Bond Purchase Fund.

(d) *Deposits of Funds.*

(i) The Trustee shall deposit into the Remarketing Proceeds Account for the applicable Series of Bonds any amounts received by it in immediately available funds by 12:30 p.m., New York City time, on any Purchase Date from the Remarketing Agent against receipt of Bonds by the Remarketing Agent pursuant to the provisions of the Indenture described under “*Delivery of Purchased Bonds*” below and on account of Purchased Bonds remarketed pursuant to the terms of the Remarketing Agreement.

(ii) The Issuer may, in its sole discretion, pay to the Trustee in immediately available funds the amount equal to the difference, if any, between the total Purchase Price of Bonds to be purchased and the amount of money deposited as described in the preceding paragraph (the “*Additional Liquidity Drawing Amount*”) by 12:45 p.m., New York City time. The Trustee shall

deposit any Additional Liquidity Drawing Amounts into the Issuer Purchase Account for the applicable Series of Bonds.

(iii) The Trustee shall hold all proceeds received from the Remarketing Agent or the Issuer pursuant to the provisions of the Indenture described under this section entitled “*Deposits of Funds*” in trust for the tendering Owners. In holding such proceeds and moneys, the Trustee will be acting on behalf of such Owners by facilitating the purchase of the Bonds and not on behalf of the Issuer and will not be subject to the control of the Issuer. Subject to the provisions of the Indenture described under “*Disbursements; Payment of Purchase Price*” below, following the discharge of the pledge created by the Indenture or after payment in full of the Bonds, the Trustee shall pay any moneys remaining in any Account of the Bond Purchase Fund directly to the Persons for whom such money is held upon presentation of evidence reasonably satisfactory to the Trustee that such Person is rightfully entitled to such money and the Trustee shall not pay such amounts to any other Person.

(e) *Disbursements; Payment of Purchase Price.* Moneys delivered to the Trustee on a Purchase Date shall be applied at or before 1:00 p.m., New York City time, on such Purchase Date to pay the Purchase Price of Purchased Bonds of the applicable Series in immediately available funds as follows in the indicated order of application and, to the extent not so applied on such date, shall be held in the separate and segregated Accounts of the Bond Purchase Fund for the benefit of the Owners of the Purchased Bonds which were to have been purchased:

FIRST: Moneys deposited in the Remarketing Proceeds Account for the Bonds of the applicable Series; and

SECOND: Moneys deposited in the Issuer Purchase Account for the Bonds of the applicable Series.

Any moneys held by the Trustee in the Issuer Purchase Account remaining unclaimed by the Owners of the Purchased Bonds which were to have been purchased for two years after the respective Purchase Date for such Bonds shall be paid to the Issuer, upon a request in a Written Direction of the Issuer against written receipt therefor. The Owners of Purchased Bonds who have not yet claimed money in respect of such Bonds shall thereafter be entitled to look only to the Trustee, to the extent it shall hold moneys on deposit in the Bond Purchase Fund, or the Issuer to the extent moneys have been transferred in accordance with the provisions of the Indenture described under this section entitled “*Disbursements; Payment of Purchase Price.*” The Trustee shall have no obligation to advance its own funds to fund the Bond Purchase Fund or otherwise pay the Purchase Price on any Bonds.

(f) *Delivery of Purchased Bonds.*

(i) The Remarketing Agent shall give telephonic notice, promptly confirmed by a written notice, by Electronic Means, to the Trustee on each date on which Bonds shall have been purchased pursuant to the Indenture, specifying the principal amount of such Bonds, if any, sold by it and a list of such purchasers showing the names and Authorized Denominations in which such Bonds shall be registered, and the addresses and social security or taxpayer identification numbers of such purchasers. By 12:30 p.m., New York City time, on the Purchase Date, a principal amount of Bonds equal to the amount of Purchased Bonds purchased with moneys from the Remarketing Proceeds Account shall be made available by the Trustee to the Remarketing Agent against payment therefor in immediately available funds.

(ii) A principal amount of Bonds equal to the amount of Purchased Bonds purchased from moneys on deposit in the Issuer Purchase Account shall be delivered on the day of such

purchase by the Trustee to or as directed by the Issuer. The Trustee shall register such Bonds in the name of the Issuer or as otherwise directed by the Issuer.

(Section 4.15)

NOTICE OF MANDATORY TENDER FOR PURCHASE

In connection with any mandatory tender for purchase of Bonds in accordance with the Indenture, the Trustee shall give the notice (which in the case of a mandatory tender pursuant to the provisions of the Indenture described under the section entitled “Mandatory Tender for Purchase on Conversion of Interest Rate Period” above shall be given as a part of the notice given pursuant to certain provisions of the Indenture) stating: (a) that the Purchase Price of any Bond so subject to mandatory tender for purchase shall be payable only upon surrender of such Bond to the Trustee at the office specified in such notice, accompanied by an instrument of transfer thereof in form satisfactory to the Trustee, executed in blank by the Owner thereof or by the Owner’s duly authorized attorney, with such signature guaranteed by a commercial bank, trust company or member firm of the New York Stock Exchange; (b) that all Bonds so subject to mandatory tender for purchase shall be purchased on the Mandatory Purchase Date, unless (i) a Failed Remarketing shall have occurred prior to such Mandatory Purchase Date, in which case such Bonds shall be redeemed rather than purchased on such Mandatory Purchase Date, or (ii) such Bonds shall have otherwise been redeemed on or prior to, or are not Outstanding as of, such Mandatory Purchase Date; and (c) that in the event that any Owner of a Bond so subject to mandatory tender for purchase shall not surrender such Bond to the Trustee for purchase on such Mandatory Purchase Date, then such Bond shall be deemed to be an Undelivered Bond, and that no interest shall accrue thereon on and after such Mandatory Purchase Date and that the Owner thereof shall have no rights under the Indenture other than to receive payment of the Purchase Price thereof. Any such notice of a mandatory tender of Bonds pursuant to the Indenture shall be given no less than thirty (30) days prior to the applicable Mandatory Purchase Date, and the Trustee shall give a conditional notice of extraordinary redemption pursuant to the Indenture no later than the applicable deadlines set forth therein to provide for the extraordinary redemption of the Bonds if a Failed Remarketing occurs prior to the Mandatory Purchase Date. No later than five (5) Business Days prior to the date on which such conditional notice of extraordinary redemption is required to be given by the Trustee pursuant to the Indenture, the Issuer shall direct the Trustee to send such conditional redemption notice pursuant to a Written Direction, which Written Direction shall include the applicable Redemption Date and method(s) for calculating the Redemption Price, to be followed by notice of the Redemption Price.

(Section 4.16)

THE PLEDGE EFFECTED BY THE INDENTURE

The Bonds and the Interest Rate Swap are limited obligations of the Issuer payable solely from and secured as to the payment of the principal and Redemption Price thereof, and interest thereon, in accordance with their terms and the provisions of the Indenture solely by, the Trust Estate. Pursuant to the Granting Clauses of the Indenture, the Trust Estate has been conveyed, assigned and pledged to the payment of the principal and Redemption Price of and interest on the Bonds and the Interest Rate Swap Payments in accordance with their terms, and any other senior, parity and subordinate obligations of the Issuer secured by the lien of the Indenture, subject to (i) the pledge of and lien on the Commodity Swap Payment Fund and the amounts and investments on deposit therein in favor of the Commodity Swap Counterparty, and (ii) the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in the Indenture. The Trust Estate thereby pledged and assigned shall immediately be subject to the lien of such pledge without any further physical delivery thereof or other further act, and the lien of such pledge shall be a first lien and shall be valid and binding as against all parties having claims of

any kind in tort, contract or otherwise against the Issuer, irrespective of whether such parties have notice thereof.

None of the Bonds, the Interest Rate Swap or the Commodity Swap constitute a debt or liability of the State or of any political subdivision thereof, other than as limited obligations of the Issuer, and the Issuer shall not be obligated to pay the principal or Redemption Price of, or interest on, the Bonds, the Interest Rate Swap Payments or the Commodity Swap Payments except from the funds provided therefor under the Indenture. Neither the faith and credit nor the taxing power of the State or of any political subdivision thereof, including the Issuer, or of the Project Participant is pledged to the payment of the principal or Redemption Price of and interest on the Bonds, the Interest Rate Swap Payments or the Commodity Swap Payments. The issuance of the Bonds and the execution and delivery of the Interest Rate Swap and the Commodity Swap shall not directly or indirectly or contingently obligate the State or any political subdivision thereof to levy or to pledge any form of taxation or to make any appropriation for their payment. The Issuer has no taxing power.

Nothing contained in the Indenture shall be construed to prevent the Issuer from acquiring, constructing or financing, through the issuance of its bonds, notes or other evidences of indebtedness, any facilities or supplies of Energy other than the Clean Energy Project; provided that such bonds, notes or other evidences of indebtedness shall not be payable out of or secured by the Trust Estate or any portion thereof, and neither the cost of such facilities or supplies of Energy nor any expenditure in connection therewith or with the financing thereof shall be payable from the Trust Estate or any portion thereof.

(Section 5.01)

ESTABLISHMENT OF FUNDS AND ACCOUNTS

(a) The following Funds and Accounts are established in the Indenture, each of which shall be held by the Trustee except as indicated below:

- (i) Project Fund;
- (ii) Revenue Fund;
- (iii) Operating Fund;
- (iv) Debt Service Fund, consisting of the Debt Service Account and the Redemption Account;
- (v) Commodity Swap Payment Fund;
- (vi) General Reserve Fund;
- (vii) Energy Remarketing Reserve Fund, consisting of a Remediation Account;
- (viii) Assignment Payment Fund;
- (ix) Bond Purchase Fund, consisting of the Issuer Purchase Account and the Remarketing Proceeds Account; and
- (x) Administrative Fee Fund.

(b) Within the Funds and Accounts established under the Indenture and held by the Trustee, the Trustee may create additional Accounts in any Fund or subaccounts in any Accounts as may facilitate the administration of the Indenture. The Issuer may, by Supplemental Indenture, with the prior written approval of the Trustee, establish one or more additional accounts or subaccounts. By Supplemental Indenture, the Issuer may also (i) establish custodial accounts to be held by the Trustee as custodian to receive Revenues paid by the Project Participant under the Power Supply Contract, and (ii) provide for the application of such amounts for transfer to the Revenue Fund and for such other purposes as may be specified therein.

(Section 5.02)

PROJECT FUND

(a) There shall be paid into the Project Fund proceeds of the Bonds in the amount specified by Written Request of the Issuer, and there may be paid into the Project Fund, at the option of the Issuer, any moneys received for or in connection with the Clean Energy Project by the Issuer from any other source, unless required to be otherwise applied as provided by the Indenture. Upon delivery of the Bonds, the Trustee shall immediately transfer from the Project Fund into the Debt Service Account an amount, specified by Written Request of the Issuer, representing capitalized interest on the Bonds to the date set forth in such Written Request. Except as otherwise described in this section entitled "Project Fund," amounts in the Project Fund shall be applied by the Issuer to pay the Cost of Acquisition and any capitalized interest on the Bonds.

(b) Before any payment is made by the Trustee from the Project Fund, the Issuer shall file with the Trustee a Written Request of the Issuer, showing with respect to each payment to be made, the name of the Person to whom payment is due and the amount to be paid, and stating that the obligation to be paid was incurred and is a proper charge against the Project Fund. To the extent that the Written Request includes amounts to be paid pursuant to the Prepaid Energy Sales Agreement, copies of the invoices or requests for direct payments submitted under the Prepaid Energy Sales Agreement shall be attached to the Written Request. Each such Written Request shall be sufficient evidence to the Trustee: (i) that obligations in the stated amounts have been incurred by the Issuer and that each item thereof is a proper charge against the Project Fund; and (ii) that there has not been filed with or served upon Issuer notice of any lien, right to lien or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to any of the Persons named in such Written Request which has not been released or will not be released simultaneously with the payment of such obligation other than materialmen's or mechanics' liens accruing by mere operation of law.

(c) Upon receipt of each such Written Request, the Trustee shall pay the amounts set forth therein as directed by the terms thereof from the applicable Account in accordance with and subject to the applicable terms of the Indenture described in this section entitled "Project Fund."

(d) Notwithstanding any of the other provisions described in this section entitled "Project Fund," to the extent that other moneys are not available therefor, amounts in Project Fund shall be applied to the payment of principal of and interest on Bonds when due.

(e) Upon Written Direction of the Issuer, but not earlier than six months after the date of delivery of the Bonds, the Trustee shall transfer to the Revenue Fund any amounts remaining on deposit in Project Fund.

(Section 5.03)

REVENUES AND REVENUE FUND; OTHER AMOUNTS

(a) All Revenues shall be deposited promptly by the Trustee upon receipt thereof into the Revenue Fund; *provided* that, for the avoidance of doubt, if any amounts are received from a Project Participant for which Outstanding Sold Receivables exist, as identified in a written notice from the Issuer to the Trustee, the Trustee shall promptly cause any such receipts to be paid to the Energy Supplier to the extent of such Outstanding Sold Receivables without setoff of any kind in accordance with the Receivables Purchase Provisions and any remaining amounts received from the Project Participant shall be deposited into the Revenue Fund.

(b) In the event that the Specified Project Participant fails to pay the amount due under the Power Supply Contract, the Trustee shall perform the following actions on behalf of the Issuer under the Receivables Purchase Provisions: (i) provide a preliminary notice by email to the Issuer and the Energy Supplier that a Specified Project Participant will fail to make a payment as soon as practicable after becoming aware that a payment default will occur and in any event no later than the end of the calendar day on which the relevant payment default occurs, and (ii) prepare and deliver to the Energy Supplier a Put Option Notice by 12:00 p.m. New York City time on the Business Day following any such payment default. On the twenty-fourth day of the Month in which such Put Option Notice was delivered (or if such day is not a Business Day, the next Business Day following the twenty fourth day of such Month), the Trustee shall deliver to the Energy Supplier the bill of sale and certificates required by the Receivables Purchase Provisions. The Trustee is authorized under the Indenture to sell the Put Receivables then owed by the Specified Project Participant under the Power Supply Contract pursuant to the Receivables Purchase Provisions and to take all actions on its part necessary in connection therewith. All amounts received by the Trustee pursuant to the Receivables Purchase Provisions in respect of Put Receivables shall be deposited in the Revenue Fund for application pursuant to the Indenture.

(c) Upon receipt of the preliminary notice from the Trustee pursuant to (b)(i) above, the Issuer shall:

(i) in consultation with the Energy Supplier, determine the amount of the Net Participant Shortfall Amount, if any, resulting from such failure to pay; and

(ii) give prompt written notice of the amounts of such Net Participant Shortfall Amount, if any, and the amount of such nonpayment and the resulting Net Participant Shortfall Amount, to the Trustee, the Energy Supplier and the Commodity Swap Counterparty.

(d) The following amounts, which are payable to the Trustee but do not constitute Revenues, shall be applied by the Trustee as follows:

(i) any Termination Payment shall be deposited directly into the Redemption Account of the Debt Service Fund as provided in the Indenture,

(ii) any Assignment Payment shall be deposited directly into the Assignment Payment Fund as provided in the Indenture,

(iii) [Reserved.];

(iv) amounts representing the Project Administration Fee, together with any amounts paid by the Project Participant under the Prepaid Clean Energy Project Administration Agreement, shall be paid as received by the Issuer into the Administrative Fee Fund;

(v) any Interest Rate Swap Receipts shall be deposited directly into the Debt Service Account as provided in the Indenture;

(vi) any amounts required by the Indenture to be deposited into the Energy Remarketing Reserve Fund shall be deposited directly therein; and

(vii) Ledger Event Payments shall be deposited directly into the Debt Service Account as provided in the Indenture.

(Section 5.04)

PAYMENTS FROM REVENUE FUND

(a) In each Month during which there is a deposit of Revenues into the Revenue Fund (but in no case later than the respective dates set forth below), the Trustee shall apply the amounts on deposit in the Revenue Fund, to the extent available, for credit or deposit to the Funds and Accounts indicated below, in the amounts described below (such application to be made in such a manner so as to assure good funds are available on the respective dates set forth below) in the following order of priority:

(i) To the Operating Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount, if any, required so that the balance therein shall equal the amount necessary for the payment of Operating Expenses coming due for such Month;

(ii) Subject to the provisos below, to the Debt Service Fund, not later than the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day) for the credit to the Debt Service Account, an amount equal to the greater of (A) the Scheduled Debt Service Deposit, as set forth in Schedule II attached to the Indenture, or (B) the amount necessary to cause an amount equal to the cumulative unpaid Scheduled Debt Service Deposits due through such date to be on deposit therein (without credit for undisbursed Interest Rate Swap Receipts on deposit therein); and

(iii) To the Commodity Swap Payment Fund, on or before the twenty-fifth day of such Month (or, if such day is not a Business Day, the next succeeding Business Day), the amount required so that the balance therein shall equal the Commodity Swap Payments due for such Month.

(b) If, after a scheduled monthly deposit to the Debt Service Account or the Commodity Swap Payment Fund, the balance therein is below the cumulative Scheduled Debt Service Deposits for such month as specified on Schedule II attached to the Indenture or the Commodity Swap Payments due for such month, respectively, the Trustee shall immediately notify the Issuer of such deficiency and the Trustee shall (i) if the Issuer has not previously done so, cause the Issuer to suspend all deliveries of all quantities of Energy under the Power Supply Contract if the Project Participant is in default thereunder, and (ii) promptly give notice to the Energy Supplier to follow the Remarketing Provisions.

(c) On each [] 1, beginning [] 1, 20[], after (i) the deposit of Revenues into the Revenue Fund and (ii) making such transfers, credits and deposits as required by paragraph (a) above, the Trustee shall credit to the General Reserve Fund the remaining balance in the Revenue Fund.

(d) So long as there shall be held in the Debt Service Fund an amount sufficient to pay in full all Outstanding Bonds and Interest Rate Swap Payments in accordance with their terms (including principal

or applicable Sinking Fund Installments and interest thereon), no transfers shall be required to be made to the Debt Service Fund.

(Section 5.05)

OPERATING FUND

(a) Amounts credited to the Operating Fund shall be applied from time to time by the Trustee to the payment of (i) first, Rebate Payments, and (ii) second, any other Operating Expenses then due and payable.

(b) Amounts credited to the Operating Fund that the Trustee, on the last Business Day of each Month, determines to be in excess of the requirements of such Fund for such Month, shall be applied to make up any deficiencies in the Debt Service Account. Any balance of such excess not required to be so applied shall be transferred to the Revenue Fund for application in accordance with the Indenture.

(Section 5.06)

DEBT SERVICE FUND – DEBT SERVICE ACCOUNT

(a) The amounts deposited into the Debt Service Account pursuant to the Indenture shall be held in such Account and applied to the payment of the Debt Service and Interest Rate Swap Payments payable on each Bond Payment Date; *provided* that, for the purposes of computing the amount to be deposited in such Account, there shall be excluded from the required deposit the amount, if any, on deposit in the Debt Service Account from the proceeds of Bonds (including amounts, if any, transferred thereto from the Project Fund) for the payment of interest on the Bonds. Amounts attributed to capitalized interest shall be applied to Debt Service prior to other monies held within the Debt Service Account.

(b) The Trustee shall pay out of the Debt Service Account to the Paying Agent: (i) on or before each Interest Payment Date, the amount required for the interest on the Bonds payable on such date; (ii) on or before each Bond Payment Date, the Interest Rate Swap Payments then due, (iii) on or before the Bond Payment Date on which a Principal Installment is due, the amount required for the Principal Installment payable on such date; and (iv) on or before any redemption date, the amount required for the payment of the Redemption Price of and accrued interest on such Bonds then to be redeemed; provided, however, that if with respect to any Bonds or portions thereof the amounts due on any such Bond Payment Date and/or redemption date are intended to be paid from a source other than amounts in the Debt Service Account prior to any application of amounts in the Debt Service Account to such payments, then the Trustee (after Written Notice from the Issuer to the Trustee that the Issuer intends to make payments from a source other than amounts in the Debt Service Account) shall not pay any such amounts to the Paying Agent until such amounts have failed to be provided from such other source at the time required and if any such amounts due are paid from such other source the Trustee shall apply the amounts in the Debt Service Account to provide reimbursement for such payment from such other source as provided in the agreement governing reimbursement of such amounts to such other source. Such amounts shall be applied by the Paying Agent on and after the due dates thereof. The Trustee shall also pay out of the Debt Service Account the accrued interest included in the purchase price of Bonds purchased for retirement.

(c) Amounts accumulated in the Debt Service Account with respect to any Sinking Fund Installment (together with amounts accumulated therein with respect to interest on the Bonds for which such Sinking Fund Installment was established) shall, if so directed by the Issuer in a Written Request delivered not less than thirty (30) days before the due date of such Sinking Fund Installment, be applied by the Trustee to (i) the purchase of Bonds of the Series, maturity and tenor for which such Sinking Fund

Installment was established, (ii) the redemption at the applicable sinking fund Redemption Price of such Bonds, if then redeemable by their terms, or (iii) any combination of (i) and (ii). All purchases and redemptions of any Bonds pursuant to this paragraph (c) shall be made at prices not exceeding the applicable sinking fund Redemption Price of such Bonds plus accrued interest, and such purchases shall be made in such manner as the Issuer shall direct the Trustee in writing. The applicable sinking fund Redemption Price (or principal amount of maturing Bonds) of any Bonds so purchased or redeemed shall be deemed to constitute part of the Debt Service Account until such Sinking Fund Installment date, for the purpose of calculating the amount of such Account. As soon as practicable after the thirtieth (30th) day preceding the due date of any such Sinking Fund Installment, the Trustee shall proceed to call for the redemption on such due date, by giving notice as required by the Indenture, Bonds of the Series, maturity and tenor for which such Sinking Fund Installment was established (except in the case of Bonds maturing on a Sinking Fund Installment date) in such amount as shall be necessary to complete the retirement of the unsatisfied balance of such Sinking Fund Installment after making allowance for any Bonds purchased or redeemed pursuant to the provisions of the Indenture described under the section entitled “General Reserve Fund” below which the Issuer has directed the Trustee in writing to apply as a credit against such Sinking Fund Installment as provided in the Indenture. The Trustee shall pay out of the Debt Service Account to the Paying Agent, on or before such redemption date or maturity date, as applicable, the amount required for the redemption of the Bonds so called for redemption (or for the payment of such Bonds then maturing), and such amount shall be applied by such Paying Agents to such redemption or payment, as applicable. All expenses in connection with the purchase or redemption of Bonds shall be paid by the Issuer in such manner as the Issuer shall direct the Trustee in writing from the Operating Fund.

All Bonds paid or redeemed, either at or before maturity, shall be delivered to the Trustee at its designated corporate trust office when such payment or redemption is made, and such Bonds, together with all Bonds purchased or redeemed pursuant to the Indenture that have been delivered to the Trustee for application as a credit against Sinking Fund Installments and all Bonds purchased by the Trustee pursuant to the provisions of the Indenture described under this section entitled “Debt Service Fund – Debt Service Account,” shall thereupon be promptly cancelled (or deemed to have been cancelled).

(d) Amounts accumulated in the Debt Service Account with respect to any principal amount of Bonds due on a certain future date for which no Sinking Fund Installments have been established (together with amounts accumulated therein with respect to interest on such Bonds) shall, upon the reasonable prior Written Direction of the Issuer, be applied by the Trustee on or prior to the due date thereof, to (i) the purchase of such Bonds or (ii) the redemption at the principal amount of such Bonds, if then redeemable by their terms. All purchases and redemptions of any Bonds as described in this paragraph shall be made at prices not exceeding the principal amount of such Bonds plus accrued interest, and such purchases and redemptions shall be made in such manner as the Issuer shall determine. The principal amount of any Bonds so purchased or redeemed shall be deemed to constitute part of the Debt Service Account until such due date, for the purpose of calculating the amount of such Account.

(e) The amount deposited in the Debt Service Account on the Issue Date of any Series of Bonds from the proceeds thereof shall be set aside and applied to the payment of interest on such Series of Bonds and related Interest Rate Swap Payments.

(f) In the event of the refunding or defeasance of any Bonds, the Trustee shall, if directed by the Issuer in writing, withdraw from the Debt Service Account all, or any portion of, the amounts accumulated therein with respect to Debt Service on the Bonds being refunded or defeased and deposit such amounts with the Trustee to be held for the payment of the principal or Redemption Price, if applicable, and interest on the Bonds being refunded or defeased; *provided* that such withdrawal shall not be made unless immediately thereafter Bonds being refunded or defeased shall be deemed to have been paid pursuant to the Indenture. In the event of such refunding or defeasance, the Issuer may direct the Trustee to withdraw

from the Debt Service Account all, or any portion of, the amounts accumulated therein with respect to Debt Service on the Bonds being refunded or defeased and deposit such amounts in any Fund or Account under the Indenture; *provided, however*, that such withdrawal shall not be made unless the Bonds being defeased shall be deemed to have been paid pursuant to the Indenture and provided, further, that, at the time of such withdrawal, there shall exist no deficiency in any Fund or Account held under the Indenture.

(g) Any amount remaining in the Debt Service Account shall, to the extent not required to be retained therein for purposes of making future payments, be deposited in the Revenue Fund.

(Section 5.07)

DEBT SERVICE FUND – REDEMPTION ACCOUNT

(a) In the event of an early termination of the Prepaid Energy Sales Agreement, the Issuer shall direct the Energy Supplier to pay the Termination Payment directly to the Trustee for the account of the Issuer. The Trustee shall deposit the Termination Payment into the Redemption Account. Amounts deposited into the Redemption Account shall be applied by the Trustee to the redemption of Outstanding Bonds pursuant to the Indenture.

(b) Any amounts remaining on deposit in the Redemption Account following the redemption and payment of all Outstanding Bonds shall be applied by the Trustee first to pay any Swap Payment Deficiency, second to repurchase any Put Receivables owned by the Energy Supplier, and third, upon Written Direction of the Issuer to the Trustee, shall be transferred to the Revenue Fund.

(c) For the avoidance of doubt, no Extraordinary Expenses shall be paid from the Redemption Account.

(Section 5.08)

COMMODITY SWAP PAYMENT FUND

(a) Amounts credited to the Commodity Swap Payment Fund shall be applied from time to time by the Trustee to the payment of the Commodity Swap Payments when due.

(b) Any amount remaining in the Commodity Swap Payment Fund following the payment of the Commodity Swap Payment due in any Month and prior to any deposit therein for the following Month shall be transferred to the Revenue Fund for application in accordance with the Indenture.

(Section 5.09)

GENERAL RESERVE FUND

(a) The Trustee shall apply moneys on deposit in the General Reserve Fund in the following amounts and in the following order of priority: first, for deposit into the Debt Service Account, the amount necessary (or all of the moneys in the General Reserve Fund if less than the amount necessary) to make up any deficiencies in the deposits to such Account described in paragraph (a)(iii) of “Payments from Revenue Fund” above; second, for deposit into the Commodity Swap Payment Fund, the amount necessary to cause the balance therein to equal a Commodity Swap Payment that is then due; and third for deposit into the Operating Fund, the amount necessary for the payment of any Operating Expenses then due and payable and for which other funds are not available under the Indenture.

(b) Amounts on deposit in the General Reserve Fund not required to meet a deficiency or to make a deposit as provided in paragraph (a) above shall be applied by the Trustee upon the Written Request of the Issuer to the following in the order listed below:

- (i) payment of Extraordinary Expenses;
- (ii) payment of any fees owed pursuant to any Qualified Investments;
- (iii) the repurchase of Put Receivables and the payment of interest on all receivables sold to the Energy Supplier pursuant to the Receivables Purchase Provisions;
- (iv) annual refunds to the Project Participant pursuant to the Power Supply Contract;
- (v) the purchase or redemption of Bonds and expenses in connection with the purchase or redemption of such Bonds or any reserves which the Issuer determines shall be required for such purposes; and
- (vi) any other lawful purpose of the Issuer under the Act;

provided, however, that, subject to the provisions of paragraph (a) of this section entitled “General Reserve Fund,” amounts credited to the General Reserve Fund and required by the Indenture to be applied to the purchase or redemption of Bonds shall be applied to such purpose.

(c) If at any time Bonds of any Series, maturity and tenor for which Sinking Fund Installments shall have been established are (i) purchased or redeemed other than as described in “Debt Service Fund – Debt Service Account” above or (ii) deemed to have been paid pursuant to the Indenture and, with respect to such Bonds which have been deemed paid, irrevocable written instructions have been given by the Issuer to the Trustee to redeem or purchase the same on or prior to the due date of the Sinking Fund Installment to be credited under this paragraph (c), the Issuer may from time to time and at any time by Written Direction to the Trustee specify the portion, if any, of such Bonds so purchased, redeemed or deemed to have been paid and not previously applied as a credit against any Sinking Fund Installment which are to be credited against future Sinking Fund Installments. Such direction shall specify the amounts of such Bonds to be applied as a credit against each Sinking Fund Installment or Installments and the particular Sinking Fund Installment or Installments against which such Bonds are to be applied as a credit; provided, however, that none of such Bonds may be applied as a credit against a Sinking Fund Installment to become due less than thirty (30) days after such written notice is delivered to the Trustee. All such Bonds to be applied as a credit shall be surrendered to the Trustee for cancellation on or prior to the due date of the Sinking Fund Installment against which they are being applied as a credit. The portion of any such Sinking Fund Installment remaining after the deduction of any such amounts credited toward the same (or the original amount of any such Sinking Fund Installment if no such amounts shall have been credited toward the same) shall constitute the unsatisfied balance of such Sinking Fund Installment for the purpose of calculation of Sinking Fund Installments due on a future date.

(Section 5.10)

ENERGY REMARKETING RESERVE FUND

There shall be paid by the Trustee into the Remediation Account of the Energy Remarketing Reserve Fund, and within such Remediation Account the subaccount applicable to each Project Participant, the amounts, as directed in a Written Direction of the Issuer, specified in the Remarketing Provisions. In the case of a Remediation Remarketing (as defined in the Remarketing Provisions) pursuant to the

Remarketing Provisions, amounts shall be released from the applicable subaccount of the Remediation Account upon such remarketing and applied pursuant to a Written Direction of the Issuer as follows: (a) if the proceeds received by the Trustee from the remarketing equal or exceed the Remediation Remarketing Purchase Price, the portion of the applicable subaccount of the Remediation Account allocable to such remarketing shall be transferred to the General Reserve Fund, and (b) if the proceeds received by the Trustee from the remarketing are less than the Remediation Remarketing Purchase Price, then (x) the portion of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund allocable to such remarketing shall be used to make a payment to the Energy Supplier in an amount equal to the excess of such Remediation Remarketing Purchase Price over such proceeds received by the Issuer from the remarketing, and (y) any remaining amounts allocable to such remarketing shall be transferred to the General Reserve Fund. For purposes of the provisions of the Indenture described in this paragraph, the portion of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund specified in writing by the Issuer to the Trustee as the amount allocable to a remarketing shall consist of the product of (i) a fraction, the numerator of which is the purchase price of the Energy to be remarketed, and the denominator of which is the aggregate amount previously received by the Issuer from the sale of such Energy in Non-Private Business Sales (as defined in the Remarketing Provisions) or Private Business Sales (as defined in the Remarketing Provisions) that, as of the time of the remarketing, has not been remediated in accordance with the Remarketing Provisions, multiplied by (ii) the balance of the applicable subaccount of the Remediation Account of the Energy Remarketing Reserve Fund at the time of the remarketing.

(Section 5.11)

ASSIGNMENT PAYMENT FUND

In connection with the issuance of Refunding Bonds, any Assignment Payment received from the Energy Supplier (or the Master Custodian on its behalf) shall be deposited into the Assignment Payment Fund to be transferred to the replacement energy supplier, provided, however, that if the existing Bonds have not been redeemed or defeased on or before the Mandatory Purchase Date, in whole, by the Refunding Bonds, all or a portion of the Assignment Payment shall be transferred to the Trustee for deposit as directed by the Issuer in writing to the Redemption Account pursuant to the Indenture, along with the proceeds of the Refunding Bonds, in order to redeem all of the Outstanding Bonds.

(Section 5.12)

PURCHASES OF BONDS

Except as otherwise provided in the Indenture, any purchase of Bonds (or portions thereof) by or at the direction of the Issuer pursuant to the Indenture may be made with or without tenders of Bonds and at either public or private sale, in such manner as the Issuer may determine.

(Section 5.13)

ADMINISTRATIVE FEE FUND

All Project Administration Fees, together with any amounts paid by the Project Participant pursuant to the Prepaid Clean Energy Project Administration Agreement, shall be deposited by the Trustee into the Administrative Fee Fund. The Trustee shall apply amounts on deposit in the Administrative Fee Fund to pay Operating Expenses promptly upon receipt of a Written Request of the Issuer directing such payment. In the event amounts on deposit in the Administrative Fee Fund are insufficient to make any payments directed in the Written Request of the Issuer, the Trustee shall promptly notify each Project Participant, at

its respective address shown on Schedule I attached to the Indenture, of the fact and amount of such deficiency.

(Section 5.14)

INVESTMENT OF CERTAIN FUNDS

Moneys held in the Debt Service Account shall be invested and reinvested by the Trustee at the Written Direction of the Issuer to the fullest extent practicable in Qualified Investments specified in such Written Direction which mature or are payable not later than such times as shall be necessary to provide moneys when needed for payments to be made from such Accounts and may take the form of a Debt Service Fund Agreement. To the extent moneys held in the Debt Service Account are invested in a Debt Service Fund Agreement, the Issuer covenants and agrees that it will not consent or agree to or permit any assignment of, rescission of or amendment to or otherwise take any action under or in connection with such Debt Service Fund Agreement without the written consent of the Trustee and the delivery to the Trustee of a Rating Confirmation with respect to such amendment. Moneys held in the Revenue Fund and the Project Fund may be invested and reinvested by the Trustee at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction which mature not later than such times as shall be necessary to provide moneys when needed for payments to be made from such Funds. Moneys in the Operating Fund (other than moneys in the Operating Fund held with respect to Rebate Payments) may be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction which mature within twelve months or which provide funds as needed; moneys held in the Operating Fund with respect to Rebate Payments shall be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction at fair market value; and moneys in the General Reserve Fund and the Energy Remarketing Reserve Fund may be invested at the Written Direction of the Issuer in Qualified Investments specified in such Written Direction; in any case the Qualified Investments in such Funds or in the Accounts therein shall mature not later than such times as shall be necessary to provide moneys when needed to provide payments from such Funds or Accounts. The Trustee shall only be required to make investments of moneys held by it in the Funds and Accounts established under the Indenture in accordance with Written Directions received by the Trustee from any Authorized Officer of the Issuer and may rely on such investment directions without verifying the suitability or legality of such investment and any deposit or investment directed by the Issuer shall constitute a certification by the Issuer that the assets so deposited or to be purchased pursuant to such directions are Qualified Investments. In making any investment in any Qualified Investments with moneys in any Fund or Account established under the Indenture, the Issuer may give Written Direction to the Trustee to combine such moneys with moneys in any other Fund or Account, but solely for purposes of making such investment in such Qualified Investments.

The Trustee shall only be required to make investments of moneys held by it in the Funds and Accounts established under the Indenture in accordance with Written Directions received by the Trustee from any Authorized Officer of the Issuer. The Trustee shall be entitled to rely in good faith on any Written Direction of the Issuer as to the suitability and legality of the directed investment and any deposit or investment directed by the Issuer shall constitute a certification by the Issuer that the assets so deposited or to be purchased pursuant to such directions are Qualified Investments. In making any investment in any Qualified Investments with moneys in any Fund or Account established under the Indenture, the Issuer may give Written Direction to the Trustee to combine such moneys with moneys in any other Fund or Account, but solely for purposes of making such investment in such Qualified Investments.

Interest earned on any moneys or investments in the Funds and Accounts established under the Indenture shall be paid into the Revenue Fund, other than interest earned on any moneys or investments in (i) the Redemption Account in the Debt Service Fund, (ii) the Operating Fund relating to Rebate Payments, (iii) the Energy Remarketing Reserve Fund, and (iv) the Administrative Fee Fund. Such interest shall be

held in such respective Fund or Account for the purposes thereof. If no written investment directions have been delivered to the Trustee for any Fund or Account, moneys shall be held there uninvested by the Trustee.

Nothing in the Indenture shall prevent any Qualified Investments acquired as investments of or security for Funds held under the Indenture from being issued or held in book-entry form on the books of the Department of the Treasury of the United States.

Nothing in the Indenture shall preclude the Trustee from investing or reinvesting moneys that it holds in the Funds and Accounts established pursuant to the Indenture through its bond department; provided, however, that the Issuer may, in its discretion, give a Written Direction to the Trustee that such moneys be invested or reinvested in a manner other than through such bond department.

To the extent any Qualified Investment is insured, guaranteed or otherwise supported by any secondary facility, the Trustee shall make a claim under such facility at such time as shall be required to receive payment thereunder not later than the date required to make any necessary deposit pursuant to the Indenture.

(Section 6.03)

VALUATION AND SALE OF INVESTMENTS

Obligations purchased as an investment of moneys in any Fund created under the provisions of the Indenture shall be deemed at all times to be a part of such Fund and any profit realized from the liquidation of such investment shall be credited to such Fund, and any loss resulting from the liquidation of such investment shall be charged to the respective Fund.

In computing the amount in any Fund created under the provisions of the Indenture for any purpose provided in the Indenture, obligations purchased as an investment of moneys therein shall be valued at the lower of market value or the amortized cost thereof. The accrued interest paid in connection with the purchase of any obligation shall be included in the value thereof until interest on such obligation is paid. Such computation shall be determined at the Written Direction of the Issuer to the Trustee as of each Principal Installment payment date and at such other times as the Issuer shall reasonably determine. Guaranteed investment contracts or similar agreements shall be valued at their face value to the extent that they provide for withdrawals without market adjustment or penalty when they are required to provide payment pursuant to the Indenture.

Except as otherwise provided in the Indenture, the Trustee shall use reasonable efforts to sell at the best price obtainable, or present for redemption, any obligation so purchased as an investment whenever it shall be requested to do so by a Written Request of the Issuer. Whenever it shall be necessary in order to provide moneys to meet any payment or transfer from any Fund held by the Trustee or the Issuer, the Issuer or the Trustee at the Written Direction of the Issuer shall use reasonable efforts to sell at the best price obtainable or present for redemption such obligation or obligations designated by an Authorized Officer in a Written Direction of the Issuer to the Trustee as necessary to provide sufficient moneys for such payment or transfer. The Issuer acknowledges that, to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grants the Issuer the right to receive from the Trustee brokerage confirmations of security transactions as they occur, the Issuer specifically waives receipt of such confirmations to the extent permitted by law. The Trustee shall not be required to provide any brokerage information.

The Trustee shall not be liable or responsible for any loss, fee, tax or other charge resulting from any such investment, sale or presentation for redemption made in the manner provided in the Indenture. In the event of any such loss, fee, tax or other charge, the Issuer shall pay such amount to the Trustee to be credited as part of the monies originally invested.

