

Calculate Your Savings with Silicon Valley Clean Energy

Silicon Valley Clean Energy (SVCE) is a community-owned electricity provider offering renewable and clean energy at lower rates for 13 Santa Clara County communities.

This worksheet will help you compare what you would be paying per month for PG&E electricity generation services to what you are paying for SVCE generation services.

Your Silicon Valley Clean Energy electric charges will appear on your PG&E bill and you will receive a credit from PG&E on the bill since you are no longer purchasing its power. Below we explain how to calculate your savings.*

*Worksheet does not apply to NEM customers.

As a GreenStart customer here's how you calculate your savings:
