

## Business Rebate Program Equipment Specifications

Customers who meet the Business Rebate Program Qualifications are eligible.

- Non-profit customers or schools have higher rebate amounts for all equipment.
- Rebate amounts can't exceed equipment and electrical infrastructure costs.

Equipment Specification Details					
Appliance		Required Specifications	Recommended Specifications (not required)	Rebate Amount	Non-profit Adder
<b>Residential Heat Pump Water Heater (40-80 gal) (HPWH)</b>	Gas Replacement	Uniform Energy Factor (UEF) of 3.1 or greater unless a 120V or split system HPWH	Wi-fi capable or equipped with CTA-2045 port to allow grid connectivity	<b>\$2,000 per unit</b>	<b>\$1,000</b>
	Or Electric resistance replacement	Capacity equal to or greater than 40 gallons Instantaneous and tankless water heaters do not qualify Existing gas water heater should be removed Proof of permitting required			
<b>Commercial Heat Pump Water Heater (81-120 gal) (HPWH)</b>	Gas Replacement	Uniform Energy Factor (UEF) of 3.1 or greater unless a 120V or split system HPWH	Wi-fi capable or equipped with CTA-2045 port to allow grid connectivity	<b>\$4,000 per unit</b>	<b>\$1,000</b>
	Or Electric resistance replacement	Capacity equal to or greater than 81 gallons Instantaneous and tankless water heaters do not qualify Existing gas water heater should be removed Proof of permitting required

<b>Heat Pump Space Heating &amp; Cooling (3-20 tons) (HP)</b>	Gas furnace replacement	<p>Seasonal Energy Efficiency Rating (SEER) cooling efficiency of 17 or greater</p> <p>Ducted central and ductless mini-split systems eligible</p> <p>Existing air conditioning not required</p> <p>Existing gas furnace should be removed. Dual-fuel systems not allowed</p> <p>Proof of permitting required</p>	<p>Wi-fi capable heat pump</p> <p>Existing ductwork sealed as required by Title 24 energy code</p> <p>Replacement ductwork insulated to a minimum of R-8</p>	<p><b>\$600/ton of cooling</b></p> <p><b>Up to \$2,500 for electrical infrastructure</b></p>	<b>\$3,000</b>
<b>Point-of-Use Electric Water Heater</b>		<p>Capacity between 2.5 and 10 gallons</p> <p>Tankless water heaters do not qualify</p> <p>120V</p> <p>Serves low load application (e.g., single lavatory or faucet)</p>		<b>Up to \$400 per unit</b>	-
<b>Residential Induction Cooktop or Range</b>	Gas replacement	<p>Both standalone cooktops and ranges with built-in induction cooktops are eligible</p> <p>Must install an induction cooktop/range measuring 24" or larger</p> <p>Invoice and receipt required</p> <p>Proof of permitting not required</p>	ENERGY STAR certified induction cooktop	<b>\$500/unit</b>	-
<b>Commercial Induction Cooktop or Range</b>	Gas replacement or displacement	Minimum 2.5 kW per hob, minimum 208V	UL Listed or NSF/ETL/CSA Certified	<p><b>Up to \$5,000 per project</b></p> <p><b>Up to \$2,500 for electrical infrastructure</b></p>	-