(Section 6.04)

POWER TO ISSUE BONDS AND PLEDGE THE TRUST ESTATE

The Issuer is duly authorized under all applicable laws to create and issue the Bonds and to execute and deliver the Indenture and to pledge the Trust Estate, in the manner and to the extent provided in the Indenture. Except to the extent otherwise provided in or contemplated by the Indenture, the Trust Estate will be free and clear of any pledge, lien, charge or encumbrance thereon or with respect thereto prior to, or of equal rank with, the security interest, the pledge and assignment created by the Indenture, and all action on the part of the Issuer to that end has been and will be duly and validly taken. The Bonds and the provisions of the Indenture are and will be the valid and legally enforceable limited obligations of the Issuer in accordance with their terms and the terms of the Indenture. The Issuer shall at all times, to the extent permitted by law, defend, preserve and protect the pledge of the Revenues and other moneys, securities and funds pledged under the Indenture and all the rights of the Bondholders under the Indenture against all claims and demands of all Persons whomsoever.

(Section 7.05)

POWER TO FIX AND COLLECT FEES AND CHARGES FOR THE SALE OF ENERGY

The Issuer has, and, to the extent permitted by law, will have as long as any Bonds are Outstanding, good right and lawful power to fix, establish, maintain and collect fees and charges for the sale of Energy or otherwise with respect to the Clean Energy Project, subject to the terms of the Power Supply Contract.

(Section 7.06)

CREATION OF LIENS

Except as expressly permitted under the terms of the Indenture, for so long as any Bonds are Outstanding, the Issuer shall not, without a Rating Confirmation, issue any bonds, notes, debentures or other evidences of indebtedness of similar nature payable from or secured by a pledge and assignment of the Trust Estate, other than the Bonds and bonds, notes, debentures or other evidences of indebtedness issued to refund Outstanding Bonds, or otherwise incur obligations other than those contemplated by the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the CCCFA Custodial Agreement, the Commodity Swap, the Interest Rate Swap and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments), payable out of or secured by a pledge or assignment of, or lien on, the Trust Estate; and, except as expressly permitted under the terms of the Indenture, shall not, without a Rating Confirmation, create or cause to be created any lien or charge on the Trust Estate except as provided in or contemplated by the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the CCCFA Custodial Agreement, the Commodity Swap, the Interest Rate Swap and any documents or agreements relating to any of the foregoing (including, but not limited to, obligations under Qualified Investments); provided, however, that nothing contained in the Indenture shall prevent the Issuer from entering into or issuing, if and to the extent permitted by law (A) evidences of indebtedness (1) payable out of moneys in the Project Fund as part of the Cost of Acquisition or (2) payable out of or secured by a pledge and assignment of the Trust Estate or any part thereof to be derived on and after such date as the pledge of the Trust Estate provided in the Indenture shall be discharged

and satisfied as provided in the Indenture, or (B) Commodity Swap and Interest Rate Swap upon the terms and conditions set forth in the Indenture.

(Section 7.07)

AMENDMENTS TO POWER SUPPLY CONTRACT

The Issuer will not consent or agree to or permit any termination or rescission of, assignment or novation (in whole or in part) by a Project Participant of, or amendment to or otherwise take any action under or in connection with any Power Supply Contract that will impair the ability of the Issuer to collect Revenues in each Fiscal Year which, together with the other amounts available therefor, shall provide an amount sufficient to pay:

(a) The amount estimated by the Issuer to be required to be paid during such Fiscal Year into the Operating Fund;

(b) The amounts, if any, required to be paid during such Fiscal Year into the Debt Service Fund other than any such amounts which the Issuer anticipates shall be transferred from other Funds or Accounts;

(c) The amounts, if any, to be paid during such Fiscal Year into any other Fund established under the Indenture; and

(d) All other charges or liens whatsoever payable out of Revenues during such Fiscal Year;

provided that:

(i) the Issuer may take any other action under or in connection with the Power Supply Contract that is expressly permitted pursuant to the provisions thereof;

(ii) the Issuer and the Project Participant may amend the Power Supply Contract to change any Delivery Point (as defined and provided therein);

(iii) the Power Supply Contract may be amended upon receipt of (A) a Rating Confirmation with respect to such amendment, and (B) to the extent such amendment would have a material adverse effect (including, but not limited to, a change in the timing of payments, the source of such payments, or the Issuer's rights of collection thereof) upon the Receivables Purchase Provisions or the Commodity Swap, the consent of the Energy Supplier or the Commodity Swap Counterparty, respectively, such consent not to be unreasonably withheld or delayed;

(iv) the Issuer may agree to an assignment or novation of all or a portion of a Project Participant's rights and obligations under the Power Supply Contract upon (A) compliance with the restrictions on assignment set forth in the Power Supply Contract, and (B) receipt of a Rating Confirmation with respect to such assignment or novation; and

(v) the Power Supply Contract may also be amended in connection with a remediation pursuant to the Prepaid Energy Sales Agreement.

(Section 7.10)

POWER SUPPLY CONTRACT; ENERGY REMARKETING

(a) The Issuer shall cause all Revenues payable by the Project Participant under the Power Supply Contract to be payable directly to the Trustee for deposit into the Revenue Fund or custodial accounts established pursuant to the provisions of the Indenture. The Issuer shall enforce the provisions of the Power Supply Contract, as well as any other contract or contracts entered into relating to the Clean Energy Project, and duly perform its covenants and agreements thereunder.

(b) In the event that the Project Participant fails to pay when due any amounts owed to the Issuer under the Power Supply Contract, the Issuer shall:

(i) promptly exercise its right to suspend all Energy deliveries to the Project Participant; and

(ii) promptly give notice to the Energy Supplier to follow the provisions set forth in the Remarketing Exhibit to the Prepaid Energy Sales Agreement for each Month of such suspension with respect to the quantities of Energy for which deliveries have been suspended.

(c) In the event that the Project Participant delivers a Remarketing Election Notice (as defined in the Power Supply Contract) in respect of any Reset Period, then the Issuer will promptly give notice to the Energy Supplier to follow the provisions set forth in the Remarketing Provisions for each month of such Reset Period with respect to any quantities of Energy that would otherwise have been delivered to the Project Participant.

(d) As of the date of the Indenture, the Power Supply Contract with the Project Participant set forth on Schedule I attached to the Indenture shall be the only Power Supply Contract until such time, if any, that an assignment or novation occurs in accordance with the requirements set forth above. Without prejudice to the rights of the Energy Supplier to remarket Energy under the Prepaid Energy Sales Agreement or to an assignment or novation of the Power Supply Contract in compliance with the provisions of the Indenture described under this section entitled "Power Supply Contract; Energy Remarketing," the Issuer may sell the quantities of Energy to be delivered under the Prepaid Energy Sales Agreement only pursuant to the Power Supply Contract. A copy of the Power Supply Contract and any amendment to the Power Supply Contract, certified by an Authorized Officer, shall be filed with the Trustee.

(Section 7.11)

PREPAID ENERGY SALES AGREEMENT; ENERGY SUPPLIER DOCUMENTS

(a) The Issuer shall enforce the provisions of the Prepaid Energy Sales Agreement and duly perform its covenants and agreements thereunder.

(b) The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of the Energy Supplier under the Prepaid Energy Sales Agreement. The Issuer shall provide the Trustee with Written Notice of the Early Termination Payment Date (i) on the date on which a Failed Remarketing occurs, and (ii) in all other cases, not more than five (5) Business Days after such date is determined.

(c) The Issuer will not consent or agree to or permit any assignment of, rescission of or amendment to or otherwise take any action under or in connection with the Prepaid Energy Sales Agreement

which will in any manner materially impair or materially adversely affect the rights of the Issuer thereunder or the rights or security of the Bondholders under the Indenture; *provided* that the Prepaid Energy Sales Agreement may be assigned or amended without Bondholder consent upon receipt of a Rating Confirmation with respect to such assignment or amendment. The Prepaid Energy Sales Agreement may also be amended in connection with a remediation pursuant to the Prepaid Energy Sales Agreement. Copies of the Prepaid Energy Sales Agreement and any amendments thereto, certified by an Authorized Officer, shall be filed with the Trustee.

(d) The Issuer has the right, pursuant to the Energy Supplier LLCA to appoint a director (the “Issuer-Appointed Director”) to the board of directors of the Energy Supplier. In any vote that comes before the board of directors of the Energy Supplier regarding the Energy Supplier Documents, the Issuer shall instruct the Issuer-Appointed Director to exercise its voting rights in favor of the Energy Supplier (i) observing and performing its obligations under the Prepaid Energy Sales Agreement and (ii) enforcing the provisions of the other Energy Supplier Documents and (iii) not permitting any assignment of, rescission of or amendment to or waiver of the Energy Supplier Documents which will in any manner materially impair or materially adversely affect the rights of the Issuer thereunder or the rights or security of the Bondholders under the Indenture.

(Section 7.12)

COMMODITY SWAP

The Issuer shall cause all Commodity Swap Receipts and any other amounts payable to the Issuer pursuant to the Commodity Swap to be collected and paid directly to the Trustee for deposit into the Revenue Fund. The Issuer shall enforce the provisions of the Commodity Swap and duly perform its covenants and agreements thereunder. The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of the Commodity Swap Counterparty under the Commodity Swap. The Issuer will not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with the Commodity Swap that will impair the ability of the Issuer to comply during the current or any future year with the provisions of the Indenture. The Issuer shall only exercise its right to terminate the Commodity Swap in compliance with the Indenture. A copy of the Commodity Swap certified by an Authorized Officer shall be filed with the Trustee, and a copy of any amendment to the Commodity Swap, certified by an Authorized Officer, shall be filed with the Trustee.

(Section 7.14)

INTEREST RATE SWAP

The Issuer shall cause all Interest Rate Swap Receipts or other amounts payable to the Issuer pursuant to the Interest Rate Swap to be collected and paid to the Trustee for deposit into the Debt Service Account. The Issuer shall enforce the provisions of the Interest Rate Swap and duly perform its covenants and agreements thereunder. The Trustee shall promptly notify the Issuer of any payment default that has occurred and is continuing on the part of the Interest Rate Swap Counterparty under the Interest Rate Swap. The Issuer will not consent or agree to or permit any termination or rescission of or amendment to or otherwise take any action under or in connection with the Interest Rate Swap that will impair the ability of the Issuer to comply during the current or any future year with the provisions of the Indenture. The Issuer shall only exercise its right to terminate the Interest Rate Swap in compliance with the Indenture. A copy of the Interest Rate Swap certified by an Authorized Officer shall be filed with the Trustee, and a copy of any amendment to the Interest Rate Swap, certified by an Authorized Officer, shall be filed with the Trustee.

(Section 7.15)

TAX COVENANTS

(a) The Issuer covenants in the Indenture that it shall not take any action, or fail to take any action, or permit any action to be taken on its behalf or cause or permit any circumstance within its control to arise or continue, if any such action or inaction would adversely affect the exclusion from gross income for federal income tax purposes of the interest on any of the Bonds under Section 103 of the Internal Revenue Code and the applicable Treasury Regulations promulgated thereunder or, as applicable, would adversely affect the Subsidy Payments or receipt thereof by the Issuer or the Trustee. Without limiting the generality of the foregoing, the Issuer covenants that it will (i) comply with the instructions and requirements of the Tax Agreement and (ii) exercise commercially reasonable efforts to cause the Bonds to be redeemed (A) in such amount as may be necessary to maintain the exclusion from federal gross income of interest on the Bonds and (B) in whole in the event that interest on the Bonds becomes includible in federal gross income. The Issuer further agrees to follow any directions provided by Special Tax Counsel with respect to any such redemption. Such covenant shall survive payment in full or defeasance of the Bonds.

(b) In the event that at any time the Issuer is of the opinion that for purposes of the provisions of the Indenture described in this section entitled “Tax Covenants” it is necessary or helpful to restrict or limit the yield on the investment of any moneys held by the Trustee under the Indenture, the Issuer shall so instruct the Trustee in writing as to the specific actions to be taken, and the Trustee shall take such action as specified in such instructions.

(c) Notwithstanding any other provisions of the Indenture described in this section entitled “Tax Covenants,” if the Issuer shall provide to the Trustee an Opinion of Special Tax Counsel that any specified action required under the provisions of the Indenture described in this section entitled “Tax Covenants” is no longer required or that some further or different action is required to maintain the exclusion from federal income tax of interest on the Bonds or the qualification of the Issuer to receive Subsidy Payments with respect to the applicable Series of Bonds, the Issuer and the Trustee may conclusively rely on such opinion in complying with the requirements of the provisions of the Indenture described in this section entitled “Tax Covenants” and of the Tax Agreement, and the covenants under the Indenture shall be deemed to be modified to that extent.

(d) Notwithstanding any other provision of the Indenture to the contrary, upon the Issuer’s failure to observe or refusal to comply with the above covenants, the Holders of the Bonds, or the Trustee acting on their behalf pursuant to their written request and direction, shall be entitled to the rights and remedies provided to Bondholders under the Indenture based upon the Issuer’s failure to observe, or refusal to comply with, the above covenants. In connection with any action taken by it under the provisions of the Indenture described in this section entitled “Tax Covenants,” the Trustee shall have the benefit of all of the protective provisions set forth in the Indenture.

(Section 7.18)

EVENTS OF DEFAULT

Any one or more of the following shall constitute an “Event of Default” under the Indenture:

(a) default shall be made in the due and punctual payment of the principal or Redemption Price or Purchase Price of any Bond when and as the same shall become due and payable, whether at maturity or by call for redemption or tender, or otherwise;

(b) default shall be made in the due and punctual payment of any installment of interest on any Bond or the unsatisfied balance of any Sinking Fund Installment therefor (except when such Sinking Fund Installment is due on the maturity date of such Bond), when and as such interest installment or Sinking Fund Installment shall become due and payable;

(c) default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Indenture or in the Bonds contained, and such default shall continue for a period of 60 days or, if such default cannot reasonably be remedied within such 60 day period, such longer period so long as diligent efforts are being made to remedy such default, after written notice thereof specifying such default and requiring that it shall have been remedied and stating that such notice is a "Notice of Default" under the Indenture is given to the Issuer by the Trustee or to the Issuer and to the Trustee by the Holders of not less than 10% in principal amount of the Bonds Outstanding;

(d) default shall be made in the due and punctual payment of any Commodity Swap Payment or Interest Rate Swap Payment when and as the same shall become due and payable;

(e) the Issuer shall commence a voluntary case or similar proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect (*provided, however*, that such event shall not constitute an Event of Default under the Indenture unless in addition, (i) the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature or (ii) any plan of adjustment or other action in such proceeding would affect in any way the Revenues or the Clean Energy Project), or shall authorize, apply for or consent to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian, sequestrator or similar official for the Clean Energy Project, or any part thereof, and/or the rents, fees, charges or other revenues therefrom, or shall make any general assignment for the benefit of creditors, or shall make a written declaration or admission to the effect that it is unable to meet its debts with respect to the Clean Energy Project as such debts mature, or shall authorize or take any action in furtherance of any of the foregoing;

(f) a court having jurisdiction in the premises shall enter a decree or order for relief in respect of the Issuer in an involuntary case or similar proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, (*provided, however*, that such event shall not constitute an Event of Default under the Indenture unless in addition, (i) the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature or (ii) any plan of adjustment or other action in such proceeding would affect in any way the Revenues or the Clean Energy Project), or a decree or order appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official for the Clean Energy Project, or any part thereof, and/or the rents, fees, charges or other revenues therefor, or a decree or order for the dissolution, liquidation or winding up of the Issuer and its affairs or a decree or order finding or determining that the Issuer is unable to meet its debts with respect to the Clean Energy Project as such debts mature, and any such decree or order shall remain unstayed and in effect for a period of 90 consecutive days; and

(g) there shall occur any other Event of Default specified in a Supplemental Indenture.

(Section 8.01)

ENFORCEMENT OF AGREEMENTS; APPLICATION OF MONEYS AFTER DEFAULT

(a) The Issuer covenants that, if an Event of Default shall have occurred and be continuing, it shall upon the demand of the Trustee (i) take such additional actions on its part as shall be necessary to cause the Project Participant to make payments of all amounts due under the Power Supply Contract to the Trustee, (ii) take such additional actions on its part as shall be necessary to cause the Commodity Swap

Counterparty to make payment of all amounts due under the Commodity Swap directly to the Trustee, (iii) take such additional actions on its part as shall be necessary to cause the Interest Rate Swap Counterparty to make payment of all amounts due under the Interest Rate Swap directly to the Trustee, (iv) execute and deliver such additional instruments that may be necessary to establish or confirm its pledge and assignment to the Trustee of its rights and remedies afforded the Issuer under the Power Supply Contract, and (v) pay over or cause to be paid over to the Trustee any Revenues which have not been paid directly to the Trustee as promptly as practicable after receipt thereof. In addition, to secure its obligations under the Indenture, the Issuer irrevocably pledges and collaterally assigns to the Trustee the Issuer's rights to issue notices (including notices to direct the remarketing of Energy) and to take any other actions that the Issuer is required or permitted to take under the Prepaid Energy Sales Agreement, the Power Supply Contract, the Commodity Swap and the Interest Rate Swap, and, while an Event of Default has occurred and is continuing under the Indenture, the Trustee is authorized and directed, and shall have the authority, to take any such actions as it deems necessary under the Prepaid Energy Sales Agreement, the Power Supply Contract, the Commodity Swap and the Interest Rate Swap. Notwithstanding this authorization, the Issuer shall retain, in the absence of any conflicting action by the Trustee while an Event of Default has occurred and is continuing, the right and obligation to exercise any rights which it has pledged and collaterally assigned to the Trustee in accordance with the foregoing; provided, however, if an Event of Default has occurred and is continuing, the Trustee shall have the right to notify the Issuer to cease exercising such rights and, upon receipt of such notice with a copy provided to the Energy Supplier under the Prepaid Energy Sales Agreement, the Project Participant under the Power Supply Contract, and the Commodity Swap Counterparty under the Commodity Swap, subject to the rights of the Energy Supplier with respect to the Power Supply Contract as set forth in the Receivables Purchase Provisions, the Trustee shall have exclusive authority to exercise such rights until such time as the Event of Default has been cured pursuant to the terms of the Indenture or the Trustee issues a subsequent notice otherwise. For the avoidance of doubt, the Prepaid Energy Sales Agreement, the Power Supply Contract and the Commodity Swap may be amended at any time for changes in Delivery Points as provided therein, without the consent of the Bondholders, any parties other than those to the relevant agreement, and without the provision of opinions or other process under the Indenture.

(b) During the continuance of an Event of Default, the Trustee shall apply all moneys, securities, funds and Revenues received by the Trustee pursuant to any right given or action taken under the provisions of Article VIII of the Indenture in accordance with Article V of the Indenture, after the payment of the fees, charges, expenses and liabilities of the Fiduciaries (including court costs and the fees and expenses of the Fiduciaries' counsel) payable to or incurred by the Fiduciaries in connection with the performance of their duties and the exercise of their rights under the Indenture, provided that (1) moneys held in the Debt Service Account shall not be used for purposes other than payment of the interest and principal or Redemption Price then due on the Bonds and the payment of Interest Rate Swap Payments then due under the Interest Rate Swap, (2) moneys in the Commodity Swap Payment Fund shall be used first to pay any Commodity Swap Payments then due, (3) moneys held in the General Reserve Fund shall not be used other than for the payment of the items specified under the Indenture, and (4) moneys held in the Administrative Fee Fund shall not be used other than as specified in the Indenture.

