

**REQUEST FOR PROPOSALS**

**FOR**

**DECARBONIZATION POLICY COORDINATION AND  
STRATEGIC PARTNERSHIP SERVICES**

Responses to Respondent Questions  
Posted: March 23, 2026

- 1. P. 20, Task 2 "Electrification Region-wide Implementation Support" - if the proposer believes that additional resources may be needed to conduct the comprehensive landscape analysis or mapping, should that be noted in the Scope of Services (Exhibit A) and included as an estimated cost item in Compensation (Exhibit C)?**

The proposer may include potential resources to perform the tasks included in the scope of work, however, it is not expected that this activity will exceed the expected cost outlined in the request for proposal.

- 2. P. 20, Task 2, "Regional Workforce Readiness Assessment" - if the proposer believes that additional resources, such as a labor market research firm, may be needed to conduct the assessment in question, should that be noted in the Scope of Services (Exhibit A) and included as an estimated cost item in Compensation (Exhibit C)?**

Yes, the proposer may include proposed adjustments to the scope as long as the proposer provides sufficient rationale for the addition of resources not mentioned in the original scope.
