

FutureFit Fundamentals Contractor Training

Earn \$500 for a 5-Hour Online Course

You are invited to participate!

General contractors, electricians, heating and air conditioning contractors, plumbers and solar installers who live or work in Santa Clara County **receive a \$500 stipend upon completion of the FutureFit Fundamentals Contractor Training.**

The online course provides the latest in all-electric building practices to prepare you to serve the growing demand for all-electric technologies. Training can be completed within 4-5 hours from the comfort of your own home.

Course Overview:

Electrification 101 | All-Electric HVAC | Heat Pump Water Heating
All-Electric Home Appliances | Home Solar+Battery Storage

After completion of the course, eligible contractors may also qualify to receive up to \$5,000 for installing selected electric appliances in their home or business within Silicon Valley Clean Energy's service territory.