(c) If and whenever all overdue installments of interest on all Bonds, together with the reasonable charges, expenses and liabilities of the Fiduciaries, and all other sums payable or secured by the Issuer under the Indenture, including the principal and Redemption Price of and accrued unpaid interest on all Bonds which shall then be payable by declaration or otherwise, shall either be paid by or for the account of the Issuer, or provisions satisfactory to the Trustee shall be made for such payment, and all defaults under the Indenture or the Bonds shall be made good or secured to the satisfaction of the Trustee or provision deemed by the Trustee to be adequate shall be made therefor, the Trustee shall pay over to the Issuer all moneys, securities and funds then remaining unexpended in the hands of the Trustee (except moneys, securities and funds deposited or pledged, or required by the terms of the Indenture, particularly the terms

of the Indenture described under “Establishment of Funds and Accounts” above, to be deposited or pledged, with the Trustee), and thereupon the Issuer and the Trustee shall be restored, respectively, to their former positions and rights under the Indenture. No such payment over to the Issuer by the Trustee nor restoration of the Issuer and the Trustee to their former positions and rights shall extend to or affect any subsequent default under the Indenture or impair any right consequent thereon.

(Section 8.03)

APPOINTMENT OF RECEIVER

The Trustee shall have the right, upon the happening of an Event of Default, to apply in an appropriate proceeding for the appointment of a receiver of the Clean Energy Project.

(Section 8.04)

PROCEEDINGS BROUGHT BY TRUSTEE

(a) If an Event of Default shall happen and shall not have been remedied, then and in every such case, the Trustee, by its agents and attorneys, may proceed, and upon written request of the Holders of not less than a majority in principal amount of the Bonds Outstanding and upon being indemnified to its satisfaction shall proceed, to protect and enforce its rights and the rights of the Holders of the Bonds under the Indenture forthwith by a suit or suits in equity or at law, whether for the specific performance of any covenant contained in the Indenture, or in aid of the execution of any power granted pursuant to the Indenture, or for an accounting against the Issuer as if the Issuer were the trustee of an express trust, or in the enforcement of any other legal or equitable right as the Trustee, being advised by counsel, shall deem most effectual to enforce any of its rights or to perform any of its duties under the Indenture.

(b) All rights of action under the Indenture may be enforced by the Trustee without the possession of any of the Bonds or the production thereof at the trial or other proceedings, and any such suit or proceedings instituted by the Trustee shall be brought in its name.

(c) The Holders of not less than a majority in principal amount of the Bonds at the time Outstanding may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee, provided that the Trustee shall have the right to decline to follow any such direction if the Trustee shall be advised by counsel that the action or proceeding so directed may not lawfully be taken, or if the Trustee in good faith shall determine that the action or proceeding so directed would involve the Trustee in personal liability or be unjustly prejudicial to the Bondholders not parties to such direction.

(d) Upon commencing a suit in equity or upon other commencement of judicial proceedings by the Trustee to enforce any right under the Indenture, the Trustee shall be entitled to exercise any and all rights and powers conferred in the Indenture and provided to be exercised by the Trustee upon the occurrence of any Event of Default.

(e) Regardless of the happening of an Event of Default, the Trustee shall have power to, but unless requested in writing by the Holders of a majority in principal amount of the Bonds then Outstanding and furnished with reasonable security and indemnity, shall be under no obligation to, institute and maintain such suits and proceedings as it may be advised shall be necessary or expedient to prevent any impairment of the security under the Indenture by any acts which may be unlawful or in violation of the Indenture, and such suits and proceedings as the Trustee may be advised shall be necessary or expedient to preserve or protect its interests and the interests of the Bondholders.

(Section 8.05)

RESTRICTION ON BONDHOLDERS' ACTION

(a) No Holder of any Bond shall have any right to institute any suit, action or proceeding at law or in equity for the enforcement of any provision of the Indenture or the execution of any trust under the Indenture or for any remedy under the Indenture, unless such Holder (i) shall have previously given to the Trustee written notice of the happening of an Event of Default, as provided in the Indenture, and the Holders of at least a majority in principal amount of the Bonds then Outstanding shall have filed a written request with the Trustee, (ii) shall have offered it reasonable opportunity, either to exercise the powers granted in the Indenture or by the laws of the State or to institute such action, suit or proceeding in its own name, and (iii) shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby, and the Trustee shall have refused to comply with such request for a period of 60 days after receipt by it of such notice, request and offer of indemnity, it being understood and intended that no one or more Holders of Bonds shall have any right in any manner whatever by its or their action to affect, disturb or prejudice the pledge created by the Indenture, or to enforce any right under the Indenture, except in the manner therein provided; and that all proceedings at law or in equity to enforce any provision of the Indenture shall be instituted, had and maintained in the manner provided in the Indenture and for the equal benefit of all Holders of the Outstanding Bonds, subject only to the provisions of the Indenture.

(b) Nothing in the Indenture or in the Bonds shall affect or impair the obligation of the Issuer, which is absolute and unconditional, to pay only from the Trust Estate, in accordance with the terms of the Indenture, at the respective dates of maturity and places therein expressed the principal of (and premium, if any) and interest on the Bonds to the respective Holders thereof, or affect or impair the right of action, which is also absolute and unconditional, of any Holder to enforce such payment of its Bond.

(Section 8.06)

REMEDIES NOT EXCLUSIVE

No remedy by the terms of the Indenture conferred upon or reserved to the Trustee or the Bondholders is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under the Indenture or existing at law or in equity or by statute on or after the date of execution and delivery of the Indenture.

(Section 8.07)

EFFECT OF WAIVER AND OTHER CIRCUMSTANCES

(a) No delay or omission of the Trustee or any Bondholder to exercise any right or power arising upon the happening of an Event of Default shall impair any right or power or shall be construed to be a waiver of any such Event of Default or be an acquiescence therein; and every power and remedy given by the Indenture to the Trustee or to the Bondholders may be exercised from time to time and as often as may be deemed expedient by the Trustee or by the Bondholders.

(b) Prior to the declaration of maturity of the Bonds as provided in the Indenture, the Holders of not less than a majority in principal amount of the Bonds at the time Outstanding, or their attorneys-in-fact duly authorized, may on behalf of the Holders of all of the Bonds waive any past default under the Indenture and its consequences, except a default in the payment of interest on or principal of or premium

(if any) on any of the Bonds. No such waiver shall extend to any subsequent or other default or impair any right consequent thereon.

(Section 8.08)

NOTICE OF DEFAULT

The Trustee shall promptly mail written notice of the occurrence of any Event of Default to each registered owner of Bonds then Outstanding at its address, if any, appearing upon the registry books of the Issuer.

(Section 8.09)

SUPPLEMENTAL INDENTURES NOT REQUIRING CONSENT OF BONDHOLDERS

The Issuer and the Trustee may from time to time, subject to the conditions and restrictions contained in the Indenture, enter into a Supplemental Indenture or Indentures, in form satisfactory to the Trustee, which shall thereafter form a part of the Indenture, without the consent of the Bondholders for any one or more of the following purposes:

(i) To cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision in the Indenture;

(ii) To insert such provisions clarifying matters or questions arising under the Indenture as are necessary or desirable and are not contrary to or inconsistent with the Indenture as theretofore in effect;

(iii) To make any other modification or amendment of the Indenture which the Trustee shall in its sole discretion determine will not have a material adverse effect on the Bondholders or the Interest Rate Swap Counterparty; and in making such a determination, the Trustee shall be entitled to rely conclusively upon an Opinion of Counsel and/or certificates of investment bankers or other financial professionals or consultants;

(iv) To add to the covenants and agreements of the Issuer in the Indenture, other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Indenture as theretofore in effect;

(v) To add to the limitations and restrictions in the Indenture, other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Indenture as theretofore in effect;

(vi) To authorize the issuance of Refunding Bonds;

(vii) To authorize, in compliance with all applicable law, Bonds to be issued in the form of coupon Bonds registrable as to principal only and, in connection therewith, specify and determine the matters and things relative to the issuance of such coupon Bonds, including provisions relating to the timing and manner of provision of any notice required to be given under the Indenture to the Holders of such coupon Bonds, which are not contrary to or inconsistent with the Indenture as theretofore in effect, or to amend, modify or rescind any such authorization, specification or determination at any time prior to the first authentication and delivery of such coupon Bonds;

(viii) To provide for the execution of a Commodity Swap in accordance with the provisions of the Indenture;

(ix) To provide for a Liquidity Facility and Liquidity Facility Provider in accordance with the provisions of the Indenture;

(x) To confirm, as further assurance, any security interest, pledge or assignment under, and the subjection to any security interest, pledge or assignment created or to be created by, the Indenture of the Revenues or of any other moneys, securities or funds;

(xi) To add to the Events of Default in the Indenture additional Events of Default;

(xii) To add to the Indenture any provisions relating to the application of interest earnings on any Fund or Account under the Indenture required by law to preserve the exclusion of interest on Bonds issued from gross income for federal income tax purposes;

(xiii) To evidence the appointment of a successor Trustee; or

(xiv) If the Bonds affected by such change are rated by a Rating Agency, to make any change upon receipt of a Rating Confirmation with respect to the Bonds so affected.

Each Supplemental Indenture authorized by this section entitled “Supplemental Indentures not Requiring Consent of Bondholders” shall become effective as of the date of its execution and delivery by the Issuer and the Trustee or such later date as shall be specified in such Supplemental Indenture.

A Supplemental Indenture will be deemed to not materially adversely affect the Holders of any Bonds that are subject to mandatory tender on or before the effective date of the Supplemental Indenture.

(Section 10.01)

GENERAL PROVISIONS

(a) The Indenture shall not be modified or amended in any respect except as provided in and in accordance with and subject to the provisions of the Indenture relating to amendments. Nothing contained in the provisions of the Indenture relating to amendments shall affect or limit the right or obligation of the Issuer to adopt, make, do, execute, acknowledge or deliver any resolution, act or other instrument pursuant to the provisions of the Indenture or the right or obligation of the Issuer to execute and deliver to any Fiduciary any instrument which elsewhere in the Indenture it is provided shall be delivered to said Fiduciary.

(b) Any Supplemental Indenture referred to and permitted or authorized by the Indenture may be entered into between the Issuer and the Trustee without the consent of any of the Bondholders, but shall become effective only on the conditions, to the extent and at the time provided under the Indenture. A copy of every Supplemental Indenture shall be accompanied by an Opinion of Counsel stating that such Supplemental Indenture is authorized or permitted by the Indenture, and is valid and binding upon the Issuer; provided, that such Opinion of Counsel may take customary exceptions, including as to the effect of, or for restrictions or limitations imposed by or resulting from, bankruptcy, insolvency, receivership, debt adjustment, moratorium, reorganization, arrangement, fraudulent conveyance or other similar laws relating to or affecting creditors’ rights generally, the application of equitable principles, the exercise of judicial discretion, limitations on legal remedies against public entities in the State, and the valid exercise

of the sovereign police powers of the State and of the constitutional power of the United States of America and may state that no opinion is being rendered as to the availability of any particular remedy.

(c) The Trustee is authorized under the Indenture to enter into any Supplemental Indenture referred to and permitted or authorized by the Indenture and to make all further agreements and stipulations which may be therein contained, and the Trustee, in taking such action, shall be fully protected in relying on an Opinion of Counsel that such Supplemental Indenture is authorized or permitted by the provisions of the Indenture.

(d) No Supplemental Indenture shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto; provided, however the provisions of the Indenture described under this section entitled "General Provisions" shall not affect the rights of the Holders or the Issuer to remove the Trustee as provided in the Indenture.

(e) Notwithstanding anything in the provisions of the Indenture relating to amendments to the contrary, no Supplemental Indenture (or other amendment to the Indenture) shall change or modify (i) the order of priority of deposits set forth in the Indenture, (ii) the priority of the application of funds following an Event of Default as set forth in the Indenture, (iii) the definition of Operating Expenses, (iv) any of the rights or interests of the Commodity Swap Counterparty, the Interest Rate Swap Counterparty (if any) or the Energy Supplier, as purchaser under the Receivables Purchase Provisions, granted in the Indenture or in the CCCFA Commodity Swap, the Interest Rate Swap or the Receivables Purchase Provisions, as the case may be, or (v) the provisions of the Indenture regarding the sale by the Trustee of Put Receivables (A) in each case unless the prior written consent of the Commodity Swap Counterparty has been obtained, and the Commodity Swap Counterparty shall have full right to enforce this provision, and (B) in the case of clause (iv) of this paragraph (e), unless the prior written consent of the Interest Rate Swap Counterparty and/or the Energy Supplier, as applicable, has been obtained.

(Section 10.03)

POWERS OF AMENDMENT

Any modification or amendment of the Indenture and of the rights and obligations of the Issuer and of the Holders of the Bonds thereunder may be made by a Supplemental Indenture, subject to the provisions of the Indenture, with the written consent given as provided in in the Indenture of the Holders of not less than a majority in principal amount of Outstanding Bonds, and (b) in case the modification or amendment changes the terms of any Sinking Fund Installment, of the Holders of not less than a majority in principal amount of Outstanding Bonds of the particular maturity entitled to such Sinking Fund Installment; provided, however, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified like maturity remain Outstanding (or have become subject to mandatory purchase) the consent of the Holders of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this section entitled "Powers of Amendment;" and provided further, however, that if such modification or amendment would adversely affect the Interest Rate Swap Counterparty, such modification or amendment shall be subject to the prior written consent of the Interest Rate Swap Counterparty. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal of any Outstanding Bond or of any installment of interest thereon or a reduction in the principal amount or the Redemption Price thereof or in the rate of interest thereon without the consent of the Holder of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds the consent of the Holders of which is required to effect any such modification or amendment, or shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto. For the purposes of the provisions of the Indenture described in this paragraph, the Bonds shall be deemed to be affected by a modification or amendment of the Indenture if

the same adversely affects or diminishes the rights of the Holders of Bonds in any material respect. The Trustee may in its discretion determine whether or not in accordance with the foregoing powers of amendment Bonds would be materially affected by any modification or amendment of the Indenture and any such determination shall be binding and conclusive on the Issuer and all Holders of Bonds. For purposes of this section entitled “Powers of Amendment,” the Holders of any Bonds may include the initial Holders thereof, regardless of whether such Bonds are being held for resale.

(Section 11.02)

DEFEASANCE

(a) If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of all Bonds the principal or Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated in the Bonds and in the Indenture and shall pay or cause to be paid all amounts due or to become due to the Interest Rate Swap Counterparty under the Interest Rate Swap, then the pledge of all covenants, agreements and other obligations of the Issuer to the Bondholders, shall thereupon cease, terminate and be discharged and satisfied except for remaining rights of registration of transfer and exchange of Bonds; provided, however, that the Indenture shall not be discharged until (i) the Issuer shall have paid and satisfied all claims, charges and expenses that constitute Operating Expenses under the Indenture, (ii) the Trustee shall have received an Opinion of Counsel to the effect that all conditions precedent to the satisfaction and discharge of the Indenture have been fulfilled and (iii) receipt by the Trustee of a Rating Confirmation. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the Issuer to be prepared and filed with the Issuer and, upon the request of the Issuer, shall execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction, and the Fiduciaries shall pay over or deliver to the Issuer all moneys or securities held by them pursuant to the Indenture which are not required for the payment of principal or Redemption Price, if applicable, on Bonds not theretofore surrendered for such payment or redemption. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of any Outstanding Bonds the principal or Redemption Price, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in the Indenture, such Bonds shall cease to be entitled to any lien, benefit or security under the Indenture, and all covenants, agreements and obligations of the Issuer to the Holders of such Bonds shall thereupon cease, terminate and be discharged and satisfied except for remaining rights of registration of transfer and exchange of Bonds.

(b) Bonds or interest installments for the payment or redemption of which moneys shall have been set aside and shall be held in trust by the Paying Agents (through deposit by the Issuer of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed in the above paragraph (a). In addition, any Outstanding Bonds shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in the above paragraph (a) upon compliance with the provisions of the below paragraph (c).

(c) Subject to the provisions of the Indenture described in paragraph (d) below, any Outstanding Bonds shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in paragraph (a) above of under this section entitled “Defeasance” if (i) in case any of said Bonds are to be redeemed on any date prior to their maturity, the Issuer shall have given to the Trustee irrevocable written instructions accepted in writing by the Trustee to mail as provided in Article IV notice of redemption of such Bonds (other than Bonds which have been purchased by the Trustee at the direction of the Issuer or purchased or otherwise acquired by the Issuer and delivered to the Trustee as thereafter provided prior to the mailing of such notice of redemption) on said date, (ii) there shall have been deposited with the Trustee either moneys (including moneys withdrawn and

deposited pursuant to the Indenture) in an amount which shall be sufficient, or Defeasance Securities (including any Defeasance Securities issued or held in book entry form on the books of the Department of the Treasury of the United States) the principal of and the interest on which when due will provide moneys which, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient, to pay when due the principal or Redemption Price, if applicable, and interest due and to become due on said Bonds (with such interest being calculated at the Maximum Rate with respect to any Bonds with interest rates that are not fixed to their redemption or maturity date, as applicable) on or prior to the redemption date or maturity date thereof, as the case may be, and (iii) in the event said Bonds are not by their terms subject to redemption within the next succeeding 60 days, the Issuer shall have given the Trustee in form satisfactory to it irrevocable written instructions to mail, as soon as practicable, a notice to the Holders of such Bonds at their last addresses appearing upon the registry books at the close of business on the last Business Day of the month preceding the month for which notice is mailed that the deposit required by (ii) above has been made with the Trustee and that said Bonds are deemed to have been paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance" and stating such maturity or redemption date upon which moneys are expected, subject to the provisions of paragraph (d) below of this section entitled "Defeasance," to be available for the payment of the principal or Redemption Price, if applicable, on said Bonds (other than Bonds which have been purchased by the Trustee at the direction of the Issuer or purchased or otherwise acquired by the Issuer and delivered to the Trustee as provided in the Indenture prior to the mailing of the notice of redemption referred to in clause (i)). Any notice of redemption mailed pursuant to the preceding sentence with respect to Bonds which constitute less than all of the Outstanding Bonds of any maturity shall specify the letter and number or other distinguishing mark of each such Bond. The Trustee shall, as and to the extent necessary, apply moneys held by it pursuant to the provisions of the Indenture described under this section entitled "Defeasance" to the retirement of said Bonds in amounts equal to the unsatisfied balances (determined as provided in the Indenture) of any Sinking Fund Installments with respect to such Bonds, all in the manner provided in the Indenture. The Trustee shall, if so directed by the Issuer (A) prior to the maturity date of Bonds deemed to have been paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance" which are not to be redeemed prior to their maturity date or (B) prior to the mailing of the notice of redemption referred to in clause (i) above with respect to any Bonds deemed to have been paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance" which are to be redeemed on any date prior to their maturity, apply moneys deposited with the Trustee in respect of such Bonds and redeem or sell Defeasance Securities so deposited with the Trustee and apply the proceeds thereof to the purchase of such Bonds and, the Trustee shall immediately thereafter cancel all such Bonds so purchased; provided, however, that the moneys and Defeasance Securities remaining on deposit with the Trustee after the purchase and cancellation of such Bonds (or the deemed cancellation thereof) shall be sufficient to pay when due the Principal Installment or Redemption Price, if applicable, and interest due or to become due on all Bonds (calculated as described above), in respect of which such moneys and Defeasance Securities are being held by the Trustee on or prior to the redemption date or maturity date thereof, as the case may be. If, at any time (1) prior to the maturity date of Bonds deemed to have been paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance" which are not to be redeemed prior to their maturity date or (2) prior to the mailing of the notice of redemption referred to in clause (i) with respect to any Bonds deemed to have been paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance" which are to be redeemed on any date prior to their maturity, the Issuer shall purchase or otherwise acquire any such Bonds and deliver such Bonds to the Trustee prior to their maturity date or redemption date, as the case may be, the Trustee shall immediately cancel all such Bonds so delivered; such delivery of Bonds to the Trustee shall be accompanied by written directions from the Issuer to the Trustee as to the manner in which such Bonds are to be applied against the obligation of the Trustee to pay or redeem Bonds deemed paid in accordance with the provisions of the Indenture described under this section entitled "Defeasance." The directions given by the Issuer to the Trustee referred to in the preceding sentences shall also specify the portion, if any, of such Bonds so purchased or delivered and cancelled or deemed cancelled to be applied against the obligation of the Trustee

to pay Bonds deemed paid in accordance with the provisions of the Indenture described under this section entitled “Defeasance” upon their maturity date or dates and the portion, if any, of such Bonds so purchased or delivered and cancelled or deemed cancelled to be applied against the obligation of the Trustee to redeem Bonds deemed paid in accordance with the provisions of the Indenture described under this section entitled “Defeasance” on any date or dates prior to their maturity. In the event that on any date as a result of any purchases, acquisitions and cancellations or deemed cancellations of Bonds as provided in the provisions of the Indenture described under this section entitled “Defeasance” the total amount of moneys and Defeasance Securities remaining on deposit with the Trustee under the provisions of the Indenture described under this section entitled “Defeasance” is in excess of the total amount which would have been required to be deposited with the Trustee on such date in respect of the remaining Bonds in order to satisfy clause (ii) of this paragraph (c) of this section entitled “Defeasance,” the Trustee shall, if requested by the Issuer, in writing pay the amount of such excess to the Issuer free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under the Indenture. Except as otherwise provided in paragraphs (c) and (d) of this section entitled “Defeasance,” neither Defeasance Securities nor moneys deposited with the Trustee pursuant to the provisions of the Indenture described under this section entitled “Defeasance” nor principal or interest payments on any such Defeasance Securities shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal or Redemption Price, if applicable, and interest on said Bonds; provided that any cash received from such principal or interest payments on such Defeasance Securities deposited with the Trustee, (x) to the extent such cash will not be required at any time for such purpose, shall be paid over to the Issuer as received by the Trustee, free and clear of any trust, lien or pledge securing said Bonds or otherwise existing under the Indenture, and (y) to the extent such cash will be required for such purpose at a later date, shall, to the extent practicable, be reinvested in Qualified Investments maturing at times and in amounts sufficient to pay when due the principal or Redemption Price, if applicable, and interest to become due on said Bonds on or prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the Issuer, as received by the Trustee, free and clear of any trust, lien, security interest, pledge or assignment securing said Bonds or otherwise existing under the Indenture. Notwithstanding anything contained in the Indenture to the contrary, the Issuer shall pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against Defeasance Securities or the principal and interest received on Defeasance Securities.

