

## Executive Summary

<p>Briefly explain the project, including technology, capacity size, location, and COD. Include a summary of your company, including corporate headquarters and website address.</p>	
<p>In detail, please describe the respondent's experience within CAISO and other WECC markets. Please list Who on your staff or consultant basis will be managing your interconnection agreement process with the transmission company? Could you explain their expertise and experience in working with the transmission company? Could you explain a specific event that your company or this individual(s) has experienced an unexpected delay by the transmission company, how that event was handled and how you were able to escalate the situation. Was the outcome favorable to the developer or was the project delayed? Who on your staff or consultant basis will be managing your new resources becoming registered through the CAISO process? Could you explain their expertise and experience in working with the CAISO. Who specifically have you worked with at the CAISO on past projects? Could you provide an example of a specific event(s) that your company or this subject matter expert has experienced unexpected delays by the CAISO and how that event was handled? How did you escalate the situation? Was the outcome favorable to the developer or was the project delayed or terminated?</p>	
<p>Provide a summary of ownership or joint ownership of the resource.</p>	
<p>Provide a description of project financing plan.</p>	
<p>Provide a description and details of any existing transmission service from the facilities' point of interconnection, including any details that are available about any past system impact studies or facility studies for service that originated or would have originated from the facilities' point of interconnection.</p>	

<p>Please describe the status of interconnection agreement including status of open modification requests and interconnection agreement amendments, including the status of any required or optional system upgrades (reliability or deliverability related).</p> <p>Provide details regarding any CAISO sponsored deliverability studies from the facility.</p>	
<p>Please identify the necessary permits, including land use entitlement permit (e.g., Conditional Use Permit (CUP), Application for Certification (AFC), Record of Decision (ROD)) from lead land use permitting agency and all discretionary permits from other lead, trustee and/or responsible agencies including wildlife agencies. Describe the status of all permits, including planned efforts to obtain these permits, the status of discussions with state and federal wildlife agencies, and any recommendations regarding permits from those agencies.</p>	
<p>Please state whether the project may impact any federal, state, local or other conservation designations or planning effort, and if yes, what they are. Describe any onsite efforts that the project has made to avoid impacts to protected areas, habitats, and habitat linkages (especially for threatened and endangered species) and open space in urbanized areas.</p>	
<p>"Multi-benefit energy projects" provide additional societal, health, economic, water saving, or environmental benefits beyond the climate and GHG reduction benefits of renewable energy. Please describe any additional benefit(s) that your project demonstrates.</p>	
<p>Please describe the type of materials used for the project equipment, and whether there are any toxic materials used. Describe how such materials will be safely disposed of or recycled at the end of the project's life, including any decommissioning plans and plans for disposal of equipment at the end of the project's life.</p>	

<p>Please confirm that this proposal for storage facilities does not rely on equipment or resources built with forced labor. Consistent with the business advisory jointly issued by the U.S. Departments of State, Treasury, Commerce and Homeland Security on July 1, 2020, equipment or resources sourced from the Xinjiang region of China are presumed to involve forced labor.</p>	
<p>Does your organization typically utilize or require your prime contractor to utilize multi-trade project labor agreements?</p>	
<p>Does your organization typically utilize community benefit agreements?</p>	
<p>Will the workforce for this project be paid prevailing hourly wages?</p>	
<p>For this project, do you plan to support and use State of California approved apprenticeship programs and / or graduates of local pre-apprenticeship programs?</p>	
<p>For this project, do you plan to use a Project Labor Agreement or similar agreement?</p>	
<p>Please list the projected number of new jobs (both part-time and full-time) that would be created during the construction and operation phases.</p>	
<p>If known, please list the CalEnviroScreen score of the community in which the project will be located and any increases or decreases in air pollution and other environmental impacts due to the proposed project.</p>	
<p>Please list three professional references.</p>