(d) Anything in the Indenture to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any of the Bonds which remain unclaimed for six years (or, if shorter, one Business Day before such moneys would escheat to the State under then applicable State law) after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the Fiduciary at such date, or for six years after the date of deposit of such moneys if deposited with the Fiduciary after the said date when such Bonds became due and payable, shall, at the Written Request of the Issuer, be repaid by the Fiduciary to the Issuer, as its absolute property and free from trust, and the Fiduciary shall thereupon be released and discharged with respect thereto and the Bondholders shall look only to the Issuer for the payment of such Bonds; provided, however, that before being required to make any such payment to the Issuer the Fiduciary shall, at the expense of the Issuer, cause to be published at least twice, at an interval of not less than seven days between publications, in the Authorized Newspaper, a notice that said moneys remain unclaimed and that, after a date named in said notice, which date shall be not less than 30 days after the date of the first publication of such notice, the balance of such moneys then unclaimed will be returned to the Issuer.

APPENDIX D

FORM OF CONTINUING DISCLOSURE UNDERTAKING FOR THE PURPOSE OF PROVIDING CONTINUING DISCLOSURE INFORMATION UNDER SECTION (b)(5) OF RULE 15c2-12

[closing date]

This Continuing Disclosure Undertaking (the “*Agreement*”) is executed and delivered by California Community Choice Financing Authority (“CCCFA”) in connection with the issuance of its \$[] Clean Energy Project Revenue Bonds Series 2025[] (Green Bonds) (Term Rate), (the “*Bonds*”). The Bonds are being issued pursuant to a Trust Indenture, dated as of [] 1, 2025 (the “*Indenture*”), between CCCFA and The Bank of New York Mellon Trust Company, N.A., as trustee.

In consideration of the issuance of the Bonds by CCCFA and the purchase of such Bonds by the beneficial owners thereof, CCCFA covenants and agrees as follows:

1. Purpose of This Agreement. This Agreement is executed and delivered by CCCFA as of the date set forth below, for the benefit of the beneficial owners of the Bonds and in order to assist the Participating Underwriter in complying with the requirements of the Rule (as defined below). CCCFA represents that it will be the only “obligated person” within the meaning of the Rule with respect to the Bonds at the time the Bonds are delivered to the Participating Underwriter and that no other person is expected to become so committed at any time after the issuance of the Bonds.

2. Definitions. (a) The terms set forth below shall have the following meanings in this Agreement, unless the context clearly otherwise requires.

“*Annual Financial Information*” means the financial information and operating data described in *Exhibit I*.

“*Annual Financial Information Disclosure*” means the dissemination of disclosure concerning Annual Financial Information and the dissemination of the Audited Financial Statements as set forth in Section 4.

“*Audited Financial Statements*” means collectively, the audited financial statements of CCCFA and the Project Participant, each prepared pursuant to the standards and as described in *Exhibit I*.

“*Commission*” means the Securities and Exchange Commission.

“*Dissemination Agent*” means any agent designated as such in writing by CCCFA and which has filed with CCCFA a written acceptance of such designation, and such agent’s successors and assigns.

“*EMMA*” means the MSRB through its Electronic Municipal Market Access system for municipal securities disclosure or through any other electronic format or system prescribed by the MSRB for purposes of the Rule.

“*Energy Supplier*” means Energy Prepay [____], LLC, a Delaware limited liability company and its successors and permitted assigns.

“*Exchange Act*” means the Securities Exchange Act of 1934, as amended.

“*Final Official Statement*” means the Final Official Statement dated [____], 2025, relating to the Bonds.

“*Financial Obligation*” means (a) a debt obligation, (b) a derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation, or (c) a guarantee of an obligation or instrument described in clause (a) or (b) of this definition; provided however, the term Financial Obligation does not include municipal securities as to which a final official statement has been provided to the MSRB consistent with the Rule.

“*Ledger Event*” has the meaning assigned to such term in Exhibit C to the Prepaid Energy Sales Agreement.

“*Monthly Ledger Report*” means the copies of the ledgers maintained by the Energy Supplier pursuant to Exhibit C of the Prepaid Energy Sales Agreement and delivered each month to CCCFA pursuant to Section 9(b) of such Exhibit.

“*MSRB*” means the Municipal Securities Rulemaking Board.

“*Non-Private Business Sales Ledger*” and “*Private Business Sales Ledger*” have the meanings assigned to such terms in Exhibit C to the Prepaid Energy Sales Agreement.

“*Participating Underwriter*” means each broker, dealer or municipal securities dealer acting as an underwriter in the primary offering of the Bonds.

“*Prepaid Energy Sales Agreement*” means the Prepaid Energy Sales Agreement dated as of [____], 2025 between the Energy Supplier and CCCFA.

“*Project Participant*” means Silicon Valley Clean Energy Authority.

“*Reportable Event*” means the occurrence of any of the Events with respect to the Bonds set forth in *Exhibit II*.

“*Reportable Events Disclosure*” means dissemination of a notice of a Reportable Event as set forth in Section 5.

“*Rule*” means Rule 15c2-12 adopted by the Commission under the Exchange Act, as the same may be amended from time to time.

“*Undertaking*” means the obligations of CCCFA pursuant to Sections 4 and 5.

(b) Capitalized terms used and not otherwise defined herein shall have the meanings assigned to them in the Indenture.

3. CUSIP Numbers. The CUSIP Numbers of the Bonds are as follows:

MATURITY (_____ 1)	AMOUNT	CUSIP NUMBER

CCCFA will include the CUSIP Numbers (or applicable CUSIP Number) in all disclosure described in Sections 4 and 5 of this Agreement.

4. Annual Financial Information Disclosure. Subject to Section 9 of this Agreement, CCCFA hereby covenants that it will disseminate or cause to be disseminated on its behalf its Annual Financial Information and the Audited Financial Statements (in the form and by the dates set forth in *Exhibit I*) to EMMA in such manner and format and accompanied by identifying information as is prescribed by the MSRB or the Commission at the time of delivery of such information and by such time so that such entities receive the information by the dates specified.

If any part of the Annual Financial Information can no longer be generated because the operations to which it is related have been materially changed or discontinued, CCCFA will disseminate a statement to such effect as part of the Annual Financial Information for the year in which such event first occurs.

If any amendment or waiver is made to this Agreement, the Annual Financial Information for the year in which such amendment is made (or in any notice or supplement provided to EMMA) shall contain a narrative description of the reasons for such amendment and its impact on the type of information being provided.

5. Reportable Events Disclosure. Subject to Section 8 of this Agreement, CCCFA hereby covenants that it will disseminate in a timely manner (not in excess of ten business days after the occurrence of the Reportable Event) Reportable Events Disclosure to EMMA in such manner and format and accompanied by identifying information as is prescribed by the MSRB or the Commission at the time of delivery of such information. References to “material” in *Exhibit II* refer to materiality as it is interpreted under the Exchange Act. MSRB Rule G-32 requires all EMMA filings to be in word-searchable PDF format. This requirement extends to all documents to be filed with EMMA, including financial statements and other externally prepared reports. Notwithstanding the foregoing, notice of optional or unscheduled redemption of any Bonds or defeasance of any Bonds need not be given under this Agreement any earlier than the notice (if any) of such redemption or defeasance is given to the Bondholders pursuant to the Indenture.

6. Consequences of Failure of CCCFA to Provide Information. CCCFA shall give notice in a timely manner to EMMA of any failure to provide Annual Financial Information Disclosure when the same is due hereunder.

In the event of a failure of CCCFA to comply with any provision of this Agreement, the beneficial owner of any Bond may seek mandamus or specific performance by court order, to cause CCCFA to comply with its obligations under this Agreement. The beneficial owners of 25% or more in principal amount of the Bonds outstanding may challenge the adequacy of the information provided under this Agreement and seek specific performance by court order to cause CCCFA to provide the information as required by this Agreement. A default under this Agreement shall not be deemed an Event of Default under the Indenture, and the sole remedy under this Agreement in the event of any failure of CCCFA to comply with this Agreement shall be an action to compel performance.

7. Amendments; Waiver. Notwithstanding any other provision of this Agreement, CCCFA by resolution authorizing such amendment or waiver, may amend this Agreement, and any provision of this Agreement may be waived, if:

(a) (i) The amendment or waiver is made in connection with a change in circumstances that arises from a change in legal requirements, including without limitation pursuant to a “no-action” letter issued by the Commission, change in law, or change in the identity, nature, or status of CCCFA, or type of business conducted; or

(ii) This Agreement, as amended, or the provision, as waived, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(b) The amendment or waiver does not materially impair the interests of the beneficial owners of the Bonds, as determined either by parties unaffiliated with CCCFA (such as the Trustee), or by approving vote of Bondholders pursuant to the terms of the Indenture at the time of the amendment.

In the event that the Commission, the MSRB or other regulatory authority shall approve or require Annual Financial Information Disclosure or Reportable Events Disclosure to be made to a central post office, governmental agency or similar entity other than EMMA or in lieu of EMMA, CCCFA shall, if required, make such dissemination to such central post office, governmental agency or similar entity without the necessity of amending this Agreement.

8. Termination of Undertaking. The Undertaking of CCCFA shall be terminated hereunder if CCCFA no longer has any legal liability for any obligation on or relating to repayment of the Bonds under the Indenture. CCCFA shall give notice to EMMA in a timely manner if this Section is applicable.

9. Dissemination Agent. CCCFA may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Agreement, and may discharge any such Dissemination Agent with or without appointing a successor Dissemination Agent.

10. Additional Information. Nothing in this Agreement shall be deemed to prevent CCCFA from disseminating any other information, using the means of dissemination set forth in this Agreement or any other means of communication, or including any other information in any Annual Financial Information Disclosure or notice of occurrence of a Reportable Event, in addition to that which is required by this Agreement. If CCCFA chooses to include any information from any document or notice of occurrence of a Reportable Event in addition to that which is specifically required by this Agreement, CCCFA shall have no obligation under this Agreement to update such information or include it in any future disclosure or notice of occurrence of a Reportable Event. If the name of CCCFA is changed, CCCFA shall disseminate such information to EMMA.

11. Beneficiaries. This Agreement has been executed in order to assist the Participating Underwriter in complying with the Rule; however, this Agreement shall inure solely to the benefit of CCCFA, the Dissemination Agent, if any, and the beneficial owners of the Bonds, and shall create no rights in any other person or entity.

12. Recordkeeping. CCCFA shall maintain records of all Annual Financial Information Disclosure and Reportable Events Disclosure, including the content of such disclosure, the names of the entities with whom such disclosure was filed and the date of filing such disclosure.

13. Assignment. CCCFA shall not transfer its obligations under the Indenture unless the transferee agrees to assume all obligations of CCCFA under this Agreement or to execute an Undertaking under the Rule.

14. Governing Law. This Agreement shall be governed by the laws of the State of California.

ANNUAL FINANCIAL INFORMATION AND TIMING AND AUDITED
FINANCIAL STATEMENTS

“*Annual Financial Information*” means financial information and operating data with respect to the Clean Energy Project, including:

- (a) with respect to the Project Participant updated information under the headings “Customers – General,” “Customers – Customer Opt-Out Rate and Customer Retention,” “Service Rates – Current and Historical Rate Information,” “Sources of Energy – Energy Purchases,” “Financial Information – Results of Operations,” “Financial Information – Assets, Liabilities, Deferred Inflows or Resources and Net Position” and “Financial Information – Other Liquidity Sources” set forth Appendix A to the Official Statement;
- (b) the quantities of Energy from the Clean Energy Project sold by CCCFA, whether to the Project Participant or others; and
- (c) such other information and data as CCCFA may deem necessary in order to comply with the requirements of the Rule.

“*Audited Financial Statements*” means the audited financial statements of CCCFA and the Project Participant, in each case for the most recent fiscal year (commencing with the fiscal year ended December 31, 2024 for CCCFA, and commencing with the fiscal year ended September 30, 2025 for the Project Participant), in each case prepared in accordance with generally accepted accounting principles as promulgated to comply with governmental entities from time to time (or such other accounting principles as may be applicable to CCCFA and the Project Participant, as the case may be, in the future pursuant to applicable law).

All or a portion of the Annual Financial Information and the Audited Financial Statements set forth above may be included by reference to other documents which have been submitted to EMMA or filed with the Commission. If the information included by reference is contained in a final official statement, the final official statement must be available on EMMA. The final official statement need not be available from the Commission. CCCFA shall clearly identify each such item of information included by reference.

Annual Financial Information with respect to the Project Participant will be submitted to EMMA by 200 days after end of the Project Participant’s fiscal year, commencing with its fiscal year ending September 30, 2025.

Annual Financial Information with respect to CCCFA (*i.e.*, the information described in clauses (b) and (c) of the definition of Annual Financial Information) will be submitted to EMMA by 200 days after end of CCCFA’s fiscal year, commencing with its Fiscal Year ending December 31, 2025.

Audited Financial Statements as described above should be filed at the same times as the Annual Financial Information for the Project Participant and CCCFA. If Audited Financial Statements are not available when such Annual Financial Information is filed, unaudited financial statements shall be included. Audited Financial Statements will be submitted to EMMA no later than 30 days after availability to CCCFA.

If any change is made to the Annual Financial Information as permitted by Section 4 of the Agreement, CCCFA will disseminate a notice of such change as required by Section 4.

APPENDIX E

FORM OF OPINION OF BOND COUNSEL

[Closing Date]

California Community Choice Financing Authority
San Rafael, California

California Community Choice Financing Authority
Clean Energy Project Revenue Bonds, Series 2025[] (Term Rate)

Ladies and Gentlemen:

We have acted as bond counsel to California Community Choice Financing Authority (the “Issuer”) in connection with issuance of \$[PAR] aggregate principal amount of California Community Choice Financing Authority Clean Energy Project Revenue Bonds, Series 2025[] (Green Bonds) (Term Rate) (the “Bonds”), issued pursuant to a Trust Indenture, dated as of [] 1, 2024 (the “Indenture”), between the Issuer and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”). The Indenture provides that the Bonds are issued for the purpose of financing the Cost of Acquisition of the Clean Energy Project. Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture.

The Issuer is authorized under the Joint Exercise of Powers Act (the “Act”) constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500) of the California Government Code, as amended or supplemented from time to time, to issue the Bonds to finance the Cost of Acquisition of the Clean Energy Project.

In such connection, we have reviewed the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the Commodity Swap, the Seller Swap (as defined in the Prepaid Energy Sales Agreement), the Tax Certificate and Agreement, dated the date hereof (the “Tax Certificate”), opinions of counsel to the Issuer and the Trustee, certificates of the Issuer, the Trustee and others, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein.

We have examined such proceedings, documents, statutes and decisions, as we consider necessary as the basis for this opinion, including, *inter alia*, the Act and an executed and authenticated Bond. We assume that all other Bonds have been similarly executed and authenticated. We also assume that all documents, records, certifications and other instruments examined by us are genuine (including the signatures thereon), accurate and complete and we have not undertaken, by independent investigation, to verify the factual matters set forth in any such documents, records, certifications or other instruments.

The rights and obligations under the Bonds, the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the Commodity Swap, the Seller Swap, the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, receivership, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors’ rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against public entities in the State of California. We express no opinion with

respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute or having the effect of a penalty), right of set-off, arbitration, judicial reference, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents, nor do we express any opinion with respect to the state or quality of title to or interest in any of the assets described in or as subject to the lien of the Indenture or the accuracy or sufficiency of the description contained therein of, or the remedies available to enforce liens on, any such assets. Our services did not include financial or other non-legal advice.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding limited obligations of the Issuer.
2. The Indenture has been duly executed and delivered by, and constitutes the valid and binding obligation of, the Issuer. The Indenture creates a valid pledge, to secure the payment of the principal of and interest on the Bonds, of the Trust Estate, subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth in the Indenture, and a valid pledge of the Commodity Swap Payment Fund and the amounts and investments on deposit therein in favor of the Commodity Swap Counterparties.
3. Interest on the Bonds [(including original issue discount)] is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Bonds, assuming the accuracy of the certifications of the Issuer and continuing compliance by the Issuer with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"). Interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, such interest is taken into account in determining the adjusted financial statement income of applicable corporations, as provided in the Code, for purposes of computing the alternative minimum tax imposed on such corporations. We express no opinion regarding other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.
4. Under existing laws as enacted and construed on the date of initial delivery of the Bonds, interest on the Bonds is exempt from State of California personal income taxes. We express no opinion regarding any other state or local tax consequences arising with respect to the ownership, sale or disposition of, or the amount, accrual or receipt of interest on, the Bonds, including, but not limited to, whether the interest on the Bonds is exempt from taxation under the laws of any jurisdiction other than the State of California.

In rendering the opinion set forth in paragraph 3, we have assumed compliance with all covenants and agreements contained in the Indenture, the Prepaid Energy Sales Agreement, the Power Supply Contract, the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions, omissions or events will not cause interest on the Bonds to be included in gross income for federal income tax purposes.

Our engagement as bond counsel imposed no duty on us (a) to undertake any investigation as to either: (i) the adequacy of the security for the Bonds, (ii) the business or financial condition of the Issuer,

and (iii) the veracity of any representations or certification made by the Issuer on which we have relied, or (b) to prepare, file or monitor the filing of continuation statements. We assume no obligation to file continuation statements under the Uniform Commercial Code of any jurisdiction, or to advise you to do so.

Our opinions represent our legal judgment based upon our review of the law and the facts that we deem relevant to render such opinion and are not a guarantee of a result. This opinion letter is given solely for the benefit of the addressees and their successors and assigns. This opinion letter is not intended to be employed in any transaction other than the one described above and is being delivered to the addressees with the understanding that it may not be published, quoted, relied on or referred to by, and copies may not be delivered or made available to, in whole in or part, any other person or entity (other than the addressees' counsel or any applicable rating agency) or used for any other purpose without the express prior written consent of this firm in each instance.

We render this opinion as of the date hereof on the basis of federal law and the laws of the State of California as enacted and construed on the date hereof. We express no opinion as to any matter not set forth in the numbered paragraphs herein, including, without limitation, the accuracy or completeness of the preliminary or final official statement or other documents prepared or statements made in connection with the offering and sale of the Bonds, and make no representation that we have independently verified the contents thereof.

Sincerely yours,

APPENDIX G

BOOK-ENTRY SYSTEM

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC. If, however, the aggregate principal amount of any maturity of the Bonds exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount and an additional certificate will be issued with respect to any remaining principal amount of such maturity.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“*Direct Participants*”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“*Indirect Participants*”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“*Beneficial Owner*”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested

by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership.

DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within a maturity of the Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to CCCFA of securities as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts such Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds and payments of principal and interest on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from CCCFA or the Trustee on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, CCCFA or the Trustee, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds and principal and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of CCCFA or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to CCCFA or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

CCCFA may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates are required to be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that CCCFA believes to be reliable, but CCCFA takes no responsibility for the accuracy thereof.

APPENDIX H

REDEMPTION PRICE OF THE BONDS

The following table sets forth the Redemption Price of the Bonds (being the Amortized Value of the Series 2025[] Bonds, but excluding accrued interest, upon an extraordinary mandatory redemption following an early termination of the Prepaid Energy Sales Agreement, as of the redemption dates shown below during the Initial Interest Rate Period.

APPENDIX I

SCHEDULE OF TERMINATION PAYMENTS

The Termination Payment for any Early Termination Payment Date will be the amount set forth below in the column corresponding to the month in which the Early Termination Date occurs. In the event that the Early Termination Date occurs on other than the last day of a month, the Early Termination Payment will be increased by an amount equal to the product of (a) the Monthly Projected Quantity for such Month, minus the quantity of Energy delivered in such Month prior to the effectiveness of such Early Termination Date, multiplied by (b) the result of (i) the applicable Fixed Price (as defined in the CCCFA Commodity Swap), minus (ii) the Specified Discount then in effect. The Early Termination Payment Date is the last Business Day of the Month following the Month of Early Termination.

APPENDIX A
THE PROJECT PARTICIPANT
SILICON VALLEY CLEAN ENERGY

General

Silicon Valley Clean Energy (“SVCE”) is a joint powers authority organized and existing pursuant to the Joint Exercise of Powers Act (constituting Chapter 5 of Division 7 of Title 1 (commencing with Section 6500), as amended or supplemented from time to time) (the “*Joint Powers Act*”), as a “community choice aggregator” (“CCA”) as defined in Section 331.1 of the Public Utilities Code of the State of California, as amended (the “*Public Utilities Code*”). For a general description of CCAs in California, see the section “COMMUNITY CHOICE AGGREGATORS” in this Official Statement.

SVCE was created in 2016 under the name “Silicon Valley Clean Energy Authority” as a CCA in California pursuant to a Joint Powers Agreement, as amended, by and among the cities and towns participating in SVCE and named therein. SVCE began providing service to customers in 2017.

Originally created to serve communities in Santa Clara County, SVCE now serves 13 member communities. SVCE offers carbon-free power at stable rates, significantly reducing energy-related greenhouse emissions and enabling millions of dollars of reinvestment in local energy programs. SVCE’s mission is to drive increasing access to clean energy, serving the needs of our customers and the well-being of our community by delivering positive environmental impacts and local economic benefits.

Formation and History of SVCE

General. SVCE was formed in March 2016 as a “joint powers authority” to provide electric power and related benefits within its service area, including developing a wide range of renewable energy sources and local clean energy programs. The formation of SVCE was made possible by the passage of California Assembly Bill 117 in 2002, enabling communities to purchase power on behalf of their residents and businesses and creating competition in the electric power market. Under California Public Utilities Commission designations, SVCE (like other CCAs) is a “load-serving entity” to the communities it serves and does not provide transmission, distribution or billing services. Transmission, distribution, and billing services are provided by Pacific Gas and Electric Company (“PG&E”). PG&E collects and remits SVCE’s billings for electricity to SVCE on a daily basis.

Commencement of Service and Expansion. SVCE began serving customers in communities in Santa Clara County in 2017, with the exceptions of the City of Santa Clara and City of Palo Alto, each having its own municipal utility, and the City of San Jose, which established its own CCA. In December 2017, the Board of Directors accepted the City of Milpitas as a new community member and began providing service to them in June 2018. As further described below, SVCE now serves 13 communities.

Service Area

Communities Served by SVCE. SVCE currently serves 13 jurisdictions in Santa Clara County, as follows:

City of Campbell	City of Cupertino	City of Gilroy
City of Los Altos	Town of Los Altos Hills	Town of Los Gatos
City of Milpitas	City of Monte Sereno	City of Morgan Hill
City of Mountain View	City of Saratoga	City of Sunnyvale
Unincorporated County of Santa Clara		

Service Area Map. The service area of SVCE is shown on the map below:

Governance and Management

Board of Directors. SVCE is governed by its Board of Directors. Each community that has elected to join SVCE appoints a representative to the Board of Directors. Members of the Board of Directors serve at the pleasure of their respective communities. Meetings of the full Board of Directors are scheduled every month. There is also an Executive Committee, a Finance and Administration Committee, an Audit Committee, and an Ad Hoc Regulatory and Legislative Committee, with members appointed by the Board of Directors that review and report to the Board on various matters.

Management.

Monica Padilla, Chief Executive Officer. As the Chief Executive Officer of SVCE since April 1, 2024, Monica Padilla works with the elected Board to develop and implement strategies empowering the SVCE team and community to achieve SVCE's decarbonization goals and its mission of reducing fossil fuels and reinvesting in the community. Previously, Monica was the Chief Operating Officer and Director of Powers Resources at SVCE where she led the team responsible for planning and procurement. Since joining SVCE in 2018, Monica and her team helped negotiate and execute more than \$3.6 billion in 20 long-term power purchase agreements for clean and renewable projects including solar-plus-storage, geothermal, wind, and long-duration storage resources. Monica also led the effort on behalf of SVCE and seven other CCAs to acquire long-duration storage to help with the integration of intermittent resources and in support of the California grid. Before joining SVCE, Monica worked for the City of Palo Alto Utilities for over 30 years where she was instrumental in developing and implementing Palo Alto's Carbon Neutral Plan in 2013, the first carbon-neutral policy adopted for a municipal utility in California. Monica also represented Palo Alto at several joint action agencies, including the Northern California Power Agency and the Transmission Agency of Northern California and oversaw the contract with Palo Alto's largest supplier – Western Area Power Administration. Monica holds a B.S. in Business from California State University East Bay.

Amrit Singh, Chief Financial Officer and Director of Administrative Services. As the Chief Financial Officer, Amrit oversees and leads the finance, information technology and human resources activities of SVCE. Amrit brings over two decades of experience in the California Energy Markets with extensive experience in managing risks of complex energy procurement portfolios as well as in energy regulation, rate design, and commodity portfolio management. Amrit's prior experiences include serving as Pacific Gas and Electric Company's Senior Director, Market and Credit Risk Management and Senior Director, Revenue Requirements and Rates. Amrit also worked at startup companies and provided strategic consulting in areas of risk management and utility operations. Amrit has an MBA from the University of California, Berkeley, and a BS in Managerial Economics from the University of California, Davis.

Kris Van Vactor, Director of Power Resources. As the Director of Power Resources, Kris leads a team responsible for planning and carrying out the various energy and capacity procurement, management, and reporting needs consistent with SVCE's aggressive greenhouse gas reduction policies, portfolio cost and risk management objectives and California's legislative and regulatory requirements. Kris joined SVCE in August 2022 on the Power Resources Team as SVCE's Wholesale Energy Markets Manager. Kris has over 20 years of experience serving in energy consulting, energy reporting and energy procurement roles for organizations throughout the Western United States. Kris holds a B.S. in Economics from the University of Oregon.

Maren Wenzel, Director of Regulatory, Policy and Planning. As the Director of Regulatory, Policy and Planning, Maren works to ensure the resources procured by SVCE meet the organization's greenhouse gas reduction goals as well as the reliability and policy objectives of the state. Maren has worked on decarbonization and resource planning efforts for utilities across the US since 2015. Immediately prior to SVCE, she worked for PG&E where she focused on electricity system forecasting, including for the Integrated Resource Plan and SB100 Joint Agency

efforts. She holds a B.A in International Relations from Mills College and an M.A in International Affairs, with a focus on Energy, Resources and the Environment, from the Johns Hopkins School of Advanced International Studies.

Scott Wrigglesworth, Director of Risk Management and Analytics. Scott serves as Director of Risk Management and Analytics after six years at Ascend Analytics. While with Ascend, Scott led the PowerSIMM team which delivered software models and consulting for risk management, procurement and resource planning to dozens of clients including seven California CCAs (including SVCE). Scott's expertise is in portfolio risk management and he takes an applied focus to the discipline placing emphasis on actionable reporting and clear communication. Prior to Ascend, Scott spent seventeen years at the Dayton Power & Light Company and AES Corporation where he led portfolio analytics for utility, retail and merchant generation portfolios. Scott teaches Energy Markets at the University of Dayton where he's been an adjunct professor for a decade. He earned his MBA from the University of Dayton and holds a bachelors in Global Economics from Cedarville University.

Justin Zagunis, Director of Customer Success. Justin works with the SVCE team to plan and design a platform and portfolio of programs to achieve SVCE's mission of deep decarbonization. He leads efforts in developing, deploying and evaluating innovative programs and technologies related to mobility, the built environment and grid integration and innovation. Prior to SVCE, Justin worked at City of Palo Alto Utilities on demand side management program design, management and evaluation. Justin has a bachelor's degree in environmental engineering from California Polytechnic State University and a master's degree in civil and environmental engineering from Stanford University.

Zoe Elizabeth, Director of Decarbonization Policy and Community Strategies. Zoe serves as the head of the Department of Decarbonization Programs and Policy, where she collaborates with a dedicated team to strategize and create a comprehensive platform and assortment of initiatives aimed at advancing SVCE's mission of achieving substantial decarbonization. Her leadership is instrumental in the development, implementation, and assessment of cutting-edge programs and technologies within the spheres of mobility, urban infrastructure, and grid integration and innovation. Zoe supports all customer segments. She is the key contact for Silicon Valley Transportation Electrification Clearinghouse and the Community Energy Resilience Program. Zoe has over a decade of experience leading regional decarbonization and resilience initiatives. She served as Sustainability Manager for the County of Santa Clara, as Associate Director of the Los Angeles Regional Collaborative for Climate Action and Sustainability, and co-founded the California Center for Sustainable Communities at UCLA. Zoe has a Master's Degree in Urban Planning from UCLA where she focused on regional approaches to climate action. She also earned a Leadership in Sustainability certificate from UCLA's Anderson School of Management.

Bena Chang, Director of Government and Legislative Affairs: Bena Chang serves as the Director of Government and Legislative Affairs, where she focuses on legislative initiatives and coalition building. Prior to her role at SVCE, Bena held the position of Intergovernmental Relations Director for the City of San Jose, one of the largest cities in the United States, where she advocated for a wide range of municipal policy issues at regional, state, and federal levels,

encompassing topics such as homelessness, pandemic response, and clean energy. Additionally, Bena was the Senior Vice President of Transportation, Housing, and Health at the Silicon Valley Leadership Group, where she played a pivotal role in various projects and programs, including a successful 2008 Measure B campaign to secure operational funding for BART in Silicon Valley. Bena holds a degree in English with a minor in Astronomy from Wellesley College.

Gia Ilole, Director of Human Resources: As Director of Human Resources, Gia leads all the people and culture strategies and functions to recruit, retain, engage, and develop the best workforce to support SVCE's programs and operations. Gia has a breadth and depth of experience in HR across public and private agencies, including leading HR, Labor, Procurement and Administration at BART, developing diversity pipeline and workforce development programs at PG&E, as well as heading up HR for the County of Ventura's District Attorney and a Bay Area start-up. Gia is certified as a Senior Professional in Human Resources as well as a Strategic HR Business Partner. Gia attended UC Santa Barbara on an academic scholarship and graduated with Highest Honors in three years with a Bachelor of Arts in Linguistics, minoring in French.

Customers

General. SVCE provides energy to more than 280,000 residential, commercial, and industrial accounts, serving approximately 700,000 residents and businesses in its service area. The current mix of SVCE's customer base is approximately 34% residential and 66% commercial/industrial by the percentage of load served and 35% residential and 65% commercial/industrial by the percentage of revenue. SVCE's 10 largest customers represent 23% of SVCE's overall load, and none of them individually represent more than 7% of the overall load.

Customer Energy Choices. SVCE offers two different energy service choices, called GreenStart and GreenPrime. In 2024, customers receiving GreenStart service were provided with a minimum of 43% renewable energy, sourced from a mix of wind, geothermal, solar, small hydro, and biomass/biowaste, with 36% coming from large hydroelectric facilities. Customers electing to receive GreenPrime service are provided with 100% renewable energy from solar/wind sources. Customers on the GreenPrime Direct service receive a custom mix of supply sources.

Customer Enrollment. All customers are automatically enrolled in GreenStart and may change their product after enrollment. Approximately 98.93% of SVCE customers receive GreenStart service, with the remaining approximately 1.07% receiving GreenPrime service. Due to commercial enrollments, GreenPrime customers represent a slightly higher percentage in terms of load (4.81%).

New Customers. SVCE has fully subscribed the cities and unincorporated portions of Santa Clara County, with the exceptions of the cities of Santa Clara, San Jose, and Palo Alto, which are served by separate public power providers.

Customer Election to Opt-out of SVCE Service. Customers can opt-out of SVCE service and return to service from their traditional electric service provider, PG&E, either initially upon the transition to SVCE or at any time after SVCE becomes the energy provider. For customers enrolled in the SVCE GreenStart program, there is no fee to opt out before their SVCE service

starts or within 60 days after your SVCE service starts. After that time, there is a one-time administrative fee (\$5 residential and \$25 commercial). Customers that opt out and return to PG&E, will not have the option to return to SVCE for a full year and will be subject to PG&E's terms and conditions of service. SVCE has not experienced a single customer opt-out that had a significant financial impact on SVCE's revenues.

Cumulative Opt-Out Rate and Customer Retention. Overall, opt-out rates have remained stable throughout the course of SVCE's service history. Opt-outs were at their lowest point in August of 2022 (3.55%). Currently, SVCE opt-outs account for 3.85% of the eligible customer base. On an ongoing basis, most opt-outs occur during the 120-day transition period to SVCE service.

Service Rates

General. Rates for SVCE energy service are determined by its Board of Directors and are not regulated by the CPUC. In addition to SVCE's charges for energy, customers' rates include amounts for transmission and distribution of electricity established by PG&E, as well as a "power charge indifference adjustment" ("PCIA") and other non-by-passable load charges imposed by the CPUC in order to compensate investor-owned utilities for investments in power generation and long-term power purchase contracts associated with the loss of customers to CCAs, which in each case are passed through on a customer's bill in the amounts established or imposed.

Determination of Rates for Energy. The rates SVCE charges for GreenStart and GreenPrime services are based on the current generation rate charged by PG&E and the current PCIA fee. All value propositions are priced inclusive of the PCIA. GreenStart service is priced at 4% below the cost of PG&E, and GreenPrime is \$.017 per kilowatt-hour in addition to the GreenStart rate.

Current and Historical Rate Information. An SVCE customer's total cost of electric service is determined by SVCE's charges for energy and includes PG&E charges for transmission, distribution, and other non-by-passable charges. Additionally, SVCE's customers pay a PCIA which can vary annually based on several market factors including benchmarks for regional energy costs, resource adequacy, the year in which their community joined SVCE, and other considerations.

SVCE has priced its generation rate, inclusive of PCIA, below PG&E's comparable generation rate since the organization's initial enrollments. The primary alternative to SVCE service is to opt-out of SVCE service and return to PG&E service where the customer would pay a generation rate, inclusive of the PCIA, higher than SVCE's rate. SVCE strives to maintain this value as a customer retention tool. Given the nature of an opt-out energy program, there are no assurances that customers will continue service should SVCE's bundled costs become higher than PG&E's or that SVCE customers will not opt-out for reasons unrelated to the cost of service.

California Renewable Portfolio Standards and Other Regulations

General. Community choice aggregators such as SVCE are “load-serving entities” (“LSEs”) and as such are required to comply with California’s Renewable Portfolio Standard, Resource Adequacy requirements and Power Source Disclosure requirements described below.

Renewable Portfolio Standard. California’s Renewable Portfolio Standard (“RPS”) requires LSEs to supply their retail sales with minimum quantities of eligible renewable energy. Senate Bill 100 directs all LSEs to procure 60% of their portfolios from RPS-eligible resources by 2030 and 100% of their retail sales from zero-carbon resources (or eligible renewable resources) by 2045. SVCE’s current policy is to procure 100% of retail sales from zero-carbon resources comprised of RPS-eligible resources, such as solar, wind, geothermal and biomass, and zero-carbon non-RPS resources such as large hydroelectricity. SVCE’s RPS directive is to exceed California’s mandated RPS. SVCE’s 2023 retail sales contained 36.7% RPS PCC1 eligible resources for GreenStart service 100% RPS for GreenPrime, and 62.2% for GreenPrime Direct. To date SVCE has executed 19 RPS contracts of ten years or more in duration and has met its RPS requirements for long-term procurement. SVCE intends to solicit additional long-term renewable resources to meet Board-directed goals and as ordered by the CPUC under the Mid-term Reliability Procurement decision (D.21-06-035) and the Supplemental Mid-Term Reliability Procurement Order (D-23-02-040). SVCE has already made significant progress towards procuring its share of the decision’s mandated procurement.

Resource Adequacy. Resource Adequacy (“RA”), a California program jointly administered by the CPUC, the California Energy Commission (“CEC”) and the California Independent System Operator (“CAISO”), directs LSEs to secure forward capacity and offer it into the CAISO’s Day-Ahead and Real-Time markets to ensure that there will be enough supply in the right locations and with sufficient ramping capability to meet load. The RA program is comprised of three products: System RA; Local RA; and Flexible RA, although rules and categories are subject to modification by state agencies. Local RA obligations have been assigned to a Central Procurement Entity as of 2023. SVCE has a strong track record of meeting its RA obligations and expects to meet its future RA obligations in compliance with its Energy Risk Management Policy.

Integrated Resource Planning. Integrated Resource Planning (“IRP”) requires LSEs to forecast their customer load and develop a plan to serve such load in alignment with their own vision and values and in accordance with regulatory requirements. In October 2015, California codified this LSE responsibility with the passage of SB 350, which requires the CPUC to establish and oversee an IRP process to assist with meeting the state’s aggressive GHG targets (40% below 1990 levels by 2030). The IRP process, which is used in many states across the US, generally produces 10- to 20-year plans that map out both the supply-side and demand-side resources required for meeting customer load. Given the complexity of the grid and the time required to plan and build generating facilities, IRPs are critical for ensuring safe, reliable and clean power in a cost-effective manner. In addition to addressing the long-term planning horizon typical of an IRP process, the IRP process has been used in recent years to direct procurement of new capacity to meet near- and mid-term reliability and clean energy needs per CPUC Decision (“D.”) 19-11-016, D. 21-06-035 and D. 23-02-040. Pursuant to the procurement orders in these CPUC Decisions, LSEs are required to procure “Incremental System Capacity,” which is RA capacity from non-

emitting, storage, and/or renewable resources that are in addition to the resources identified on a baseline list of existing, on-line and operating resources.

Power Source Disclosure. California law requires LSEs to disclose the types of power resources used to supply retail sales. This mandate, known as the Power Source Disclosure Program (“PSDP”), is a consumer information program managed by the CEC on an annual basis. A key output of the PSDP is the Power Content Label (“PCL”). The PCL is an LSE-specific document that shows the breakdown of power resource types for each of the LSE’s energy products used to serve retail load, as well as a breakdown of resource types for the overall California grid. The PCL is distributed to customers each year.

Energy Demand

Long-term Load Forecast. SVCE’s long-term load forecast is a 10-year projection of the energy (reflected in MWh) that its customers will annually consume. SVCE’s long-term load forecast is driven primarily by the number and types of customers that SVCE expects to serve, in conjunction with weather projections. SVCE’s long-term load forecast also incorporates the load-modifying effects of increasing electric vehicle adoption and charging, behind-the-meter solar and/or storage (via net energy metering), and energy efficiency.

Sources of Energy

General. SVCE uses a portfolio risk-management approach in its power purchasing program, seeking low-cost supply and diversity among technologies, production profiles, project sizes and locations, counterparties, length of contract, and timing of market purchases. SVCE currently has 86 renewable, hydro, system energy, hedge, and Resource Adequacy contracts from diversified sources and counterparties, totaling over \$3.9 billion in notional energy contracts to provide energy to its customers over the next 20-25 years.

Energy Purchases. In 2024, SVCE procured approximately 3.98 million MWh of electricity for its customers. SVCE anticipates that roughly 100% of its total 2025 retail sales will be sourced from carbon-free resources including renewables, large hydroelectric, and nuclear energy (primarily large hydroelectric energy from the Pacific Northwest, but also relatively small amounts of nuclear energy). SVCE's procurement strategy through 2030 includes regularly procuring new and existing California renewables by 2030 via both short- and long-term contracts. These renewables contracts will be in addition to the 3.066 million MWh of annual generation from 972 MW, or roughly 62.3% of its retail sales in 2030, of new and existing California and neighboring states renewables that SVCE has already procured. The strategy also includes investing in additional storage paired with solar, stand-alone storage, long-duration storage, and large hydroelectric resources.

Energy Load and Supply Risk Management. SVCE continually manages its forward load obligations and supply commitments to balance cost stability and cost minimization while leaving some flexibility to take advantage of market opportunities or technological improvements that may arise. SVCE closely monitors its open positions for Portfolio Content Category 1 ("PCC 1") renewable energy and carbon-free, non-RPS eligible, based on calendar-year targets. SVCE maintains its clean portfolio coverage targets of up to 100% in the near term and leaves a greater portion open in the medium- to long-term, consistent with generally accepted industry practice.

SVCE monitors its positions on a regular basis with its Scheduling Coordinator, who produces a daily and weekly report of positions and pricing along with using sophisticated models to simulate hundreds of market conditions to assess optimal hedge levels and net revenue at risk. SVCE uses fixed-price energy contracts to hedge CAISO day-ahead market price exposure associated with its portfolio. More specifically, for the volumes and hours where SVCE does not have supply contracts that yield CAISO day-ahead revenue, SVCE uses fixed-price energy contracts where SVCE pays a fixed price per MWh in order to receive a floating price that clears for each hour. This helps hedge SVCE's CAISO day-ahead market price exposure. SVCE employs a laddering hedge strategy for up to five years out, requiring minimum and maximum tolerance bands of percent of load covered with fixed-price and firm volumes of resources. As SVCE procures increasing portions of fixed-price renewables with storage and fixed-price large hydroelectric and ACS energy, SVCE expects to reduce its use of fixed-price energy contracts.

Procurement. SVCE procures energy and Resource Adequacy consistent with its Board-approved Energy Risk Management Policy. To effectively plan and manage its portfolio, SVCE differentiates contracts by their term length: short-term and long-term (longer than ten years). Based upon the expected contract tenor, SVCE may use various methods, including competitive solicitations, standard contract offerings, and bilaterally negotiated agreements. With regard to short-term power purchases, SVCE may negotiate bilateral agreements directly, especially for unique or time-sensitive transactions that do not lend themselves to inclusion in a competitive solicitation. Alternatively, particularly in markets with sufficient transparency to ensure competitive outcomes, SVCE may negotiate short-term transactions via its scheduling coordinator or independent energy brokers or marketers.

GreenStart Procurement Targets. Reducing GHG emissions is at the heart of SVCE’s mission. SVCE’s GreenStart and GreenPrime products provide a source of 100% clean, carbon-free energy. GreenStart is offered at 50% RPS-eligible resources and 50% carbon-free, non-RPS-eligible resources, while GreenPrime is comprised of 100% RPS-eligible resources. Both products deliver a higher renewable content and a competitive cost compared to PG&E.

SVCE Technology and Analytics

SVCE's analytics and data management are handled by teams across the organization, consisting of IT personnel, data analysts, and power analysts. SVCE employs a cloud-first data strategy, where all mission-critical data is stored on cloud services, including Box for cloud file storage, Microsoft Office365 for collaboration, and the Google Cloud Platform (GCP) for data warehousing. GCP offers a modern infrastructure for storing, processing, and analyzing sensitive data in the cloud, with encryption by default of data at-rest and in-transit, as well as fine-grained access control to sensitive resources.

In addition to the security infrastructure embedded in GCP, SVCE IT staff also oversee general compliance with rules and regulations established by the California Public Utilities Commission (CPUC) related to data privacy and security. SVCE conducts independent tri-annual audits of its security and data privacy practices – which are submitted to the CPUC – and produces additional data privacy reports for the CPUC annually, in compliance with CPUC regulations. SVCE customer data has not been the subject of any breaches or data security incidents.

Through the guidance from the VCISO, SVCE continually increases its Cyber Security Posture. SVCE analyzes cyber risks identified through audits and security assessments and uses VCISO's guidance to prioritize and roadmap remediations and implementations.

Finally, the IT staff oversees device and application security and related policies. In addition to standard threat mitigation and security measures (such as password policies and antivirus software), SVCE enforces multi-factor authentication (MFA) on all mission-critical applications and employs email screening tools and endpoint security systems.

Ultimately, by using a centralized cloud-first policy for critical resources and attendant applications, enforcing modern security practices such as MFA, and limiting the use of distributed storage devices, SVCE can minimize its exposure to security incidents.

Energy Storage

SVCE currently has over 486 MW of 4-hour or longer equivalent wholesale (*i.e.*, in front of the meter) storage capacity contracted over the next twenty years. Of the 486 MW of already contracted storage capacity, 231 MW is paired with solar, 25 MW is 8-hour standalone, 24 MW is 4-hour standalone, 131 MW is paired with a thermal resource, and 75 MW is RA-only. SVCE plans to procure additional solar with storage and standalone storage to meet new procurement mandates.

In 2020, SVCE launched its Lights on Silicon Valley program to deploy customer-sited solar and battery storage systems capable of providing backup power and behind-the-meter

dispatch, driving decarbonization, lowering utility costs for program participants, and enabling local grid management through load shaping. This program prioritizes vulnerable customers and populations disproportionately affected by grid outages.

Financial Information

Revenues from Energy Sales and Operating Expenses. SVCE derives its operating revenues primarily from energy sales to its customers.

Other Sources of Revenue. SVCE also receives revenues from sources other than retail customer sales. These sources include wholesale energy sales to other suppliers and grant income used to assist with various customer programs.

Results of Operations. The following is a summary of SVCE's results of operations for fiscal years ending September 30:

	<u>2024</u>	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>2020</u>
Operating revenues	534,489,788	503,675,151	363,521,534	242,600,167	297,043,720
Nonoperating revenues	23,348,067	9,262,831	1,870,954	273,985	1,729,841

Deposit Accounts. SVCE maintains its cash in both interest-bearing and non-interest-bearing demand and term deposit accounts at River City Bank of Sacramento, California, and through the California Asset Management Program (“CAMP”) at US Bank of St. Paul, Minnesota. SVCE’s deposits with River City Bank are subject to California Government Code Section 16521, which requires that River City Bank collateralize public funds in excess of the Federal Deposit Insurance Corporation limit of \$250,000 by 110%. CAMP is a California Joint Powers Authority (JPA) offering professional investment services to public agencies across California, including the use of the Cash Reserve Portfolio (CAMP Pool) and CAMP Term investments, which are accessible to all local agencies in accordance with California Government Code Section 53601(p). As of 2023, SVCE has appointed PFMAM (PFM Asset Management, LLC) as an investment advisor to manage the funds in CAMP accounts in accordance with our current investment policy Section 5. SVCE monitors its risk exposure to both River City Bank and CAMP on an ongoing basis. SVCE’s Investment Policy permits the investment of funds in depository accounts, certificates of deposit, and the Local Agency Investment Fund program operated by the California State Treasury, United States Treasury obligations, Federal Agency Securities, California municipal obligations, commercial paper, money market funds, mortgage pass-through and asset-backed securities, supranational obligations, joint power authority pool, and FDIC insured placement service deposits.

Liquidity. In September 2024, the SVCE Board of Directors approved increasing the target financial reserve levels to 350 days of cash on hand. SVCE currently provides cash collateral for only one outstanding letter of credit, totaling \$147,000.

Credit Rating. SVCE has an ‘A’ issuer credit rating from S&P Global with a stable outlook and has been upgraded to A3 with a stable outlook stable rating from Moody’s in 2025.

Summary of the Details of the First Prepay Transaction

Aggregate Principal Bond Amount	\$1,234,720,000 (SVCE and EBCE combined)
Total Bond Proceeds	\$1,475,895,642.5 (SVCE and EBCE combined)
Municipal Bond Rating	A1
Green Certification	Designated Green Bonds by Kestrel Verifiers
Initial Bond Pricing Period	10 years. - After the initial period, bonds will be repriced per the negotiated repricing agreement, and a new discount will be established based on the then prevailing market conditions.¹
Final Bond Maturity Date	February 1, 2052.
Discount Achieved	\$4.38 per MWh, about 10% of the energy cost of SVCE's 3-year transaction initially assigned into the Prepay. ~\$1.9 million per year for SVCE during the initial bond pricing period of ten years.
Energy Volume Supported by Bond Proceeds	109 MW, of which SVCE's share is 50 MW (about 11% of load) and EBCE's share is 59 MW for approximately the first ten years of the transaction; after that, the same proportional volume split will be maintained between SVCE and EBCE.

Overview of the Prepay structure

Structural Overview of Power Prepay

1. Under the existing, non-Prepay structure, SVCE has Power Purchase Agreements (PPA) and other carbon-free energy transactions with a counterparty (Energy Supplier). The Energy Supplier provides energy and any associated renewable/carbon-free credits (environmental credits) to SVCE, and SVCE pays the Energy Supplier the contract price. Under the prepayment structure: VCE partially assigns its rights to energy under the energy contract equivalent to the prepaid quantity to the Energy Supplier (Morgan Stanley) at the contract price. Now, the PPA Counterparty will provide Morgan Stanley with the assigned quantity of energy with any associated environmental credits. The Energy Supplier, will pay the contract price to the PPA Counterparty.
2. SVCE, along with the other initial founding member CCAs⁴, created the California Community Choice Financing Authority (CCCFA), a separate legal entity that can issue tax-exempt municipal bonds.
3. CCCFA issues non-recourse tax-exempt bonds secured by the contractual rights and transaction cashflows under a trust indenture. The bonds are not secured or guaranteed by SVCE or CCCFA. Based on the contractual agreements securing the bonds, the bonds will carry the credit ratings of the Funding Recipient.
4. CCCFA uses the proceeds from the bonds, net of all prepay transaction fees, and pays Energy Supplier the present value of energy cost and any environmental credits that the Energy

⁴SVCE along with Central Coast Community Energy (3CE), East Bay Community Energy (now Ava), and Marin Clean Energy (MCE), as the first set of founding members, established CCCFA.

Supplier will deliver to CCCFA over the 30-year term of the transaction under a prepaid power agreement.

5. SVCE and CCCFA execute a power supply agreement. Under this agreement, SVCE pays CCCFA the initial contract price less a discount as CCCFA delivers to SVCE the energy and environmental credits it receives from the Energy Supplier.
6. CCCFA uses payments received from SVCE to pay interest and principal payments to the Bondholders.
7. The Energy Supplier and the funding recipient execute a funding agreement where the Funding Recipient receives upfront funds and makes monthly payments to the Energy Supplier, which they use to pay the PPA Counterparty.

Under the prepayment structure, SVCE receives the same energy and environmental credits from the PPA Counterparty (indirectly via Energy Supplier, Morgan Stanley, and then CCCFA) but for a lower price. The savings or lower price source is primarily the difference between taxable and tax-exempt debt interest rates. The Funding Recipient's capital needs are funded by a variety of means in taxable corporate markets, which have higher interest rates than tax-exempt debt. As a public agency, CCCFA can issue tax-exempt debt. When CCCFA provides the prepayment to Morgan Stanley for energy that Morgan Stanley will deliver over the term of the transaction, Morgan Stanley is effectively raising capital at a lower cost for the Funding Recipient. Based on the funding agreement with the Funding Recipient, Morgan Stanley flows the savings to SVCE by lowering the price SVCE pays for the energy and any environmental credits. By using this prepayment structure, SVCE can reduce the cost of energy purchases.

The bonds can have an initial term of about 5-10 years, and SVCE will not execute the transactions unless the Board-authorized savings can be realized. At the end of the initial term, the bonds will be refinanced, and the terms of the discount will be set per a Repricing Agreement, which will also specify a minimum discount threshold.

The risks to SVCE are minimal as the debt will not be recourse to SVCE. If, for any reason, the structure falls apart, the original energy contract will revert to SVCE, and the loss to SVCE will be the staff time invested in the project and the future savings expected to be generated by the prepayment transaction. The initial consultant and attorney fees are all contingent upon the execution of the transaction and will be financed from the bond proceeds.

Staff Report – Item 4

Item 4: Recommend the Silicon Valley Clean Energy Board of Directors Approve the Fiscal Year 2025-26 Proposed Operating Budget, and Maintain the Current Financial Reserves Targets and Policy

From: Monica Padilla, CEO

Prepared by: Amrit Singh, CFO and Director of Administrative Services
 Scott Wrigglesworth, Director of Risk and Analytics
 Karen Chang, Manager of Finance

Date: 8/4/2025

RECOMMENDATION

Staff recommends that the Finance and Administration Committee recommend that the Board of Directors approve the fiscal year (FY 26) 2025-26¹ Proposed Operating Budget ("Proposed Budget", Attachment 1), which includes, at a high level, the following:

1. Withdraws \$40.1 million from the reserves
2. Maintains an average four percent (4%) customer discount to comparable PG&E rates through December 2025 and reduces it to one percent (1%) in January 2026
3. Continues to provide additional monthly dollar bill credit to California Alternate Rates for Energy² (CARE) and Family Electric Rate Assistance (FERA)³ customers, which in the aggregate is equivalent to a one percent (1%) discount for all customers
4. Proposes no changes to the current financial reserves targets and policy (Attachment 2)

BACKGROUND

At the June 2, 2025, Finance and Administration Committee ("Committee") meeting, staff presented the methodology, framework, and key assumptions for developing the Proposed Budget. At the same Committee meeting and the Board of Directors' ("Board") June 11, 2025 meeting, staff also provided and discussed the stress test analysis (materials can be found here: [SVCE Board of Directors Meeting June 11, 2025 – Item 4](#)) that provided an assessment of the agency's risks, which staff uses in developing the budget, managing the reserve levels, and proposing any changes to the financial reserves targets and policy.

¹ The fiscal year 2025-26 starts on October 1, 2025, and ends on September 30, 2026.

² Eligible low-income customers who are enrolled in the CARE program receive a 30-35% discount (not including additional SVCE discount and bill credits) on their total electric bills and a 20% discount on their natural gas bills. Eligible customers are those whose total household income is at or below certain income limits that vary depending on household size. For example, the income limit for households of 4 is \$64,300.

³ The FERA program offers an 18% discount (not including additional SVCE discount and bill credits) on customers' total electricity bills if the household income slightly exceeds the CARE allowances. For example, the income limit for households of 4 is \$80,375.

Agenda Item: 4**Agenda Date: 8/4/2025**

Staff discussed the high volatility in the energy market prices, Resource Adequacy (RA) prices, and Renewable Portfolio Standard (RPS) prices, which added additional uncertainty to financial projections. Staff also discussed that the prices that the California Public Utilities Commission (CPUC) will set for Market Price Benchmarks (MPBs), issued in the fall, and used to set PCIA⁴ Rates will substantially impact the budget.

In addition to assessing SVCE's financial performance if the extreme but plausible stress scenario occurs, staff also discussed and reviewed key financial risk factors and uncertainties that influence the financial projections, which are based on the best available data and information at the time the projections are made. These uncertainties and risks are included in this proposed budget and the 5-year financial outlook (Attachment 3).

As discussed with the Committee and the Board when staff presented the stress test analysis, at the time the financial projections are made, staff takes a 'snapshot' of market prices and other data, including the outcome of CPUC proceedings such as the pending PCIA Order Instituting Rulemaking (OIR), in preparing the financial analysis. This data and information, especially market prices, change daily or even more frequently. Since the June discussion of the two-track PCIA OIR, CPUC issued a track one decision, which staff, with the help of the NewGen Strategies consultants and model, have attempted to incorporate, including using the best available information to develop projections for the fall MPBs that the CPUC will establish.

Due to the daily movement of prices and changes to other information, the financial projections in this report are not identical to those presented at the June meeting. However, from the perspective of managing SVCE's financial projections over the 5-year period, the results are largely consistent with those presented at the June meeting. As a result, staff's recommendations for managing SVCE's reserves are consistent with those presented at the June Board meeting.

ANALYSIS & DISCUSSION

The FY 26 Proposed Operating Budget, shown in Attachment 1, is balanced and presents SVCE in a stable financial condition.

The projected withdrawal of \$40.1 million from reserves represents a decrease of \$138.1 million from the \$98.1 million contribution to reserves shown in the March 2025 Midyear adjusted FY 24-25 Budget. The main reason for the negative reserve contribution is a significant drop of \$165.1 million in projected revenues. Lower revenues are due to an anticipated large increase in PCIA charges and reduced PG&E generation rates, which substantially reduce the margin or headroom for SVCE to keep customer rates competitively discounted to comparable PG&E rates. These projected increases in PCIA rates and lower PG&E generation rates are mainly caused by sharp declines in RA and RPS prices, as discussed at the June meeting. As shown in the table below, all other changes are relatively minor and include:

Description	Budget Variance MY FY 24-25 vs. Annual FY 25-26		
	Contribution to Reserves	Reduction in Reserves/Increase in Cost	Changes to Reserve Contribution
Revenues		-\$165.1M	
Investment Income	\$1.7M		
<u>Total Revenues Variances</u>			<u>-\$163.5M</u>
Power Supply Cost		-\$19.4M	
Other Operating Expenses		-\$3.9M	
Non-Operating Expenses		\$0.0M	
<u>Total Expense Variances</u>			<u>-\$23.3M</u>

⁴ [Public Utility Code Sections 366.1](#) and [366.2](#) require the CPUC to make sure that customers leaving PG&E do not burden remaining PG&E customers with costs that were incurred to serve them. To ensure customer indifference, CCAs and Direct Access or departing load customers are required to pay a power charge indifference adjustment (PCIA).

Agenda Item: 4**Agenda Date: 8/4/2025**

Capital Transfers		-\$0.5M	
Program Fund	\$3.3M		
Other Transfers	\$45.9M		
Total Transfer Variances			\$48.7M
Changes to Reserve Balance			-\$138.1M

- Investment income is expected to be higher by about \$1.7 million, primarily due to a larger starting reserve balance.
- Power supply cost increase of \$19.4 million, mainly resulting from portfolio position changes, cost increases in meeting regulatory requirements, and increases in energy costs relative to the last fiscal year.
- Other operating expenses increase by \$3.9 million from updated vendor fees, anticipated legal expenses, and other minor changes in marketing and general administrative expenses.
- The capital transfer cost increase of \$0.5 million is from the anticipated purchase of additional furniture from the move to the new SVCE office
- The program fund transfer decrease of \$3.3 million is a result of lower revenues. Program fund transfers are made per the Board-approved direction of transferring 2% of the revenues.
- The reduction in other transfers of \$45.9 million results from the following:
 - Expiration of savings resulting from accepting SVCE's share of nuclear allocations from PG&E, which were transferred to customer programs, as approved by the BOD in Nov 2021 (\$3.7 million in FY24-25)
 - The monthly bill credits provided to CARE and FERA customers are now modeled as a reduction in revenues to align with how these funds are accounted for in our financial statements⁵ (\$5.4 million for FY 2026)
 - For Fiscal Year 2024-2025, the Board, in adopting the mid-year adjusted budget, provided a one-time customer bill credit (\$35 million).
 - Fiscal Year 2024-2025 budget includes a one-time transfer of \$1.8 million to the Hanford Emissions Mitigation Fund

Energy Revenues

The Proposed budget shows a decrease in revenues of \$165.1 million compared to the FY 2024-25 adjusted mid-year budget. The decline is mainly caused by a forecasted average increase in 2026 PCIA of about 106 percent (from 1.02⁶ cents/kWh to 2.11 cents/kWh) and a drop in the 2025 PG&E generation rate of about 31 percent on average (from 15.17 cents/kWh average 2025 rate to 10.50 cents/kWh). These rate changes are forecasted mainly because of large declines in RA and RPS prices for 2025 and 2026, as well as expected final 2025 energy prices averaging below last year's CPUC forecast used to set 2025 rates. The final 2025 RA MPB and the forecast 2026 RA MPB used to compute 2026 rates are down 65% and 64%, respectively, compared to the 2025 forecast RA MPB used to set 2025 rates. Similarly, the final 2025 RPS MPB and the forecast 2026 RPS MPB used to compute 2026 rates are down 10% and 38%, respectively, compared to the 2025 forecast RA MPB used to set 2025 rates. The significant increase in PCIA, combined with a drop in PG&E generation rates, reduces SVCE margins by 40 percent on average for 2026.

Staff used CalCCA's NewGen Strategies & Solutions Model to forecast PCIA and PG&E generation rates with updated market prices and estimations of CPUC's MPBs, including the PCIA OIR track one decision issued on June 26, 2025, that revised the methodology for computing RA MPB, extending the RA MPB transactional survey time frame to 3 and 4 years from 12 and 21 months for forecast and final RA MPBs, respectively. RPS

⁵ The \$5.4 million amount is included in this comparison to account for the total changes in this category compared to the last fiscal year's budget. These bill credits for the FY 26 are \$4.1 million, which is now included as reduction revenues.

⁶ The rates shown in this report are SVCE load-weighted average rates.

Agenda Item: 4**Agenda Date: 8/4/2025**

prices and RA costs are highly volatile compared to the past, creating an additional layer of uncertainty in forecasting PCIA and PG&E generation rates.

PG&E's forecast of 2026 rates in the ERRA filing made in May 2025 shows a higher PG&E Generation Rate of ~12.79 cents/kWh and a lower PCIA of 1.19 cents/kWh compared to the staff estimates used for forecasting revenues. PG&E's filing, however, is based on results using market prices in late March 2025 and 2025 forecast RA and RPS MPBs set in November 2024. Forward market prices for RA and RPS have since decreased significantly. Based on the ERRA filing schedule, PG&E will update its rate forecast in early fall, and the CPUC is expected to approve new rates in late December.

Given the uncertainty on MPBs that CPUC will establish in the fall and PG&E's update of its generation rates and PCIA using the MPBs, staff recommends that SVCE update the revenue projections in December 2025 when there's more certainty on the 2026 PCIA and PG&E generation rates. Between now and when the rates are finalized, market prices will change, which can create less or more favorable results.

The Proposed Budget maintains the current 4 percent overall discount relative to comparable PG&E generation rates for all customers through the end of December 2025, or three months of the FY 26 (October 2025 to December 2025), and reduces it to one percent starting January 2026. It provides an additional monthly dollar bill credit to CARE and FERA customers (~26,000) that, in the aggregate, is equivalent to providing a 1 percent discount for all customers for calendar year 2026.

SVCE customer rate changes usually coincide with PG&E's generation rate changes. Usually, this happens in January, with some exceptions, such as in 2024, when PG&E also changed its generation rates in July. SVCE's fiscal year includes three months of the current calendar year, from October 2025 to December 2025, and nine months of the next calendar year, from January 2026 to September 2026. As a result, the budget includes the delivery of the 2025 monthly bill credit of \$17.50 for three months and the delivery of the 2026 monthly bill credit of ~\$12.00 for nine months, which amounts to a total revenue reduction of ~\$4.1 million. Staff will update the 2026 monthly bill credit amount when seeking Board approval of 2026 rates at the December 2025 meeting, along with amending the budget for updates to the revenue and power supply cost projections. Because last fiscal year's budget included a transfer of funds from the operating budget, any remaining funds for these bill credits will be transferred to the reserves at the beginning of FY 2026.

The GreenPrime rate, SVCE's 100% renewable energy option, will reflect the default GreenStart rates plus the premium of \$0.017 per kWh, as per the methodology adopted by the board at the November 2024 Board meeting. This rate will continue to apply to the three months of 2025, from October to December, of the new fiscal year. The GreenPrime premium for 2026 will be updated when the Board approves all rate updates for 2026, which is expected to occur at the December 2025 meeting. The GreenPrime premium revenue estimates included for FY 2026 are computed at the current GreenPrime premium of \$0.017 per kWh.

The Proposed Budget continues to reduce revenues to account for potential write-offs from unpaid bills that may occur. SVCE's estimated revenues include a 0.75% write-off rate, or about \$2.7 million.

Power Supply Expenses

Relative to the Mid-Year Budget's Fiscal Year 2025, Staff projects that Fiscal Year 2026's new budget power supply expenses will increase by approximately \$19.4 million. The year-over-year projected increase primarily results from 11% higher energy market prices, changes to portfolio position, and complying with CPUC's Mid-Term Reliability requirements.

Reserves Target Levels and Policy Update

Per SVCE's Board-approved reserves policy, the staff annually reviews the reserve target levels and the policy (Attachment 2) to ensure reserves are managed prudently relative to the risks the agency faces. As part of this process, staff presented the stress test analyses to the Board at the June 11, 2025, meeting. A big part of the staff's assessment of reviewing the targets and the policy is to ensure that SVCE can manage risks

Agenda Item: 4**Agenda Date: 8/4/2025**

modeled in the stress test analysis. In particular, the targets are reviewed to assess if the modeled stress scenario were to occur, the target reserves do not fall below 120 days of cash on hand (DCOH) for the next two fiscal years, and the maximum target (upper target) does not fall below 90 DCOH over the next five fiscal years.

Based on the stress test analysis, staff does not recommend any changes to the targets or the policy. Changing the targets has no practical implication, given that the 5-year financial outlook (Attachment 3) does not support contributing to reserves. The current targets also support the recent guidance from the credit rating agencies.

The current Financial Reserves Policy, approved by the Board on September 11, 2024, targets:

- (a) **Minimum Operating Reserve (baseline)** shall be the minimum maintained to cover 120 days of operations of the annual operating budget;
- (b) **An Operating Reserve** goal of covering 350 days of operations of the annual operating budget;
- (c) **Maximum Operating Reserve** to cover 500 days of operations of the annual operating budget.

Operating Expenses

Operating expenses have increased by about \$3.9 million from the March 2025 Board-approved Midyear FY 2024-2025 adjusted budget, including an overall 5 percent contingency, which amounts to about \$2.1 million embedded in all operating expense category increases. The increase in projected operating expenses is mainly comprised of costs associated with legal and energy scheduling coordination expenses.

1. Data Management

The budget accounts for an annual calendar-year escalation percentage as indicated in the current vendor contract. The proposed budget accounts for the escalation for the nine months in 2026.

2. PG&E Fees

Staff is expecting a modest increase due to inflation starting in 2026. The proposed budget reflects the slight increase in monthly fees for the nine months in 2026.

3. Personnel Expenses

Personnel expenses are increasing slightly by \$66 thousand. The proposed budget includes a 3.0% cost-of-living adjustment to salaries, based on the latest trailing six-month average for the Bay Area CPI, updated as of May 13, 2025, for data up to April 2025, which adds \$564 thousand. There is also a re-categorization of consultant support, which results in a decrease of \$400 thousand from Personnel expenses. This expense is reallocated to the Professional Expenses category. On staffing, the budget proposes no increase in headcount. The overall slight increase in personnel budget results from the net effect of the changes mentioned above, as well as some staff moving to positions at different pay levels, promotions, and vacancies. There are still vacant positions which SVCE continues to work to fill and anticipates full staffing by the end of the calendar year. The proposed budget continues to utilize a 5% long-term vacancy rate in the personnel budget. The current focus is to fill the remaining vacancies and comprehensively assess overall organizational staffing needs. This report includes the proposed salary table (Attachment 4) and the proposed organization charts (Attachment 5).

4. Professional Expenses

Overall, professional expenses are increasing by about \$3.1 million. The main increase is due to anticipated increases in legal fees on contracting and negotiation support for SVCE's growing power portfolio, roughly about \$1.7 million. In addition, an increase of \$875 thousand is due to the transition of scheduling coordinator functions to a new vendor, and incremental costs associated with new PPAs expected to come online in the next fiscal year. The costs here are consistent with the vendor agreements approved by SVCE's Board of Directors. Further, as per the Board-approved investment manager agreement, there is a \$120 thousand increase in investment manager service fees due to the higher reserves accumulated over the past few years. As mentioned in the personnel expenses

Agenda Item: 4**Agenda Date: 8/4/2025**

section, \$400 thousand of consultant fees are allocated from personnel expenses to professional expenses, to align with accounting categorization.

5. Marketing and General Administrative

Overall expenses are increasing by about \$462 thousand. This increase of \$250 thousand is to support increasing engagement with non-residential customers and plans to offer bespoke support to key accounts for which external vendor support will be required. An additional \$212 thousand is included for new capacity being brought on to support increased projects and new initiatives. This includes the ongoing work to support the outreach and education for affordability and rates, with added communications tools such as animated videos and an online rate tool. Staff is also planning to bring on a communications and marketing consulting firm to support the breadth of programs and initiatives. These contracts are expected to be brought to the board for approval in September.

6. General & Administrative

Overall, there is a slight increase of roughly \$9 thousand. Some decreases are due to subscription cancellation, existing software renewal with updated rates, and the current office rental expense decrease due to a shorter anticipated rental period. Increases are due to operating expenses for the new office building, and there is a one-time capital expense for office furniture expenses for the new office, as staff anticipate moving to the new office in 2026 Q3.

Employee Benefits

During the CEO Report update at the December 11, 2024, Board of Directors meeting, staff informed the Board that SVCE was able to secure rate improvements for life insurance, short-term and long-term disability plans, as well as dental and vision coverage. The savings from these rate improvements will be passed on to employees to cover the out-of-pocket premiums for dental and vision. As a result, dental and vision are now 100% covered starting January 2025, allowing employees to select better medical insurance plans with the \$1500 per employee per month employer premium contribution. The proposed budget continues to include dental and vision coverage moving forward. Staff recommends no changes to the current benefits, which will remain in effect for FY 26 (Attachment 6).

Programs Budget

SVCE will continue incorporating projected Decarbonization Programs spending over the 5-year forecast into the reserve balance projections. For the current fiscal year, Program spending is projected to be \$27 million, with an additional spend of \$964 thousand from the Customer Relief and Community Resilience Program (CRCR)⁷ Fund, and \$500 thousand in E-Elec (all-electric) Fund, the all-electric rate discounts.

⁷ CRCR, the ~\$10 million Customer Relief and Community Resilience Program, was established in 2020 to provide COVID credit payments to income-qualified customers as bill assistance, support local workforce training, and fund resiliency planning and capital expenditures at SVCE member cities.

⁹ The Board approved the office building fund of \$20M in March 2024 when adopting the FY23-24 Midyear adjusted budget.

Agenda Item: 4**Agenda Date: 8/4/2025**

Non-Operating Revenues

Investment income is projected to increase by \$1.7 million, reflecting the increase in interest earned on the prior accumulated reserve balance.

Non-Operating Expenses

The proposed budget expects non-operating expenses to increase by about \$16 thousand from the FY2024-25 adjusted mid-year budget. The increase reflects the newly CPUC-adopted method for Provider of Last Resort (POLR) collateral calculations and the bank fees associated with its respective Financial Security Requirement (FSR) posting amount.

Capital Projects

The office building purchase was completed in February 2025. Staff plans to utilize the remaining Office Building Fund⁹ balance for renovation and upgrades needed. For other ongoing facility operating costs, as well as a one-time capital purchase of office furniture, these have been separately included in this proposed budget as Operating Expenses and Capital Outlay. Staff will continue to evaluate the timeline and seek further approval for the renovation-related budget as needed. The latest projection is to move to the new office building around Q3 of 2026. A complete list of capital projects is provided in Attachment 7.

STRATEGIC PLAN

The recommendation supports all of the Board's adopted strategic plan goals. Specifically, this budget update supports SVCE Strategic Plan Goal 6 – “Maintain healthy financial position; avoid failures in the management of market risk, credit risk, liquidity risk, operational risks, and enterprise risks.”

ALTERNATIVE

Staff is open to feedback and suggestions from the Board. At a strategic level, the Board can change the discount to PG&E, reduce the power supply portfolio's carbon-free and/or renewable percentages, and cut the expenditure on the Decarbonization Programs.

Staff does not recommend any specific reductions given a sufficient projected reserve balance that maintains SVCE's stable financial condition.

FISCAL IMPACT

The FY25-26 Operating Budget includes \$358.4 million in revenues and \$398.5 million in expenses, non-operating revenues, and transfers, reducing reserves by 40.1 million.

Finance Policy 9: Financial Reserves

I. Purpose

This Reserve Policy outlines the appropriate types and levels (minimum, goal, and maximum) of financial reserves as prescribed in the following policy. The primary reason for a reserve policy is to be prepared for contingencies, but other reasons also exist. Seven important purposes of a reserve policy are as follow:

- Plan for contingencies. To maintain sufficient reserves to minimize rate increase due to market volatility (power supply shocks or maintain rate competitiveness), weather impacts on demands, economic downturns, emergencies (such as natural disasters), and regulatory changes.
- Maintain good standing with rating agencies. By maintaining sufficient reserves, SVCE can preserve good credit ratings, allowing it to secure power at lower costs, that is, without posting credit enhancements, in the energy markets.
- Avoid interest expense. To avoid interest expense to cover short-term cash shortfalls by having sufficient reserves to use for this purpose, rather than debt.
- Ensure cash availability when revenue is unavailable. To bridge times of the year that normally see temporary low levels of cash.
- Plan for anticipated future rate increases by gradually raising those rates, using reserves to cushion the full impact on customers over an extended time period. For example, if it is expected that rates are highly likely to increase in 3 to 5 years, higher reserves on hand can cushion those rate increases over a more gradual timeframe by drawing down on the accumulated funds that may be in excess of the reserves' goal.
- Manage the risks identified in the Energy Risk Management Policy, which are:
 - Market price risk,
 - Net revenue risk,
 - Counterparty credit and performance risk,
 - Load and generation volumetric risk,
 - Operational risk,

- Liquidity risk, and
 - Regulatory/legislative risk.
- Establish clear expectations between the Board of Directors and staff. A formal reserve policy creates a shared understanding of the proper level and use of reserves.

II. Policy

A. Financial reserves shall be set aside as follows:

The Reserve targets cover the operations of SVCE over a number of days in the event of emergencies or other significant unforeseen events. Three levels are defined, with the first being baseline. Given the purposes stated above, the Reserve shall be maintained at no less than the minimum described below. The operating reserve level described below is recommended as the goal. The Maximum reserve level described below would provide solid reserves for significant fluctuations in revenue or unforeseen circumstances. The Board shall review its reserve levels annually in context of SVCE's overall financial condition of the agency, as well as due to changes to the industry and/or risk factors as described in periodic review of targets below.

- **Minimum Operating Reserve (baseline)** shall be the minimum maintained to cover 120 days of operations of the annual operating budget;
- **An Operating Reserve** goal of covering 350 days of operations of the annual operating budget;
- **Maximum Operating Reserve** to cover 500 days of operations of the annual operating budget.

B. Conditions for Use of Reserves

- For purposes of this policy, use of reserves is defined as a projected or estimated¹ reduction in reserves by fiscal year-end. A temporary reduction in cash consistent with the expected peaks or dips in revenues and expenditures are normal cyclical occurrences to be expected during the fiscal year, and do not constitute a use of reserves.
- The reserves may be drawn down upon by the CEO during the year, up to the lesser of 10% of the year's budgeted cost of power supply, or \$30 million, to:
 - Cover increases in power supply expenses due to spikes in costs and/or due to higher customer demand;
 - Provide necessary funds to make up for unanticipated revenue shortfalls;
 - Meet any margin or collateral posting requirements under energy supply contracts; and,
 - Provide resources to meet emergency expenditures.
- If further use of reserves are needed to manage the operations of the organization, or if the use of reserves would bring the balance below the Minimum Operating Reserve baseline, the CEO must present recommendations to the Board and the Board must authorize any such use.

C. Replenishment of Reserves

- Should SVCE drawdown reserves below the Minimum Operating Reserve level, SVCE will consider plans to return reserves to their minimum targets within two (2) fiscal years. Such plans will be provided in subsequent budget and rate discussions with the Board.

¹ It is not practical to wait the formal fiscal year end closing of the accounting records to determine if the reserves have been "used". Therefore, it is appropriate for staff to estimate reserve levels, with the important amount being what is estimated for fiscal year end.

D. Excess Reserves

- If reserve funds are projected to exceed the maximum level, the CEO shall present options for consideration by the Board of Directors for proper disposition of those reserves during the next budget cycle. In computing excess reserves, the reserve balance will be reduced for earmarked funds or allocated but unspent funds.

E. Reserves between Minimum and Maximum

- To the extent that reserves are above target and below the maximum, no other action by SVCE would be required.

F. Periodic Review of Reserve Goals

- Reserve goals shall be periodically reviewed for consistency with industry standards. If significant risk factors are eliminated or significant new risks emerge as a result of changes in the industry, legislation, or economic conditions, the basis of the reserve policy shall be reviewed, and the funding level shall be adjusted accordingly. Unless the Reserves are approaching minimum levels, formal Reserve funding discussions with the Board may await the next budget process.

G. Reporting

- Reserve levels will be monitored during the fiscal year and reported in the quarterly financial reports. Reserve target levels (minimum and maximum) will be analyzed annually, and over/under reserve determination shall be made in conjunction with year-end financial results. These results will be reported to the Board of Directors as part of the year-end financial report presentation.

FY 25-26 includes additional bill credit to low income customers totaling \$4.1 million. 1% discount for 2026-2030. 2. Each year the Board transfers funds from the Operating Budget to the Decarbonization Programs Fund as shown in the above forecast under line item Transfers to Programs Fund. The line item Adjustment for Program Expenditure accounts for the difference between forecasted spend for programs versus the amount transferred to the fund. This adjustment is needed because program spending to date has been less than the amount transferred to the programs fund. The \$20 million in building Fund is assumed to be spent between FY24-25 and FY25-26.
